GTE also filed reply comments. All participants in the proceeding favor the adoption of summary decision procedures. Each suggests that the proposed rule be modified in a number of respects or that the precise meaning of its provisions be classified. The final rules, whose provisions vary in content and arrangement from those proposed, are set out in the attached Appendix. Suggestions made in the comments and changes in the proposed rule are discussed below.

3. Standard for grant or denial of a motion for summary decision. Each of the participants asks for clarification of the following standard for grant or denial of a motion for summary decision, set out as paragraph (b) of the proposed rule:

(b) The presiding officer may grant such motion if the pleadings, affidavits, material obtained by discovery or otherwise, admissions, or matters officially noticed, show that there is no genuine issue as to any material fact and that a party is entitled to summary decision.

Comment is in particular directed to the concluding passage, "and that a party is entitled to summary decision." The FCBA Committee asks that the Commission state the intended meaning and scope of that passage. The ABA suggests that the provision be deleted or that it be rewritten to make its meaning clear. GTE, on the other hand, stresses the importance of the provision, as indicating that "the presiding officer has the necessary discretion to deny a motion for summary decision notwithstanding superficial satisfaction of the literal requirement that there be 'no genuine issue as to any material fact,'" and urges that this be made clear by the Commission, both in this narrative statement and by modification of the rule.

[1] The views of the FCBA Committee are its own and not necessarily those of the FCBA or of its Executive Committee.

4. The standard set forth in the proposed rule is the same as that set out as section 2 of Administrative Conference Recommendation No. 20 and closely parallels the third sentence of Rule 56(c) of the Federal Rules of Civil Procedure, which reads as follows:

> The judgment sought shall be rendered forthwith if the pleadings, depositions, answers to interrogatories, and admissions on file, together with the affidavits, if any, show that there is no genuine issue as to any material fact and that the moving party is entitled to a judgment as a matter of law.

On its face, the meaning of the underlined passage is unambiguous: If the motion is to be granted, the moving party must, of course, show that the facts as established entitle him to judgment as a matter of law. As a matter of practice, however, the passage has been given additional significance. Thus, though Rule 56(c) provides that where the required showing is made, "the judgment sought shall be rendered forthwith," Federal judges have exercised broad discretion in denying a motion for summary judgment where the required showing was made but application of the rule was considered inappropriate due to the nature of the case or of circumstances surrounding the request.

5. The standard for action on a motion for summary decision proposed herein is essentially the same as the standard prescribed by Rule 56(c), as construed by the courts. Differences in wording follow from the fact that the Commission renders "decisions" rather than "judgments" and that its decisions reflect policies of its own making as well as statutory and case law. We wish to make it clear, as GTE requests, that the presiding officer has broad authority to go forward with a hearing, regardless of the showing made, if the nature of the proceeding and of circumstances surrounding the request persuade him that a hearing is desirable. We have, accordingly, modified the standard for grant or denial of a motion for summary decision. The final provision (set out in § 1.251(d)) reads as follows:

> The presiding officer, giving appropriate weight to the nature of the proceeding, the issue or issues, the proof, and to the need for cross-examination, may grant a motion for summary decision to the extent that the pleadings, affidavits, materials obtained by discovery or otherwise, admissions, or matters officially noticed, show that there is no genuine issue as to any material fact and that a party is otherwise entitled to summary decision.

We would note that this provision does not provide for "judgment forthwith" but rather that the presiding officer "may grant" the motion. Further, reference to "a party" rather than "the moving party" leaves open the possibility, however remote, that the facts established may show that a party other than the moving party is entitled to summary decision.

6. To elucidate further, we quote and endorse the following passage from Professor Gellhorn's study, "Summary Judgment in Agency Adjudication,"[2] at page 30:

> The function of [a] summary decision rule, in its broadest application, is to avoid a useless hearing. It promotes decisions on the merits without a trial where no genuine issue of material fact exists. More narrowly, it is designed to operate as a pretrial determination of what material facts do exist without substantial controversy and what material facts are actually and in good faith controverted. The party moving for summary decision has the burden of establishing through a written record that no triable issue exists; and he has this burden even with respect to issues upon which the opposing party would have the burden at the hearing. The moving party's papers should be carefully scrutinized, while the opposing party's papers, if any, should be treated with considerable indulgence. In determining whether to grant the motion, the presiding officer should give due weight to the need for cross-examination (which is unavailable to test affidavit evidence), to the general desirability of demeanor testimony, to the opposing party's access to proof, and to the desirability of full exploration at an evidentiary hearing. [Citation omitted.]

Professor Gellhorn further notes that courts will deny a motion for summary judgment, even though the request is technically within the rule's coverage, where, for example, the evidence is exclusively within the moving party's domain (Study, at p. 4) or where the litigation is complex (ibid., at pp. 4, 12). In the latter respect, we would note that some of the issues in a complex proceeding may be appropriate for summary decision, though the case as a whole is not. Courts also will deny a motion for summary decision where the disputed issue involves the evaluation of conceded facts in terms of legal or policy consequences (Study, at pp. 5–6, 12).[3] Professor Gellhorn also notes that a motion for summary decision should not in fairness be used against parties who appear without counsel (Study, at p. 11). We would temper this observation by noting that parties normally appear without counsel in only the simplest of cases, in which they have personal knowledge of all matters of fact, and that in such cases, the capability of a party to understand and respond to a motion for summary decision may, in fairness, be left to the discretion of the presiding officer. In Commission practice, finally, summary decision may well be useful, though the hearing is expected to consume little time (see Study, contra, at p. 11), since extensive travel by principals, witnesses, and attorneys to the place of hearing could thus be avoided, and delay attributable to problems in scheduling hearings would be eliminated.

7. Time for filing motion: The proposed rule (§ 1.251(a)) provided that the motion for summary decision must be filed at least 20 days prior to commencement of the hearing and that an opposition or countermotion must be filed within 14 days after the motion is filed.[4] The FCBA Committee and the ABA state that inadequate time is allowed under the rules for the preparation of affidavits and the discovery of materials which would be submitted in support of a motion for summary decision. The FCBA Committee suggests that the time restrictions be relaxed. The ABA suggests that the presiding officer be given discretion as to the time for filing the motion.

8. We note initially that the time of the first prehearing conference and of the first hearing session are set by the Chief Hearing Examiner in an order issued shortly after a proceeding is designated for hearing. The prehearing conference will hereafter be scheduled approximately 4 weeks after designation, with the hearing to commence 6 weeks after the conference. The total period (70 days) allows ample time in many cases to prepare for the hearing. This scheduling would also provide ample time (50 days) in many cases for preparation of a motion for summary decision. It is appreciated, on the other hand, that the time allowed would be inadequate in some cases, particularly those involving extensive and contested use of the discovery procedures.

9. The solution of the timing problem, however, does not call for allowing a motion for summary decision to be filed

[2] Ernest Gellhorn, "Summary Judgment in Agency Adjudication," April 1, 1970, a report for the Committee on Agency Organization and Procedure of the Administrative Conference of the United States. Professor Gellhorn's study has been considered by the Commission in this proceeding, and we believe it will be useful to practitioners and members of the staff, many of whom have had no previous experience with summary decision procedures. The study has been printed in "Recommendations and Reports of the Administrative Conference of the United States," Vol. 1, at p. 543. Copies of the study will soon be available from the FCC's Information Officer. See also, Gellhorn and Robinson, "Summary Judgment in Administrative Adjudication," 64 Harv. L. Rev. 612, January 1971.

[3] Assuming that the basic facts are conceded (A did X to B, for example), expert or character testimony may still be appropriate to determine whether A was acting in accordance with accepted industry or community practices, was acting in good faith, or for base or worthy motives. In such circumstances, summary decision of the basic facts would be appropriate, but a hearing on the inferences to be drawn from them or as to the ultimate findings of fact would also be appropriate.

[4] Similar provisions appear in the final rule at § 1.251 (a) and (b).

V 37-74 APR 15 72 XUM

less than 20 days prior to the hearing, but for adjustment of the hearing date to provide an adequate period prior to hearing for completion of collateral procedures (e.g., discovery) and submission of a motion for summary decision. As indicated in the notice of proposed rule making, our purpose in requiring the motion to be filed at least 20 days prior to hearing is, "to avoid undue disruption of arrangements made for the attendance of parties and witnesses at the hearing which would result from submission of a 'last-minute' motion." (Notice, at para 3). If prehearing proceedings are conducted in the orderly manner intended, there is no need to sacrifice this provision.

10. The presiding officer has full authority to alter the dates initially set for the prehearing conference and the hearing. It may often turn out that the initial prehearing conference specified in the Chief Hearing Examiner's order is the "preliminary" conference, and that further conferences and a change in the hearing date will be required in order to accommodate the needs of time for discovery and for the filing of a motion for summary decision. Discovery procedures, properly utilized, are completed prior to the prehearing conference, so that counsel attending the conference, having at their disposal the facts obtained through discovery, can with confidence enter into stipulations, work toward simplification of the issues, exchange exhibits, and list witnesses to be called. Where it appears that extensive use will be made of discovery, it is appropriate for the presiding officer to call, or for counsel to request, a preliminary conference in which counsel outline their plans for discovery and the presiding officer formulates a schedule for its completion and set a date, following completion of discovery, for the prehearing conference.[5] Subsequent adjustment of the schedule is appropriate as the need appears. The motion for summary decision is most appropriately filed after the conference and at least 20 days prior to hearing. Counsel intending to file such a motion can appropriately make their intention known and can ask that the date set for hearing be adjusted to allow adequate time for preparation of the motion. We note in this respect that the presiding officer can elect to proceed with the hearing rather than grant a motion for summary decision, that he may properly indicate in advance his disinclination to grant such a motion, and that a request for delay of the hearing may appropriately be denied in such circumstances. If a motion for summary decision is filed, the presiding officer has full authority to extend the time for filing an opposition or countermotion and should, of course, defer the hearing pending his action on the motion. In short, because the presiding officer has full authority to set the date of the conference and the hearing, there is no need by rule to relax the time restrictions for submission of a motion for summary decision. To confirm and emphasize the presiding officer's broad authority in such matters and to provide guidance concerning the proper conduct of the proceeding prior to hearing, we are adopting two new provisions. Section 1.251(f) deals with the presiding officer's full authority to control the use and prevent abuse of the summary decision procedures, and sets out specific procedures for invoking sanctions in the event of such abuse. Section 1.248(b)(2) provides that a reasonable period prior to commencement of the hearing shall be allowed for the orderly completion of all prehearing procedures, including discovery, and for the submission and disposition of all prehearing motions. It provides further, as appropriate, for a preliminary prehearing conference, to formulate a schedule for the completion of prehearing procedures and to set a date for commencement of the hearing.

11. The FCBA Committee suggests that a motion for summary decision should be allowed after commencement of the hearing, for good cause shown, and subject to the presiding officer's refusal to entertain the motion. It suggests that such motions might appropriately be received during a continuance of the hearing or following the submission of evidence on a dispositive issue.

12. It is our judgment that the motion for summary decision should be filed once, prior to hearing, and not otherwise, and that the possibility of repeated motions as the hearing progresses, during continuances or otherwise, should be precluded. The possibility of avoiding unnecessary hearing sessions in a few cases is outweighed by the potential for delay in many cases attending the submission and consideration of repeated motions for summary decision. Nor do we think that the availability of such procedures should turn on the fortuitous circumstance of a continuance being ordered for other reasons at the precise stage of the hearing at which a motion is considered appropriate. The question as to whether the presiding officer should rule on a dispositive issue following submission of evidence on that issue, with further proceedings conditioned on that ruling, is properly resolved when the proceeding is designated for hearing, at which point the Commission will determine whether to order a separate hearing on the dispositive issue or a full hearing on all issues, and will phrase the issues accordingly. Where an evidentiary hearing has been held on a dispositive issue, moreover, it would appear that the presiding officer should receive proposed findings and issue an initial (rather than a summary) decision.[6]

13. Petition for reconsideration of an order designating a proceeding for hearing. In the notice of rule making, we proposed to substitute summary decision procedures for current procedures (§ 1.111) under which an applicant may petition for reconsideration of an order designating his application for hearing and ask that the application be granted without further proceedings. The FCBA Committee supports this proposal generally but suggests that the right to petition for reconsideration be retained where "only a question of Commission policy is involved, and it is apparent that an evidentiary hearing is not required for determination of that particular policy question." There is some merit in this suggestion. The presiding officer does not make policy but rather implements policies made by the Commission. Nor is he authorized to terminate a hearing ordered by the Commission on the ground that it is not required by Commission policy. It is possible for the Commission to err as to policy in designating an application for hearing and for policy to change following designation in such a way as to obviate the need for hearing. A party should not, in such circumstances, be forced to go through a full evidentiary hearing before having an opportunity to raise the policy issue. Thus, procedures for presenting such questions to the Commission prior to hearing should be provided. However, we are not prepared to provide for reconsideration of any "question of policy." Access to the Commission prior to hearing should be limited to circumstances involving an apparent policy error or change and should not, as the FCBA Committee suggests, encompass the presentation of arguments favoring a change in policy which would obviate the need for hearing.

The term "question of policy", moreover, is insufficiently definitive and would do little to limit the submission of petitions for reconsideration of designation orders. For these reasons, we have decided on an alternative procedure, set out below in § 1.106(a)(2). This section provides that a party may request the presiding officer to certify to the Commission the question as to whether, on policy in effect at designation or adopted since designation, and undisputed facts, a hearing should be held, and provides for certification of the policy question to the Commission upon a finding of substantial doubt. This procedure is available to any party to a case designated for hearing and is not limited to applicants seeking grant without hearing. While affording access to the Commission in a limited number of circumstances where a hearing may be wasteful, the procedure should limit access, as intended, to a small number of unusual cases.

[5] We do not mean to suggest that any greater or lesser use should be made of the discovery procedures than at present, but only that when, in the judgment of the presiding officer, the use of discovery will contribute to the proper conduct of the proceeding, an adequate period (usually prior to the prehearing conference) should be allowed for its completion. Moreover, we would again stress, as we did upon adoption of the discovery rules, that, "When the discovery procedures are invoked, parties and counsel are expected to direct themselves with energy to their successful completion and to take extraordinary measures, if necessary, to avoid undue delay in commencement of the hearing" (11 FCC 2d 185, 192).

[6] We do intend to consider, in a separate proceeding, procedures under which a party could move for decision at the close of any other party's case. However, such procedures would be substantially different from those governing a motion for summary decision.

14. Other suggestions. In accordance with suggestions made in the comments, we have, in § 1.251(e), specified the nature of the presiding officer's opinion and provisions for appeal of his ruling. If the presiding officer's ruling on a motion for summary decision terminates the proceeding, he will issue a Summary Decision, which is subject to appeal or review in the same manner as an Initial Decision. If the presiding officer denies the motion or disposes of less than all of the issues without terminating the proceeding, he will issue a memorandum opinion and order, interlocutory in character, which is subject to appeal, with his consent, under § 1.301. It is also suggested that the Commission reserve the right to specify, in the designation order, that summary decision procedures shall not be utilized in a particular case. We are of the opinion that the Commission has the necessary authority to vary its procedures for a particular case, within statutory limits, with reasonable advance notice to the parties, and that a special provision in this respect as to the availability of summary decision procedures is unnecessary.

15. Editorial changes. Changes in the proposed rules other than those discussed above encompass minor changes in wording, rearrangement of provisions and addition of cross references, and do not appear to require comment or explanation.

16. Authority for adoption of the rules set forth in the attached Appendix is contained in section 4 (i) and (j) and 303(r) of the Communications Act of 1934, as amended, 47 U.S.C. 154 (i) and (j) and 303(r).

17. In view of the foregoing: *It is ordered*, That Part 1, the rules of practice and procedure, is amended as set forth below, and that this proceeding is terminated. The new procedures shall apply to cases designated for hearing on or after May 19, 1972.

(Secs. 4, 303, 48 Stat., as amended, 1066, 1082; 47 U.S.C. 154, 303)

Adopted: April 5, 1972.

Released: April 12, 1972.

FEDERAL COMMUNICATIONS COMMISSION,[7]
[SEAL] BEN F. WAPLE,
Secretary.

Part 1 of Chapter I of Title 47 of the Code of Federal Regulations is amended as follows:

1. In § 1.106, the headnote and paragraph (a) are revised to read as follows:

§ 1.106 Petitions for reconsideration.

(a) (1) Petitions requesting reconsideration of a final Commission action will be acted on by the Commission. Petitions requesting reconsideration of a final decision of the Review Board will be acted on by the Board or certified to the Commission (see § 0.361 (b) and (c) of this chapter). Petitions requesting reconsideration of other final actions taken pursuant to delegated authority will be acted on by the designated authority or referred by such authority to the Commission. A petition for reconsideration of an order designating a case for hearing will be entertained if, and insofar as, the petition relates to an adverse ruling with respect to petitioner's participation in the proceeding. Petitions for reconsideration of other interlocutory actions will not be entertained.

(2) Within the period allowed for filing a petition for reconsideration, any party to the proceeding may request the presiding officer to certify to the Commission the question as to whether, on policy in effect at the time of designation or adopted since designation, and undisputed facts, a hearing should be held. If the presiding officer finds that there is substantial doubt, on established policy and undisputed facts, that a hearing should be held, he will certify the policy question to the Commission with a statement to that effect. No appeal may be filed from an order denying such a request. See also, §§ 1.229 and 1.251.

. . . . .

§ 1.111 [Revoked]

2. Section 1.111 is revoked.

3. Section 1.248(b) is revised to read as follows:

§ 1.248 Prehearing conferences; hearing conferences.

. . . . .

(b) (1) The presiding officer (or the Commission or a panel of commissioners in a case over which it presides), on his own initiative or at the request of any party, may direct the parties or their attorneys to appear at a specified time and place for a conference prior to or during the course of a hearing, or to submit suggestions in writing, for the purpose of considering any of the matters set forth in paragraph (c) of this section.

(2) Except as circumstances otherwise require, the presiding officer shall allow a reasonable period prior to commencement of the hearing for the orderly completion of all prehearing procedures, including discovery, and for the submission and disposition of all prehearing motions. Where the circumstances so warrant, the presiding officer shall, promptly after the hearing is ordered, call a preliminary prehearing conference, to inquire into the use of available procedures contemplated by the parties and the time required for their completion, to formulate a schedule for their completion, and to set a date for commencement of the hearing.

. . . . .

4. Section 1.251 is added to read as follows:

§ 1.251 Summary decision.

(a) Any party to an adjudicatory proceeding may move for summary decision of all or any of the issues set for hearing. The motion shall be filed at least 20 days prior to the date set for commencement of the hearing. The party filing the motion may not rest upon mere allegations or denials but must show, by affidavit or by other materials subject to consideration by the presiding officer, that there is no genuine issue of material fact for determination at the hearing.

(b) Within 14 days after a motion for summary decision is filed, any other party to the proceeding may file an opposition or a countermotion for summary decision. A party opposing the motion may not rest upon mere allegations or denials but must show, by affidavit or by other materials subject to consideration by the presiding officer, that there is a genuine issue of material fact for determination at the hearing, that he cannot, for good cause, present by affidavit or otherwise facts essential to justify his opposition, or that summary decision is otherwise inappropriate.

(c) Affidavits shall be made on personal knowledge, shall set forth such facts as would be admissible in evidence, and shall show affirmatively that the affiant is competent to testify to the matters stated therein.

(d) The presiding officer may, in his discretion, set the matter for argument and call for the submission of proposed findings, conclusions, briefs or memoranda of law. The presiding officer, giving appropriate weight to the nature of the proceeding, the issue or issues, the proof, and to the need for cross examination, may grant a motion for summary decision to the extent that the pleadings, affidavits, materials obtained by discovery or otherwise, admissions, or matters officially noticed, show that there is no genuine issue as to any material fact and that a party is otherwise entitled to summary decision. If it appears from the affidavits of a party opposing the motion that he cannot, for good cause shown, present by affidavit or otherwise facts essential to justify his opposition, the presiding officer may deny the motion, may order a continuance to permit affidavits to be obtained or discovery to be had, or make such other order as is just.

(e) If all of the issues (or a dispositive issue) are determined on a motion for summary decision, no hearing will be held. The presiding officer will issue a Summary Decision, which is subject to appeal or review in the same manner as an Initial Decision. See §§ 1.271–1.282. If some of the issues only (including no dispositive issue) are decided on a motion for summary decision, or if the motion is denied, the presiding officer will issue a memorandum opinion and order, interlocutory in character, and the hearing will proceed on the remaining issues. Appeal from interlocutory rulings is governed by § 1.301.

(f) The presiding officer may take any action deemed necessary to assure that summary decision procedures are not abused. He may rule in advance of a motion that the proceeding is not appropriate for summary decision, and may take such other measures as are necessary to prevent any unwarranted delay.

[7] Concurring statement of chairman Burch, in which commissioner Wiley joins, filed as part of the original document; Commissioner Robert E. Lee absent.

VOL 37-74 APR 15 72 XUM

(1) Should it appear to the satisfaction of the presiding officer that a motion for summary decision has been presented in bad faith or solely for the purpose of delay, or that such a motion is patently frivolous, he will enter a determination to that effect upon the record.

(2) If, on making such determination, the presiding officer concludes that the facts warrant disciplinary action against an attorney, he will certify the matter to the Commission with his findings and recommendations, for consideration under § 1.24.

(3) If, on making such determination, the presiding officer concludes that the facts warrant a finding of bad faith on the part of a party to the proceeding, he will certify the matter to the Commission, with his findings and recommendations, for a determination as to whether the facts warrant addition of an issue as to the character qualifications of that party.

5. Section 1.267(a) is revised to read as follows:

§ 1.267 Initial and recommended decision.

(a) Except as provided in §§ 1.251 and 1.274, or where the proceeding is terminated on motion (see § 1.302), the presiding officer shall prepare an initial (or recommended) decision, which shall be transmitted to the Secretary of the Commission. The Secretary will make the decision public immediately and file it in the docket of the case.

[FR Doc.72-5778 Filed 4-14-72;8:51 am]

[Docket No. 18809; FCC 72-309]

PART 2—FREQUENCY ALLOCATION AND RADIO TREATY MATTERS: GENERAL RULES AND REGULATIONS

Authorization of Ground-to-Air Communications

Report and order. In the matter of amendment of Part 2 of the Commission's rules to permit the authorization of ground-to-air communications on the frequencies 122.65, 122.70 and 122.75 MHz, Docket No. 18809, RM-1881.

1. A notice of proposed rule making in the above-captioned matter was released on March 6, 1970, and published in the FEDERAL REGISTER on March 11, 1970 (35 F.R. 4333). The dates for filing comments and replies have passed.

2. Comments were filed by: Collins Radio Co. (Collins), Sprague Electric Co. (Sprague), Tenneco, Inc. (Tenneco), and Trunkline Gas Co. (Trunkline).

3. The NPRM was the result of a request by the Federal Aviation Administration (FAA) to amend Part 2 of the Commission's rules in a manner which would permit the assignment of frequencies 122.65, 122.70, and 122.75 MHz to FAA Flight Service Stations for safety-of-flight communications with general aviation aircraft. FAA points out that these frequencies are now available for airborne use and thousands of aircraft have the capability to use them, but they are not now authorized for ground-to-air communications. FAA presently renders safety-of-flight service on frequencies in the band 121.975–122.625 MHz pursuant to one of the provisions in footnote US31 to the Table of Frequency of Allocations, § 2.106 of the rules. Because of congestion on those channels, however, FAA recommends that this provision be expanded by shifting the upper limit to 122.775 MHz, thereby incorporating three additional channels for flight service station use.

4. Comments by Sprague, Tenneco, and Trunkline agreed with the Commission's proposal. While Collins did not object to the proposed use, it did indicate concern over the potential of third order intermodulation interference resulting from the mixing of the proposed frequencies with existing flight test station frequencies at the same airport. An interference potential would exist if the mixing produced a signal on a third frequency being received nearby. Collins cites as an example the mixing of the proposed flight service station frequency 122.65 MHz with flight test frequency 123.4 MHz to produce a third order intermodulation product on ground control frequency 121.9 MHz, i.e., (2) (122.65) — 123.4=121.9. The actual mixing occurs in the front end of the receiver experiencing the interference. For interference to occur, both of the offending signals must be present in the receiver front end at sufficient amplitudes to produce a detectable intermodulation product. The problem can thus be alleviated by filtering out one of the offending signals at the input to the receiver or by not assigning one of the frequencies in that particular location.

5. Intermodulation interference is not a new problem nor is it peculiar to the frequencies proposed herein for flight service station use. Moreover, the FAA has informed us that it has developed a computer program which can accurately predict when the introduction of a new frequency at an airport would cause third order intermodulation interference. If such interference is indicated, the FAA has said its current procedure is either to select a different frequency for the proposed station, or to take other corrective action including possibly the installation of appropriate filtering at the receiver site. The availability of three additional frequencies for flight service station use as proposed herein merely provides the FAA with the flexibility of choosing from 11 frequencies instead of the present eight, thereby reducing the overall potential of interference rather than increasing it as suggested by Collins. It would appear, therefore, that the existing procedure is adequate to avoid intermodulation interference, and we see no merit in attaching a secondary status to flight service stations as proposed by Collins.

6. Petition RM-1881, encaptioned above, is essentially a restatement by FAA of its support for the Commission's proposals issued in the original NPRM, and the present action adopting those proposals renders RM-1881 moot.

7. *Accordingly, it is ordered,* That pursuant to the authority contained in section 303 (b), (c), and (r) of the Communications Act of 1934, as amended, effective May 19, 1972, Part 2 of the Commission's rules is amended as set forth below. *It is further ordered,* That this proceeding is hereby terminated.

(Secs. 4, 303, 48 Stat., as amended, 1066, 1082; 47 U.S.C. 154, 303)

Adopted: April 5, 1972.

Released: April 11, 1972.

FEDERAL COMMUNICATIONS COMMISSION,[1]

[SEAL] BEN F. WAPLE, *Secretary.*

Part 2 of Chapter I of Title 47 of the Code of Federal Regulations is amended as follows:

In § 2.106 footnote US31 is amended to read as follows:

US31 Except as provided below, the band 121.975–123.075 MHz is for use by private aircraft stations.

The frequencies 122.80, 122.85, 122.95, 123.00, and 123.05 MHz may be assigned to aeronautical advisory stations.

The frequency 122.90 MHz may be assigned to aeronautical multicom stations.

Air carrier aircraft stations may use 122.00 MHz for communication with aeronautical stations of the Federal Aviation Administration and 122.80 MHz for communication with other aircraft and with aeronautical advisory stations.

Frequencies in the band 121.975–122.775 MHz may be used by aeronautical stations of the Federal Aviation Administration for communication with private aircraft stations only, except that 122.0 MHz may also be used for communication with air carrier aircraft stations concerning weather information.

[FR Doc.72-5779 Filed 4-14-72;8:51 am]

[Docket No. 18867; FCC 72-327]

PART 73—RADIO BROADCAST SERVICES

Modulation of Carrier of Standard Broadcast Stations

Report and order. In the matter of amendment of Part 73 of the Commission's rules and regulations concerning Standard Broadcast Stations to prescribe a limit on positive modulation.

1. This proceeding primrily concerns a proposed amendment of § 73.55 of the Commission's rules and regulations, which governs the practices to be followed in the modulation of the carrier of a standard broadcast station. This section requires, among other things, that negative modulation peaks be limited to 100 percent. We proposed that the rule be amended to apply the same limit to positive peaks.[2] As an ancillary matter, an amendment is proposed of the definition of percentage modulation (amplitude), set forth in § 73.14(1), to provide for separate definitions for modulation in the positive and negative directions.

2. As a reason for this proposal, we cited the fairly recent availability and use of broadcast transmitters purposely designed to have modulation capability greatly in excess of 100 percent, and the likelihood that broadcasters paying for transmitters with this capability would expect to use it. This can be done by supplying such transmitters with an asymmetrically limited audio signal, so polarized that, while negative excursions of the carrier are controlled, positive excursions may be produced whose magnitudes are limited only by the transmitter's ultimate modulation capability. Such operation would not violate § 73.55, as presently written. A station operated in this manner, we suggested, would cause interference to other stations in excess of that produced by a transmitter of the same carrier power, but with a more restricted modulation range, and in excess of that which was contemplated when the cochannel and adjacent channel desired/undesired carrier ratios contained in the Commission's rules were established. In addition, we raised the possibility that such severely asymmetrical modulation could result in undue audio distortion and excessive carrier shift.

3. We recognized that the waveforms of certain natural sounds are asymmetrical, and that it is accepted practice to polarize the output of sound transducers so that the higher peaks of such waveforms modulate the carrier in a positive direction. Thus, even without audio processing, modulation in excess of 100 percent in the positive direction can be achieved, without negative peaks causing carrier cutoff. Accordingly, while we proposed a rule amendment which would limit positive peaks to 100 percent, we asked for comment on what higher limit might be desirable to accommodate such natural asymmetries.

4. The notice of proposed rule making herein, adopted May 20, 1970, specified August 3, 1970, and September 3, 1970, as the respective deadlines for filing comments and reply comments. These dates were later extended by order until November 5, 1970, and December 2, 1970. Thirty-two parties filed comments (see Appendix A). Gates Radio Co., in addition to an earlier pleading, filed supplementary comments on December 7, 1970, with a petition requesting their acceptance. The comments report the results of certain transmitter tests which are pertinent to the matters considered in this proceeding. Accordingly, these late comments are hereby accepted.

5. Five parties support the adoption of a 100 percent positive modulation limit. Some of these parties, speaking for the small broadcaster, urge that the continuing development and use of equipment designed to permit higher and higher average levels of modulation creates a competitive situation imposing economic penalties on the broadcaster who chooses not to enter the competition, and which is detrimental to the more conservative operator, who is called upon to explain why his station is not as "loud" as other stations in his community. Increased distortion and interference are cited as byproducts of such high modulation levels.

6. The Clear Channel Broadcasting Service (CCBS), an organization representing 11 independent Class I–A clear channel stations, states, "Based on tape recordings made by CCBS in the field during the past two decades, cochannel and adjacent channel interference has increased substantially due in significant part to excessive modulation levels." Clear channel stations, it observes, cannot employ unusually high levels of modulation in an attempt to compensate for such increased interference, because its employment results in an increase in distortion experienced with selective fading of signals in the secondary service area. CCBS suggests that there is no need to provide "headroom" to accommodate naturally occurring asymmetrical waveforms, since appropriate signal processing can minimize asymmetries. Even though the Commission adopts a 100 percent positive modulation limit, which it recommends, CCBS contends that this measure alone may not be effective in controlling interference caused by improper modulation practices, since this limit may be maintained in station operation by "hard" clipping of peaks, productive of adjacent channel "splatter." [2] (A similar observation is made by Station KLNG, and offered as a reason why no limit should be placed on positive going modulation.)

7. Approximately one-half of all the comments received opposed the setting of a positive modulation limit. The majority of these comments came from individual broadcaster, or from attorneys representing two or more stations, many or all of which appear to have been employing transmitters and auxiliary equipment producing positive modulation peaks substantially in excess of 100 percent.[3] A number of these stations utilize an "Audio Pilot," a device developed by George Frese, a consulting engineer practicing in the Northwest, who filed a separate pleading urging that no restriction be imposed. According to Mr. Frese, the Audio Pilot operates automatically to polarize the higher peaks in the complex modulating audio waveform so as to produce positive going modulation. The negative peaks are limited, but no restriction is placed on positive peaks.[4] Mr. Frese claims that the use of his system results in a "phenomenal" increase in the service area of the station employing it, but insists that it "does not in any way cause additional harmful objection [sic] offensive interference to any of his fellow broadcasters." He contends that this conclusion is arrived at after field observations of the operation of stations equipped with the "Audio Pilot." In addition, the effects of "loud commercials" are minimized, and the audio signal is of much better quality than if symmetrical limiting were employed. Mr. Frese states that although he has made 35 installations of his "Audio Pilot," in only two cases has he experienced difficulty in producing a substantial degree of positive peak modulation in modern broadcast transmitters. He cites a few spot field intensity measurements in connection with aural observations to support his contention that station equipped with the Audio Pilot do not cause greater cochannel interference than existed before the Audio Pilot was installed. He attributes decreases in adjacent channel interference to "cleaner" sideband power.

8. Mr. Frese does not state the peak modulation percentages that can be achieved by the use of his system, although he mentions a "4 db" increase in sideband power. However, Jack Shuetts, head of the engineering department of KMBY Monterey, Calif., which recently purchased an Audio Pilot states "This device * * * has the capability of modulating the transmitter to an excess of 180 percent positive peaks * * *". (It is to be noted that KMBY is a Class IV station, 1 kw. day, 250 watts night, and this capability may refer only to the night time operation, in which the transmitter may have a large excess of modulation capability.)

9. Gates Radio Co., manufacturers of broadcast equipment, including transmitters and limiters, has filed a report of

---

[1] Commissioner Robert E. Lee absent; Commissioner Johnson concurring in the result.

[1] Section 73.55 presently reads as follows: The percentage of modulation shall be maintained as high as possible consistent with good quality of transmission and good broadcast practice. In no case is it to exceed 100 percent on negative peaks of frequent recurrence. Generally, it should not be less than 85 percent on peaks of frequent recurrence; but where necessary to avoid objectionable loudness modulation may be reduced to whatever level is necessary, even if the resulting modulation is substantially less than 85 percent on peaks of frequent recurrence.

[2] It would appear that the practice is not confined to stations using transmitters with excessively large modulators. A transmitter designed for operation at two power levels (e.g., 1 kilowatt daytime, 250 watts nighttime) and adjusted to the lower power level by reducing the input power to the final RF stage, has a capability for high levels of modulation when operating at the lower level.

[3] CCBS suggests that in a further proceeding we consider revisions of § 73.40 (12), (13), and (14) to provide "clearer and more useful guidelines on the permissible out of channel radiation, together with instrumentation to indicate compliance with the rule."

[4] As described, the functioning of the Audio pilot, as described above, appears to be similar to that of at least two other commercially available makes of asymmetrical limiters.

APR 15 72 XUM

measurements made on an especially adjusted transmitter to demonstrate that positive modulation peaks exceeding 200 percent with program material results in average sideband power which is less than would be produced by 100 percent modulation with a sinusoidal single frequency signal. Since this is the case, Gates argues that excessive levels of interference should not result from high percentages of positive modulation. Two of the other parties to this proceeding have made similar arguments.

10. On the theory that the adverse effects of high percentages of positive modulation will be manifested primarily in increased adjacent channel interference caused by distortion products falling in these channels, CCA Electronics Corp., a manufacturer of broadcast transmitters and other equipment, has submitted the results of measurements intended to show that such interference can be controlled by a low pass filter of suitable characteristics. CCA is of the opinion that most modern broadcast transmitters will accommodate positive modulation peaks of 125–135 percent without undue distortion being generated in the modulation process. CCA has also submitted a report on an extensive post card survey, in which 4,200 stations were asked (1) whether an "asymmetrical peak-limiting compressor" is used by the station, (2) what specific equipment is used, (3) whether to the knowledge of station personnel interference had been caused to other stations through its use, and (4) whether interference had been received from stations "who operate with compressing equipment". Of the 864 stations that replied, CCA states 743 indicated they were using "asymmetrical compression equipment", no station indicated, to its knowledge, that the use of such equipment had resulted in interference to other stations. According to CCA, 12 stations stated they had experienced interefernce as a result of overmodulation by other stations, but such interference was not necessarily produced by the use or misuse of limiting apparatus.

11. Approximately one-third of the parties commenting in this proceeding favored a restriction in the degree of positive modulation, but urged that the maximum permissible level be set above 100 percent, the proposed maximums ranging from 115 to 130 percent.[5] Generally, the reason given for permitting such higher levels is to accommodate naturally asymmetrical waveforms. CBS Laboratories notes that while some natural occurring asymmetries exceed 2db, this appears to be a typical value. It suggests a modulation ceiling of 125 percent for this reason. Furthermore, it urges that "headroom" of this amount is desirable to minimize differences in loudness often experienced in shifts from recorded material to locally organized speech.[6] On the question of cochannel and adjacent channel interference, CBS recognizes that such interference is a function of the modulated carrier only. It states, however, that the level of such interference depends on total audio power, and significant changes in instantaneous peak amplitudes can be made without affecting "the total energy or loudness of a signal."

12. EIA, Westinghouse, and NAB independently arrive at a proposed maximum positive modulation level of about 115 percent. In each case, the limit is determined primarily as a result of a mathematical analysis of the degree of asymmetry which can be tolerated without the resulting transmission exceeding the amount of carrier shift and harmonic distortion permitted by the Commission's rules.[7]

DISCUSSION

13. It is severally and collectively the position of those parties who oppose amendment of the rules to place a limit on positive going modulation that the adverse effects which we see as resulting from a high level of such modulation—increased cochannel and adjacent channel interference, excessive carrier shift and distortion—do not occur, or need not occur if the technique is properly applied. A variety of arguments, but a paucity of useful evidence, is offered in support of these assertions.

14. Frese suggests that the main source of cochannel interference is the interaction of the undesired carrier with the desired, i.e., heterodyne interference, not the modulation on the undesired carrier.

15. Heterodyning can contribute significantly to cochannel interference if it is exceptionally strong and/or the difference in frequency between the desired and undesired signals is sufficiently great to produce a beat frequency well up in the audio range. The latter situation cannot occur if the stations involved are operating within the frequency tolerance prescribed in the Commission's rules. An undesired unmodulated signal producing 5 percent modulation of a desired modulated signal would normally be imperceptible; however, an undesired signal of this relative strength modulated with program material at normal levels will cause interference to the desired signal of a degree which one out of three observers would deem to be objectionable.[8]

INTERFERENCE

16. On the general question of interference, several of the parties argue there should be little danger of excessive interference since the average sideband power produced with normal program modulation, even when positive peaks greatly exceed 100 percent, is lower than the sideband power contributed by 100 percent modulation with a sinusoid of unvarying peak amplitude. Gates demonstrates that this is the case by calorimetric measurements of the output power of a transmitter modulated with program peaks extending to about 200 percent in the positive direction. In the Gates test, the average sideband power was found to be only about 45 percent of the sideband power with 100 percent sine wave modulation.

17. The standard against which the interference causing potentiality of a station employing high levels of positive modulation must be measured is the amount of interference produced by a station modulating with program material and positive peaks not exceeding, or not greatly exceeding 100 percent, not that caused by a hypothetical station utilizing sine wave modulation, as Gates and others would suggest.

18. ABES notes that since the practice of polarizing program peaks to produce positive going modulation long has been followed, any additional interference which might result from naturally asymmetrical modulation has already been taken into account in the observations which led to the establishment of present cochannel ratio, i.e., that the ratio includes the effect of undesired signals modulated in excess of 100 percent. The difficulty with this argument, even if the situation were as ABES suggests, is that in any particular observation of interference of one signal to another, either or both signals might have been modulated in excess of 100 percent. Thus, in a ratio representing the result of many separate observations, the effect, if present, is not taken into account in any systematic way, but rather, cancelled. Relevant to this question, CCBS is of the opinion that broadcast transmitters in

[5] Cecil Lynch, Consulting Engineer, suggests a limit of "100 percent+3db" (approximately 140 percent) provided that measured harmonic distortion does not exceed 10 percent. He supplied the results of a series of measurements made at Station KPOP, Roseville, Calif., which employs a system permitting positive modulation of this magnitude.

[6] CBS points out that recorded material has been previously processed, and in many recordings the ratio of peak to average level has been greatly restricted. "Live" speech has a much greater dynamic range. The station limiter, operating on the peak level of the program material, will reduce the average level of speech as much as 5 decibels with respect to the recorded program, with a consequent drop in the relative loudness of the speech.

[7] The model for the asymmetrical waveform used by EIA differs from that employed by Westinghouse and NAB. Each of the latter presumably were constructed in the same way, and yield identical figures for carrier shift and distortion. Utilizing the EIA model, nonlinear distortion is found to be the controlling factor, whereas Westinghouse and NAB compute carrier shift of 5 percent for a positive modulation level of 115.7 percent.

[8] The ratio of the desired to undesired carrier in the above example is, of course, 20 to 1, the cochannel ratio established in the rules, and the statement made regarding the interference is a simplified statement of the significance of the rule. The ratio was established by a statistical analysis of the results of many observations involving many observers, with various kinds of program material used for modulating the desired and undesired signals. The validity of this determination, originally made a great many years ago, was reaffirmed as a result of an extensive investigation conducted in 1945, in connection with Docket No. 6741.

use at the time the ratio was established were generally incapable of positive modulation much in excess of 100 percent, "soft" limiting in the transmitter occurring of peaks in excess of this level.

19. Whatever the situation may have been at that time, many modern transmitters, the comments attest, have appreciable excess positive modulation capability, and to the extent this is utilized, without excessive negative peak limiting, to accommodate peaks in program material, principally speech, having natural asymmetries, some advantages result. We recognize CBS' contention that broadcasting would be benefited by the imposition of a 100 percent ceiling. However, improvement in the overall interference situation resulting from such a limitation, as compared to a situation where a reasonable degree of latitude above 100 percent is permitted, probably would be small, and, as has been suggested, might be partially or wholly negated by the effects of the rather severe positive peak limiting which might otherwise become necessary. Conversely, the provision of a reasonable amount of "headroom" can result in a better sounding signal, an appreciable increase in average effective service, and, as CBS notes, would make possible the minimizing of abrupt changes in loudness which may result when shifts from recorded to live program material take place. It is the opinion of several of the parties that natural asymmetries can be accommodated under a positive modulation ceiling of 115 to 130 percent. It would appear that many transmitters can easily provide positive peaks of program modulation within this range. The average power present in the sidebands, which, we agree with CBS, is the important factor in cochannel interference considerations, is increased only slightly by the provisions of "headroom" of this general magnitude.[9]

20. If, however, a positive modulation ceiling is not imposed and an audio signal whose natural asymmetry has been emphasized by negative peak limiting is used to modulate a transmitter capable of extreme levels of modulation, the adverse effects produced may no longer be minimal. This is demonstrated by the transmitter tests reported by Gates, previously referred to, which include the results of measurements from which a comparison may be made of the average sideband power produced by symmetrical modulation with program material to the 100 percent limit, and the sideband power produced by similar material with negative peak limiting, and positive peaks going to aproximately 200 percent. The average sideband power in the second instance exceeded the first by 68 percent.

21. As we noted before, we do not have extensive information as to the levels of positive peak modulation attained by those stations who report that, since applying techniques for achieving high levels, they have been providing much stronger demodulated signals in their normal service areas and/or have extended their useful service radii substantially. If the augmented relationship of modulation to carrier exists everywhere in an area comparatively close to the transmitter, both experience and theory would hold that the same relationship will be maintained at greater distances from the station, where the signal may invade the service area of a cochannel station, and the enhanced modulation will be reflected in increased interference to that station. The presumption that this will be the case is so strong it can be refuted only by properly executed engineering measurements demonstrating that this result does not occur. However, the material that has been presented in an effort to show the actual absence of adverse effects consist of the returns of the postal card survey conducted by CCA, the opinions of Mr. Frese and a number of engineers familiar with certain stations operating with enhanced positive peak modulation, based on aural observations, and the results of a few spot field strength measurements made by Mr. Frese.

22. The postal card survey revealed that the great majority of the stations responding to CCA's inquiry employ asymmetrical limiters of some type, and that the operators of these stations have not received complaints they are causing undue interference to other stations. There is no indication which, if any, of these stations operate with very high levels of positive peak modulation. In the few cases where specific comments is made on this point, peaks of 105 to 120 percent are cited. We do not believe that positive modulation of this degree should have an appreciable adverse effect.

23. In any event, increased interference to which a particular station may be subject as a result of excessively high positive modulation by another station, unless it is of major proportions, occurs near the outer edge of a station's service area, where the existing interference level undergoes temporal variations with changing propagation conditions. Most station operators have learned to live with these changes, and ordinarily find it difficult to distinguish between increases in interference from natural causes, and increases which are the result of changed operating practices at interfering stations. This, of course, is particularly true after nightfall, when each station is subject to sky wave interference from numerous sources, some quite distant, which varies greatly in average intensity from night to night. Thus, we believe that the fact that a station does not receive complaints it is causing an unnecessary degree of interference to other station does not prove that such interference is not being caused.

24. Spot measurements supply insufficient information on which to establish whether improvement or degradation of interstation interference, in any particular situation, has occurred, and may provide results which cannot be considered as representative. Thus, in an extreme case, Mr. Frese describes an instance in which adjacent channel interference did not become troublesome until the ratio of the field strength of the undesired to the desired signal approached 100 to 1. Conceding that the 1:1 adjacent channel protection ratio specified in our rules may be conservative, this kind of evidence obviously raises more questions than it answers.

25. We recognize that Mr. Frese, some of the users of the Audio Pilot, and operators of perhaps similar systems claim lower levels of adjacent channel interference are achieved with their systems. A number of those commenting seem to assume that if the modulation process generates no new sideband components falling in adjacent channels, increased interference cannot result from increased modulation levels. Such an assumption, of course, is far from true. The 1/1 desired to undesired adjacent channel ratio in the Commission's rules contemplates a response curve in the "average" receiver which is 26 db "down" at a point 10 kHz removed from the point of maximum response, but would usually be much less at frequencies which include the sideband of an adjacent channel station. It further should be noted that the average broadcast transmitter with "normal" modulation has sideband energy which extends outside its nominal ±5 kHz channel. It should be evident that in any given situation the presence of a stronger signal on an adjacent channel, and perhaps more particularly when the stronger signal is the result of a higher level modulation, can be a source of increased interference to a desired signal.

26. The amount of adjacent channel interference observed in any particular situation is affected by a number of variables. If the particular receiver used is more selective than the "average" receiver, the interference experienced on that receiver may be less than would be noticed in the average case. It is also well known (and CCA has demonstrated, although for an assumed channel separation of 20 kHz, rather than 10) that adjacent channel interference, in many cases, can be substantially reduced by the installation, in the broadcast transmitter, of a low pass filter, which attenuates the higher modulation frequencies. (Effective reductions can be achieved in this manner without affecting the transmitter's ability to meet the requirements of § 73.40(a)(4).) On the other hand, excessive nonlinear distortion in the transmitter can result in the generation of components not present in the modulating waveform and, the creation of out-of-channel interference greater than that which would otherwise be present.

[9] We believe this to be true, even though we recognize in either case compression may be used. Thus, within a 100 percent positive modulation limit, a station may be operated with considerable amounts of compression, which in itself, makes possible the modulation of the carrier at a higher average level than otherwise, with a consequent increase in average sideband power.

APR 15 72 XUM

27. Mr. Frese claims that users of his "Audio Pilot" cause no more, and, in many cases less adjacent channel interference than was produced before the system was employed because "good, pure sideband power" is generated. He points out that when transmitters are equipped with the "Audio Pilot," particular care is taken to reduce inherent transmitter distortion to as low a level as possible. He also states that this device includes "a variety of minor control features that do not necessarily fall within the scope of this docket."

28. To the extent that any system which provides more effective control of negative peaks is substituted for a less effective system, adjacent channel "splatter" may be reduced. If an existing situation were bad enough, it is possible that a new system, exercising such control, and at the same time producing positive peak excursions substantially in excess of 100 percent, may, on balance, represent an improvement in this respect. However, this would be the case only if the previous system did not function effectively in controlling negative peaks or if there were other sources of distortion which were reduced when the new system was installed. Under such conditions, if a net reduction in adjacent channel interference is experienced, it would follow that the reduction results, not from enhanced positive peak excursions, but in spite of them.

Distortion

29. We believe it axiomatic that the application of any technique which induces asymmetries in the modulated envelope greater than those present in the natural modulating waveform inevitably contributes distortion. Several of the parties have attempted to demonstrate this with mathematical studies of asymmetrical waveforms. However, such studies are of limited value, since the models employed are artificial, and cannot be considered as closely approximating the actual waveforms involved.

30. On the other hand, we have experimental evidence on this subject, supplied by two of the parties. One of the tests performed by CCA involved the application of sine wave modulation to a modern broadcast transmitter through an asymmetrical limiter of a type very widely used. The following values were recorded:

Modulation

Positive peaks	Negative peaks	Total harmonic distortion
		Percent
95	90	2.0
102	92	3.0
114	85	7.0
127	97	11.0
130	98	15.0
135	99	10.0

31. Cecil Lynch provides the results of measurements made on the KPOP transmitter, which employs a system including separate modulator and RF amplifier power supplies and a "negative peak wave shaper" (essentially a negative peak limiter which provides gradually increasing amounts of limiting beyond 80 percent negative modulation), intended to facilitate extended positive peak modulation. Mr. Lyncl. made sine wave measurements at each of four discrete frequencies disposed over the normal audio spectrum. Set forth below are the results of measurements made at 400 kHz, which are typical of those obtained at other frequencies:

Modulation	Percent distortion
100 percent	1.75
100 percent + 1 db	3.8
100 percent + 2 db	6.6
100 percent + 3 db	9.4
100 percent + 4 db	11.6

32. It should be observed that in both tests distortion increases substantially as the positive modulation level is increased, although in the latter test less rapidly than in the former. Mr. Lynch argues that 10 percent should be the tolerable limit for total nonlinear distortion under such test conditions. This may be contrasted with the limit of 7.5 percent for 95 percent modulation set in § 73.40 of our rules. The transmitters used in both of the tests have far less distortion at 100 percent modulation than the maximum permissible under our rules at 95 percent modulation. A distortion limit of 10 percent would accommodate something above 130 percent positive modulation in the KPOP system, but probably less than 120 percent in the equipment set up utilized by CCA.

33. From the results of these tests it may be concluded that if the Commission were to require equipment performance measurements to be made with audio signal processing equipment in place, and at the highest modulation level each station regularly employs, the recorded values of distortion might well exceed the limit now set in our rules. However it is questionable whether the results obtained in many cases would be reasonably representative of the performance of the tested equipment. For instance, the asymmetrical limiter used in the CCA test, and some other limiters of this general type, when employed with program material process naturally asymmetric waveforms so that the higher peaks in these waveforms will in all cases produce upward deviations in carrier amplitude. Thus, in regular operation, the limiter may accommodate positive peaks considerably exceeding 100 percent, before an appreciable degree of negative peak limiting comes into play. In the CCA test, the limiter was required to distort the sine wave input signal to produce the asymmetrical waveform employed. It seems apparent that the effective degree of distortion produced by such a limiter operating on program material will be less than a sine wave test might indicate.[10] There is of course, a question as to whether the automatic phase reversal process itself constitutes a form of distortion.

Carrier Shift

34. While we cited excessive carrier shift as an adverse consequence of asymmetrical modulation, on consideration of the comments and data filed we are of the opinion that this will not necessarily result. Carrier shift should be apparent only when the modulation process itself ceases to be linear. We recognize that Westinghouse and NAB have submitted mathematical studies purporting to demonstrate that carrier shift of 5 percent might be caused by as little as 115.7 percent positive modulation. However, these studies, and indeed, the EIA study, which also predicts values for carrier shift for specified amounts of positive modulation, seem to be based on the assumption that the asymmetry in the modulated envelope is induced in the modulation process.

35. This, of course, may occur. However, if the asymmetry, whether naturally occurring or artificially induced, is inherent in the audio waveform at the output of the modulator, which is applied to the carrier over a range of amplitudes where its variations are faithfully reproduced in the modulated envelope no carrier shift will be produced, despite the fact that excursions of the carrier of unequal amplitude may be occurring above and below its unmodulated level.[11]

36. Mr. Lynch has provided the results of carrier shift measurements at the KPOP installation which illustrate this point:

Modulation	Carrier shift
100 percent	−1.2 percent
100 percent + 1 db	0
100 percent + 2 db	+1.95 percent
100 percent + 3 db	+4.88 percent
100 percent + 4 db	+8.29 percent

From inspection of the above table, it can be seen that carrier shift does not become significant until positive modulation levels are extended beyond 120 percent, and reaches 5 percent at some point above 140 percent positive modulation. This may be contrasted with a value of 5 percent for a modulation level of 115.7 percent, computed by EIA.

37. Prior to the beginning of this proceeding, Gates Radio Co., provided us with the results of tests which also support this conclusion. In these tests, a transmitter was first modulated 100 percent with a sine wave, and then modulated with the sine wave modified by the partial clipping of alternate half cycles. With the clipped peaks modulating the carrier amplitude in a downward direction, the modulation level was increased until positive peaks reached 125 percent, the maximum capability of that particular transmitter. Under such conditions, the carrier shift was the same as that measured with 100 percent sine wave modulation.[12]

Conclusions

38. The primary concern of the Commission in this proceeding is with the effect of the use of equipment and techniques permitting positive going levels of modulation greatly in excess of 100 percent on the generation of increased cochannel and adjacent channel interference. A station utilizing such equipment and techniques can produce average sideband power which exceeds, in substantial degree if the modulation level is high, the sideband power produced by a more moderate level of modulation. This greater average sideband power is reflected in a stronger demodulated signal in receivers in the station's service area and/or an extension of the limits of this area. The improvement, according to a number of the parties who commented herein, may be marked. Both theory and all prior experience dictate that the same situation must exist at more distant points, where the field produced by the station is comparatively low, but is capable of causing interference to other stations. No party has offered any reason why this should not occur, or has proffered any convincing evidence that such operation does not carry with it an increased potentiality for interstation interference.

39. A carefully engineered system embodying a capability for achieving high levels of positive modulation may incorporate features which may compensate, to some degree, for the potentiality for increased adjacent channel interference otherwise inherent in such operation. However, such features cannot be effective in limiting cochannel interference.

40. Any system of limiting or compression, whether symmetrical or asymmetrical, can be employed to make possible transmission of program material at a higher average level than would otherwise be possible, and the almost universal adoption of limiting techniques by broadcasting stations over the years has resulted in nearly all stations possessing a capability for causing interference in excess of that which existed at the time the protection ratios were established. To the extent the use of these techniques is general, the effect, as between stations, is canceled, although some imbalance obtains between stations who limit and modulate heavily, and those which follow more conservative practices.

41. While, as CCBS suggests, we might attempt to roll back conditions to those which existed many years ago (which would require, as a minimum, establishing a 100 percent positive modulation limit, and prescribing standards for the amount of permissible compression or limiting) we do not see the necessity or even the desirability for this action. With the ceiling for positive modulation set at a reasonable level, sideband power will be increased only slightly.

42. We recognize that, at least in the AM band, the most generally satisfactory and acceptable service to the public may be provided with a considerable restriction on the dynamic range of program material, i.e., for many of the receivers in use, and in listening environments which often have high levels of ambient noise, a large loudness range in the demodulated signal may be undesirable. We further recognize the desirability for providing some "headroom" in which to take advantage of naturally asymmetrical modulating waveforms, and to minimize the possibility that excessive limiting at the transmitter will create differences in loudness between adjacent program segments.

43. While we instituted this proceeding because of our concern with the effects of using newly available transmitters so designed as to be capable of excessively high levels of positive going modulation, the comments filed herein make it evident that the problem is not confined to such transmitters. Many existing transmitters, after some modification and with suitable auxiliary equipment, can be and are operated so as to produce positive modulation peaks far exceeding the 100 percent level.

44. We do not wish to place arbitrary restrictions on modulator design in our type acceptance standards, as suggested by some; we agree with those who suggest that a transmitter with some excess modulating capability can be expected to provide a higher quality signal in normal operation. We therefore adhere to our original intention of applying such restrictions as we think necessary at the point the aural signal is applied to the carrier.

45. After consideration of the comments and other relevant factors, we have decided to modify § 73.55 of the rules to specify a ceiling on positive modulation of 125 percent. This ceiling should be sufficiently high to accommodate the higher peaks of naturally asymmetrical program material, but still not so high as to permit operation under such conditions that average sideband power is increased to troublesome levels. In maintaining modulation levels within this ceiling, individual licensees will undoubtedly employ various amounts and types of positive and negative limiting, with varying degrees of resulting nonlinear distortion. However, it is our intention that the effective amount of such distortion not exceed 7.5 percent, which is the maximum permitted by § 73.40(a)(3). By contemporary standards, this is a generous allowance. A modern transmitter with inherently low distortion at the 100 percent level, and a linear modulation capability up to 125 percent, should be capable of providing a signal meeting this requirement, unless excessive amounts of limiting are employed.

46. Section 73.40(a)(5) prescribes a limit of 5 percent for carrier shift, and this limit, of course, applies in all cases. As we have previously discussed, this should not be a problem with asymmetrical modulation, absent an attempt to drive the transmitter beyond its linear modulation characteristic.

47. Section 73.55 presently places a limit of 100 percent "on negative peaks of frequent recurrence," and in our notice of proposed rule making herein we proposed to apply this limit, in the same terms, to positive peaks. For the reasons we have set forth above, we have decided to permit positive modulation excursions up to 125 percent. However, we are prescribing this figure as an absolute ceiling. The advantage which might be taken of a rule permitting the ceiling to be exceeded by peaks which are not "of frequent recurrence"—a phrase defying precise interpretation—could be so great as to make the rule practically ineffective.

48. We wish to emphasize that this rule amendment is not intended to require or even to encourage licensees to increase levels of modulation above those they have employed to comply with the existing rule, nor should it be taken by equipment manufacturers as an excuse to alter their designs or specifications to facilitate the use of increased modulation levels.

49. As several of the parties point out, some problem exists in monitoring positive modulation peaks above 100 percent. Type approved monitors are not required to have, and many do not have, the capability for indicating positive peaks of this magnitude. Pending the availability of type approved equipment suitable for this purpose, each licensee may employ such means as he may desire to insure compliance with the modified rule, such as an oscilloscope or a composite indicating device. However, we emphasize that we are prescribing an absolute limit on positive excursions of the carrier, and whatever means is employed for modulation monitoring, whether a conventional monitor or other device, must be capable of accurately indicating the maximum instantaneous amplitudes of these excursions and each station must be so operated that the peak amplitudes

[10] We conclude, however, that the test results for KPOP are more nearly representative of its actual performance. A device is employed in audio chain of this station to equalize the positive and negative peaks of program material. Thus, any asymmetry in the modulating waveform results from negative peak limiting only.

[11] The reason for this becomes clear if it is recognized that an asymmetrical wave is not a sinusoid, but includes harmonics so phased with respect to the fundamental that the two half cycles of the composite wave are differently shaped. Each sinusoidal component of the modulating composite wave produces equal positive and negative excursions of the carrier and causes no change in its average level. Since this is true for individual components of the wave, it will also be the case for the sum of these components, if the modulation process is linear. If, in contrast, the applied audio waveform is altered in the modulating process, the distortion products include a steady state component which is added to or subtracted from the carrier. The resulting carrier shift is an indication that such distortion is occurring, and may be considered as a symptom, rather than a disease, itself.

[12] The total harmonic distortion of the transmitter output signal, measured after demodulation, 28.5 percent, is much higher than EIA would predict for a waveform of the type employed. However, the significant point is that this value is only 1 percent higher than the measured distortion in the modulating waveform. The modulating waveform used in these measurements is essentially the same as that employed in the EIA mathematical study, although the clipped peak was undoubtedly somewhat modified in its passage through the modulator. Had the same degree of clipping been produced in the modulation process, with carrier cutoff occurring during negative half cycles, a value of carrier shift might have been observed which approximates the figure EIA gives for 125 percent positive modulation—3.4 percent.

APR 15 72 XUM

observed do not exceed a level equivalent to modulation of 125 percent.[13]

50. We are amending § 73.14(e) essentially as proposed, although the wording has been changed slightly in accordance with CCBS's suggestion that the specification of an "RMS" level of the modulated and unmodulated signal be deleted to avoid possible confusion.

51. *Accordingly, it is ordered,* Effective May 19, 1972, that Part 73 of the rules and regulations, is amended in accordance with the Appendix B below.

52. Authority for the adoption of these rule amendments is found in section 4(i) and 303(r) of the Communications Act of 1934, as amended.

53. *It is further ordered,* That this proceeding is terminated.

(Secs. 4, 303, 48 Stat., as amended, 1066, 1082; 47 U.S.C. 154,303)

Adopted: April 5, 1972.

Released: April 11, 1972.

APPENDIX B

1. In § 73.14, paragraph (m) (formerly paragraph (l)) is amended to read as follows:

§ 73.14 Technical definitions.

* * * * *

(m) Percentage modulation (amplitude):

In a positive direction:

$$M=\frac{MAX-C}{C}\times 100$$

In a negative direction:

$$M=\frac{C-MIN}{C}\times 100$$

Where:

M = Modulation level in percent.
MAX = Instantaneous maximum level of the modulated radio frenquency envelope.
MIN = Instantaneous minimum level of the modulated radio frequency envelope.
C = (Carrier) level of radio frequency envelope without modulation.

* * * * *

2. Section 73.55 is revised to read as follows:

§ 73.55 Modulation.

The percentage of modulation shall be maintained at as high a level as is consistent with good quality of transmission and good broadcast service. In no case shall it exceed 100 percent on negative peaks of frequent recurrence, or 125 percent on positive peaks at any time. Generally, modulation shoud not be less than 85 percent on peaks of frequent recurrence, but where such action may be required to avoid objectionable loudness, the degree of modulation may be reduced to whatever level is necessary for this purpose, even though, under such circumstances, the level may be substantially less than that which produces peaks of frequent recurrence at a level of 85 percent.

[Docket No. 19200; FCC 72-324]

PART 73—RADIO BROADCAST SERVICES

Specification and Measurement of Power of Standard Broadcast Stations

Report and order. In the matter of amendment of Part 73 of the Commission's rules and regulations concerning the specification and measurement of power of Standard Broadcast Stations, Docket No. 19200, RM-1628.

1. On April 8, 1971, responding to a petition filed by Chesapeake Broadcasting Corp., licensee of Station WASA, Havre de Grace, Md., the Commission initiated the above-entitled proceeding. As extended by an order adopted May 21, 1971, the deadlines for filing comments and reply comments herein were set as July 21, 1971, and August 2, 1971, respectively. The time having run, this matter is ready for decision.

2. Briefly, the notice of proposed rule making set forth the general nature, but not the specific text, of proposed amendments to our rules, pursuant to which any station required, because of allocation considerations, to restrict its antenna input power to a value less than its rated transmitter power would be permitted to lower its transmitter output power to the level necessary to produce the required antenna input. Up until the present time, in such a situation, it has been our policy to require the transmitter be operated at its rated power, and that any reduction in antenna input power necessary be achieved through the insertion of a dissipative network of appropriate characteristics between transmitter output and antenna input.

3. We observed that the usual broadcast transmitter is designed to operate at somewhat below its rated power level without an appreciable deterioration in its overall performance, but where a substantial reduction in power is involved (which may be necessary in an instance where the restriction on permissible antenna input power is severe) the satisfactory performance of the transmitter may not be presumed. Accordingly, in such cases, we proposed to require an appropriate showing (equipment performance measurements, pursuant to § 73.47) that the transmitter will function acceptably at the proposed output power level. We invited comments on the degree of power reduction which might be permitted without such a showing being required.

4. We also noted that of alternative methods of accomplishing a required power reduction, one may have less adverse effect than another on transmitter performance. Therefore, once a station has adopted a method which had been demonstrated to result in satisfactory performance, no change from this method should be permitted. We would expect, therefore, that a showing pursuant to § 73.47 would be accompanied by a detailed outline of the method of power reduction.

5. The petitioner had proposed that the antenna resistance specified in the license be modified from its measured value to the extent necessary to make the computed input power equal to the rated transmitter power. This expedient is presently employed in the specification of the common point resistance for directional antennas, to provide for the delivery of additional power to the antenna to make up for coupling system losses, within a licensing system which has heretofore required that the antenna power be equal to one of several specified integral values.

6. We rejected this proposal, as extending into a new area an unrealistic procedure of questionable merit, and proposed instead to consider amendments to the rules pursuant to which each station's license would specify the actual antenna input power, and the measured value of antenna or common point resistance. Under such a system, the fiction that all broadcast transmitters operate at their rated powers no longer would be maintained. However, convenience and long established practice (as well as treaty considerations) require that

standard broadcast stations be listed, notified internationally, and otherwise routinely treated on the basis of integral power classifications. Therefore, the license would also specify the power rating of each station, which would be the same as that which it now is assigned. We asked for suggestions as to a name for this power rating.

7. Timely comments were filed by the following parties:

MIA Enterprises, Inc. (KWBE).
Holland Broadcasting Co. (WHTC).
WNSL, Laurel, Miss.
Fetzer Broadcasting Co. (WJEF).
Littleton Broadcasting Co. (WLTN).
WTHO, Thomson, Ga.
Electronic Industries Association (Broadcast Equipment Section, Communications and Industrial Electronics Division) (EIA).
National Association of Broadcasters (NAB).
Association of Federal Communications Consulting Engineers (AFCCE).

No reply comments were filed.

8. All parties are of the view that when a prescribed restriction on the radiated field requires a limitation in antenna input power to less than the normal level, a downward adjustment of transmitter output power to approach the required antenna input power should be permitted. However, it is an opinion, voiced in several comments, that a reduction in transmitter output power to the degree which may be necessary to produce the required, antenna input power, in an instance where substantial restriction is involved, sometimes may not be practicably achieved. Power reductions of a given magnitude may be reached in some types of transmitters more feasibly than in others. For this reason, the employment of transmitter power reduction techniques in lieu of the use of dissipative networks should be made optional, and, in appropriate cases, a combination of the two methods should be authorized.[1]

9. Both AFCCE and NAB, the only two parties which discussed this particular facet of the question, suggest that transmitter power output may be reduced safely by about 20 percent without appreciable degradation of transmitter performance, and, accordingly, no special showing that performance is satisfactory should be required in instances where the proposed reduction in output power is less than this percentage of the rated power. These conclusions are based principally on the facts that (1) transmitters are designed to operate satisfactorily within the tolerances set in the Commission's rules, which specify a 10 percent negative tolerance, and (2) during World War II all broadcast stations were required to operate with power reduced 1 db (79.4 percent of normal power) and no serious difficulty was experienced.

10. With respect to the showing required with the proposal to operate a transmitter with output power reduced to a greater degree, AFCCE suggests that equipment measurements covering all aspects of transmitter performance specified in § 73.47, including the observation for harmonics and spurious signals, should be conducted at the proposed output power, and that aural performance measurements be repeated with 95 percent modulation at power levels 10 percent above and 10 percent below the proposed power, to demonstrate that satisfactory performance can be maintained over the normally expected operating range. It suggests that the Commission also require a manual capability for adjusting transmitter power output over a ±10 percent range around the proposed power level.

11. Those who commented on the Commission's proposal that stations be licensed on the basis of their actual antenna input powers favored this approach, and the use of the term "nominal power" to refer to a station's rated power. AFCCE has offered specific amendments to §§ 73.14 and 73.47 which reflect its proposals.

12. In our notice, we did not indicate specifically whether we contemplated the total elimination of dissipative networks, with the imposition of appropriate power reductions in all cases where such networks are presently employed, although it perhaps might be inferred from the language of paragraph 14 of that document that we intended such networks be removed at the time of license renewal, at the latest. While the assumption was implicit that any licensee presently employing a dissipative network would choose to dispense with it if a feasible alternative were offered, left undetermined was the status of those licensees now with such networks whose transmitters cannot be adjusted easily for lower power operation, or, when so adjusted, fail to meet the performance requirements of § 73.40.

13. In the light of NAB's and AFCCE's comments it appears that we should provide for the continued employment of dissipative networks in such cases, either to effect the full required power reduction, or to provide, where necessary, for an increment in power reduction beyond that which can be obtained feasibly by changes in the operating parameters of the transmitter. Subject to a full disclosure of the method or combination of methods to be employed, and the submission, where appropriate, of measurements demonstrating that no degradation of transmitter performance is involved, we are willing to leave the choice of methods to each licensee.

14. In the absence of a dissipative network, and assuming, as is customary, no losses in the transmission line, the measured antenna input power is effectively equal to the transmitter output power, and there is no need to specify the latter value separately in the license. If we are to avoid a separate specification of transmitter output power in an instance where a dissipative network is employed, it will be necessary to establish the licensed antenna resistance as the resistance at the input terminals of the dissipative network, which becomes the load to which the transmitter delivers its power. This, of course, is what is done presently in comparable circumstances. In any event, it is probably impossible to specify the actual antenna resistance and actual antenna input power in all cases, since a directional antenna may include a dissipative element as a mesh in the power dividing network, and a resistance measurement at the common point, the last access point to the array, includes the effect of this element.

15. We have decided to require the submission of equipment performance measurements with applications for authority to operate at less than 90 percent of rated transmitter power. While we believe it safe to assume that standard broadcast transmitters may be reduced in power to this level without appreciable degradation of their performance, we have insufficient information to justify such an assumption for greater power reductions. While, as AFCCE and NAB have pointed out, the power of all standard broadcast stations was reduced by 1 db (about 20 percent) during World War II, we do not believe this fact can be taken as evidence that a reduction of such magnitude can be accomplished generally without problems. The wartime power reduction was mandatory, for the purpose of conserving power and materials. It is quite possible that, in many instances, the resulting transmitter performance was less than satisfactory, but was tolerated in furtherance of the overriding wartime objective. Such a compromise, of course, is now unnecessary.

16. We are adopting AFCCE's suggestions as to the nature of the showing to be made in connection with a request to operate with reduced transmitter output power, together with its recommendations as to the kinds of performance measurements which should be made. However, we have decided to incorporate the rules pertinent to this matter as amendments to § 73.51, rather than to section 73.47, as AFCCE proposes. While such a showing will be necessary at this time in each case when regular operation of a transmitter at less than rated output power is contemplated, the adoption of these rules may lead eventually to the type acceptance of standard broadcast transmitters which are demonstrated to operate satisfactorily at other than the fixed power levels specified in the rules. To provide for this contingency, § 73.51 (c)(2) permits a showing that a transmitter is type accepted for the proposed power output level as an alternative to the provision of the more detailed technical information otherwise required.

17. We have no existing rule which contemplates the use of dissipative networks. However, since we propose to continue to permit their installation where appropriate, either separately or in connection with transmitter power reductions, it appears desirable and perhaps necessary that our rules expressly recognize this fact, and include provisions governing their employment. Accordingly, Sections 73.51 and 73.54, as amended herein, include conditions applying to antenna input power reductions achieved

[1] NAB suggests that if the Commission intends to require that all specified antenna input power reductions be accomplished by reductions in transmitter output power a 7-year period for the full implementation of the requirement should be provided.

APR 15 72 XUM

by this means, or by transmitter output power limitations, or both.

18. Other amendments to these two sections involve the substitution of the term "antenna input power" for "operating power". This change was made in the interest of specificity. While "operating power" as it has been used in these sections is obviously synonomous with "antenna input power", the former term is used in other sections of the rules (e.g., §§ 73.21, 73.23, 73.25) for power as designated in the station system of classification—which is "nominal power", under our revised nomenclature.

19. A definition of "nominal power" has been included in § 73.14 and the definition of "operating power" has been modified to reflect its usage in the revised rules.

20. Section 73.52 is amended to specify "antenna input power" in lieu of "operating power", for the reasons set forth in paragraph 17. In addition, we have taken the opportunity to further amend paragraph (b) of this section, which concerns temporary operation with less than licensed power. The rule as presently formulated requires that the Commission and Engineer in Charge be notified when any period of operation with reduced power is begun, and again, when operation with full power is resumed. Since, in many cases, periods of operation with reduced power are quite short, and have no significant effect on general station operation, the existing notification requirement is unnecessarily strict, and burdensome, both to the station licensee and to the Commission. We, accordingly, are amending § 73.52(a) so as to make it parallel the provisions of corresponding sections (§§ 73.267(c) and 73.689(b)(3)) of the FM and television broadcast rules, which we have found to be generally satisfactory in application, and which permit reduced power operation for periods up to 10 days without further authority from the Commission. While this particular amendment has not been the subject of a rule making notice, its nature and effect is such as to make prior notice unnecessary.

21. Existing station licenses will be converted to specify separate values of nominal and antenna input power as the amended rules contemplate at normal renewal times. However, any station presently required to employ a dissipative network, and desiring to reduce transmitter output power pursuant to the amended rules, so as to eliminate the network, or to reduce the power wasted by this means, may file an application for modification of license, supplying the information required by the amended rules, at any time after their effective date.[2]

[2] The rules specify that such applications be filed on FCC Form 302. If the contemplated changes would affect the method of power reduction for presunrise operation authorized pursuant to § 73.99, modification of Presunrise Service Authority should be requested separately by letter, signed in the manner specified in § 1.513. Neither kind of application need by accompanied by a filing fee.

22. *Accordingly, it is ordered,* That effective May 19, 1972, Part 73 of the Commission's rules and regulations is amended as set forth below.

23. Authority for adoption of these rule amendments is found in sections 4 (i) and 303(r) of the Communications Act of 1934, as amended.

24. *It is further ordered,* That this proceeding is terminated.

(Secs. 4, 303, 48 Stat., as amended, 1066, 1082; 47 U.S.C. 154, 303)

Adopted: April 5, 1972.

Released: April 11, 1972.

FEDERAL COMMUNICATIONS COMMISSION,[3]

[SEAL] BEN F. WAPLE,
Secretary.

1. In § 73.14, a new paragraph (c) "Nominal Power" is added and paragraph (c) "Operating Power" is amended, as set forth below, and redesignated (d); old paragraphs (d) through (r) are redesignated (e) through (s).

§ 73.14 Technical definitions.

* * * * *

(c) *Nominal power.* "Nominal power" is the power of a standard broadcast station, as specified in a system of classification which includes the following values; 50 kw., 25 kw., 10 kw., 5 kw., 1 kw., 0.5 kw., 0.25 kw.

(d) *Operating power.* Depending on the context within which it is employed, the term "operating power" may be synonomous with "nominal power" or "antenna power."

* * * * *

2. Section 73.51, and headnote, are amended to read as follows:

§ 73.51 Antenna input power; how determined.

(a) Except in those circumstances described in paragraph (d) of this section, the antenna input power shall be determined by the direct method, i.e., as the product of the antenna resistance at the operating frequency (see § 73.54) and the square of the unmodulated antenna current at that frequency, measured at the point where the antenna resistance has been determined.

(b) The authorized antenna input power for each station shall be equal to the nominal power for such station, with the following exceptions:

(1) For stations with nominal powers of 5 kilowatts, or less, the authorized antenna input power to directional antennas shall exceed the nominal power by 8 percent.

(2) For stations with nominal powers in excess of 5 kilowatts, the authorized antenna input power to directional antennas shall exceed the nominal power by 5.3 percent.

(3) In specific cases, it may be necessary to limit the radiated field to a level below that which would result if nominal power were delivered to the antenna. In such cases, excess power may be dissipated in the antenna feed circuit (see § 7354 (a) and (d)), and/or the transmitter may be operated with power output at a level which is less than the nominal value.

(i) Where a dissipative network is employed, the authorized antenna current and resistance, and the authorized antenna input power shall be determined at the input terminals of the dissipative network.

(ii) Where the authorized antenna input power is less than the nominal power, subject to the conditions set forth in paragraph (c) of this section, the transmitter may be operated at the reduced power level necessary to supply the authorized antenna input power.

(c) Applications for authority to operate with antenna input power which is less than nominal power and/or to employ a dissipative network in the antenna system shall be made on FCC Form 302. The technical information supplied on section II–A of this form shall be that applying to the proposed conditions of operation. In addition, the following information shall be furnished, as pertinent:

(1) Full details of any network employed for the purpose of dissipating radio frequency energy otherwise delivered to the antenna (see § 73.54).

(2) A showing that the transmitter has been type accepted for operation at the proposed power output level, or, in lieu thereof:

(i) A full description of the means by which transmitter output power will be reduced.

(ii) Where the proposed transmitter power output level is less than 90 percent of nominal power, equipment performance measurements, as specified in § 73.47, conducted at the proposed power output level; in addition, the measurements and observations required by § 73.47(a) (1), (2), (3), and (5) for power output levels 10 percent above, and 10 percent below, the proposed output level, but at a modulation level of 95 to 100 percent only. Such measurements must demonstrate that, operating at the proposed power output level, the transmitter meets the performance requirements of § 73.40.

(iii) A showing that, at the proposed power output level, means are provided for varying the transmitter output within a tolerance of ±10 percent, to compensate for variations in line voltage or other factors which may affect the power output level.

(d) The antenna input power shall be determined on a temporary basis by the indirect method described in paragraphs (e) and (f) of this section in the following circumstances: (1) In an emergency, where the authorized antenna system has been damaged by causes beyond the control of the licensee or permittee (see § 73.45), or (2) pending completion of authorized changes in the antenna system, or (3) if changes occur in the antenna system or its environment which affect or appear likely to affect the value of antenna resistance or (4) if the antenna current meter becomes defective

[3] Commissioner Robert E. Lee absent; Commissioner Wiley concurring in the result.

(see § 73.58). Prior authorization for the indirect determination of antenna input power is not required. However, an appropriate notation shall be made in the operating log.

(e) (1) Antenna input power is determined indirectly by applying an appropriate factor to the plate input power, in accordance with the following formula:

Antenna input power = $Ep \times Ip \times F$

Where:
Ep = Plate voltage of final radio stage.
Ip = Total plate current of final radio stage.
F = Efficiency factor.

(2) The value of F applicable to each mode of operation shall be entered in the operating log for each day of operation, with a notation as to its derivation. This factor shall be established by one of the methods described in paragraph (f) of this section, which are listed in order of preference. The product of the plate current and plate voltage, or, alternatively, the antenna input power, as determined pursuant to subparagraph (1) of this paragraph, shall be entered in the operating log under an appropriate heading for each log entry of plate current and plate voltage.

(f) (1) If the transmitter and the antenna input power utilized during the period of indirect power determination are the same as have been authorized and utilized for any period of regular operation, the factor F shall be the ratio of such authorized antenna input power to the corresponding plate input power of the transmitter for regular conditions of operation, computed with values of plate voltage and plate current obtained from the operating logs of the station for the last week of regular operation.

(2) If a station has not been previously in regular operation with the power authorized for the period of indirect power determination, if a new transmitter has been installed, or if, for any other reason, the determination of the factor F by the method described in subparagraph (1) of this paragraph is impracticable:

(i) The factor F shall be obtaine[1] from the transmitter manufacturer's letter or test report retained in the station's files, if such a letter or test report specifies a unique value of F for the power level and frequency utilized; or

(ii) By reference to the following table:

Factor (F)	Method of modulation	Maximum rated carrier power	Class of amplifier
0.70	Plate	0.25–1.0 kw.	
.80	Plate	5 kw. and over	
.35	Low level	0.25 kw. and over	B
.65	Low level	0.25 kw. and over	BC[1]
.35	Grid	0.25 kw. and over	

[1] All linear amplifier operation where efficiency approaches that of Class C operation.

NOTE: When the factor F is obtained from the table, this value shall be used even though the antenna input power may be less than the maximum rated carrier power of the transmitter.

(iii) If a station has been authorized to operate with antenna input power which is lower than nominal power, the factor F shall have the value established when such operation was authorized.

3. Section 73.52 and headnote are amended to read as follows:

§ 73.52 Antenna input power: maintenance of.

(a) The actual antenna input power of each station shall be maintained as near as is practicable to the authorized antenna input power and shall not be less than 90 percent or greater than 105 percent of the authorized power; except that, if, in an emergency, it becomes technically impossible to operate with the authorized power, the station may be operated with reduced power for a period of 10 days, or less, without further authority from the Commission: *Provided,* That the Commission and the Engineer in Charge of the radio district in which the station is located shall be immediately notified in writing if the station is unable to maintain the minimum operating schedule, specified in § 73.71, with authorized power, and shall be subsequently notified upon resumption of operation with authorized power.

(b) In addition to maintaining antenna input power within the above limitations, each station employing a directional antenna shall maintain the relative amplitudes of the antenna currents in the elements of its array within 5 percent of the ratios specified in its license or other instrument of authorization, unless more stringent limits are specified therein.

4. In § 73.54, paragraphs (a), (d), and (e)(2) are amended to read as follows:

§ 73.54 Antenna resistance and reactance: how determined.

(a) The resistance of an omnidirectional series fed antenna shall be measured at the base of the antenna without intervening coupling networks or components. The resistance of a shunt excited antenna shall be measured at the point the radio frequency energy is transferred to the feed wire circuit, without intervening networks (with the exception that, if the termination of the feed wire is highly reactive a network containing no shunt element may be interposed between the feed wire termination and the point where the resistance is determined). Any network inserted in the antenna circuit for the express purpose of dissipating a portion of the radio frequency energy provided by the transmitter shall be located at the base of the antenna, and the antenna resistance specified in the license or other instrument of authorization shall be the effective resistance at the input terminals of the dissipative network.

* * * * *

(d) Any element included in the antenna circuit for the express purpose of dissipating a portion of the energy delivered by the transmitter to the directional antenna shall be included at the point of common radio-frequency input, and the authorized common point resistance shall include the effect of the dissipative element.

(e) * * *

(2) A schematic diagram showing clearly all components of coupling circuits, the point of resistance measurement, location of antenna ammeter, connections to and characteristics of all tower lighting isolation circuits, static drains, and any other fixtures, sampling lines, etc., connected to or supported by the antenna, including other antennas and associated circuits. Any network or circuit component incorporated for the purpose of dissipating radio frequency power shall be specifically identified, and the impedances of all components which control the level of power dissipation, and the effective input resistance of the network shall be indicated.

* * * * *

[FR Doc.72–5777 Filed 4–14–72;8:51 am]

[Docket No. 19249; FCC 72–330]

PART 73—RADIO BROADCAST SERVICES

FM Broadcast Stations in Certain Cities in North Carolina

Report and order. In the matter of amendment of § 73.202(b), *Table of Assignments,* FM Broadcast Stations (Kinston, Wilmington, Washington, Morehead City-Beaufort, and Farmville, N.C.), Docket No. 19249, RM–1608, RM–1667.

1. The Commission here considers the notice of proposed rule making in Docket No. 19249, adopted May 19, 1971 (36 F.R. 9569), proposing amendment of the FM Table of Assignments (§ 73.202(b) of the rules) with respect to Kinston (RM–1608) and Wilmington, N.C. (RM–1667). In connection with Wilmington, channels assigned to other cities would have to be changed. The persons filing comments in this proceeding are: Farmville Broadcasting Co. (Farmville); Arlington-Fairfax Broadcasting Co., Inc. (Arlington-Fairfax), licensee of Station WKLM, Wilmington, N.C.; and Farmers Broadcasting Service, Inc. (Farmers).[2]

2. As pointed out in the notice, the 1970 Census populations of the cities involved and the respective counties are as follows:

City	Population	County	Population
Kinston	22,309	Lenoir	55,204
Morehead City	5,233	Carteret	31,603
Beaufort	3,368	Carteret	31,603
Washington	8,961	Beaufort	25,980
Wilmington	46,169	New Hanover	82,996
Farmville	4,424	Pitt	73,990

The notice also pointed out that Wilmington is now a Standard Metropolitan

[2] The latter party filed its comments late because of a misunderstanding about the order extending the dates for filing comments and reply comments to August 9 and 19, 1971, respectively, for Arlington-Fairfax only. Farmers later filed a motion for leave to accept late filing.

APR 15 72 XUM

Statistical Area (SMSA), consisting of its county and Brunswick County (population 24,223) with a total population of 107,219 persons.

3. Farmers Broadcasting Service, Inc., licensee of AM Station WELS, proposed the assignment of Channel 249A to Kinston, N.C., by deleting and shifting that channel at Washington, N.C. Arlington-Fairfax Broadcasting Co., Inc., licensee of AM Station WKLM, proposed the assignment of Channel 269A to Wilmington, N.C., which would have been accomplished by exchanging Channel 270 for the 277 assignment at Morehead City-Beaufort, N.C. The notice also considered the application (BPH–7438) for Channel 232A at Wallace, N.C., at the transmitter site of Station WLSE (which since has been granted), because of a 2.5 mile short-spacing to the cochannel assignment at Farmville, N.C. In the latter respect, the Notice proposed the substitution of Channel 249A for Channel 232A at Farmville thus permitting the assignment of Channel 272A at Kinston; this was made possible by the Arlington-Fairfax proposal to change the assignment at Morehead City-Beaufort.

4. Kinston, N.C. (RM–1608). The proposal would assign a second FM channel (272A) to Kinston where Channel 236 is occupied by FM Station WRNS; other service at Kinston consists of three AM stations, one a daytime-only. As already noted, the proposed assignment of Channel 249A would have required the deletion of that channel from Washington, which appeared to be justified on the basis that that community already has another FM channel assigned to it (FM Station WITN–FM, Channel 277) and also two AM stations, and use of that channel at Farmville in lieu of Channel 232A. From the public interest viewpoint, it was argued that Kinston, seat of Lenoir County, is the largest city and the active center of a more populated area, and a rapidly growing community; Kinston, it was urged, is the functional center of nine counties including its own, Carteret, Craven, Duplin, Greene, Jones, Onslow, Pamlico, and Wayne (see footnote 1 of the notice of proposed rule making). We had rejected the Channel 249A proposal because of preclusion to two large cities in the area each larger than Washington—New Bern, population 14,660 (located in Craven County, population 62,554) and Greenville, population 29,063 (Pitt County, with a population of 73,900), both of which have FM and AM stations. Our proposal to substitute Channel 272A for the 249A proposal is faulty because we did not take into account the fact that the First Report and Order in Docket No. 18883, 27 FCC 2d 844, 846 and 850 (1971), assigned Channel 272A to Goldsboro, N.C. In the circumstances, we are going to assign Channel 249A as originally proposed by the petitioner. In this respect, the requirements of notice have been met; see Owensboro On the Air, Inc. v. United States, et al., 262 F. 2d 702, 707–8 (C.A.D.C., 1959), certiorari denied, 360 U.S. 911.

5. Wilmington, N.C. (RM–1667). In this proceeding Arlington-Fairfax Broadcasting Co. (Arlington-Fairfax), licensee of Station WKLM, petitioned for the assignment of Channel 269A to Wilmington, N.C. In order to make this assignment, a transmitter site southeast of the community would be required because of mileage separation requirements to Channels 268 and 269A at Raleigh, N.C., and Myrtle Beach, S.C., respectively. It was proposed to substitute Channel 277 for 270 at Morehead City-Beaufort, N.C., which we noted were both located in Carteret County with a total population of 31,603 (the populations of Morehead City and Beaufort, respectively, are 5,233 and 3,368), and that Channels 270 and 248 are assigned to those communities jointly. Our notice referred to the broadcast service at Wilmington consisting of four standard broadcast stations, one a daytime-only, and two commercial television stations plus an educational CP, and four FM assignments (three occupied there). In the latter respect, particular note was made that the other channel in fact is utilized at Burgaw, N.C., by Station WPGF–FM, Channel 260, some 22 miles north of Wilmington. The notice pointed out that a city the size of Wilmington (less than 50,000) is not entitled to more than two channels and that it already has four assignments (see footnote 2 below), although we also pertinently noted that one is used in another city. Nonetheless, it was felt that the matter should be considered for rule making, since Wilmington is a central city of a SMSA, and the only other channel change required, i.e., substitution of the channel at Morehead City-Beaufort, was necessary to use Channel 272A at Kinston. Note was made of the fact that being noticed for rule making does not mean that the additional channel for Wilmington is warranted. In the latter respect, the Notice stated that the petitioner or other interested parties should submit a showing as to why another channel assignment should be made to Wilmington and that a preclusion study should be submitted as to the impact on six adjacent channels.

6. Arlington-Fairfax has submitted a study showing preclusion on future assignments only on Channels 269A and 270 in limited areas where there is no community of significant size where either channel can be utilized. No further arguments were made as to assigning a fifth FM channel to Wilmington; Arlington-Fairfax again urges that the night-time FM situation would become competitive (it is the only AM station there that is not affiliated with an FM station). This argument is not persuasive for it serves a private rather than the public interest. On further consideration, on the basis of balancing all considerations, we do not deem it advisable to make a further assignment to Wilmington. Not only are we concerned by our population criteria,[1] but also because the number of available channels for assignment in this area are already becoming scarce.

7. Authority for the adoption of the amendments proposed herein is contained in sections 4(i), 303 (g) and (r), and 307(b) of the Communications Act of 1934, as amended.

8. In accordance with the foregoing: *It is ordered*, That effective May 19, 1972, the FM Table of Assignments (§ 73.-202(b) of the rules) is amended with respect to the cities listed below to read as follows:

City	Channel No.
Kingston, N.C.	236, 249A
Washington, N.C.	227

9. *It is further ordered*, That the petition of Arlington-Fairfax Broadcasting Co., is denied.

10. *It is further ordered*, That farmers Broadcasting Service, Inc., request for leave for late filing of comments is granted.

11. *It is further ordered*, That this proceeding is terminated.

(Secs. 4, 303, 307, 48 Stat., as amended, 1066, 1082, 1083; 47 U.S.C. 154, 303, 307)

Adopted: April 5, 1972.

Released: April 11, 1972.

CUSTOMHOUSE BROKERS

Limitation of Liability to Importers; Notice of Extension of Time for Submission of Data, Views, or Arguments

Notice of proposed amendment to the Customs Regulations to explicitly prohibit the limitation of potential liability of customhouse brokers to importers arising out of the wrongful or negligent action of the broker, was published in the FEDERAL REGISTER on Wednesday, March 22, 1972 (37 F.R. 5820). Thirty days from the date of publication of the notice were given for submission of data, views, or arguments pertinent to the proposed amendment.

A number of requests have been received for extension of the time for submission of comments. Therefore, the period for submission of data, views, or arguments relating to the revision is extended to May 31, 1972.

DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

Food and Drug Administration

[21 CFR Part 3]

EPINEPHRINE AND ISOPROTERENOL INHALATION PREPARATIONS

Proposed Statement of Policy Regarding Prescription Dispensing and Warnings

On the basis of a number of reports of severe paradoxical bronchoconstriction and sudden unexplained deaths associated with repeated, excessive use of isoproterenol preparations, the Food and Drug Administration published a statement of policy (21 CFR 3.67) in the FEDERAL REGISTER of June 18, 1968 (33 F.R. 8812), requiring a warning statement directed to physicians to alert the medical profession of the possibility of severe reactions. Warnings were also required to be included in the packages intended for patients. A number of reports are now available concerning severe paradoxical bronchoconstriction episodes occurring as a result of excessive and repeated use of epinephrine inhalation preparations. Though no deaths have been reported, the evidence is such that the Commissioner of Food and Drugs concludes that epinephrine preparations are no longer suitable for over-the-counter sale and that warnings similar to those required for isoproterenol are necessary in order to protect the public health. This conclusion is supported by recent reports of increasing abuse of the drug by nonasthmatics using epinephrine aerosols for a stimulant effect.

Therefore, pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (secs. 502, 503(b), 505, 701(a), 52 Stat. 1050–53 as amended, 1055; 21 U.S.C. 352, 353(b), 355, 371(a)) and under authority delegated to him (21 CFR 2.120), the Commissioner proposes Part 3 be amended by revising § 3.67 *Isoproterenol inhalation preparations (pressurized aerosols, nebulizers, powders) for human use; warnings* to read as follows:

§ 3.67 Isoproterenol preparations (pressurized aerosols, nebulizers, powders) and epinephrine preparations (pressurized aerosols, nonpressurized solutions) for human use; warnings.

(a) Just as severe paradoxical bronchoconstriction has been associated with repeated and excessive use of isoproterenol inhalation preparations, so has it been associated with repeated and excessive use of epinephrine inhalation preparations. The cause of this paradoxical reaction is unknown; it has been observed, however, that patients have not responded completely to other forms of therapy until use of the preparations were discontinued. In addition, sudden unexpected deaths have been associated with the excessive use of isoproterenol inhalation preparations. The mechanism of these deaths and their relationship, if any, to the cases of severe paradoxical bronchospasm are not clear. Cardiac arrest was noted in several of these cases of sudden death.

(b) On the basis of experience with such drugs and on recommendations of expert advisors, the Commissioner of Food and Drugs concludes that, in order for the labeling of isoproterenol and epinephrine inhalation preparations to bear adequate information for their safe and effective use as required by § 1.106(b) of this chapter:

(1) The following statement must be included:

Warning. Occasional patients have been reported to develop severe paradoxical airway resistance with repeated, excessive use of --------- (isoproterenol or epinephrine, whichever is appropriate) inhalation preparations. The cause of this refractory state is unknown. It is advisable that in such instances the use of this preparation be discontinued immediately and alternative therapy instituted, since in the reported cases the patients did not respond to other forms of therapy until the drug was withdrawn.

(2) The following additional statement must be included for isoproterenol inhalation preparations:

Warning. Deaths have been reported following excessive use of isoproterenol inhalation preparations and the exact cause is unknown. Cardiac arrest was noted in several instances.

(3) Isoproterenol and epinephrine inhalation preparations are not suitable for over-the-counter sale, and the label must therefore bear the legend, "Caution: Federal law prohibits dispensing without prescription."

(c) (1) The Commissioner also concludes that, in view of the manner in which isoproterenol and epinephrine preparations are self-administered for relief of attacks of bronchial asthma and other chronic bronchopulmonary disorders, it is necessary for the protection of users that warning information to patients be included as a part of the label

APR 15 72 XUM

and as part of any instructions to patients included in the package dispensed to the patient as follows:

Warning. Do not exceed the dose prescribed by your physician. If difficulty in breathing persists, contact your physician immediately.

(2) The warning on the label may be accomplished (i) by including it on the immediate container label with a statement directed to pharmacists not to remove the label or (ii) by including in the package a printed warning with instructions to pharmacists to place the warning on the container prior to dispensing.

(d) The marketing of isoproterenol and epinephrine inhalation preparations may be continued if all the following conditions are met:

(1) Within 30 days following the date of publication of this section in the FEDERAL REGISTER:

(i) The label and labeling of such preparations shipped within the jurisdiction of the act are in accordance with paragraphs (b) and (c) of this section.

(ii) The holder of an approved new drug application for such preparation submits a supplement to his new drug application to provide for appropriate labeling changes as described in paragraphs (b) and (c) of this section.

(2) Within 90 days following the date of publication of this section in the FEDERAL REGISTER, the manufacturer, packer, or distributor of any drug containing isoproterenol or epinephrine intended for inhalation for which a new drug approval is not in effect submits a new drug application (see § 130.4(c) of this chapter) including appropriate labeling as described in paragraphs (b) and (c) of this section. (It is recommended that applicants discuss the kinds of clinical studies needed with representatives of the Food and Drug Administration.)

(e) The statement of policy concerning isoproterenol inhalation preparations (21 CFR 3.67) published in the FEDERAL REGISTER of June 18, 1968 (33 F.R. 8812) stated: "After 270 days following expiration of said 90 days, regulatory proceedings based on section 505(a) of the Federal Food, Drug, and Cosmetic Act may be initiated with regard to any such drug shipped within the jurisdiction of the act for which an approved new-drug application is not in effect." Accordingly, 270 days likewise is provided for epinephrine inhalation preparations.

Interested persons may, within 30 days after publication hereof in the FEDERAL REGISTER, file with the Hearing Clerk, Department of Health, Education, and Welfare, Room 6-88, 5600 Fishers Lane, Rockville, MD 20852, written comments (preferably in quintuplicate) regarding this proposal. The comment period is being limited to 30 days because of safety considerations. Comments may be accompanied by a memorandum or brief in support thereof. Received comments may be seen in the above office during working hours, Monday through Friday.

Dated: April 7, 1972.

SAM D. FINE,
Associate Commissioner for Compliance.

[FR Doc.72-5722 Filed 4-14-72;8:46 am]

DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

[24 CFR Part 43]

[Docket No. R-72-179]

PROVISION OF REPLACEMENT HOUSING UNDER THE UNIFORM RELOCATION ASSISTANCE AND REAL PROPERTY ACQUISITION POLICIES ACT OF 1970

Seed-Money Loans

Pursuant to the Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970 (84 Stat. 1894; 42 U.S.C. 4601), the Department is proposing to amend Part 43 by adding proposed criteria and procedures governing relocation "seed-money" loans in a new Subpart B. The present criteria and procedures pertaining to last-resort housing replacement by the displacing agency are redesignated as Subpart A. The title of Part 43 is also proposed to be amended to cover both programs.

Subpart B prescribes for all Federal and State agencies that cause residential displacement in the administration of direct Federal or federally assisted projects the criteria and procedures for the implementation of section 215 of the Act. Section 215 authorizes the provision of loans for planning and obtaining federally insured mortgage financing for the construction or rehabilitation of housing to meet the need of persons displaced by Federal or federally assisted projects.

The head of the Federal agency must approve the use of project funds for seed-money loans to assist in the provision of the needed replacement housing. In the case of a federally assisted project, the head of the displacing agency determines that project funds must be used, and requests approval from the head of the Federal agency providing the financial assistance.

As defined in § 43.28, any nonprofit, limited dividend, cooperative or public corporation or entity that may be eligible to sponsor federally insured housing, may apply for a section 215 loan.

The criteria and procedures contain broad guidelines for loan processing by the displacing agency, in consultation with the appropriate HUD Area Office, as well as the steps to be followed in the provision of the loan funds.

A list of the federally insured mortgage programs for which section 215 loans generally may be utilized appears in § 43.36.

These criteria and procedures have been developed on the basis of extensive consultation with the Office of Management and Budget, major Federal agencies with activities causing displacement, and a number of public and citizen interest groups, most of whose comments have been incorporated in this version.

This Department is considering revising the terms and conditions for loans to include an additional requirement that loans to limited dividend and other profitmaking sponsors be secured by the personal pledges of the principals.

Interested persons are invited to participate in the making of the proposed rule by submitting written data, views, or statements concerning the rule itself and the above suggestion that personal pledges be required to secure loans to profitmaking sponsors. Communications should identify the proposed rule by the docket number and title, and should be filed in triplicate with the Rules Docket Clerk, Office of General Counsel, Room 10256, Department of Housing and Urban Development, 451 Seventh Street SW., Washington, DC 20410. All relevant material received on or before May 18, 1972, will be considered before adoption of a final rule. Copies of comments submitted will be available for examination during business hours at the above address.

PART 43—PROVISION OF REPLACEMENT HOUSING UNDER THE UNIFORM RELOCATION ASSISTANCE AND REAL PROPERTY ACQUISITION POLICIES ACT OF 1970

Accordingly, Part 43 is proposed to be amended as follows:

1. The title of Part 43 is revised to read as set forth above.

2. The table of contents is amended by inserting before the listing of sections and headings a new center heading "Subpart A—Last Resort Housing Replacement by Displacing Agency."

3. A new Subpart B is added to read as follows:

Subpart B—Loans for Planning and Preliminary Expenses—Relocation Seed-Money Loans

Sec.
43.25 Purpose.
43.26 Legislative authority.
43.27 Applicability to Federal agencies.
43.28 Definitions.
43.29 Eligible applicants.
43.30 Eligible expenses.
43.31 Terms and conditions for loans.
43.32 Procedures for provision of section 215 loans.
43.33 Approval of Federal agency.
43.34 Processing the loan application.
43.35 Review by head of Federal agency.
43.36 Housing programs for which section 215 loans generally may be utilized.
43.37 Aggregate housing under jointly financed programs.

Sec.
43.36 Conformity with the Act and other statutes, policies and procedures.
Appendix I—Guide Form of Loan Contract and Trust Agreement.
Appendix II—Request for Preliminary Determination of Eligibility as Nonprofit Sponsor or Mortgagor.

AUTHORITY: The provisions of this Part 43 issued under secs. 206, 213, and 215, 84 Stat. 1898, 1900, 1901; 42 U.S.C. 4626, 4633, 4635.

(Sec. 7(d) of the Department of HUD Act, 42 U.S.C. 3535(d))

§ 43.25 Purpose.

It is the purpose of this subpart to set forth criteria and procedures for the implementation of section 215 of the Act. The procedures in this subpart shall be applied and administered by all Federal agencies so as to encourage and facilitate the rehabilitation and construction of suitable standard housing to meet the needs of displaced persons.

§ 43.26 Legislative authority.

Section 215 of the Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970 (84 Stat. 1894), hereinafter referred to as the Act, authorizes the provision of loans for planning and obtaining federally insured mortgage financing for the rehabilitation or construction of housing to meet the needs of persons displaced by Federal projects and federally assisted projects. Such a loan may be made as part of the cost of a project which causes displacement if it is approved by the head of the Federal agency administering the project or the Federal agency providing financial assistance for the project.

§ 43.27 Applicability to Federal agencies.

Pursuant to paragraph 6 of the President's memorandum of January 4, 1971, to the heads of Departments and agencies concerning the Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970, these criteria and procedures are applicable to all Federal agencies administering Federal projects or providing Federal financial assistance to State agencies carrying out activities that cause displacement of persons from their dwellings.

§ 43.28 Definitions.

In addition to the definitions contained in § 43.4 of Subpart A, the following definitions apply to this subpart:

(a) "Nonprofit sponsor" means a corporation or association organized for purposes other than the making of profit or gain for itself or persons identified with it, and which is in no manner controlled by nor under the direction of persons or firms seeking to derive profit or gain from it.

(b) "Limited dividend sponsor" means a corporation, trust, partnership, individual, association, or other legal entity (including such special limited dividend sponsors as are eligible for mortgage insurance under HUD regulations) which is restricted by law or other regulations as to the distribution of income and rate of return on investment.

(c) "Cooperative sponsor" means: (1) A nonprofit cooperative ownership housing corporation or trust which restricts permanent occupancy of the housing units to members of the corporation or trust and which maintains requirements for membership eligibility and transfers of membership; or (2) a nonprofit organization which agrees to use the proceeds of a loan received under section 215 for the expenses of planning and obtaining an insured mortgage for housing to be owned by a cooperative as described in subparagraph (1) of this paragraph.

(d) "Public body sponsor" means a public corporation or entity which is a Federal instrumentality, a State or political subdivision thereof, or an instrumentality of a State or of a political subdivision thereof, eligible to sponsor federally insured housing.

(e) "Condominum" means a combination of coownership and ownership in severalty. It is an arrangement under which a family or individual in a housing development holds full title to a one-family dwelling unit, including an undivided interest in common areas and facilities, and such restricted common areas and facilities as may be designated.

§ 43.29 Eligible applicants.

Any nonprofit, limited dividend, cooperative, or public corporation or entity, eligible to sponsor housing insured under the National Housing Act or Title V of the Housing Act of 1949, may apply for a section 215 loan.

§ 43.30 Eligible expenses.

Section 215 loans shall not exceed 80 percent of the necessary and reasonable expenses which have been or are expected to be incurred for planning and obtaining federally insured mortgage financing for the rehabilitation or construction of housing for persons displaced. Eligible expenses include but are not limited to:

(a) Preliminary surveys and analysis in implementation of site selection criteria;

(b) Preliminary site engineering;

(c) Preliminary architectural fees;

(d) Title and recording fees;

(e) Application and mortgage commitment fees;

(f) Construction loan fees and/or discounts;

(g) Legal and organizational expenses;

(h) Consultant fees (nonprofit sponsor);

(i) Land options and site acquisition costs;

(j) Staff, office expenses, travel.

§ 43.31 Terms and conditions for loans.

(a) *General.* No section 215 loan shall exceed 80 percent of the reasonable and eligible expenses expected to be incurred in planning and obtaining federally insured mortgage financing, and which are expected to be recovered from the proceeds of the insured mortgage.

(b) *Interest rate.* (1) A loan to an organization established for profit shall bear interest at the current market rate as determined by the head of the Federal displacing or funding agency, as applicable. In the interest of uniformity, the head of the appropriate agency shall be guided by the interest rate established by the Secretary of Housing and Urban Development pursuant to section 236 of the National Housing Act, as amended. Information on the current rate applicable to this section is available from all HUD Area and Insuring Offices. (2) A loan to an eligible nonprofit, cooperative, or public body sponsor shall be without interest.

(c) *Loan disbursement.* (1) The head of the displacing agency shall disburse the section 215 loan in accordance with the terms of the loan agreement. Ordinarily, a requisition for advance of funds to cover cash needs for each succeeding month following the initial disbursement, should be submitted by the sponsor. (2) Before approving the request for funds for the succeeding month, the displacing agency must determine that the development of an application for a commitment is progressing satisfactorily, and that funds advanced are being used for the purpose for which the loan was made. (3) At the time of receipt of each disbursement, the applicant must certify on the receipt that it has spent or incurred expenses (with a description of the expenditures), made in kind contributions, or made deposits in the trust account in an amount equal to the specified portion of its share of the expenditures to date, or estimated to be made in the next month, or such other period as is established by the head of the Federal agency (see § 43.30 for a description of eligible expenses). (4) The loan funds and applicant's portion shall be deposited in a trust account, separate from all other applicant accounts in a bank whose deposits are insured by the Federal Deposit Insurance Corporation. The applicant is not required to spend its portion first, nor deposit its cash contribution in such account in advance of its receipt of the initial disbursement of section 215 loan funds.

(d) *Loan repayment.* The following provisions apply to loan repayment: (1) Repayments of all or any portion of the loan shall be made, and unused section 215 loan funds shall be returned, to the head of the displacing agency and credited back to the account from which they were taken. In the case of a federally assisted project, the Federal share of such moneys shall be credited to the program account of the Federal funding agency; (2) principal and interest, where applicable, shall be payable in full at the time of the first disbursement of the mortgage proceeds; (3) if any portion of a section 215 loan is not recovered from the first disbursement of mortgage proceeds, the maturity date for such portion

APR 15 1972 XUM

not recovered shall be extended to the date of the final disbursement of mortgage proceeds; (4) if the commitment of mortgage insurance expires before an initial endorsement can occur, the entire amount of the loan shall become due and payable on the date of expiration. In any event, the entire amount of the loan shall be due and payable not more than 2 years from the date of the first disbursement, unless the date is extended by the head of the agency making the loan; (5) if the loan is made for planning for the development of a project of individual sales type homes, the loan disbursements shall be repaid in installments of principals with interest thereon, if any, as mortgage proceeds on the individual homes are disbursed. The amount of the installment payments of principal shall be prorated in accordance with the number of individual homes for which the mortgage insurance commitment has been issued. The entire principal and interest thereon, if any, shall be paid in full in any event not more than 2 years after the first installment under the loan agreement, unless such time for repayment has been extended by the head of the agency making the section 215 loan; (6) repayment of all or any portion of a loan which cannot be recovered from the mortgage proceeds, or from the sale of real property acquired with loan funds, may be waived by the head of the Federal agency financing the loan, except for an organization established for profit.

(e) *Conditions to be included in section 215 loan contract.* A Guide Form Loan Contract and Trust Agreement is attached hereto as Appendix I and made a part hereof. Each contract covering a section 215 loan shall contain the following conditions:

(1) The mortgage application for housing planned with a section 215 loan shall be filed within 9 months following approval of the loan, unless the head of the Federal agency determines that an extension of the time period is justified.

(2) For a loan disbursement, the conditions shall be in accordance with § 43.31(c).

(3) For repayment of the loan, the conditions shall be in accordance with § 43.31(d).

(4) Section 215 loan funds, including the applicant's portion (which may be in cash or in kind), shall be used only for the purposes set forth in the approved loan application.

(5) Assurance of compliance with the statutes, Executive orders, regulations, and policies specified in § 43.38 shall be given.

(6) Priority for occupancy shall be given to those displaced by the project(s) providing the loan funds.

§ 43.32 Procedures for provision of section 215 loans.

(a) The head of the Federal displacing or funding agency may make a section 215 loan as part of the project cost, or approve a loan as part of the cost of a federally assisted project, respectively, to assist in the development of replacement housing, if such a loan would stimulate the rehabilitation or construction of housing to meet the needs of the persons to be displaced by the project. In the case of a federally assisted project, loans made under section 215 shall be treated in the same manner as other costs of relocation payments and assistance and shall be subject to the provisions of section 211 of the Act with respect to Federal-local cost sharing. If necessary for assuring economic feasibility, the head of the displacing agency may approve a section 215 loan to plan for housing that would not be occupied entirely by persons displaced by the displacing agency.

(b) Whenever, in connection with the planning, development or execution of a direct Federal or a federally assisted project, it appears to the head of the displacing agency that adequate replacement housing may not be available to satisfy the requirements of the Act, or that such housing is not available on a nondiscriminatory basis, either (1) in the case of a federally assisted project, the head of the displacing agency wishing to make a section 215 loan may seek approval from the head of the Federal agency providing the assistance; or (2) in the case of a direct Federal project, the head of the Federal agency may decide to provide loans under section 215 to stimulate the development of the housing.

(c) A determination that replacement housing must be constructed or rehabilitated should be based, as a minimum, upon an analysis of the needs and choices of those to be displaced by the proposed project, by income, family size, and type of housing in relation to the nature and volume of competing demands for standard housing of appropriate size and cost in the locality; and information secured from officials administering other programs in the community which will result in displacement, as to their relocation housing resource plans. Existing data, supplemented where necessary, may be used to ascertain precisely the need to utilize section 215 to provide the required housing.

(d) *Invitations to prospective sponsors of housing who may be eligible for a loan.* When an assessment has been made of the number and types of housing units which will be required, the displacing agency shall make a diligent effort to find and encourage potential sponsors of housing to apply for a section 215 loan (e.g., by advertisement of the particulars on the required housing, or personal appearances before possible sponsors). A prospective applicant should be instructed to submit, in writing, a general outline or description of the proposed housing plan. Whenever possible, an estimate of the approximate costs for planning and production of the housing should be included. Advice on the standards and requirements for mortgage insurance and on the contents of the proposed housing plan, and assistance in preparing such a plan are available from HUD Area Offices.

(e) *Displacing agency's preliminary assessment of sponsor's eligibility.* The head of the displacing agency shall make a preliminary determination, based upon HUD standards for housing sponsors, as to whether the applicant and the loan request are apparently acceptable, and whether the items included in the proposal are reasonable and necessary to cover the planning and other preliminary expenses identified in § 43.30 of this issuance (see Appendix II for guide form which, though it applies only to nonprofit sponsors, also indicates the information required from other sponsors). If based upon his preliminary assessment, the head of the displacing agency decides that a prospective sponsor appears to meet the eligibility requirements for a section 215 loan to develop all or a portion of the kind and number of housing units required, he shall notify HUD in writing, with a copy to the applicant. In the case of a federally assisted project, a copy should also be sent to the head of the Federal agency. The notification should request from HUD a preliminary evaluation of the tentative plan for the proposed housing and the eligibility of the applicant for Federal mortgage insurance, and such other advice as may be useful to the displacing agency and the prospective applicant.

(f) *Conference with the applicant on project and mortgage financing eligibility.* If HUD's preliminary evaluation is favorable, the displacing agency shall advise the applicant to arrange a conference with the HUD Area Office. During the conference HUD will review the tentative plan for the proposed housing, the applicant's eligibility to apply for Federal mortgage insurance, and the general soundness of the plan for the housing. HUD will also advise the applicant on the standards and requirements for mortgage financing approval. Whenever practical, a representative of the displacing agency should attend the conference. The conference with HUD should be held before the section 215 loan applicant makes any definite plans for land acquisition or professional services. Within 20 days following the conference, HUD shall notify the head of the displacing agency in writing, with a copy to the applicant, of its preliminary determination that the proposed housing plan is acceptable; or if the plan or the sponsor is not acceptable, an explanation of the reasons therefor, and steps that need to be taken in order to make the proposal acceptable. Approval of an application to cover expenses incidental to the development of an application for mortgage insurance, does not assure that the application so developed will necessarily receive approval for mortgage insurance.

(g) *Formal application.* Upon receipt by the displacing agency of a HUD notification of acceptability pursuant to § 43.32(f), the prospective loan applicant shall be advised to make formal application to the displacing agency for a section 215 loan. If deficiencies were described in the notification, the displacing agency, in consultation with HUD, shall work with the prospective loan applicant to correct the deficiencies, if possible. The formal application should include a housing plan, which as a minimum specifies how, when and where the housing will be provided, what insured program(s) (see § 43.36(a)) will be utilized, the prices at which the housing will be rented or sold to the families to be displaced, the arrangements for housing management and social services, as appropriate, the environmental suitability of the location(s), if known, of the proposed housing, and the arrangements for maintaining rent levels appropriate for the persons to be rehoused.

§ 43.33 Approval of Federal agency.

In the case of a federally assisted project, the head of the Federal agency providing the assistance to the project causing displacement shall establish procedures either (a) to require his approval prior to processing the section 215 loan applicant pursuant to § 43.34, or (b) withhold such approval until after the amount of the principal and interest, if any, of the loan has been determined according to §§ 43.34(b) and 43.34(c).

§ 43.34 Processing the loan application.

When in the case of a federally assisted project, the displacing agency has received approval of the Federal agency providing the financial assistance, and in the case of a Federal project the head of the Federal agency determines that a section 215 loan application is appropriate, the application should be processed as follows:

(a) The total amount of the costs necessary to cover the preliminary expenses (see § 43.30) shall be computed. Each individual item of expense should be examined. HUD will provide the displacing agency with advice on the reasonableness of the applicant's proposed expenses for planning and obtaining federally insured mortgage financing, including an indication of expenses which may not be reimbursed from mortgage proceeds, and its approximation of the total amount required.

(b) The displacing agency shall then calculate the amount of the loan which shall not exceed 80 percent of the necessary expenses.

(c) In the case of an organization operating for profit, the interest rate on the dollar amount calculated under § 43.34 (b) shall be determined in accordance with § 43.31(b). (No interest shall be charged on loans to nonprofit organizations.)

(d) A loan contract shall be prepared by the displacing agency, which shall be signed by the sponsor and the displacing agency. (See § 43.31.)

§ 43.35 Review by head of Federal agency.

If at any time the applicant's proposal is rejected by the displacing agency, the prospective applicant may have the plan reviewed by the head of the Federal agency which has the authority for final approval. In making this review, the head of the Federal agency shall consult HUD if the rejection of the applicant's proposal was based on HUD–FHA standards for housing sponsors.

§ 43.36 Housing programs for which section 215 loans generally may be utilized.

(a) The following are examples of housing programs (which include rental, single-family homeownership, cooperative and condominium) for which section 215 loans generally may be utilized. Except as otherwise indicated, the programs listed below are authorized by the National Housing Act, as amended (12 U.S.C. 1701 et seq.).

(1) Section 203(b) homes and 203(i) homes in outlying areas.

(2) Section 207 rental housing.

(3) Section 213 cooperative housing.

(4) Section 220 rental housing in urban renewal areas, homes in urban renewal areas.

(5) Section 234 condominium.

(6) Section 236 rental and cooperative housing for lower income families.

(7) Section 515 of the Housing Act of 1949, as amended.

(8) Section 235 interest subsidies for housing for sale to lower income families.

(9) Section 221(d)(2) mortgage insurance for housing for low and moderate income families.

(10) Section 221(d)(4) mortgage insurance for rental housing.

(11) Section 221(d)(3) market rate mortgage insurance with rent supplements.

(12) Housing developed under section 206 of the Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970 where such housing involves a federally insured mortgage.

§ 43.37 Aggregate housing under jointly financed programs.

Where several agencies are administering programs resulting in residential displacement, opportunities shall be sought out for the joint planning and development of housing through aggregating section 215 loan funds to plan for the provision of federally insured replacement housing for all such programs. Where project funds from more than one displacing agency are to be aggregated for this purpose, they may be apportioned among such agencies according to the expected occupancy of such housing by persons displaced by each project.

§ 43.38 Conformity with the Act and other statutes, policies and procedures.

(a) *Civil rights and other Acts and executive orders.* The administration of section 215 loans shall be in conformity with the provisions of section 1 of the Civil Rights Act of 1866 (42 U.S.C. 1982), title VI of the Civil Rights Act of 1964, title VIII of the Civil Rights Act of 1968, the National Environmental Policy Act of 1969, and Executive Orders 11063 and 11246, as amended, and regulations pursuant thereto.

(b) *Title VI assurance.* Title VI of the Civil Rights Act of 1964 provides that no person in the United States shall, on the ground of race, color, or national origin, be excluded from participation in, be denied the benefits of, or be otherwise subjected to discrimination under any program or activity receiving Federal financial assistance. Every contract for a loan under section 215 and every application for such a loan shall, as a condition of its approval and the extension of any assistance, contain or be accompanied by an appropriate assurance, as specified by the head of the Federal agency providing funds for the loan, that the housing and preliminary planning and other activity assisted will be operated and administered in compliance with all requirements imposed by title VI and the title VI implementing regulations of the Federal agency.

(c) *Affirmative marketing.* Housing produced with the assistance of a section 215 loan shall be marketed on a nondiscriminatory basis to affirmatively promote equal housing opportunity as prescribed in the Affirmative Fair Housing Marketing Regulations contained in 24 CFR Part 200, Subpart M (37 F.R. 75, January 5, 1972, effective February 25, 1972) and as further prescribed in Circular 8000.4, issued by the Department of Housing and Urban Development pursuant to the Affirmative Fair Housing Marketing Regulations. An assurance of compliance with this affirmative marketing requirement must be submitted by each loan applicant, and incorporated in the contract. Among the applications resulting from both affirmative marketing efforts and referrals from the displacing agency, those from persons displaced by the project providing the loan funds must be given preference.

(d) *Project selection.* From information available at the time, it must appear that housing planned with a section 215 loan for financing under a federally insured mortgage will not receive an unfavorable rating under HUD's Project Selection Criteria contained in 24 CFR Part 200, Subpart N (37 F.R. 203, January 7, 1972) and will meet all other requirements normally applicable to a federally insured mortgage.

(e) *Location.* A site may not be approved if it is occupied by persons or business concerns who would have to be displaced unless the head of the Federal agency determines that other sites or locations are not available. In any event no site may be approved if those to be displaced would not be eligible for relocation assistance and payments under the Act. Each Federal agency must determine, based on the nature of its programs, whether persons displaced to enable the provision of housing for which planning and other preliminary expenses are financed with project funds loaned pursuant to section 215 are entitled to relocation payments and assistance under the Act.

GEORGE ROMNEY,
Secretary of Housing and Urban Development.

APPENDIX I

GUIDE FORM OF LOAN CONTRACT AND TRUST AGREEMENT

(Relocation Seed Money Loans)

This Loan Contract and Trust Agreement made and entered into this ------ day of ----------, 197-- by and between the

APR 15 72 XUM

---------- (enter name of (1) Federal agency if loan is made under a direct Federal project; or (2) State agency if loan is made under a federally assisted project) (herein called Agency) and ----------, a ---------- organized and existing under and by virtue of the laws of the State of ---------- , having its principal offices at ---------- (herein called Sponsor).

Whereas, the Sponsor intends to develop a housing project and to make or cause to be made an application to the Agency for a commitment to insure a loan under the provisions of section ------ of ---------- (enter citation to appropriate statutory provision under which application for federally insured mortgage will be made), and the regulations issued pursuant thereto, and

Whereas, the Sponsor has applied for a loan in accordance with section 215 of the Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970 (herein called Relocation Seed Money Loan) which application has been submitted to the Agency and the ---------- (enter name of Federal Department or Agency if loan is made under a federally assisted project) for approval, which application is incorporated in and made a part of this agreement.

Now, therefore, the parties mutually agree as follows:

1. The Sponsor has commenced planning a housing project identified as: (Herein called Project) and hereby represents that it possesses sufficient financial and/or other resources, combined with the advance to be made by the Agency, to complete successfully the processing preliminary to disbursement of mortgage proceeds to finance construction or rehabilitation of the project. The Sponsor convenants that it shall use its best efforts to meet the requirements of the ---------- (enter Federal Housing Commissioner or Farmers Home Administrator, as appropriate) to obtain a commitment for insurance under ---------- (enter citation to appropriate statutory provision under which application for federally insured mortgage will be made) and the relevant regulations. The Sponsor further convenants that it shall file an application for such commitment within 9 months following the date of approval of the relocation seed money loan, unless the ---------- (enter title of head of Federal Department or Agency administering the project or federally assisted project under which loan is made) determines that an extension of such 9 months period is justified.

2. Upon approval of the application for the relocation seed money loan the Agency will deliver to the Sponsor a check for the first disbursement. Delivery of this check shall constitute the Agency's acceptance of the terms of this agreement and both parties shall thereafter be fully bound by the terms of this agreement and application. The advance or advances to be made by the Agency pursuant to this agreement shall total $------.

3. The Sponsor certifies that it has spent $------ (if any) for the expenses listed in the application and that it will contribute $------, representing ------% (not less than 20%) of the estimated cost of planning the project, as its share, and further agrees that this contribution and all funds received hereunder from the Agency shall be held in trust by the Sponsor and shall be deposited in a trust account, separate from all other accounts in a bank whose deposits are insured by the Federal Deposit Insurance Corporation. Where the Agency's advance is made in a series of staged payments, the Sponsor may make its contribution on the same basis. The Sponsor agrees to certify on the receipt for each advance that it has spent, incurred expenses for, or deposited in the trust account an amount equal to ------% (not less than 20% of the expenditures to date and estimated to be made in the next month for planning this project). Sponsor's expenditures and funds in the trust account shall be used only for the purposes stated herein and unexpended funds shall be returned to the Agency as beneficiary of the trust for appropriate adjustment. Any member of the sponsoring organization receiving funds from the trust account in violation of this agreement shall hold such funds in trust for the Agency.

4. Funds in the trust account shall be expended only for the purposes set forth in the application and in the amounts specified therein, unless such other or additional expenditure shall be approved in advance by the Agency in writing. The Sponsor expressely covenants to exercise its best efforts to obtain all services at the least possible expense. The Sponsor agrees to maintain and keep complete records of all disbursements from the trust account and to make such records available to the Agency upon request.

5.[1] The Sponsor promises to repay to the Agency the full amount of the advance made in accordance with this agreement together with interest at the rate of ------% per annum. Interest on each disbursement shall be computed on a daily basis from the date of receipt by the Sponsor.

5a.[1] Principal and interest, where applicable, shall be payable in full at the time of the first disbursement of the mortgage proceeds. Where any portion of the funds disbursed from the trust account is not authorized by ---------- (enter HUD or Farmers Home Administration, as appropriate) to be recovered from the first disbursement of mortgage proceeds, the maturity for this portion of the funds shall be further extended to the date of the final disbursement of mortgage proceeds. In the event the ---------- (enter HUD or Farmers Home Administration as appropriate) commitment expires before mortgage proceeds are disbursed the entire amount shall be due and payable on that date. In any event the entire amount shall be due and payable not more than two years from the date of the first disbursement under this agreement unless extended by the Agency in writing.

5b.[1] In the event this contract is for the development of a project of individual sales type homes, principal, and where applicable, interest shall be payable in full, in installments as the mortgage proceeds on the individual homes are disbursed. The amount of the installment payments will be prorated in accordance with the number of individual houses in the project for which ---------- (enter HUD or Farmers Home Administration as appropriate) issues mortgage insurance commitments. In any event, the entire amount of principal and, where applicable, interest, shall be due 2 years from the date of the first installment under this agreement unless extended by the Agency in writing.

6.[2] The Agency agrees to waive repayment of any expended portion of the loan that it determines cannot be included in the mortgage proceeds or recovered from the sale or real property acquired with loan funds, provided that the Sponsor submits a full and complete accounting, satisfactory to the Agency, of all funds expended, including funds disbursed from the trust account together with the Sponsor's certification that all sums were in payment of expenditures listed in the application and approved by the Agency. Any unexpended funds in the trust account shall be transferred to the Agency for appropriate adjustment. The Agency will not cancel repayment of that portion of the loan which is determined to be in excess of ------% (enter percentage specified in section 3 above) of the total expenditures certified to by the Sponsor and approved by the Agency.

7.[2] In the event the Sponsor is unable to obtain a federally insured mortgage, the Agency agrees to waive repayment of the loan, provided the Sponsor has complied with all the foregoing requirements of this agreement, has diligently tried to obtain a federally insured mortgage and submits a full and complete accounting satisfactory to the Agency of all funds expended, including funds disbursed from the trust account together with the Sponsor's certification that all sums were in payment of expenditures listed in the application and approved by the Agency; provided that (subject to section 6 above) repayment shall not be waived if the Sponsor shall obtain mortgage financing from some source not insured by ---------- (enter HUD or Farmers Home Administration as appropriate) for this or a similar project on the same site. Any unexpended funds in the trust account shall be returned to the Agency for appropriate adjustment. The Agency will not cancel repayment of that portion of the loan which is determined to be in excess of ------% (enter percentage specified in section 3 above) of the total expenditures certified to by the Sponsor and approved by the Agency.

8. *Special conditions*—a. *Compliance with Title VI of the Civil Rights Act of 1964.* The Sponsor agrees to comply with all requirements imposed by Title VI of the Civil Rights Act of 1964 (Public Law 88-352, 78 Stat. 241) and the statement assuring compliance with that title executed as part of the loan application which is hereby incorporated and made a part of this contract and the applicable regulations implementing that title issued by ---------- (enter name of Federal Department or agency administering Federal project or federally assisted project).

b. *Compliance with equal employment opportunity requirements.* The Sponsor agrees to comply with the provisions of Executive Order 11246 and the regulations of the Secretary of Labor at 41 CFR Chapter 60, and to incorporate or cause to be incorporated into any contract for construction work or modification thereof, as defined in the regulations of the Secretary of Labor at 41 CFR Chapter 60, which is paid for in whole or in part with funds obtained from the Federal Government or borrowed on the credit of the Federal Government pursuant to a grant, contract, loan, insurance, or guarantee, or undertaken pursuant to any Federal program involving such grant, contract, loan, insurance, or guarantee, the following equal opportunity clause:

The Sponsor hereby agrees that it will incorporate or cause to be incorporated into any contract for construction work or modification thereof, as defined in the regulations of the Secretary of Labor at 41 CFR Chapter 60, which is paid for in whole or in part with funds obtained from the Federal Government or borrowed on the credit of the Federal Government pursuant to a grant, contract, loan, insurance, or guarantee, or undertaken pursuant to any Federal program involving such grant, contract, loan, insurance, or guarantee, the following equal opportunity clause:

During the performance of this contract, the contractor agrees as follows:

(1) The contractor will not discriminate against any employee or applicant for employment because of race, color, religion, sex, or national origin. The contractor will take affirmative action to ensure that applicants are employed, and that employees are treated during employment without regard to their race, color, religion, sex, or national origin. Such action shall include, but not be limited to, the following: Employment, upgrading, demotion, or transfer; recruitment advertising, layoff or termination; rates of pay or other forms of compensation; and selection for training, including apprenticeship. The contractor agrees to post in conspicuous places, available to employees and applicants for employment, notices to be provided setting forth the provisions of the nondiscrimination clause.

(2) The contractor will, in all solicitations or advertisements for employees placed by or on behalf of the contractor, state that all qualified applicants will receive consideration for employment without regard to race, color, religion, sex, or national origin.

(3) The contractor will send to each labor union or representative of workers with which he has a collective bargaining agreement or other contract or understanding, a notice to be provided by the Contract Compliance Officer advising the said labor union or workers' representatives of the contractor's commitment under this section, and shall post copies of the notice in conspicuous places available to employees and applicants for employment.

(4) The contractor will comply with all provisions of Executive Order 11246 of September 24, 1965, and of the rules, regulations, and relevant orders of the Secretary of Labor.

(5) The contractor will furnish all information and reports required by Executive Order 11246 of September 24, 1965, and by rules, regulations and orders of the Secretary of Labor, or pursuant thereto, and will permit access to his books, records, and accounts by the Department and the Secretary of Labor for purposes of investigation to ascertain compliance with such rules, regulations, and orders.

(6) In the event of the contractor's noncompliance with the nondiscrimination clauses of this contract or with any of the said rules, regulations, or orders, this contract may be canceled, terminated, or suspended in whole or in part and the contractor may be declared ineligible for further Government contracts or federally assisted construction contracts in accordance with procedures authorized in Executive Order 11246 of September 24, 1965, or by rule, regulation, or order of the Secretary of Labor or as otherwise provided by law.

(7) The contractor will include the portion of the sentence immediately preceding paragraph (1) and the provisions of paragraphs (1) through (7) in every subcontract or purchase order unless exempted by rules, regulations, or orders of the Secretary of Labor issued pursuant to section 204 of Executive Order 11246 of September 24, 1965, so that such provisions will be binding upon each subcontractor or vendor. The contractor will take such action with respect to any subcontract or purchase order as the Department may direct as a means of enforcing such provisions, including sanctions for noncompliance: *Provided, however,* That in the event a contractor becomes involved in or is threatened with, litigation with a subcontractor or vendor as a result of such direction by the Department, the contractor may request the United States to enter into such litigation to protect the interest of the United States.

The Sponsor further agrees that it will be bound by the above equal opportunity clause with respect to its own employment practices when it participates in federally assisted construction work: *Provided,* That if the applicant so participating is a State or local government, the above equal opportunity clause is not applicable to any agency, instrumentality or subdivision of such government which does not participate in work on or under the contract.

The Sponsor agrees that it will assist and cooperate actively with the Department and the Secretary of Labor in obtaining the compliance of contractors and subcontractors with the equal opportunity clause and the rules, regulations, and relevant orders of the Secretary of Labor; that it will furnish the Department and the Secretary of Labor such information as they may require for the supervision of such compliance; and that it will otherwise assist the Department in the discharge of its primary responsibility for securing compliance.

The Sponsor further agrees that it will refrain from entering into any contract or contract modification subject to Executive Order 11246 of September 24, 1965, with a a contractor debarred from, or who has not demonstrated eligibility for, Government contracts and federally assisted construction contracts pursuant to the Executive order and will carry out such sanctions and penalties for violation of the equal opportunity clause as may be imposed upon contractors and subcontractors by the Department or the Secretary of Labor pursuant to Part II, Subpart D of the Executive order. In addition, the applicant agrees that if it fails or refuses to comply with these undertakings, the Department may take any or all of the following actions: Cancel, terminate, or suspend in whole or in part this grant (contract, loan, insurance, guarantee); refrain from extending any further assistance to the applicant under the program with respect to which the failure or refusal occurred until satisfactory assurance of future compliance has been received from such applicant; and refer the case to the Department of Justice for appropriate legal proceedings.

c. *Compliance with affirmative fair housing marketing requirements.* The Sponsor agrees to comply with all fair housing and equal housing opportunity requirements, including affirmative marketing, imposed by Executive Order 11063 (27 F.R. 11527) and Title VIII of the Civil Rights Act of 1968 (Public Law 90-284, 82 Stat. 73) and all regulations issued by the Department of Housing and Urban Development thereunder.

d. *Compliance with project selection criteria.* The Sponsor agrees to make every effort to plan and develop housing that would be acceptable under the Project Selection Criteria Regulations issued by the Department of Housing and Urban Development.

e. *Environmental protection requirements.* The sponsor agrees to supply all information requested by the ---------- (enter name of Federal Department or agency) in order to permit compliance with that (Department's) (Agency's) implementing the National Environmental Policy Act of 1969 (Public Law 91-190, 83 Stat. 852) and the Guidelines of the Council on Environmental Quality.

f. *Preference to "displaced persons".* The sponsor agrees that among the applications resulting from both affirmative marketing efforts and referrals from the displacing agency, those from persons displaced by the project providing the loan funds must be given preference.

APPENDIX II

FHA FORM NO. 3433
Rev. 1/68

Form Approved Budget Bureau No. 63-R1055

DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT, FEDERAL HOUSING ADMINISTRATION

REQUEST FOR PRELIMINARY DETERMINATION OF ELIGIBILITY AS NONPROFIT SPONSOR OR MORTGAGOR

Under section 221, 231, or 232 of the National Housing Act;

To: The Federal Housing Commissioner,
c/o ----------

(Name of proposed project)

(Location)

Section ---------- (221, 231, or 232)

The instructions relating to this request have been read and are fully understood. A preliminary determination as to the eligibility of the proposed mortgagor as a nonprofit corporation or association is requested. In order to assist in the determination, the following information and that on the attached exhibit is supplied.

1. The---------- (name of sponsoring group) received its Charter on ---------- (date) pursuant to ---------- (cite statute) of the laws of the State of ----------

2. Purpose for which the sponsoring group was formed (as stated in its Charter):------
----------a----------

3. Motivation of the sponsoring group with respect to the proposed project:----------
----

4. Record of achievement in such fields as housing, human rehabilitation, social service, medical assistance, etc. (Describe the projects, give present status and periods in which involved.)

5. In an attached exhibit, furnish complete information for each of the items set forth below. Where arrangements have not been made, it must be so stated and information supplied as to what is contemplated.

a. List of the officers and directors of the sponsoring group including names, addresses, and title of positions.

b. Relationship between sponsoring group and mortgagor (existing connections or proposed, if mortgagor has not been formed).

c. Statement as to the source or sources from which the sponsor acquired its capital and acquires its income.

d. Source and amount of funds for the following expenses requiring cash outlay by the sponsor prior to receipt of the insured loan advances (if borrowed, give terms of the loan):

(1) FHA application and commitment fees,
(2) Option on project site, and
(3) Advance legal, housing consultant, and architect fees.

e. Detailed statement of the arangements made or proposed for the following, listing the principals involved, the relationship between such principals and the sponsor and mortgagor, giving the terms of the arrangements and describing the circumstances surrounding each:

(1) Land upon which the project is to be built,
(2) Construction of the project, including the selection of the general contractor, subcontractors and architect,
(3) Legal and housing consultant services,
(4) Financing of the project, and
(5) Management of the project.

V 37-74
APR 15 72
XUM

To the best of my knowledge and belief, the foregoing information and that contained in the attached exhibit is true and correct.

	(Signature)
(Date)	(Title—officer of sponsoring group)

FHA Form No. 3433—Instructions
(January 1968)

DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT FEDERAL HOUSING ADMINISTRATION

INSTRUCTIONS RELATING TO REQUEST FOR PRELIMINARY DETERMINATION OF ELIGIBILITY AS NONPROFIT SPONSOR OR MORTGAGOR

Sections 221, 231, and 232 of the National Housing Act, as amended, provide financing for nonprofit mortgagors. A nonprofit mortgagor is defined in FHA Regulations as follows:

"The mortgagor shall be a corporation or association organized for purposes other than the making of a profit or gain for itself or persons identified therewith and which the Commissioner finds is in no manner controlled by nor under the direction of persons or firms seeking to derive profit or gain therefrom."

The purpose of these instructions and form is to obtain the information required to enable the FHA Commissioner to make a determination prior to issuance of a letter of feasibility and acceptance of an application, that the sponsor of a mortgagor and the mortgagor itself, if the mortgagor has been created, is truly nonprofit in accordance with the definition above. The purpose of the preliminary determination is to prevent, as far as possible, unnecessary outlay of funds for FHA fees, plans, etc., by a sponsor or proposed mortgagor, who may be found ineligible. If found ineligible, the application will not be accepted. If tentatively found eligible, sponsor, mortgagor and the parties supplying land and services, in accordance with the terms of the commitment to insure, will be required to formally certify as to motives and relationships prior to initial endorsement of the note for insurance. A determination as to eligibility will be made at that time.

Determination of nonprofit eligibility requires a knowledge of the motivation of the sponsor and mortgagor, relationship between the sponsor and mortgagor, and relationship between the mortgagor or sponsor and the various parties or firms concerned with the project and mortgage transaction. It is essential that there be a full disclosure of all relationships and of all facts pertaining to each relationship.

QUALIFICATIONS FOR SUCCESSFUL SPONSORSHIP

It is most important that nonprofit sponsors should have continuity, and a serious and long-range desire to provide housing for low- and moderate-income families and individuals. Well-established institutional sponsors such as churches, labor unions, and fraternal organizations, are more likely to have continuity and a history of community and social service than a group organized for the specific purposes of initiating the project. In certain circumstances, however, a nonprofit group could have been recently formed with sufficiently broad base of community or neighborhood support so as to assure continuity and successful operation of the proposed project.

A group with deep roots in the community or neighborhood will probably be stronger than a national or regional organization without established roots in the community. Moreover, such a locally oriented sponsor is more likely to produce tenants for the project.

A nonprofit sponsor should be motivated not only by a desire to develop an adequate housing project, but also by a concern for the project's continuing successful operation. The entire membership of the sponsoring organization, not just a few of its representatives, should be thus motivated.

ESTABLISHING ELIGIBILITY

In order to establish that a nonprofit sponsor is properly qualified to initiate, complete, and operate a housing project for low- and moderate-income families, FHA requires that:

1. The sponsor is acting on its own behalf and is not, either knowingly or unwittingly, under the influence, control, or direction of any outside party seeking to derive profit or gain from the proposed project, such as a landowner, real estate broker, contractor, or consultant.

2. The sponsor fully understands the responsibilities and obligations that attach to sponsorship of a housing project and its continuing successful operation. The principals and membership of the nonprofit sponsor organization should be prepared to explore in depth with the FHA director problems connected with land acquisition, interim and permanent financing, selection of architects and contractors, construction, rent-up, and management.

3. The sponsor is prepared by resolution of its directors or trustees to acknowledge the responsibilities and obligations of sponsorship and continuing ownership and that this position reflects the will of its membership.

4. The sponsor is reliable on the basis of its reputation and past performance or that of its principals. In determining reliability, consideration will be given to any previous experience the sponsor has had in providing housing or related social or community services.

5. The sponsor either has within its own organization or has made arrangements for the necessary professional and management skills which are essential for the successful initiation, development, completion, and operation of the proposed project.

CAPACITY OF SPONSOR

The proposed project should not be beyond the capacity of the sponsor.

One would not expect a small bank to take on the underwriting of a major industrial financing venture. Similarly, it would not be reasonable to expect a small church to assume responsibility for a large housing project. The size of the project must be in keeping with the size and capabilities of the sponsoring organization.

If a well-motivated and reliable sponsor proposes a project beyond its capabilities; effort should be made to obtain cosponsors which will permit the combining of capabilities to the extent necessary to satisfy the requirements of the proposal, or the size of the project should be reduced.

RESPONSIBILITIES OF SPONSORSHIP

Some nonprofit sponsors may assume that the responsibility for the project, particularly in time of stress, rests with the government, the builder, or someone other than themselves; and that their role as sponsor is merely to lend their name to the project. If this attitude exists, it must be dispelled. Sponsors must understand that it is their project, and must evidence a serious intent to provide continuing support and an effective management.

The FHA commitment and mortgage insurance are predicated upon FHA's estimate (1) that there will be sufficient mortgage proceeds plus required escrows to build the project, and (2) that the rental or project income will be sufficient to meet all operating expenses and mortgage payments during the full term. Nonprofit sponsors should understand, however, that owning and operating a housing project involves difficult and trying problems, including the possibility that some unforeseen circumstances could cause project funds to run short. They should understand that FHA would expect them to cope with these problems at the time of need by all means at their disposal, such as promotional help, contributive management or services, appeals to membership or affiliated organizations. They are not legally required to provide such support, but any nonprofit sponsor should by definition feel a strong sense of moral duty to help in these circumstances. There is no reason to distinguish between a housing project and any other social purpose asset of a nonprofit organization, such as an elderly home, a medical facility, a convalescent center or a day-care facility.

It is stressed, however, that FHA does not insist upon or require a pledge or guaranty, except in rare cases where deficits are anticipated during "rent-up." What is required is a full understanding of responsibility on the part of the nonprofit sponsor. Sponsors must, of course, establish that they have the capabilities to meet expenses prior to the drawdown of mortgage funds, including expenses for achitectural services, legal and other professional services, etc. Such expenses need not be covered by the sponsor's funds alone. They may be met through assured advances from such other parties as a bank, a federal, state or municipal fund, a foundation, a church hierarchy, or another nonprofit organization.

It is permissible to borrow funds from the contractor or other parties connected with the project if they are for items to be covered by the insured mortgage and if such sums are paid in full at the time the mortgage proceeds are advanced.

POTENTIAL SPONSORS

Although it is not desirable to attempt to establish rigid criteria for determining eligibility of nonprofit sponsors, certain factors will indicate strength, other factors will suggest weakness, and some factors will make the sponsor ineligible. An evaluation of factors applicable to a particular sponsor will assist in reaching a judgment about the eligibility of the sponsor and his ability to successfully carry out the proposed project.

Among factors which indicate strength are: (1) A serious desire to provide housing for qualified low- and moderate-income families and individuals, (2) deep roots in the neighborhood and community, (3) previous experience in successfully operating housing projects, (4) widespread support for the proposal within the membership of the nonprofit organization, (5) professional expertise within the nonprofit organization or available to it from qualified outside sources, (6) adequate financial capacity to meet initial expenses and to provide for unforeseen contingencies during construction and operation of the project, and (7) absence of conflicts of interest.

Among factors which suggest weakness are: (1) No previous housing experience, (2) no previous experience or contacts in the neighborhood in which the proposed project would be located, (3) evidence that a builder, landowner, consultant, or some other party expecting to benefit financially had initiated the project and dominates the sponsorship, (4) lack of assured continuity of support by the nonprofit group as a whole, or the support of individuals who may not continue their association with the sponsoring organization, (5) heavy commitments in other fields which would tax the financial capacity of the group and weaken its support of the proposed project in times of stress, and (6) lack of professional competence to build and operate the project successfully.

Eligible nonprofit sponsors will be found among organizations such as:

A strong local chapter of a national service organization.

A broadly based community action group—such could be recently formed if there is positive assurance of continuity.

An established church with a good record of social services.

A national or State church organization.

An active charitable foundation of long standing—such could be a family foundation with unquestionable motivation, continuity, and no relationship to profit parties.

A labor union with an active local and full support of the membership.

An outstanding local service organization such as a Junior Chamber of Commerce.

Some sponsors are clearly ineligible without considering factors of strength and weakness, such as a nonprofit foundation controlled by the builder or his family, or by any other person or persons who would derive a profit or fee from the project.

SPECIAL CONSIDERATIONS FOR SECTION 221(h) REHABILITATION SALES SPONSORSHIP

The nature of the program, i.e., the rehabilitation and sale of properties to low-income purchasers, requires a special type of sponsorship.

The responsibility as it pertains to the real estate is relatively short term; whereas the responsibility for continued social services to the individual low-income owners is a long-term one. The sponsor must have the capacity or ability to arrange for the continued services required to aid the purchasers to become responsible home owners.

A group of public spirited citizens organized specifically for the purposes of the program may be qualified if it can be demonstrated that the group has the motivation, determination, and capacity to assemble, rehabilitate, and market the properties to qualified purchasers and at the same time provide the required long-term services to the new home owners.

Federal Aviation Administration

[14 CFR Parts 71, 91]

[Docket No. 9471; Notice 72-12]

RADAR BEACON TRANSPONDER REQUIREMENTS

Supplemental Notice of Proposed Rule Making

In April, 1965, an advance notice of proposed rule making was published in the FEDERAL REGISTER (Notice 65-9; 30 F.R. 6074), which alerted the public to plans for the development and improvement of the National Airspace System (NAS), and informed the public of the new equipment that would be required for the operation of that system.

This development of the system was necessitated by the problems resulting from the increasing mix of high speed and low speed traffic in the airspace, the increase density of traffic, and the mix of both IFR and VFR and the mix of unknown and known traffic. These factors, coupled with the continuing estimates of dramatic growth in numbers and sophistication by all types of users, create real problems in traffic management and increased midair collision hazards.

On March 14, 1969, a notice of proposed rule making was published in the FEDERAL REGISTER (Notice 69-9; 34 F.R. 5259), which proposed to require all aircraft operating in certain designated controlled airspace be equipped with an improved radar beacon transponder having both a Mode 3/A, 4096 Code capability, and a Mode C automatic altitude reparting capability. The objective of the proposal was to improve air traffic control system effectiveness through additional IFR beacon tracking and automatic altitude reporting capability. The proposal was also designed to reduce the midair collision potential by requiring VFR flights operating in selected airspace to respond to interrogations by transmitting position and altitude automatically.

Briefly, Notice 69-9, issued March 14, 1969, proposed that a 4096 Code Mode 3/A transponder with Mode C automatic altitude reporting capability would be required, effective January 1, 1973, by both VFR and IFR aircraft in the following airspace:

1. At or above 10,000 feet MSL in the 48 contiguous States.
2. In positive control airspace.
3. In specified terminal areas.

As stated in Notice 69-9, the implementation of Mode C altitude reporting would provide the following ATC system benefits:

1. Improved ATC system safety by automatically displaying the altitude of all aircraft operating in selected airspace.
2. Reduced midair collision potential through eliminating previously unknown integral data.
3. Reduced volume of communications by eliminating the need for oral altitude reports.
4. Improved utilization of airspace through continuous altitude data on climbing and descending aircraft.
5. Increased effectiveness through greater controller selectivity in viewing targets.
6. Reduced number of traffic advisories or avoidance vectors during the provision of radar service.

Most comments received in response to Notice 69-9 were unfavorable (approximately 80 percent), and were to the effect that the proposed rule would impose excessive equipment requirements or airspace restrictions on certain classes of users. In general, the favorable comments received in response to Notice 69-9 were based upon an anticipated increase in air safety and airspace utilization. The concern on the part of many users along with other pertinent developments since the issuance of Notice 69-9 has caused the FAA to review the entire planned national airspace configuration. The FAA has also carefully weighed the original objectives along with the comments received in response to Notice 69-9.

We have concluded that our original proposal was more restrictive than actually necessary and have determined that further opportunity should be afforded to interested persons to submit comments on a modified, less restrictive concept of improved transponder employment. This supplemental notice, therefore, contains certain new proposals pertaining to the airspace and conditions in which the improved transponder would be required.

Interested persons are invited to participate in the making of the proposed rule by submitting such written data, views, or arguments as they may desire. Communications should identify the regulatory docket or notice number and be submitted in duplicate to the Federal Aviation Administration, Office of the General Counsel: Attention Rules Docket, GC-24, 800 Independence Avenue SW., Washington, DC 20591. All communications received on or before June 29, 1972, will be considered by the Administrator before taking action on the proposed rule. The proposal contained in this notice may be changed in the light of comments received. All comments submitted will be available both before and after the closing date for comments, in the Rules Docket for examination by interested persons.

While the FAA understands that the implementation of the proposed rule would add to equipment costs for users of high altitudes and the busier terminals, it, nevertheless, believes that the cost factor is far outweighed by the increase in air traffic control effectiveness, reduced collision potential in the designated airspace and the additional airspace freed over the previous proposal. In the current proposal, an effort is made to minimize the amount of airspace in which the improved transponder would be required. In addition, advances in technology have significantly reduced the cost of airborne transponders and there is valid evidence that this trend will continue.

This supplemental notice differs from Notice 69-9 in that it provides that only above 12,500 feet MSL would the improved radar beacon transponder be required for en route operations. It would also lessen the impact of the transponder requirement by allowing IFR and VFR flights being provided separation service to operate without a transponder in terminal airspace at 42 locations designated as Terminal Areas and it comprehends encompassing limited amounts of airspace at these terminals.

Briefly, the proposed amendment set forth below would require the improved radar beacon transponder:

En route:

1. Within positive control area.
2. Within controlled airspace at and above 12,500 feet MSL excluding the airspace less than 1,500 feet AGL, in the 48 contiguous States, effective July 1, 1975.

Terminal airspace:

1. Within designated terminal airspace at Group I and Group II Terminal Control Areas and Terminal Areas as described below. The traffic density and complexity at the terminal locations are

V 37-74 APR 15 72 XUM

of sufficient magnitude to require maximum protection for all aircraft within designated terminal airspace, and Mode C altitude reporting equipment is necessary to take advantage of automation capability and to provide maximum system efficiency.

a. *Group I.* Nine high activity locations designated as Terminal Control Areas: Atlanta, Boston, Chicago, Dallas-Fort Worth, Los Angeles, Miami, New York, San Francisco-Oakland, and Washington-National. The exceptions to the transponder requirement in the current rules would no longer apply and all aircraft, including helicopters, would be required to have the improved transponder in the Group I terminal control areas.

b. *Group II.* Twelve high-activity locations designated as Terminal Control Areas: Cleveland, Denver, Detroit, Houston, Kansas City, Las Vegas, Minneapolis, New Orleans, Philadelphia, Pittsburgh, Seattle, and St. Louis. All aircraft would be required to have the improved transponder, but those VFR flights not wishing to receive radar separation service would not need to communicate with the radar facility. Although traffic density and complexity are less at these locations than at the above nine, the need exists to provide maximum protection for all aircraft and at the same time allow flights not wishing to receive radar service to operate in these areas. The altitude data provided by all aircraft will greatly assist controllers in vectoring aircraft receiving separation service clear of uncontrolled aircraft if necessary.

c. Forty-two additional terminal locations equipped with Automated Radar Teminal System (ARTS) equipment and designated as Terminal Areas. These terminals would be listed in a new Subpart L of Part 71 of the regulations. At these locations, a transponder would not be required of an IFR flight or a VFR flight being provided separation service. An improved transponder would be required for all other flights in the area. The altitude data provided by the transponder of aircraft not receiving separation service will assist controllers in separating controlled flights from uncontrolled aircraft. Only that vectoring airspace required for the descent and climb-out operations of high performance aircraft will be encompassed.

It is believed that Part 71 of the Federal Aviation Regulations is the appropriate place to designate the terminal airspace within which the new rules would operate. Therefore, it is proposed that Part 71, which is currently in use for the designation of Group I and Group II Terminal Control Areas be expanded to incorporate Terminal Areas. Formal airspace actions will be proposed to further amend Part 71 to designate the airspace around each Terminal Area where the improved transponder will be required. The operation of the improved transponder rule for any location would not take place until the related airspace action was completed.

At present, most Group I Terminal Control Areas have a ceiling of 7,000 feet AGL. It is planned that the ceiling of these Terminal Control Areas eventually will be raised to 12,500 feet MSL so as to provide protection to all aircraft in this airspace. This action, when taken, will expand the improved transponder requirement at the Group I locations.

At the Group II Terminal Control Areas and the additional Terminal Areas, the designated airspace within which the improved transponder requirement would apply will be established on a case by case basis. The airspace size and configuration will be designed to contain standard instrument approach paths, departure and arrival routes, sufficient vectoring airspace, and other essential airspace activity. As in the currently established five Group I Terminal Control Areas, the amount of regulated airspace will be kept to a minimum and will be coordinated with user organizations prior to designation. It is anticipated that in most cases the Group II Terminal Control Area and the Terminal Area airspace will ultimately extend upward to 12,500 feet MSL to provide maximum protection for high performance aircraft transitioning between the en route Mode C altitude transponder airspace and the terminal airspace. In effect, this will eliminate airspace in which there would be unknown aircraft and will at the same time free much of the airspace around terminals for the lower performance aircraft.

A few commentators objected to the waiver procedure provided for in Notice 69-9. They believed that the minimum time needed in requesting a waiver was unreasonable, particularly where the request was to be made in writing at least 4 days in advance of the planned activity. Because of those objections, the FAA has restudied this situation and has determined that 12-hour notice will be sufficient to handle such requests and that in no case should it be required that such requests be in writing. Therefore, the proposed amendment set forth below reflects this change.

Because of various delays, it has been decided to adjust the proposed amendment effective date to January 1, 1974, for designated terminal airspace, and July 1, 1975, for en route airspace.

Finally, Notice 69-9 proposed a requirement for 4096 Code capability in § 91.97, "Positive Control Areas and Route Segments." Since the time when Notice 69-9 was published, it has been decided that § 91.97 should be left intact until the improved transponder requirement becomes effective, since transponders having at least a 64 Code capability will continue to be required in positive control airspace and in certain other airspace designated in the appropriate Federal Aviation Regulations.

Section 91.90, "Flight in Terminal Control Areas; Operating Rules and Pilot and Equipment Requirements," will be changed when the new rule for improved transponders in terminal control areas becomes effective.

For the reasons stated above, as well as those stated in Notice 69-9, it is proposed to amend Parts 71 and 91 of the Federal Aviation Regulations as follows:

1. Part 71 would be amended as follows:

a. A new paragraph (e) would be added to § 71.1 to read as follows:

§ 71.1 Applicability.

• • • • •

(e) The airspace assignments described in Subpart L of this part are designated as Terminal Areas.

b. A new § 71.20 following § 71.19 would be added to read as follows:

§ 71.20 Terminal areas.

The terminals listed in Subpart L of this part consist of airspace within which aircraft are subject to operating rules, and equipment requirements specified in Part 91 of this Chapter. Each such location is designated as a terminal area.

c. A new Subpart L would be added to Part 71 as follows:

Subpart L—Terminal Areas

§ 71.501 Designation.

The locations listed below are designated as terminal areas.

Albany.	Omaha.
Albuquerque.	Orlando.
Baltimore.	Portland, Oreg.
Birmingham.	Phoenix.
Buffalo.	Providence.
Burbank.	Raleigh-Durham.
Charlotte.	Ontario, Calif.
Cincinnati.	Rochester, N.Y.
Columbus, Ohio.	Sacramento.
Dayton.	Salt Lake City.
Des Moines.	San Antonio.
El Paso.	San Diego.
Hartford.	San Juan.
Honolulu.	Santa Ana/Long Beach.
Indianapolis.	Shreveport.
Jacksonville.	Syracuse.
Louisville.	Tampa.
Memphis.	Tucson.
Milwaukee.	Tulsa.
Nashville.	Washington-Dulles.
Norfolk.	
Oklahoma City.	

2. Part 91 would be amended as follows:

a. Paragraph (a) (3) (i) and (iii), and paragraph (b) of § 91.90 would be amended, effective January 1, 1974, to read as follows:

§ 91.90 Flight in terminal control areas and designated terminal areas; operating rules and pilot and equipment requirements.

(a) *Group I terminal control areas*—

• • • • •

(3) *Equipment requirements.* • • •

(i) An operable VOR or TACAN receiver.

• • • • •

(iii) An operable radar beacon transponder having a Mode 3/A 4096 Code capability that is capable of replying to Mode 3/A interrogations on the code specified by ATC, and a Mode C capability that automatically replies to Mode C interrogations by transmitting pressure altitude information in 100-foot increments.

(b) *Group II terminal control areas.* No person may operate an aircraft within a Group II terminal control area designated in Part 71 of this chapter except in compliance with the following rules:

(1) Unless otherwise authorized by ATC, each person operating a large turbine engine powered airplane to or from a primary airport shall operate at or above the designated floors while within the lateral limits of the terminal control area.

(2) Unless authorized by ATC in the case of a transponder failure occurring at any time, no person may operate an aircraft within a Group II terminal control area unless that aircraft is equipped with an operable radar beacon transponder having a Mode 3/A 4096 Code capability that is capable of replying to Mode 3/A interrogations on the code specified by ATC, and a Mode C capability that automatically replies to Mode C interrogations by transmitting pressure information in 100-foot increments.

b. A new § 91.96 is added to read as follows:

§ 91.96 Improved radar beacon transponder.

(a) Except as provided in paragraph (b) of this section, and except for those flights being provided separation service in the terminal areas designated in Subpart L of Part 71 of this chapter, no person may operate an aircraft for which an operable radar beacon transponder is required by this chapter unless the transponder is an improved radar beacon transponder having a Mode 3/A 4096 Code capability that is capable of replying to Mode 3/A interrogations on the code specified by ATC, and a Mode C capability that automatically replies to Mode C interrogations by transmitting pressure altitude information in 100-foot increments—

(1) After January 1, 1974, in those terminal areas and terminal control areas so designated in Subparts K and L of Part 71 of this chapter.

(2) After July 1, 1975, in positive control areas on positive control route segments, or in the controlled airspace of the 48 continguous States, and the District of Columbia which is both at or above 12,500 feet MSL and at or above 1,500 feet above ground level.

(b) ATC may authorize immediate deviations from the requirements of paragraph (a) of this section to allow an aircraft with an inoperative transponder to continue to the airport of ultimate destination, including any intermediate stops, or to proceed to a place where suitable repairs can be made, or both. ATC may also authorize a deviation from the requirements of paragraph (a) of this section for an operation other than one involving an inoperative transponder, however, the request for a deviation must be submitted to the ATC facility having jurisdiction over the airspace concerned at least 12 hours before the proposed operation. The deviation may be issued on a continuing basis or for individual flights as appropriate.

These amendments are proposed under the authority of sections 307 and 313 of the Federal Aviation Act of 1958 (49 U.S.C. 1340 and 1354), and of section 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).

Issued in Washington, D.C., on April 11, 1972.

WILLIAM M. FLENER,
Director, Air Traffic Service.

[14 CFR Part 135]

[Docket No. 11860; Notice 72-11]

FLOTATION GEAR

Proposed Requirements for Land Aircraft Operated Over Water

The Federal Aviation Administration is considering amending Part 135 of the Federal Aviation Regulations to permit the use of land helicopters to carry passengers over water when equipped with helicopter flotation devices.

Interested persons are invited to participate in the making of the proposed rule by submitting such written data, views, or arguments as they may desire. Communications should identify the regulatory docket or notice number and be submitted in duplicate to: Federal Aviation Administration, Office of the General Counsel, Attention: Rules Docket, GC-24, 800 Independence Avenue SW., Washington, DC 20591. All communications received on or before June 14, 1972, will be considered by the Administrator before taking action on the proposed rule. The proposals contained in this notice may be changed in the light of comments received. All comments submitted will be available, both before and after the closing date for comments in the rules Docket, for examination by interested persons.

A number of land helicopters are unable to meet the performance requirements of § 135.147 and, therefore, cannot be used to carry passengers over water in Part 135 operations. On the other hand, Part 127 of the Federal Aviation Regulations, which governs air carriers engaged in scheduled interstate air transportation using helicopters, permits the operation of a single-engine helicopter over water beyond autorotative gliding distance from land if, among other things, it is equipped with helicopter flotation devices. In addition, since May 1971 the FAA has exempted certain Part 135 certificate holders engaged in off-shore oil activities and law enforcement activities from compliance with § 135.147 to permit them to operate over water with helicopters equipped with suitable flotation devices. On the basis of this operating experience, the FAA believes it is appropriate to propose an amendment to § 135.147 to permit a land helicopter carrying passengers to be operated over water when it is equipped with helicopter flotation devices, notwithstanding it cannot meet the performance requirements presently prescribed in that section.

In consideration of the foregoing, it is proposed to amend § 135.147 of the Federal Aviation Regulations to read as follows:

§ 135.147 Performance requirements: Land aircraft operated over water.

No person may operate a land aircraft carrying passengers over water unless—

(a) It is operated at an altitude that allows it to reach land in the case of engine failure;

(b) It is necessary for takeoff or landing;

(c) It is a multiengine aircraft operated at a weight that will allow it to climb, with the critical engine inoperative, at least 50 feet a minute, at an altitude of 1,000 feet above the surface; or

(d) It is a helicopter equipped with helicopter flotation devices.

This amendment is proposed under the authority of sections 313(a) and 601 of the Federal Aviation Act of 1958 (49 U.S.C. 1354(a) and 1421) and section 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).

Issued in Washington, D.C., on April 10, 1972.

J. A. FERRARESE,
Acting Director,
Flight Standards Service.

[FR Doc.72-5708 Filed 4-14-72;8:45 am]

National Highway Traffic Safety Administration

[49 CFR Part 571]

[Docket No. 1-18; Notice 7]

FAN CONTROL, LOCATION, IDENTIFICATION, AND ILLUMINATION

Proposed Clarification of Standard

This notice proposes the adoption of wording for the identificaion of the fan control in Motor Vehicle Safety Standard No. 101a, 49 CFR 571.101a.

It has come to the agency's attention that there is some confusion as to whether the fan control is considered part of the heating and air conditioning system. Since the fan is an adjunct to such system and serves to supplement its effectiveness, the NHTSA considers it part of the system. In terms of the current requirements of Standard No. 101a, this means that the control must be identified by words chosen by the manufacturer, such as "Fan" or "Blower," and that no symbol may be used. Many manufacturers, however, have used a fan symbol and NHTSA has tentatively determined that a symbol should be permitted. Accordingly, NHTSA is proposing to adopt the identifying word "FAN," with the use of a symbol, and the choice of symbol, at the option of the manufacturer.

In consideration of the foregoing, it is proposed that 49 CFR 571.101a be amended by adding the following entries to Table I, Control Identification and Illumination:

V 37-74 APR 15 72 XUM

Column 1	Column 2	Column 3	Column 4
Motor vehicle equipment controls.	Word or abbreviation.	Permissible symbol.	Illumination.
. . .	. . .	. . .	. . .
Fan control...	FAN.....	[Manufacturer's Option.]	Yes.

Interested persons are invited to submit written data, views, or arguments on this proposal. Comments should refer to the docket number and be submitted to: Docket Section, National Highway Traffic Safety Administration, Room 5219, 400 Seventh Street SW., Washington, DC 20590. It is requested, but not required, that 10 copies be submitted. All comments received before the close of business on May 15, 1972, will be considered, and will be available in the docket at the above address for examination both before and after the closing date. To the extent possible, comments filed after the above date will also be considered by the Administration. However, the rule making action may proceed at any time after that date, and comments received after the closing date and too late for consideration in regard to the action will be treated as suggestions for future rule making. The Administration will continue to file relevant material, as it becomes available, in the docket after the closing date, and it is recommended that interested persons continue to examine the docket for new materials.

Proposed effective date: September 1, 1973.

This notice is issued under the authority of sections 103 and 119 of the National Traffic and Motor Vehicle Safety Act of 1966 (15 U.S.C. 1392, 1407) and the delegation of authority at 49 CFR 1.51 and 49 CFR 501.8.

Issued on April 10, 1972.

ROBERT L. CARTER,
Acting Associate Administrator,
Motor Vehicle Programs.

[FR Doc.72-5740 Filed 4-14-72;8:47 am]

FEDERAL COMMUNICATIONS COMMISSION

[47 CFR Parts 13, 74]

[Docket No. 19488; FCC 72-332]

CERTAIN RADIO-TELEPHONE OPERATOR REQUIREMENTS

Experimental, Auxiliary, and Special Broadcast, and Other Program Distributional Services

In the matter of amendment of Part 74 (experimental, auxiliary, and special broadcast, and other program distributional services) as to certain operator requirements, Docket No. 19488.

1. The Commission here gives notice of proposed rule making to consider amending Part 74 (experimental, auxiliary, and special broadcast, and other program distribution services) as concerns certain radio-telephone operator requirements. This notice is promulgated under the authority of section 553 (b) of the Administrative Procedure Act (5 U.S.C. 553(b)).

2. Specifically, the Commission here proposes possible deletion from Part 74 of the requirements for licensed operators whenever a restricted radiotelephone operator is allowed to perform the function (see §§ 13.2(c)(1)(i), 13.22(h), and 13.61(h) of the Commission's rules and regulations). The Commission here considers these changes because restricted radiotelephone operators (referred to hereafter at times as "RP's") perform duties and functions not unlike those performed in other services where there are no requirements for a licensed operator and the deletion of licensed operator requirements would not be a detriment to broadcasting. These operator requirements were included in our rules as a matter of discretion rather than statutory mandate. In this respect, section 318 of the Communications Act of 1934 as amended, provides:

> The actual operation of all transmitting apparatus in any radio station for which a station license is required by this Act shall be carried on only by a person holding an operator's license issued hereunder, and no person shall operate any such apparatus in such station except under and in accordance with an operator's license issued to him by the Commission: *Provided, however,* That the Commission if it shall find that the public interest, convenience, or necessity will be served thereby may waive or modify the foregoing provisions of this section for the operation of any station except * * * (3) stations engaged in broadcasting (other than those engaged solely in the function of rebroadcasting the signals of television broadcast stations) * * *.[1]

3. Since the present restricted radiotelephone operator requirements attach only to broadcast-related services which do not operate within frequency bands allocated to radio and television broadcasting and do not disseminate radio communications intended to be received by the general public, they do not relate to "stations engaged in broadcasting" and their elimination as herein proposed would not contravene the provisions of section 318. The proposed changes are set forth in the attached appendix.

4. Authority for this action is set forth in sections 4(i) and 303(r) of the Communications Act of 1934, as amended.

5. Pursuant to applicable procedures set out in § 1.415 of the Commission's Rules, interested persons may file comments on or before May 19, 1972, and reply comments on or before May 30, 1972. All submissions by parties to this proceeding or by persons acting on behalf of such parties must be made in written comments, reply comments, or other appropriate pleadings.

6. In accordance with the provisions of § 1.419 of the Commission's rules, an original and 14 copies of all comments, replies, pleadings, briefs, and other documents shall be furnished the Commission. These documents will be available for public inspection during regular business hours in the Commission's Public Reference Room at its headquarters, 1919 M Street NW., Washington, DC.

Adopted: April 5, 1972.

Released: April 11, 1972.

FEDERAL COMMUNICATIONS COMMISSION,[2]
[SEAL] BEN F. WAPLE,
Secretary.

1. Amend subparagraph (3) of § 13.61 (h) to read as follows:

§ 13.61 Operating authority.

. . . . . .

(h) * * *

(3) Any of the various classes of broadcast stations other than FM translator and booster stations, or

. . . . . .

2. Amend paragraph (h) of § 74.437. As amended, § 74.437 reads as follows:

§ 74.437 Special rules relating to low power broadcast auxiliary stations.

. . . . . .

(h) A low power broadcast auxiliary transmitting station may be operated only by a person designated by and under the control of the licensee and need not be a licensed operator under Part 13 of this chapter (Commercial Radio Operators). Any adjustments or repairs that could affect the proper operation of transmitting units shall be made by or under the immediate supervision of an operator holding a valid first or second class radiotelephone license.

. . . . . .

3. Delete paragraph (b) of § 74.464 and paragraph designator "(a)", and redesignate paragraph (a) (1), (2), and (3) as paragraphs (a), (b), and (c). As amended § 74.464 reads as follows:

§ 74.464 Posting of station licenses.

The station license and any other instrument of authorization or individual order concerning the construction of the equipment or manner of operation of the station shall be posted so that all terms thereof are visible in a conspicuous place in the room in which the transmitter is located: *Provided:*

. . . . . .

NOTE: The term portable-mobile as here used is intended to include any type of portable or mobile operation.

[1] The parenthetical portion of clause (3) exempting "television rebroadcasting" was added in 1960; see Public Law 86-609, approved July 7, 1960, 74 Stat. 363.

Prior to Public Law 26, 75th Cong., effective March 29, 1937, 50 Stat. 56, section 316 read as follows:

> The actual operation of all transmitting apparatus in any radio station for which a station license is required by this Act shall be carried on only by a person holding an operator's license issued hereunder. No person shall operate any such apparatus in such station except under and in accordance with an operator's license issued to him by the Commission.

[2] Commissioner Robert E. Lee absent.

4. Amend paragraph (a) of § 74.465, and delete paragraph (e). As amended, § 74.465 reads as follows:

§ 74.465 Operator requirements.

(a) A remote pickup broadcast station may be operated only by a person designated by and under control of the licensee and need not be a licensed operator under Part 13 of this chapter (Commercial Radio Operator).

. . . . . .

(e) [Deleted]

(Sec. 318, 48 Stat. 1089, as amended by Public Law 86-609, 74 Stat. 363; 47 U.S.C. 318)

5. Amend subparagraph (1) of paragraph (a) and subparagraph (4) of subparagraph (b) of § 74.533. As amended, § 74.533 reads as follows:

§ 74.533 Remote control and unattended operation.

(a) * * *

(1) The operating position shall be under the control and supervision of the licensee;

. . . . . .

(b) * * *

(4) Whenever an intermediate relay station is in operation, appropriate observations shall be made at the receiving end of the STL or intercity relay circuits at intervals not exceeding 1 hour only by a person designated by and under control of the licensee and need not be a licensed operator under Part 13 (Commercial Radio Operators) of our rules.

. . . . . .

(Sec. 318, 48 Stat. 1089, as amended by Public Law 86-609, 74 Stat. 363; 47 U.S.C. 318)

6. Delete paragraph (b) of § 74.564 and paragraph-designator "(a)". As amended § 74.564 reads as follows:

§ 74.564 Posting of station licenses.

The station license and any other instrument of authorization or individual order concerning the construction of the equipment or manner of operation of the station shall be posted so that all terms thereof are visible, in a conspicuous place in the room in which the transmitter is located: *Provided,* That if the transmitter operator is located at a distance from the transmitter pursuant to § 74.533 the station license shall be posted in the above-described manner at the operating position.

7. Amend § 74.565 to read as follows:

§ 74.565 Operator requirements.

An aural broadcast STL and intercity relay may be operated only by a person designated by and under the control of the licensee and need not be a licensed operator under Part 13 (Commercial Radio Operators) of our rules.

8. Amend § 74.734 to read as follows:

§ 74.734 Unattended operation.

(a) A television broadcast translator station may be operated without a licensed radio operator in attendance if the following requirements are met:

. . . . . .

(c) Unless the applicant specifically requests unattended operation and makes the showing required by paragraph (b) of this section, a person meeting the requirements of § 74.766 shall be on duty at the transmitter site whenever the station is operated.

9. Amend § 74.766 to read as follows:

§ 74.766 Operator requirements.

(a) A television broadcast translator station may be operated only by a person designated by and under the control of the licensee and need not be a licensed operator under Part 13 (Commercial Radio Operators) of our rules.

. . . . . .

(Sec. 318, 48 Stat. 1089, as amended by Public Law 86-609, 74 Stat. 363; 47 U.S.C. 318)

10. Amend the authority citation to § 74.866 to read as follows:

§ 74.866 Operator requirements.

. . . . . .

(Sec. 318, 48 Stat. 1089, as amended by Public Law 86-609, 74 Stat. 363; 47 U.S.C. 318)

[47 CFR Part 73]

[Docket No. 18179; FCC 72-306]

TELEVISION PROGRAMS SUPPLIED BY NON-NETWORK SUPPLIERS

Availability to Commercial Television Systems and CATV Systems

In the matter of amendment of Part 73 of the Commission's rules with respect

[1] Commissioner Robert E. Lee absent.

V 37-74 APR 15 72 XUM

to the availability of television programs produced by nonnetwork suppliers to commercial television stations and CATV systems, Docket No. 18179.

1. This notice substitutes for the further notice issued on January 18, 1971 (36 F.R. 935, January 20, 1971) and is designed to delineate anew the issues upon which the Commission seeks comment.

2. A number of the matters discussed in the further notice (71–42, paragraphs 4–7), constituted, in effect, an alternative way of promoting cable television's entry into the major markets in a fair and orderly manner. The Cable Television Report and Order issued February 3, 1972, 37 F.R. 3252, February 12, 1972, represents our resolution of that most important policy issue. Therefore, until we have obtained experience from the operation of the policies embodied in the Cable Television Report, we do not believe it appropriate to explore further the approaches set forth in the further notice (paragraphs 4–7).

3. It is, however, still important to continue our study of the "undue length" and "warehousing" issues set forth in paragraphs 2–3 of the further notice. Clearly, in view of possible impact on development of UHF independent programing and to assure fairness in the cable area (because television licensees in the top 50 markets listed in § 76.51(a) are afforded "run-of-the-contract" exclusivity), we should explore fully (i) whether the outerlimits of "time" exclusivity now found in the industry are reasonably called for or are unduly extended; and (ii) whether material is being "warehoused", that is, acquired not to be broadcast in any normal fashion but rather simply to preclude a competitor from gaining access to it. These, then, are the issues upon which we desire comment. We stress that we are not putting in doubt the issue of exclusivity itself. On the contrary, the Commission recognizes the need to afford a reasonable degree of exclusivity, both from the standpoint of the licensor copyright owner and the licensee (the broadcaster or cable system). See, e.g., First Report and Order, 38 FCC 683, 703–04 (1965); Cable Television Report, supra. The sole purpose of the proceeding is to obtain all necessary data and then make evaluations as to whether some action, minor or major, is called for in the area of the above two issues. We have of course reached no conclusion, even of a tentative nature, on the two issues set forth above.

4. We shall seek to conclude the geographical aspect of the proceeding in the near future, and this "time" aspect speedily after receipt of all the comments. While the two aspects are interrelated, we nevertheless believe that, in light of issuance of the Cable Television Report with its new relationship to "time" exclusivity, it is important to press forward now with that aspect—and not await the issuance of our action on the original "geographical" notice. Accordingly, we call for comments on the two issues raised in this further notice.[1] Since parties have already had a considerable period of time to gather data on these issues, we do not believe that an extended period will be required any longer to collect the necessary data.

5. Pursuant to applicable procedures set forth in § 1.415 of the Commission's rules and regulations, interested persons may file comments on or before June 19, 1972, and reply comments on or before July 19, 1972. In accordance with the provisions of § 1.419 of the rules, an original and 14 copies of all comments, replies, briefs, and other documents shall be furnished the Commission. All relevant and timely comments and reply comments will be considered by the Commission before the final action is taken in this proceeding. In reaching its decision in this proceeding, the Commission may also take into account other relevant information before it, in addition to the specific comments invited by this notice. Responses will be available for public inspection during regular business hours in the Commission's Broadcast and Docket Reference Room at its Headquarters in Washington, D.C.

Adopted: April 5, 1972.

Released: April 11, 1972.

[Docket No. 19487; FCC 72-328]

TELEVISION BROADCAST STATIONS

Table of Assignments, Melbourne, Fla.

In the matter of amendment of § 73.606(b), *Table of Assignments,* Television Broadcast Stations (Melbourne, Fla.), Docket No. 19487, RM–1909.

1. Notice of proposed rule making is hereby given concerning amendment of the TV Table of Assignments (§ 73.606(b)) concerning Melbourne, Fla., with respect to the petition filed by Florida Central East Coast Educational Television, Inc. (Florida Central), licensee of Station WMFE–TV, Channel 24, Orlando, Fla., on January 6, 1972 (RM–1909). This notice accords with section 553 of the Administrative Procedure Act (5 U.S.C. 553).

2. Florida Central requested the assignment of Channel 56 in lieu of Channel 31 to Melbourne, Fla., so that the transmitter site proposed in its pending application (BPET–421) for modification of license will not be short-spaced to the presently unused Channel 31 assignment at Melbourne. Station WMFE–TV is now operating at a site approximately 13 miles west of Orlando near Winter Garden. The requested site relocation would be approximately 46 miles from the Melbourne reference point for Channel 31. Commission rules require a minimum mileage separation of 60 miles for the oscillator radiation "taboo" relationship between Channel 24 and Channel 31. Site selection for future use of Channel 31 at Melbourne could be difficult because of this short-spacing if a waiver of this rule were granted.

3. Several channels are available for assignment to Melbourne which could be used as a substitute for Channel 31; petitioner's request for Channel 56 in lieu of Channel 31 at Melbourne would not be an inefficient reassignment. This reallocation could provide for early operation of Station WMFE–TV from its proposed site at the Orlando "antenna farm" with facilities providing better coverage than at its licensed site. The Commission believes that petitioner's request has merit and warrants the institution of a rule making proceeding.

4. In accordance with the provisions of sections 4(i), 303 (g) and (r), and 307(b) of the Communications Act of 1934, as amended, it is proposed to amend the Television Table of Assignments, § 73.606(b) of the Commission's rules insofar as the community listed, to read as follows:

City	Channel No.	
	Present	Proposed
Melbourne, Fla.	31, 43	43, 56

5. Pursuant to applicable procedures set out in § 1.415 of the Commission's rules and regulations, interested parties may file comments on or before May 19, 1972, and reply comments on or before May 30, 1972. All submissions by parties to this proceeding, or persons acting on behalf of such parties, must be made in written comments, reply comments, or other appropriate pleadings.

6. In accordance with the provisions of § 1.419 of the Commission's rules and regulations, an original and 14 copies of all written comments, reply comments, pleadings, briefs, or other documents, shall be furnished the Commission. Responses filed in this proceeding will be available for public inspection during regular business hours in the Commission's Public Reference Room at its headquarters in Washington, D.C. (1919 M Street NW.).

Adopted: April 5, 1972.

Released: April 11, 1972.

[3] Commissioner Robert E. Lee absent.

SECURITIES AND EXCHANGE COMMISSION

[17 CFR Parts 240, 249]

[Release No. 34-9571]

NONMEMBER BROKER-DEALERS

Annual Fees for Fiscal 1972

The Commission has announced a proposal to amend Rule 15b9–2 (17 CFR 240.15b9–2) under the Securities Exchange Act of 1934 (the Act) and Form SECO–4 and to set fees for the fiscal year 1972 for registered broker-dealers who are not members of the National Association of Securities Dealers, Inc. (nonmember broker-dealers).

Sections 15(b)(8) and 15(b)(9) under the Act authorize the Commission to collect such reasonable fees and charges as may be necessary to defray the costs of additional regulatory duties required to be performed with respect to nonmember broker-dealers. Pursuant to the above sections the Commission has adopted Rule 15b9–1 (17 CFR 240.15b9–1) (32 F.R. 7849, May 30, 1967) to establish initial fees and Rule 15b9–2 (33 F.R. 7075, May 11, 1968) to provide for annual assessments. These rules prescribe the fee structure and the actual fees are set in the applicable forms required to be filed. This proposal deals with the amendment of Rule 15b9–2 and of Form SECO–4 under Rule 15b9–2 providing for annual assessments. The forms requiring initial fees (Forms SECO–5 and SECO–2) would not be changed.[1]

Annual fees—Rule 15b9–2. In general, Rule 15b9–2 now provides for an annual assessment payable by nonmember brokers or dealers which is comprised of: (1) A base fee applicable to all such brokers and dealers; (2) a fee for each associated person engaged, directly or indirectly in securities activities for or on behalf of the broker or dealer; and (3) a fee for each office of the broker or dealer which was maintained prior to May 15 during the fiscal year, at any time in which the firm was a nonmember.

Proposed annual fees for fiscal year 1972. Each fiscal year the annual assessment is set forth on Form SECO–4 for that particular year. This year's assessment, to be set forth on Form SECO–4–72, will include a base fee of $150 and a fee of $7.50 for each associated person. These increases have been necessitated by increased costs to the Commission in administering the SECO program. In addition, it is proposed that no maximum amount payable by a firm in annual charges be prescribed this year in order to provide for a more equitable distribution of the assessment burden, to raise possible additional funds and to maintain comparability with the dues structure of the National Association of Securities Dealers, Inc. (NASD) in this area.

Text of proposed amendment to rule. It is proposed that subparagraph (b)(3) of Rule 15b9–2 which provides for a charge for each office of the broker or dealer be deleted. As revised, paragraph (b) of § 240.15b9–2 of Chapter II of Title 17 of the Code of Federal Regulations would read as follows:

§ 240.15b9–2 Annual fees for registered brokers and dealers not members of a registered national securities association.

* * * * * *

(b) Fees—On or before June 1 of each year every broker or dealer to whom this section applies shall file Form SECO–4 (17 CFR 249.504 et seq.) provided for the particular fiscal year and pay the total fees prescribed by the form. Such fees shall include: (1) A base fee applicable to all such brokers or dealers and (2) a fee for each associated person engaged, directly or indirectly, in securities activities for or on behalf of the broker or dealer prior to May 15 during the fiscal year, at any time in which the broker or dealer was a nonmember broker or dealer: *Provided, however,* That the fee shall not be paid for any person who confines his securities activities to areas outside the United States, its territories and possessions, and who does not deal with or act for any United States resident or national wherever located.

* * * * * *

§ 249.504f Form SECO–4–72; 1972 assessment and information form for registered brokers and dealers not members of a registered national securities association.

This form shall be filed on or before June 1, 1972, pursuant to § 240.15b9–2 of this chapter, accompanied by the annual assessment fee required thereunder, for the fiscal year ended June 30, 1972, by every registered broker and dealer not a member of a registered national securities association.

The Commission proposes to adopt the foregoing amendments to be effective on June 1, 1972. All interested persons may submit their comments to the Commission at its office in Washington, D.C. 20549 no later than April 25, 1972. Copies of the Form SECO–4 as proposed to be amended have been filed with the Office of the Federal Register, and additional copies are available on request from the Commission at the above address.

(Sec. 15(b), 48 Stat. 895, as amended 78 Stat. 565, 15 U.S.C. 78o)

By the Commission.

[SEAL] RONALD F. HUNT, *Secretary.*

APRIL 11, 1972.

[FR Doc.72-5831 Filed 4-14-72;8:52 am]

[1] The initial fees now in effect which would remain unchanged are as follows: $150 fee required to accompany Form SECO–5 which is filed on behalf of the broker-dealer; $35 fee required by Form SECO–2 which is filed for each associated person of the broker-dealer.

V 37-74 APR 15 72 XUM

Notices

DEPARTMENT OF THE TREASURY

Bureau of Customs

RECORD CHANGERS FROM THE UNITED KINGDOM

Antidumping Proceeding Notice

On March 17, 1972, information was received in proper form pursuant to §§ 153.26 and 153.27, Customs Regulations (19 CFR 153.26, 153.27), indicating a possibility that record changers from the United Kingdom are being, or are likely to be, sold at less than fair value within the meaning of the Antidumping Act, 1921, as amended (19 U.S.C. 160 et seq.).

There is evidence on record concerning injury to or likelihood of injury to or prevention of establishment of an industry in the United States.

Having conducted a summary investigation as required by § 153.29 of the Customs Regulations (19 CFR 153.29) and having determined as a result thereof that there are grounds for so doing, the Bureau of Customs is instituting an inquiry to verify the information submitted and to obtain the facts necessary to enable the Secretary of the Treasury to reach a determination as to the fact or likelihood of sales at less than fair value.

A summary of information received from all sources is as follows:

The information received tends to indicate that the prices of the merchandise sold for exportation to the United States are less than the prices for exportation to countries other than the United States.

This notice is published pursuant to § 153.30 of the Customs Regulations (19 CFR 153.30).

[SEAL] EDWIN F. RAINS,
Acting Commissioner of Customs.

Approved: April 13, 1972.

EUGENE T. ROSSIDES,
Assistant Secretary of the Treasury.

DEPARTMENT OF AGRICULTURE

Packers and Stockyards Administration

MAJOR LEWIS LIVESTOCK AUCTION SALES ET AL.

Proposed Posting of Stockyards

The Chief, Registrations, Bonds, and Reports Branch, Packers and Stockyards Administration, U.S. Department of Agriculture, has information that the livestock markets named below are stockyards as defined in section 302 of the Packers and Stockyards Act, 1921, as amended (7 U.S.C. 202), and should be made subject to the provisions of the Act.

AR-146, Major Lewis Livestock Auction Sales, Conway, Ark.
IA-242, Central Iowa Stock Yards, Webster City, Iowa.
MO-222, Cassville Livestock Market, Inc., Cassville, Mo.
NY-152, John Tyrrell & Sons, Bullville, N.Y.
OK-188, Poor Boy Cattle Company, Wister, Okla.
TX-294, Jones Dairy Auction, Sulphur Springs, Tex.
VT-109, Central Vermont Commission Sales, Inc., East Montpelier, Vt.

Notice is hereby given, therefore, that the said Chief, pursuant to authority delegated under the Packers and Stockyards Act, 1921, as amended (7 U.S.C. 181 et seq.), proposes to issue a rule designating the stockyards named above as posted stockyards subject to the provisions of the Act as provided in section 302 thereof.

Any person who wishes to submit written data, views, or arguments concerning the proposed rule, may do so by filing them with the Chief, Registrations, Bonds, and Reports Branch, Packers and Stockyards Administration, U.S. Department of Agriculture, Washington, D.C. 20250, within 15 days after publication in the FEDERAL REGISTER.

All written submissions made pursuant to this notice shall be made available for public inspection at such times and places in a manner convenient to the public business (7 U.S.C. 1.27(b)).

Done at Washington, D.C., this 11th day of April 1972.

EDWARD L. THOMPSON,
Acting Chief, Registrations, Bonds, and Reports Branch, Livestock Marketing Division.

[FR Doc.72-5768 Filed 4-14-72;8:51 am]

PRESCOTT'S PONY AND HORSE SALE ET AL.

Deposting of Stockyards

It has been ascertained, and notice is hereby given, that the livestock markets named herein, originally posted on the respective dates specified below as being subject to the Packers and Stockyards Act, 1921, as amended (7 U.S.C. 181 et seq.), no longer come within the definition of a stockyard under said Act and are, therefore, no longer subject to the provisions of the Act.

Facility number, name, location of stockyard, and date of posting

ID-122, Prescott's Pony and Horse Sale, Twin Falls, Idaho, Mar. 16, 1962.
IN-132, Ridgeville Livestock, Inc., Ridgeville, Ind., Sept. 10, 1963.
KY-136, Middlesboro Livestock Auction Co., Middlesboro, Ky., Dec. 8, 1959.
MI-103, Big Rapids Livestock Sales, Big Rapids, Mich., May 4, 1959.
MI-106, Carson City Stockyards, Carson City, Mich., Apr. 22, 1959.
SC-103, S and T Stockyard, Bennettsville, S.C., Feb. 20, 1960.
SC-115, Nichols Auction Market, Nichols, S.C., Oct. 19, 1960.
TX-230, Morton Livestock Auction Co., Morton, Tex., Sept. 4, 1970.
VT-103, Campbell's Commission Sales, Inc., Newport, Vt., June 28, 1966.
VA-112, Front Royal Livestock Market, Inc., Front Royal, Va., Mar. 2, 1959.
WA-124, Columbia Auction Market, Vancouver, Wash., Sept. 28, 1959.
WY-104, Laramie Livestock Exchange, Inc., Laramie, Wyo., Nov. 7, 1965.

Notice or other public procedure has not preceded promulgation of the foregoing rule. There is no legal justification for not promptly deposting a stockyard which is no longer within the definition of that term contained in the Act.

The foregoing is in the nature of a rule relieving a restriction and may be made effective in less than 30 days after publication in the FEDERAL REGISTER. This notice shall become effective upon publication in the FEDERAL REGISTER.

(42 Stat. 159, as amended and supplemented; 7 U.S.C. 181 et seq.)

Done at Washington, D.C., this 11th day of April 1972.

EDWARD L. THOMPSON,
Acting Chief, Registrations, Bonds, and Reports Branch, Livestock Marketing Division.

[Docket No. S-578]

LESTER P. BRAY

Notice of Loan Application

APRIL 10, 1972.

Lester P. Bray, 107 Chenault Avenue, Hoquiam, WA 98550, has applied for a loan from the Fisheries Loan Fund to aid in financing the purchase of a used fiber glass vessel, about 40-foot in length, to engage in the fishery for salmon, bottomfish, tuna, and Dungeness crab off the coasts of Washington, Oregon, and California.

Notice is hereby given, pursuant to the provisions of 16 U.S.C. 742c, Fisheries Loan Fund Procedures (50 CFR Part 250, as revised), and Reorganization Plan No. 4 of 1970, that the above entitled application is being considered by the National Marine Fisheries Service, National Oceanic and Atmospheric Administration, Department of Commerce, Interior Building, Washington, D.C. 20235. Any person desiring to submit evidence that the contemplated operation of such vessel will cause economic hardship or injury to efficient vessel operators already operating in that fishery must submit such evidence in writing to the Director, National Marine Fisheries Service, within 30 days from the date of publication of this notice. If such evidence is received it will be evaluated along with such other evidence as may be available before making a determination that the contemplated operation of the vessel will or will not cause such economic hardship or injury.

ROBERT W. SCHONING,
Acting Director.

DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

Food and Drug Administration

[DESI 9760]

CERTAIN ANTILIPEMIC DRUGS: NIACIN AND SITOSTEROLS

Drugs for Human Use; Drug Efficacy Study Implementation

The Food and Drug Administration has evaluated reports received from the National Academy of Sciences-National Research Council, Drug Efficacy Study Group, on the following antilipemic drugs:

1. Nicotinic Acid Tablets containing 500 mg. niacin; formerly marketed by Walker Laboratories, Division Richardson-Merrell, Inc., 110 East Amity Road, Cincinnati, Ohio 45215 (NDA 11-313).

2. Efacin Tablets containing 500 mg. niacin; marketed by Person & Covey, Inc., 236 South Verdugo Road, Glendale, Calif. 91205 (NDA 11-578).

3. Cytellin Suspension containing 3 grams sitosterols per 15 cubic centimeters; marketed by Eli Lilly and Co., Post Office Box 618, Indianapolis, Ind. 46206 (NDA 9-760).

The drugs are regarded as new drugs (21 U.S.C. 321(p)). Supplemental new-drug applications are required to revise the labeling in and to update previously approved applications providing for such drugs. A new-drug application is required for any person marketing such drugs without approval.

The Food and Drug Administration is prepared to approve new-drug applications and supplements to previously approved new-drug applications under conditions described in this announcement.

A. *Effectiveness classification.* The Food and Drug Administration has considered the Academy's reports, as well as other available evidence, and concludes that:

1. Niacin given at a dosage rate of 1 to 2 grams a day and sitosterols are effective for the reduction of elevated levels of blood cholesterol and beta lipoproteins (blood lipids).

2. Niacin and sitosterols are possibly effective for their labeled indications which tend to associate a reduction of cholesterol levels with a consequent lessening of arteriosclerotic complications.

3. Sitosterols suspension is possibly effective for its other labeled indications.

B. *Conditions for approval and marketing.* The Food and Drug Administration is prepared to approve abbreviated new-drug applications and abbreviated supplements to previously approved new-drug applications under conditions described herein.

1. *Form of drug.* Niacin preparations are in tablet form and sitosterols preparations are in suspension form, suitable for oral administration. Niacin tablets contain an amount of drug appropriate for administration in the dosage known to be effective.

2. *Labeling conditions.* a. The labels bear the statement "Caution: Federal law prohibits dispensing without prescription."

b. The drug is labeled to comply with all requirements of the Act and regulations. Its labeling bears adequate information for safe and effective use of the drug (see effectiveness classification) and is in accord with the guidelines for uniform labeling published in the FEDERAL REGISTER of February 6, 1970. The "Indications" section is as follows: (The possibly effective indications may also be included for 6 months.)

INDICATIONS

For the reduction of elevated levels of blood cholesterol and beta lipoproteins (blood lipids).

3. *Marketing status.* Marketing of such drugs may be continued under the conditions described in the notice entitled "Conditions for Marketing New Drugs Evaluated in Drug Efficacy Study" published in the FEDERAL REGISTER July 14, 1970 (35 F.R. 11273), as follows:

a. For holders of "deemed approved" new-drug applications (i.e., an application which became effective on the basis of safety prior to October 10, 1962), the submission of a supplement for revised labeling, an abbreviated supplement for updating information, and adequate data to show the biologic availability of the drug in the formulation which is marketed as described in paragraphs (a)(1)(i), (ii), and (iii) of the notice of July 14, 1970.

b. For any person who does not hold an approved or effective new-drug application, the submission of an abbreviated new-drug application, to include adequate data to assure the biologic availability of the drug in the formulation which is, or is intended to be marketed, as described in paragraph (a)(3)(ii) of that notice.

c. For any distributor of the drug, the use of labeling in accord with this announcement for any such drug shipped within the jurisdiction of the Act as described in paragraph (b) of that notice.

V 37-74 APR 15 72 XUM

d. For indications for which the drug has been classified as possibly effective (not included in the "Indications" section above); continued use as described in paragraphs (d), (e), and (f) of that notice.

A copy of the Academy's report has been furnished to each firm referred to above. Communications forwarded in response to this announcement should be identified with the reference number DESI 9760, directed to the attention of the appropriate office listed below, and addressed to the Food and Drug Administration, 5600 Fishers Lane, Rockville, Md. 20852:

Supplements (identify with NDA number): Office of Scientific Evaluation (BD–100), Bureau of Drugs.
Original abbreviated new-drug applications (identify as such): Drug Efficacy Study Implementation Project Office (BD–60), Bureau of Drugs.
Requests for the Academy's report: Drug Efficacy Study Information Control (BD–67), Bureau of Drugs.
All other communications regarding this announcement: Drug Efficacy Study Implementation Project Office (BD–60), Bureau of Drugs.

This notice is issued pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (secs. 502, 505, 52 Stat. 1050–53, as amended; 21 U.S.C. 352, 355) and under the authority delegated to the Commissioner of Food and Drugs (21 CFR 2.120).

Dated: April 11, 1972.

SAM D. FINE,
Associate Commissioner for Compliance.

DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

[Docket No. D–72–166]

ACTING ASSISTANT SECRETARY FOR HOUSING MANAGEMENT

Designation

SECTION A. *Designation.* The officials appointed to, or designated to serve as Acting during a vacancy in, the following positions are hereby designated to serve as Acting Assistant Secretary for Housing Management during the absence of the Assistant Secretary for Housing Management with all the powers, functions, and duties delegated or assigned to the Assistant Secretary for Housing Management: *Provided,* That no official is authorized to serve as Acting Assistant Secretary for Housing Management unless all other officials whose appointed, or designated Acting, position titles precede his in this designation are unable to act by reason of absence:

1. Deputy Assistant Secretary for Housing Management.

2. Executive Assistant to the Assistant Secretary for Housing Management.

3. Director, Office of Housing Programs.

4. Director, Office of Property Disposition.

SEC. B. *Authorization.* Each head of an organizational unit of Housing Management is authorized to designate an employee under his jurisdiction to serve as Acting during the absence of the head of the unit.

SEC. C. *Supersedure.* This designation supersedes the designation of Acting Assistant Secretary for Housing Management published at 36 F.R. 10897, June 4, 1971.

(Secretary's delegation of authority to designate Acting officials, 36 F.R. 5004, March 16, 1971)

Effective date. This delegation of authority is effective as of March 17, 1972.

NORMAN V. WATSON,
Assistant Secretary for housing Management.

ATOMIC ENERGY COMMISSION

[Docket No. 50–407]

INSTITUTIONAL COUNCIL OF THE UNIVERSITY OF UTAH

Notice of Receipt of Application

The Institutional Council of the University of Utah has filed an application for licenses to construct and operate a TRIGA Mark I reactor facility located on the campus of the University of Utah, Salt Lake City, Utah. The proposed reactor would be operated at steady state power levels up to 100 kilowatts (thermal).

A copy of the application is available for public inspection in the Atomic Energy Commission's Public Document Room, 1717 H Street NW., Washington, DC.

Dated at Bethesda, Md., this 30th day of March 1972.

For the Atomic Energy Commission.

DONALD J. SKOVHOLT,
Assistant Director for Reactor Operations, Division of Reactor Licensing.

CIVIL AERONAUTICS BOARD

[Docket No. 24400; Order 72–4–45]

AIRLIFT INTERNATIONAL, INC.

Order of Investigation and Suspension Regarding "Daylight" Container Rates on Various Textile Articles From San Juan to Miami

Adopted by the Civil Aeronautics Board at its office in Washington, D.C., on the 11th day of April 1972.

By tariff revisions[1] filed March 13, and marked to become effective April 12, 1972, Airlift International, Inc. (Airlift) proposes to add "daylight" Type A container rates and charges on wearing apparel and partly manufactured clothing from San Juan to Miami. The proposed rates would be subject to time of tender provisions, from 8 a.m. to 6 p.m., to space-available restrictions, and to a minimum weight of 20,000 pounds. Under the proposal, containers weighing up to 3,400 pounds would be charged $170 and a rate of $5 per hundred pounds would be charged for weight in excess of 3,400 pounds. The proposed rates would effect a reduction of 29 percent below the currently applicable bulk specific rate for the same commodities. The proposal is marked to expire with December 31, 1972.

A complaint requesting suspension and investigation has been filed by Eastern Air Lines, Inc. (Eastern). The complaint maintains, inter alia, that the proposed rates are not compensatory; that losses experienced by both Airlift and Eastern in the market would be increased; that all of Eastern's traffic of commodities covered by the proposal, which provides 20 percent of its revenues in the San Juan–Miami market, might be diverted by the proposal; and that Airlift's comparison of its proposed rates with bulk rates on yarn, thread, and fibers is invalid since these commodities are of much smaller value and thus more price sensitive in accordance with the value of service principle.

In answer to the complaint and in support of its proposal, Airlift asserts, inter alia, that the proposed rates would divert significant amounts of traffic presently moving by ocean vessel; that the present imbalance of movements in the market results in low utilization of northbound capacity, which the proposal would help to correct; and that the proposed rates would not divert much traffic currently moving by air because of the restricting conditions, such as the high minimum weight, daylight time of tender, and the space-available requirements to which the rates would be subject.

The Board, in its decision in Docket No. 22340, Container Rates for B–747 Aircraft Proposed by Continental Air Lines, Inc., Order 71–7–156, found that discounts for multicontainer shipments for 10 or more containers proposed by Continental Air Lines, Inc., were unjustly discriminatory because they were not justified by cost of service, value of service, or promotional considerations. Airlift's proposal, for shipments with a minimum weight of 20,000 pounds, necessarily involves the consignment of at least two containers, since the maximum weight per container is 10,000 pounds. Airlift, however, does not attempt to justify the proposal on the grounds indicated above.

Consistent with the above decision, and upon consideration of all other relevant matters, the Board finds that Airlift's proposal may be unjust, unreasonable, unjustly discriminatory, unduly preferential, or unduly prejudicial, or otherwise unlawful, and should be investigated. We further conclude that the rates should be suspended pending investigation.

Accordingly, pursuant to the Federal Aviation Act of 1958, and particularly sections 204(a) and 1002 thereof.

It is ordered, That:

1. An investigation is instituted to determine whether the rates, charges, and provisions on first revised page 25 of Airlift International Inc.'s, Tariff CAB No. 4, and rules, regulations, and practices affecting such rates, charges, and provisions, are or will be unjust, unreasonable, unjustly discriminatory, unduly preferential, unduly prejudicial, or otherwise unlawful, and if found to be unlawful, to determine and prescribe the lawful rates, charges, and provisions, and rules, regulations, or practices affecting such rates, charges, and provisions;

2. Pending hearing and decision by the Board, the rates, charges, and provisions on first revised page 25 of Airlift International Inc.'s, Tariff CAB No. 4 are suspended and their use deferred to and including July 10, 1972, unless otherwise ordered by the Board, and that no changes be made therein during the period of suspension except by order or special permission of the Board;

3. Except as to the extent granted herein; the complaint of Eastern Air Lines, Inc., in Docket No. 24336, is dismissed;

4. The proceeding herein designated Docket No. 24400, be assigned for hearing before an examiner of the Board at a time and place hereafter to be designated; and

5. Copies of this order shall be filed with the tariff and served upon Airlift International, Inc., and Eastern Air Lines, Inc., which are hereby made parties to Docket No. 24400.

This order will be published in the FEDERAL REGISTER.

By the Civil Aeronautics Board.

HARRY J. ZINK,
Secretary.

[Dockets Nos. 24401, 24225; Order 72–4–46]

WESTERN AIR LINES, INC., AND NORTHWEST AIRLINES, INC.

Order of Investigation and Suspension Regarding Round-Trip Group Inclusive Tour Basing Fares

Adopted by the Civil Aeronautics Board at its office in Washington, D.C., on the 11th day of April 1972.

By tariff revisions[1] marked to become effective April 13, 1972, Western Air Lines, Inc. (Western), proposes to establish round-trip group inclusive tour basing fares of $179 per person for groups of 40 or more applicable mid-week between its California gateway points and Hawaii. The fares are applicable on flights scheduled to depart on Monday through Thursday only, and require that $20 minimum be spent for ground services. Passengers must stay a minimum of 2 days; must travel to Hawaii with the group but may return individually; and reservations are required 14 days in advance of the date of departure. The fares are marked to expire September 30, 1972.[2]

Western states that the purpose of the filing is to alleviate the extreme peaking of demand it experiences for accommodations on Saturday which is created by the existing GIT group-of-40 fares which are available at all times. The total cost of Western's proposed GIT fare would be $199 (tour add-on included) versus $229 under the existing GIT fares.[3]

Continental Air Lines, Inc. (Continental), and Northwest Airlines, Inc. (Northwest), have filed complaints against Western's instant off-peak GIT fare proposal requesting its suspension and investigation.[4] The complainants allege that the proposed fares would be very diversionary and would appeal to the type of traveler who would make the trip in any event at higher regular fares. The complainants further contend that, whatever the merits of Western's argument concerning Saturday traffic peaking it would appear that the same may not be true of other carriers in the market. In answer Western states that there is no reason why a peak/off-peak concept should not be employed with respect to GIT fares in order to equalize loads throughout the week, and that it is the first to feel the weekend capacity squeeze since it does not have the lift capacity of the larger carriers.

Upon consideration of the tariff proposal, the complaints and answer thereto, and all other relevant matters the Board finds that the proposal may be unjust, unreasonable, unjustly discriminatory, unduly preferential, unduly prejudicial, or otherwise unlawful, and should be investigated. The Board further concludes that the proposal should be suspended pending investigation.

In our opinion, the minimal restrictions on the use of the proposed fares are not adequate to prevent significant diversion of regular fare passengers, particularly since the total cost of the proposed GIT travel (land arrangements included) will undercut the existing mid-week economy fare by $17[5] and could well result in throwaway packages. We believe it is important to maintain restrictions on the use of special fares which assure to the maximum extent possible that they will serve their intended purpose of generating new traffic, rather than diverting traffic already moving.

Western has also filed a complaint against the existing GIT group-of-40 fares published by Northwest and requests their investigation. Northwest has answered Western's complaint asserting, inter alia, that the fares in question conform to the Board's decision in the Group Inclusive Tour Basing Fares to Hawaii case, Docket 20580, and that nothing has happened since that decision which necessitates a reinvestigation of these GIT fares.

Western has consistently taken the position that a marketing tool such as GIT fares has no place in the dense and tourist-oriented West Coast–Hawaii market, where it asserts the net effect is more likely to be diversionary than generative. In addition, it alleges that existing GIT fares have severely disrupted the delicate balance of traffic distribution between weekdays and weekends achieved previously by the offering of off-peak fares.

The level of existing GIT group-of-40 fares is consistent with the fare per mile

[1] Revisions to Airline Tariff Publishers, Inc., agent, Tariffs CAB Nos. 136 and 142.

[2] Pan American World Airways, Inc. (Pan American), Trans World Airlines, Inc. (Trans World), and United Air Lines, Inc. (United), have filed to match Western.

[3] Existing GIT group-of-40 fares require: A tour add-on of at least $50; minimum stay of at least 7 days; group travel together to and from Hawaii; and advance reservations at least 30 days prior to departure.

[4] Pan American filed an answer in support of the complaints.

[5] The proposed GIT fares are applicable in economy (second class) services.

V 37-74 APR 15 72 XUM

prescribed by the Board in the Group Inclusive Touring Basing Fares to Hawaii case, Docket 20580. While Western's complaint rests largely upon contentions of diversion of higher rated traffic and the adverse economic consequences of applying these fares during periods of peak traffic demand, the carrier has not furnished enough factual data for the Board to reach a conclusion that these fares may be unreasonable. Moreover, Western has made no showing that the high level of GIT traffic carried on weekends has adversely affected its profits. On the contrary, the weekend flights may well be profitable because of high load factors. In these circumstances, and since the fares expire on September 30, 1972, and December 10, 1972, we are unable to conclude that sufficient cause has been shown at this time to investigate these fares.

However, we are requesting all carriers offering the fares to file with the Board's Bureau of Economics total revenue passenger miles, revenue passenger miles related to the GIT fares for groups of 40 or more, and available seat miles, by day of the week and by direction on a monthly basis in each of the following markets where nonstop service and GIT 40 fares are provided—Los Angeles, Portland, San Francisco, and Seattle to and from Honolulu/Hilo. Such data shall be filed not later than 30 days after each month for the months of December 1971 through December 1972.

Accordingly, pursuant to the Federal Aviation Act of 1958 and particularly sections 204(a), 403, 404, and 1002 thereof,

It is ordered, That:

1. An investigation be instituted to determine whether the fares and provisions described in Appendix A hereto,[6] and rules, regulations, or practices affecting such fares and provisions, are or will be unjust, unreasonable, unjustly discriminatory, unduly preferential, unduly prejudicial, or otherwise unlawful, and if found to be unlawful, to determine and prescribe the lawful fares and provisions, and rules, regulations, or practices affecting such fares and provisions;

2. Pending hearing and decision by the Board, the fares and provisions described in Appendix A hereto are suspended and their use deferred to and including July 11, 1972, unless otherwise ordered by the Board, and that no changes be made therein during the period of suspension except by order or special permission of the Board;

3. The complaint of Western Air Lines, Inc., in Docket 24225 is hereby dismissed;

4. Except to the extent granted herein, the complaints in Dockets 24348 and 24349 are hereby dismissed;

5. The proceeding ordered herein be assigned for hearing before an Examiner of the Board at a time and place hereafter to be designated; and

6. Copies of this order be filed in the aforesaid tariffs and be served upon Continental Air Lines, Inc., Northwest Airlines, Inc., Pan American World Airways, Inc., Trans World Airlines, Inc., United Air Lines, Inc., and Western Air Lines, Inc., which are hereby made parties to this proceeding.

This order will be published in the FEDERAL REGISTER.

By the Civil Aeronautics Board.

Final, March 31
Colbert Steam Plant, Colbert County, Ala. Proposed addition of gas turbine peaking units 1–8 at Colbert Steam Plant. SO_2 and NO_2 will be emitted; the possibility of oil spillage or leakage will result. Comments made by USDA, DOC, DOD, EPA, FPC, HEW, HUD, DOI, DOT, State and regional agencies. (ELR Order No. 4109, 41 pages) (NTIS Order No. PB–200 365–F)

Thomas H. Allen Steam Plant, Shelby County, Tenn. Proposed addition of gas peaking units 17–20 to the Steam Plant, in order to provide additional power SO_2 and NO_x will be emitted; the possibility of oil spillage or leakage will result. Comments made by USDA, DOC, DOD, EPA, FPC, HEW, HUD, DOI, DOT, State and regional agencies. (ELR Order No. 4114, 40 pages) (NTIS Order No. PB–199 231–F)

DEPARTMENT OF TRANSPORTATION

Contact: Martin Convisser,[1] Director, Office of Program Coordination, 400 Seventh Street SW., Washington, D.C. 20590, 202—462–4357.

Draft, March 27
Walton County, Fla. Proposed reconstruction of 16.8 miles of two-lane F.A.S. Route 12. An unspecified amount of land will be lost to the project. (ELR Order No. 4053, 18 pages) (NTIS Order No. PB–207 727–D)

Draft, March 21
Escambia County, Fla. Proposed reconstruction of S.R. 95 (U.S. 29), a four-lane highway. The total length of the project is 8.2 miles (ELR Order No. 4055, 19 pages) (NTIS Order No. PB–207 722–D)

Draft, March 28
P.R. 149, Puerto Rico. Proposed construction of 7.49 miles of P.R. 149, a noncontrolled access highway. The Manati River will be crossed by the project; 25 families will be displaced. (ELR Order No. 4065, 21 pages) (NTIS Order No. PB–207 734–D)

Draft, March 27
Project F–625( ), Lawrence County, Ohio. Proposed construction of 10 miles of new four-lane limited access highway. Approximately 106 families, businesses, and farms will be displaced by the action. A 4(f) statement would be required as public use land will be utilized. (ELR Order No. 4066, 20 pages) (NTIS Order No. PB–207 735–D)

Draft, March 30
L.R. 16059, Clarion County, Pa. Proposed construction of 5.7 miles of Legislative Route 16059, a new, 2-lane free-access roadway. A 4(f) statement is required as the highway will require land from Cook Forest State Park. (ELR Order No. 4073, 67 pages) (NTIS Order No. PB–207 769–D)

Project US–680(4), Pinellas County, Fla. Proposed reconstruction of 1.4 miles of S.R. 699 from two to four lanes. (ELR Order No. 4076, 34 pages) (NTIS Order No. PB–207 775–D)

Draft, February 29
Project S–0145(4), Washington County, Wis. Proposed reconstruction of 3 miles of FAS Route 145. Approximately 16.2 miles of land would be lost to the project. Cedar Creek would be exposed to contamination. A 4(f) statement would be required as land would be taken from a wildlife refuge. (ELR Order No. 4091, 9 pages) (NTIS Order No. PB–207 925–D)

Draft, March 28
Plaquemines, Orleans, and St. Bernard Parishes, La. Proposed construction of 14.8 miles of I–410, a controlled access six-lane highway. Approximately 540 acres of land will be lost to the project; three families will be displaced; four major streams will be crossed. (ELR Order No. 4096, 50 pages) (NTIS Order No. PB–207 912–D)

I–410, St. Charles Parish, La. Proposed construction of 1.35 miles of six-lane I–410. Thirty-seven families will be displaced, 876.36 acres of land will be lost to the project. (ELR Order No. 4097, 30 pages) (NTIS No. PB–207 924–D)

Final, March 30
Project F–82, LeFlore County, Okla. Proposed relocation and reconstruction of 5.4 miles of U.S. 270. Nine families would be displaced and 85 acres taken by the project. Comments made by State agencies. (ELR Order No. 4092, 18 pages) (NTIS Order No. PB–199 574–F)

Project F–236, Coal County, Okla. Proposed reconstruction of 6 miles of S.H. 3. One family would be displaced and 220 acres would be lost to the project. Comments made by DOI and State agencies. (ELR Order No. 4093, 20 pages) (NTIS Order No. PB–199 593–F)

Project F–405( ), Houston County, Tex. Proposed reconstruction of 6.1 miles of U.S. 287, from two to four lanes. Approximately 147 acres of land will be required by the project; 11 residences, three businesses, and one church will be displaced, two lakes, totaling 2.8 acres, will be drained. Comments made by USDA, EPA, HEW, DOT, State agencies, and concerned citizens. (ELR Order No. 4094, 46 pages) (NTIS ORDER No. PB–202 073–F)

Project F–413( ), Morgan, Cass, and Schuyler Counties, Ill. Proposed construction of 51 miles of Supplemental Freeway F.A.P. 413, a four-lane, fully access controlled facility. An unspecified number of residences and amount of land will be lost to the project. Comments made by USDA, Army COE, DOC, EPA, FPC, DOT, USCG, and State and local agencies. (ELR Order No. 4095, 91 pages) (NTIS ORDER No. PB–202 073–F)

Final, March 29
Project F–180, Garfield and Major Counties, Okla. Proposed construction of 20.15 miles of U.S. 60. Twenty-two families, four businesses, and two nonprofit organizations will be displaced by the project; 315 acres of grass and farm lands will be lost. Comments made by DOI, and State agencies. (ELR Order No. 4098, 23 pages) (NTIS Order No. PB–200 759–F)

Project S–296(5), Shelby County, Ind. Proposed construction of 1 mile of highway to connect with I–74. Comments made by USDA, EPA, HUD, DOI. (ELR Order No. 4099, 23 pages) (NTIS Order No. PB–202 176–F)

Final, March 30
Project F–037–1( ), Whitman County, Wash. Proposed construction of 5 miles of new two and four lane limited access highway. An unspecified amount of land will be lost to the project. Comments made by USDA, Army COE, EPA, HUD, DOT, State and local agencies. (ELR Order No. 4100, 45 pages) NTIS Order No. PB–207 915–F)

Project I–86, Towns of Ashford and Union, Conn. Proposed reconstruction of I–86 for a length of approximately 7.16 miles. Comments made by USDA, EPA, HUD, DOI, State Department, State and local agencies. (ELR Order No. 4101, 101 pages) (NTIS Order No. PB–201 299–F)

Project S–1117(102), Chilton County, Ala. Proposed reconstruction of 5.2 miles of FAS Route 1117. Comments made by USDA, DOC, DOD, DOI, State and local agencies. (ELR Order No. 4102, 28 pages) (NTIS Order No. PB–201 249–F)

Project No. S–6012, Payne County, Okla. Proposed construction of 2 miles of FAS Route 6012. Thirteen acres of grasslands will be lost to the project. Comments made by USDA, EPA, and State agencies. (ELR Order No. 4103, 18 pages) (NTIS Order No. PB–201 849–F)

[1] Mr. Convisser's office will refer you to the regional office from which the statement originated.

V 37-74 APR 15 72 XUM

Projects F–152 and F–252, Osage County, Okla. Proposed construction of 20.4 miles of U.S. 60, a four-lane highway. Approximately 430 acres would be lost to the project. Comments made by DOI, State and local agencies. (ELR Order No. 4104, 30 pages) (NTIS Order No. PB–200 206–F)

Meeting Street Expressway, Richland and Lexington Counties, S.C. Proposed construction of 3.3 miles of urban highway. Approximately 20 businesses and 125 residences would be displaced by the project. Comments made by Army COE, HUD, DOI, DOT, State, local, and regional agencies. (ELR Order No. 4105, 31 pages) (NTIS Order No. PB–200 526–F)

Projects S–661 and 612, Floyd County, Ky. Proposed replacement of Bailey Bridge and reconstruction of 1.10 miles of highway, on KY 1426 and KY 979. Fifteen families would be displaced and 12 acres lost to the project. Comments made by DOC, EPA, DOI, DOT, and one State agency. (ELR Order No. 4106, 21 pages) (NTIS Order No. PB–202 011–F)

Project S–453, Cumberland County, N.C. Proposed reconstruction of 9.1 miles of NC 53–210. Six families and one business would be displaced by the project. Comments made by USDA, EPA, GSA, DOI, State and local agencies. (ELR Order No. 4107, 36 pages) (NTIS Order No. PB–201 848–F)

BRIAN P. JENNY,
Acting General Counsel.

FEDERAL COMMUNICATIONS COMMISSION

[Report 591]

COMMON CARRIER SERVICES INFORMATION [1]

Domestic Public Radio Services Applications Accepted for Filing [2]

APRIL 10, 1972.

Pursuant to §§ 1.227(b)(3) and 21.30 (b) of the Commission's rules, an application, in order to be considered with any domestic public radio services application appearing on the attached list, must be substantially complete and tendered for filing by whichever date is earlier: (a) The close of business 1 business day preceding the day on which the Commission takes action on the previously filed application; or (b) within 60 days after the date of the public notice listing the first prior filed application (with which subsequent applications are in conflict) as having been accepted for filing. An application which is subsequently amended by a major change will be considered to be a newly filed application. It is to be noted that the cutoff dates are set forth in the alternative—applications will be entitled to consideration with those listed in the appendix below if filed by the end of the 60-day period, only if the Commission has not acted upon the application by that time pursuant to the first alternative earlier date. The mutual exclusivity rights of a new application are governed by the earliest action with respect to any one of the earlier filed conflicting applications.

The attention of any party in interest desiring to file pleadings pursuant to section 309 of the Communications Act of 1934, as amended, concerning any domestic public radio services application accepted for filing, is directed to § 21.27 of the Commission's rules for provisions governing the time for filing and other requirements relating to such pleadings.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] BEN F. WAPLE,
Secretary.

APPENDIX

APPLICATIONS ACCEPTED FOR FILING

DOMESTIC PUBLIC LAND MOBILE RADIO SERVICE

6955–C2–P–(2)–72—Massachusetts-Connecticut Mobile Telephone Co. (KCI300), for additional facilities to operate on 152.21 MHz and change the antenna system operating on 152.03 MHz at location No. 1: Provin Mountain, Off West Street, Agawan, Mass.

6961–C2–P–(3)–72—Contact of Texas (KKD284), for additional facilities to operate on 152.18 MHz and change the antenna system operating on 152.03 MHz and 152.01 MHz located at Ranger Peak, Franklin Mountain, El Paso, Tex.

6962–C2–MP–(2)–72—Intrastate Radio Telephone, Inc., of Los Angeles (KSV977), replace transmitter and change the antenna system operating on 152.24 MHz at location No. 1: End of TV Row, Mount Wilson, Calif., and for additional facilities to operate on 152.24 MHz at a new site described as location No. 2: 8999 Cedro Drive, Los Angeles, CA.

6963–C2–P–(3)–72—Tel-Car, Inc. (KSV957), for additional facilities; at location No. 1: Flattop Butte, 5.5 miles east of Jerome, Idaho, add 152.03 MHz base and 459.25 MHz repeater and at location No. 2: 408 Sixth Avenue West, Twin Falls, ID, add 454.25 MHz control.

6965–C2–P–(2)–72—Mobile Radio Telephone Service, Inc. (KAQ606), for an additional antenna at location No. 2: 8500 Zuni Street, Westminister, CO, to operate on 35.58 MHz.

6978–C2–AL–72—Great Eastern Communications Co., consent to assignment of license from Great Eastern Communications Co., Inc., Assignor, to Francis Lambert & Virginia Clauretie trading as Chayce 'n You, Assignee. Station: KRS638 New Bedford, Mass.

6979–C2–P–(3)–72—Airsignal International, Inc. (KIE953), to add FM transmitters to operate on 35.58 MHz at location No. 1: Forsyth and Marietta Streets, Atlanta, Ga.; at Location No. 2: 3390 Peachtree Road NE., Atlanta, GA, and at location No. 3: 1001 International Boulevard, Atlanta, GA.

6980–C2–P–72—Communications Industries, Inc., doing business as Mobilfone (KKG565), for additional facilities to operate on 152.21 MHz at location No. 1: U.S. Highway No. 80, approximately 2 miles southwest of Midland, Tex.

6986–C2–P–72—Southwestern Bell Telephone Co. (KKG413), for additional facilities to operate on 152.75 MHz located 1.5 miles west of El Dorado, Ark.

6987–C2–P–(2)–72—Ace Commercial Services, Inc. (KQZ741), change base frequency to 152.06 MHz at location No. 1: 4 miles northeast of Columbus on Highway No. 12, WCBI–TV Tower, Columbus, Miss., and establish two-way facilities to operate on 152.03 MHz at a new site described as location No. 3: East of Ridge Road North, Columbus, Miss.

7008–C2–P–(2)–72—Charles L. Slocum (KCI770), for additional facilities to operate on 152.18 MHz base at location No. 2: Coal Bed Road, Elk Township, 6 miles northeast of Warren, Pa., and 454.275 MHz control facilities at location No. 3: Lindsley Hollow Road, 2.5 miles south of Corry, Pa.

7009–C2–ML–72—Mountain States Telephone and Telegraph Co. (KSV985), change base frequency to 152.72 MHz located at 2.3 miles northwest of Bisbee, Ariz. (Mule Mountain).

7010–C2–P–72—Mobile Radio Communications, Inc. (New), for a new one-way station to be located at 922 Linwood Street, Kansas City, MO, to operate on 35.58 MHz.

7011–C2–P–72—Telephone Answering Service, Inc. (KJU799), relocate facilities operating on 152.03 MHz to 805 Kentucky Avenue, Paducah, KY.

7080–C2–P–72—George E. Kitchen & Associates (KLF562), for additional facilities to operate on 152.09 MHz at a new site described as location No. 2: 552½ West Columbia, Battle Creek, MI.

7092–C2–P–(4)–72—Mountain States Telephone and Telegraph Co. (KOE513), relocate facilities operating on 152.57, 152.63, 152.69, and 152.75 MHz at 6 miles south-southwest of Casper, Wyo.

7093–C2–P–72—Northern Illinois Radio Phone and Paging (New), for a new two-way station to be located west of Martin Road on south side of Route No. 120, McHenry, Ill., to operate on 454.100 MHz.

7095–C2–P–72—Airsignal International, Inc. (KIE653), for additional facilities to operate on 35.22 MHz at location No. 3: 3243 Tulane, Memphis, TN.

7097–C2–P–(4)–72—Victor E. Duane (New), for a new two-way station to be located at location No. 1: 917 West Galbraith Road, Cincinnati, OH, to operate on 454.150 and 454.275 MHz and at location No. 2: 2345 Symmes, Cincinnati, OH, to operate on 454.050 and 454.225 MHz.

Major Amendment

6524–C2–P–71—Airsignal International, Inc. (KIF653), amend to read: For additional facilities to operate on frequency 35.22 MHz at a new site described as location No. 2: 475 North Highland Street, Memphis, TN. See Public Notice No. 545, dated May 24, 1971.

7506–C2–P–71—Yakima Telephone Answering Service (New), amend to indicate transfer of control from Jack H. Goetz and Margaret A. Goetz to Dale W. Blair. See Public Notice No. 551, dated July 6, 1971.

[1] All applications listed in the appendix below are subject to further consideration and review and may be returned and/or dismissed if not found to be in accordance with the Commission's rules, regulations, and other requirements.

[2] The above alternative cutoff rules apply to those applications listed in the appendix below as having been accepted in Domestic Public Land Mobile Radio, Rural Radio, Point-to-Point Microwave Radio, and Local Television Transmission Services (Part 21 of the rules).

POINT-TO-POINT MICROWAVE RADIO SERVICE—continued

6974–C1–P–72—Rock Hill Telephone Co., Inc. (KJA69), 500 feet north of Pleasant Hill, S.C. C.P. to correct coordinates on latitude 34°37'20" N. longitude 80°41'13" W. and change frequencies 6240.1H, 6278.8V, and 6397.4V MHz to 6345.5H, 6286.2H, and 6404.8H MHz toward Lesslie, S.C.; change frequencies 6263.9V and 6382.6V MHz to 6286.2V and 6404.8V MHz toward Camden, S.C. and change frequencies 6189.8V, 6219.5H, and 6338.1H MHz to 6345.5V, 6256.5H, and 6376.2H MHz toward Lancaster, S.C.

6975–C1–P–72—Rock Hill Telephone Co., Inc. (KJA70), 205 West Gay Street, Lancaster, S.C. C.P. to correct coordinates on latitude 34°43'04" N., longitude 80°46'19" W. and change frequencies 6937.8H and 6056.4H MHz to 6004.6V and 6123.1V MHz toward Pleasant Hill, S.C.

6976–C1–P–72—American Telephone & Telegraph Co. (KGH83), 2.5 miles east-southeast of Lionville, Pa. Latitude 40°03'06" N., longitude 75°36'40" W. C.P. to add 3890H MHz toward Oxford, Pa.

6977–C1–P–72—American Telephone & Telegraph Co. (KGH84), 3.5 miles south of Oxford, Pa. Latitude 39°44'00" N., longitude 75°57'56" W. C.P. to add 3830H MHz toward Fairlee, Md.

6988–C1–P–72—Frank K. Spain, doing business as Microwave Service Co. (New), C.P. for a new station, 2.3 miles northeast of Chunky, Miss., at latitude 32°20'31" N., longitude 88°53'41" W. Frequency 11,245V MHz on azimuth 268°25'.

6989–C1–P–72—Frank K. Spain, doing business as Microwave Service Co. (New), C.P. for a new station 0.1 mile northeast of Newton, Miss. at latitude 32°20'08" N., longitude 89°09'03" W. Frequency 10,755H MHz on azimuth 268°30'.

6990–C1–P–72—Frank K. Spain doing business as Microwave Service Co. (New), C.P. for a new station 2 miles southeast of Forest, Miss., at latitude 32°19'39" N., longitude 89°26'42" W. Frequency 11,526V MHz on azimuth 264°15'.

6991–C1–P–72—Frank K. Spain doing business as Microwave Service Co. (New), C.P. for a new station 5 miles north of Polkville, Miss., at latitude 32°15'59" N., longitude 89°41'22" W. Frequency 10,835H MHz on azimuth 265°00'.

6992–C1–P–72—Frank K. Spain doing business as Microwave Service Co. (New), C.P. for a new station 4.7 miles northeast of Brandon, Miss. at latitude 32°19'09" N., longitude 89°56'40" W. Frequency 11,485V MHz on azimuth 265°15'. Applicant proposes to provide the television signal of station WWOM–TV of New Orleans, La., to Capitol Services, Inc., in Jackson, Miss. See also major amendment to File No. 694–C1–P–72 which was filed simultaneously herewith.

6993–C1–P–72—Western Tele-Communications, Inc. (KZA87), East Butte, 32 miles west of Idaho Falls, Idaho, at latitude 43°30'00" N., longitude 112°39'46" W. C.P. to power split frequency 6390.0H MHz on azimuth 68°38'. Applicant proposes to provide the signal of station KBYU–TV to Rex TV, Inc., in Rexburg, Idaho.

6994–C1–P–72—American Telephone & Telegraph Co. (KSQ43), 2.7 miles west-southwest of Casselton, N. Dak. Latitude 46°52'42" N., longitude 97°15'26" W. C.P. to add 3910V MHz toward Walcott, N. Dak.

6995–C1–P–72—American Telephone & Telegraph Co. (KSQ42), 3.7 miles north of Walcott, N. Dak. Latitude 46°36'06" N., longitude 96°55'42" W. C.P. to add 3790V MHz, 3870V MHz toward Casselton, N. Dak., and 3870V MHz toward Rollag, Mont.

6996–C1–P–72—American Telephone & Telegraph Co. (KAK49), 3 miles southeast of Rollag, Minn. Latitude 46°42'08" N., longitude 96°13'10" W. C.P. to add 3880V, 3910V MHz toward Walcott, N. Dak., and 3910H MHz toward Luce, Mont.

6997–C1–P–72—American Telephone & Telegraph Co. (KAK73), 1.5 miles southwest of Luce, Minn. Latitude 46°38'32" N., longitude 96°40'20" W. C.P. to add 3790H, 3870H MHz toward Rollag, Mont., and 3870H MHz toward Sebeka, Mont.

6998–C1–P–72—American Telephone & Telegraph Co. (KAK74), 4 miles south-southwest of Sebeka, Minn. Latitude 46°34'10" N., longitude 95°07'05" W. C.P. to add 3830H, 3910H MHz toward Luce, Mont., and 3910H MHz toward Motley, Mont.

6999–C1–P–72—American Telephone & Telegraph Co. (KAK75), 1 mile south of Lincoln, Minn. Latitude 46°11'37" N., longitude 94°38'53" W. C.P. to add 3790H, 3870H MHz toward Sebeka, Mont., and 3870H MHz toward Little Falls, Mont.

7000–C1–P–72—American Telephone & Telegraph Co. (KAK76), 2.5 miles southwest of Little Falls, Minn. Latitude 45°56'38" N. longitude 94°24'09" W. C.P. to add 3830H, 3910H MHz toward Motley, Mont., and 3910H MHz toward Gilman, Mont.

DOMESTIC PUBLIC LAND MOBILE RADIO SERVICE—continued

INFORMATIVE: It appears that the following applications may be mutually exclusive and subject to the Commission's rules regarding ex parte presentations, by reasons of potential electrical interference.

Frequency 152.24 MHz

TEXAS:
Houston Mobilfone, Inc. (New), 2202–C2–P–69.
Radio Paging, Inc. (New), 3885–C2–P–69.

It appears that the following applications may be mutually exclusive and subject to the Commission's rules regarding ex parte presentations, by reasons of potential electrical interference.

Frequency 158.70 MHz

TEXAS:
Radio Dispatch, Inc. (New), 2203–C2–P–69.
Robert E. Franklin (New), 3788–C2–P–69.

POINT-TO-POINT MICROWAVE RADIO SERVICE

6983–C1–P–72—American Microwave & Communications, Inc. (KYO48), 2 miles southeast of Perrinton, Mich., at latitude 43°09'37" N., longitude 84°38'11" W. C.P. to change frequency from 6338.1H MHz to 6345.5H MHz on azimuth 347°55'.

6984–C1–P–72—American Microwave & Communications, Inc. (KYO49), Mount Pleasant, 2 miles south of Mount Pleasant, Mich., at latitude 43°33'38" N., longitude 84°46'15" W. C.P. to change polarization of frequency 5945.2 from Horizontal to Vertical on azimuth 358°02'.

6986–C1–P–72—American Telephone & Telegraph Co. (KEA77), 0.8 mile north of Cherryville, N.J. Latitude 40°34'18" N., longitude 74°54'22" W. C.P. to add 3960H MHz toward Mount Airy, N.J.

6987–C1–P–72—American Telephone & Telegraph Co. (KYS55), 1.5 miles southeast of Mount Airy, N.J. Latitude 40°33'06" N., longitude 74°52'58" W. C.P. to add 3950H MHz toward Cherryville, N.J., and 3960V MHz toward Monmouth Junction, N.J.

6988–C1–P–72—American Telephone & Telegraph Co. (KYS56), 2.2 miles northwest of Monmouth Junction, N.J. Latitude 40°23'37" N., longitude 74°35'07" W. C.P. to add 3990V MHz toward Mount Airy and Navesink, N.J.

6989–C1–P–72—American Telephone & Telegraph Co. (KEE54), 0.5 mile west of Navesink, N.J. Latitude 40°24'11" N., longitude 74°02'38" W. C.P. to add 3950V MHz toward Monmouth Junction, N.J., and 3990H MHz toward Hempstead, N.Y.

6990–C1–P–72—American Telephone & Telegraph Co. (KEE55), Terrace and Fulton Avenue, Hempstead, N.Y. Latitude 40°42'28" N., longitude 73°37'43" W. C.P. to add 3990H MHz toward Navesink, N.J.

6997–C1–P–72—American Telephone & Telegraph Co. (KVD82), 4 miles north-northeast of Bates, Ark. Latitude 34°57'45" N., longitude 94°22'29" W. C.P. to add 4198H MHz toward Union Hill, Ark.

6968–C1–P–72—American Telephone & Telegraph Co. (KVD81), 8.2 miles south of Sugar Grove, Ark. Latitude 34°57'41" N., longitude 93°49'08" W. C.P. to add 4190H MHz toward Bates, Ark., and 4190V MHz toward Danville, Ark.

6969–C1–P–72—American Telephone & Telegraph Co. (KVD80), 2.1 miles south-southwest of Danville, Ark. Latitude 35°00'58" N., longitude 93°24'40" W. C.P. to add 4198V MHz toward Union Hill, Ark., and 4198H MHz toward Paron, Ark.

6970–C1–P–72—American Telephone & Telegraph Co. (KVD79), 8.2 miles west-northwest of Paron, Ark. Latitude 34°50'13" N., longitude 92°52'54" W. C.P. to add 4190H MHz toward Danville, Ark., and 4190V MHz toward Alexander, Ark.

6971–C1–P–72—American Telephone & Telegraph Co. (KTG45), 1.7 Miles south of Alexander, Ark. Latitude 34°36'07" N., longitude 92°26'55" W. C.P. to add 4198V MHz toward Paron, Ark.

6972–C1–P–72—Rock Hill Telephone Co., Inc. (KJA67), 330 East Black Street, Rock Hill, SC. Latitude 34°55'19" N., longitude 91°01'29" W. C.P. to change frequencies 6293.9V and 6362.6V MHz to 6286.2V and 6404.8V MHz toward Lesslie, S.C.

6973–C1–P–72—Rock Hill Telephone Co., Inc. (KJA68), 1,200 feet west of Lesslie, S.C. C.P. to correct coordinates on latitude 34°53'29" N., longitude 80°57'35" W. and change frequencies 6041.6V, 6011.9H, and 6160.2V to 6034.2H, 6152.6H, and 6083.5H MHz toward Rock Hill, S.C. Also change frequencies 5997.1V and 6115.7V MHz to 6034.2V and 6192.8V MHz toward Pleasant Hill, S.C.

V 37 • 74 APR 15 72 XUM

POINT-TO-POINT MICROWAVE RADIO SERVICE—continued

7001–C1–P–72—American Telephone & Telegraph Co. (KAK77), 3 miles northeast of Gilman, Minn. Latitude 45°46'48" N., longitude 93°56'12" W. C.P. to add 3790H, 3870H MHz toward Little Falls, Mont., and 3870H MHz toward Zimmerman, Mont.

7002–C1–P–72—American Telephone & Telegraph Co. (KAK78), 3 miles southeast of Zimmerman, Minn. Latitude 45°24'59" N., longitude 93°32'42" W. C.P. to add 3830H, 3910H MHz toward Gilman, Mont.

7003–C1–P–72—American Telephone & Telegraph Co. (KAI71), 6.5 miles southeast of Moville, Iowa. Latitude 42°24'43" N., longitude 95°59'57" W. C.P. to add 3770V MHz toward Adaville, Iowa.

7004–C1–P–72—American Telephone & Telegraph Co. (KAM41), 6.2 miles northwest of Merrill, Iowa. Latitude 42°45'02" N., longitude 96°22'00" W. C.P. to add 3730V MHz toward Moe, S. Dak.

7005–C1–P–72—American Telephone & Telegraph Co. (KAM42), 7.7 miles southwest of Fairview, S. Dak. Latitude 43°10'00" N., longitude 96°37'37" W. C.P. to add 3770H MHz toward Pumpkin Center, S. Dak.

7006–C1–P–72—American Telephone & Telegraph Co. (KAM43), 7.1 miles southwest of Hartford, S. Dak. Latitude 43°32'26" N., longitude 97°01'42" W. C.P. to add 3950H MHz toward Chester, S. Dak.

7007–C1–P–72—American Telephone & Telegraph Co. (KBI46), 3.9 miles north-northeast of Chester, S. Dak. Latitude 43°56'54" N., longitude 96°54'36" W. C.P. to add 3990H MHz toward Arlington, S. Dak.

7012–C1–P–72—Northwestern Bell Telephone Co. (New), 6.2 miles east-northeast of Arlington, S. Dak. Latitude 44°22'59" N., longitude 97°00'36" W. C.P. for a new station on frequency 4110V MHz toward Brookings, S. Dak.

7013–C1–P–72—Northwestern Bell Telephone Co. (New), 7.75 miles southwest of Fairview, S. Dak. Latitude 43°10'03" N., longitude 96°37'39" W, C.P. for a new station on frequency 4150V MHz toward KUSD–TV, Beresford, S. Dak.

7014–C1–P–72—KHC Microwave Corp. (New), C.P. for a new station at Tangipahoa, 3.5 miles southeast of Wilmer, La., at latitude 39°50'21" N., longitude 90°18'48" W. Frequency 5974.8V MHz on azimuth 345°16'.

7015–C1–P–72—KHC Microwave Corp. (New), C.P. for a new station in McComb, Miss., at latitude 31°14'59" N., longitude 90°26'24" W. Frequency 6375.2V MHz on azimuth 12°59'.

7016–C1–P–72—KHC Microwave Corp. (New), C.P. for a new station at Wesson, 1 mile east-northeast of Huecks, Miss., at latitude 31°37'35" N., longitude 90°20'30" W. Frequency 5034.2V MHz on azimuth 5°56'.

7017–C1–P–72—KHC Microwave Corp. (New), C.P. for a new station 3 miles east of Crystal Springs, Miss., at latitude 31°59'55" W., longitude 90°17'57" W. Frequency 6315.9V MHz on azimuth 18°34'. Applicant proposes to provide the television signal of station WWOM–TV of New Orleans, La., to McComb Cablevision, Inc., in McComb, Miss., and to Capitol Cablevision in Jackson, Miss.

7018–C1–P–72—Southern Bell Telephone & Telegraph Co. (KIY59), 1645 Hampton Street, Columbia, SC. Latitude 34°00'29" N., longitude 81°01'42" W. C.P. to delete frequencies 6011.9V and 6130.5V and change polarization from H to V on frequencies 5974.8V and 6093.5V and add 6152.8V MHz toward Blaney, S.C.

7019–C1–P–72—Southern Bell Telephone & Telegraph Co. (KJB47), two blocks southeast of U.S. Highway No. 1, S.C. Latitude 34°10'10" N., longitude 80°47'15" W. C.P. to delete frequencies 6263.9V and 6382.6V and add 6404.8H MHz toward Columbia, S.C., and add 6404.8V MHz toward Camden, S.C., and delete frequencies 6249.1H and 6367.7H and 6280.2V MHz toward Spring Hill, S.C.

7020–C1–P–72—Southern Bell Telephone & Telegraph Co. (KJA71), 1209 Broad Street, Camden, SC. Latitude 34°14'57" N., longitude 80°36'26" W. C.P. to change polarization from V to H on frequencies 5974.8H and 6093.5H and add 6152.8H MHz toward Blaney, S.C., and add 5945.2V, 6063.6V, and 6093.5H MHz toward Spring Hill, S.C.

7021–C1–P–72—Southern Bell Telephone & Telegraph Co. (KJB48), 2 miles southeast of intersection of South Carolina County Road No. 7 and No. 37. Latitude 34°07'26" N., longitude 80°24'41" W. C.P. to add 6197.2H and 6315.9H MHz toward Camden, S.C.; delete 6130.5H MHz and change to 6345.5V MHz toward Bishopville, S.C.; delete frequencies 5974.8V, 6034.2H, and 6093.5V MHz and change to 6197.2V, 6315.9V, and 6345.5H MHz toward Sumter, S.C.; and delete frequencies 5997.1H and 6115.7H MHz toward Blaney, S.C.

POINT-TO-POINT MICROWAVE RADIO SERVICE—continued

7022–C1–P–72—Southern Bell Telephone & Telegraph Co. (KJB49), 15 South Harvin Street, Sumter, SC. Latitude 33°55'08" N., longitude 80°20'24" W. C.P. to delete 6197.2V and 6315.2V MHz and change to 5945.2H and 6063.6H MHz toward Spring Hill, S.C., and delete frequencies 6219.5V, 6338.1V, and 6249.1H MHz and change to 5945.2V, 6004.5V, and 6123.1V MHz toward Manning, S.C.

7023–C1–P–72—Southern Bell Telephone & Telegraph Co. (KIY63), 218 College Street, Greenville, SC. Latitude 34°51'19" N., longitude 82°24'00" W. C.P. to add 10,715V MHz toward Paris Mountain, S.C.

7024–C1–P–72—Southern Bell Telephone & Telegraph Co. (KIY62), Paris Mountain 6 miles north of Greenville, S.C. Latitude 34°56'29" N., longitude 82°24'40" W. C.P. to change frequencies 6263.9V and 6382.6V MHz to 6197.2H and 6315.9H MHz and add 6404.8V MHz toward Clinton, S.C. Also change polarization from H to V on frequencies 6256.5V and 6375.2V MHz and change polarization from V to H on frequencies 6226.9H and 6345.5H MHz and add 11,245H MHz toward Greenville, S.C.

7025–C1–P–72—Southern Bell Telephone & Telegraph Co. (KIY61), 208 Broad Street, Clinton, SC. Latitude 34°28'13" N., longitude 81°52'55" W. C.P. to change 5982.2H, 6100.9H and 5937.8V MHz to 6093.5V, 6034.2V, and 6152.8V MHz toward Greenwood, S.C., and change frequencies 6004.5H and 6123.1H MHz to 5945.2V and 6063.8V MHz and add 6152.8H MHz toward Paris Mountain, S.C.

7026–C1–P–72—Pacific Northwest Bell Telephone Co. (KOC65), 819 Southwest Oak Street, Portland, OR. Latitude 45°31'22" N., longitude 122°40'42" W. C.P. to change polarization from H to V on frequencies 3770V MHz toward Sentinel Hill and change polarization from H to V on frequency 3850V MHz and add 3930V MHz toward Portland, Oreg.

7027–C1–P–72—Pacific Northwest Bell Telephone Co. (KYS69), Sentinel Hill, near Southwest Fairmount Boulevard, Portland, Oreg. Latitude 45°29'24" N., longitude 122°41'47" W. C.P. to change polarization from H to V on frequencies 3730V and 3810V MHz toward Portland, Oreg., and add 3890V MHz toward Portland and 3890V MHz toward Saddle Mountain, Oreg.

7028–C1–P–72—Pacific Northwest Bell Telephone Co. (KYS63), Saddle Mountain, 9.5 miles northwest of Cherry Grove, Oreg. Latitude 45°32'43" N., longitude 123°22'49" W. C.P. to add 3930V MHz toward Sentinel Hill, Oreg., and 4090V MHz toward Amity, Oreg.

7029–C1–P–72—Pacific Northwest Bell Telephone Co. (KYS70), 4.5 miles northeast of Amity, Oreg. Latitude 45°08'37" N., longitude 123°07'44" W. C.P. to add 4050V MHz toward Saddle Mountain, Oreg., and add 4050V MHz toward Mount Horeb, Oreg.

7030–C1–P–72—Pacific Northwest Bell Telephone Co. (KYS72), Mount Horeb, 7 miles east-northeast of Mill City, Oreg. Latitude 44°47'35" N., longitude 122°20'21" W. C.P. to add 4090V MHz toward Amity and Hoodoo Butte, Oreg.

7031–C1–P–72—Pacific Northwest Bell Telephone Co. (KYS73), Hoodoo Butte, 18.2 miles west-northwest of Sisters, Oreg. Latitude 44°24'03" N., longitude 121°52'57" W. C.P. to add 4050V MHz toward Mount Horeb and Long Butte, Oreg.

7032–C1–P–72—Pacific Northwest Bell Telephone Co. (KYS74), Long Butte, 3.2 miles northeast of Tumalo, Oreg. Latitude 44°10'26" N., longitude 121°16'32" W. C.P. to add 4090V MHz toward Hoodoo Butte and Spring River, Oreg.

7033–C1–P–72—Pacific Northwest Bell Telephone Co. (KYS75), Spring River, 16 miles southsouthwest of Bend, Oreg. (Latitude 43°52'25" N., longitude 121°30'11" W. C.P. to add 4050V MHz toward Long Butte, Oreg., and 4050H MHz toward Crescent Butte, Oreg.

7034–C1–P–72—Pacific Northwest Bell Telephone Co. (KYS76), Crescent Butte, 1 mile southeast of Gilchrist, Oreg. Latitude 43°27'48" N., longitude 121°40'04" W. C.P. to add 4090H MHz toward Spring River and Welch Butte, Oreg.

7035–C1–P–72—Pacific Northwest Bell Telephone Co. (KYS77), Welch Butte, 8.9 miles south-southwest of Chemult, Oreg. Latitude 43°06'35" N., longitude 121°53'09" W. C.P. to add 4050V MHz toward Cave Mountain, Oreg., and 4050H MHz toward Crescent Butte, Oreg.

7036–C1–P–72—Pacific Northwest Bell Telephone Co. (KYS78), Cave Mountain, 3 miles northeast of Chiloquin, Oreg. Latitude 42°36'23" N., longitude 121°49'01" W. C.P. to add 4090V MHz toward Welch Butte, and Medicine Mountain, Oreg.

7037–C1–P–72—Pacific Northwest Bell Telephone Co. (KYS79), Medicine Mountain, 3 miles southeast of Beatty, Oreg. Latitude 42°25'05" N., longitude 121°13'14" W. C.P. to add 4050V MHz toward Cave Mountain and Brady Butte, Oreg.

POINT-TO-POINT MICROWAVE RADIO SERVICE—continued

7038–C1–P–72—Pacific Northwest Bell Telephone Co. (KYS80), Brady Butte, 22.7 miles southeast of Bonanza, Oreg. Latitude 42°00'58" N., longitude 121°02'05" W. C.P. to add 4090V MHz toward Medicine Mountain, Oreg., and Timber Mountain, Calif.

(INFORMATIVE: Applicant, MCI New England, Inc., is modifying its original proposal for specialized common carrier radio service between Boston, Mass., and New York, N.Y., by filing three new applications as listed below.)

7039–C1–P–72—MCI New England, Inc. (New), a new station is located 1 mile east of New Canaan, Conn., at latitude 41°08'40" N., longitude 73°28'11" W. Frequencies 10,735.0V and 11,135.0V on azimuth 210°21' and 6197.2V on azimuth 80°29'.

7040–C1–P–72—MCI New England, Inc. (New), a new station is located 1 mile north of Westville, Conn., at latitude 41°21'00" N., longitude 72°58'23" W. Frequencies 6197.2H on azimuth 224°00' and 11,585.0H and 11,265.0H on azimuth 142°37'.

7041–C1–P–72—MCI New England, Inc. (New), a new station is located 2.5 miles west-northwest of Hampden, Mass., at latitude 42°04'14" N., longitude 72°21'42" W. Frequency 3730.0V on azimuth 112°59' and frequency 3730.0V on azimuth 281°29'.

(INFORMATIVE: Applicant, MCI Michigan, Inc., is modifying its original proposal for Specialized Common Carrier Radio Service between South Bend, Ind., and Detroit, Mich., and points in between, by filing the four new applications listed below.

7071–C1–P–72—MCI Michigan, Inc. (New), Site 6, Prairieville, Mich. C.P. for a new station, 3.4 miles southeast of Prairieville, Mich., at latitude 42°27'54" N., longitude 85°29'20" W. Frequencies 5974.8V MHz on azimuth 201°52' toward Kalamazoo, Mich., 5945.2H MHz on azimuth 340°19' toward Dias Hill, Mich., 5945.2V on azimuth 122°42' toward Battle Creek, Mich.

7072–C1–P–72—MCI Michigan, Inc. (New), Site 7, Dias Hill, Mich. C.P. for a new station, 3.7 miles east of Byron Center, Mich., at latitude 42°47'48" N., longitude 84°39'00" W. Frequencies 6197.2H MHz on azimuth 160°13' toward Prairieville, Mich., 10,775.0V and 11,175.0V MHz on azimuth 355°15' toward Grand Rapids, Mich.

7073–C1–P–72—MCI Michigan, Inc. (New), Site 11, Concord, Mich. C.P. for a new station, 1.9 miles southeast of Concord, Mich. Latitude 42°09'09" N., longitude 84°37'18" W. Frequencies 6197.2H MHz on azimuth 292°03' toward Marshall, Mich., 6226.9H MHz on azimuth 59°34' toward Jackson, Mich.

7074–C1–P–72—MCI Michigan, Inc. (New), Site 29, Warren, Mich. C.P. for a new station, corner of Van Dyke Road and Thirteen Mile Road, Warren, Mich., at latitude 42°31'18" N., longitude 83°01'47" W. Frequencies 10,775.0H and 11,175.0H MHz on azimuth 183°38' toward Detroit, Mich.

7076–C1–P–72—The Pacific Telephone & Telegraph Co. (KMA30), Mount Oso, 10 miles westsouthwest of Westley, Calif. Latitude 37°30'07" N., longitude 121°22'23" W. C.P. to change 935.0V MHz to 2112V MHz toward Stockton, Calif.

7077–C1–P–72—The Pacific Telephone & Telegraph Co. (KMN30), 345 North San Joaquin Street, Stockton, CA. Latitude 37°57'24" N., longitude 121°17'15" W. C.P. to change 920.0V MHz to 2162V MHz toward Mount Oso, Calif.

7078–C1–P–72—The Pacific Telephone & Telegraph Co. (KNL74), 2.5 miles south-southwest of Elk Grove, Calif. Latitude 38°22'24" N., longitude 121°22'56" W. C.P. to change frequencies 6197.2H, 6256.5H, and 6315.9H MHz to 11,365H, 11,525H, and 11,685H MHz toward Lodi, Calif.

7079–C1–P–72—The Pacific Telephone & Telegraph Co. (KNL75), 1.2 miles west-northwest of Lodi, Calif. Latitude 38°08'31" N., longitude 121°18'58" W. C.P. to change frequencies 5945.2V, 6004.5V, and 6063.8V MHz to 10,755H, 10,915H, and 11,075H MHz toward Elk Grove, Calif.

6147–C1–ML–72—American Telephone & Telegraph Co. (KAM70), change geographic coordinates from latitude 39°41'45" N., longitude 104°18'42" W. to latitude 39°41'41" N., longitude 104°18'07" W.

7081–C1–P–72—Racom, Inc. (KYZ85), C.P. to power split frequency 5960.0V MHz on azimuth 286°07' toward Mount Fairbanks, Vt. Summit of Mount Washington, N.H., at latitude 44°16'13" N., longitude 71°18'13" W. Applicant proposes to provide the television signal of station WSBK–TV of Boston, Mass., to St. Johnsbury Community TV Corp. in St. Johnsbury, Vt.

POINT-TO-POINT MICROWAVE RADIO SERVICE—continued

7083–C1–P–72—American Telephone & Telegraph Co. (KAH89), 420 Third Avenue South, Minneapolis, MN. Latitude 44°58'41" N., longitude 93°15'52" W. C.P. to add 4030H MHz toward Lonsdale, Minn.

7084–C1–P–72—American Telephone & Telegraph Co. (KAS69), 2.5 miles north-northeast of Lonsdale, Minn. Latitude 44°31'43" N., longitude 93°24'25" W. C.P. to add 3930V MHz toward Minneapolis, Minn., and 4070V MHz toward Medford, Minn.

7085–C1–P–72—American Telephone & Telegraph Co. (KAS68), 1.5 miles west-southwest of Medford, Minn. Latitude 44°10'00" N., longitude 93°16'38" W. C.P. to add 3890H MHz toward Lonsdale, Minn., and 4030V MHz toward Hartland, Minn.

7086–C1–P–72—American Telephone & Telegraph Co. (KAS69), 3.2 miles east-northeast of Hartland, Minn. Latitude 43°49'34" N., longitude 93°25'48" W. C.P. to add 3930H MHz toward Medford, Minn., and 4070V MHz toward Glenville, Minn.

7087–C1–P–72—American Telephone & Telegraph Co. (KAS46), 3 miles southeast of Glenville, Minn. Latitude 43°32'38" N., longitude 93°14'20" W. C.P. to add 3890H MHz toward Hartland, Minn., and 4030V MHz toward Nora Springs, Iowa.

7088–C1–P–72—American Telephone & Telegraph Co. (KAS45), 3.5 miles east-northeast of Mason City, Iowa. Latitude 43°10'00" N., longitude 93°07'20" W. C.P. to add 3930H MHz toward Glenville, Minn., and 4070V MHz toward Hampton, Iowa.

7089–C1–P–72—American Telephone & Telegraph Co. (KAS44), 5 miles west-southwest of Hampton, Iowa. Latitude 42°42'55" N., longitude 93°17'27" W. C.P. to add 3890H MHz toward Nora Springs, Iowa, and 4030H MHz toward Radcliffe, Iowa.

7090–C1–P–72—American Telephone & Telegraph Co. (KAS43), 1 mile south-southeast of Radcliffe, Iowa. Latitude 42°15'06" N., longitude 93°25'22" W. C.P. to add 3930V MHz toward Hampton, Iowa, and 4070H MHz toward Boone, Iowa.

7091–C1–P–72—American Telephone & Telegraph Co. (KYN90), 9.5 miles north-northeast of Boone, Iowa. Latitude 42°09'55" N., longitude 93°47'37" W. C.P. to add 3890V MHz toward Radcliffe, Iowa.

7103–C1–P–72—Western Tele-Communications, Inc. (KZA87), East Butte, 32 miles west of Idaho Falls, Idaho. Latitude 43°30'00" N., longitude 112°39'48" W. Application for C.P. to add frequency 6241.7H MHz, via power split, toward Curlew Valley, Idaho, on azimuth 177°01'.

(INFORMATIVE: Applicant proposes to retain frequency 6241.7H MHz which, by separate amendment, is concurrently deleted from application 6029–C1–P–70. See Public Notice dated Apr. 30, 1970.)

The following applicants proposes to establish omnidirectional facilities for the provision of common carrier "Subscriber-Programed" television service.

6964–C1–P–72—Nashville Signal Co. (New), 161 Fourth Avenue North, Nashville, TN. Latitude 36°09'49" N., longitude 86°46'45" W. C.P. for a new station on frequencies 2152.325 (Visual) 2150.20 (Aural) toward various receiving points of system and 2158.50 (Visual) 2154.00 (Aural) toward various receiving points of system.

6966–C1–P–72—WHP, Inc. (New), on Blue Mountain, 5.5 miles north of Harrisburg, Pa. Latitude 40°20'44" N., longitude 76°32'09" W. C.P. for a new station of frequencies 2150.20 (Aural) 5152.325 (Visual) toward various receiving points of system and 2154.00 (Aural) 2158.50 (Visual) toward various receiving points of system.

6981–C1–P–72—Mr. Howard S. Klotz and Mr. William Corbus (New), Intersection of Atlantic Boulevard and Ocean Boulevard (Monarch Towers), Pompano Beach, Fla. Latitude 26°13'55" N., longitude 80°05'28" W. C.P. for a new station on frequencies 2152.325 (Visual) 2150.20 (Aural) toward various receiving points of system and 2158.50 (Visual) 2154.00 (Aural) toward various receiving points of system.

6982–C1–P–72—Multi-Communication Services, Inc. (New), Intersection of Atlantic Boulevard and Ocean Boulevard (Monarch Towers), Pompano Beach, Fla. Latitude 26°13'55" N., longitude 80°05'28" W. C.P. for a new station on frequencies 2152.325 (Visual) 2150.20 (Aural) toward various receiving points of system and 2158.50 (Visual) 2154.00 (Aural) toward various receiving points of system.

6983–C1–P–72—Multi-Communication Services, Inc. (New), 5599 New Berry Highway, Erie, PA. Latitude 42°05'00" N., longitude 80°03'23" W. C.P. for a new station on frequencies 2152.325 (Visual) 2150.20 (Aural) toward various receiving points of system and 2158.50 (Visual) 2154.00 (Aural) toward various receiving points of system.

XUM

POINT-TO-POINT MICROWAVE RADIO SERVICE (TELEPHONE CARRIER)

Major Amendments

INFORMATIVE: Applicant, MCI Michigan, Inc., is amending 14 of its previously filed applications for authority to construct a new specialized common carrier service in a two State area from South Bend, Ind., to Detroit, Mich., and serving a number of other major cities in Michigan. The applications now being amended were originally filed in February, 1970. They appeared in Public Notice, February 16, 1970, FCC Report No. 479A. Three of the applications were amended December 16, 1971, and appeared in Public Notice on January 10, 1972, FCC Report No. 578. Each application that is now amended is referenced to the date filed. In addition 4 new applications are now submitted. The amendments and new applications are necessitated to insure compliance with the new engineering standards set forth in the Commission's first report and order in Docket No. 18920, effective July 15, 1971, and Informative Guidelines published regarding Frequency Coordination in Report No. 562, FCC Common Carrier Services Information released September 20, 1971.

4320–C1–P–70—MCI Michigan, Inc. (New), Site 1, station located at 202 South Michigan Street, South Bend, IN. Delete frequency 6345.5V and 6404.8V MHz. Add frequency 11,665.0H and 11,265.0H MHz on azimuth 339°54' toward Buchanan, Mich.

4321–C1–P–70—MCI Michigan, Inc. (New), Site 2, station located 2.1 miles east-southeast of Buchanan, Mich. Delete frequencies 5945.2V, 6123.1V, 5974.8V, and 6093.5V MHz. Add frequencies 10,775.0H, 11,175.0H MHz on azimuth 159°51' toward South Bend, Ind., 6197.2V on azimuth 35°02' toward Decatur, Mich. Change proposed station location to latitude 41°49'10", longitude 86°19'10".

4322–C1–P–70—MCI Michigan, Inc. (New), Site 3, station located 4.2 miles west-southwest of Decatur, Mich. Delete frequencies 6256.5V, 6375.2V, 6226.9V, and 6345.5V MHz. Add frequencies 5945.2V MHz on azimuth 215°12' toward Buchanan, Mich., 6226.9V MHz on azimuth 68°42' toward Texas Corners, Mich.

4323–C1–P–70—MCI Michigan, Inc. (New), Site 4, station located 2.7 miles west-southwest of Texas Corners, Mich. Delete frequencies 5945.2V, 6063.8V, 6034.2V, and 6152.8V MHz. Add frequencies 5974.8V MHz on azimuth 246°55' toward Decatur, Mich., 5974.8H MHz on azimuth 47°24' toward Kalamazoo, Mich.

4324–C1–P–70—MCI Michigan, Inc. (New), Site 5, station located at 136 East Michigan Avenue, Kalamazoo, MI. Delete frequencies 6197.2V, 6315.9V, 6286.2V, and 6404.8V MHz. Add frequencies 6226.9H on azimuth 227°31' toward Texas Corners, Mich., 6226.9H MHz on azimuth 21°48' toward Prairieville, Mich. Delete Galesburg, Mich., as a point of communication.

4329–C1–P–70—MCI Michigan, Inc. (New), Site 8, station located at 187 Monroe Street NW., Grand Rapids, MI. Delete frequencies 10,875V and 11,115V MHz. Add frequencies 11,605.0V and 11,265.0V MHz on azimuth 175°16' toward Dias Hill, Mich. Delete Walker, Mich., as a point of communication.

4326–C1–P–70—MCI Michigan, Inc. (New), Site 9, station located at 1 West Michigan Avenue, Battle Creek, MI. Delete frequencies 11,365V, 11,605V, 5974.2V, 6093.5V, 6945.2V, and 6226.9V MHz. Add frequencies 6197.2V MHz on azimuth 302°54' toward Prairieville, Mich., 6226.9V MHz on azimuth 111°27' toward Marshall, Mich. Delete Galesburg, Hastings, and Homer, Mich., as points of communication.

4330–C1–P–70—MCI Michigan, Inc. (New), Site 10, station located at 5.8 miles east-southeast of Marshall, MI. Delete frequencies 6256.5V, 6375.2V, 6226.9H, and 6345.5H MHz. Add frequencies 5974.8V MHz on azimuth 291°40' toward Battle Creek, Mich., 5945.2H MHz on azimuth 111°53' toward Concord, Mich. Change proposed station location to latitude 42°13'32", longitude 84°51'55", Marshall, Mich. Delete Jackson, Mich., as point of communication.

4331–C1–P–70—MCI Michigan, Inc. (New), Site 12, station located at 180 West Michigan Avenue, Jackson, MI. Delete frequencies 5945.2H, 6123.1H, 11,605V, 11,365V, 6034.2H, and 6152.8H MHz. Add frequencies 5974.8H MHz on azimuth 239°42' toward Concord, Mich., 5974.8V MHz on azimuth 75°04' toward Chelsea, Mich. Change proposed station location to latitude 42°14'44", longitude 84°24'29", Jackson, Mich. Delete Leslie, Mich., and Homer, Mich., as points of communication.

4334–C1–P–70—MCI Michigan, Inc. (New), Site 16, station located 2.5 miles southwest of Lennon, Mich. Add frequency 5945.2V MHz on azimuth 356°13' toward Laytons Corner, Mich.

POINT-TO-POINT MICROWAVE RADIO SERVICE—continued

6984–C1–P–72—Western Tele-Communications, Inc. (New), 136 East South Temple, Salt Lake City, UT. Latitude 40°46'09" N, longitude 111°53'12" W. C.P. for a new station on frequencies 2152.325 (Visual) 2150.20 (Aural) toward various receiving points of system and surrounding area. C.P. for a new station on frequencies 2150.200 (Aural) 2152.325

6985–C1–P–72—Central Telephone Co. (New), temporary-fixed locations in Las Vegas, Nev., and surrounding areas. C.P. for a new station on frequencies 2150.200 (Aural) 2152.325 (Visual) toward directional receivers associated with this station and 2154.00 (Aural) 2158.50 (Visual) toward directional receivers associated with this station.

Major Amendments

INFORMATIVE: Applicant, MCI Pacific Mountain States, Inc., is amending one of its previously filed applications for authority to construct a new specialized common carrier system in a three State area from Denver, Colo., through Wyoming into Salt Lake City, Utah. The application now being amended was originally filed on October 16, 1970 (Public Notice October 26, 1970) and amended on March 6, 1972 (Public Notice March 20, 1972). Each application now amended is referenced to the date originally filed.

2162–C1–P–71—MCI Pacific Mountain States, Inc. (New), Site 18, Sage, Wyo. Correct frequency to 6226.9H MHz on azimuth 257°03' toward Providence, Utah. Delete frequency 5974.8H MHz on azimuth 257°03'. All other particulars are as reported in Public Notice No. 588 dated March 20, 1972.

POINT-TO-POINT MICROWAVE RADIO SERVICE (TELEPHONE CARRIERS)—continued

4338–C1–P–70—MCI Michigan, Inc. (New) Site 20, station located at 2.2 miles West of Chelsea, Mich. Add frequency 6226.9V MHz on azimuth 255°17' toward Jackson, Mich.

4344–C1–P–70—MCI Michigan, Inc. (New), Site 28, station located at 500 Griswold Street, Detroit, MI. Add frequencies 11,665.0H 11,265.0H MHz on azimuth 3°37' toward Warren, Mich.

4335–C1–P–70—MCI Michigan, Inc. (New), Site 30, station located 3.3 miles north of Laytons Corner, Mich. Delete frequencies 6004.5V, 6123.1V, 11,405V, 11,645V, 5945.2H, and 6063.8H MHz. Add frequencies 6197.2V MHz on azimuth 176°11' toward Lennon, Mich., 6226.9H MHz on azimuth 11°16' toward Saginaw, Mich. Change proposed station location to latitude 43°13'23", longitude 83°59'45" Laytons Corner, Mich. Delete Flint, Mich., and Owosso, Mich., as points of communication.

4337–C1–P–70—MCI Michigan, Inc. (New), Site 31, station located at Eddy Building, 100 North Washington Street, Saginaw, MI. Delete frequencies 10,875V, and 11,035V MHz. Add frequency 5974.8H MHz on azimuth 191°19' toward Laytons Corner, Mich. Change proposed station location to latitude 43°26'00", longitude 83°56'18" Saginaw, Mich.

POINT-TO-POINT MICROWAVE RADIO SERVICE

Major Amendments

5139–C1–P–70—Eastern Microwave Inc. (KEA64), Change coordinates from latitude 42°58'39" N., longitude 74°08'48" W., to latitude 42°46'31" N., longitude 74°40'56" W. for Cherry Valley transmit site and change coordinates from latitude 42°58'39" N., longitude 72°08'48" W., to latitude 42°58'39" N., longitude 74°08'48" W. for Amsterdam receive site. Station location: Approximately 4 miles southeast of Cherry Valley, N.Y.

2366–C1–P–71—The Western Union Telegraph Co. (KGN31). Add frequency 6315.9H MHz and change polarization from vertical to horizontal on frequencies 6256.5 and 6375.2 MHz on path toward Pittsgrove, N.J. Delete frequency 6256.5V on path toward Mount Laurel, N.J.

INFORMATIVE: Western Tele-Communications, Inc., is amending 3 of its 18 applications proposing specialized common carrier services between Toro Peak, Calif., and Hobbs, N. Mex., with service to Phoenix and Tucson, Ariz., and El Paso, Tex. The application first appeared on Public Notice April 27, 1970. A subsequent amendment appeared on Public Notice, July 26, 1971.

6777–C1–P–70—Western Tele-Communications, Inc. (New), 449 Broadway, El Centro, CA. Latitude 32°47'36" N., longitude 115°33'13" W. Change point of communication from Black Mountain, Calif., to Ogilby, Calif., and add frequencies 3810H and 3890H toward Ogilby, Calif., on azimuth 88°14'.

6778–C1–P–70—Western Tele-Communications, Inc. (New), relocate station to Ogilby, Calif., 12 miles northwest of Yuma, Ariz. Latitude 32°48'38" N., longitude 114°48'26" W. Add frequencies 3880V and 4070V toward El Centro, Calif., on azimuth 268°38', and 4070V and 4150V toward Telegraph Pass, Ariz., on azimuth 109°00'.

6779–C1–P–70—Western Tele-Communications, Inc. (New), Telegraph Pass, 16.5 miles east-southeast of Yuma, Ariz. Latitude 32°40'22" N., longitude 114°20'14" W. Change point of communication from Black Mountain, Calif., to Ogilby, Calif., and add frequencies 3890H and 3970H toward Ogilby, azimuth 289°15'.

INFORMATIVE: Applicant, MCI New England, Inc., is amending eight of its previously filed applications for authority to construct a new specialized common carrier service in a four-State area from Boston, Mass., to New York, N.Y. The applications now being amended were originally filed in December 1969 and appeared on Public Notice Dec. 22, 1969, FCC Report No. 471. The application was amended in December 1971 and appeared on Public Notice Dec. 13, 1971, FCC Report No. 574.

3406–C1–P–70—MCI New England, Inc. (New), 101 Broad Street, Stamford, CT, at latitude 41°03'18" N., longitude 73°32'20" W. Add point of communication, frequencies 11,625.0H and 11,225.0H on azimuth 30°18'.

3405–C1–P–70—MCI New England, Inc. (New), 140 Fairfield Avenue, Bridgeport, CT, at latitude 41°10'46" N., longitude 73°11'27" W. Delete frequencies 10,735.0H and 10,895.0H on azimuth 57°08', and 5989.7V and 6108.3V on azimuth 244°44'. Add frequency 5945.2V on azimuth on 260°40', and 5945.2V on azimuth 43°52'.

3404–C1–P–70—MCI New England, Inc. (New), 265 College Street, New Haven, CT, at latitude 41°18'24" N., longitude 72°55'45" W. Delete frequencies 11,625.0H and 11,305.0H on azimuth 43°11', and 11,425.0H and 11,585.0H on azimuth 237°18'. Add frequencies 10,735.0H and 11,135.0H on azimuth 322°39'.

3400–C1–P–70—MCI New England, Inc. (New), 3.3 miles northwest of Staffordville, Conn., at latitude 42°01'19" N., longitude 72°12'30" W. Delete frequency 5974.8V on azimuth 243°52' and replace with frequency 5960.0V on azimuth 243°52'. Add point of communication, frequency 3770.0V on azimuth 293°06'.

3402–C1–P–70—MCI New England, Inc. (New), Kimball Towers, Springfield, Mass., at latitude 42°06'17" N., longitude 72°35'21" W. Delete frequencies 6019.3H and 6137.9H on azimuth 190°34'. Add frequencies 3770.0V on azimuth 101°19'.

3398–C1–P–70—MCI New England, Inc. (New), 25 Eddy Street, West Auburn, MA, at latitude 42°10'07" N., longitude 71°52'04" W. Add point of communication, frequency 11,175.0V on azimuth 26°44'.

3399–C1–P–70—MCI New England, Inc. (New), 340 Main Street, Worcester, MA, at latitude 42°15'55" N., longitude 71°48'08" W. Delete frequencies 6019.3H and 6137.9H on azimuth 206°47'. Add frequency 11,365.0V on azimuth 206°47'.

3328–C1–P–72—MCI New England, Inc. (New), 1.3 miles east of Bethlehem, Conn. Site relocated to latitude 41°38'10" N., longitude 73°10'33" W. Frequency 6152.8V on azimuth 59°13', and frequency 6063.8H on azimuth 202°55'.

1287–C1–P–72—Western Tele-Communications, Inc. (KSV37), coordinate change from latitude 48°00'41" N., longitude 114°21'46" W. to latitude 48°00'49" N., longitude 114°21'50" W. All other particulars the same as reported in Public Notice Report No. 561, dated Sept. 13, 1971.

FEDERAL MARITIME COMMISSION

[Docket No. 72–14]

MARINE AND MARKETING INTERNATIONAL CORP.

Order of Investigation and Suspension Regarding Reduced Rates on Automobiles From Miami and Jacksonville to San Juan, Puerto Rico

Marine and Marketing International Corp. has filed with the Federal Maritime Commission third revised page No. 43 to their Tariff FMC–F No. 1 to become effective April 12, 1972. This revised page proposes to provide reduced rates on automobiles from Miami and Jacksonville to San Juan, Puerto Rico.

Upon consideration of the revised page and the protests filed thereto, the Commission is of the opinion that the above designated tariff matter may be unfair and unreasonable, preferential to the Ports of Jacksonville and Miami, and prejudicial to other Atlantic ports or otherwise unlawful, and that a public investigation and hearing should be instituted to determine its lawfulness under sections 16, First, and 18(a) of the Shipping Act, 1916, and/or sections 3 and 4 of the Intercoastal Shipping Act, 1933; and good cause appearing therefor;

It is ordered, That pursuant to the authority of section 22 of the Shipping Act, 1916, and sections 3 and 4 of the Intercoastal Shipping Act, 1933, an investigation is hereby instituted into the

V 37:74 APR 15 72 XUM

lawfulness of said tariff matter with a view to making such findings and orders in the premises as the facts and circumstances warrant. In the event the matter hereby placed under investigation is further changed, amended or reissued, such matter will be included in this investigation. Moreover, the investigation shall consider whether such tariff matter, if effective, will constitute a preference to the Ports of Jacksonville and Miami and a prejudice to the other Atlantic ports in violation of section 16, First;

It is further ordered, That pursuant to section 3, Intercoastal Shipping Act, 1933, Marine and Marketing International Corp.'s third revised page No. 43 to its Tariff FMC–F No. 1 is suspended and the use thereof deferred to and including August 11, 1972, unless otherwise ordered by this Commission;

It is further ordered, That there shall be filed immediately with the Commission by Marine and Marketing International Corp. a consecutively numbered supplement to the aforesaid tariff which supplement shall bear no effective date, shall reproduce the portion of this order wherein the suspended matter is described and shall state the aforesaid matter is suspended and may not be used until August 12, 1972, unless otherwise authorized by the Commission; and the tariff matter heretofore in effect, and which was to be changed by the suspended matter, shall remain in effect during the period of suspension, and neither the matter suspended, nor the matter which is continued in effect as a result of such suspension, may be changed until this proceeding has been disposed of or until the period of suspension has expired, unless otherwise ordered by the Commission;

It is further ordered, That copies of this order shall be filed with the said tariff schedules in the Bureau of Compliance of the Federal Maritime Commission;

It is further ordered, That the provisions of Rule 12 of the Commission's rules of practice and procedure which require leave of the Commission to take testimony by deposition or by written interrogatory if notice thereof is served within 20 days of the commencement of the proceeding, are hereby waived for this proceeding inasmuch as the expeditious conduct of business so requires. The provisions of Rule 12(h) which require leave of the Commission to request admissions of fact and genuineness of documents if notice thereof is served within 10 days of commencement of the proceeding, are similarly waived;

It is further ordered, That Marine and Marketing International Corp., be named as respondent in this proceeding;

It is further ordered, That under the provisions of Rule 3(a) of the Commission's rules of practice and procedure, petitioners Sea-Land Service, Inc., Caride Hydro-Trailer, Inc., TMT Trailer Ferry, Inc., and Transamerican Trailer Transport, Inc., are hereby designated as complainants;

It is further ordered, That this proceeding be assigned for public hearing before an examiner of the Commission's Office of Hearing Examiners and that the hearing be held at a date and a place to be determined and announced by the presiding examiner;

It is further ordered, That a copy of this order shall forthwith be served on the respondent and complainants herein named; published in the FEDERAL REGISTER; and that the said respondent and complainants be duly served with notice of time and place of hearing.

All persons (including individuals, corporations, associations, firms, partnerships, and public bodies) having an interest in this proceeding and desiring to intervene therein, should notify the Secretary of the Commission promptly and file petitions for leave to intervene in accordance with Rule 5(1) of the Commission's rules of practice and procedure (46 CFR 502.72) with a copy to all parties to this proceeding.

By the Commission.

[SEAL] FRANCIS C. HURNEY, *Secretary.*

FEDERAL POWER COMMISSION

[Project 82–Alabama]

ALABAMA POWER CO.

Notice of Availability of Environmental Statement for Inspection

APRIL 7, 1972.

Notice is hereby given that on April 4, 1972, as required by § 2.81(b) of Commission regulations under Order 415–B (36 F.R. 22738, November 30, 1971) a draft environmental statement containing information comparable to an agency draft statement pursuant to section 7 of the Guidelines of the Council on Environmental Quality (36 F.R. 7724, April 23, 1971) was placed in the public files of the Federal Power Commission. This statement deals with an application by Alabama Power Co. pursuant to the Federal Power Act for relicense for Mitchell Project No. 82–Alabama.

This statement is available for public inspection in the Commission's Office of Public Information, Room 2523, General Accounting Office, 441 G Street NW., Washington, DC. Copies will be available from the National Technical Information Service, Department of Commerce, Springfield, Va. 22151.

The project consists of (1) a dam, approximately 106 feet high and 1,264 feet long, (2) a reservoir with surface area of about 5,850 acres, and (3) a powerhouse. The project presently has an installed capacity of 72,500 kw. The applicant proposes in its application to install an additional 80,000 kw.

Any person desiring to present evidence regarding environmental matters in this proceeding must file with the Federal Power Commission a petition to intervene, and also file an explanation of their environmental position, specifying any difference with the environmental statement upon which the intervenor wishes to be heard, including therein a discussion of the factors enumerated in § 2.80 of Order 415–B. Written statement by persons not wishing to intervene may be filed for the Commission's consideration. The petitions to intervene or comments should be filed with the Commission on or before 60 days from April 4, 1972. The Commission will consider all response to the statement.

MARY B. KIDD, *Acting Secretary.*

[FR Doc.72–5709 Filed 4–14–72;8:45 am]

[Docket No. RI72–172, etc.]

ATLANTIC RICHFIELD CO., ET AL.

Order Amending Suspension Orders

APRIL 7, 1972.

Atlantic Richfield Co., et al., Docket No. RI72–172, etc.; Humble Oil & Refining Co., et al., Docket No. RI72–177, etc.; Getty Oil Co., et al., Docket No. RI72–179, etc.

The Commission by orders issued February 4, 1972, in Docket No. RI72–172, et al., February 16, 1972, in Docket No. RI72–177, et al., and February 17, 1972, in Docket No. RI72–179, et al., suspended increased rates proposed by producers with respect to certain jurisdictional sales of natural gas for less than the full 5-month suspension period permitted, but not required, under section 4(e) of the Natural Gas Act. Those orders, however, do not provide for certification of the abbreviated suspension period pursuant to § 300.16(i)(3) of the Price Commission rules and regulations, 6 CFR Part 300 (1972). We shall therefore amend those orders so as to provide the necessary certification.

The Commission orders:

Each of the suspension orders herein is amended by the addition of the following paragraph:

CERTIFICATE OF ABBREVIATED SUSPENSION

Pursuant to § 300.16(i)(3) of the Price Commission rules and regulations, 6 CFR Part 300 (1972), the Federal Power Commission certifies as to the abbreviated suspension period in this order as follows:

(1) This proceeding involves producer rates which are established on an area rather than company basis. This practice was established by Area Rate Proceeding, Docket No. AR61–1, et al., Opinion No. 468, 34 FPC 159 (1965), and affirmed by the Supreme Court in Permian Basin Area Rate Case, 390 U.S. 747 (1968). In such cases as this, producer rates are approved by this Commission if such rates are contractually authorized and are at or below the area ceiling.

(2) In the instant case, the requested increases do not exceed the ceiling rate for a 1-day suspension.

(3) By Order No. 423 (36 F.R. 3464) issued February 18, 1971, this Commission determined as a matter of general policy that it would suspend for only 1 day a change in rate filed by an independent producer under section 4(d) of the Natural Gas Act (15 U.S.C. 717c(d)) in a situation where the proposed rate exceeds the increased rate ceiling but does not exceed the ceiling for a 1-day suspension.

(4) In the discharge of our responsibilities under the Natural Gas Act, this Commission has been confronted with conclusive evidence demonstrating a natural gas shortage. (See Opinion Nos. 595, 598, and 607, and Order No. 435.) In these circumstances and for the reasons set forth in Order No. 423 the Commission is of the opinion in this case that the abbreviated suspension authorized herein will be consistent with the letter and intent of the Economic Stabilization Act of 1970, as amended, as well as the rules and regulations of the Price Commission, 6 CFR Part 300 (1972). Specifically, this Commission is of the opinion that the authorized suspension is required to assure continued, adequate and safe service and will assist in providing for necessary expansion to meet present and future requirements of natural gas.

By the Commission.

[SEAL] MARY B. KIDD, *Acting Secretary.*

[Docket No. RP72–89]

COLUMBIA GAS TRANSMISSION CORP.

Order Permitting Late Petitions To Intervene To Be Filed, Permitting Interventions, and Establishing Hearing and Conference Procedures

APRIL 7, 1972.

By order issued January 14, 1972, in this proceeding, the Commission suspended until April 1, 1972, certain proposed revised tariff sheets[1] to Columbia Gas Transmission Corp.'s (Columbia) FPC Gas Tariff, Original Volume No. 1. These revisions to Columbia's tariff pertain, among other things, to maximum monthly volume limitations, curtailment procedures, overrun penalties, commodity rate adjustments, elimination of demand charge credit, and exclusion of the "free" day provisions in the CDS and G Rate Schedules for excess takes by customers.

Pursuant to our notice in this proceeding published in the FEDERAL REGISTER, petitions for and notices of intervention herein were due on or before January 5, 1972. Subsequent to that date petitions to intervene in this proceeding were filed by the Public Service Commission for the State of New York, jointly by the Commonwealth of Pennsylvania and Pennsylvania Public Utility Commission, and jointly by the Peoples Natural Gas Co. and West Ohio Gas Co.

All of the petitioners listed above have shown a legitimate interest in this proceeding. No protests to their petitions for leave to intervene have been received. Inasmuch as we are scheduling the prehearing conference herein at a future date, the participation of those requesting intervention out of time will not delay this proceeding and, consequently, we will accept those untimely tendered documents for filing.

In our order of January 14, 1972, we found that the proposed filing by Columbia should be suspended and the use thereof deferred. Columbia's proposal should now be tested by a public hearing to determine its reasonableness under the provisions of the Natural Gas Act. Accordingly, we will set forth the procedures for that hearing.

We conclude that Columbia should be required to submit evidence in support of its revised tariff provisions pertaining inter alia, to maximum monthly volume limitations, curtailment procedures, overrun penalties, commodity rate adjustments, elimination of demand charge credit, and exclusion of the "free" day provisions in the CDS and G Rate Schedules for excess takes by customers. We also believe that a conference should be held thereafter to endeavor to settle the issues raised herein. The evidence to be submitted by Columbia should include, among other things, backup supply, demand and other data upon which curtailment programs are based, the basis for the maximum monthly volumes, and the impact on each customer under the proposed curtailment program. The conference referred to above will be scheduled after the aforesaid evidence is distributed by Columbia. If the conference does not produce a settlement, we are directing the Examiner to proceed immediately to schedule the distribution of answering and rebuttal evidence and a hearing date for cross-examination.

The Commission finds:

(1) It is necessary and proper in the public interest and to aid in the enforcement of the provisions of the Natural Gas Act that the Commission enter upon a hearing concerning the lawfulness of the proposed changes in Columbia's FPC Gas Tariff and that the issues in this proceeding be scheduled for hearing in accordance with the procedures set forth herein.

(2) Good cause exists to permit the intervention of the above-named petitioners who filed late.

The Commission orders:

(A) Columbia shall distribute on or before May 8, 1972, the evidentiary support for the proposed tariff provisions pertaining to inter alia, maximum monthly volume limitations, curtailment procedures, overrun penalties, commodity rate adjustments, elimination of demand charge credit, and exclusion of the "free" day provisions in the CDS and G Rate Schedules for excess takes by customers, all as set forth in the recital above.

(B) Pursuant to the authority of the Natural Gas Act, particularly sections 4, 5, and 15 thereof, the Commission's rules of practice and procedure, and the regulations under the Natural Gas Act (18 CFR Ch. I), a public hearing shall be held in this proceeding on May 31, 1972, at 10 a.m., e.d.s.t., in a hearing room of the Federal Power Commission, 441 G Street NW., Washington, DC 20426, for the purpose of incorporating into the record the testimony and exhibits previously distributed. Immediately thereafter the Presiding Examiner will convene a conference and in the event that a settlement of the issues does not result from said conference, the Presiding Examiner will schedule dates for the distribution of such interveners and rebuttal evidence, and the date for the commencement of hearings for the purpose of cross-examination and will rule on all data requests or any other relevant matters presented at such hearing.

(C) All of the above-named petitioners are hereby permitted to intervene in this proceeding, subject to the rules and regulations of the Commission: *Provided, however,* That the participation of such interveners shall be limited to matters affecting rights and interests specifically set forth in the respective petitions to intervene, and: *Provided, further,* That the admission of such interveners shall not be construed as recognition by the Commission that they, or any of them, might be aggrieved because of any order or orders issued by the Commission in this proceeding.

(D) A Presiding Examiner to be designated by the Chief Examiner (See Delegation of Authority, 18 CFR 3.5(d)) shall preside at, and control these proceedings in accordance with the policies expressed in the Commission's rules of practice and procedure and the purposes expressed in this order.

By the Commission.

[SEAL] MARY B. KIDD, *Acting Secretary.*

[FR Doc.72–5712 Filed 4–14–72;8:45 am]

[Docket No. E–7682]

GULF STATES UTILITIES CO.

Order Authorizing Issuance of Promissory Notes, Granting Intervention, Granting Motion for Late Filing and Consolidation of Proceedings

APRIL 6, 1972.

Gulf States Utilities Co. (Applicant), a corporation organized under the laws of the State of Texas and doing business in the States of Texas and Louisiana, filed an application on November 22, 1971, seeking an order pursuant to section 204 of the Federal Power Act authorizing it to issue promissory notes to commercial banks and the commercial paper dealers in an aggregate principal amount not to exceed $125 million at any one time. The application requests that all notes be issued on or before December 31, 1972, with final maturity dates not later than December 31, 1973.

The interest rate on all notes to commercial banks will be at the prime rate of the lender in effect at the time of each borrowing. The interest cost of issuing commercial paper will be determined at the time it is issued and will be dependent upon money market conditions, length of time to its maturity, and acceptance by buyers of commercial paper. All commercial paper will have a

[1] Designated as First Revised Sheets Nos. 1, 18, 19, 20, 28, 29, 30, 33, 47, and 62 and Original Sheets Nos. 19A, 28A, 28B, 47A, 62A, 62B, 90, 91, 92, 93, and 94.

V 37-74 APR 15 72 XUM

maturity of not more than 9 months from the date of its issuance, and the aggregate amount of commercial paper to be outstanding at any one time will not exceed 50 percent of the Applicant's most recent 6 month's revenues from the sale of electricity, gas, and steam products.

Applicant states that the proceeds from the issuance of the notes will be added to the general funds for construction expenditures. The company plans to sell additional securities in the future and the application states:

The estimated construction program of the Applicant calls for expenditure of approximately $774,300,000 for the 5-year period 1971–1975. Of the funds required for this program it is estimated that approximately $292 million will be provided out of earnings not distributed in cash, depreciation accruals, and other sources as available over the 5-year period. About $482 million will be provided through the sale of additional securities of the Applicant, including short term financing.

Written notice of the application has been given to the Louisiana Public Service Commission, the Texas Railroad Commission and to the Governor of each of those States. Notice has also been given by publication in the FEDERAL REGISTER on December 14, 1971 (36 F.R. 23838), stating that any person desiring to be heard or to make any protest with reference to the application, should file petitions or protests on or before December 23, 1971, with the Federal Power Commission, Washington, D.C. 20426. On December 23, 1971, the cities of Lafayette and Plaquemine, La. (Cities) filed a protest and petition to intervene in the proceeding alleging violation of antitrust laws. The Cities incorporate by reference the protests and petitions to intervene filed by the Cities on November 2, 1970, in Docket No. E–7567, and September 30, 1971, in Docket No. E–7663.

The Cities petitions to intervene in Dockets Nos. E–7567 and E–7663 allege generally that the applicant along with Louisiana Power and Light Co. and Central Louisiana Electric Co. have engaged in a conspiracy to suppress and defeat an interconnection and pooling agreement between the Cities, Dow Chemical Co. and Louisiana Electric Corporative, Inc. (LEC). LEC is a generating and transmission cooperative financed by the Rural Electrification Administration (REA), and is made up of 12 electric distribution cooperatives all of which operate in Louisiana.

The petitions further allege that in September of 1964, the REA undertook to make a $56.5 million loan to LEC for construction of a 200 MW generating station with 1,611 miles of transmission lines through which the LEC could serve 8 of its 12 member cooperatives. Prior to this time, the three companies had been selling power to those cooperatives. According to the Cities the companies succeeded in delaying the actual use of the funds provided for more than 5 years, through a series of law suits filed by the companies themselves and by the companies attorneys on behalf of other putative plaintiffs.

Cities allege that in August 1968, the Cities, Dow, and LEC executed an interconnection and pooling agreement providing for the interconnection of their coordination arrangement, with a minimum term of 10 years. The agreement, approved by the REA administration on November 19, 1968, provided for a combined planning of load requirements for the Cities, the LEC members and Dow. It meant, according to the Cities, assurance of a market for all surplus capacity and secondary energy, as well as coordination, and substantial savings, in the construction of new generators, in sum, economies of scale, plus benefits in the form of back-up for each system and energy interchanges.

Cities further allege that by engaging in frivolous and repetitive litigation, and by mounting a public relations drive and lobbying effort against LEC, the three companies were able to hold up disbursement of the loan money until January 1969, when a new REA Administrator was sworn into office. This prevented the members of the new pool from going ahead with their agreement. Furthermore, a rise in cost during the 5 year delay raised a serious question whether the original loan would suffice to finance all of the LEC's generation and transmission needs. Therefore, the new Administrator advanced funds only for the LEC generating station, but not for transmission lines, and LEC was left to negotiate with the three companies for use of their transmission lines.

Cities contend that the conspiracy continued during these negotiations. They allege that the companies, while willing to supply transmission of power to some of the LEC members, refused to supply transmission services between pool members. They further allege that the companies demanded that LEC limit its power capacity to the 200 MW station already planned, and that the company supply all further power needs of the 12 cooperatives, thus concluding LEC expansion to serve its members-expanding load.

The Cities petition to intervene filed December 23, 1971, in this docket, further alleges as follows:

It further appears that Gulf has conspired or combined with other public utilities to withhold or prevent transmission to LEC and the Cities of preference power available to them through the marketing activities of the Southwestern Power Administration. Further, Gulf is a participant in the Southwest Power Pool (15 investor-owned electric utility companies as members, five other companies as supporting members, and three public power systems which are contributing members) and the South Central Electric Companies (11 investor-owned utility companies). It appears that the Cities have been excluded from or not afforded an opportunity to participate in, these groups. The former is a planning and coordination group, and the latter exclusively controls the interchange of power and energy with the Tennessee Valley Authority and provides a number of power pooling activities. The result of these exclusive regional organizations, together with intercompany contractual arrangements and other activities, result in limiting the possible interconnections of cities like Lafayette and Plaquemine to single investor-owned utilities without competition between the utilities, and prevent such cities from establishing any alternative pools such as that contemplated in the interconnection and pooling agreement among the Cities, LEC and DOW.

Based on the reasons set forth in their petition to intervene in Dockets Nos. E–7567, E–7663 and this docket the Cities request that they be admitted as full parties to this proceeding and that the Commission either (1) set this docket for hearing and combine it with the hearing in Docket No. E–7676 or (2) authorize the financing here sought subject to revocation if warranted by the facts which will be shown in the Docket No. E–7676.

On January 17, 1972, Dow Chemical Co. filed a motion for leave to file a late protest and petition to intervene and a protest and petition to intervene. Both the motion and the tendered protest and petition cite that Dow Chemical Co. was granted leave to intervene in Docket No. E–7676 by order issued January 7, 1972. The motion further cites that since no proceeding has yet commenced in the instant proceeding, no delay would be occasioned by granting Dow late intervention.

Dow's petition to intervene generally supports the Cities petition to intervene filed December 23, 1971, and requests that the Commission grant the relief requested by the Cities.

On January 3, 1972, Applicant filed an answer to the Cities' protest and petition to intervene generally denying all of the allegations as set forth in the Cities petition, and requested that the Commission deny the petition to intervene, without hearing, and issue an order approving the application for issuance of securities.

On January 21, 1972, Applicant filed an answer to Dow's motion for leave to file late protest and petition to intervene stating that Dow had not shown, or even alleged any extraordinary circumstances or good cause which is required to support authority for late filing under Federal Power Commission's Rules.

The application for authorization of securities filed by Applicant in this docket must be considered in the light of other previous proceedings. On October 12, 1971, the U.S. Court of Appeals for the District of Columbia Circuit issued a decision, city of Lafayette, Louisiana, v. S.E.C., CADC, No. 24,764 et al. wherein it remanded to the Commission for further proceedings not inconsistent therewith an order of the Commission in a prior financing proceeding involving Gulf States, because of a lack of findings on certain alleged violations to the antitrust laws. In doing so, the Court was aware that proceedings for authorization to issue securities "must be decided in a time frame much more limited than that often contemplated for antitrust litigation." (Slip op. at 23.) The court further noted the Commission may approve the entire application "if it stands ready to proceed with hearing and consideration of the anticompetitive issues."

Gulf States on September 7, 1971, filed an application seeking authority of the Federal Power Commission to issue additional securities. Based upon the Court's

decision on November 4, 1971, in Docket No. E–7663 the Commission authorized the issuance of the requested securities, granted intervention, but determined that the intervention of the cities should be considered as a complaint under section 306 of the Federal Power Act and simultaneously issued an order in Docket No. E–7676 accepting that petition as a complaint under 306 of the Federal Power Act and set the matter for hearing not only with regard to the activities of Gulf States Utilities Co., but also as to Louisiana Power & Light Co., and Central Louisiana Electric Co.

The Commission in its order issued November 4, 1971, in Docket No. E–7663 stated:

The Commission in reviewing Cities' contentions as set forth in their petition has done so in the light of its overall responsibilities under the Federal Power Act. The Commission is aware of its responsibilities with regards to interconnection and coordination of the facilities, for purposes of assuring an abundance of supply of electric energy throughout the United States with the greatest possible economy and with regard to proper utilization and conservation of natural resources. Further the Commission is aware of its responsibilities to enhance optimum interconnection and interchange of electric energy as well as other activities in furtherance of electric energy capabilities. All of the Commission's responsibilities being directed toward safeguarding cost, rates, and reliability.

At the same time the Commission realizes that security issues to provide funds for utility construction and financing programs must be decided in a time frame much more limited than that contemplated for consideration of the alleged anticompetitive activities.

With an awareness of its responsibilities the Commission, however, is unable to determine the merits of Cities' contention and the Commission's authority to grant relief sought without further proceedings and the benefit of a hearing in which evidence is presented and legal authority is cited to grant the relief sought.

The issues presented by the Cities and Dow in this proceeding involve the same subject matter as those presently being considered in Docket No. E–7676. The Commission therefore feels that it is appropriate to consider the petitions to intervene filed in this Docket as complaints under section 306 of the Federal Power Act and to consolidate those complaints with the complaints previously filed in Docket No. E–7676.

The Commission finds:

(1) The Applicant, a corporation, is a public utility within the meaning of section 204 of the Federal Power Act subject to the jurisdiction of this Commission as heretofore determined and set forth in the Commission order issued November 27, 1957, in the matter of Gulf States Utilities Co., Docket No. E–6785 (18 FPC 701).

(2) The proposed issuance of promissory notes to commercial banks and commercial paper dealers in the aggregate principal amount of $125 million, all as described above, will constitute an issuance of securities within the purview of section 204 of the Act.

(3) The proposed issuance of promissory notes will be in excess of 5 percent of the par value of the other securities of Applicant, and therefore, will not be exempt by virtue of section 204(e) from the requirements of section 204(a) of the Act.

(4) Applicant is not organized and operating in a State, under the laws of which the issue herein involved is regulated by a State Commission within the meaning of section 204(f) of the Act, and the proposed issuance is, therefore, not exempt by virtue of that Section from the requirements of section 204 of the Act.

(5) The proposed issuance of promissory notes will be exempted from the competitive bidding requirements of § 34.1a of the Commission's regulations under the Federal Power Act by reason of § 34.1a(a)(2) thereof.

(6) The proposed issuance of securities as hereinafter authorized, will be for a lawful object within the corporate purposes of the Applicant and compatible with the public interest, which is appropriate for and consistent with proper performance of service by Applicant as a public utility, and which will not impair its ability to perform that service, and is reasonably necessary and appropriate for such purposes.

(7) The period of public notice given in this matter is reasonable.

(8) Sufficient good cause exists for granting Dow Chemical Co.'s motion for leave to file a late protest and petition to intervene.

(9) Intervention by the cities of Lafayette and Plaquemine, La., and Dow Chemical Co., may be in the public interest for purposes of Commission consideration of the petitions.

(10) The matters asserted and activities alleged in the filed protest and petitions to intervene by the cities of Lafayette and Plaquemine, La., and Dow Chemical Co., raise issues which should be heard in a proceeding separate from this docket.

(11) The protest and petitions to intervene filed in this docket by the cities of Lafayette and Plaquemine, La., and Dow Chemical Co. should be considered as a complaint filed under section 306 of the Federal Power Act.

(12) The protest and petitions to intervene filed in this docket by Lafayette and Plaquemine, La., and Dow Chemical Co. raise issues which are identical to those being considered in Docket No. E–7676, a complaint proceeding now before the Commission, and is therefore appropriate that the complaints filed in this docket should be consolidated with Docket No. E–7676 for purposes of hearing and decision.

The Commission orders:

(A) Dow Chemical Co.'s motion for leave to file late protest and petition, filed January 17, 1972, is hereby granted.

(B) The above-mentioned petitioners are hereby permitted to intervene in this proceeding subject to the rules and regulations of the Commission: *Provided, however,* The admission of the aforementioned petitioners shall not be construed as recognition by the Commission that the petitioners might be aggrieved because of any order or orders of the Commission entered in this proceeding.

(C) The proposed issuance and sale of promissory notes upon the terms and conditions and for the purposes specified in the application as described above, is hereby authorized subject to the provisions of this order.

(D) This authorization is expressly conditioned upon all notes being issued on or before December 31, 1972, and having final maturity dates of not later than December 31, 1973.

(E) This authorization is expressly conditioned upon all promissory notes being issued in the form of commercial paper not exceeding 50 percent of the Applicant's most recent 6 months revenues from the sale of electricity, gas, and steam products.

(F) The foregoing authorization is without prejudice to the authority of this Commission or any other regulatory body with respect to rates, service, accounts, valuation, estimates, or determination of cause or any other matter whatsoever now pending or which may come before this Commission.

(G) Nothing in this order shall be construed to imply any guarantee or obligation on the part of the United States in respect to any security to which this order relates.

(H) Pursuant to the authority of the Federal Power Act, particularly sections 202, 306, and 307 thereof in the Commission's rules of practice and procedure, an investigation is hereby instituted to determine the justification of the protest and petitions to intervene by the cities of Lafayette and Plaquemine, La., and Dow Chemical Co. and, if necessary, to prescribe such relief as is appropriate within the boundaries of the Federal Power Act.

(I) All further proceedings in this docket shall be consolidated with the complaint proceeding previously instituted in Docket No. E–7676.

(J) Inasmuch as Louisiana Power and Light Co. and Central Louisiana Electric Co. as well as Gulf State Utilities Co. were named as parties in Docket No. E–7676, with which this proceeding will be consolidated, a copy of the cities and Dow's complaints shall be served on Louisiana Power and Light Co. and Central Louisiana Electric Co. and their response thereto shall be filed with the Commission within 15 days from the date of issuance of this order.

By the Commission.

[SEAL] MARY B. KIDD, *Acting Secretary.*

[FR Doc.72–5710 Filed 4–14–72;8:45 am]

NATURAL GAS PIPELINE COMPANY OF AMERICA

Order Granting Intervention and Amending Previous Order

APRIL 3, 1972.

On February 4, 1972, the Commission issued an order consolidating proceedings, granting interventions, and setting procedures and dates in the above-docketed proceeding. Hearings began on

V 37-74 APR 15 72 XUM

March 6, 1972, and were subsequently recessed to recommence on April 19, 1972.

On February 14, 1972, Shell Oil Co. filed a petition for leave to intervene in these proceedings. Although this petition was not timely filed, we find that good cause exists to grant this petition and that in light of the procedural status of this case the intervention of the above-named petitioner will not delay this proceeding.

In the above-mentioned order of February 4, 1972, we mistakenly referred to the Iowa Electric Light & Power Co. as the Iowa Electric Gas Light & Coke Co., and we also mistakenly referred to the Mississippi River Transmission Corp. as Mississippi Power Transmission Corp. We hereby correct these errors in the order of February 4, 1972. We also acknowledge the notice of intervention filed November 10, 1971, by the Public Utilities Commission of Ohio. Acknowledgment of this notice was omitted from the February 4, 1972, order.

The Commission finds:

(1) It is desirable to allow the above-named petitioner to intervene in these proceedings.

(2) It is desirable to amend the order issued on February 4, 1972, in this docket to reflect the changes described above.

The Commission orders:

(A) The above-named petitioner is permitted to intervene in these proceedings subject to the rules and regulations of the Commission: *Provided, however,* That the participation of such intervenor shall be limited to matters affecting asserted rights and interests specifically set forth in the petition to intervene. *And provided, further,* That the admission of such intervenor shall not be construed as recognition by the Commission that they or any of them might be aggrieved by any order or orders entered in these proceedings.

(B) The above-designated errors and omissions in the February 4, 1972, order are corrected.

By the Commission.

[FR Doc.72-5714 Filed 4-14-72;8:46 am]

[Docket No. RP72-113]

COLORADO INTERSTATE GAS CO.

Notice of Proposed Changes in Rates and Charges

APRIL 13, 1972.

Take notice that Colorado Interstate Gas Co. (CIG) on March 31, 1972, tendered for filing proposed changes in its First Revised Volume No. 1 of CIG's FPC Gas Tariff.[1] The proposed changes would increase revenue from jurisdictional customers by $7,447,435 above the present rates being collected subject to refund in Docket No. RP72-4 or $10,772,275 above the settlement rates in that docket. The proposed rate change is described in the company's transmittal letter as follows:

This filing reflects a general increase in CIG's rates charged to its jurisdictional customers, except for its PS-1 Rate Schedule. The total annual amount of the proposed increase is $7,447,435 above the present rates being collected subject to refund in Docket No. RP72-4 or $10,772,275 above the proposed settlement rates in that docket. It is proposed that the rates become effective May 1, 1972. However, since CIG's settlement agreement in Docket No. RP72-4, awaiting approval by the Commission, provides that CIG shall not file for a general increase in its jurisdictional rates which will become effective under section 4(e) of the Natural Gas Act prior to October 1, 1972, CIG is making this filing with the expectation that the proposed increased rates will be suspended for the full 5-month statutory period, or until Oct. 1, 1972.

This filing includes tariff sheets applicable to a proposed new paragraph 20, to be included in the General Terms and Conditions of CIG's presently effective FPC Gas Tariff, which incorporates purchased gas adjustment provisions designed to recover, on an annual basis, CIG's actual purchased gas costs. A companion provision providing for flow-through of refunds received from suppliers is also included. To enable incorporation of these provisions in its Tariff, CIG respectfully requests that the Commission waive the provisions of section 154.38(d)(3) of its regulations under the Natural Gas Act.

This filing gives effect to the construction and operation of facilities certificated by the Commission in Docket No. CP71-319 (Big Horn Basin supply project) and those facilities for which application for a certificate of public convenience and necessity is pending before the Commission in Docket No. CP72-170. Test period annual volumes reflect an allocation of annual sales among jurisdictional and nonjurisdictional customers which results from the necessity of limiting the total volume of annual sales to a level which can prudently be supported from existing supplies.

Docket No. CP72-170 facilities will enable CIG to expand its transmission system capacity by approximately 46,200 Mcf per day. Assuming timely authorization by the Commission, construction of the proposed facilities is scheduled for completion by October 1, 1972. No customer of CIG has objected to the proposed expansion. Mountain Fuel Supply Co., however, with which CIG presently exchanges gas under an agreement which terminates in 1973, has petitioned to intervene in Docket No. CP72-170 and, although its petition states no objection to the authority there sought, has requested a hearing.

CIG requests the Commission waive the provisions of section 154.63(e)(2)(ii) of its regulations under the Natural Gas Act to the extent required to permit the facilities for which authorization is pending in Docket No. CP72-170 to be reflected in this filing. The rates contained in this filing are required to compensate CIG for its cost of service whether or not the Commission authorizes the facilities proposed in Docket No. CP72-170. The effect of eliminating those facilities from this filing is demonstrated in tabulations attached to the company's transmittal letter.

Copies of this filing have been mailed to the customers of CIG and interested public bodies.

Any person desiring to be heard or to protest said application should file a petition to intervene or protest with the Federal Power Commission, 441 G Street NW., Washington, DC 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before April 21, 1972. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this application are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB, *Secretary.*

FEDERAL RESERVE SYSTEM

MIDLANTIC BANKS INC.

Order Approving Acquisition of Bank

Midlantic Banks Inc., Newark, N.J., has applied for the Board's approval under section 3(a)(3) of the Bank Holding Company Act (12 U.S.C. 1842(a)(3)) to acquire 100 percent (less director's qualifying shares) of the voting shares of Citizens National Bank, Englewood, N.J.

Notice of receipt of the application has been given in accordance with section 3(b) of the Act, and the time for filing comments and views has expired. The Board has considered the application and all comments received in light of the factors set forth in section 3(c) of the Act (12 U.S.C. 1842(c)).

On the basis of the record, the application is approved for the reasons set forth in the Board's Statement[1] of this date. The transaction shall not be consummated (a) before the 30th calendar day following the date of this order or (b) later than 3 months after the date of this order, unless such period is extended for good cause by the Board, or by the Federal Reserve Bank of New York pursuant to delegated authority.

By order of the Board of Governors,[2] April 7, 1972.

[SEAL] TYNAN SMITH, *Secretary of the Board.*

[FR Doc.72-5729 Filed 4-14-72;8:46 am]

[1] Filed as part of the original document. Copies available upon request to the Board of Governors of the Federal Reserve System, Washington, D.C. 20551, or to the Federal Reserve Bank of New York. Dissenting Statement of Governors Robertson, Maisel, and Brimmer also filed as part of the original document and available upon request.

[2] Voting for this action: Chairman Burns and Governors Mitchell, Daane, and Sheehan. Voting against this action: Governors Robertson, Maisel, and Brimmer.

UNITED CAROLINA BANCSHARES CORP.

Proposed Acquisition of United Carolina Life Insurance Co.

United Carolina Bancshares Corp., Whiteville, N.C., has applied, pursuant to section 4(c)(8) of the Bank Holding Company Act (12 U.S.C. 1843(c)(8)) and § 225.4(b)(2) of the Board's Regulation Y, for permission to acquire voting shares of United Carolina Life Insurance Company, Phoenix, Ariz. Notice of the application was published on March 6, 1972, in the News Reporter, a newspaper circulated in Whiteville, N.C., and on March 7, 1972, in the Arizona Weekly Gazette, a newspaper circulated in Phoenix, Ariz.

Applicant states that the proposed subsidiary would engage in the underwriting, as reinsurer, of credit life insurance and credit accident and health insurance issued in connection with loans made by Applicant's credit-granting subsidiaries.

Interested persons may express their views as to whether such activities are so closely related to banking or managing or controlling banks as to be a proper incident thereto. In considering this application the Board will take into account the record of its March 24, 1972 hearing on six similar applications by other applicants involving the underwriting of credit life and health and accident insurance.

Interested persons may also express their views on the question whether consummation of the proposal can "reasonably be expected to produce benefits to the public, such as greater convenience, increased competition, or gains in efficiency, that outweigh possible adverse effects such as undue concentration of resources, decreased or unfair competition, conflicts of interests, or unsound banking practices."

Any request for a hearing on these matters should be accompanied by a statement summarizing the evidence the person requesting the hearing proposes to submit or to elicit at the hearing and a statement of the reasons why these matters should not be resolved without a hearing.

The application may be inspected at the offices of the Board of Governors or at the Federal Reserve Bank of Richmond.

Any views or requests for hearing should be submitted in writing and received by the Secretary, Board of Governors of the Federal Reserve System, Washington, D.C. 20551, not later than May 9, 1972.

Board of Governors of the Federal Reserve System, April 10, 1972.

[SEAL] MICHAEL A. GREENSPAN, *Assistant Secretary.*

PRICE COMMISSION

[Order 8]

CHAIRMAN, PRICE COMMISSION

Delegation of Authority Concerning Stabilization of Prices and Rents

Pursuant to the Economic Stabilization Act, as amended (Public Law 92-210), Executive Order No. 11640 (37 F.R. 1213) and Cost of Living Council Orders Nos. 4 (36 F.R. 20202) and 7 (37 F.R. 2727) and the authority vested thereunder in the Price Commission and its Chairman, and in order to facilitate the prompt and efficient performance of the functions of the Commission and of the Chairman exercising the legal authority of the Commission and to provide further guidance to the public, the Commission hereby confirms the following delegations of authority:

V 37-74 APR 15 72 XUM

(a) Full authority is delegated to the Chairman to act on behalf of the Commission when the Commission is not in session, subject to the general policy guidance of the Commission.

(b) There is also delegated to the Chairman authority to—

(1) Make decisions and issue orders with respect to individual requests for price or rent increases or adjustments;

(2) Review and determine correctness of reported price or rent increases or adjustments and issue appropriate orders with respect thereto;

(3) Enter into term limit pricing agreements or other arrangements provided for under Price Commission procedures or regulations;

(4) Make decisions and issue orders with respect to individual requests for exceptions;

(5) Conduct public or private investigations, examinations, hearings, conferences or other proceedings and make findings and determinations in connection with Price Commission functions;

(6) Order enforcement actions related to noncompliance with Price Commission regulations or orders;

(7) Interpret the rules and guidelines of the Commission and the laws to which the Commission is subject;

(8) Advise and recommend with respect to litigation concerning the Commission in all State or Federal courts, and represent the Commission in that litigation;

(9) Administer the allocations of funds from the Cost of Living Council to the Price Commission;

(10) Place orders for supplies, materials, and services from the General Services Administration, enter into Price Commission contracts and interagency agreements, effect personnel actions, authorize travel and publications, and perform other ministerial and administrative functions in accordance with applicable laws and regulations;

(11) Certify any Price Commission documents and statements;

(12) Sign regulations, orders, notices and other documents to be published in the FEDERAL REGISTER.

(c) The Chairman is further authorized to organize the Price Commission staff and to redelegate to Price Commission personnel any authority delegated to him in this order.

(d) The delegated authority to perform any function of the Commission heretofore performed by any person to whom authority is or may be delegated hereunder is hereby ratified and confirmed.

Issued in Washington, D.C., on April 11, 1972.

By order of the Commission.

C. JACKSON GRAYSON, JR.,
Chairman.

[Order 4]

EXECUTIVE DIRECTOR, GENERAL COUNSEL, AND DIRECTORS OF PROGRAM OPERATIONS AND EXCEPTIONS REVIEW

Delegation of Authority

Pursuant to the provisions of the Economic Stabilization Act, as amended (Public Law 92-210), Executive Order No. 11640 (37 F.R. 1213), Cost of Living Council Orders No. 4 (36 F.R. 20202) and No. 7 (37 F.R. 2727), delegations of authority thereunder, and Price Commission Order No. 3:

(a) I hereby delegate authority to the Executive Director of the Price Commission to supervise and administer the staff of the Commission and to execute its decisions and orders, including, without limitation, the authority to—

(1) Administer funds received from the Cost of Living Council or other sources for the purpose of the Commission;

(2) Place orders for supplies, materials, and services from the General Services Administration, enter into Price Commission contracts and interagency agreements, authorize travel and publications, certify Price Commission statements and documents, and effect all other ministerial and administrative functions in accordance with applicable laws and regulations;

(3) Make decisions and issue orders with respect to individual requests for price or rent increases or adjustments involving a dollar impact of less than $10 million;

(4) Make decisions and issue orders with respect to individual requests for exceptions;

(5) Review and determine correctness of reported price or rent increases or adjustments and issue appropriate orders with respect thereto, in cases involving a dollar impact of less than $10 million;

(6) Order and supervise investigations to determine whether persons are in compliance with the regulations, decisions and orders of the Commission;

(7) Effect all personnel actions; and

(8) When the Chairman is absent from Washington, D.C., make decisions and issue orders with respect to matters covered by subparagraphs (3) and (5) of this paragraph, without regard to impact or amount.

(b) I hereby delegate authority to the General Counsel to—

(1) Represent the Price Commission in all litigation, and recommend procedures to the Department of Justice with respect thereto;

(2) Make recommendations to the Department of Justice as to the prosecution of violations of the rules and decisions of the Price Commission and as to the handling of all other court proceedings relating to the Commission and its rules and decisions;

(3) Issue legal opinions and interpretations of the regulations, decisions, and orders of the Price Commission and on all other laws relating thereto;

(4) Sign, for FEDERAL REGISTER publication, regulations, orders, rulings, notices, and other Price Commission documents; and

(5) Consider and decide all appeals from adverse determinations by the Internal Revenue Service.

(c) I hereby delegate authority to the Director of Program Operations, subject to the authority of the Executive Director, to—

(1) Make decisions and issue orders with respect to individual requests for price or rent increases or adjustments involving a dollar impact of less than $10 million and a percentage of price increase on sales of less than 5 percent, and those involving less than $5 million, regardless of the percentage of price increase on sales;

(2) Review and determine correctness of reported price or rent increases or adjustments and issue appropriate orders with respect thereto; and

(3) Conduct investigations, conferences, or hearings with respect to the foregoing, and take sucl. further action as may appear necessary in connection therewith.

(d) I hereby delegate authority to the Director of Exceptions Review, subject to the authority of the Executive Director, to—

(1) Make decisions and issue orders with respect to individual requests for exceptions in cases in which the requesting party has annual gross revenues of $50 million or less and in rent cases involving less than 100 units; and

(2) Conduct investigations, conferences, or hearings with respect to the foregoing and take such further action as may appear necessary in connection therewith.

(e) The Executive Director may redelegate any authority delegated to him by this order to other Price Commission personnel.

(f) The General Counsel may redelegate any authority delegated to him by this order to the Deputy General Counsel.

(g) The Director of Program Operations or the Director of Exceptions Review may redelegate any authority delegated to him by this order to the Deputy Director or any Assistant Director of his office.

(h) The delegated authority to perform any function heretofore performed by any person to whom authority is or may be delegated hereunder is hereby ratified and confirmed.

Issued in Washington, D.C., on April 11, 1972.

C. JACKSON GRAYSON, JR.,
Chairman.

DEPUTY EXECUTIVE DIRECTOR

Delegation of Authority

Pursuant to the authority delegated to me by the Chairman of the Price Commission in Price Commission Order No. 4, I hereby delegate authority to the Deputy Executive Director to—

(a) Make decisions and issue orders with respect to individual requests for price or rent increases or adjustments involving a dollar impact of less than $10 million;

(b) Make decisions and issue orders with respect to individual requests for exceptions;

(c) Review and determine correctness of reported price or rent increases or adjustments and issue appropriate orders with respect thereto, in cases involving a dollar impact of less than $10 million;

(d) Order and supervise investigations to determine whether persons are in compliance with the regulations, decisions, and orders of the Commission; and

(e) When the Chairman and the Executive Director are both absent from Washington, D.C., make decisions and issue orders with respect to matters covered by paragraphs (a) and (c) of this order, without regard to impact or amount.

Issued in Washington, D.C., on April 11, 1972.

BERT LEWIS,
Executive Director.

[FR Doc.72-5825 Filed 4-14-72;8:50 am]

DEPUTY GENERAL COUNSEL

Delegation of Authority

Pursuant to the authority delegated to me by the Chairman of the Price Commission in Price Commission Order No. 4, I hereby delegate to the Deputy General Counsel authority to—

(a) Represent the Price Commission in all litigation, and recommend procedures to the Department of Justice with respect thereto;

(b) Make recommendations to the Department of Justice as to the prosecution of violations of the rules and decisions of the Price Commission and as to the handling of all other court proceedings relating to the Commission and its rules and decisions;

(c) Issue legal opinions and interpretations of the regulations, decisions and orders of the Price Commission and on all other laws relating thereto;

(d) Sign, for FEDERAL REGISTER publication, regulations, orders, rulings, notices, and other Price Commission documents; and

(e) Consider and decide all appeals from adverse determinations by the Internal Revenue Service.

Issued in Washington, D.C., on April 11, 1972.

W. DAVID SLAWSON,
General Counsel.

SECURITIES AND EXCHANGE COMMISSION

[File No. 24NY-7219]

CJA INDUSTRIES, INC.

Order Temporarily Suspending Exemption, Statement of Reasons Therefor, and Notice of Opportunity for Hearing

APRIL 11, 1972.

I. CJA Industries, Inc. (CJA) is a New York corporation located at 17 Ralph Avenue, Copiague, NY. On October 13, 1970 it filed a notification pursuant to Regulation A in connection with a proposed offering of 150,000 shares of its $0.05 par value common stock at $2 per share.

The offering was conducted by E. P. Seggos & Co., Inc. (Seggos), a registered broker-dealer having its principal place of business in New York City, as underwriter on a best efforts "100,000 shares or none" basis. The offering commenced on March 24, 1971, and was completed on June 13, 1971.

According to its offering circular, CJA was to engage in the businesses of silk screen printing of advertising messages, display material and signs, research and development of specialized electronic devices designed to aid physicians and hospitals, and an advertising service company to seek to develop a market for the sale of advertising space on commercial vehicles.

II. The Commission, on the basis of information reported to it by the staff, has reasonable cause to believe that:

A. The offering circular contains untrue statements of material facts and omits to state material facts necessary in order to make the statements made, in light of the circumstances under which they were made, not misleading, particularly with respect to:

(1) The amount of the proceeds of the offering to be allocated to ADCO Advertising, Inc., a subsidiary of CJA;

(2) The amount of the proceeds of the offering to be allocated to Aristocrat Screen Process, Inc., a subsidiary of CJA;

(3) The amount of the proceeds of the offering to be allocated for laboratory construction and the purchase of instrumentation;

(4) The repayment of corporate indebtedness, including loans made by officers of CJA, with the proceeds of the offering; and

(5) The use of a portion of the proceeds of the offering to make a loan to the underwriter and the risks inherent in such a loan.

B. Based on the foregoing, the use of the offering circular by the issuer and underwriter operated as a fraud and deceit upon purchasers of the securities in violation of section 17(a) of the Securities Act of 1933, as amended.

III. It appearing to the Commission that it is in the public interest and for the protection of investors that the exemption of the issuer under Regulation A be temporarily suspended,

It is further ordered, Pursuant to Rule 7 of the Commission's rules of practice, that the issuer file an answer to the allegations contained in this order within 30 days of the entry thereof.

Notice is hereby given that any person having any interest in the matter may file with the Secretary of the Commission a written request for a hearing within 30 days after the entry of this order; that within 20 days after receipt of such request the Commission will, or at any time upon its own motion, may, set the matter down for hearing at a place to be designated by the Commission for the purpose of determining whether this order of suspension should be vacated or made permanent, without prejudice, however, to the consideration and presentation of additional matters at the hearing; and that notice of the time and place for said hearing will be promptly given by the Commission. If no hearing is requested and none is ordered by the Commission, the order shall become permanent on the 30th day after its entry and shall remain in effect unless it is modified or vacated by the Commission.

By the Commission.

[SEAL] RONALD F. HUNT,
Secretary.

V 37-74 APR 15 72 XUM

[70-5177]

CONSOLIDATED NATURAL GAS CO. ET AL.

Notice of Proposed Acquisition by Registered Holding Company of Common Stock of Two New Nonutility Subsidiary Companies Organized to Facilitate Development of System Gas Supplies in Canada

APRIL 11, 1972.

Notice is hereby given that Consolidated Natural Gas Co. (Consolidated), 30 Rockefeller Plaza, New York, NY 10020, a registered holding company, and two newly organized nonutility companies which are to become wholly owned subsidiaries of Consolidated, have filed with this Commission an application-declaration and an amendment thereto pursuant to the Public Utility Holding Company Act of 1935 (Act), designating sections 6(b), 9, 10, and 12 of the Act and Rules 43, 44, and 45 promulgated thereunder as applicable to the proposed transactions. All interested persons are referred to the amended application-declaration, which is summarized below, for a complete statement of the proposed transactions.

As part of Consolidated's program to increase the System's future gas supplies, Consolidated Gas Supply Corp. (Supply Corporation), a wholly owned, nonutility subsidiary of Consolidated, has entered into three agreements, hereinafter described, to participate in the development of gas reserves in Canada. To facilitate the Canadian program, Consolidated has organized two new companies to which will be variously assigned the rights and obligations under the agreements. These new companies are CNG Producing Co. (CNG Company), a Delaware corporation, and CNG Development Co., Ltd. (CNG Limited), 4 Gateway Center, Pittsburgh, Pa. 15222, organized under the laws of the Province of Alberta, Canada. It is represented that the agreements involve leases in Canadian Federal lands and in land in the western provinces of Canada, particularly Alberta; that the formation of CNG Limited was necessary to comply with Canadian Federal law which would not allow a U.S. corporation to hold leases, or interests therein, on Federal lands; that were CNG Limited also to engage in development of and acquire interests in non-Federal lands it would be disqualified under the U.S. Internal Revenue Code from joining in consolidated tax returns with the Consolidated System companies; and that for this reason (and because Supply Corporation cannot qualify to do business in Alberta) CNG Company was formed to operate in the non-Federal lands.

To enable the two new companies to meet their financial obligations through May 1973, as assignees under the agreements, Consolidated proposes to acquire for cash out of its general funds capital stock of the companies as follows:

(a) From CNG Limited: 56,000 shares with a par value of $100 (Canadian) per share. The proceeds will be used by CNG Limited to meet obligations totaling Can. $5,400,000 under two agreements assigned to it, and for other corporate purposes.

(b) From CNG Company: 50,000 shares with a par value of $100 per share. CNG Company will use the proceeds to meet obligations, which could reach $4,900,000, under the agreement assigned to it and for other corporate purposes.

A summary of the three Agreements entered into by Supply Corporation follows:

(1) CanDel Agreement, dated October 22, 1971, among Supply Corporation, CanDel Oil, Ltd. (CanDel), El Paso Canada Petroleum, Ltd. (part of El Paso Natural Gas System), and Texas Gas Exploration, Ltd. (part of Texas Gas Transmission System). This involves a joint exploration and drilling venture in various prospective areas located principally in the Mackenzie River region of the Northwest Territories, and in the Yukon Territory, of Canada. CanDel proposes to obtain the bulk of the drilling acreage in the prospective areas by negotiating "farmouts" with other companies, and has already entered into a farmout arrangement covering 4.1 million acres with Mobil Oil Canada, Ltd., a subsidiary of Mobil Oil Co. In addition, CanDel is to contribute exploratory acreage it now holds and subsequently acquires. It is stated that although drilling operations as a whole have thus far been sparse, potential gas reserves in the western sedimentary basin of Canada (of which the Northwest Territories and Yukon Territory form a large part) are estimated by the Canadian Petroleum Association at 270 trillion cubic feet. CanDel will be the project manager, with the other participants having an equal voice in the operation. The four participants including CanDel are obligated to provide the project with an aggregate of $5 million per year for 5 years, or a total of $25 million. CNG Limited, as successor to Supply Corporation, will be obligated to provide 30 percent, or $7.5 million of the total, at the rate of $1.5 million per year, for exploratory work. Additional funds for development work will be required later if reserves in commercial quantity are found. CNG Limited will be entitled to earn a 30-percent working interest in the project, subject to reduction to 24 percent in the event that CanDel exercises an option set out in the agreement.

(2) Dome Agreement, dated November 11, 1971, between Supply Corporation, Texas Gas Exploration, Ltd., and Panhandle Canadian Gas, Ltd. (part of the Panhandle Eastern Pipeline Co. System)—hereinafter, the "Companies"—and Dome for the exploration of 7,500,000 acres, in which Dome owns varying working interests, in the Canadian Arctic Islands. Dome, as operator, will drill all exploratory and development wells; each of the Companies, which will have an equal voice in the operation, is obligated to provide Dome with $10 million ($30 million total) over a 5-year period subject to a 5-year extension if the Companies commit an additional $2 million each annually. The $30 million commitment is for exploratory work, in return for which the Companies will have a competitive call on gas developed plus an aggregate 1 percent working interest in Dome's interest in the subject acreage. The subsequent cost of development work is to be borne one-quarter by Dome and three-quarters by the Companies. All funds provided by the Companies for exploration and development drilling will be repaid, together with the 7 percent simple interest thereon, by Dome from 20 percent of Dome's net revenues derived from the sale of production accruing from the project. The Dome Agreement of November 11, 1971, is to be replaced by a Partnership Agreement and a Marketing Agreement. It is contemplated that, as successors to Supply Corporation, CNG Limited will execute the Partnership Agreement and CNG Company will execute the Marketing Agreement. The filing states further that three major gas discoveries have been made in the Canadian Arctic Islands within the last 2 years—at Melville, King Christian, and Ellef Ringnes Islands—and that although proved gas reserves have not yet been established, the potential reserves are estimated to be substantial.

(3) Sulpetro Agreement, dated November 30, 1971, has been executed between Supply Corporation and Sulpetro of Canada, Ltd. (Sulpetro); it is to be superseded by a formal partnership agreement and will be assigned to CNG Company. Exploratory drilling will be done on 609,000 acres in Alberta, Canada, in which Sulpetro presently controls a working interest, and on additional acreage to be obtained by Sulpetro in western Canada. CNG Company will be obligated to provide Sulpetro with a total of $5 million in 1972 and 1973, and in return will receive a 50 percent undivided interest in the subject acreage. CNG Company will have the option to extend the agreement for an additional 3 years by contributing $2.5 million in each of those years for exploration. After production is found, all further development costs will be shared equally by Sulpetro and CNG Company. In addition to its working interest, CNG Company will have a competitive call on all other gas from areas developed under the agreement, subject to reservations of any third parties that may be applicable; and CNG Company will also have the initial rights to market all, or its share, of gas and oil developed by the program.

It is further stated that the exportation of gas from Canada is subject to the grant of export licenses from Canada's National Energy Board; that no State commission and no Federal commission, other than this Commission, has jurisdiction over the proposed transactions; and that the fees and expenses to be incurred in connection with the proposed transactions are estimated at $10,500, including $1,000 for services of counsel in Canada.

Notice is further given that any interested person may, not later than April 26, 1972, request in writing that a hearing be held on such matter, stating the nature of his interest, the reasons for such request, and the issues of fact or law raised by said application-declaration which he desires to controvert; or he may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request should be served personally or by mail (airmail if the person being served is located more than 500 miles from the point of mailing) upon the applicant-declarants at the above-stated addresses and proof of service (by affidavit or, in case of an attorney at law, by certificate) should be filed with the request. At any time after said date, the application-declaration, as amended or as it may be further amended, may be permitted to become effective as provided in Rule 23 of the general rules and regulations promulgated under the Act, or the Commission may grant exemption from its rules as provided in Rules 20(a) and 100 thereof or take such other action as it may deem appropriate. Persons who request a hearing or advice as to whether a hearing is ordered will receive notice of further developments in this matter, including the date of the hearing (if ordered) and any postponements thereof.

For the Commission, by the Division of Corporate Regulation, pursuant to delegated authority.

[SEAL] RONALD F. HUNT, *Secretary.*

GRIMES CONSOLIDATED, INC.

Order Suspending Trading

APRIL 11, 1972.

It appearing to the Securities and Exchange Commission that the summary suspension of trading in the common stock, $2 par value, of Grimes Consolidated, Inc. being traded otherwise than on a national securities exchange is required in the public interest and for the protection of investors:

It is ordered, Pursuant to section 15(c)(5) of the Securities Exchange Act of 1934, that trading in such securities otherwise than on a national securities exchange be summarily suspended, this order to be effective for the period from 4 p.m., e.s.t. April 11, 1972, through April 20, 1972.

By the Commission.

[70-5184]

GULF POWER CO.

Notice of Proposed Issue and Sale of First Mortgage Bonds and Preferred Stock at Competitive Bidding

APRIL 11, 1972.

Notice is hereby given that Gulf Power Co. (Gulf), 75 North Pace Boulevard, Pensacola, FL 32502, an electric utility subsidiary company of the Southern Co., a registered holding company, has filed an application with this Commission pursuant to the Public Utility Holding Company Act of 1935 (Act), designating section 6(b) of the Act and Rule 50 promulgated thereunder as applicable to the following proposed transactions. All interested persons are referred to the application, which is summarized below, for a complete statement of the proposed transactions.

Gulf proposes to issue and sell, subject to the competitive bidding requirements of Rule 50 under the Act, $22 million principal amount of its First Mortgage Bonds, _____ percent Series, to mature not less than 5 years and not more than 30 years from the second day of the calendar month within which the bonds were issued. Gulf will decide on the maturity of the bonds and notify prospective bidders not less than 72 hours prior to the time of the bidding. The interest rate (which shall be a multiple of ⅛ percent) and the price, exclusive of accrued interest, to be paid to Gulf (which shall be not less than 99 percent nor more than 102¾ percent of the principal amount thereof) will be determined by the competitive bidding. The bonds will be issued under an Indenture, dated as of September 1, 1941, between Gulf and the Chase Manhattan Bank (National Association) and the Citizens & Peoples National Bank of Pensacola, as trustees, as heretofore supplemented and as to be further supplemented by a supplemental indenture to be dated May 1, 1972, which includes a prohibition until May 1, 1977, against refunding the bonds with the proceeds of funds borrowed at a lower effective interest cost.

Gulf also proposes to issue and sell, subject to the competitive bidding requirements of Rule 50 under the Act, 50,000 shares of its _____ percent Cumulative Preferred Stock, par value $100 per share. The dividend rate of the preferred stock (which shall be a multiple of 0.04 percent) and the price to be paid to Gulf (which shall be not less than $100 nor more than $102.75 per share) will be determined by the competitive bidding. The terms of the preferred stock include a prohibition until May 1, 1977, against refunding the stock, directly or indirectly, with funds obtained from the issuance of debt securities at a lower effective interest cost or of preferred stock ranking equally with or prior to the new preferred stock at a lower effective dividend cost. The proceeds from the sales of the bonds and preferred stock and $15 million of additional equity funds to be received from the Southern Company during 1972 (See Holding Company Act Release No. 17399, December 14, 1971), together with its cash on hand in excess of operating requirements, interest and dividends, will be used by Gulf to finance its 1972 construction program, to pay short-term promissory notes payable in the form of bank notes and commercial paper notes incurred for such purpose (of which it is estimated $12,700,000 will be outstanding at the time of the sale of the new securities) and for other lawful purposes.

It is stated that the issuance and sale of the new bonds and new preferred stock will be expressly authorized by the Florida Public Service Commission and that no other State commission and no Federal commission, other than this Commission, has jurisdiction over the proposed transactions. A statement of the fees and expenses to be incurred in connection with the proposed transactions will be supplied by amendment.

Notice is further given that any interested person may, not later than May 4, 1972, request in writing that a hearing be held on such matter, stating the nature of his interest, the reasons for such request, and the issues of fact or law raised by said application which he desires to controvert; or he may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request should be served personally or by mail (airmail if the person being served is located more than 500 miles from the point of mailing) upon the applicant at the above-stated address, and proof of service (by affidavit or, in case of an attorney at law, by certificate) should be filed with the request. At any time after said date, the application, as filed or as it may be amended, may be granted as provided in Rule 23 of the general rules and regulations promulgated under the Act, or the Commission may grant exemption from such rules as provided in Rules 20(a) and 100 thereof or take such other action as it may deem appropriate. Persons who request a hearing or advice as to whether a hearing is ordered will receive notice of further developments in this matter, including the date of the hearing (if ordered) and any postponements thereof.

For the Commission, by the Division of Corporate Regulation, pursuant to delegated authority.

[SEAL] RONALD F. HUNT, *Secretary.*

SMALL BUSINESS ADMINISTRATION

MASSAPOAG INVESTMENT CORP.

Notice of Surrender of License To Operate as a Small Business Investment Company

Notice is hereby given that Massapoag Investment Corp., Brookline, Mass., incorporated under the laws of the Commonwealth of Massachusetts on March 2, 1962, has surrendered its license (No. 01/01-0039) issued by the Small Business Administration on June 8, 1962.

Under the authority vested by the Small Business Investment Act of 1958, as amended, and pursuant to the regulations promulgated thereunder, the surrender of the license of Massapoag Investment Corp. is hereby accepted and it is no longer licensed to operate as a small business investment company.

Dated: April 10, 1972.

A. H. SINGER,
Associate Administrator for Investment.

[FR Doc.72-5756 Filed 4-14-72;8:48 am]

MICHIGAN CAPITAL AND SERVICE, INC.

Notice of Filing of Application for Approval of Conflict of Interest Transaction Between Associates

Notice is hereby given that Michigan Capital and Service, Inc. (Michigan), 410 Wolverine Building, Ann Arbor, Mich. 48108, a Federal licensee under the Small Business Investment Act of 1958, as amended (Act), has filed an application pursuant to section 312 of the Act and governed by § 107.1004 of the Small Business Investment Company Regulations (13 CFR 107.1004 (1971)), for approval of a conflict of interest transaction falling within the scope of the above sections of the Act and regulations.

Subject to such approval, Michigan proposes to loan $22,700 for a period of 5 years at 10 percent interest per annum to Great Lakes Commuter, Inc. (GLC), of Flint, Mich. In connection with this financing, Michigan will receive warrants for the purchase of 64,857 shares of GLC stock at 0.35 per share for a total exercise price of $22,699.95. GLC is a Delaware corporation engaged in providing scheduled third-level airline service in parts of Michigan and in the conduct of fixed base operations at Bishop Airport, Flint, Mich., through a wholly owned subsidiary of GLC, known as Flint Air, Inc. The loan made by Michigan will be secured by the assets of both GLC and Flint Air, Inc.

Mr. L. Joseph Crafton is secretary, a director, and a 4.64 percent stockholder of Michigan, and until his resignation a short time ago, was legal counsel for the licensee. Mr. Crafton is also president, chief operating officer, and a 4 percent (approximate) stockholder of GLC.

Notice is hereby given that any interested person may not later than 15 days from the publication of this notice, submit to SBA, in writing, relevant comments on this transaction. Any such communication should be addressed to the Associate Administrator for Investment, Small Business Administration, 1441 L Street NW., Washington, DC 20416.

Dated: April 10, 1972.

A. H. SINGER,
Associate Administrator for Investment.

MAXIMUM INTEREST RATES

Notice of Establishment

Notice is hereby given that the Small Business Administration has established as the maxium interest rate per annum that participating lending institutions may charge on guaranteed loans (except revolving line of credit) approved on or after April 3, 1972, pursuant to section 7(a) of the Small Business Act, as amended, section 402 of the Economic Opportunity Act of 1964, as amended, and section 502 of the Small Business Investment Act, as amended, the following interest rate: eight (8%) per centum per annum. On immediate participation loans approved on or after April 3, 1972, the maximum interest rate shall be seven (7%) per centum per annum. Said maximum interest rates shall remain in effect until further amendment or revision. (Exceptions may be permitted as to applications received prior to April 3, 1972, with agreed upon rates and which are approved not later than April 18, 1972.)

This notice implements the notification of maximum interest rates as provided in § 120.3(b)(2)(vi) of Part 120 (36 F.R. 21332).

Effective date: April 3, 1972.

THOMAS S. KLEPPE,
Administrator.

[Notice 47]

MOTOR CARRIER TRANSFER PROCEEDINGS

Synopses of orders entered pursuant to section 212(b) of the Interstate Commerce Act, and rules and regulations prescribed thereunder (49 CFR Part 1132), appear below:

As provided in the Commission's special rules of practice any interested person may file a petition seeking reconsideration of the following numbered proceedings within 20 days from the date of publication of this notice. Pursuant to section 17(8) of the Interstate Commerce Act, the filing of such a petition will postpone the effective date of the order in that proceeding pending its disposition. The matters relied upon by petitioners must be specified in their petitions with particularity.

No. MC-FC-73586. By order of April 10, 1972, the Motor Carrier Board approved the transfer to P & S Service, Inc., Jersey City, N.J., of the operating rights in certificate No. MC-124198 issued October 2, 1962, to Edward P. Dunn, Jr., doing business as Dunn's Carlstadt, N.J., authorizing the transportation of wrecked or disabled trucks, tractors, buses, and passenger cars, in towaway service, requiring the use of wrecker equipment, between points in New Jersey and New York, on the one hand, and, on the other, points in Connecticut, Delaware, Massachusetts, New Jersey, New York, Pennsylvania, and Rhode Island, and replacement vehicles, from points in New Jersey and New York to points in Connecticut, Delaware, Massachusetts, New Jersey, New York, Pennsylvania, and Rhode Island. Charles J. Williams, 47 Lincoln Park, Newark, N.J. 07102, attorney for applicants.

No. MC-FC-73630. By order of April 10, 1972, the Motor Carrier Board approved the transfer to Schleswig Transfer, Inc., Schleswig, Iowa, of certificate No. MC-96375 issued to Paul Mahoney, Viola Mahoney, executor, doing business as Schleswig Transfer, Schleswig, Iowa, authorizing the transportation of: Agricultural commodities, feeds, seeds, petroleum products, building materials, and livestock, between specified points in Iowa and Nebraska.

[SEAL] ROBERT L. OSWALD,
Secretary.

PAY BOARD

ECONOMIC STABILIZATION PROGRAM

Notice of Proposed Recodification of Regulations and Holding of Public Hearings

Notice is hereby given that upon publication of its regulations pertaining to computation, fringe benefits, and productivity the Pay Board will begin a recodification of its regulations. Such recodification will be published in the FEDERAL REGISTER in the form of proposed regulations and the Pay Board will conduct public hearings on the provisions of such regulations within 30 days of publication.

The purpose of these hearings is to receive input from each of the various sectors of the economy in order that the Board and its staff might consider definitional or interpretative problems present in the proposed recodified regulations. In addition the hearings will afford the public an opportunity to offer, with regard to the Board's goals and policies, suggestions and constructive criticism which will assist the Board in considering those modifications deemed advisable to maintain an equitable stabilization program.

This notice reflects the Board's intention to continue to comply with the stated desires of Congress by, in this instance, holding public hearings (pursuant to section 207 of the Economic Stabilization Act of 1970, as amended) on matters which have a significantly large impact on the national economy.

The Board requests that written recommendations be submitted concerning proposed topics or subjects which should be included in the public hearings. Also the Board encourages any other written suggestions relevant to the procedures outlined by this notice.

All written submissions should be sent to: Chairman of the Pay Board, Attention: Office of General Counsel, 2000 M Street NW., Washington, D.C. 20508.

Issued in Washington, D.C. on April 15, 1972.

GEORGE H. BOLDT,
Chairman of the Pay Board.

Title 30—MINERAL RESOURCES

Chapter I—Bureau of Mines, Department of the Interior

SUBCHAPTER D—ELECTRICAL EQUIPMENT, LAMPS, METHANE DETECTORS; TESTS FOR PERMISSIBILITY; FEES

PART 28—FUSES FOR USE WITH DIRECT CURRENT IN PROVIDING SHORT-CIRCUIT PROTECTION FOR TRAILING CABLES IN COAL MINES

Pursuant to the authority vested in the Secretary of the Interior under section 508 of the Federal Coal Mine Health and Safety Act of 1969 (30 U.S.C. 957), and 36 Stat. 369, as amended, 37 Stat. 681, 30 U.S.C. 3, 5, and 7, and in accordance with section 306(b) of the Act (30 U.S.C. 866(b)) which provides that short-circuit protection for trailing cables used in coal mines shall be provided by an automatic circuit breaker or other no less effective device approved by the Secretary, there was published in the FEDERAL REGISTER for August 5, 1971 (36 F.R. 14448), a notice of proposed rule making which prescribed the requirements for testing and approval of fuses for use with direct current in providing short-circuit protection, no less effective than automatic circuit breakers, for trailing cables in coal mines.

Interested persons were afforded a period of 45 days from the date of publication of the notice in which to submit written comments, suggestions, and objections to the proposed requirements. All comments, suggestions, and objections were given careful and thorough consideration.

Some of the requirements were revised as suggested and in other instances revisions were made in view of the comments received. Certain procedural revisions have also been made. Examples of causes which may result in revocation of the certificate of approval have been specified. The quality control provisions have been refined so as to specify more exactly the sampling procedures and characteristics required to be sampled. Furthermore, since the Bureau does not conduct the actual testing of fuses under the requirements of this part, and in order to ensure the short-circuit protection capability of approved fuses, such fuses must be retested within a 2-year period from the date of the certificate of approval, and every 2 years thereafter (§ 28.23(h)).

Part 28—Fuses for Use with Direct Current in Providing Short-Circuit Protection for Trailing Cables in Coal Mines—of Subchapter D, Chapter I, Title 30, Code of Federal Regulations, as set forth below, is herewith promulgated and shall become effective 60 days following publication in the FEDERAL REGISTER.

W. T. PECORA,
Acting Secretary of the Interior.

APRIL 10, 1972.

Sec.

Subpart A—General Provisions

Subpart E—Construction, Performance and Testing Requirements

28.40 Construction and performance requirements; general.
28.41 Testing requirements; general.

AUTHORITY: The provisions of this Part 28 issued under secs. 306(b) and 508 of the Federal Coal Mine Health and Safety Act of 1969 (30 U.S.C. 801, 83 Stat. 742), and 36 Stat. 369, as amended, 37 Stat. 681, 30 U.S.C. 3, 5, and 7.

Subpart A—General Provisions

§ 28.1 Purpose.

The purpose of the regulations contained in this Part 28 is: (a) To establish procedures and prescribe requirements which must be met in filing applications for the approval of fuses for use with direct current in providing short-circuit protection for trailing cables in coal mines, or the approval of changes or modifications of approved fuses; (b) to specify minimum performance requirements and to prescribe methods to be employed in conducting inspections, examinations, and tests to determine the effectiveness of fuses for use with direct current in providing short-circuit protection for trailing cables in coal mines; and (c) to provide for the issuance of certificates of approval or modifications of certificates of approval for fuses which have met the minimum requirements for performance and short-circuit protection set forth in this part.

§ 28.2 Approved fuses.

(a) On and after the effective date of this part, fuses shall be considered to be approved for use with direct current in providing short-circuit protection for trailing cables in coal mines only where such fuses are: (1) The same in all respects as those fuses which have been approved after meeting the minimum requirements for performance and short-circuit protection prescribed in this Part 28; and (2) maintained in an approved condition.

§ 28.3 Installation, use, and maintenance of approved fuses.

Approved fuses shall be installed and maintained in accordance with the specifications prescribed by the manufacturer of the fuses, and shall be selected and used in accordance with the standards prescribed for short-circuit protective devices for trailing cables in Parts 75 and 77, Subchapter O of this chapter.

§ 28.4 Definitions.

As used in this part—

(a) "Applicant" means an individual, partnership, company, corporation, association, or other organization that designs, manufactures, assembles, or fabricates, or controls the design, manufacture, assembly, or fabrication of a fuse, and who seeks to obtain a certificate of approval for such fuse.

(b) "Approval" means a certificate or formal document issued by the Bureau stating that an individual fuse or combination of fuses has met the minimum requirements of this Part 28, and that the applicant is authorized to use and attach an approval label or other equivalent marking to any fuse manufactured, assembled, or fabricated in conformance with the plans and specifications upon which the approval was based, as evidence of such approval.

(c) "Approved" means conforming to the minimum requirements of this Part 28.

(d) "Bureau" means the U.S. Bureau of Mines, Department of the Interior.

(e) "Fuse" means a device, no less effective than an automatic circuit breaker, for use with direct current which provides short-circuit protection for trailing cables in coal mines by interrupting an excessive current in the circuit.

Subpart B—Application for Approval

§ 28.10 Application procedures.

(a) Each applicant seeking approval of a fuse for use with direct current in providing short-circuit protection for trailing cables shall arrange for submission, at his own expense, of the number of fuses necessary for testing to Westinghouse Electric Corp., High Voltage Test Laboratory, East Pittsburgh, Pa. 15112, or General Electric Co., High Voltage Laboratory, 7500 Lindberg Boulevard, Philadelphia, PA 19155, or any other nationally recognized independent testing laboratory capable of performing the examination, inspection, and testing requirements of this part.

(b) The applicant shall insure, at his own expense, that the examination, inspection, and testing requirements of this part are properly and thoroughly performed by the independent testing laboratory of his choice.

(c) Upon satisfactory completion by the independent testing laboratory of the examination, inspection, and testing requirements of this part, the data and results of such examination, inspection, and tests shall be certified by both the applicant and the laboratory and shall be sent for evaluation of such data and results to the Bureau of Mines, Health and Safety Technical Support Center, 4800 Forbes Avenue, Pittsburgh, PA 15213. Attention: Approval and Testing.

(d) The certified data and results of the examinations, inspections, and tests required by this part and submitted to the Bureau shall be accompanied by a check, bank draft, or money order in the amount of $55 for each fuse size and type payable to the order of the U.S. Bureau of Mines.

(e) The certified data and results of the examinations, inspections, and tests required by this part and submitted to the Bureau for evaluation shall be accompanied by a proposed plan for quality control which meets the minimum requirements set forth in Subpart D of this part.

(f) Each applicant shall deliver to the Bureau, at his own expense, three fuses of each size and type which may be necessary for evaluation of the examination, inspection, and test results by the Bureau.

(g) Applicants or their representatives may visit or communicate with Approval and Testing in order to discuss the requirements for approval of any fuse, or to obtain criticism of proposed designs; no charge shall be made for such consultation and no written report shall be issued by the Bureau as a result of such consultation.

Subpart C—Approval and Disapproval

§ 28.20 Certificates of approval; scope of approval.

(a) The Bureau shall issue certificates of approval pursuant to the provisions of this subpart only for individual, completely fabricated fuses which have been examined, inspected, and tested as specified in § 28.10, and have been evaluated by the Bureau to ensure that they meet the minimum requirements prescribed in this part.

(b) The Bureau shall not issue an informal notification of approval.

§ 28.21 Certificates of approval; contents.

(a) Each certificate of approval shall contain a description of the fuse and a classification of its current-interrupting capacity and current rating.

(b) The certificate of approval shall specifically set forth any restrictions or limitations on the use of the fuse in providing short-circuit protection for trailing cables.

(c) Each certificate of approval shall be accompanied by a reproduction of the approval label or marking design, as appropriate, to be employed by the applicant with each approved fuse as provided in § 28.23.

(d) No test data or specific laboratory findings will accompany any certificate of approval, however, the Bureau will release analyses of pertinent test data and specific findings upon receipt of a written request by the applicant, or when required by statute or regulation.

(e) Each certificate of approval shall also contain the approved quality control plan as specified in § 28.31.

§ 28.22 Notice of disapproval.

(a) If, upon completion of the evaluation by the Bureau conducted in accordance with § 28.10, it is determined that the fuse does not meet the minimum requirements set forth in this part, the Bureau shall issue a written notice of disapproval to the applicant.

(b) Each notice of disapproval shall be accompanied by all available findings with respect to the defects of the fuse for which approval was sought with a view to the possible correction of any such defects.

(c) The Bureau shall not disclose, except to the applicant upon written request or when required by statute or regulation, any data, findings, or other information with respect to any fuse for which a notice of disapproval is issued.

§ 28.23 Approval labels or markings; approval of contents; use.

(a) Approval labels shall bear the seal of the U.S. Bureau of Mines, an approval number, the restrictions, if any, placed upon the use of the fuse by the Bureau, and where appropriate, the applicant's name and address.

(b) Upon receipt of a certificate of approval, the applicant shall submit to the Bureau, for approval of contents, full-scale reproductions of approval labels or markings, as appropriate, and a sketch or description of the method of application and position on the fuse, together with instructions for the installation, use, and maintenance of the fuse.

(c) Legible reproductions or abbreviated forms of the label or markings approved by the Bureau shall be attached to or printed on each fuse.

(d) Each fuse shall be marked with the rating of the Underwriters Laboratories, Inc.

(e) The Bureau shall, where necessary, notify the applicant when additional labels, markings, or instructions will be required.

(f) Approval labels or markings shall only be used by the applicant to whom they were issued.

(g) The use of any Bureau approval label or marking obligates the applicant to whom it is issued to maintain or cause to be maintained the approved quality control sampling procedure and the acceptable quality level for each characteristic tested, and to guarantee that the approved fuse is manufactured according to the specifications upon which the certificate of approval is based.

(h) The use of any Bureau approval label or marking obligates the applicant to whom it is issued to retest the approved fuse within a 2-year period from the date of the certificate of approval, and every 2 years thereafter, in accordance with the provisions of § 28.10.

§ 28.24 Revocation of certificates of approval.

The Bureau reserves the right to revoke, for cause, any certificate of approval issued pursuant to the provisions of this part. Such causes include, but are not limited to, misuse of approval labels and markings, misleading advertising, violations of section 109(e) of the Federal Coal Mine Health and Safety Act of 1969 (30 U.S.C. 819(e)), and failure to maintain or cause to be maintained the quality control requirements of the certificate of approval.

§ 28.25 Changes or modifications of approved fuses; issuance of modification of certificate of approval.

(a) Each applicant may, if he desires to change any feature of an approved fuse, request a modification of the original certificate of approval issued by the Bureau for such fuse by filing an application for modification in accordance with the provisions of this section.

(b) Applications, including fees, shall be submitted as specified in § 28.10 for an original certificate of approval, with a request for a modification of the existing certificate to cover any proposed change.

(c) The application for modification, together with the examination, inspection, and tests results prescribed by § 28.10 shall be examined and evaluated by the Bureau to determine if the proposed modification meets the requirements of this part.

(d) If the proposed modification meets the requirements of this part, a formal modification of approval will be issued, accompanied, where necessary, by reproductions of revised approval labels or markings.

Subpart D—Quality Control

§ 28.30 Quality control plans; filing requirements.

As a part of each application for approval or modification of approval submitted pursuant to this part, each applicant shall file with the Bureau a proposed quality control plan which shall be designed to assure the quality of short-circuit protection provided by the fuse for which approval is sought.

§ 28.31 Quality control plans; contents.

(a) Each quality control plan shall contain provisions for the management of quality, including; (1) Requirements for the production of quality data and the use of quality control records; (2) control of engineering drawings, documentations, and changes; (3) control and calibration of measuring and test equipment; (4) control of purchased material to include incoming inspection; (5) lot identification, control of processes, manufacturing, fabrication, and assembly work conducted in the applicant's plant; (6) audit or final inspection of the completed product; and, (7) the organizational structure necessary to carry out these provisions.

(b) The sampling plan shall include inspection tests and sampling procedures

V 37-74 APR 15 72 XUM

developed in accordance with Military Specification MIL-F-15160D, "Fuses; Instrument, Power, and Telephone" (which is hereby incorporated by reference and made a part hereof), Group A tests and Group B tests, except that the continuity and/or resistance characteristics of each fuse shall be tested. Military Specification MIL-F-15160D is available for examination at Approval and Testing, Health and Safety Technical Support Center, Bureau of Mines, 4800 Forbes Avenue, Pittsburgh, PA. Copies of the document may be purchased from the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

(c) The sampling procedure shall include a list of the characteristics to be tested by the applicant or his agent and shall include but not be limited to: (1) Continuity and/or resistance determination for each fuse; (2) carry current capability (not less than 110 percent of the rated current); and, (3) overload current interruption capability (not less than 135 percent of the rated current).

(d) The quality control inspection test method to be used by the applicant or his agent for each characteristic required to be tested shall be described in detail.

§ 28.32 Proposed quality control plans; approval by the Bureau.

(a) Each proposed quality control plan submitted in accordance with this subpart shall be reviewed by the Bureau to determine its effectiveness in insuring the quality of short-circuit protection provided by the fuse for which an approval is sought.

(b) If the Bureau determines that the proposed quality control plan submitted by the applicant will not insure adequate quality control, the Bureau shall require the applicant to modify the procedures and testing requirements of the plan prior to approval of the plan and issuance of any certificate of approval.

(c) Approved quality control plans shall constitute a part of and be incorporated into any certificate of approval issued by the Bureau, and compliance with such plans by the applicant shall be a condition of approval.

§ 28.33 Quality control test methods, equipment, and records; review by the Bureau; revocation of approval.

(a) The Bureau reserves the right to have its representatives inspect the applicant's quality control test methods, equipment, and records, and to interview any employee or agent of the applicant in regard to quality control test methods, equipment, and records.

(b) The Bureau reserves the right to revoke, for cause, any certificate of approval where it finds that the applicant's quality control test methods, equipment, or records do not ensure effective quality control over the fuse for which the approval was issued.

Subpart E—Construction, Performance, and Testing Requirements

§ 28.40 Construction and performance requirements; general.

(a) The Bureau shall issue approvals for fuses for use with direct current in providing short-circuit protection for trailing cables, when such fuses have met the minimum construction, performance, and testing requirements set forth in this subpart.

(b) Fuses submitted to the Bureau for approval will not be accepted unless they are designed on sound engineering and scientific principles, constructed of suitable materials, and evidence good workmanship.

(c) Fuses may be single-element or dual-element in type, however, they shall be capable of interrupting any direct current within a range from the ampere rating of the fuse under consideration for approval up to 20,000 amperes.

(d) The Bureau shall accept the fuse size and ampere rating as specified in the Underwriters Laboratories, Inc., standard for alternating current fuses (UL-198), which is hereby incorporated by reference and made a part hereof. This document is available for examination at Approval and Testing, Health and Safety Technical Support Center, Bureau of Mines, 4800 Forbes Avenue, Pittsburg, PA, and copies of the document are available from Underwriter's Laboratories, Inc., 161 Sixth Avenue, New York, NY 10013.

(e) Fuses shall be capable of completely interrupting a current within 30 milliseconds after initial current interruption, and shall not show any evidence of restriking after 30 milliseconds.

(f) The blown fuse shall show only superficial damage.

§ 28.41 Testing requirements; general.

(a) The open circuit voltage of the test circuit shall be 300 volts d.c., or 600 volts d.c., depending on the voltage rating of the fuse being tested.

(b) Time constant of the circuit (defined as T=L/R, where T is the time in seconds, L is the inductance in henries, and R is the resistance in ohms) shall be as follows:

(1) For 10,000 amperes and greater currents, T=0.016 second or more;

(2) For 1,000 amperes to 10,000 amperes, T=0.008 second or more;

(3) For 100 amperes to 1,000 amperes, T=0.006 second or more; and

(4) For less than 100 amperes, T=0.002 seconds or more.

(c) Test currents shall be as follows:

(1) 200 percent of rated current for fuses having 200 or less ampere rating, or 300 percent of rated current for fuses having greater than 200 ampere rating;

(2) 900 percent of rated current;

(3) 10,000 amperes; and

(4) 20,000 amperes.

(d) The voltage shall continue to be applied for at least 30 seconds after completion of circuit interruption.

(e) Five fuses of each case size shall be tested at each test current specified in paragraph (c) of this section, with the value of the fuse being the maximum value for the case size.

(f) Three of each lot of five fuses shall be preconditioned at 95±5 percent R H for not less than 5 days immediately prior to testing; and the other two fuses of each lot of five shall be preconditioned by heating to 90° C. for 24 hours, and tested within 1 hour after removal from the preconditioning chamber.

(g) At least 3 of each lot of five fuses shall be tested in a fuse holder of a trolley-tap type, and the fuse holder shall remain intact and shall readily accept and retain a replacement fuse.

[FR Doc.72-5671 Filed 4-14-72;8:45 am]

PART 29—PORTABLE COAL DUST/ROCK DUST ANALYZERS, AND CONTINUOUS DUTY, WARNING LIGHT, PORTABLE METHANE DETECTORS FOR USE IN COAL MINES

Pursuant to the authority vested in the Secretary of the Interior under section 508 of the Federal Coal Mine Health and Safety Act of 1969 (30 U.S.C. 957), and 36 Stat. 369, as amended, 37 Stat. 681, 30 U.S.C. 3, 5, and 7, there was published in the FEDERAL REGISTER for August 5, 1971 (36 F.R. 14450), a notice of proposed rule making which prescribed requirements for testing and approval by the Bureau of Mines of portable coal dust/rock dust samplers, and continuous duty, warning light, portable methane detectors for use in coal mines.

Interested persons were afforded a period of 45 days from the date of publication of the notice in which to submit written comments, suggestions, and objections to the proposed requirements. All comments, suggestions, and objections were given careful and thorough consideration.

Some of the requirements were revised as suggested and in other instances revisions were made in view of the comments received. Some of the more significant revisions are as follows: (1) The field testing requirements (§§ 29.61 (e) and (f) and 29.76 (b) and (c)) specify the period of time and the manner in which field testing will be conducted; (2) Tables A and B have been revised to be more precise; (3) examples of causes which may result in revocation of the certificate of approval have been specified; (4) the application procedures have been revised so as to make clear that the Bureau will test soundly designed and constructed prototypes, but may require resubmission of a production model for additional testing prior to issuance of a certificate of approval (§§ 29.11(e) and 29.30 (c) and (d)); and (5) references, in Subparts G and H, to Part 22 of this Title 30 (Bureau of Mines Schedule 8C) have been deleted in favor of repeating the reference requirements in this Part 29 for the facility of users. Furthermore since the instrument designated as a portable coal dust/rock dust sampler in the notice of proposed rulemaking is intended to be utilized to accurately measure the incombustible content of combined coal dust, rock dust, and other mine dust, the term "analyzer" has been substituted for the term "sampler".

Part 29—Portable Coal Dust-Rock Dust Analyzers, and Continuous Duty, Warning Light, Portable Methane Detectors for Use in Coal Mines—of Subchapter D, Chapter I, Title 30, Code of Federal Regulations, as set forth below, is herewith promulgated and shall become effective 60 days following publication in the FEDERAL REGISTER.

W. T. PECORA,
Acting Secretary of the Interior.

APRIL 10, 1972.

Subpart A—General Provisions

Sec.
29.1 Purpose.
29.2 Approved portable coal dust/rock dust analyzers and continuous duty, warning light, portable methane detectors.
29.3 Use and maintenance of approved portable coal dust/rock dust analyzers and continuous duty, warning light, portable methane detectors.
29.4 Definitions.

Subpart B—Application for Approval

29.10 Application procedures.
29.11 Contents of application.
29.12 Delivery of analyzers and detectors by applicant; requirements.

Subpart C—Fees

29.20 Examination, inspection, and testing of portable coal dust/rock dust analyzers, and continuous duty, warning light, portable methane detectors; fees.
29.21 Additional fees; payment by applicant prior to approval.

Subpart D—Approval and Disapproval

29.30 Certificates of approval; scope of approval.
29.31 Certificates of approval; contents.
29.32 Notice of disapproval.
29.33 Approval labels and markings; approval of contents; use.
29.34 Revocation of certificates of approval.
29.35 Changes or modification of approved analyzers and detectors; issuance of modification of certificate of approval.
29.36 Delivery of changed or modified approved analyzer or detector.

Subpart E—Quality Control

29.40 Quality control plans; filing requirements.
29.41 Quality control plans; contents.
29.42 Proposed quality control plans; approval by the Bureau.
29.43 Quality control records; review by the Bureau; revocation of approval.

Subpart F—General Construction and Performance Requirements

29.50 Construction and performance requirements; general.
29.51 General construction requirements.
29.52 Component parts; minimum requirements.
29.53 Test requirements; general.
29.54 Pretesting by applicant.
29.55 Conduct of examinations, inspections, and tests by the Bureau; assistance by applicant; observers; recorded data; public demonstrations.
29.56 Withdrawal of applications; refund of fees.

Subpart G—Portable Coal Dust/Rock Dust Analyzers; Performance and Testing Requirements

29.60 Minimum performance requirements.
29.61 Testing requirements.
Table A—Specifications for Materials Used for Coal Dust/Rock Dust Analyzer Testing (Percentages by Weight; Particle Size ±2 Percent).
Table B—Specifications for Standard Samples and Inspectors' Samples Used for Coal Dust/Rock Dust Analyzer Testing (Percentages by Weight with Allowable Variations of ±2 Percent).

Subpart H—Continuous Duty, Warning Light, Portable Methane Detectors; Performance and Testing Requirements

29.70 Minimum performance requirements.
29.71 Warning light; performance requirements.

Table C—Maximum and Minimum Limits of Error for Accessory Quantitative Meters Installed on Continuous Duty, Warning Light, Portable Methane Detectors.

AUTHORITY: The provisions of this Part 29 issued under sec. 508 of the Federal Coal Mine Health and Safety Act of 1969 (30 U.S.C. 801, 83 Stat. 742), and 36 Stat. 369, as amended, 37 Stat. 681, 30 U.S.C. 3, 5, and 7.

Subpart A—General Provisions

§ 29.1 Purpose.

The purpose of the regulations contained in this Part 29 is: (a) To establish procedures and prescribe requirements which must be met in filing applications for the approval of portable coal dust/rock dust analyzers for use in measuring the incombustible content of mine dusts, and the approval of continuous duty, warning light, portable methane detectors for use in providing a visual signal of the presence of a methane-air mixture having a methane concentration of 1.0 percent ±0.2 percent, or the approval of changes and modifications of approved portable coal dust/rock dust analyzers and continuous duty, warning light, portable methane detectors; (b) to specify minimum performance requirements and to prescribe methods to be employed in conducting inspections, examinations, and tests to determine the effectiveness of these instruments; and (c) to provide for the issuance of certificates of approval or modifications of certificates of approval for portable coal dust/rock dust analyzers and continuous duty, warning light, portable methane detectors which have met the minimum requirements for performance set forth in this part.

§ 29.2 Approved portable coal dust/rock dust analyzers and continuous duty, warning light, portable methane detectors.

On and after the effective date of this part, portable coal dust/rock dust analyzers and continuous duty, warning light, portable methane detectors shall be considered to be approved for use in coal mines where such instruments are: (a) The same in all respects as those portable coal dust/rock dust analyzers and continuous duty, warning light, portable methane detectors which have been approved as meeting the minimum requirements for performance prescribed in this Part 29; and (b) maintained in an approved condition.

§ 29.3 Use and maintenance of approved portable coal dust/rock dust analyzers and continuous duty, warning light, portable methane detectors.

Approved portable coal dust/rock dust analyzers and continuous duty, warning light, portable methane detectors shall be operated and maintained in accordance with the specifications prescribed by the manufacturer of such instruments, and in accordance with the applicable provisions of Parts 75 and 77, Subchapter O of this chapter.

§ 29.4 Definitions.

As used in this part—

(a) "Applicant" means an individual, partnership, company, corporation, association, or other organization that designs, manufactures, assembles, or fabricates, or controls the design, manufacture, assembly, or fabrication of a portable coal dust/rock dust analyzer or a continuous duty, warning light, portable methane detector, and who seeks to obtain a certificate of approval for such analyzer or detector.

(b) "Approval" means a certificate or formal document issued by the Bureau stating that an individual portable coal dust/rock dust analyzer or an individual continuous duty, warning light, portable methane detector has met the applicable minimum requirements of this Part 29, and that the applicant is authorized to use and attach an approval label or plate on any portable coal dust/rock dust analyzer or continuous duty, warning light, portable methane detector manufactured, fabricated, or assembled in conformance with the plans and specifications upon which the approval was based, as evidence of such approval.

(c) "Approved" means conforming to the minimum requirements of this Part 29.

(d) "Bureau" means the U.S. Bureau of Mines, Department of the Interior.

(e) "Coal dust" means particles of coal that can pass a No. 20 sieve.

(f) "Coal Mine" means an area of land and all structures, facilities, machinery, tools, equipment, shafts, slopes, tunnels, excavations, and other property, real or personal, placed upon, under, or above the surface of such land by any person, used in, or to be used in, or resulting from, the work of extracting in such area bituminous coal, lignite, or anthracite from its natural deposits in the earth by any means or method, and the work of preparing the coal so extracted, and includes custom coal preparation facilities.

(g) "Coal mine dust" means solid particles with sizes ranging from submicroscopic to microscopic, including but not limited to coal dust and rock dust.

V 37-74 APR 15 72 XUM

(h) "Continuous duty, warning light, portable methane detector" means a portable, self-contained instrument, containing a red warning light which flashes in the presence of methane-air mixtures having methane concentrations of 1.0 percent±0.2 percent.

(i) "Portable coal dust/rock dust analyzer" means a portable, self-contained instrument, capable of indicating the incombustible content of coal mine dust over a range of from 50 percent to 100 percent incombustible.

(j) "Rock dust" means pulverized limestone, dolomite, gypsum, anhydrite, shale, adobe, or other inert material, preferably light colored, 100 per centum of which will pass through a sieve having 20 meshes per linear inch and 70 per centum or more of which will pass through a sieve having 200 meshes per linear inch; the particles of which when wetted and dried will not cohere to form a cake which will not be dispersed into separate particles by a light blast of air; and which does not contain more than 5 per centum of combustible matter or more than a total of 4 per centum of free and combined silica (SiO_2), or, where the Secretary finds that such silica concentrations are not available, which does not contain more than 5 per centum of free and combined silica.

(k) "Work of preparing the coal" means the breaking, crushing, sizing, cleaning, washing, drying, mixing, storing, and loading of bituminous coal, lignite, or anthracite, and such other work of preparing such coal as is usually done by the operator of the coal mine.

Subpart B—Application for Approval

§ 29.10 Application procedures.

(a) Inspection, examination, and testing leading to the approval of portable coal dust/rock dust analyzers and continuous duty, warning light, portable methane detectors shall be undertaken by the Bureau only pursuant to written applications which meet the minimum requirements set forth in this Subpart B.

(b) Applications shall be submitted in duplicate to Approval and Testing, Bureau of Mines, 4800 Forbes Avenue, Pittsburgh, PA 15213, and shall be accompanied by a check, bank draft, or money order in the amount specified in Subpart C of this part payable to the order of the U.S. Bureau of Mines.

(c) Except as provided in §§ 29.54, 29.61(e), and 29.76(b), the examination, inspection, and testing of all portable coal dust/rock dust analyzers and continuous duty, warning light, portable methane detectors shall be conducted at Approval and Testing, Bureau of Mines, Pittsburgh, Pa. 15213, or at the Bruceton, Pa. facility of the Health and Safety Technical Support Center.

(d) Applicants, manufacturers, or their representatives may visit or communicate with Approval and Testing in order to discuss the requirements for approval of any portable coal dust/rock dust analyzer, or continuous duty, warning light, portable methane detector or the proposed designs thereof. No charge shall be made for such consultation and no written report shall be issued by the Bureau as a result of such consultation.

§ 29.11 Contents of application.

(a) Each application for approval shall contain a complete written description, including operating instructions, of the analyzer or detector for which approval is requested together with a set of drawings and specifications (and lists thereof) showing full details of construction of the instrument and of the materials used. Drawings and specifications (and lists thereof) shall be submitted in duplicate.

(b) Drawings shall be titled, numbered, and dated; any revision dates shall be shown on the drawings, and the purpose of each revision being sought shall be shown on the drawing or described on an attachment to the drawing to which it applies.

(c) Each application for approval shall contain a proposed plan for quality control which meets the minimum requirements set forth in Subpart E of this part.

(d) Each application shall contain a statement that the analyzer or detector has been pretested by the applicant as prescribed in § 29.54, and shall include the results of such tests.

(e) Each application for approval shall contain a statement that the analyzer or detector and component parts submitted for approval are either (1) prototypes, or (2) made on regular production tooling, with no operation included which will not be incorporated in regular production processing.

(f) Where any form of radioactivity is employed in the analyzer or detector, the applicant shall submit:

(1) Evidence of compliance with all State regulations with respect to radiation and the use of radioactive materials; and

(2) Evidence of compliance with the requirements set forth in Title 10, Code of Federal Regulations.

§ 29.12 Delivery of analyzers and detectors by applicant; requirements.

(a) Each applicant shall, when an application is filed pursuant to § 29.10 deliver at his own expense, four assembled analyzers or detectors, less the radioactive source, to Approval and Testing, Bureau of Mines, Pittsburgh, Pa. 15213. The radioactive source shall be delivered and inserted in the instrument by the applicant following testing of the electrical components of such instrument.

(b) Analyzers, detectors, and component parts submitted for approval must be made from materials specified in the application.

(c) One completely assembled analyzer or detector approved under the provisions of this part may be retained by the Bureau as a laboratory exhibit; the remaining instruments will be returned to the applicant at his own expense, upon written request within 30 days after notice of approval. If no such request is made, the instruments will be disposed of by the Bureau in such manner as it deems appropriate.

(d) Where an analyzer or detector fails to meet the requirements for approval set forth in this part, all instruments and components delivered intact in accordance with this section will be returned to the applicant at his own expense, upon written request within 30 days after notice of disapproval. If no such request is made, the instruments will be disposed of by the Bureau in such manner as it deems appropriate.

Subpart C—Fees

§ 29.20 Examination, inspection, and testing of portable coal dust/rock dust analyzers, and continuous duty, warning light, portable methane detectors; fees.

Except as provided in § 29.21, the following fees shall be charged by the Bureau for the examination, inspection, and testing of portable coal dust/rock dust analyzers and continuous duty, warning light, portable methane detectors:

(a) Examining and recording drawings and specifications prior to inspection, examination and testing	$110
(b) Intrinsic-safety investigation and test under Part 18 of this chapter (Bureau of Mines Schedule 2G)	105
(c) Inspection and explosion testing	175

§ 29.21 Additional fees; payment by applicant prior to approval.

(a) The Bureau reserves the right to conduct any examination, inspection, or test it deems necessary to determine the quality and effectiveness of any analyzer, detector, or component, and to assess the cost of such examinations, inspections, or tests against the applicant prior to the issuance of any approval for the instrument examined, inspected or tested.

(b) The fees charged for the additional examination, inspection, and testing of analyzers, detectors, and components shall be at the rate of $100 per day for each man-day required to be expended by the Bureau.

(c) Upon completion of all examinations, inspections, and tests of analyzers, detectors, and components, the Bureau shall advise the applicant in writing of the total cost assessed and the additional amount, if any, which must be paid to the Bureau as a condition of approval.

(d) The Bureau shall refund any overpayment to the applicant upon the issuance of any approval or notice of disapproval.

Subpart D—Approval and Disapproval

§ 29.30 Certificates of approval; scope of approval.

(a) The Bureau shall issue certificates of approval pursuant to the provisions of this subpart only for individual, completely assembled portable coal dust/rock dust analyzers and continuous duty, warning light, portable methane detectors which have been examined, inspected, and tested, and which meet the minimum requirements set forth in Subparts G and H, as applicable.

(b) The Bureau shall not issue an informal notice of approval. However, if the application for approval, submitted in accordance with § 29.11, states that the submitted analyzer, detector, and component parts are only prototypes, the Bureau will examine, inspect, and test such prototype analyzer, detector, and component parts in accordance with the provisions of this Part 29. If, upon completion of such examinations, inspections and tests, it is found that the prototype meets the minimum requirements set forth in this part, the Bureau may inform the applicant, in writing, of the results of the examinations, inspections, and tests, and may require him to resubmit analyzers, detectors, and component parts, as applicable, made on regular production tooling, with no operations included which will not be incorporated in regular production processing, for further examination, inspection, and testing, prior to issuance of the certificate of approval.

(c) Applicants required to resubmit analyzers, detectors, and component parts made on regular production tooling, with no operation included which will not be incorporated in regular production processing, shall be charged fees in accordance with Subpart C of this part.

§ 29.31 Certificates of approval; contents.

(a) The certificate of approval shall contain a description of the analyzer or detector for which it is issued as provided in this part.

(b) The certificate of approval shall specifically set forth any restrictions or limitations, if any, on use of the instrument.

(c) Each certificate of approval shall be accompanied by the drawings and specifications (and lists thereof) submitted by the applicant in accordance with § 29.11. These drawings and specifications shall be incorporated by reference in the certificate of approval and shall be maintained by the applicant. The drawings and specifications listed in each certificate of approval shall set forth in detail the design and construction requirements which shall be met by the applicant during commercial production of the instrument.

(d) Each certificate of approval, shall be accompanied by a reproduction of the approval label design to be employed by the applicant with each approved instrument as provided in § 29.33.

(e) No test data or specific laboratory findings will accompany any certificate of approval, however, the Bureau will release pertinent test data and specific findings upon written request by the applicant, or when required by statute or regulation.

(f) Each certificate of approval shall also contain the approved quality control plan as specified in § 29.42.

§ 29.32 Notice of disapproval.

(a) If, upon the completion of the examinations, inspections, and tests required to be conducted in accordance with the provisions of this part, it is found that the analyzer or detector does not meet the minimum requirements set forth in this part, the Bureau shall issue a written notice of disapproval to the applicant.

(b) Each notice of disapproval shall be accompanied by all pertinent data or findings with respect to the defects of the instrument for which approval was sought with a view to the possible correction of any such defects.

(c) The Bureau shall not disclose, except to the applicant upon written request or when required by statute or regulation, any data, findings or other information with respect to any instrument for which a notice of disapproval is issued.

§ 29.33 Approval labels and markings; approval of contents; use.

(a) Upon receipt of a certificate of approval, the applicant shall submit to the Bureau, for approval of contents, samples or full-scale reproductions of approval plates, labels, and markings and a sketch or description of the method of application and position on the instrument, together with instructions for the use and maintenance of the instrument.

(b) Approval labels shall bear the seal of the U.S. Bureau of Mines, the applicant's name and address, the restrictions or limitations placed upon the use of the instrument by the Bureau, an approval number assigned by the Bureau, and other information necessary for identification of the instrument.

(c) The Bureau shall, where necessary, notify the applicant when additional labels, markings or instructions will be required.

(d) Approval labels and markings shall only be used by the applicant to whom they were issued.

(e) Legible reproductions or abbreviated forms of the label approved by the Bureau for use on each analyzer and detector shall be affixed. attached to, or printed on the instrument at a location where it can be easily seen.

(f) The use of any Bureau approval label obligates the applicant to whom it is issued to maintain or cause to be maintained the approved quality control sampling schedule and the acceptable quality level for each characteristic tested, and to guarantee that the instrument is manufactured according to the drawings and specifications upon which the certificate of approval is based.

(g) Each analyzer and detector shall be labeled distinctly to show the name of the applicant, and the name and letters or numbers by which the instrument is designated for trade purposes, and the serial number or approximate date of manufacture.

§ 29.34 Revocation of certificates of approval.

The Bureau reserves the right to revoke, for cause, any certificate of approval issued pursuant to the provisions of this part. Such causes include, but are not limited to, misuse of approval labels and markings, misleading advertising, violations of section 109(e) of the Federal Coal Mine Health and Safety Act of 1969 (30 U.S.C. 819(e)), and failure to maintain or cause to be maintained the quality control requirements of the certificate of approval.

§ 29.35 Changes or modification of approved analyzers and detectors; issuance of modification of certificate of approval.

(a) Each applicant may, if he desires to change any feature of an approved analyzer or detector, request a modification of the original certificate of approval issued by the Bureau for such instrument by filing an application for such modification in accordance with the provisions of this section.

(b) Applications shall be submitted as for an original certificate of approval, with a request for a modification of the existing certificate to cover any proposed change.

(c) The application shall be accompanied by appropriate drawings and specifications, and by a proposed quality control plan which meets the requirements of Subpart E of this part.

(d) The application for modification, together with the accompanying material, shall be examined by the Bureau to determine whether testing will be required.

(e) The Bureau shall inform the applicant of the fee required for any additional testing and the applicant will be charged for the actual cost of any examination, inspection, or test required, and such fees shall be submitted in accordance with the provisions of Subpart C of this part.

(f) If the proposed change or modification meets the requirements of this part, a formal certificate of modification will be issued, accompanied, where necessary, by a list of new and revised drawings and specifications covering the change(s) and reproductions of revised approval labels.

§ 29.36 Delivery of changed or modified approved analyzer or detector.

An approved analyzer or detector for which a formal certificate of modification has been issued shall be delivered by the applicant to the Bureau of Mines, Approval and Testing, 4800 Forbes Avenue, Pittsburgh, PA 15213, as soon as it is commercially produced.

Subpart E—Quality Control

§ 29.40 Quality control plans; filing requirements.

As a part of each application for approval or modification of approval submitted pursuant to this part, each applicant shall file with the Bureau a proposed quality control plan which shall be designed to assure the quality of the instrument for which approval is sought.

§ 29.41 Quality control plans; contents.

(a) Each quality control plan shall contain provisions for the management of quality, including: (1) Requirements for the production of quality data and the use of quality control records; (2) control of engineering drawings, documentations, and changes; (3) control and calibration of measuring and test

V 37 - 74
APR 15 72
XUM

equipment; (4) control of purchased material to include incoming inspection; (5) lot identification, control of processes, manufacturing, fabrication, and assembly work conducted in the applicant's plant; (6) audit or final inspection of the completed product; and (7) the organizational structure necessary to carry out these provisions.

(b) Each provision for final inspection in the quality control plan shall include a procedure for the selection of a sample of the end product and the functional components thereof for testing, in accordance with procedures set forth in Military Standard MIL–STD–105D, "Sampling Procedures and Tables for Inspection by Attributes," or Military Standard MIL–STD–414, "Sampling Procedures and Tables for Inspection by Variables for Percent Defective," or an approved equivalent sampling procedure, or an approved combination of sampling procedures. Military Standard MIL–STD–105D, "Sampling Procedures and Tables for Inspection by Attributes," and Military Standard MIL–STD–414, "Sampling Procedures and Tables for Inspection by Variables for Percent Defective" are hereby incorporated by reference and made a part hereof. These documents are available for examination at Approval and Testing, Health and Safety Technical Support Center, Bureau of Mines, 4800 Forbes Avenue, Pittsburgh, PA, and may be purchased from the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

(c) The sampling procedure shall include a list of the characteristics to be tested by the applicant or his agent.

(d) The characteristics listed in accordance with paragraph (c) of this section shall be classified according to the potential effect of such defect and grouped into the following classes:

(1) *Critical.* A defect that judgment and experience indicate is likely to result in hazardous or unsafe conditions for individuals using, maintaining, or depending upon the product; or a defect that judgment and experience indicate is likely to prevent performance of the function of the end product.

(2) *Major.* A defect, other than critical that is likely to result in failure, or to reduce materially the usability of the unit or product for its intended purpose.

(3) *Minor.* A defect that is not likely to materially reduce the utility of the instrument for its intended purpose, or a defect that is a departure from established standards and has little bearing on the effective use or operation of the instrument.

(e) The quality control inspection test method to be used by the applicant or his agent for each characteristic required to be tested shall be described in detail.

(f) Each item manufactured shall be 100 percent inspected for defects in all critical characteristics and all defective items shall be rejected.

(g) The Acceptable Quality Level (AQL) for each major or minor defect so classified by the applicant shall be:

(1) Major—1.0 percent;

(2) Minor—4.0 percent.

(h) Except as provided in paragraph (i) of this section, inspection level II as described in MIL–STD–105D, or inspection level IV as described in MIL–STD–414, shall be used for major and minor characteristics and 100 percent inspection for critical characteristics.

(i) Subject to the approval of the Bureau, where the quality control plan provisions for raw material, processes, manufacturing, and fabrication inspection are adequate to ensure control of finished article quality, destructive testing may be conducted at a lower level of inspection than that specified in paragraph (h) of this section.

§ 29.42 Proposed quality control plans; approval by the Bureau.

(a) Each proposed quality control plan submitted in accordance with this subpart shall be reviewed by the Bureau to determine its effectiveness in ensuring the utility of the instrument for which an approval is sought.

(b) If the Bureau determines that the proposed quality control plan submitted by the applicant will not insure adequate quality control, the Bureau shall require the applicant to modify the procedures and testing requirements of the plan prior to approval of the plan and issuance of any certificate of approval.

(c) Approved quality control plans shall constitute a part of and be incorporated into any certificate of approval issued by the Bureau, and compliance with such plans by the applicant shall be a condition of approval.

§ 29.43 Quality control records; review by the Bureau; revocation of approval.

(a) The applicant shall keep quality control inspection records sufficient to carry out the procedures required in MIL–STD–105D or MIL–STD–414, or an approved equivalent sampling procedure.

(b) The Bureau reserves the right to have its representatives inspect the applicant's quality control test methods, equipment, and records, and to interview any employee or agent of the applicant in regard to quality control test methods, equipment, and records.

(c) The Bureau reserves the right to revoke, for cause, any certificate of approval where it finds that the applicant's quality control test methods, equipment, or records do not ensure effective quality control over the instrument for which the approval was issued.

Subpart F—General Construction and Performance Requirements

§ 29.50 Construction and performance requirements; general.

(a) The Bureau shall issue approvals for portable coal dust/rock dust analyzers and continuous duty, warning light, portable methane detectors which have met the applicable minimum requirements set forth in this Part 29.

(b) In addition to the types of analyzers and detectors described in Subparts G and H of this part, the Bureau will issue approvals for other portable coal dust/rock dust analyzers and continuous duty, warning light, portable methane detectors subject to such additional requirements as may be imposed in accordance with § 29.53.

§ 29.51 General construction requirements.

Portable coal dust/rock dust analyzers and continuous duty, warning light, portable methane detectors will not be accepted by the Bureau for examination, inspection, and testing unless they are designed on sound engineering and scientific principles, constructed of suitable materials, and evidence good workmanship.

§ 29.52 Component parts; minimum requirements.

(a) The components of each instrument approved by the Bureau for use where permissibility is required shall meet the requirements for permissibility and intrinsic safety set forth in Part 18, Subchapter D of this chapter (Bureau of Mines Schedule 2G).

(b) The components of each instrument shall be:

(1) Designed and constructed to prevent creation of any hazard to the user; and

(2) Assembled to permit easy access for inspection, cleaning, and repair of functional parts.

(c) Replacements parts shall be constructed to maintain the effectiveness of the instrument.

§ 29.53 Test requirements; general.

(a) Each instrument and its components shall, when tested by the applicant and the Bureau, meet the applicable performance and test requirements set forth in Subparts G and H of this part.

(b) In addition to the minimum requirements set forth in Subparts G and H of this part the Bureau reserves the right to require, as a further condition of approval, any additional or other minimum requirements it deems necessary to establish the quality, effectiveness, and safety of any instrument.

(c) Where it is determined after receipt of an application that additional or other minimum requirements will be required for approval, the Bureau will notify the applicant in writing of the additional or other minimum requirements, and necessary examinations, inspections, and tests, stating generally its reasons for such requirements, examinations, inspections or tests.

§ 29.54 Pretesting by applicant.

(a) Prior to any application for approval or modification of approval, the applicant shall conduct, or cause to be conducted, examinations, inspections, and tests of analyzer or detector performance which are equal to or exceed the severity of those prescribed in this part.

(b) With the application, the applicant shall provide a statement to the Bureau showing the types and results of the examinations, inspections, and tests performed as required under paragraph (a) of this section and state that the analyzer or detector meets the minimum requirements of Subpart G or H of this part, as applicable. Complete examination, inspection and test data shall be retained on file by the applicant and be submitted, upon request, to the Bureau.

(c) The Bureau may, upon written request by the applicant, provide drawings and descriptions of its test equipment and otherwise assist the applicant in establishing a test laboratory or securing the services of a testing agency.

§ 29.55 Conduct of examinations, inspections, and tests by the Bureau; assistance by applicants; observers; recorded data; public demonstrations.

(a) All examinations, inspections, and tests conducted by the Bureau pursuant to Subparts G and H of this part will be under the sole direction and control of the Bureau.

(b) The Bureau may as a condition of approval, require the assistance of the applicant or agents of the applicant during the assembly, disassembly, or preparation of any instrument or instrument component prior to testing or in the operation of such instrument during testing.

(c) Only Bureau personnel, persons assisting the Bureau pursuant to paragraph (b) of this section, and such other persons as are requested by the Bureau or the applicant to be observers, shall be present during any examination, inspection or test conducted prior to the issuance of an approval by the Bureau for the instrument under consideration.

(d) The Bureau shall hold as confidential any analyses, drawings, specifications, or materials submitted by the applicant and shall not disclose any principles or patentable features of such equipment, except as required by statute or regulation.

(e) As a condition of each approval issued for any analyzer or detector, the Bureau reserves the right, following the issuance of such approval, to conduct such public tests and demonstrations of the approved instrument as it deems appropriate.

§ 29.56 Withdrawal of applications; refund of fees.

(a) Any applicant may, upon a written request submitted to the Bureau, withdraw any application for approval of any analyzer or detector.

(b) Upon receipt of a written request for the withdrawal of an application, the Bureau shall determine the total amount due for services already performed during the course of any examinations, inspections, or tests conducted pursuant to such application. The total amount due shall be determined in accordance with the provisions of §§ 29.20 and 29.21 and assessed against the fees submitted by the applicant. If the total amount assessed is less than the fees submitted, the Bureau shall refund the balance together with a statement of the charges made for services rendered.

Subpart G—Portable Coal Dust/Rock Dust Analyzers; Performance and Testing Requirements

§ 29.60 Minimum performance requirements.

(a) Portable coal dust/rock dust analyzers shall be self-contained units, practical in operation, portable, and suitable for service in underground coal mines.

(b) The analyzer shall be equipped with a quantitative indicating device that is capable of indicating the incombustible content of coal mine dusts over the range of from 50 percent to 100 percent incombustible.

(c) Analyzers equipped with batteries shall be constructed so that when such batteries are filled, electrolyte will not spill during use.

(d) Battery containers shall be made of corrosion resistant material.

§ 29.61 Testing requirements.

(a) Portable coal dust/rock dust analyzers shall be tested to ensure that they meet the minimum construction and performance requirements set forth in §§ 29.51, 29.52, and 29.60.

(b) The sampling materials listed in Table A shall be used in testing the capability of the indicating device of the portable coal dust/rock dust analyzer to measure incombustible content as specified in § 29.60(b).

(c) The indicating device of the analyzer being tested shall be within ±3 percent of the chemically determined incombustible content for 80 percent of the standard samples and inspector's samples listed in Table B.

(d) In preparing sampling materials for testing, all sampling materials shall be:

(1) Air equilibrated;

(2) Carefully mixed to minimize segregation or degradation;

(3) Stored in moisture- and air-tight containers to prevent oxidation and drying; and,

(4) Analyzed for percent incombustible content within ±1 percent, by chemical analysis.

(e) In order to determine the reliability and utility of the analyzer, personnel of the Bureau shall field test the instrument for 1 month in various underground coal mines, in accordance with the applicant's operating and maintenance instructions.

(f) The Bureau may conduct any additional field testing it deems necessary.

TABLE A

SPECIFICATION FOR SAMPLING MATERIALS USED FOR COAL DUST/ROCK DUST ANALYZER TESTING (PERCENTAGES BY WEIGHT; PARTICLE SIZE ±2 PERCENT)

1. Bruceton mine coal, Pittsburgh Seam, 6 to 8 percent ash, 100 percent through U.S. No. 100 sieve, 70 percent through U.S. No. 200 sieve.

2. Pocahontas low volatile, 5 to 6 percent ash, less than 0.7 percent total sulfur, 70 percent through U.S. No. 200 sieve.

3. Pittsburgh Seam, run-of-mine, 27 to 32 percent ash, 1.5 to 2.5 percent sulfur, 100 percent through U.S. No. 20 sieve and 20 percent through U.S. No. 200 sieve.

4. Pyrite, coal-derived, 90 percent or better FeS_2, 70 percent through U.S. No. 200 sieve.

5. $MgCO_3$, analytical grade, powdered, 70 percent through U.S. No. 200 sieve.

6. Ash, mineral matter content of 50 to 80 percent from preparation plant refuse, less than 5 percent pyrite, 70 percent through U.S. No. 200 sieve.

7. Limestone, 99 percent $CaCO_3$, 70 percent through U.S. No. 200 sieve.

8. Dolomite, approximately 41 percent $MgCO_3$, 70 percent through U.S. No 200 sieve.

9. Gypsum, approximately 45 percent $CaSO_4 \cdot 2H_2O$, 70 percent through U.S. No. 200 sieve.

10. Traction sand, (Quartz) 100 percent through U.S. No. 20 sieve.

11. Flammable hydraulic oil (petroleum based).

TABLE B

SPECIFICATIONS FOR STANDARD SAMPLES AND INSPECTORS' SAMPLES USED FOR COAL DUST/ROCK DUST ANALYZER TESTING (PERCENTAGES BY WEIGHT WITH ALLOWABLE VARIATIONS OF ±2 PERCENT)

Standard Samples

1. Bruceton coal and limestone to form 55, 65, 75, and 85 percent incombustible (ash and limestone plus 0.3 to 0.6 percent inherent moisture).

2. Bruceton coal and dolomite to 55, 65, 75, and 85 percent incombustibles.

3. Bruceton coal and gypsum to 55, 65, 75, and 85 percent incombustibles.

4. Pocahontas coal and limestone to 55, 65, 75, and 85 percent incombustibles.

5. Pocahontas coal and dolomite to 55, 65, 75, and 85 percent incombustibles.

6. Pittsburgh seam coal and limestone to 55, 65, 75, and 85 percent incombustibles.

7. Pittsburgh seam coal and dolomite to 55, 65, 75, and 85 percent incombustibles.

8. Moisture added to sample 6 of 65 percent incombustibles resulting in 70 percent incombustibles.

9. Moisture added to sample 6 of 55 percent incombustibles resulting in 65 percent total incumbustibles.

10. Pyrite added to sample 1 of 55 percent resulting in 56 percent incombustibles.

11. Pyrite added to sample 4 of 65 percent resulting in 66 percent incombustibles.

12. Pyrite added to sample 6 of 75 percent resulting in 76 percent incombustibles.

13. $MgCo_3$ added to sample 1 of 55 percent resulting in 58 percent incombustibles.

14. $MgCo_3$ added to sample 2 of 65 percent resulting in 68 percent incombustibles.

15. $MgCO_3$ added to sample 3 of 70 percent resulting in 78 percent incombustibles.

16. Ash added to sample 6 of 55 percent resulting in 60 percent incombustibles.

17. Ash added to sample 6 of 55 percent resulting in 70 percent incombustibles.

18. A mixture consisting of 30 percent ash, 45 percent Pittsburgh coal, and 25 percent limestone.

19. Sand added to sample 1 of 55 percent resulting in 60 percent incombustibles.

20. Sand added to sample 1 of 55 percent resulting in 65 percent incombustibles.

21. Sand added to sample 1 of 55 percent resulting in 75 percent incombustibles.

22. Hydraulic oil added to sample 1 of 55 percent resulting in 50 percent incombustibles.

23. Hydraulic oil added to sample 1 of 55 percent resulting in 45 percent incombustibles.

Inspectors' Samples

1. A group of 25 samples shall be chosen from samples taken by Bureau inspectors during their regular mine surveys of rock dust sufficiency.

2. The type of rock dust and coal present in the mine from which such samples were taken shall be made available for purposes of calibration.

FEDERAL REGISTER, VOL. 37, NO. 74—SATURDAY, APRIL 15, 1972

V 37-74 APR 15 72 XUM

3. Where the quantity of individual samples is insufficient to supply the sample volume required for testing, composite samples of adequate volume will be used.

Subpart H—Continuous Duty, Warning Light, Portable Methane Detectors; Performance and Testing Requirements

§ 29.70 Minimum performance requirements.

(a) Continuous duty, warning light, portable methane detectors shall be self-contained units, practical in operation, portable and suitable for service in underground coal mines.

(b) The detector shall be equipped with an indicating device that contains one or more warning lights designed and constructed to flash in the presence of a methane-air mixture having a methane concentration of 1 percent ±0.2 percent.

(c) Detectors equipped with batteries shall be constructed so that when such batteries are filled, electrolyte will not spill during use.

(d) Battery containers shall be made of corrosion-resistant material.

§ 29.71 Warning light; performance requirements.

(a) Warning lights contained in the indicating devices of detectors shall:

(1) Be visible within the normal visual field of miners working in the vicinity of the detector;

(2) If incandescent, employ lamps of no less than 0.2 candlepower; or

(3) If light-emitting diodes (LED's), have sufficient intensity to be discernible in the working place of an underground coal mine; and,

(4) Be red in color.

(b) The flash rate of the warning light shall be approximately one flash per second, and the duty cycle shall be sufficiently long to attract attention.

§ 29.72 Accessory quantitative meter; minimum requirements.

(a) In addition to the warning lights described in § 29.71, an accessory meter may be installed in a continuous duty, warning light, portable methane detector, to serve as a quantitative indicator of the presence of methane.

(b) Where an accessory quantitative meter is installed on a detector, it shall meet the following minimum requirements for performance and accuracy:

(1) Accessory quantitative meters shall indicate the presence of methane concentrations as low as 0.25 percent and shall have upper scale limits of 2 percent to 4 percent methane. The indications for these percentages shall be within the limits of error specified in Table C;

(2) Accessory quantitative meters shall make no less than 30 determinations for the presence of methane without replacement of any component part, and no less than 15 such determinations prior to recharging of the battery or other power source; and,

(3) The scale of accessory quantitative meters shall not be subdivided into smaller divisions than is warranted by the general accuracy of the meter.

§ 29.73 Operative period.

Detectors shall be tested to ensure that they operate effectively over a 10-hour period (a) without requiring battery replacement or recharging, and (b) without loss of initial accuracy.

§ 29.74 Calibration adaptors.

(a) Each detector shall be equipped with an adaptor that checks the overall response of the instrument to a premixed, methane-air mixture, having a concentration of not less than 1 percent or more than 3 percent, by volume.

(b) Adaptors shall be compatible with methane calibrating kits marketed for methane monitor calibration.

§ 29.75 Visual indicator device.

Each detector shall be equipped with a device capable of giving a visual indication of the operative condition of the battery and the electrical circuitry employed in the detector.

§ 29.76 Testing requirements.

(a) Continuous duty, warning light, portable methane detectors shall be tested to ensure that they meet the minimum construction and performance requirements set forth in §§ 29.51, 29.52, 29.70, 29.71, 29.73, 29.74, and 29.75.

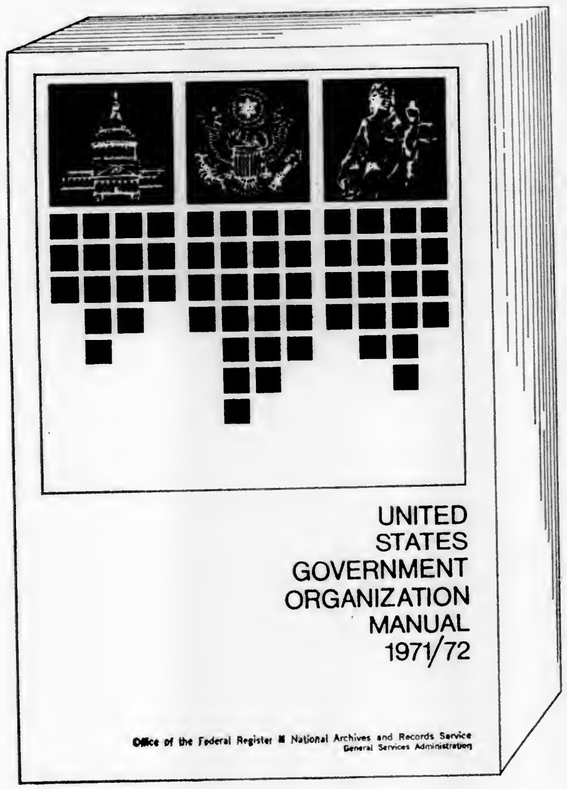
(b) Accessory quantitative meters shall be tested at several percentages within the limits of error specified in Table C, and at temperatures ranging from 50° and 70° F., with 5° increments. Ten tests shall be made at each percentage selected, and neither the average of the 10 tests, nor more than two tests for each percentage, shall exceed the limits of error specified in Table C.

(c) In order to determine the reliability and utility of the detector, personnel of the Bureau shall field test the instrument for 1 month in various underground coal mines, in accordance with the applicant's operating and maintenance instructions.

(d) The Bureau may conduct any additional field testing it deems necessary.

TABLE C

MAXIMUM AND MINIMUM LIMITS OF ERROR FOR ACCESSORY QUANTITATIVE METERS INSTALLED ON CONTINUOUS DUTY, WARNING LIGHT, PORTABLE METHANE DETECTORS



Percent methane	Minimum limit of error—percent methane	Maximum limit of error—percent methane
0.25	0.10	0.40
0.50	0.35	0.65
1.00	0.80	1.20

Know your Government...

UNITED STATES GOVERNMENT ORGANIZATION MANUAL 1971/72

Office of the Federal Register ■ National Archives and Records Service General Services Administration

The Manual describes the creation and authority, organization, and functions of the agencies in the legislative, judicial, and executive branches.

Most agency statements include new "Sources of Information" listings which tell you what offices to contact for information on such matters as:

- Consumer activities
- Environmental programs
- Government contracts
- Employment
- Services to small businesses
- Availability of speakers and films for educational and civic groups

This handbook is an indispensable reference tool for teachers, students, librarians, researchers, businessmen, and lawyers who need current official information about the U.S. Government.

HIGHLIGHTS OF THIS ISSUE

This listing does not affect the legal status of any document published in this issue. Detailed table of contents appears inside.

SECURITIES—FRS requirements for continued inclusion on the list of OTC margin stocks; effective 5–15–72 7585

CHILD POISON PREVENTION—FDA proposes child-proof packaging for automobile antifreeze, paint thinner, and other substances containing methyl alcohol; comments within 60 days 7631

ECONOMIC STABILIZATION—
Revised procedures of Price Comm. for appeals, reconsiderations, exceptions, and other matters; effective 4–17–72 7623
Price Comm. miscellaneous amendments on allowable costs, the posting of base prices, and other matters; effective 4–17–72 7621
Pay Board delegations of authority amending the number of members required to initiate certain actions 7620
Pay Board amendments including regulations relating to the computation of annual increase in base compensation 7615

FLAMMABLE FABRICS—Commerce Dept. proposes a statistical sampling plan be included in the testing procedure for children's sleepwear; comments within 30 days 7628

FEDERAL ASSISTANCE FOR EDUCATION—HEW additions to list of nationally recognized accrediting agencies 7643

TELECOMMUNICATIONS—FCC order concerning communications common carriers engaging in data processing services through separate corporate entities 7609

HOSPITAL SERVICES FOR THE NEEDY—HEW proposed revision of standards, guidelines, and procedures providing for hospital services for persons unable to pay; comments within 30 days 7632

FEDERAL REGISTER
Area Code 202 Phone 962-8626

Published daily, Tuesday through Saturday (no publication on Sundays, Mondays, or on the day after an official Federal holiday), by the Office of the Federal Register, National Archives and Records Service, General Services Administration, Washington, D.C. 20408, pursuant to the authority contained in the Federal Register Act, approved July 26, 1935 (49 Stat. 500, as amended; 44 U.S.C., Ch. 15), under regulations prescribed by the Administrative Committee of the Federal Register, approved by the President (1 CFR Ch. I). Distribution is made only by the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

The FEDERAL REGISTER will be furnished by mail to subscribers, free of postage, for $2.50 per month or $25 per year, payable in advance. The charge for individual copies is 20 cents for each issue, or 20 cents for each group of pages as actually bound. Remit check or money order, made payable to the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

The regulatory material appearing herein is keyed to the CODE OF FEDERAL REGULATIONS, which is published, under 50 titles, pursuant to section 11 of the Federal Register Act, as amended (44 U.S.C. 1510). The CODE OF FEDERAL REGULATIONS is sold by the Superintendent of Documents. Prices of new books are listed in the first FEDERAL REGISTER issue of each month.

There are no restrictions on the republication of material appearing in the FEDERAL REGISTER or the CODE OF FEDERAL REGULATIONS.

Title 7—AGRICULTURE

Chapter VIII—Agricultural Stabilization and Conservation Service (Sugar), Department of Agriculture

SUBCHAPTER G—DETERMINATION OF PROPORTIONATE SHARES

[Amdt. 1]

PART 855—MAINLAND CANE SUGAR AREA

Proportionate Shares for Farms; 1972 Crop

Pursuant to the provisions of the Sugar Act of 1948, as amended, Part 855 of Chapter VIII, Title 7 of the Code of Federal Regulations, published October 28, 1971 (36 F.R. 20666) is amended by revising § 855.79 and paragraph (a) of § 855.84 to read as follows:

§ 855.79 State acreage allocations.

The acreage allocation shall be 252,320 acres for Florida and 394,712 acres for Louisiana, which includes the acreage made available under § 855.86 for new producer farms, § 855.87 for fulfilling appeals and correcting errors, and for Louisiana the acreage made available under § 855.84 to compensate for unused proportionate share acreage.

§ 855.84 Acreage reserve for farms in Louisiana.

(a) *Acreage available.* To offset proportionate share acreage which will be unused on farms in Louisiana, there are available 28,796 acres for increasing shares of old-producer farms established pursuant to §§ 855.81 and 855.83.

* * * * * *

(Secs. 301, 302, 403, 61 Stat. 929, 930 as amended, 932; 7 U.S.C. 1131, 1132, 1153)

STATEMENT OF BASES AND CONSIDERATIONS

The determination of proportionate shares for the 1972 crop, issued on October 28, 1971, established State acreage allocations of 240,306 acres in Florida and 375,916 acres in Louisiana.

That action, although taken about 5 weeks after Hurricane "Edith" struck the Louisiana sugarcane area anticipated larger production that was subsequently attained. It was based on estimated production from the 1971 crop of 1,265,000 tons and estimated marketings in 1972 of 1,556,000 tons. Final production data for the 1971 crop indicates total sugar production of about 1,200,000 tons of sugar, raw value, or about 65,000 tons less than originally estimated. Also, marketings for the area in 1972 may be about 122,000 tons higher than originally estimated.

The 5 percent increase in acreage established by this amendment will provide each State the opportunity to add some sugar to the supply availabilities in calendar 1972. It will also give producers having excess acreage the opportunity of harvesting such acreage instead of having to plow it out.

The acreage increase for Louisiana is assigned to the acreage reserve. This increases the reserve from 10,000 acres to 28,796 acres. The increase is handled in this manner since there is no reallotment procedure for unused acreage in Louisiana.

If acreage is restricted for the 1973 crop, consideration will be given to establishing 1973-crop farm bases for old-producer farms at the level of the 1972 crop original share as adjusted by this action if the operator utilized at least 85 percent (instead of the customary 90 percent) of such share or a lesser percentage because of reasons beyond his control. This would protect the interests of those growers who may not have extra sugarcane for harvest from the 1972 crop.

The production of sugar resulting from this action will not make available a quantity of sugar greater than that needed to meet quota and inventory requirements.

Accordingly, I hereby find and conclude that the foregoing regulation will effectuate the applicable provisions of the Sugar Act of 1948, as amended.

Effective date: Date of publication (4–18–72).

Signed at Washington, D.C., on April 12, 1972.

KENNETH E. FRICK,
Administrator, Agricultural Stabilization and Conservation Service.

[FR Doc.72–5821 Filed 4–17–72;8:47 am]

SUBCHAPTER H—DETERMINATION OF WAGE RATES

PART 862—WAGE RATES; SUGAR BEETS

Pursuant to the provisions of section 301(c)(1) of the Sugar Act of 1948, as amended (herein referred to as "act"), after investigation and consideration of the evidence obtained at the public hearings held during December 1971, the following determination is hereby issued.

The regulations previously appearing in these sections under "Determination of Wage Rates; Sugar Beets" remain in full force and effect as to the crops to which they were applicable.

Sec.
862.9 General requirements.
862.10 Wage rates.
862.11 Compensable working time.
862.12 Applicability of wage requirements.
862.13 Payment of wages.
862.14 Evidence of compliance.
862.15 Employment of workers through a labor contractor or crew leader.
862.16 Subterfuge.
862.17 Claim for unpaid wages.
862.18 Failure to pay all wages in full.
862.19 Child labor.
862.20 Checking compliance.

AUTHORITY: The provisions of this Part 862 issued under secs. 301, 403, 61 Stat. 929, as amended, 932; 7 U.S.C. 1131, 1153.

§ 862.9 General requirements.

A producer of sugar beets shall be deemed to have complied with the wage provisions of the act if all persons employed on the farm in the production, cultivation, or harvesting of sugar beets, as provided in § 862.12, shall have been paid in accordance with the following:

§ 862.10 Wage rates.

All such persons shall have been paid in full for all such work and shall have been paid wages therefor at rates required by existing legal obligations, regardless of whether those obligations resulted from an agreement (such as a labor union agreement) or were created by State or Federal legislative action, or at rates as agreed upon between the producer and the worker, but not less than the following, which shall become effective on April 24, 1972, and shall remain in effect until amended, superseded, or terminated:

(a) When employed on a time basis: For the hand labor operations of thinning, hoeing, hoe-trimming, blocking and thinning, weeding, pulling, topping, loading, or gleaning: $2 per hour: *Provided*, That for workers 14 or 15 years of age the hourly rate specified herein may be reduced by not more than 15 percent.

(b) When employed on a piecework basis for the hand labor operations in the following table:

	Rate per acre
Hand labor operations:	
A. Thinning: Removing excess beets with a hoe only	$14.50
B. Hoeing: Removing weeds and excess beets with a hoe only	19.00
C. Hoe-Trimming: Removing weeds with a hoe and by hand and removing excess beets with a hoe only	22.50
D. Weeding: Removing weeds with a hoe and by hand following either A, B, or C above, E below, or following the operation specified in paragraph (c) of this section	12.00
and in the State of California only:	
E. Blocking and Thinning: Removing weeds and excess beets with a hoe and by hand	32.00

Wide row planting: The above rates and the rate provided for in paragraph (c) of this section may be reduced by not more than the indicated percentages for the following row spacing: 28 inches or more but less than 31 inches, 20 percent; 31 inches or more but less than 34 inches, 25 percent; 34 inches or more, 30 percent.

Narrow row planting: The above rates and the rate provided for in paragraph (c) of this

V 37-75 APR 18 72 XUM

section shall be increased by not less than the indicated percentages for the following row spacing: 19 inches or less but not more than 16 inches, 25 percent; 16 inches or less, 35 percent.

(c) In the fields that have been completely machine-thinned and on which chemical herbicides have been applied, removing weeds with a hoe only may be employed as a first operation: *Provided*, That the applicable piecework rate therefor shall be not less than $12 per acre.

(d) When employed on a piecework basis for hand labor operations not specified or defined, or for harvesting: The piecework rate for blocking and thinning in States other than California, weeding not qualified as a first operation under paragraph (c) of this section or not preceded by A, B, C, or E or paragraph (b) of this section, and any other hand labor operation involving the removal of beets or weeds which is not defined above, and for the operations of pulling, topping, loading, or gleaning, shall be as agreed upon between the producer and the worker: *Provided*, That the average hourly rate of earnings of each worker for each operation shall be not less than $2 per hour computed on the basis of the total time such worker is employed on the farm for such operation.

(e) When employed on a time or piecework basis for other operations: For all other operations in the production, cultivation, or harvesting of sugar beets for which no minimum rate is provided for herein, the rate shall be as agreed upon between the producer and the worker.

§ 862.11 Compensable working time.

For work performed under § 862.10, compensable working time includes all time which the worker spends in the performance of his duties except time taken out for meals during the workday. Compensable working time commences at the time the worker is required to start work in the field and ends upon completion of work in the field. However, if the producer requires the operator of mechanical equipment, or any other class of worker to report to a place other than the field, such as an assembly point, tractor shed, etc., located on the farm, the time spent in transit from such place to the field and from the field to such place is compensable working time. Any time spent in performing work directly related to the principal work performed by the worker, such as servicing equipment, is compensable working time. Time of the worker while being transported from a central labor recruiting point or labor camp to the farm is not compensable working time.

§ 862.12 Applicability of wage requirements.

The wage requirements of this part apply to all persons who are employed or who work on the farm in operations directly connected with the production, cultivation, or harvesting of sugar beets on any acreage from which sugar beets are marketed or processed for the production of sugar, or any acreage which qualifies as bona fide abandoned. Such persons include field overseers or supervisors while directing other workers, and those workers employed by a custom operator who performs the above services on the farm. The wage requirements are not applicable to persons who voluntarily perform work without pay on the farm for a religious or charitable institution or organization; inmates of a prison who work on a farm operated by the prison; truckdrivers employed by a contractor engaged by the producer only in hauling sugar beets; members of a cooperative arrangement among producers for the exchange of labor to be performed by themselves or members of their families; persons who have an agreement with the producer to perform all work on a specified acreage in return for a share of the crop proceeds if such share, including the share of any Sugar Act payments, results in earnings at least as much as would otherwise be received in accordance with the requirements of this part for the work performed; custom operators and members of their immediate families; or workers performing services which are indirectly connected with the production, cultivation, or harvesting of sugar beets, including but not limited to mechanics, welders, and other maintenance workers and repairmen.

§ 862.13 Payment of wages.

(a) The producer shall make payment of wages in accordance with the following requirements: (1) Workers shall be paid by check or in currency for all work performed and shall be paid upon completion of work; (2) deductions from payments are permitted and may be made for cash advances made only by producers to workers and, in reasonable amounts agreed upon by the producer and worker, for items furnished by the producer such as meals and transportation, and for mandatory deductions or withholdings required by law; (3) deductions may not be made from wages for payment of debts originally incurred with someone other than the producer, except as required and provided under applicable garnishment statutes or by other legal process; and (4) deductions may not be made for payment to a labor contractor or supervisor for his services, or for any items which the producer agreed to furnish the worker free of charge.

(b) The producer shall furnish the worker at the time of payment of wages or, if payment of wages is made through a labor contractor or crew leader, require the labor contractor or crew leader to furnish the worker at the time of payment of wages a statement showing the producer's and worker's names, the gross earnings, the items and amounts of deductions, and the net earnings of the worker, and the producer or the labor contractor or crew leader shall obtain the worker's signature acknowledging receipt of the amount of wages received which shall in no event be less than that required by this part.

§ 862.14 Evidence of compliance.

Each producer subject to the provisions of this part shall keep and preserve, for a period of 3 years following the date on which his application for a Sugar Act payment is filed, such wage records as will demonstrate that each worker has been paid in full in accordance with the requirements of this part. Wage records should set forth dates work was performed, the class of work performed, units of work (piecework or hours), agreed upon rates per unit of work, total earnings, and any permissible deductions, and the amount paid each worker. The producer shall furnish upon request to the appropriate Agricultural Stabilization and Conservation County Committee such records or other evidence as may satisfy such committee that the requirements of this part have been met.

§ 862.15 Employment of workers through a labor contractor or crew leader.

(a) If a producer employs workers through a labor contractor or crew leader, the producer may make payment of workers' wages through such labor contractor or crew leader: *Provided*, That the producer obtain from such contractor or crew leader and have on file (1) a written record that he is registered or licensed as derived from examination of a valid certificate of registration or a farm labor contractor employee identification card; (2) a copy of his authorization signed by each worker to collect wages due each such worker; (3) a copy of each worker's statement of earnings as required by § 862.13, or a wage record sheet such as the "Wage Record Sheet Sugarbeet Program" shown in Exhibit 9 of Handbook 1–SU, available in county ASCS offices, showing the names of the producer and workers, dates work was performed, description of work performed, units of work, agreed upon rates per unit, and the amounts of wages due each such worker; and (4) the signature of each worker acknowledging receipt of wages received which shall in no event be less than those required by this part. The producer is responsible for paying to the labor contractor or crew leader the fee for his services, and the producer shall have on file a statement signed by the labor contractor or crew leader showing the amount of the fee being paid by the producer to the labor contractor or crew leader for his services, and showing that such fee is over and above the wages agreed upon by the contractor and the producer which shall in no event be less than those provided by this part.

(b) Responsibility for insuring that workers actually receive the minimum wage or the agreed upon wage, whichever is higher, less only deductions authorized by this part, rests with the producer. Whenever it appears that a worker has received less than the minimum or agreed upon wage, whichever is higher, less deductions authorized by this part, the producer shall not have met the requirements of this part for eligibility for payment under the act until it is determined that all workers on the farm have been paid in full: *Provided, however*, That a producer who having acted in good faith to fulfill his obligation to insure that the minimum or agreed upon wage is actually received by the workers, has obtained and has on file documents which meet the requirements set forth in paragraph (a) of this section and which show payment of wages in accordance with this part, shall have met the requirements of this part, except that in cases where the worker files a claim in the county ASCS office that he has not been paid wages in accordance with this part and it is found by the county committee that the worker's signature has been forged or he has been forced to sign under duress or by fraud, the producer shall not have met the requirements of this part for eligibility for payment under the act until the county committee determines that all workers on the farm have been paid in full.

§ 862.16 Subterfuge.

The producer shall not reduce the wage rates to workers below those determined herein, through any subterfuge or device whatsoever.

§ 862.17 Claim for unpaid wages.

Any person who believes he has not been paid in accordance with this part may file a wage claim with the Agricultural Stabilization and Conservation Service County Office against the producer on whose farm the work was performed. Detailed instructions and wage claim forms are available at the county ASCS office. Such claim must be filed within 2 years from the date the work with respect to which the claim is made was performed. Upon receipt of a wage claim the county ASCS office shall thereupon notify the producer against whom the claim is made concerning the representation made by the worker. The county ASC committee shall arrange for such investigation as it deems necessary and the producer and worker shall be notified in writing of its recommendations for settlement of the claim. If either party is not satisfied with the recommended settlement, an appeal may be made to the State Agricultural Stabilization and Conservation Service Office. The address of the State ASCS Office will be furnished by the local county ASCS office. Upon receipt of the appeal the State ASC committee shall likewise consider the facts and notify the producer and worker in writing of its recommendations for settlement of the claim. If the recommendation of the State ASC committee is not acceptable, either party may file an appeal with the Deputy Administrator, State and County Operations, Agricultural Stabilization and Conservation Service, U.S. Department of Agriculture, Washington, D.C. 20250. All such appeals shall be filed within 15 days after receipt of the recommended settlement of the respective committee, otherwise such recommended settlement will be applied in making payments under the act. If a claim is appealed to the Deputy Administrator, State and County Operations, his decision shall be binding on all parties insofar as payments under the act are concerned. Appeals procedures are set forth and explained fully in Part 780 of this title.

§ 862.18 Failure to pay all wages in full.

(a) Notwithstanding the provisions of this part requiring that all persons employed on the farm in the production, cultivation, or harvesting of sugar beets be paid in full for all such work as one of the conditions to be met by a producer for payment under the act, if the producer has failed to meet this condition but has met all other conditions, a portion of such payment representing the remainder after deducting from the payment the amount of accrued unpaid wages, may be disbursed to producer(s) upon a determination by the county committee (1) that the producer had made full disclosure to the county committee or its representatives of any known failure to pay all workers on the farm wages in full as a condition for payment under the Sugar Act; and (2) that either (i) the failure to pay all workers their wages in full was caused by the financial inability of the producer, or (ii) the failure to pay all workers in full was caused by an inadvertent error or was not the fault of the producer or his agent, and the producer has used reasonable diligence to locate and to pay in full the wages due all such workers. If the county committee makes the determination as heretofore provided in this section, such committee shall cause to be deducted from the payment for the farm the full amount of the unpaid wages which shall be paid promptly to each worker involved if he can be located, otherwise the amount due shall be held for his account, and the remainder of the payment for the farm, if any, shall be made to the producer. If the county committee determines that the producer did not pay all workers in full because of an inadvertent error that was not discovered until after he received his Sugar Act payment, the producer shall be placed on the claims control record for the total amount of the unpaid wages.

(b) Except as provided in paragraph (a) of this section, if upon investigation the county committee determines that the producer failed to pay all workers on the farm the required wages, the entire Sugar Act payment with respect to such farm shall be withheld from the producer until such time as evidence is presented to the county committee which will satisfy the county committee that all workers have been paid in full the wages earned by them, or if unpaid workers cannot be located and the county committee determines that the producer used reasonable diligence to locate such workers, the amounts of unpaid wages shall be deducted from the Sugar Act payment computed for the farm and the balance released to the producer after the expiration of 1 year from the date payment would otherwise be made. If payment has been made to the producer prior to the county committee's determination that all workers on the farm have not been paid in full, the producer shall be placed on the claims control record for the total payment until the county committee determines that all workers on the farm have been paid in full, the producer refunds the entire amount of the debt, or a setoff in the amount of the debt is made from a program payment otherwise due the producer, or the county committee after determining that the producer used reasonable diligence to locate such workers has recovered from such producer the amount of unpaid wages computed for the farm.

§ 862.19 Child labor.

Notwithstanding any of the foregoing provisions of this part, the act provides that the employment of workers under 14 years of age, or the employment of workers 14 and 15 years of age for more than 8 hours per day (except a member of the immediate family of a person who was the legal owner of not less than 40 percent of the crop at the time work was performed), will result in a deduction from Sugar Act payments to the producer.

§ 862.20 Checking compliance.

The procedures to be followed by county ASCS offices in checking compliance with the wage requirements of this part are set forth under the applicable sections of Handbook 1–SU issued by the Deputy Administrator, State and County Operations, ASCS. Copies of Handbook 1–SU may be inspected at local county ASCS offices and copies may be obtained from State Agricultural Stabilization and Conservation Service offices. The address of the State ASCS office will be furnished by the local county ASCS office.

STATEMENT OF BASES AND CONSIDERATIONS

General. The foregoing determination provides fair and reasonable wage rates to be paid for work performed by persons employed on the farm in the production, cultivation, or harvesting of sugar beets as one of the conditions with which producers must comply to be eligible for payments under the act.

Requirements of the act and standards employed. Section 301(c)(1) of the act requires that all persons employed on the farm in the production, cultivation, or harvesting of sugar beets with respect to which an application for payment is made, shall have been paid in full for all such work, and shall have been paid wages therefor at rates not less than those that may be determined by the Secretary to be fair and reasonable after investigation and due notice and opportunity for public hearing; and in making such determination the Secretary shall take into consideration the standards therefor formerly established by him under the Agricultural Adjustment Act, as amended (i.e., cost of living, prices of sugar and byproducts, income from sugar beets and cost of production), and the differences in conditions among the various sugar producing areas.

Wage determination. This determination differs from the prior determination in that the minimum wage rate for specified hand labor operations performed on a time basis is increased 15

V 37:75 APR 18 72 XUM

cents to $2 per hour; and minimum piecework rates are increased $1 per acre for thinning and for weeding, $1.50 per acre for hoeing and for hoe-trimming, and $2.50 per acre for blocking and thinning (applicable only in the State of California).

Public hearings were held in San Francisco, Calif.; Moorhead, Minnesota; Ann Arbor, Mich.; San Benito, Tex.; and Salt Lake City, Utah, during the period December 6 through December 17, 1971. These hearings afforded interested persons the opportunity to present testimony and make recommendations relating to fair and reasonable wage rates for sugar beet workers. Testimony was presented by representatives of both sugar beet producers and workers.

Several producer representatives recommended that the minimum hourly and piecework wage rates established in 1971 remain unchanged for 1972. One representative recommended that rates not be increased unless the price of sugar beets is increased by a comparable percentage, and that the guidelines under phase II of the Economic Stabilization Act weigh heavily in making a determination. One producer representative recommended that wages be increased up to 5.5 percent or about 10 cents per hour. Another stated that growers are rapidly turning to mechanical thinning and chemical weed control; and that any further increase in wages will speed this along, and then migrants will be unemployed in sugar beet work.

A representative of producers in one region recommended the following piecework operations and rates per acre:

A. Thinning—removing excess beets, $13.50.

B. Thinning and weeding—removing excess beets and weeds, $17.50.

C. Weeding—removing weeds (either first operation following complete machine thinning or a subsequent operation following A or B), $11.

D. Late weeding—removing weeds after July 1 and after C above, $5.

The witness stated that it is no longer necessary to specify the method of removing excess beets and weeds (with hoe or by hand) because the use of the long handled hoe has become standard, and the worker stoops to pull an occasional weed or beet because it is faster for him than using his hoe; that the hoe-trimming operation has become obsolete; that it is unfair to sugar beet growers for the wage rates for work in beets to have been set higher than the prevailing rates for other farm work; and that piecework rates are generally more satisfactory for both the worker and the grower because fast workers are not held to the earnings of slow workers, and slow workers are not denied the privilege of working.

Representatives of workers recommended that the minimum hourly wage be increased to rates ranging from $2.25 to $3, with the majority recommending that all workers be guaranteed a minimum hourly wage when working on a piecework basis. One worker representative recommended the following piecework operations and rates per acre:

Thinning	$15.00
Hoeing and hoe-trimming—combined into one operation	23.50
Blocking and thinning—applicable to all States	32.00
Weeding—after effective mechanical thinning and herbicide control	13.00
Weeding—as first operation	15.00

The witness also recommended a guaranteed minimum hourly rate of $2.50; that growers be required not only to pay for all work performed but to provide all the work promised in a written contract; and that arbitrators be appointed to handle wage disputes between growers and workers, with the grower appointing a representative, the worker appointing a representative, and both parties agreeing upon an attorney who would be the chief arbitrator, except that if both parties agreed the three-man panel could be disregarded and only the lawyer act as arbitrator. The witness also recommended that a producer be denied his Sugar Act payment if he knowingly hires illegal aliens, or if he retaliates against workers for filing a wage claim. He further recommended that growers be required to provide written contracts, signed by the grower and the worker or family head, which include the number of acres to be worked, the specific job to be performed, conditions for bonuses, whether the worker will perform the second hoeing or not, the wage rate, and a description of the housing to be provided; that the grower be required to furnish to the worker without cost, housing which complies with regulations being applied under the Wagner-Peyser Act and the Occupational Safety and Health Act of 1970, any violation to result in a $100 deduction from the grower's Sugar Act payment; and that growers who recruit interstate workers be required to pay 10 cents per mile to and from the point of recruitment and the worksite and also provide travel insurance.

Several worker representatives testified that large numbers of illegal aliens were being hired for sugar beet work which prevented legal workers from getting jobs; that workers were not paid the rates they were promised; and that workers are reluctant to take grievances to county ASC committees since they are made up of growers.

One witness testified that families of workers prefer piecework rates so that children can work, and if wage rates were high enough it would not be necessary for children to work. Department representatives pointed out to the witness that the Sugar Act prohibits the employment of children below the age of 14 years and of children 14 or 15 years of age for more than 8 hours a day. The witness said that these regulations apparently are not enforced, because he knew of many instances where children below 14 were still working; however, he did not cite specific examples. It should be noted that the employment of child labor subjects the grower to a reduction in his Sugar Act payment of $10 for each child for each day of employment.

Supplemental briefs filed on behalf of workers concurred in most of the worker recommendations made at the hearing and, in addition, recommended that the Department set minimum wage rates that produce annual earnings above the maximum level at which a family of four is eligible for welfare payments; that are based on wages paid for similar work in nonagricultural industries; that are sufficient to attract workers to all phases of sugar production in all areas of the nation; and that account for increases in the cost of living and productivity. It was also recommended that the Department require as a condition for a Sugar Act payment that all workers benefit from all State and Federal laws which now protect nonagricultural workers.

Consideration has been given to all recommendations and testimony presented at the public hearing; to the returns, costs, and profits of producing sugar beets obtained by field survey for a prior crop and recast in terms of price and production conditions likely to prevail for the 1972 crop; and to other generally related standards normally considered in wage determinations, including the cost of living and the producers' ability to pay wages. During the past year the cost of living has increased over 4 percent. Present prospects indicate favorable sugar beet prices for the 1972 crop and a favorable overall profit position for producers. Analysis of all data and relevant factors indicates that the minimum wage rates established in this determination are fair and reasonable and within producers' ability to pay.

The Economic Stabilization Act Amendments of 1971 provided exceptions for wages of any individual whose earnings are substandard or who is a member of the working poor until such time as the earnings are no longer substandard or he is no longer a member of the working poor. The Cost of Living Council has ruled that wages below that provided in the Fair Labor Standards Act are "substandard." It has also ruled that those earning less than $1.90 per hour are members of the "working poor." The minimum hourly rate established in this determination is approximately 8 percent above the $1.85 rate established in the prior determination which became effective April 12, 1971, and 5.3 percent above the $1.90 level. That portion of the increase above $1.90 is within the Pay Board's general standard for annual wage increases of 5.5 percent. The increases in piecework rates parallel that for the hourly rate.

The recommendations of producers that the wage scale remain unchanged or increased by not more than 5.5 percent, and the recommendations of labor representatives for increases in the hourly rate of from 35 to 62 percent have not been adopted. The increases in piecework rates provided in this determination which average about 8 percent are somewhat less than those recommended by worker representatives and somewhat more than the highest increase suggested by any producer representative.

The recommendations that the "Hoeing" and "Hoe-trimming" operations be combined, and that the method of removing weeds or beets (with a hoe or by hand) not be specified have not been followed. Information available to the Department indicates that each operation specified in the determination is used in one or more sections of the sugar beet area. To abolish an operation or to combine two operations to fit in with the practices in one section could upset the practices in another section. It is believed that no changes should be made in the hand labor operations until all sections of the sugar beet area have an opportunity to thoroughly study the matter and to express their views. Therefore, a proposal for a change in the operations will be issued by the Department for discussion at the next series of wage hearings.

Worker representatives have again recommended that Sugar Act payments be reduced or denied producers who knowingly employ illegal aliens, retaliate against workers for filing wage claims, do not provide written employment contracts, and fail to comply with housing and sanitation regulations; and that appointed arbitrators rather than farmer committees handle wage disputes between growers and workers.

There is a major question initially whether the Secretary has legal authority to promulgate these regulations. It is contended by those urging their adoption that legal authority exists for their promulgation in the provision of the Sugar Act authorizing the Secretary to make payments to producers who pay their workers in full "at rates not less than those that may be determined by the Secretary to be fair and reasonable." Since the enactment of the original Sugar Act in 1937, the Department has consistently interpreted that phrase as being confined to actual wage payments, and consequently not to authorize reducing or denying Sugar Act payments to producers because of their acts in the subject area of fair labor practices (except for employing child labor prohibited by an express statutory provision), labor-management relations, employment of aliens, or unacceptable housing or sanitation conditions.

The Department's interpretation is based upon the legislative history of the Sugar Act provisions requiring payment of fair and reasonable rates, the Congressional Report issued at the time of the original enactment defining these duties, and the debates which occurred in the House of Representatives when the same provision was reenacted in the Sugar Act of 1948. During the congressional hearings held in 1971 on extension and amendment of the Sugar Act, representatives of workers recommended that the Act be amended to include these same provisions which are now urged for adoption as regulations. Both the House and the Senate Committees heard testimony concerning such amendments, but refused to recommend their adoption. An amendment to the Sugar Act constituting these same proposals was then introduced on the Senate floor, but the Senate voted to defeat the amendment.

However, the U.S. District Court of Colorado in Eduardo Angel, et al. v. Clifford Hardin, No. C-2784, December 9, 1971, held that the Department did have authority to issue such regulations, but left for the Department's determination whether such regulations are desirable. While still of the opinion that legal authority to issue such regulations under the Sugar Act is absent, the Department has considered the advisability of issuing such regulations.

In determining the advisability of issuing such regulations it is important to note that each of the proposed regulations falls within a subject area that is regulated by another Act, and by another department or agency. The proposed regulation penalizing an employer who retaliates against workers for filing a complaint concerning wages or other employment conditions relates to an unfair labor practice. The Fair Labor Standards Act, administered by the Secretary of Labor, deals extensively with this subject, but Congress specifically exempted employers of various classes of agricultural workers from its provisions.

A second proposed regulation penalizing an employer who fails to enter into a written contract enters the field of labor-management relations. The National Labor Relations Act, administered by the National Labor Relations Board, deals extensively with what constitutes unfair labor relations by management. But neither this nor any other Act of which we are aware imposes a general requirement that employers must enter into a written contract. It may be noted that the Sugar Act itself authorizes the Secretary to make recommendations with respect to the terms and conditions of contracts, but it does not require anyone to accept the Secretary's recommendations nor does it require that they enter into a written contract.

A third proposed regulation penalizing an employer who knowingly hires illegal aliens appears to conflict with the terms of the Immigration and Nationality Act, administered by the Immigration Service under the Attorney General. That Act makes unlawful the "harboring" of certain aliens, but as enacted by Congress, the Act declares that employment does not constitute harboring. Several bills are now before Congress to prohibit employment of illegal aliens, but none have been enacted as of this date.

A fourth proposed regulation would penalize employers who do not comply with the housing and sanitation regulations issued under the Wagner-Peyser Act. Actually, much more comprehensive legislation covering housing and sanitation conditions of employment was enacted as the Occupational Safety and Health Act, administered by the Secretary of Labor. He has issued a proposed rule which would adopt in that Act the regulations issued previously under the Wagner-Peyser Act, as well as other new regulations which cover housing and sanitation conditions of agricultural workers.

In light of the comprehensive treatment by Congress of the general subject areas in which the proposed regulations would fall, this Department deems it inadvisable for it to promulgate regulations which would prohibit and penalize producer actions within these subject areas.

First, the Department believes, in order to have uniform laws respecting these subject matters, applicable not merely to one class of agricultural employer, and because the proposed regulations chart a new direction having widespread impact on our society, that such proposals should be considered by and acted upon only by Congress, and not this Department. Second, the proposed regulations, if not inconsistent with the present will of Congress, would at least be inconsistent with the regulations promulgated by those departments and agencies which Congress has delegated specific authority to promulgate regulations in these subject areas. To this might be added a doubt whether this Department is as well qualified as other departments or agencies, with their many experts in such fields as labor-management relations and unfair labor practices, to draft such regulations.

Nor is it deemed advisable for this Department to attempt enforcement of the statutes entrusted to, or the regulations promulgated by other departments or agencies. This would require investigations, hearings, findings, and conclusions by this Department, which might well lead to conflicting, uncoordinated, confusing enforcement, to the detriment of those persons who seek and will be benefited by enforcement. To this might be added the inability of this Department, as a practical matter, because of limitations in personnel and money, to enforce immigration laws, housing and sanitation standards, fair labor practices, and employment conditions.

Finally, it is not deemed advisable to penalize producers by reducing or denying Sugar Act payments for violating these particular proposed regulations. It may be noted that each of the other Acts mentioned above provides its own schedule of penalties for violations. Some of these penalties are severe, but Congress did not see fit to add in the penalty provisions of those other Acts a possible loss of Sugar Act payments. The Department believes it unwise, and possibly unfair, to introduce its own penalty, in addition to, or in substitution of those already fixed by Congress. This in no way suggests that the Department does not favor the enforcement of those other statutes and regulations by other and more proper means.

In conclusion, the Department rejects adoption of these proposed regulations not only because it believes they are not authorized by the Sugar Act, but even if they were authorized, they are deemed to be impractical and undesirable for the reasons stated above.

Worker representatives have objected to the use of county ASC committees in

V 37-75 APR 18 72 XUM

wage disputes between the producer and the worker, stating that such committees are composed of producers and are, therefore, biased. Analysis of wage claims filed in the past indicates that the claim of the worker has been upheld in the vast majority of cases. Although the committee members are farmers, they are, nevertheless, competing with other producers, and they do not condone unfavorable practices by their competitors. The State and county farmer committee system was established for the purpose of administering, in the field, the provisions of the various farm programs carried out by this Department. The Sugar Act authorizes the Secretary to utilize such committees to administer the provisions of the sugar program. Arbitrators appointed by individuals are not one of the agencies specified in the Act for carrying out its provisions.

The Department has not adopted the recommendation that growers who recruit interstate workers be required to pay travel allowances and provide travel insurance. The wages established in wage determinations are cash wages, and extra items such as travel allowances and insurance are matters for negotiation between the producer and the worker. In many areas workers do receive travel allowances between their home and place of employment.

The recommendation that all workers be guaranteed a minimum hourly wage has also been rejected. The Department believes that because of the makeup of the field labor force and the nature of the operation, piecework rates without a minimum hourly guarantee are necessary. It would be extremely difficult to keep accurate time records for individuals in family groups of workers, where workers are in and out of the field at all times. Fast workers should be given the opportunity to earn up to their capabilities, and slow workers should not be denied the privilege of working which might be the case with guaranteed hourly earnings. This recommendation was also considered and rejected last year by the Congress when the Sugar Act was amended and extended.

On the basis of an examination of all relevant factors, the provisions of this determination are deemed to be fair and reasonable. Accordingly, I hereby find and conclude that the foregoing wage determination will effectuate the wage provisions of the Sugar Act of 1948, as amended.

NOTE: The recordkeeping and reporting requirements of these regulations have been approved by, and subsequent recordkeeping and reporting requirements will be subject to the approval of the Office of Management and Budget in accordance with the Federal Reports Act of 1942.

Effective date. This determination shall become effective on April 24, 1972.

Signed at Washington, D.C., on April 12, 1972.

KENNETH E. FRICK,
Administrator, Agricultural Stabilization and Conservation Service.

Limitation of Shipments

Findings. (1) Pursuant to the marketing agreement, as amended, and Order No. 905, as amended (7 CFR Part 905), regulating the handling of oranges, grapefruit, tangerines, and tangelos grown in Florida, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674), and upon the basis of the recommendations of the committees established under the aforesaid amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of shipments of Temple and Murcott Honey oranges, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) The recommendation by the Growers Administrative Committee for less restrictive grade and size limitations on fresh shipments of Murcott Honey oranges is consistent with the external appearance and available supply of smaller size fruit in the production area and the current and prospective demand for such fruit by fresh market outlets. The minimum size requirement specified for Temple oranges is consistent with the available supply of and current and prospective demand for such smaller sizes of Temple oranges by fresh market outlets.

(3) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule-making procedure, and postpone the effective date of this amendment until 30 days after publication in the FEDERAL REGISTER (5 U.S.C. 553) because the time intervening between the date when information upon which this amendment is based became available and the time when this amendment must become effective in order to effectuate the declared policy of the act is insufficient; and this amendment relieves restrictions on the handling of Temple and Murcott Honey oranges grown in Florida.

Order. The provisions of paragraph (a) (6), (7), (8) and paragraph (c) of § 905.536 (Orange Regulation 69; 36 F.R. 20215, 22054, 22666, 23353, 23617, 23575, 25401; 37 F.R. 2660, 5813, 6729) are amended to read as follows:

§ 905.536 Orange Regulation 69.

(a) • • •

(6) Any Temple oranges, grown in the production area, which are of a size smaller than 2 4/64 inches in diameter, except that a tolerance of 10 percent, by count, of Temple oranges smaller than such minimum diameter shall be permitted, which tolerance shall be applied in accordance with the provisions for the application of tolerances specified in said U.S. Standards for Florida Oranges and Tangelos;

(7) Any Murcott Honey oranges, grown in the production area, which do not grade at least Florida No. 2 grade for Murcotts; and

(8) Any Murcott Honey oranges, grown in the production area, which are of a size smaller than 2 4/64 inches in diameter, except that a tolerance of 10 percent, by count, of Murcott Honey oranges smaller than such minimum diameter shall be permitted, which tolerance shall be applied in accordance with the provisions for the application of tolerances specified in said U.S. Standards for Florida Oranges and Tangelos.

• • • • • •

(c) Terms used in the amended marketing agreement and order shall, when used herein, have the same meaning as given to the respective terms in said amended marketing agreement and order; Florida No. 1 grade for oranges and Florida No. 2 grade for murcotts shall have the same meanings as provided in section (1) (a) and (b), respectively, of Regulation 105–1.02, as amended, effective January 19, 1972, of the regulations of the Florida Citrus Commission, and all other terms relating to grade and diameter, as used herein, shall have the same meanings as given to the respective terms in the U.S. Standards for Florida Oranges and Tangelos (§§ 51.1140–51.1178 of this title).

(Secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674)

Dated April 13, 1972, to become effective April 14, 1972.

PAUL A. NICHOLSON,
Acting Director, Fruit and Vegetable Division, Agricultural Marketing Service.

[FR Doc.72-5861 Filed 4-17-72;8:50 am]

[Grapefruit Regulation 71, Amdt. 3]

PART 905—ORANGES, GRAPEFRUIT, TANGERINES, AND TANGELOS GROWN IN FLORIDA

Limitation of Shipments

Findings. (1) Pursuant to the marketing agreement, as amended and Order No. 905, as amended (7 CFR Part 905), regulating the handling of oranges, grapefruit, tangerines, and tangelos grown in Florida, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674), and upon the basis of the recommendations of the committees established under the aforesaid amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of shipments of grapefruit, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) The recommendation by the Growers Administrative Committee for less restrictive size limitations on fresh shipments of grapefruit is consistent with the available supply of and current and prospective demand for such smaller sizes of grapefruit by fresh market outlets. The recommended size regulation is necessary to provide a supply of grapefruit to consumers and to improve overall returns to producers.

(3) It is hereby further found that it is impracticable, unnecessary, and contrary to the public interest to give preliminary notice, engage in public rule-making procedure, and postpone the effective date of this amendment until 30 days after publication thereof in the FEDERAL REGISTER (5 U.S.C. 553) in that the time intervening between the date when information upon which this amendment is based became available and the time when this amendment must become effective in order to effectuate the declared policy of the act is insufficient; and this amendment relieves restrictions on the handling of grapefruit grown in Florida.

(a) *Order.* In § 905.535 (Grapefruit Regulation 71, 36 F.R. 20215, 22054, 24111) the provisions of paragraph (a) (5) are amended to read as follows:

§ 905.535 Grapefruit Regulation 71.

(a) • • •

(5) Any seedless grapefruit, grown in the production area, which are smaller than 3 3/64 inches in diameter, except that a tolerance of 10 percent, by count, of seedless grapefruit smaller than such minimum size shall be permitted, which tolerance shall be applied in accordance with the provisions for the application of tolerances, specified in said U.S. Standards for Florida Grapefruit.

• • • • • • •

(Secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674)

Dated April 13, 1972, to become effective April 14, 1972.

PAUL A. NICHOLSON,
Acting Director, Fruit and Vegetable Division, Agricultural Marketing Service.

[FR Doc.72-5860 Filed 4-17-72;8:50 am]

[Lemon Reg. 528, Amdt. 1]

PART 910—LEMONS GROWN IN CALIFORNIA AND ARIZONA

Limitation of Handling

(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 910, as amended (7 CFR Part 910; 36 F.R. 9061), regulating the handling of lemons grown in California and Arizona, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674), and upon the basis of the recommendations and information submitted by the Lemon Administrative Committee, established under the said amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of handling of such lemons, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule making procedure, and postpone the effective date of this amendment until 30 days after publication hereof in the FEDERAL REGISTER (5 U.S.C. 553) because the time intervening between the date when information upon which this amendment is based became available and the time when this amendment must become effective in order to effectuate the declared policy of the act is insufficient, and this amendment relieves restriction on the handling of lemons grown in California and Arizona.

(b) *Order, as amended.* The provision in paragraph (b) (1) of § 910.828 (Lemon Regulations 528, 37 F.R. 7076) during the period April 9, 1972, through April 15, 1972, is hereby amended to read as follows:

§ 910.828 Lemon Regulation 528.

• • • • • •

(b) *Order.* (1) • • • 250,000 cartons.

• • • • • •

(Secs. 1–19, 48 Stat., 3, as amended; 7 U.S.C. 601–674)

Dated: April 12, 1972.

PAUL A. NICHOLSON,
Acting Director, Fruit and Vegetable Division, Agricultural Marketing Service.

Chapter X—Agricultural Marketing Service (Marketing Agreements and Orders; Milk), Department of Agriculture

[Milk Order 36]

PART 1036—MILK IN THE EASTERN OHIO-WESTERN PENNSYLVANIA MARKETING AREA

Order Suspending Certain Provisions

This suspension order is issued pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601 et seq.), and of the order regulating the handling of milk in the Eastern Ohio-Western Pennsylvania marketing area.

It is hereby found and determined that for the months of May 1972 and through October 1972 the following provisions of the order do not tend to effectuate the declared policy of the Act:

1. In § 1036.41(c)(6)(iv), "and bulk cream;"

2. In § 1036.41(c)(6)(vii), "and bulk cream;" and

3. In § 1036.42(b)(1), "and bulk cream."

STATEMENT OF CONSIDERATION

This suspension will change the amount of allowable Class III shrinkage on bulk cream transferred from a pool plant to other plants. It continues the same effect of previous suspension orders effective from May 1971 through April 1972. The present order limits Class III shrinkage, at the transferor plant, on cream derived from a handler's receipts of producer milk and transferred to other plants to 0.5 percent of the cream. Suspension will increase the allowable Class III shrinkage at the transferor plant to 2 percent of the cream.

A cooperative association, which handles at its pool balancing plant a substantial proportion of the market's reserve supplies of milk, has requested continued suspension of the provisions set forth hereinbefore. The cooperative receives producer milk, at farms weights and tests, separates it, and transfers the cream to other plants for churning. As stated in the suspension order effective November 1, 1971, the activities performed by the cooperative usually result in more than one-half percent loss on the cream transfers involved.

A greater loss (or shrinkage) of product occurs in handling cream than in handling fluid milk. However, the present shrinkage provisions do not distinguish between cream and fluid milk on the amount of Class III shrinkage allowed at the plant separating the cream.

It is hereby found and determined that notice of proposed rule making, public proceedings thereon, and 30 days' notice of the effective date hereof are impractical, unnecessary, and contrary to the public interest in that:

(a) This suspension is necessary to reflect current marketing conditions and to maintain orderly marketing conditions in the marketing area in that the present Class III shrinkage allowance does not reflect operating experience in cream handling;

(b) This suspension order does not require of persons affected substantial or extensive preparation prior to the effective date; and

(c) Producers requested amendment of the order to this effect at a public hearing held on January 25, 1972. A specific proposal to amend the aforesaid provisions was included in the hearing notice (37 F.R. 465) and is currently under consideration. Interim action is necessary during the pendency of amendatory procedures. Therefore, good cause exists for making this order effective on May 1, 1972.

It is therefore ordered, That the aforesaid provisions of the order are hereby suspended for the months of May through October 1972.

(Secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674)

Effective date: May 1, 1972.

Signed at Washington, D.C., on April 13, 1972.

RICHARD E. LYNG,
Assistant Secretary.

Title 8—ALIENS AND NATIONALITY

Chapter I—Immigration and Naturalization Service, Department of Justice

MISCELLANEOUS AMENDMENTS TO CHAPTER

The following amendments to Chapter I of Title 8 of the Code of Federal Regulations are hereby prescribed:

PART 212—DOCUMENTARY REQUIREMENTS: NONIMMIGRANTS; WAIVERS; ADMISSION OF CERTAIN INADMISSIBLE ALIENS; PAROLE

In § 212.6, paragraph (b) is amended by inserting a new sentence between the existing fourth and fifth sentences. As amended, § 212.6(b) reads as follows:

§ 212.6 Nonresident alien border crossing cards.

• • • • •

(b) *Application.* A citizen of Canada or a British subject residing in Canada shall apply on Form I–75 for a nonresident alien border crossing card, supporting his application with evidence of Canadian or British citizenship, residence in Canada, and two photographs, size 1½'' x 1½''. Form I–75 shall be submitted to an immigration officer at a Canadian border port of entry. A citizen of Mexico shall apply on Form I–190 for a nonresident alien border crossing card, supporting his application with evidence of Mexican citizenship and residence, a valid unexpired passport or a valid Mexican Form 13, and one photograph, size 1½'' x 1½''. Form I–190 shall be submitted to an immigration officer at a Mexican border port of entry or to an American consular officer in Mexico, other than one assigned to a consulate situated adjacent to the border between Mexico and the United States. If the application is made to an American consular officer, Form FS–257 may be used in lieu of Form I–190. Each applicant under this paragraph, except a child under 14 years of age, shall appear in person before an immigration officer or a consular officer prior to the adjudication of his application and be interrogated concerning his eligibility for a nonresident alien border crossing card. If the applicant is a child under 14 years of age who seeks to commute daily to attend school in the United States, the child must appear with his parent or legal guardian for the required interview. If the application is denied the applicant shall be given a notice of denial with the reasons therefor on Form I–180. There shall be no appeal from such denial but such denial shall be without prejudice to a subsequent application for a visa or for admission to the United States.

• • • • •

PART 214—NONIMMIGRANT CLASSES

Section 214.3 is amended in the following respects: The sixth sentence of paragraph (b) is revised, and the first sentence of paragraph (c) is revised. As amended, § 214.3 (b) and (c) read, in part, as follows:

§ 214.3 Petitions for approval of schools.

• • • • •

(b) *Supporting documents.* A petitioning school or school system owned and operated as a public educational institution or system by the United States or a State or political subdivision thereof shall submit a certification to that effect signed by the appropriate public official who shall certify that he is authorized to do so. A petitioning private or parochial elementary or secondary school system shall submit a certification signed by the appropriate public official who shall certify that he is authorized to do so to the effect that it meets the requirements of the State or local public educational system. Any other petitioning school shall submit a certification by the appropriate licensing, approving, or accrediting official who shall certify that he is authorized to do so to the effect that it is licensed, approved, or accredited. In lieu of such certification a school which is recognized by a State-approving agency as an "educational institution" for study for veterans under the provisions of Public Law 550 (82d Congress) may submit a statement of recognition signed by the appropriate official of the State approving agency who shall certify that he is authorized to do so so. A charter shall not be considered a license, approval, or accreditation. Except in connection with a petition submitted by a school or school system owned and operated as a public educational institution or system by the United States or a State or political subdivision thereof, or by a school listed in the current U.S. Office of Education publications, "Accredited Postsecondary Institutions and Programs" or "Education Directory, Higher Education," or by a secondary school operated by or as part of a school so listed, a school catalog, if one is issued, shall also be submitted with each petition. • • •

(c) *Consultation with U.S. Office of Education.* The U.S. Office of Education has been consulted by the Service and has advised that each of the following is considered an established institution of learning or other recognized place of study, is operating a bona fide school, and has the necessary facilities, personnel, and finances to instruct in recognized courses: (1) A school (or school system) owned or operated as a public educational institution by the United States or a State or political subdivision thereof; (2) a school listed in the current U.S. Office of Education publications, "Accredited Postsecondary Institutions and Programs" or "Education Directory, Higher Education"; or (3) a secondary school operated by or as part of an institution of higher learning listed in the current U.S. Office of Education publications, "Accredited Postsecondary Institutions and Programs" or "Education Directory, Higher Education." Before a decision is made on a petition filed by any other school, the district director shall consult the U.S. Office of Education by transmitting to that Office the petition, supporting documents and any report of interview or other inquiry conducted by the Service, with a request for advice as to whether the petitioner is an established institution of learning or other recognized place of study, is operating a bona fide school, and has the necessary facilities, personnel, and finances to instruct in recognized courses.

• • • • •

PART 238—CONTRACTS WITH TRANSPORTATION LINES

§ 238.3 [Amended]

The listing of transportation lines in paragraph (b) *Signatory lines* of § 238.3 *Aliens in immediate and continuous transit* is amended by adding the following transportation line in alphabetical sequence: "Companhia Nacional de Navegacao, S.A.R.L."

PART 343b—SPECIAL CERTIFICATE OF NATURALIZATION FOR RECOGNITION BY A FOREIGN STATE

In § 343b.4, the second sentence is revised. As amended, § 343b.4 reads as follows:

§ 343b.4 Applicant outside of United States.

If the application is received by a Service officer stationed outside the United States, he shall, when practicable, interrogate the applicant before the application is forwarded to the district director in the United States having jurisdiction over the applicant's place of residence for issuance of the certificate. When such interrogation is not practicable, or is not conducted because the application is submitted directly to the Commissioner or a district director of the Service in the United States, the certificate may nevertheless be issued and the recommendation conditioned upon satisfactory interrogation by a State Department representative. When forwarding the certificate in such a case, the Secretary of State shall be informed that the applicant has not been interviewed, and requested to have his representative abroad interview the applicant regarding identity and possible expatriation. If identity is not established or if expatriation has occurred, the request shall be made that the certificate be returned to the Service.

(Sec. 103, 66 Stat. 173; 8 U.S.C. 1103)

This order shall be effective on the date of its publication in the FEDERAL REGISTER (4–18–72). Compliance with the provisions of section 553 of Title 5 of the United States Code (80 Stat. 383), as to notice of proposed rule making and delayed effective date, is unnecessary in this instance and would serve no useful purpose because the amendments to §§ 212.6(b), 214.3, and 343b.4 relate to agency procedure and the amendment to § 238.3(b) adds a transportation line to the listing.

Dated: April 12, 1972.

RAYMOND F. FARRELL,
Commissioner of Immigration and Naturalization.

[FR Doc.72-5815 Filed 4-17-72;8:47 am]

Title 12—BANKS AND BANKING

Chapter II—Federal Reserve System

SUBCHAPTER A—BOARD OF GOVERNORS OF THE FEDERAL RESERVE SYSTEM

SECURITIES CREDIT TRANSACTIONS

Requirements for Continued Inclusion on List of OTC Margin Stocks

In the FEDERAL REGISTER of February 26, 1972 (37 F.R. 4097), the Board of Governors published a notice of proposed rule making to implement the requirements for a stock's continued inclusion on the List of OTC Margin Stocks. The proposal would amend Parts 207, 220, and 221 (the Board's Regulations G, T, and U, respectively).

Following consideration of all comments received, the amendments as so proposed are hereby adopted, subject to the following changes:

1. Paragraph (e) of § 220.2 should read "(e) OTC margin stock: • • •" rather than "(e) • • •".

2. Subparagraph (1) of § 207.5(e); subparagraph (1) of § 220.8(h); and subparagraph (1) of § 221.4(e), are changed to read as set forth below.

Effective date. This amendment is effective May 15, 1972.

By order of the Board of Governors, April 11, 1972.

[SEAL] MICHAEL A. GREENSPAN,
Assistant Secretary.

PART 207—SECURITIES CREDIT BY PERSONS OTHER THAN BANKS; BROKERS; OR DEALERS

1a. Section 207.2(f)(3) of Part 207, Securities Credit by Persons other than Banks, Brokers, or Dealers, is amended as set forth below:

§ 207.2 Definitions.

• • • • •

(f) OTC margin stock:

• • • • •

(3) The Board shall from time to time remove from the list described in subparagraph (2) of this paragraph (f) stocks that cease to:

(i) Exist or of which the issuer ceases to exist, or

(ii) Meet substantially the provisions of subparagraph (1) of this paragraph (f) and § 207.5(e) (the Supplement to Regulation G).

• • • • •

b. Paragraph (e) of § 207.5 is added as set forth below:

§ 207.5 Supplement.

• • • • •

(e) *Requirements for continued inclusion on list of OTC margin stock.* Except as provided in subparagraph (4) of § 207.2(f), such stock shall meet the requirements that:

(1) The stock continues to be subject to registration under section 12(g)(1) of the Securities Exchange Act of 1934 (15 U.S.C. 78*l*(g)(1), or if issued by an insurance company such issuer continues to be subject to section 12(g)(2)(G) (15 U.S.C. 78*l*(g)(2)(G) and has at least $1 million of capital and surplus,

(2) Four or more dealers stand willing to, and do in fact, make a market in such stock including making regularly published bona fide bids and offers for such stock for their own accounts, or the stock is registered on a securities exchange that is exempted by the Securities and Exchange Commission from registration as a national securities exchange pursuant to section 5 of the Securities and Exchange Act of 1934 (15 U.S.C. 78e),

(3) There continue to be 1,000 or more holders of record of the stock who are not officers, directors, or beneficial owners of 10 percent or more of the stock,

(4) The issuer continues to be a U.S. Corporation,

(5) Daily quotations for both bid and asked prices for the stock are continuously available to the general public; and shall meet three of the four additional requirements that:

(6) 400,000 or more shares of such stock remain outstanding in addition to shares held beneficially by officers, directors, or beneficial owners of more than 10 percent of the stock,

(7) The shares described in subparagraph (6) of this paragraph continue to have a market value in the aggregate of at least $5 million,

(8) The minimum average bid price of such stock, as determined by the Board, is at least $5 per share, and

(9) The issuer continues to have at least $2.5 million of capital, surplus, and undivided profits.

PART 220—CREDIT BY BROKERS AND DEALERS

2a. Section 220.2(e)(3) of Part 220, Credit by Brokers and Dealers, is amended as set forth below:

§ 220.2 Definitions.

• • • • •

(e) • • •

(3) The Board shall from time to time remove from the list described in subparagraph (2) of this paragraph (e) stocks that cease to:

(i) Exist or of which the issuer ceases to exist, or

(ii) Meet substantially the provisions of subparagraph (1) of this paragraph (e) and of § 220.8(h) (the Supplement to Regulation T).

• • • • •

b. Paragraph (h) of § 220.8 is added as set forth below:

§ 220.8 Supplement.

• • • • •

(h) *Requirements for continued inclusion on list of OTC margin stock.* Except as provided in subparagraph (4) of § 220.2(e), OTC margin stock shall meet the requirements that:

(1) The stock remains subject to registration under section 12(g)(1) of the Securities Exchange Act of 1934 (15 U.S.C. 78*l*(g)(1), or if issued by an insurance company such issuer continues to be subject to section 12(g)(2)(G) (15 U.S.C. 78*l*(g)(2)(G) and has at least $1 million of capital and surplus,

(2) Four or more dealers stand willing to, and do in fact, make a market in such stock including making regularly published bona fide bids and offers for such stock for their own accounts, or the stock is registered on a securities exchange that is exempted by the Securities and Exchange Commission from registration as a national securities exchange pursuant to section 5 of the Securities and Exchange Act of 1934 (15 U.S.C. 78e),

(3) There continue to be 1,000 or more holders of record of the stock who are not officers, directors, or beneficial owners of 10 percent or more of the stock,

(4) The issuer continues to be a U.S. Corporation,

(5) Daily quotations for both bid and asked prices for the stock are continuously available to the general public; and shall meet 3 of the 4 additional requirements that:

(6) 400,000 or more shares of such stock remain outstanding in addition to shares held beneficially by officers, directors, or beneficial owners of more than 10 percent of the stock,

(7) The shares described in subparagraph (6) of this paragraph continue to have a market value in the aggregate of at least $5 million,

(8) The minimum average bid price of such stock, as determined by the Board, is at least $5 per share, and

(9) The issuer continues to have at least $2.5 million of capital, surplus, and undivided profits.

PART 221—CREDIT BY BANKS FOR THE PURPOSE OF PURCHASING OR CARRYING MARGIN STOCKS

3a. Section 221.3(d)(3) of Part 221, Credit by Banks for the Purpose of Purchasing or Carrying Margin Stock, is amended as set forth below:

§ 221.3 Miscellaneous provisions.

• • • • •

(d) *OTC margin stock.* • • •

(3) The Board shall from time to time remove from the list described in subparagraph (2) of this paragraph (d) stocks that cease to:

(i) Exist or of which the issuer ceases to exist, or

(ii) Meet substantially the provisions of subparagraph (1) of this paragraph (d) and of § 221.4(e) (the Supplement to Regulation U).

b. Paragraph (e) of § 221.4 is added as set forth below:

V 37 I 75 APR 18 72 XUM

§ 221.4 Supplement.

• • • • •

(e) *Requirements for continued inclusion on list of OTC margin stock.* Except as provided in subparagraph (4) of § 221.3(d), OTC margin stock shall meet the requirements that:

(1) The stock remains subject to registration under section 12(g)(1) of the Securities Exchange Act of 1934 (15 U.S.C. 78*l*(g)(1), or if issued by an insurance company such issuer continues to be subject to section 12(g)(2)(G) (15 U.S.C. 78*l*(g)(2)(G) and has at least $1 million of capital and surplus,

(2) Four or more dealers stand willing to, and do in fact, make a market in such stock including making regularly published bona fide bids and offers for such stock for their own accounts, or the stock is registered on a securities exchange that is exempted by the Securities and Exchange Commission from registration as a national securities exchange pursuant to section 5 of the Securities and Exchange Act of 1934 (15 U.S.C. 78e),

(3) There continue to be 1,000 or more holders of record of the stock who are not officers, directors, or beneficial owners of 10 percent or more of the stock,

(4) The issuer continues to be a U.S. Corporation,

(5) Daily quotations for both bid and asked prices for the stock are continuously available to the general public; and shall meet three of the four additional requirements that:

(6) 400,000 or more shares of such stock remain outstanding in addition to shares held beneficially by officers, directors, or beneficial owners of more than 10 percent of the stock,

(7) The shares described in subparagraph (6) of this paragraph continue to have a market value in the aggregate of at least $5 million,

(8) The minimum average bid price of such stock, as determined by the Board, is at least $5 per share, and

(9) The issuer continues to have at least $2.5 million of capital, surplus, and undivided profits.

[FR Doc.72-5840 Filed 4-17-72;8:51 am]

Title 14—AERONAUTICS AND SPACE

Chapter I—Federal Aviation Administration, Department of Transportation

[Airspace Docket No. 71-AL-9]

PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

Alteration of Control Zone, Revocation of Control Area Extension, and Designation of Transition Area

On October 28, 1971, a notice of proposed rule making was published in the FEDERAL REGISTER (36 F.R. 20703) stating that the Federal Aviation Administration (FAA) was considering amendments to Part 71 of the Federal Aviation regulations that would alter the Kotzebue, Alaska, control zone, revoke the Kotzebue, Alaska, control area extension, and designate the Kotzebue, Alaska, transition area.

Interested persons were afforded an opportunity to participate in the proposed rule making through the submission of comments. There were no comments received.

Since these actions involve, in part, the designation of navigable airspace outside the United States, the Administrator has consulted with the Secretary of State and the Secretary of Defense in accordance with the provisions of Executive Order No. 10854.

In consideration of the foregoing, Part 71 of the Federal Aviation regulations is amended, effective 0901 G.m.t., May 25, 1972, as hereinafter set forth.

1. In § 71.171 (37 F.R. 2056) the Kotzebue, Alaska, control zone is amended to read as follows:

Within a 5-mile radius of Wien Memorial Airport, Kotzebue, Alaska (lat. 66°53'02" N., long. 162°36'05" W.) within 3 miles each side of the 048° bearing from the Kotzebue RBN extending from the 5-mile radius zone to 7 miles northeast of the RBN; within 3 miles each side of the Kotzebue VORTAC 278° radial extending from the 5-mile radius zone to 10 miles west of the VORTAC; and within 3 miles each side of the Kotzebue VORTAC 090° radial extending from the 5-mile radius zone to 8 miles east of the VORTAC.

2. In § 71.165 (37 F.R. 2055) the Kotzebue, Alaska, control area extension is revoked.

3. In § 71.181 (37 F.R. 2143) the Kotzebue, Alaska, transition area is designated as follows:

That airspace extending upward from 700 feet above the surface within a 19-mile radius of the Kotzebue VORTAC; that airspace extending upward from 1,200 feet above the surface within 5 miles each side of the Kotzebue VORTAC 103° radial extending from the VORTAC to 43 miles east of the VORTAC; that airspace extending upward from 5,500 MSL within 5 miles each side of the Kotzebue VORTAC 103° radial extending from a point 43 miles east of the VORTAC to 59 miles east, and that airspace extending upward from 7,500 MSL within 5 miles each side of the Kotzebue 103° radial at 59 miles east of the VORTAC widening to 8.5 miles each side of the 103° radial at 111 miles east of the Kotzebue VORTAC.

(Sec. 307(a), 1110 Federal Aviation Act of 1958, 49 U.S.C. 1348(a), 1510; Executive Order 10854, 24 F.R. 9565; sec. 6(c), Department of Transportation Act, 49 U.S.C. 1655(c))

Issued in Washington, D.C., on April 12, 1972.

Title 16—COMMERCIAL PRACTICES

Chapter I—Federal Trade Commission

[Docket No. C-2169]

PART 13—PROHIBITED TRADE PRACTICES

George B. Eipper et al.

Subpart—Advertising falsely or misleadingly: § 13.73 *Formal regulatory and statutory requirements:* 13.73-92 Truth in Lending Act. Subpart—Misrepresenting oneself and goods—Goods: § 13.1623 *Formal regulatory and statutory requirements:* 13.1623-95 Truth in Lending Act. Subpart—Neglecting, unfairly or deceptively, to make material disclosure: § 13.1852 *Formal regulatory and statutory requirements:* 13.1852-75 Truth in Lending Act; § 13.1892 *Sales contract, right-to-cancel provision:* § 13.1905 *Terms and conditions: 13.-1905-60 Truth in Lending Act.*

(Sec. 6, 38 Stat. 721; 15 U.S.C. 46. Interpret or apply sec. 5, 38 Stat. 719, as amended, 82 Stat. 146, 147; 15 U.S.C. 45, 1601-1605) [Cease and desist order, George B. Eipper et al., Seattle, Wash., Docket No. C-2169, March 9, 1972]

In the Matter of George B. Eipper, an Individual Trading as Seattle Siding Co., and John M. Small, an Individual.

Consent order requiring a Seattle, Wash., seller and installer of residential siding to cease violating the Truth in Lending Act by failing to disclose the sum of the cash price and all charges included in the amount financed, using a form waiver of the right of recission, and make all other disclosures required by Regulation Z of said Act.

The order to cease and desist, including further order requiring report of compliance therewith, is as follows:

It is ordered, That respondents George B. Eipper, an individual trading as Seattle Siding Co., or under his own or any other name or names, and John M. Small, an individual, and respondents' agents, representatives, employees, successors and assigns, directly or through any corporate or other device, in connection with any consumer credit sale, as "consumer credit" and "credit sale" are defined in Regulation Z (12 CFR Part 226) of the Truth in Lending Act (Public Law 90-321, 15 U.S.C. 1601 et seq.), do forthwith cease and desist from:

1. Failing to disclose accurately the sum of the cash price, all charges which are included in the amount financed but which are not part of the finance charge, and the finance charge, and to describe that sum as the "deferred payment price," as required by § 226.8(c)(ii) of Regulation Z.

2. Utilizing a printed form waiver of the right of rescission in violation of § 226.9(e)(3) of Regulation Z.

3. Failing, in any consumer credit transaction or advertisement, to make all disclosures, determined in accordance with §§ 226.4 and 226.5 of Regulation Z, in the manner, form, and amount required by §§ 226.6, 226.7, 226.8, 226.9, and 226.10 of Regulation Z.

It is further ordered, That respondents deliver a copy of this order to cease and desist to all present and future personnel of respondents engaged in the consummation of any extension of consumer credit or in any aspect of preparation, creation, or placing of advertising, and that respondents secure a signed statement acknowledging receipt of said order from each such person.

It is further ordered, That the respondents shall, within sixty (60) days after service upon them of this order, file with the Commission a report in writing, setting forth in detail the manner and form in which they have complied with the order to cease and desist contained herein.

Issued: March 9, 1972.

By the Commission.

[SEAL] CHARLES A. TOBIN,
Secretary.

[Docket No. C-2170]

PART 13—PROHIBITED TRADE PRACTICES

Groff Importers, Inc., and William F. Groff

Subpart—Importing, selling, or transporting flammable wear: § 13.1060 *Importing, selling, or transporting flammable wear.*

(Sec. 6, 38 Stat. 721; 15 U.S.C. 46. Interpret or apply sec. 5, 38 Stat. 719, as amended, 67 Stat. 111, as amended; 15 U.S.C. 45, 1191) [Cease and desist order, Groff Importers, Inc., et al., San Diego, Calif., Docket No. C-2170, March 9, 1972]

In the Matter of Groff Importers, Inc., a Corporation, and William F. Groff, Individually and as an Officer of Said Corporation

Consent order requiring a San Diego, Calif., seller of women's and misses' wearing apparel, including ladies' scarves, to cease violating the Flammable Fabrics Act by importing and selling any fabric which fails to conform to the standards of said Act.

The order to cease and desist, including further order requiring report of compliance therewith, is as follows:

It is ordered, That the respondents, Groff Importers, Inc., a corporation, its successors and assigns, and its officers and William F. Groff, individually and as an officer of said corporation, and respondents' representatives, agents and employees, directly or through any corporate or other device, do forthwith cease and desist from selling, offering for sale, in commerce, or importing into the United States, or introducing, delivering for introduction, transporting or causing to be transported in commerce, or selling or delivering after sale or shipment in commerce, any product, fabric, or related material; or selling or offering for sale, any product made of fabric or related material which has been shipped or received in commerce as "commerce," "product," "fabric," and "related material" are defined in the Flammable Fabrics Act, as amended, which product, fabric, or related material fails to conform to an applicable standard or regulation issued, amended or continued in effect, under the provisions of the aforesaid Act.

It is further ordered, That respondents notify all of their customers who have purchased or to whom have been delivered the products which gave rise to the complaint, of the flammable nature of said products, and effect the recall of said products from such customers.

It is further ordered, That the respondents herein shall either process the products which gave rise to the complaint so as to bring them into conformance with the applicable standard of flammability under the Flammable Fabrics Act, as amended, or destroy said products.

It is further ordered, That the respondents herein shall, within ten (10) days after service upon them of this order, file with the Commission a special report in writing setting forth the respondents' intentions as to compliance with this order. This special report shall also advise the Commission fully and specifically concerning (1) the identity of the products which gave rise to the complaint, (2) the number of said products in inventory, (3) any action taken and any further actions proposed to be taken to notify customers of the flammability of said products, and effect the recall of said products from customers, and of the results thereof, (4) any disposition of said products since February 22, 1971, and (5) any action taken or proposed to be taken to bring said products into conformance with the applicable standard of flammability under the Flammable Fabrics Act, as amended, or destroy said products, and the results of such action. Such report shall further inform the Commission as to whether or not respondents have in inventory any product, fabric, or related material having a plain surface and made of paper, silk, rayon, and acetate, nylon and acetate, rayon, cotton or any other material or combinations thereof in a weight of 2 ounces or less per square yard, or any product, fabric, or related material having a raised fiber surface. Respondents shall submit samples of not less than 1 square yard in size of any such product, fabric or related material with this report.

It is further ordered, That respondents notify the Commission at least thirty (30) days prior to any proposed change in the corporate respondent, such as dissolution, assignment or sale resulting in the emergence of a successor corporation, the creation or dissolution of subsidiaries, or any other change in the corporation which may affect compliance obligations arising out of this order.

It is further ordered, That the respondent corporation shall forthwith distribute a copy of this order to each of its operating divisions.

It is further ordered, That the respondents herein shall within sixty (60) days after service upon them of this order, file with the Commission a report in writing setting forth in detail the manner and form in which they have complied with this order.

Issued: March 9, 1972.

By the Commission.

[Docket No. C-2171]

PART 13—PROHIBITED TRADE PRACTICES

Joseph H. Lambert et al.

Subpart—Misrepresenting oneself and goods—Goods: § 13.1623 *Formal regulatory and statutory requirements:* 13.1623-95 Truth in Lending Act. Subpart—Neglecting, unfairly or deceptively, to make material disclosure: § 13.1852 *Formal regulatory and statutory requirements:* 13.1852-75 Truth in Lending Act; § 13.1905 *Terms and conditions:* 13.1905-60 Truth in Lending Act.

(Sec. 6, 38 Stat. 721; 15 U.S.C. 46. Interpret or apply sec. 5, 38 Stat. 719, as amended, 82 Stat. 146, 147; 15 U.S.C. 45, 1601-1605) [Cease and desist order, Joseph H. Lambert et al., Stockton, Calif., Docket No. C-2171, March 10, 1972]

In the Matter of Joseph H. Lambert, Leo A. Lambert, and Dean E. Lambert, Individually and as Copartners Doing Business as H & L Investment Co.

Consent order requiring a Stockton, Calif., firm making loans for the purchase of used cars to cease violating the Truth in Lending Act by failing to disclose the number of payments scheduled, failing to describe those which are "balloon payments," failing to use the term finance charge where required, and failing to make all other disclosures required by Regulation Z of said Act.

The order to cease and desist, including further order requiring report of compliance therewith, is as follows:

It is ordered, That respondents Joseph H. Lambert, Leo A. Lambert, and Dean E. Lambert, individuals and copartners doing business as H & L Investment Co., or under any other name or names, and respondents' representatives, agents, and employees, directly or through any corporate or other device, in connection with any consumer credit extension as "consumer credit" is defined in Regulation Z (12 CFR Part 226) of the Truth in Lending Act (Public Law 90-321, 15 U.S.C. 601 et seq.), do forthwith cease and desist from:

1. Failing to disclose the "annual percentage rate" accurately to the nearest quarter of 1 percent, in accordance with § 226.8(b)(2) of Regulation Z.

V 37-75 APR 18 72 XUM

2. Failing to disclose the number of payments scheduled to repay the indebtedness, and failing to describe payments which are more than twice the amount of an otherwise scheduled equal payment by the term "balloon payment" as required by § 226.8(b)(3) of Regulation Z.

3. Failing to print the term "finance charge", where required by Regulation Z to be used, more conspicuously than other required terminology as required by § 226.6(a) of Regulation Z.

4. Failing to describe the type of security interest in property held, retained or acquired in connection with extensions of credit, as required by § 226.8(b)(5) of Regulation Z.

5. Failing, in any consumer credit transaction or advertisement, to make all disclosures determined in accordance with §§ 226.4 and 226.5 of Regulation Z, in the manner, form, and amount required by §§ 226.6, 226.8, 226.9, and 226.10 of Regulation Z.

It is further ordered, That respondents deliver a copy of this order to cease and desist to all present and future personnel of respondents, and other persons engaged in the consummation of any extension of consumer credit or in any aspect of preparation, creation, or placing of advertising, and that respondents secure a signed statement acknowledging receipt of said order from each such person.

It is further ordered, That the respondents herein shall, within sixty (60) days after service upon them of this order, file with the Commission a report in writing, setting forth in detail the manner and form in which they have complied with this order.

Issued: March 10, 1972.

By the Commission.

(Sec. 6, 38 Stat. 721; 15 U.S.C. 46. Interpret or apply sec. 5, 38 Stat. 719, as amended, 82 Stat. 146, 147; 15 U.S.C. 45, 1601-1605) [Cease and desist order, Charles Edwin Porter et al., Tampa, Fla., Docket No. C-2172, March 17, 1972]

In the Matter of Charles Edwin Porter, Individually and Doing Business as Florida Training Center and Commercial Training Institute

Consent order requiring a Tampa, Fla., individual offering courses in key punch operations and bank teller techniques to cease violating the Truth in Lending Act in his consumer credit transactions by failing to disclose the total number of payments, the cash price, the unpaid balance of cash price, the amount financed, the deferred payment price, and other disclosures required by Regulation Z of said Act.

The order to cease and desist, including further order requiring report of compliance therewith, is as follows:

It is ordered, That respondent Charles Edwin Porter, individually and doing business as Florida Training Center and Commercial Training Institute, and his agents, representatives, and employees, directly or through any corporate or other device, in connection with any extension of consumer credit or any advertisement to aid, promote, or assist directly or indirectly any extension of consumer credit, as "consumer credit" and "advertisement" are defined in Regulation Z (12 CFR Part 226) of the Truth in Lending Act (Public Law 90-321, 15 U.S.C. 1601 et seq.), do forthwith cease and desist from:

1. Failing to make all disclosures required to be made by § 226.8 of Regulation Z clearly, conspicuously and in a meaningful sequence, as required by § 226.6(a) of Regulation Z.

2. Failing to disclose the number of payments scheduled to repay the indebtedness and the sum of such payments using the term "total of payments," as required by § 226.8(b)(3) of Regulation Z.

3. Failing to disclose the price at which respondent, in the regular course of business, offers to sell for cash the property or services which are the subject of the credit sale, and to describe that price as the "cash price," as required by § 226.8(c)(1) of Regulation Z.

4. Failing to disclose the amount of any downpayment in money, and to describe that amount as the "cash downpayment," as required by § 226.8(c)(2) of Regulation Z.

5. Failing to disclose the difference between the "cash price" and the "total downpayment," and to describe that difference as the "unpaid balance of cash price," as required by § 226.8(c)(3) of Regulation Z.

6. Failing to disclose the amount of credit extended, and to describe that amount as the "amount financed," as required by § 226.8(c)(7) of Regulation Z.

7. Failing to use the term "deferred payment price" to describe the sum of the cash price, all other charges which are part of the amount financed but are not part of the finance charge, and the finance charge, as required by § 226.8(c)(8)(ii) of Regulation Z.

8. Failing, in any consumer credit transaction or advertisement, to make all disclosures, determined in accordance with §§ 226.4 and 226.5 of Regulation Z, in the manner, form, and amount required by §§ 226.6, 226.8, and 226.10 of Regulation Z.

It is further ordered, That a copy of this order to cease and desist be delivered to all present and future personnel of respondent engaged in the consummation of any extension of consumer credit or in any aspect of preparation, creation or placing of advertising, and that respondent secure a signed statement acknowledging receipt of said order from each such person.

It is further ordered, That respondent notify the Commission at least thirty (30) days prior to any proposed change in respondent's business organization such as dissolution; assignment or sale resulting in the emergence of a successor business, corporate or otherwise; the creation of subsidiaries; any change of business name or trade style; or any other change which may affect compliance obligations arising out of the order.

It is further ordered, That the respondent herein shall, within sixty (60) days after service upon him of this order file with the Commission a report in writing setting forth in detail the manner and form in which he has complied with the order to cease and desist contained herein.

Issued: March 17, 1972.

By the Commission.

(Sec. 6, 38 Stat. 721; 15 U.S.C. 46. Interpret or apply sec. 5, 38 Stat. 719, as amended, 82 Stat. 146, 147; 15 U.S.C. 45, 1601-1605) [Cease and desist order, Times Furniture Co., et al., Los Angeles, Calif., Docket No. C-2168, March 9, 1972]

In the Matter of Times Furniture Co., a Corporation, and Samuel Barbas, Individually and as an Officer of Said Corporation

Consent order requiring a Los Angeles, Calif., seller and distributor of furniture to cease violating the Truth in Lending Act by failing in its credit transactions to make disclosures required by Regulation Z of said Act. Respondent is also required where credit customer is charged with credit life insurance to mail to such customer a letter explaining the insurance and giving customer the option of canceling it.

The order to cease and desist, including further order requiring report of compliance therewith, is as follows:

It is ordered, That respondents Times Furniture Co., a corporation, and Samuel Barbas, individually and as an officer of said corporation, and respondents' agents, representatives, and employees, directly or through any corporate or other device, in connection with any extension of consumer credit or any advertisement to aid, promote or assist directly or indirectly any extension of consumer credit, as "consumer credit" and "advertisement" are defined in Regulation Z (12 CFR Part 226) of the Truth in Lending Act (Public Law 90-321, 15 U.S.C. 1601 et seq.), do forthwith cease and desist from:

1. Failing to make the disclosures required by § 226.8 before the transaction is consummated, as prescribed by § 226.8(a) of Regulation Z.

2. Failing to include in the finance charge any charges or premiums for credit life, accident, health, or loss of income insurance, as prescribed by § 226.4(a) of Regulation Z.

3. Failing to furnish the customer with a duplicate of the instrument containing the disclosures required by § 226.8 or a statement by which the required disclosures are made at the time those disclosures are made, as prescribed by § 226.8(a) of Regulation Z.

4. Stating, in any advertisement, the amount of the downpayment required or that no downpayment is required, the amount of any installment payment, the dollar amount of any finance charge, the number of installments or the period of repayment, or that there is no charge for credit, unless it states all of the following items in terminology prescribed under § 226.8 of Regulation Z, as required by § 226.10(d)(2) of Regulation Z:

(a) The cash price;

(b) The amount of the downpayment required or that no downpayment is required, as applicable;

(c) The number, amount, and due dates or period of payments scheduled to repay the indebtedness if the credit is extended;

(d) The amount of the finance charge expressed as an annual percentage rate; and

(e) The deferred payment price.

5. Failing in any consumer credit transaction or advertisement to make all disclosures, determined in accordance with §§ 226.4 and 226.5 of Regulation Z, in the manner, form, and amount prescribed by §§ 226.6, 226.7, 226.8, 226.9, and 226.10 of Regulation Z.

It is further ordered, That respondent, in connection with each sale of credit life insurance written in connection with its credit sales on or after July 1, 1969, in which respondent failed to obtain a specific dated and separately signed affirmative written indication of the customer's desire for such insurance and thereafter failed to include the charges for such insurance in the amount of finance charge debited to the customer's account monthly, shall mail to each customer to whom such sale of credit life insurance was made and whose account is in open or current status, the following notice, and accompanying letter.

We hereby supply you with the following information concerning your credit life insurance policy:

1. The cost of credit life insurance which has been charged to you since you opened this account with Times Furniture Co. is (to be provided by respondent).

2. Such insurance was not and is not required as a condition to Times' extending credit to you.

3. You have a right to request cancellation of this policy. You may exercise your right to cancel by signing (on line 1) that portion of the enclosed notice canceling your credit life insurance policy and returning it to Times Furniture Co., in the accompanying self-addressed envelope. Such cancellation is effective when received by Times Furniture Co. You understand that once having canceled you will have no rights under the policy even though the policy may have been in effect up to the time of cancellation.

4. If you desire to continue your credit life insurance policy, you should sign that portion of the enclosed notice (on line 2) which indicates your desire for insurance coverage and return it to Times Furniture Co. in the accompanying self-addressed envelope.

CREDIT LIFE INSURANCE NOTICE

I hereby request cancellation of my credit life insurance covering the above account. I understand that upon receipt of this cancellation I will have no benefits under any insurance policy with respect to the above account.

(1)_____
(Signature of customer in whose name account is recorded)

Date_____

I desire to continue my credit life insurance policy

(2)_____
(Signature of customer in whose name account is recorded)

Date_____

It is important that you return this notice before _____

Respondent's obligations under this provision shall not be fulfilled until each customer affected by it has returned the notice specified herein, provided that as long as respondents can demonstrate that any such customer cannot be contacted or that any such customer failed to reply after respondents expended reasonable efforts, in writing or orally, to effect such reply monthly for a period of 4 consecutive months after mailing the notice to such customer, respondents shall have complied with this provision.

It is further ordered, That respondents deliver a copy of this order to cease and desist to all present and future personnel of respondents engaged in the consummation of any extension of consumer credit or in any aspect of preparation, creation or placing of advertising, and that respondents secure a signed statement acknowledging receipt of said order from each such person.

It is further ordered, That the respondents herein shall, within sixty (60) days after service upon them of this order, file with the Commission a report in writing, setting forth in detail the manner and form in which they have complied with this order.

It is further ordered, That respondents notify the Commission at least thirty (30) days prior to any proposed change in respondents' business such as dissolution, assignment or sale resulting in the emergence of a successor business, corporation or otherwise, the creation of subsidiaries or any other change which may affect compliance obligations arising out of the order.

Provided further, That entry of this order by the Commission does not constitute an admission by respondents that they have violated the law as alleged in the complaint which the Commission has issued.

Issued: March 9, 1972.

By the Commission.

[FR Doc.72-5805 Filed 4-17-72;8:46 am]

Title 17—COMMODITY AND SECURITIES EXCHANGES

Chapter II—Securities and Exchange Commission

[Release No. IC-7137]

PART 270—GENERAL RULES AND REGULATIONS, INVESTMENT COMPANY ACT OF 1940

Sales of Debentures Guaranteed by Small Business Administration

The Securities and Exchange Commission has adopted Rules 3c-3 and 18c-2 (17 CFR 270.3c-3, 270.18c-2) under the Investment Company Act of 1940 (Act) (15 U.S.C. 18a-1 et seq.) effective April 17, 1972. On March 20, 1972, the Commission published notice (Investment Company Act Release No. 7070, 37 F.R. 6211) that it had under consideration the adoption of the rules to enable small business investment companies licensed under the Small Business Investment Act of 1958 (15 U.S.C. 671 et seq., 72 Stat. 690) to make full use of new statutory power of the Small Business Administration (SBA) to guarantee debentures issued by such SBICs without violating certain provisions of the Investment Company Act.

The adoption of these rules is proposed by the Commission in response to a request from the SBA. The SBA's request was prompted by the enactment December 22, 1971 of Public Law 92-213 (85 Stat. 776). The statute, in pertinent part, reads as follows:

To encourage the formation and growth of small business investment companies the

V 37-75 APR 18 72 XUM

administration is authorized (but only to the extent that the necessary funds are not available to said company from private sources on reasonable terms) when authorized in appropriate Acts, to purchase, or to guarantee the timely payment of all principal and interest as scheduled on, debentures issued by such companies. Such purchases or guarantees may be made by the Administration on such terms and conditions as it deems appropriate, pursuant to regulations issued by the Administration. The full faith and credit of the United States is pledged to the payment of all amounts which may be required to be paid under any guarantee under this subsection * * *

Section 3(c)(1) of the Act (15 U.S.C. 80a–3(c)(1)) excepts from the definition of investment company any issuer whose outstanding securities are beneficially owned by not more than 100 persons and which is not making and does not presently propose to make a public offering. Beneficial ownership by a company is deemed to be beneficial ownership by one person unless the company owns 10 percent or more of the outstanding voting securities of the issuer in which case beneficial ownership is deemed to be that of the holders of such company's outstanding securities. Rule 3c–2 (17 CFR 270.3c–2), however, provides that beneficial ownership by a company owning 10 percent or more of the outstanding voting securities of an SBIC will be deemed beneficial ownership by one person so long as the value of all securities of SBIC's owned by such company does not exceed 5 percent of the value of its total assets.

The SBA has requested that the Commission adopt a rule which would provide that SBIC's not now subject to the Act by virtue of the section 3(c)(1) exception from the definition of investment company would not become subject to the Act if they sell SBA guaranteed debentures in a public offering and also, if as a result of such sale, the number of their security holders should exceed 100.

Section 18(c) of the Act (15 U.S.C. 80a–18(c)) provides, among other things, that it is unlawful for any registered closed-end investment company to issue and sell more than one class of senior security representing indebtedness. Such a company may issue indebtedness in one or more series provided that no such series shall have a preference or priority over any other series upon distribution of assets or with respect to payment of interest or dividends.

Therefore, the SBA has requested an extension of the exemption afforded by Rule 18c–1 (17 CFR 270.18c–1) which permits SBIC's, notwithstanding the provisions of section 18(c), to have outstanding more than one class of debt securities provided all such securities are privately held by the SBA or institutional investors, not publicly distributed, and without equity features.[1] The extension of the exemption to cover issuance of SBA guaranteed debentures to the public is necessary because some SBIC's are indebted to SBA on subordinated and unsubordinated debt instruments, and, in addition, some SBIC's may be indebted to private and institutional investors under yet another class of debt instruments.

In the Commission's view, the guarantee of a Government agency backed by the full faith and credit of the United States removes securities so guaranteed from the area of concern for investor protection that is the primary purpose of the Investment Company Act. The guarantee will bring those securities bearing it within the definition of "Government security" contained in section 2(a)(16) of the Act (15 U.S.C. 80a–2(a)(16)).[2] Section 3(a)(2) of the Securities Act of 1933 (15 U.S.C. 77c(a)(2)) exempts such securities from that Act's registration provisions. There is no comparable exception under the Investment Company Act for issuers of Government securities, however, and, therefore, it is necessary to provide exemptions which will permit their issuance without violating the Act or causing an issuer who would not otherwise have to do so to register as an investment company.

Rule 3c–2 provides that the term "public offering" as used in section 3(c)(1) of the Act would not be deemed to include an offer and sale of a debenture having no equity features, issued by a licensed SBIC, guaranteed by the SBA and backed by the full faith and credit of the United States. The rule also provides that holders of such securities will be counted as one person for the purpose of section 3(c)(1).

Rule 18c–2 exempts from the provisions of section 18(c) of the Act additional classes of senior securities representing indebtedness issued by licensed SBIC's provided they are guaranteed by the SBA, are backed by the full faith and credit of the United States, have no equity features and are subordinated to any other unsecured debt securities not issued pursuant to the rule or, if not subordinated, by their terms provide that they will have no preference over other unsecured debt. The provision on subordination was included because an SBA claim against the SBIC in case the guarantee is invoked might raise questions as to the Government's priority over other creditors.[3] Although debentures purchased or guaranteed by the SBA are subordinated to any other debts of an SBIC issuer, the SBA has authority to elect not to subordinate.[4] While it appears under present law that the SBA as guarantor would not have greater rights than the original holder of the security, this provision of the rule was added to insure protection of holders of other unsecured debt issued by the SBIC. Also, because some SBIC's received orders of the Commission exempting them from the provisions of the Investment Company Act on condition that they not issue and sell their securities to any person other than the SBA, the rule provides that sales of SBA guaranteed securities to the public as covered by the rule would not cause such SBIC's to lose their exemptions.

Only one comment on the rules has been received, a letter from the SBA expressing appreciation for the effective resolution of the problems under the Investment Company Act inherent in the new guarantee authority. Accordingly, the Commission is adopting the rules in the same form in which they were proposed.

The text of the rules adopted pursuant to authority granted to the Commission in sections 6(c) and 38(a) of the Act (15 U.S.C. 80a–6(c), 80a–37(a)) is as follows:

Commission action. Part 270 of Chapter II of Title 17 of the Code of Federal Regulations is amended by adding a new § 270.3c–3[5] and a new § 270.18c–2 reading as follows:

§ 270.3c–3 Definition of certain terms used in section 3(c)(1) of the Act with respect to certain debt securities offered by small business investment companies.

The term "public offering" as used in section 3(c)(1) of the Act shall not be deemed to include the offer and sale by a small business investment company, licensed under the Small Business Investment Act of 1958, of any debt security issued by it which is (a) not convertible into, exchangeable for, or accompanied by any equity security, and (b) guaranteed as to timely payment of principal and interest by the Small Business Administration and backed by the full faith and credit of the United States. The holders of any securities offered and sold as described in this section shall be counted, in the aggregate, as one person for purposes of section 3(c)(1) of the Act.

§ 270.18c–2 Exemptions of certain debentures issued by small business investment companies.

(a) The issuance or sale of any class of senior security representing indebtedness by a small business investment company licensed under the Small Business Investment Act of 1958 shall not be prohibited by section 18(c) of the Act provided such senior security representing indebtedness is (1) not convertible into, exchangeable for, or accompanied by an option to acquire any equity security; (2) fully guaranteed as to timely payment of all principal and interest by the Small Business Administration and backed by the full faith and credit of the United States; and (3) subordinated to any other debt securities not issued pursuant to this section or, if such security is not so subordinated, that such security, according to its own terms, will not be preferred over any other unsecured debt securities in the payment of principal and interest: *And further provided*, That all other debt securities then outstanding issued by such small business investment company were issued as permitted by § 270.18c–1 or this section.

(b) Any security issued and sold as permitted by paragraph (a) of this section shall be deemed for purposes of § 270.18c–1 to be privately held by the Small Business Administration and for purposes of § 270.18c–1 shall not be deemed to be publicly held outstanding indebtedness.

(c) The issuance or sale of any security as permitted by paragraph (a) of this section shall not be deemed to be a sale to any person other than the Small Business Administration by any small business investment company licensed under the Small Business Investment Company Act of 1958 which is exempt from any provision of the Investment Company Act, if such exemption is conditioned on such company not offering or selling its securities to any person other than the Small Business Administration.

(Secs. 6(c), 38(a), 54 Stat. 800, 841, 15 U.S.C. 80a–6(c), 80a–37(a))

Rules 3c–3 and 18c–2 have been adopted effective April 17, 1972, as permitted by section 553 (d)(1) and (d)(3) of the Administrative Procedure Act (5 U.S.C. 553(d) (1), (3)) since they grant exemptions or relieve restrictions and are necessary to carry out the congressional intent expressed in Public Law 92–213. The Commission finds that good cause exists for making these rules effective without further delay, and that further notice and procedure as specified in 5 U.S.C. 553 are unnecessary. Accordingly, the foregoing rules shall be effective on April 17, 1972.

By the Commission.

[SEAL] RONALD F. HUNT, *Secretary.*

Title 18—CONSERVATION OF POWER AND WATER RESOURCES

Chapter I—Federal Power Commission

SUBCHAPTER E—REGULATIONS UNDER NATURAL GAS ACT

[Docket No. R–393; Order 428–C]

PART 157—APPLICATIONS FOR CERTIFICATES OF PUBLIC CONVENIENCE AND NECESSITY

Small Producers; Filing of Contracts

APRIL 10, 1972.

The Commission in Order No. 428 issued March 18, 1971 (36 F.R. 5598, March 25, 1971) in the above-entitled proceeding established a blanket certificate procedure for small producers pursuant to which they are authorized to make small producer sales nationwide under existing and future contracts at the price specified in each such contract. In this connection, the Commission revised, inter alia, § 157.40 of its regulations under the Natural Gas Act relating to small producer certificates.

Section 157.40(g) of the regulations required pipeline purchasers, and large producer purchasers to file with this Commission each new contract and each contract amendment, dated on or after March 18, 1971, for the sale of natural gas to them by a small producer. By this order we are amending that provision to require the purchaser to submit with each filing, pertaining to the dedication of additional natural gas, the estimated purchase volumes and rate for the first full year after the commencement of deliveries. This data is not ascertainable from the contracts, but can be estimated readily by the purchaser. The amendment should create no burden for purchasers because the information is available to them and is insignificant in quantity.

The additional data will enable the Commission to determine more quickly and more accurately the amounts of new gas coming into the interstate market as a result of the small producer program enacted in Order No. 428. The additional requirement will be effective as of the date of issuance of this order and will apply to all contract filings involving the dedication of additional natural gas made pursuant to § 157.40(g) on or after such effective date.

The Commission finds:

(1) In view of the minor amendment herein to the Commission's regulations, the notice and public procedure provisions of 5 U.S.C. section 553 do not apply to this order.

(2) In view of the purpose, intent, and effect of the amendment herein ordered, good cause exists for making the amendment effective upon issuance of this order.

(3) The action taken herein is necessary and appropriate for the administration of the Natural Gas Act.

The Commission, acting pursuant to the provisions of the Natural Gas Act, as amended, particularly sections 4, 5, 7, and 16 (52 Stat. 822, 823, 824, 825, and 830; 56 Stat. 83, 84; 61 Stat. 459; 76 Stat. 72, 15 U.S.C. 717c, 717d, 717f, and 717o) orders:

(A) Paragraph (g) of § 157.40 in Part 157, Subchapter E, of Chapter I, Title 18 of the Code of Federal Regulations, is amended to read:

§ 157.40 Exemption of small producers from certain filing requirements.

* * * * *

(g) *Filing of contracts and notification of abandonment.* Pipeline purchasers and large producer purchasers shall file, within 60 days of the execution thereof, each new contract and each contract amendment dated on or after March 18, 1971, for the sale of natural gas to them by a small producer pursuant to the exemption authorized hereunder, together with an estimate of the purchase volumes and the rate to be charged for the first full year after the commencement of deliveries with respect to each new contract and each contract amendment dedicating additional natural gas, and shall notify this Commission of the cessation of deliveries made by a small producer pursuant to the exemption authorized hereunder within 60 days of such cessation.

(B) The Secretary of the Commission shall cause prompt publication of this order to be made in the FEDERAL REGISTER.

(C) The amendment adopted herein shall be effective upon the issuance of this order.

By the Commission.

[SEAL] KENNETH F. PLUMB, *Secretary.*

[FR Doc.72–5795 Filed 4–17–72;6:45 am]

Title 19—CUSTOMS DUTIES

Chapter I—Bureau of Customs, Department of the Treasury

[T.D. 72–105]

PART 1—GENERAL PROVISIONS

Extension of Boundaries of Port of Entry, Milwaukee, Wis.

In order to provide better Customs service to carriers and the importing community in the State of Wisconsin, it is considered desirable to extend the existing port limits of Milwaukee, Wis.

Accordingly, by virtue of the authority vested in the President by section 1 of the Act of August 1, 1914, 38 Stat. 623, as amended (19 U.S.C. 2), which was delegated to the Secretary of the Treasury by the President in Executive Order No. 10289, September 17, 1951 (3 CFR Ch. 11), and pursuant to authorization provided by Treasury Department Order No. 190, Rev. 7 (34 F.R. 15846), the geographical limits of the Customs port of Milwaukee, Wis., in the Milwaukee, Wis., Customs district (region IX), which encompass the county of Milwaukee, Wis., are extended to include all the territory within the counties of Milwaukee and Waukesha, Wis.

Section 1.2(c) of the Customs regulations is amended by deleting "(including the territory described in T.D. 67–31)" after "Milwaukee" in the column headed "Ports of Entry" for the Milwaukee, Wis., district (region IX), and inserting in lieu thereof "(including the territory described in T.D. 72–105)."

(80 Stat. 379, sec. 1, 37 Stat. 434, sec. 1, 38 Stat. 623, as amended, R.S. 251, as amended, sec. 624, 46 Stat. 759; 5 U.S.C. 301, 19 U.S.C. 1, 2, 66, 1624)

The purpose of this extension of existing port of entry limits is to provide better service to importers, carriers, and the public. Notice and public procedure under 5 U.S.C. 553(b) is found, therefore, to be unnecessary.

V 37 N 75
APR 18 72

Effective date. This Treasury Decision shall become effective 30 days after publication in the FEDERAL REGISTER.

[SEAL] EUGENE T. ROSSIDES,
Assistant Secretary of the Treasury.

APRIL 10, 1972.

[FR Doc.72-5871 Filed 4-17-72;8:50 am]

[T.D. 72-106]

PART 8—LIABILITY FOR DUTIES; ENTRY OF IMPORTED MERCHANDISE

PART 24—CUSTOMS FINANCIAL AND ACCOUNTING PROCEDURE

Reporting of Importer Numbers

On August 25, 1971, a notice of proposed rule making was published in the FEDERAL REGISTER (36 F.R. 16661) to prescribe the reporting of a number on each Entry Record, Customs Form 5101, and the filing of such number on a notification of or application for importer's number, or notice of change of name or address, Customs Form 5106, in order to identify the "owner of the merchandise" on each dutiable formal entry. The amendment will permit the Bureau of Customs to identify the owner or ultimate consignee of merchandise associated with formal entries without reference to the records and files of customhouse brokers.

After consideration of all relevant matter presented by interested persons, in order to clarify the proposed amendments, the more commonly used term "ultimate consignee" is substituted for the term "owner of merchandise" where it appears, and the second sentence of proposed section 8.8(c) is changed to use the term "importer number of the importer of record." Editorial changes have also been made.

Accordingly, the proposed amendments are hereby adopted as set forth below:

In § 8.8, paragraph (c) is amended to read as follows:

§ 8.8 Requirements on entry.

* * * * *

(c) A copy of Customs Form 5101, Entry Record, shall be prepared and presented by the importer with each dutiable consumption, warehouse, appraisement, vessel repair, or drawback entry. The importer number of the importer of record and the importer number of the ultimate consignee shall be reported for each such entry filed other than a consolidated entry covering the shipment of several ultimate consignees. When the importer of record and the ultimate consignee are one and the same, the importer number shall be entered in both spaces provided on Customs Form 5101. When a consolidated entry is filed, the notation "consolidated" shall be entered in the space for the importer number of the ultimate consignee. If an importer of record desires to have refunds, bills, or notices of liquidation pertaining to his entry mailed in care of his agent, the agent's importer number shall also be reported on the Customs Form 5101. In such a case, the importer of record shall file, or shall have filed previously, a Customs Form 4811 authorizing the mailing of refunds, bills, or notices of liquidation to the agent.

* * * * *

(Sec. 484, 46 Stat. 722, as amended; 19 U.S.C. 1484)

In § 24.5, paragraph (a) is amended to read as follows:

§ 24.5 Filing identification number.

(a) Each person, business firm, Government agency, or other organization shall file Customs Form 5106, notification of or application for importer's number, or notice of change of name or address, with the first dutiable formal entry which he submits or the first request for services that will result in the issuance of a bill or a refund check upon adjustment of a cash collection. Notification of or application for importer's number, or notice of change of name or address, Customs Form 5106, shall also be filed for the ultimate consignee for which such entry is being made.

* * * * *

(R.S. 251, as amended, sec. 624, 46 Stat. 759; 19 U.S.C. 66, 1624)

To allow an initial 6-month period for importers of record to secure importer numbers of ultimate consignees, the importer numbers of ultimate consignees which are not available at the time of entry of merchandise during the first 6 months after this amendment becomes effective shall be submitted on an amended Customs Form 5101, Entry Record, to the port where the entry was filed, by the end of the first 6 months after this amendment becomes effective. Following such 6-month period, the identification of the ultimate consignee on each dutiable formal entry is a mandatory requirement with the submission of such entries.

Effective date. This amendment shall become effective 30 days after publication in the FEDERAL REGISTER.

[SEAL] G. R. DICKERSON,
Acting Commissioner of Customs.

Approved: April 10, 1972.

EUGENE T. ROSSIDES,
Assistant Secretary of the Treasury.

[FR Doc.72-5872 Filed 4-17-72;8:50 am]

[T.D. 72-107]

PART 171—FINES, PENALTIES, AND FORFEITURES

PART 172—LIQUIDATED DAMAGES

Signatures on Petitions

Sections 171.11(b) and 172.11(b) of the Customs Regulations provide that a petition for remission or mitigation of a fine, penalty, or forfeiture, or a petition for relief from liquidated damages be signed by the petitioner or if the petitioner is a corporation, be signed by an officer thereof. However, it would greatly facilitate the filing of these petitions to permit them to be signed by an attorney representing the petitioner, and, if the petitioner is a corporation, by a responsible supervisory employee thereof.

Accordingly, Parts 171 and 172 of the Customs Regulations are amended as follows:

Paragraph (b) of § 171.11 is amended to read:

§ 171.11 Petition for relief.

* * * * *

(b) *Signature.* The petition for remission or mitigation shall be signed by the petitioner or his attorney at law. If the petitioner is a corporation, the petition may be signed by an officer or responsible supervisory employee thereof, or an attorney at law representing the corporation.

* * * * *

(R.S. 251, as amended, secs. 618, 624, 46 Stat. 757, as amended, 759; 19 U.S.C. 66, 1618, 1624)

Paragraph (b) of § 172.11 is amended to read:

§ 172.11 Petition for relief.

* * * * *

(b) *Form.* A petition for relief need not be in any particular form. Such petition shall set forth the facts relied upon by the petitioner to justify cancellation of the claim for liquidated damages, and shall be signed by the petitioner or his attorney at law. If the petitioner is a corporation, the petition may be signed by an officer or responsible supervisory employee thereof, or an attorney at law representing the corporation.

(R.S. 251, as amended, secs. 623, 624, 46 Stat. 759, as amended; 19 U.S.C. 66, 1623, 1624)

This amendment will eliminate a requirement which has been found to be unnecessarily restrictive. Therefore, notice and public procedure under 5 U.S.C. 553(b) is found to be unnecessary and, since the amendment will relieve a present restriction, good cause is found for making it effective at the earliest possible date.

Effective date. This amendment shall be effective upon publication in the FEDERAL REGISTER (4-18-72).

[SEAL] LEONARD LEHMAN,
Acting Commissioner of Customs.

Approved: April 10, 1972.

EUGENE T. ROSSIDES,
Assistant Secretary of the Treasury.

Title 21—FOOD AND DRUGS

Chapter I—Food and Drug Administration, Department of Health, Education, and Welfare

SUBCHAPTER B—FOOD AND FOOD PRODUCTS

PART 121—FOOD ADDITIVES

Subpart C—Food Additives Permitted in Feed and Drinking Water of Animals or for the Treatment of Food-Producing Animals

SUBCHAPTER C—DRUGS

PART 135e—NEW ANIMAL DRUGS FOR USE IN ANIMAL FEEDS

Sulfadimethoxine, Ormetoprim and 3-Nitro-4-Hydroxyphenylarsonic Acid

The Commissioner of Food and Drugs has evaluated a supplemental new animal drug application (41-984V) filed by Hoffmann-LaRoche, Inc., Nutley, N.J. 07110, proposing an amendment to the regulations to provide for an additional use of sulfadimethoxine, ormetoprim, and 3-nitro-4-hydroxyphenylarsonic acid as an aid in the prevention of fowl cholera in broiler chickens. The supplemental application is approved.

Therefore, pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (sec. 512(i), 82 Stat. 347; 21 U.S.C. 360b(i)) and under authority delegated to the Commissioner (21 CFR 2.120), Part 121 and 135e are amended as follows:

1. In Part 121, § 121.262(c) is amended in the "Limitations" and "Indications for use" columns in table 1 for item 1.15 as follows:

§ 121.262 3-Nitro-4-hydroxyphenylarsonic acid.

Title 22—FOREIGN RELATIONS

Chapter VIII—Employee-Management Relations Commission

[Dept. Reg. 108.658]

EMPLOYEE-MANAGEMENT RELATIONS

On February 23, 1972, there was published in the FEDERAL REGISTER (37 F.R. 3870), a notice of proposed rule making to add Chapter VIII to Title 22 of the Code of Federal Regulations, in order to implement Executive Order 11636 (36 F.R. 24901). Interested persons were invited to submit written comments, suggestions, or objections, regarding the proposed regulations not later than March 24, 1972. After consideration of all relevant matter presented, the Employee-Management Relations Commission has decided to adopt the proposed regulations with the following changes:

1. The titles and definitions of §§ 801.11 and 801.12 are expanded to conform with Executive Order 11636.

2. In §§ 802.5(b) and 802.18(b), specific requirements are placed upon the foreign affairs agencies to bring promptly to the attention of employees notices which are dispatched to the field by telegraph.

3. Section 802.10 is amended by adding a new paragraph (c) to establish a procedure for Hearing Officers to be disqualified from participating in a representation hearing.

4. Section 803.6(a) is expanded to clarify the circumstances under which settlements of unfair practice charges may be approved by the Commission.

5. A new § 803.10(c) is added to specify the circumstances under which a Hearing Examiner may be disqualified in an unfair practice proceeding.

6. Section 804.2 is changed to conform to the current standards of conduct regulations issued by the Assistant Secretary of Labor for Labor-Management Relations.

7. The title of § 805.12 is deleted.

8. In § 806.1, a new paragraph (b) is added to permit the extension of any period of time prescribed in the regulations, if such extension is necessary to take into account foreign holidays where actions cannot be taken because of such holidays.

Pursuant to sections 5 and 12 of Executive Order 11636 (36 F.R. 24901), Title 22 of the Code of Federal Regulations is amended by addition of a new Chapter VIII to read as set forth below.

Effective date. This part shall become effective April 12, 1972.

DAVID P. TAYLOR,
Chairman, Employee-Management Relations Commission.

APRIL 12, 1972.

V 37-75 APR 18 72 XUM

1. The table of contents of Chapter VIII reads as follows:

Part
801 General.
802 Representation proceedings.
803 Unfair practice proceedings.
804 Standards of conduct.
805 Consultation proceedings.
806 Miscellaneous.

PART 801—GENERAL

Subpart A—Purpose and Scope

Sec.
801.1 Purpose and scope.

Subpart B—Meanings of Terms as Used in This Chapter

801.10 Order.
801.11 Employee, management official, confidential employee, foreign affairs agency, organization, Board, Secretary, Commission.
801.12 Eligible employee.
801.13 Recognition, unfair practices.
801.14 Standards of conduct for organizations.
801.15 Director.
801.16 Hearing Officer.
801.17 Hearing Examiner.
801.18 Chief Hearing Examiner.
801.19 Party.
801.20 Intervenor.
801.21 Certification.
801.22 Secret ballot.
801.23 Showing of interest.

AUTHORITY: The provisions of this Part 801 issued under secs. 5, 12, E.O. 11636, 36 F.R. 24901.

Subpart A—Purpose and Scope

§ 801.1 Purpose and scope.

The regulations contained in this chapter prescribe procedures and basic principles which the Employee-Management Relations Commission shall utilize in:

(a) Deciding questions relating to the eligibility of organizations for recognition under the order;

(b) Supervising elections to determine whether an organization is the choice of a majority of the eligible voters in a foreign affairs agency as their exclusive representative, and certifying the results;

(c) Effectuating the provisions of the order relating to standards of conduct required for organizations;

(d) Deciding complaints of alleged unfair practices, and alleged violations of the standards of conduct for organizations;

(e) Deciding questions of whether an obligation to consult exists under section 8 of the order with respect to particular issues.

Subpart B—Meanings of Terms as Used in This Chapter

§ 801.10 Order.

"Order" means Executive Order 11636, entitled "Employee Management Relations in the Foreign Service of the United States."

§ 801.11 Employee, management official, confidential employee, foreign affairs agency, organization, Board, Secretary, Commission.

"Employee," "management officials," "confidential employee," "foreign affairs agency," "organization," "Board," "Secretary," and "Commission" have the meanings set forth in section 2 of the order.

§ 801.12 Eligible employee.

"Eligible employee" means employee but does not include any management official or confidential employee.

§ 801.13 Recognition, unfair practices.

"Recognition" and "unfair practices" have the meanings as set forth in sections 7 and 13, respectively, of the order.

§ 801.14 Standards of conduct for organizations.

"Standards of conduct for organizations" shall have the meaning as set forth in section 12 of the order, as amplified in Part 804 of this chapter.

§ 801.15 Director.

"Director" means the Director of the Office of Labor-Management and Welfare-Pension Reports.

§ 801.16 Hearing Officer.

"Hearing Officer" means the individual designated by the Commission to conduct a hearing involving a question concerning representation matters as may be assigned.

§ 801.17 Hearing Examiner.

"Hearing Examiner" means the Chief Hearing Examiner or an individual designated by the Chief Hearing Examiner to conduct a hearing in cases under sections 12 and 13 of the order and such other matters as may be assigned.

§ 801.18 Chief Hearing Examiner.

"Chief Hearing Examiner" means the Chief Hearing Examiner, Department of Labor, Washington, D.C. 20210.

§ 801.19 Party.

"Party" means any person, employee, group of employees, organization, or foreign affairs agency: (a) Filing a complaint, petition, request, or application; (b) named in a complaint, petition, request or application; or (c) whose intervention in a proceeding has been permitted or directed by the Commission, Director, Hearing Officer, Chief Hearing Examiner, or Hearing Examiner, as the case may be.

§ 801.20 Intervenor.

"Intervenor" means a party in a proceeding whose intervention has been permitted or directed by the Commission, Director, Hearing Officer, Chief Hearing Examiner, or Hearing Examiner, as the case may be.

§ 801.21 Certification.

"Certification" means the determination by the Commission, of the results of an election held under the order and the regulations in this chapter.

§ 801.22 Secret ballot.

"Secret ballot" means the expression by ballot, voting machine or otherwise, but in no event by proxy of a choice with respect to any election or vote taken upon any matter, which is cast in such a manner that the person expressing such choice cannot be identified with the choice expressed, except in that instance in which any determinative challenged ballot is opened or where a unanimous ballot discloses the intent of all voters.

§ 801.23 Showing of interest.

"Showing of interest" means eligible employees" signed and dated authorization cards or petitions authorizing an organization to represent them for purposes of exclusive recognition; eligible employees' executed allotment of dues forms; current certification; employees' signed and dated petitions or cards indicating that they no longer desire to be represented for the purposes of exclusive recognition by the currently certified organization or other evidence approved by the Commission.

AUTHORITY: The provisions of this Part 802 issued under sec. 5, E.O. 11636, 36 F.R. 24901.

§ 802.1 Who may file petitions.

(a) A petition for exclusive recognition may be filed by an organization requesting an election to determine whether it should be recognized as the exclusive representative of eligible employees of a foreign affairs agency or should replace another organization as the exclusive representative of such employees.

(b) A petition for an election to determine if an organization should cease to be the exclusive representative because it does not represent a majority of eligible employees of a foreign affairs agency may be filed by a foreign affairs agency or by any employee(s) or any individual acting on their behalf.

§ 802.2 Contents of petition, filing and service of petition; challenges to petition.

(a) *Petition for exclusive recognition.* A petition by an organization for exclusive recognition shall contain the following;

(1) The name of the foreign affairs agency, its address, and the person to contact, title, and telephone number, if known.

(2) Name, address, and telephone number of the certified representative, if any, and the date of its certification, if known to the petitioner;

(3) Names, addresses, and telephone numbers of any other interested organizations, if known to the petitioner;

(4) Name and affiliation, if any, of the petitioner and its address and telephone number;

(5) A statement that the petitioner has submitted to the Commission a current roster of its officers and representatives, a copy of its constitution and by-laws and a statement of its objectives;

(6) A declaration by the person signing the petition, under the penalties of the Criminal Code (18 U.S.C. 1001) that its contents are true and correct to the best of his knowledge and belief;

(7) The signature of the petitioner's representative, including title and telephone number;

(8) The petition shall be accompanied by a showing of interest of not less than twenty-five (25) percent of the eligible employees of a foreign affairs agency and an alphabetical list of names constituting such showing;

(9) A statement that the petitioner is in full compliance with the requirements of the order and the regulations under this chapter.

(b) *Petition for an election to determine if an organization should cease to be the exclusive representative.* (1) A petition by a foreign affairs agency shall contain the information set forth in paragraph (a) of this section, except paragraph (a) (5), (8), and (9) of this section, and a statement that the foreign affairs agency has a good faith doubt that the currently certified organization represents a majority of its eligible employees. Such a statement must contain a detailed explanation of the reasons supporting the good faith doubt;

(2) A petition by employees or an individual acting on behalf of employees shall contain the information set forth in paragraph (a) of this section, except paragraph (a) (5), (8), and (9) of this section, and it shall be accompanied by a showing of interest of not less than twenty-five (25) percent of the employees indicating that the employees of the foreign affairs agency no longer desire to be represented for the purpose of exclusive recognition by the currently certified organization and an alphabetical list of names constituting such showing.

(c) *Filing and service of petition and copies.* (1) An original and four copies of a petition shall be filed with the Commission.

(2) The petitioner shall supply with its petition two (2) copies of a statement of any other relevant facts and of all correspondence relating to the question concerning representation.

(3) Simultaneously with the filing of a petition, copies of the petition together with the attachments referred to in subparagraph (2) of this paragraph shall be served by the petitioner on all known interested parties, and a written statement of such services shall be filed with the Commission. The showing of interest submitted with the petition shall not be furnished to the foreign affairs agency or to any of the organizations listed in the petition.

(d) *Adequacy and validity of showing of interest.* The Commission shall determine the adequacy of the showing of interest administratively, and such decision shall be final and not subject to collateral attack at a representation hearing. Any party challenging the validity of showing of interest of the petitioner or of an intervenor must file its challenge with the Commission, with respect to the petitioner, within fifteen (15) days after the initial date of posting and dispatch of the notice of petition as provided in § 802.5(b) and with respect to any intervenor, within fifteen (15) days of service of a copy of the request for intervention, and support the challenge with evidence including signed statements of employees and any other written evidence. The Commission shall investigate the challenge and take such action as it deems appropriate.

(e) *Challenge to status of an organization.* Any party challenging the status of an organization under the order must file its challenge with the Commission and support the challenge with evidence. With respect to the petitioner, such a chaleinge must be filed within fifteen (15) days after the initial date of posting and dispatch of the notice of petition as provided in § 802.5(b) and with respect to an intervenor within fifteen (15) days of service of a copy of the request for intervention. The Commission shall investigate the challenge and take such action as it deems appropriate.

§ 802.3 Timeliness of petition.

(a) When there is no certified exclusive representative of the eligible employees, a petition will be considered timely filed provided the petition is not for a foreign affairs agency in which a valid election has been held within the preceding twelve (12) month period.

(b) A petition for exclusive recognition or other election petition will not be considered timely if filed within two (2) years after a valid certification has come into effect unless unusual circumstances exist which will substantially affect the voting unit or the majority representation.

(c) A petitioner who withdraws a petition after the opening of a hearing, or after the approval of an agreement for a consent election, shall be barred from filing another petition for six (6) months.

§ 802.4 Effect of certification.

When a secret ballot election has resulted in the certification of an exclusive representative for the eligible employees in a foreign affairs agency, such certification shall remain valid for a period of not less than two (2) years, unless such certification is earlier revoked for proper cause by the Commission. After the expiration of two (2) years following the effective date of a certification, such certification shall remain in effect until (a) successfully challenged by a timely petition and election, or (b) revoked for proper cause by the Commission.

§ 802.5 Investigation and notice of petition.

(a) Upon the filing of a petition the Commission shall make such investigation as it deems necessary.

(b) Upon the request of the Commission, after the filing of a petition, the foreign affairs agency shall post at its headquarters copies of a notice to all employees in places where notices are normally posted affecting the employees of the agency. In addition, the foreign affairs agency shall, simultaneously with the date of posting, dispatch telegraphic notice of the petition to Foreign Service posts abroad. Such telegraphic notice shall be brought promptly to the attention of the agency's employees at such posts.

(c) Such notice shall set forth: (1) The name of the petitioner and (2) a statement that all interested parties are to advise the Commission in writing of their interest within fifteen (15) days from the date of initial posting and dispatch of such notice.

(d) The posted notice shall remain posted for a period of fifteen (15) days. The notice shall be posted conspicuously and shall not be covered by other material, altered, or defaced.

(e) The foreign affairs agency shall furnish the Commission and all known interested parties with the following: (1) Name, address, and telephone number of any organization known to represent the employees; (2) a copy of all correspondence relevant to the petition; (3) a copy of a current certification, if any, covering the employees of the foreign affairs agency; (4) a current alphabetized list of eligible employees, their rank and positions of assignment; and (5) a separate, current alphabetized list of management officials and confidential employees, their rank and positions of assignment.

(f) Within fifteen (15) days following the receipt of a copy of the petition, unless an extension of time has been granted by the Commission, the foreign affairs agency may file a response thereto with the Commission raising any matter which is relevant to the petition. A copy of such response, if any, shall be served simultaneously on the parties and a statement of such service shall be filed with the Commission.

(g) The Commission shall take appropriate measures which, among other things, may consist of one of the fol-

V 37-75 APR 18 72 XUM

lowing: (1) The approval of a withdrawal request; (2) the dismissal of the petition; (3) direction of an election; or (4) the issuance of a notice of hearing.

§ 802.6 Intervention.

(a) Subject to the provisions of paragraph (b) of this section and § 802.7(b), an organization will be permitted to intervene as a matter of right in any proceeding pursuant to this part if it has submitted a showing of interest of five (5) percent or more of the eligible employees of the foreign affairs agency together with an alphabetical list of names constituting such showing or has submitted evidence of a current certification as exclusive representative of the eligible employees of a foreign affairs agency.

(b) No organization may participate in any representation proceeding unless it has notified the Commission in writing, accompanied by its showing of interest or by evidence of a current certification, as specified in paragraph (a) of this section of its desire to intervene within fifteen (15) days after the initial posting and dispatch of the notice of petition as provided in § 802.5 (b) unless good cause is shown for extending the period. Simultaneously with the filing of a request for intervention, copies of such request, excluding the showing of interest, shall be served on all known interested parties, and a written statement of such service shall be filed with the Commission.

(c) Any organization intervening must supply a statement to the Commission that it is in full compliance with the order and these regulations and that it has submitted to the foreign affairs agency a current roster of its officers and representatives, a copy of its constitution and bylaws and a statement of its objectives.

(d) Intervention by any party which does not meet the requirements of this section shall be at the discretion of the Commission.

§ 802.7 Withdrawal, dismissal, or deferral of petitions; consolidation of cases; denial of intervention.

(a) If the Commission determines after an investigation that the petition has not been filed timely, the petitioner has not made a sufficient showing of interest, the petition is not otherwise actionable, or an intervention is not appropriate, it may request the petitioner or intervenor to withdraw the petition or the intervention or, in the absence of such withdrawal within a reasonable period of time, it may dismiss the petition or deny the request for intervention.

(b) If the Commission determines, after investigation, that a valid issue has been raised by a challenge under § 802.2 (d) or (e), it may take such action as it deems appropriate including a request to the petitioner to withdraw the petition, dismissal of the petition, denial of the request for intervention, deferral of action upon the petition or request for intervention until such time as those issues have been resolved pursuant to this part, or consolidation of such issues with the representation matter for resolution of all issues.

(c) If the Commission dismisses the petition or denies the request for intervention, it shall furnish the petitioner or the party requesting intervention with a written statement of the grounds for the dismissal or the denial, sending a copy of such statement to the foreign affairs agency, and to any other parties as appropriate.

§ 802.8 Agreement for consent election.

(a) Subsequent to the filing of a petition and after expiration of the fifteen (15) day posting period of the notice of petition as provided in § 802.5(d), the foreign affairs agency, petitioner and any intervenors who have complied with the requirements set forth in § 802.6, and paragraph (d) of this section may agree that a secret ballot election shall be conducted and such agreement in a form approved by the Commission, shall be filed with the Commission. Any qualified intervenor who refuses to sign an agreement for a consent election may express his objections to the agreement in writing to the Commission. The Commission, after careful consideration of the agreement and of such objections, if any, may approve the agreement or take such other action as it deems appropriate. If the Commission approves the agreement, the election shall be conducted by the foreign affairs agency, under the supervision of the Commission in accordance with § 802.18 to determine whether the eligible employees desire to be represented for purposes of exclusive recognition by any or none of the organizations involved.

(b) The parties shall agree on the eligibility period for employee participation in the election, the dates of the election, the designations on the ballot and other related election procedures.

(c) In the event that the parties cannot agree on the matters contained in paragraph (b) of this section, the Commission, after careful consideration of the views of the parties, shall decide these matters.

(d) All parties desiring to participate in an election being conducted pursuant to this section, or pursuant to § 802.17, including intervening organizations which have met the requirements of § 802.6, must sign an agreement providing for such an election in a form prescribed by the Commission.

§ 802.9 Notice of hearing.

The Commission may issue a notice of hearing to resolve any questions relating to the representation matter. A notice of hearing providing for at least ten (10) days notice, except in unusual circumstances, shall be served on all interested parties and shall include:

(a) A statement of the time, place, and nature of the hearing;

(b) The name of the foreign affairs agency, petitioner and intervenors, if any;

(c) A statement of the authority and jurisdiction under which the hearing is to be held.

§ 802.10 Conduct of hearing.

(a) The Commission, in its sole discretion and on its own motion, may sit en banc and conduct the hearing. Where the Commission hears the case sitting en banc, it will issue a decision on the record in the case after the close of the hearing. The Commission in such cases will have all the powers of a Hearing Officer and will advise the parties (notwithstanding § 802.15) whether briefs will be permitted. If the Commission does not elect to sit en banc, it shall designate a Hearing Officer.

(b) Hearings shall be open to the public unless otherwise ordered by the Hearing Officer for good cause, stated in writing, and made a part of the record. When requested to do so by the head of the foreign affairs agency, the Commission shall direct that the hearing be conducted as a closed hearing, in whole or in part, in order to prevent the disclosure of information that would be injurious to the national security or foreign policy. It shall be the duty of the Hearing Officer to inquire fully into all matters in issue and the Hearing Officer shall obtain a full and complete record upon which the Commission can make an appropriate decision.

(c) At any time another Hearing Officer may be substituted for the Hearing Officer previously presiding. A Hearing Officer may withdraw from a proceeding whenever he deems himself disqualified. Any party may request the Hearing Officer, at any time following his designation and before transmittal of the case to the Commission, to withdraw on grounds of personal bias or disqualification by filing with him promptly upon discovery of alleged facts forming a basis for doing so an affidavit stating in detail the matters alleged to constitute grounds for disqualification. If, in the opinion of the Hearing Officer, such affidavit is filed with due diligence and is sufficient on its face, he shall forthwith disqualify himself and withdraw from the proceeding. If he does not disqualify himself and withdraw from the proceeding he shall so rule upon the record, stating the grounds for his ruling.

(d) An official reporter shall make the only official transcript of such proceedings. Copies of the official transcript will not be provided to the parties but may be purchased by arrangement with the official reporter or arrangements may be made with the Commission to examine the transcript during normal working hours. The transcript of any portion of the proceeding which has been conducted as a closed hearing for reasons of national security or foreign policy shall be classified or administratively controlled in accordance with the security regulations of the foreign affairs agency concerned.

(e) Hearings under this section are considered investigatory and not adversary. Their purpose is to develop a full and complete factual record. The rules of relevancy and materiality are paramount; there are no burdens of proof and the technical rules of evidence do not apply.

§ 802.11 Motions.

(a) All motions shall be in writing, or, if made at the hearing may be stated orally on the record and shall state briefly the order or relief sought and the grounds for such motion. An original and two copies of written motions shall be filed and a copy thereof simultaneously shall be served on the other parties to the proceedings. Motions made prior to the hearing shall be filed with the Commission, and motions made during the hearing shall be filed with the Hearing Officer. After the transfer of the case to the Commission, except as otherwise provided, all motions shall be filed with the Commission. Other parties may file responses to such motions within five (5) days of service. The Commission may rule upon all motions filed with it causing a copy of said ruling to be served on the parties, or it may refer the motion to the Hearing Officer. The Hearing Officer shall rule, either orally on the record or in writing, upon all motions filed at the hearing or referred to him as hereinabove provided, except that all motions to dismiss petitions shall be referred for appropriate action at such time as the record is considered by the Commission.

(b) Motions to intervene will not be entertained by the Hearing Officer.

(c) All motions, rulings and orders shall become a part of the record. Rulings by the Hearing Officer shall be considered by the Commission when the case is transferred to it for decision.

(d) The right to make motions or to make objections to rulings on motions shall not be deemed waived by participation in the proceeding.

§ 802.12 Rights of the parties.

(a) Any party shall have the right to appear at any hearing in person, by counsel, or by other representative, and and party shall have the right to examine and cross-examine witnesses and to introduce into the record documentary and other evidence. Two (2) copies of documentary evidence shall be submitted and a copy furnished simultaneously to the other parties. Stipulations of fact may be introduced in evidence with respect to any issue.

(b) Any party shall be entitled, upon request, to a reasonable period at the close of the hearing for oral argument, which shall be included in the stenographic report of the hearing.

§ 802.13 Duties and powers of the Hearing Officer.

It shall be the duty of the Hearing Officer to inquire fully into the facts as they relate to the matters presented. With respect to cases assigned to the Hearing Officer between the time he or she is designated and the transfer of the case to the Commission, the Hearing Officer shall have the authority to:

(a) Grant requests for appearance of witnesses or production of records;

(b) Rule upon offers of proof and receive relevant evidence;

(c) Take or cause depositions to be taken whenever the ends of justice would be served thereby;

(d) Limit lines of questioning or testimony which are immaterial, irrelevant, customarily privileged, or unduly repetitious;

(e) Regulate the course of the hearing and, if appropriate, exclude from the hearing persons who engage in misconduct;

(f) Strike all related testimony of witnesses refusing to answer any questions ruled to be proper;

(g) Hold conferences for the settlement or simplification of the issues by consent of the parties or upon his or her own motion;

(h) Dispose of procedural requests, motions, or similar matters which shall be made part of the record of the proceeding, including motions referred to the Hearing Officer by the Commission and motions to amend petitions;

(i) Examine and cross-examine witnesses and to introduce into the record documentary or other evidence;

(j) Request the parties at any time during the hearing to state their respective positions concerning any issue in the case or theory in support thereof;

(k) Continue the hearing from day-to-day, or adjourn it to a later date or to a different place, by announcement thereof at the hearing or by other appropriate notice;

(l) Correct or approve proposed corrections of the official transcript, when deemed necessary;

(m) Take any other action necessary under the foregoing and not prohibited by these regulations.

§ 802.14 Objections to conduct of hearing.

Any objection to the introduction of evidence may be stated orally or in writing and shall be accompanied by a short statement of the grounds of such objection, and included in the record. No such objection shall be deemed waived by further participation in the hearing. Automatic exception will be allowed to all adverse rulings.

§ 802.15 Filing of briefs.

(a) Any party desiring to file a brief with the Commission shall file the original and two (2) copies within fourteen (14) days after the close of the hearing: *Provided, however,* That prior to the close of the hearing and for good cause, the Hearing Officer may allow time not to exceed fourteen (14) additional days for the filing of briefs with the Commission. Copies thereof shall be served simultaneously on all other parties to the proceeding. No reply brief may be filed except by special permission of the Commission.

(b) Requests for additional time in which to file a brief under authority of this section not addressed to the Hearing Officer during the hearing shall be made to the Commission in writing, and copies thereof shall be served simultaneously on the other parties, and a statement of such service shall be filed with the Commission. Requests for extension of time under this subsection shall be in writing and received not later than three (3) days before the date such briefs are due.

§ 802.16 Transfer of case to the Commission; contents of record.

Upon the close of the hearing the case is transferred automatically to the Commission. The record of the proceeding shall include the petition, notice of hearing, service sheet, motions, rulings, orders, official transcript of the hearing with any corrections thereto, stipulations, objections, depositions, exhibits, documentary evidence, and any briefs or other documents submitted by the parties.

§ 802.17 Decision.

The Commission will issue a decision directing an election or dismissing the petition, or making other disposition of the matters before it.

§ 802.18 Election procedure.

This section governs all elections conducted under the supervision of the Commission, pursuant to § 802.8 or § 802.17.

(a) Appropriate notices of election shall be posted by the foreign affairs agency in places where notices are normally posted affecting employees of the agency. Such notices shall set forth the details and procedures for the election, the eligibility period, the date(s) of the election, and shall contain a sample ballot. In addition, the foreign affairs agency shall, simultaneously with the date of such posting, dispatch telegraphic notice thereof to Foreign Service posts abroad. Such telegraphic notice shall include all materials contained in the posted notice except the sample ballot and shall be brought promptly to the attention of the agency's employees at such posts.

(b) The reproduction of any document purporting to be a copy of the official ballot, other than one completely unaltered in form and content and clearly marked "sample" on its face, which suggests either directly or indirectly to employees that the Commission endorses a particular choice, may constitute grounds for setting aside an election upon objections properly filed.

(c) All elections shall be by secret ballot. An exclusive representative shall be chosen by a majority of the valid ballots cast.

(d) Whenever two or more organizations are included as choices in an election, any intervening organization may request, in writing, the Commission to remove its name from the ballot. The request must be received not later than ten (10) days after the decision and direction of the election or the Commission's notification of approval of agreement for an election. Such request shall be subject to the approval of the Commission, whose decision shall be final: *Provided, however,* That in a proceeding involving a petition filed under § 802.2 (b) an organization currently certified may not have its name removed from the ballot without giving the aforementioned request in writing to all parties and the Commission, disclaiming any representation interest among the employees.

V 37-75 APR 18 72 XUM

§ 802.19 Challenged ballots.

A representative of any organization on the ballot, of the foreign affairs agency, or of the Commission may challenge, for good cause, the eligibility of any person to vote in the election. The ballots of such challenged persons shall be impounded.

§ 802.20 Tally of ballots.

Upon the conclusion of the election, the Commission shall furnish to the parties a tally of ballots.

§ 802.21 Certifications; objections to election; determination on objections and challenged ballots.

(a) The Commission shall issue to the parties a certification of the results of the election, or a certification of representative, where appropriate: *Provided,* That no objections are filed within the time limit set forth below; the challenged ballots are insufficient in number to affect the results of the election; and no runoff or rerun election is to be held.

(b) Within five (5) days after the tally of ballots has been furnished, or proffered when service has been refused, any party may file with the Commission an original and four (4) copies of objections to the procedural conduct of the election, or to conduct which may have improperly affected the results of the election, supported by a clear and concise statement of the reason therefor. Such filing must be timely whether or not the challenged ballots are sufficient in number to affect the results of the election. Within ten (10) days of the filing of the objections, unless an extension of time has been granted by the Commission, the objecting party shall furnish the Commission with evidence, which may include but shall not be limited to signed statements, documentary evidence, and other materials supporting the objections. The objecting party shall bear the burden of proof at all stages of the proceedings, regarding all matters alleged in its objections. Copies of such objections and copies of any subsequently furnished evidence in support thereof shall be served on the other parties by the party filing them. Such service shall be stimultaneous with the filing of the objections and/or supporting evidence and a statement of such service shall be filed with the Commission.

(c) If objections are filed, or if the challenged ballots are sufficient in number to affect the results of the election, the Commission shall cause to be investigated the objections or challenges, or both.

(d) When the Commission determines that no relevant issue of fact exists, it (1) shall find whether improper conduct occurred of such a nature as to warrant the setting aside of the election and, if so, shall set aside the election, or (2) shall rule on determinative challenges to ballots, if any, or both. The Commission shall serve simultaneously any such findings upon all parties to the proceeding and shall state therein any additional pertinent matters such as its decision to rerun the election or count ballots at a specified date, time, and place, and shall cause to be issued a revised tally of ballots.

(e) Where it appears to the Commission that the objections or challenged ballots raise any relevant question of fact which may have affected the results of the election, the Commission shall issue a notice of hearing specifying either that it will conduct the hearing in accordance with § 803.10(a) of this chapter or that a Hearing Examiner, designated by the Chief Hearing Examiner, will take evidence, make factual findings and recommendations with respect to the objections and/or challenged ballots, and report these findings and recommendations to the Commission and the parties. Such proceedings shall be conducted in accordance with §§ 803.10 through 803.24 of this chapter.

(f) The Commission shall decide whether to adopt or modify the Hearing Examiner's recommendations. In accord with the Commission's final determinations, it shall issue a certification of the results of the election, certification of representative, or a decision setting aside the election or directing the opening and counting of challenged ballots, whichever is appropriate.

§ 802.22 Runoff elections.

(a) The foreign affairs agency shall conduct a runoff election under supervision of the Commission when an election in which the ballot provided for not less than three (3) choices (i.e., at least two representatives and "neither" or "none") results in no choice receiving a majority of the valid ballots cast, and any objections which had been filed have been disposed of, and any challenged ballots have been disposed of or are not sufficient in number to affect the results of the election, as provided herein. Only one runoff election shall be held pursuant to this section.

(b) Employees who were eligible to vote in the original election and who also are in an eligible category on the date of the runoff election shall be eligible to vote in the runoff election.

(c) The ballot in the runoff election shall provide for a selection between the two choices receiving the largest and second largest number of votes.

§ 802.23 Inconclusive elections.

(a) An inconclusive election is one in which none of the choices on the ballot has received a majority of the valid ballots cast and § 802.22 is not applicable. If there are no challenged ballots that would affect the results of the election, the Commission may declare the election a nullity and may order another election, providing for a selection from among the choices afforded in the previous ballot in the following situations:

(1) The ballot provided for a choice among two or more representatives and "neither" or "none," and the votes are equally divided among the several choices; or

(2) The number of ballots cast for one choice in an election is equal to the number cast for another choice but less than the number cast for the third choice; or

(3) The runoff ballot provided for a choice between two representatives and the votes are equally divided.

(b) Only one further election pursuant to this section may be held.

803.23 Contents of exceptions to Hearing Examiner's report and recommendations.
803.24 Briefs in support of exceptions.
803.25 Action by the Commission.
803.26 Compliance with decisions and orders of the Commission.

AUTHORITY: The provisions of this Part 803 issued under sec. 5 E.O. 11636, 36 F.R. 24901.

§ 803.1 Who may file complaints.

A complaint that a foreign affairs agency or an organization has engaged in any act prohibited under section 13 of the order or has failed to take any action required by the order, may be filed by an employee, a foreign affairs agency, or an organization.

§ 803.2 Action to be taken before filing a complaint with the Commission.

(a) Any charge of an alleged unfair practice must be in writing and shall be filed directly with the party or parties against whom the charge is directed, hereinafter referred to as the respondent(s), within six (6) months of the occurrence of the alleged unfair practice, except as otherwise provided in § 805.12 of this chapter. The charge shall contain a clear and concise statement of the facts constituting the alleged unfair practice, including the time and place of occurrence of the particular acts. The alleged unfair practice shall be investigated by the parties involved and informal attempts to resolve the matter shall be made by the parties. If informal attempts are unsuccessful in disposing of the matter within thirty (30) days, after a charge has been filed, a party may file a complaint requesting the Commission to issue a decision in the matter: *Provided, however,* That if a final decision by the respondent is served on the charging party, the charging party may file a complaint immediately thereafter but in no event later than sixty (60) days from the date of service of the respondent's written final decision on the charging party: *Provided, further,* That to be considered timely a complaint to the Commission shall be filed within nine (9) months of the occurrence of the alleged unfair practice or within sixty (60) days of the service of the written final decision on the charging party, whichever is the shorter period of time.

(b) The thirty (30) day charge period as required under paragraph (a) of this section shall not be applicable to allegations of violations of section 13(b)(4) of the order. In such a situation, a complaint may be filed immediately with the Commission.

(c) In complaints alleging violations of section 13(b)(4), the Commission shall conduct a priority investigation.

§ 803.3 Contents of the complaint and supporting documents.

(a) A complaint alleging a violation of section 13 of the order shall contain the following:

(1) The name, address, and telephone number of the employee, foreign affairs agency, or organization making the complaint hereinafter referred to as the complainant;

(2) The name, address, and telephone number of the foreign affairs agency or organization against whom the complaint is made;

(3) A clear and concise statement of the facts constituting the alleged unfair practice, including the time and place of occurrence of the particular acts, the names and addresses of the individuals involved, and a statement of the section and subsection of the order alleged to have been violated;

(4) A statement of any other procedure invoked involving the subject matter of the complaint and the results, if any;

(5) A declaration by the person signing the complaint, under the penalties of the Criminal Code (18 U.S.C. 1001), that its contents are true and correct to the best of his or her knowledge and belief.

(b) The entire report of investigation by the complainant, pursuant to § 803.2, including, among other things, the precomplaint charge, copies of relevant correspondence, other written materials, statements of witnesses, summaries of meetings and discussions, offers of settlement by the respondent and settlement proposals advanced by the complainant, shall be filed with the complaint.

§ 803.4 Filing and service of copies.

(a) An original and four copies of a complaint and two (2) copies of the entire report of investigation shall be filed with the Commission.

(b) Simultaneously with the filing of a complaint and the complainant's report of investigation, copies of each shall be served by the complainant on the respondent, and a written statement of such service shall be filed with the Commission.

§ 803.5 Investigation of the complaint; stipulation of facts.

(a) Within fifteen (15) days following the service of a copy of the complaint, unless an extension of time has been granted by the Commission, the respondent shall file a response thereto, including the entire report of its investigation, raising any matter which is relevant to the complaint. The response shall be filed with the Commission and copies thereof shall be served simultaneously on the other parties. Upon the filing of a complaint the Commission shall cause such additional investigation to be made as it deems necessary.

(b) The parties may submit to the Commission a stipulation of facts and their request for a decision by the Commission without a hearing.

(c) The complainant shall bear the burden of proof at all stages of the proceedings regarding matters alleged in its complaint.

§ 803.6 Preliminary action by the Commission.

(a) The Commission shall take appropriate measures which may consist of the following: (1) approval of a withdrawal request; (2) dismissal of the complaint; (3) approval of a settlement agreed upon by the parties; (4) approval, after careful consideration of the views of the parties, of the respondent's offer of settlement made any time prior to the close of a hearing, if any; (5) approval of a stipulation of facts pursuant to § 803.5(b); or (6) the issuance of a notice of hearing.

(b) In cases involving complaints alleging a violation of section 13(b)(4) of the order, if the Commission determines, based upon the evidence adduced, that a reasonable basis for a complaint exists and no satisfactory offer of settlement has been made, it shall issue an expedited notice of hearing. The complainant shall bear the burden of proof at the hearing.

(c) Cases involving complaints alleging violations of section 13(a)(2) of the order shall be given priority over all other unfair practice cases except cases of like character and cases under paragraph (b) of this section.

§ 803.7 Withdrawal or dismissal of complaint.

(a) If the Commission determines that the complaint has not been timely filed, that a reasonable basis for the complaint has not been established, that a satisfactory settlement agreement has been reached, or a satisfactory offer of settlement has been made by the respondent, or for other appropriate reasons, it may request the complainant to withdraw the complaint and in the absence of such withdrawal within a reasonable time, it may dismiss the complaint.

(b) If the Commission dismisses the complaint, it shall furnish the complainant with a written statement of the grounds for dismissal, sending a copy of the statement to the respondent. If the dismissal is based on approval of an offer of settlement which is satisfactory to the Commission, such statement shall set forth the terms of settlement and the implementation thereof.

§ 803.8 Notice of hearing.

The Commission may cause a notice of hearing to be issued if, after the filing of a complaint, it finds, based on the allegations and the reports of investigation by the parties and any additional investigation, that there is a reasonable basis for the complaint and that no satisfactory offer of settlement has been made.

§ 803.9 Contents of the notice of hearing; attachments.

(a) The notice of hearing shall include:

(1) A statement of time and place of the hearing which shall be not less than ten (10) days after service of the notice of hearing, except in extraordinary circumstances;

(2) A statement of the nature of hearing;

(3) A statement of the authority and jurisdiction under which the hearing is to be held;

(4) A reference to the particular sections of the order and regulations involved.

(b) Attached to the notice of hearing shall be a copy of the complaint and the respondent's answer.

(c) The reports of investigation by the parties referred to in § 803.8 shall be furnished to the Hearing Examiner; however, the reports of investigation will not thereby become evidence, and any party wishing to rely upon anything contained therein must make an appropriate submission at the hearing.

§ 803.10 Conduct of hearing.

(a) The Commission in its sole discretion and on its own motion, may sit en banc and conduct the hearing. Where the Commission hears the case sitting en banc, it will issue a decision on the record in the case after the close of the hearing. The Commission in such cases will have all the powers of a Hearing Examiner and will advise the parties (notwithstanding § 803.21) whether briefs will be permitted. Where the Commission has decided to hear the case en banc the rules concerning the filing of exceptions to Hearing Examiners' reports and recommendations do not apply to its decisions. If the Commission does not elect to sit en banc, it shall inform the Chief Hearing Examiner, who will designate a Hearing Examiner to conduct the hearing.

(b) Hearings shall be open to the public unless otherwise ordered by the Hearing Examiner for good cause, stated in writing and made a part of the record. When requested to do so by the head of

V 37-75 APR 18 72 XUM

the foreign affairs agency, the Commission shall direct that the hearing be conducted, in whole or in part, as a closed hearing, in order to prevent the disclosure of information that would be injurious to the national security or foreign policy.

(c) A Hearing Examiner may withdraw from a proceeding whenever he deems himself disqualified. Any party may request the Hearing Examiner at any time following his designation and before submission of the report and recommendations to the Commission, to withdraw on grounds of personal bias or disqualification by filing with him promptly upon discovery of alleged facts forming a basis for doing so an affidavit stating in detail the matters alleged to constitute grounds for disqualification. If, in the opinion of the Hearing Examiner, such affidavit is filed with due diligence and is sufficient on its face, he shall forthwith disqualify himself and withdraw from the proceeding. If he does not disqualify himself and withdraw from the proceeding he shall so rule upon the record, stating the grounds for his ruling.

(d) An official reporter shall make the only official transcript of such proceedings. Copies of the official transcript will not be provided to the parties but may be purchased by arrangement with the official reporter or arrangements may be made with the Commission to examine the transcript during normal working hours in Washington, D.C., or at the post or posts directly involved. The transcript of any portion of the proceeding which has been conducted as a closed hearing for reasons of national security or foreign policy shall be classified or administratively controlled in accordance with the security regulations of the foreign affairs agency concerned.

§ 803.11 Intervention.

Any person desiring to intervene in any proceeding shall file a motion in writing with the Chief Hearing Examiner or the designated Hearing Examiner, or, if made at the hearing, may move orally on the record, stating the grounds upon which such person claims an interest. Prior to the hearing, such a motion shall be filed with the Commission; during the hearing such motion shall be made to the Hearing Examiner. An original and two copies of written motions shall be filed. Simultaneously upon filing such motion, the moving party shall serve a copy thereof on the other parties. The Commission shall rule upon all such motions filed prior to the hearing, and shall cause a copy of such rulings to be furnished to the other parties, or may refer the motion to the Hearing Examiner for ruling. The Hearing Examiner shall rule upon all such motions made at the hearing or referred to the Hearing Examiner by the Commission. When the Hearing Examiner rules, before the hearing, on a motion referred to the Hearing Examiner by the Commission, he shall furnish copies of such ruling to the parties. The Commission or Hearing Examiner, as the case may be, may permit intervention in person or by counsel or other representative to such extent and upon such terms as may be deemed proper.

§ 803.12 Rights of parties.

Any party shall have the right to appear at such hearing in person, by counsel, or by other representative, to examine and cross-examine witnesses, and to introduce into the record documentary or other relevant evidence, except that the participation of any party shall be limited to the extent prescribed by the Hearing Examiner. Two copies of documentary evidence shall be submitted and a copy furnished to each of the other parties. Stipulations of fact may be introduced in evidence with respect to any issue.

§ 803.13 Rules of evidence.

The technical rules of evidence do not apply. Any evidence may be received, except that a Hearing Examiner may exclude any evidence or offer of proof which is immaterial, irrelevant, unduly repetitious, or customarily privileged. Every party shall have a right to present its case by oral and documentary evidence and to submit rebuttal evidence.

§ 803.14 Burden of proof.

A complainant in asserting a violation of the order shall have the burden of proving the allegations of the complaint by a preponderance of the evidence.

§ 803.15 Duties and powers of the Hearing Examiner.

It shall be the duty of the Hearing Examiner to inquire fully into the facts as they relate to the matter before him or her. Upon assignment to the Hearing Examiner and before transfer of the case to the Commission, the Hearing Examiner shall have the authority to:

(a) Grant requests for appearance of witnesses or production of documents;

(b) Rule upon offers of proof and receive relevant evidence;

(c) Take or cause depositions to be taken whenever the ends of justice would be served thereby;

(d) Limit lines of questioning or testimony which are immaterial, irrelevant, customarily privileged, or unduly repetitious;

(e) Regulate the course of the hearing and, if appropriate, exclude from the hearing persons who engage in misconduct and strike all related testimony of witnesses refusing to answer any questions ruled to be proper;

(f) Hold conferences for the settlement or simplification of the issues by consent of the parties or upon his or her own motion and, where appropriate, transmit to the Commission offers of settlement by a party or parties;

(g) Dispose of procedural requests, motions, or similar matters which shall be made part of the record of the proceeding, including motions referred to the Chief Hearing Examiner or to the designated Hearing Examiner by the Commission and motions to amend pleadings, also to recommend dismissal of cases or portions thereof, and to order hearings reopened prior to issuance of the Hearing Examiner's report and recommendations;

(h) Examine and cross-examine witnesses and to introduce into the record documentary or other evidence;

(i) Request the parties at any time during the hearing to state their respective positions concerning any issue in the case or theory in support thereof;

(j) Continue the hearing from day to day, or adjourn it to a later date or to a different place, by announcement thereof at the hearing or by other appropriate notice;

(k) Prepare, serve, and submit his or her report and recommendations pursuant to § 803.22;

(l) Take official notice of any material fact not appearing in evidence in the record, which is among the traditional matters of judicial or official notice: *Provided*, That the parties shall be given adequate notice, at the hearing or by reference in the Hearing Examiner's decision of the matters so noticed, and shall be given adequate opportunity to show the contrary;

(m) Correct or approve proposed corrections of the official transcript when deemed necessary;

(n) Take any other action necessary under the foregoing and not prohibited by these regulations.

§ 803.16 Unavailability of Hearing Examiners.

In the event of the Hearing Examiner designated to conduct the hearing becomes unavailable, the Chief Hearing Examiner shall designate another Hearing Examiner for the purpose of further hearing or issuance of a report and recommendations on the record as made, or both.

§ 803.17 Objection to conduct of hearing.

(a) Any objection with respect to the conduct of the hearing, including any objection to the introduction of evidence, may be stated orally or in writing accompanied by a short statement of the grounds for such objection, and included in the record. No such objection shall be deemed waived by further participation in the hearing. Such objection shall not stay the conduct of the hearing.

(b) Automatic exceptions will be allowed to all adverse rulings. Rulings by the Hearing Examiner shall not be appealed prior to the transfer of the case to the Commission, but shall be considered by the Commission only upon the filing of exceptions to the Hearing Examiner's report and recommendations in accordance with § 803.22

§ 803.18 Motions before or after a hearing.

(a) All motions made before a hearing shall be made in writing to the Commission. All motions made after the hearing but prior to the transfer of the case to the Commission shall be filed with the Hearing Examiner. All motions made after the transfer of the case to the Commission, except motions to correct the record under § 803.15(m) shall be made in writing to the Commission. The moving party shall serve simultaneously a copy of all motion papers on all other parties. A statement of service shall accompany the motion. Answering affidavits, if any, must be served on all parties and the originals thereof, together with two (2) copies and a statement of service, shall be filed with the Commission before the hearing, with the Hearing Examiner after the hearing begins and before transfer of the case to the Commission and with the Commission after transfer of the case to it; within five (5) days after service of the moving papers unless it is otherwise directed.

(b) The Commission may rule upon all motions filed with it before the hearing, causing a copy of such ruling to be served on the parties, or it may refer such motions to the Chief Hearing Examiner or to the Hearing Examiner if one has been designated by the Chief Hearing Examiner. The Hearing Examiner may rule upon all motions referred to him or her prior to the hearing by the Commission or by the Chief Hearing Examiner and may rule upon all motions filed after the beginning of the hearing and before transfer of the case to the Commission. Such motions may be ruled upon by the Chief Hearing Examiner in the absence of the Hearing Examiner.

§ 803.19 Waiver of objections.

Any objection not made before a Hearing Examiner shall be deemed waived.

§ 803.20 Oral argument at the hearing.

Any party shall be entitled, upon request, to a reasonable period prior to the close of the hearing for oral argument, which shall be included in the official transcript of the hearing.

§ 803.21 Filing of brief.

Any party desiring to submit a brief to the Hearing Examiner shall file the original and two (2) copies within fourteen (14) days after the close of the hearing: *Provided, however*, That prior to the close of the hearing and for good cause, the Hearing Examiner may grant a reasonable extension of time. Copies thereof shall be served simultaneously on all other parties to the proceeding, and a statement of such service shall be filed with the Hearing Examiner. Requests for additional time in which to file a brief under authority of this section not addressed to the Hearing Examiner during the hearing shall be made to the Chief Hearing Examiner, in writing at least three (3) days before the briefs are due and copies shall be served simultaneously on the other parties. A statement of such service shall be furnished. No reply brief may be filed except by special permission of the Hearing Examiner.

§ 803.22 Submission of the Hearing Examiner's report and recommendations to the Commission; exceptions.

(a) After the close of the hearing, and the receipt of briefs, if any, the Hearing Examiner shall prepare a report and recommendations expeditiously. The report and recommendations shall contain findings of fact, conclusions, and the reasons or basis therefor including credibility determinations, and recommendations as to the disposition of the case including, where appropriate, the remedial action to be taken and notices to be posted.

(b) The Hearing Examiner shall cause the report and recommendations to be served promptly on all parties to the proceeding. Thereafter, the Hearing Examiner shall transfer the case to the Commission, including the report and recommendations and the record. The record shall include the complaint, notice of hearing, service sheet, motions, rulings, orders, official transcript of the hearing, stipulations, objections, depositions, exhibits, documentary evidence, and any briefs or other documents submitted by the parties.

(c) An original and two (2) copies of any exceptions to the Hearing Examiners' report and recommendations may be filed by any party with the Commission within ten (10) days after service of the report and recommendations: *Provided, however*, That the Commission may for good cause shown extend the time for filing such exceptions. Requests for additional time in which to file exceptions shall be in writing; copies thereof shall be served simultaneously on the other parties and a statement of such service shall be furnished to the Commission. Requests for extension of time must be received no later than three (3) days before the date the exceptions are due. Copies of such exceptions and any supporting briefs shall be served simultaneously on all other parties, and a statement of such service shall be furnished to the Commission.

§ 803.23 Contents of exceptions to Hearing Examiner's report and recommendations.

(a) Exceptions to a Hearing Examiner's report and recommendations shall:

(1) Set forth specifically the questions upon which exceptions are taken;

(2) Identify that part of the Hearing Examiner's report and recommendations to which objection is made;

(3) Designate by precise citation of page the portions of the record relied on, state the grounds for the exceptions, and include the citation of authorities unless set forth in a supporting brief.

(b) Any exception to a ruling, finding, conclusion, or recommendation which is not specifically urged shall be deemed to have been waived. Any exception which fails to comply with the foregoing requirements may be disregarded.

§ 803.24 Briefs in support of exceptions.

(a) Any brief in support of exceptions shall contain only matters included within the scope of the exceptions and shall contain, in the order indicated, the following:

(1) A concise statement of the case containing all that is material to the consideration of the questions presented;

(2) A specification of the questions involved and to be argued;

(3) The argument, presenting clearly the points of fact and law relied on in support of the position taken on each question, with specific page reference to the transcript and the legal or other material relied on.

(b) Answering briefs to the exceptions and cross-exceptions and supporting briefs may be filed at the discretion of the Commission.

§ 803.25 Action by the Commission.

(a) After considering the Hearing Examiner's report and recommendations, the record, and any exceptions filed, the Commission shall issue its decision affirming or reversing the Hearing Examiner, in whole or in part, or making such other disposition of the matter as it deems appropriate: *Provided, however*, That unless exceptions are filed which are timely and in accordance with § 803.23, the Commission may, at its discretion, adopt without discussion the report and recommendations of the Hearing Examiner, in which event the findings, conclusions, and recommendations of the Hearing Examiner, as contained in his report and recommendations shall, upon appropriate notice to the parties, automatically become the decision of the Commission.

(b) Upon finding a violation of the order the Commission may order the respondent to cease and desist from conduct violative of the order and may require the respondent to take such affirmative corrective action as it deems appropriate to effectuate the policies of the order.

(c) Upon finding no violation of the order, the Commission shall dismiss the complaint.

§ 803.26 Compliance with decisions and orders of the Commission.

When remedial action is ordered, the respondent shall report to the Commission within a specified period that the required remedial action has been effected. When the Commission finds that the required remedial action has not been effected, it may take such action as it deems appropriate including referring the matter to the Board of the Foreign Service.

PART 804—STANDARDS OF CONDUCT

Sec.
804.1 Substantive requirements concerning standards of conduct.
804.2 Proceedings for enforcing standards of conduct.

AUTHORITY: The provisions of this Part 804 issued under secs. 5 and 12, E.O. 11636, 36 F.R. 24901.

§ 804.1 Substantive requirements concerning standards of conduct.

(a) The provisions of Subpart A of 29 CFR Part 204 "Substantive Requirements Concerning Standards of Conduct" are hereby incorporated by reference and shall be applicable to all organizations, members thereof, and other persons subject to the order, except that all duties, responsibilities, and authority directly allocated to the Assistant Secretary for Labor-Management Relations shall under the regula-

V 37-75
APR 18 72
XUM

tions in this part be assumed by the Commission.

(b) The reference to Executive Order 11491 in § 204.2(a)(5)(b) of Title 29 shall be deemed to read Executive Order 11636.

§ 804.2 Proceedings for enforcing standards of conduct.

The provisions of Subpart B of 29 CFR Part 204 "Proceedings for Enforcing Standards of Conduct" are hereby incorporated by reference and shall be applicable to all organizations, members thereof, and other persons subject to the order, with the following exceptions: (a) Those portions of Subpart B which provide for reports by the Area Administrator to the Regional Administrator or by the Regional Administrator to the Director shall not be applicable; (b) all functions which in Subpart B are performed by an Area Administrator or Regional Administrator shall be performed by the Director or his agents; (c) 29 CFR 203.25(c) shall be deleted; (d) the duties, responsibilities, and authority allocated to the Assistant Secretary under Subpart B shall under these regulations be assumed by the Commission; (e) 29 CFR 204.73 shall be deleted; (f) the reference to the Council in 29 CFR 203.26 is amended to read "the Board of the Foreign Service;" and (g) the last phrase of 29 CFR 203.10(b) is revised to read "or arrangements may be made with the Commission to examine the transcript during normal working hours."

PART 805—CONSULTATION PROCEEDINGS

Sec.
- 805.1 Priority of consideration.
- 805.2 Who may file an application.
- 805.3 Action to be taken before filing an application with the Commission.
- 805.4 Contents of application and attachments.
- 805.5 Filing and service of copies.
- 805.6 Investigation of the application.
- 805.7 Action by the Commission.
- 805.8 Notice of hearing.
- 805.9 Contents of notice of hearing; attachments.
- 805.10 Hearing and posthearing procedures.
- 805.11 Compliance with a decision of the Commission.

AUTHORITY: The provisions of this Part 805 issued under sec. 5, E.O. 11636, 36 F.R. 24901.

§ 805.1 Priority of consideration.

Because of their importance to the effectuation of the purposes of the order, proceedings to determine whether an obligation to consult exists with respect to particular issues will ordinarily be given priority over all other matters before the Commission, except for proceedings involving complaints alleging a violation of section 13(a)(2) or section 13(b)(4) of the order, as specified in § 803.6(c) of this chapter. Decisions in such cases will be rendered as expeditiously as the orderly conduct of proceedings will permit.

§ 805.2 Who may file an application.

An application for a decision by the Commission concerning a question as to whether or not an obligation to consult exists under the order with respect to particular issues may be filed by a foreign affairs agency or a certified organization.

§ 805.3 Action to be taken before filing an application with the Commission.

Any application for a decision by the Commission as to whether or not an obligation to consult exists under the order with respect to particular issues, must be filed with the Commission by the party seeking consultation within thirty (30) days after an alleged denial of an obligation to consult by the other party.

§ 805.4 Contents of application and attachments.

(a) An application filed under this section shall contain the following:

(1) The name of the foreign affairs agency involved, its address, telephone number, and the person to contact and title, if known;

(2) The name, address, and telephone number of the certified organization;

(3) A clear and concise statement of the issues in dispute;

(4) A statement of any other procedures invoked involving the subject matter of the dispute and the results, if any;

(5) A declaration by the person signing the application, under the penalties of the Criminal Code (18 U.S.C. 1001), that its contents are true and correct to the best of that person's knowledge and belief, and the signature of the applicant or the applicant's representative, including title, address, and telephone number.

(b) The applicant shall furnish with the application, two (2) copies of the following: (1) A statement of any other relevant facts; and (2) all correspondence between the parties relating to the disputed issue(s), and may, in addition, file a memorandum or brief in support of its position.

§ 805.5 Filing and service of copies.

(a) An original and four (4) copies of an application, including two (2) copies of all attachments, shall be filed with the Commission.

(b) Simultaneously with the filing of an application, a copy of the application and all materials submitted therewith shall be served on the other party, and a written statement of such service shall be filed with the Commission.

§ 805.6 Investigation of the application.

(a) After the application has been filed, the other party shall file two (2) copies of a response with the Commission within fifteen (15) days following the service of a copy of the application, unless an extension of time has been granted by the Commission. The other party may file with its response a memorandum or brief in support of its position.

(b) The response shall cover any matter which is relevant to the application and shall include any supporting evidence on the issue(s) raised by the application and the attachments thereto. A copy of such response and all material submitted therewith shall be served simultaneously on the other party and a written statement of such service shall be filed with the Commission.

(c) Upon the filing of an application, the Commission shall cause such additional investigation to be made as it deems necessary.

(d) The parties shall, whenever possible, submit to the Commission a stipulation of facts together with their request for a decision by the Commission without a hearing.

§ 805.7 Action by the Commission.

(a) The Commission shall take appropriate measures which may consist of:

(1) Approval of a request for withdrawal of the application; or

(2) Dismissal of the application if it determines that the application has not been timely filed or otherwise is not actionable; or

(3) Issuance of a report and findings on the questions involved, on the basis of the material before it, including information obtained from oral argument, if requested by the Commission.

(b) The Commission may, in addition to, or in lieu of, the actions described in paragraph (a) of this section, issue a notice of hearing as provided by § 805.8.

§ 805.8 Notice of hearing.

The Commission may cause a notice of hearing to be issued providing for a hearing before a Hearing Examiner if, at any time after the filing of an application, it finds that the issues cannot otherwise be resolved.

§ 805.9 Contents of notice of hearing; attachments.

(a) The notice of hearing shall include:

(1) A statement of the time and place of the hearing, which shall be not less than ten (10) days after service of the notice of hearing, except in extraordinary circumstances;

(2) A statement of the nature of the hearing;

(3) A statement of the authority and jurisdiction under which the hearing is to be held;

(4) A reference to the particular sections of the order and regulations involved.

(b) Attached to the notice of hearing shall be a copy of the application and attachments and the response(s) thereto.

(c) The attachments to the application referred to in § 805.4(b) and the responses thereto shall be furnished to the Hearing Examiner, but will not thereby become evidence, and any party wishing to rely upon anything contained therein must make an appropriate submission at the hearing.

§ 805.10 Hearing and posthearing procedures.

Hearing procedures shall be in accordance with §§ 803.10 through 803.20 with the exception of § 803.14 of this chapter. There shall be no burden of proof in hearings conducted under this part. The procedures after the close of the hearing shall be in accordance with §§ 803.18 through 803.24 with the exception of §§ 803.19 and 803.20 of this chapter. After considering the Hearing Examiner's report and recommendations and the record and any exceptions filed thereto; the Commission shall issue its decision affirming or reversing the Hearing Examiner, in whole or in part, or make any other disposition of the matter it deems appropriate.

§ 805.11 Compliance with a decision of the Commission.

(a) When a decision is made that an obligation to consult exists with respect to a particular issue or issues, the parties shall report to the Commission, within a specified period, that the required consultation is being undertaken.

(b) When the Commission finds that the consultation required pursuant to a decision of the Commission has not been effected, the Commission may refer the matter to the Board of the Foreign Service, or take such other action as appropriate.

PART 806—MISCELLANEOUS

Sec.
- 806.1 Computation of time for filing papers.
- 806.2 Additional time after service by mail.
- 806.3 Documents in a proceeding.
- 806.4 Service of pleading and other papers under this chapter.
- 806.5 Consolidation of cases.
- 806.6 Request for appearance of witnesses and production of documents at hearing.
- 806.7 Rules to be construed liberally.
- 806.8 Petitions for amendment of regulations.

AUTHORITY: The provisions of this Part 806 issued under secs. 5, 12, E.O. 11636, 36 F.R. 24901.

§ 806.1 Computation of time for filing papers.

(a) In computing any period of time prescribed by or allowed by these regulations, the date of the act, event, or default after which the designated period of time begins to run, shall not be included. The last day of the period so computed is to be included unless it is a Saturday, Sunday, or Federal legal holiday in which event the period shall run until the end of the next day which is neither a Saturday, Sunday, or a Federal legal holiday. When the period of time prescribed, or allowed is less than seven (7) days, intermediate Saturdays, Sundays, and Federal legal holidays shall be excluded from the computations. When these regulations require the filing of any paper, such document must be received by the Commission or the officer or agent designated to receive such matter before the close of business of the last day of the time limit, if any, for such filing or extension of time that may have been granted.

(b) The Commission may, upon request, extend any period of time prescribed by or allowed by these regulations to take into account the effect of the occurrence of foreign holidays upon the adequacy of time period so prescribed or allowed.

§ 806.2 Additional time after service by mail.

Whenever a party has the right or is required to do some act pursuant to these regulations within a prescribed period after required service of a notice or other paper upon him and the notice or paper is served on him by mail, three (3) days in the case of domestic mail and seven (7) days in the case of international mail shall be added to the prescribed period: *Provided, however,* That such additional days shall not be added if any extension of time has been granted.

§ 806.3 Documents in a proceeding.

(a) *Title.* Documents in any proceeding under these regulations including correspondence shall show the title of the proceeding and the case number, if any.

(b) *Number of copies; form.* Except as provided in these regulations any documents or papers shall be filed with four (4) copies in addition to the original. All matters filed shall be printed, typed, or otherwise legibly duplicated; carbon copies of typewritten matter will be accepted if they are clearly legible.

(c) *Signature.* The original of each document required to be filed under these regulations shall be signed by the party or by an attorney or representative of record for the party, or by an officer of the party, and shall contain the address and telephone number of the person signing it.

§ 806.4 Service of pleading and other papers under this chapter.

(a) *Method of service.* Notices of hearing, decisions, orders, and other papers may be served personally or by registered or certified mail or by telegraph.

(b) *Upon whom served.* All papers, except as herein otherwise provided, shall be served upon all counsel of record and upon parties not represented by counsel or by their agents designated by them or by law and upon the Commission, or its designated officer, or agent or examiner, where appropriate. Service upon such counsel or representative shall constitute service upon the party, but a copy also shall be transmitted to the party.

(c) *Statement of service.* The party or person serving the papers or process shall submit simultaneously to the Commission or other designated representative, or to the individual conducting the proceeding, a written statement of such service; failure to file a statement of service shall not affect the validity of the service. Proof of service shall be required only if subsequent to the receipt of a statement of service a question is raised with respect to proper service.

§ 806.5 Consolidation of cases.

In any matter arising pursuant to these regulations, whenever it appears necessary in order to effectuate the purposes of the order or to avoid unnecessary costs or delays, the Commission may consolidate cases.

§ 806.6 Request for appearance of witnesses and production of documents at hearing.

(a) The Commission, Hearing Officers, or Hearing Examiners, as appropriate, upon their own motion, or upon motion of any parties to a proceeding, may issue a request for appearance of witnesses or request for production of documents at a hearing held pursuant to Parts 802, 803, and 805 of this chapter. When it is impracticable for a witness to appear personally at a hearing, the Commission, Hearing Officer, or Hearing Examiner, as appropriate, may provide for the taking of testimony by deposition in response to written or oral interrogatories.

(b) A party's motion to the Commission shall be in writing and filed with the Commission prior to the opening of a hearing or with a Hearing Officer or Hearing Examiner during the hearing, and shall name and identify the witness(es) or document(s) sought, or both, and state the reasons therefor. Simultaneously with the filing of a request with the Commission, copies shall be served on the other parties and a written statement of such service shall be filed with the Commission.

(c) Within five (5) days after service of the motion, a party may file its objection to the motion with the Commission and state its reasons therefor. Simultaneously with the filing of the objection with the Commission, copies shall be served on the other parties and a written statement of such service shall be filed with the Commission. The Commission may rule upon the motion or refer it to the Hearing Officer or Hearing Examiner for an appropriate ruling.

(d) Objections to a motion referred to or filed with a Hearing Officer or Hearing Examiner may be stated orally on the record.

(e) A motion shall be granted by the Commission, Hearing Officer, or Hearing Examiner, after careful consideration of any objections and upon determination that the testimony or documents appear(s) to be necessary to the matters under investigation and describe(s) with sufficient particularity the documents sought. Service of an approved request for appearance of witnesses or request for production of documents is the responsibility of the requesting party. Upon the failure of any party, or officer, or official, of any party to comply with such request(s), the Commission, Hearing Officer, or the Hearing Examiner, may disregard all related evidence offered by the party failing to comply or take such other action as may be appropriate.

(f) A denial of a motion shall be explained fully and it shall become a part of the hearing record.

§ 806.7 Rules to be construed liberally.

(a) The regulations in this chapter may be construed liberally to effectuate the purposes and provisions of the order.

V 37-75 APR 18 72 XUM

(b) When an act is required or allowed to be done at or within a specified time, the Commission may at any time order the period altered where it shall be manifest that strict adherence will work surprise or injustice or interfere with the proper effectuation of the order.

§ 806.8 Petitions for amendment of regulations.

Any interested person may petition the Commission in writing for amendments to any portion of these regulations. Such petition shall identify the portion of the regulations involved and provide the specific language of the proposed amendment together with a statement of grounds in support of such petition.

Title 37—PATENTS, TRADEMARKS, AND COPYRIGHTS

Chapter I—Patent Office, Department of Commerce

PART 2—RULES OF PRACTICE IN TRADEMARK CASES

Trademark Inter Partes Procedure

A proposal was published at 36 F.R. 18002 to revise, amend, redesignate, or revoke §§ 2.99, 2.104, 2.112, 2.117, 2.119, 2.120, 2.122-2.125, and 2.127-2.129 of the Rules of Practice in Trademark Cases. Pursuant to the notice, written comments have been received and a public hearing was held October 22, 1971. Full consideration has been given to all matter presented and changes in the text of the original proposal have been made in view thereof.

Amendments to the present text of the rules are described below. In cases where the amendment differs from that set forth in the notice of proposed rule making, that change is also described below.

Sections 2.104 and 2.112 are being revised by adopting language from the Federal rules requiring a short and plain statement showing how the party would be damaged. The proposal required a statement "tending to show why" the party would be damaged.

Section 2.117 is being redesignated as § 2.116 and is being revised to clarify the applicability of the Federal Rules of Civil Procedure to Patent Office proceedings.

A new § 2.117 authorizing suspension of proceedings by the Trademark Trial and Appeal Board when the parties are engaged in civil litigation which may be dispositive of the case, has been added. The new rule gives the Board discretion in matters of suspension whereas the proposed rule required a mandatory suspension.

Section 2.119 is being amended by incorporating the substance of § 1.248 in a new paragraph.

Section 2.120 is being revised to adopt the Federal Rules of Civil Procedure insofar as they are applicable to Patent Office proceedings. The numbers of the applicable Federal rules are not listed since they are incorporated by reference in § 2.120. For example, § 2.120(a)(3) as adopted does not refer to Federal Rule 32 which governs use of discovery depositions.

Section 2.120(a) sets forth restrictions on deposition procedures, discovery of a foreign party and use of discovery depositions.

Existing § 2.120(b) is being deleted and the proposed paragraph is not being adopted. Rule 36 of the Federal Rules of Civil Procedure will govern requests for admissions. A new paragraph (b) governing use of admissions and answers to interrogatories is being adopted.

Existing § 2.120 paragraphs (c) through (e) are being deleted.

Section 2.120(f) is also deleted and proposed § 2.120(c) is not being adopted. Rule 33 of the Federal Rules of Civil Procedure will govern the interrogatory practice. It is believed that the Federal rule will provide uniformity in practice and a body of law which will serve as a guideline to both attorneys and the Board. Some comments were received, however, which expressed a preference for limited interrogatories. In view of such comments, the Office plans to evaluate on a continuing basis the effective-

V 37 - 75 APR 18 72 XUM

ness and utilization of Federal Rule 33. If instances arise in which Rule 33 does not appear to be fully satisfactory, it may be that consideration will be given to a more limited practice.

A new § 2.120(c) entitled "Failure to Make Discovery: Sanctions" has been added.

Section 2.122(b) is being revised to state that before a pleaded registration will be received in evidence, two copies of the registration showing its status and title or an order for such copies must accompany the opposition or petition to cancel.

Section 2.123(c) relating to printed publications and official records, is being redesignated as § 2.122(c) and revised to incorporate § 1.282 (Patent Rule 282).

A new § 2.122(d) is being added and incorporates the substance of § 1.283 (Patent Rule 283).

Section 2.123 has been completely revised to incorporate the provisions of §§ 1.273–1.281, 1.285, and 1.286 (Patent Rules 273–281, 285, and 286). Portions of the Patent Rules which are not applicable to trademark practice have been omitted and in some instances the Federal Rules of Civil Procedure apply. A few changes have been made in this section as originally proposed; they are as follows:

The title of § 2.123 is being amended by inserting the word "trial" before "testimony."

Proposed § 2.123(e)(5) is being revised to permit a witness to sign a deposition before any officer authorized to administer oaths.

Proposed § 2.123(f)(5) is being deleted and § 2.123(f)(6) is being redesignated as § 2.123(f)(5).

Section 2.124(b) is being amended to require testimony by written questions to be prepared with each answer preceded by its corresponding question.

Section 2.124a is being revoked. Testimony in foreign countries will be covered in § 2.124(d) which provides that such testimony will be taken by depositions upon written questions.

Reference numbers in § 2.125 have been changed and the reference to "the original transcript" in the second sentence of paragraph (a) is being changed to read "the certified transcript."

Section 2.127(a) provides that the Trademark Trial and Appeal Board may treat a motion as conceded when a party fails to file a brief in opposition to the motion. Sections 2.127(b) and 2.129(c) are amended by adding a sentence requiring briefs in opposition to petitions for reconsideration to be filed within 15 days.

Section 2.128(b) includes certain changes with respect to the form required for briefs.

In consideration of the comments and pursuant to the authority contained in section 41 of the Act of July 5, 1946 (60 Stat. 440; 15 U.S.C. 1123) and section 6 of the Act of July 19, 1952 (66 Stat. 793, 35 U.S.C. 6), Part 2 of Chapter I of Title 37 of the Code of Federal Regulations is hereby amended as follows:

1. In § 2.99, a new paragraph (d) is added and reads as follows:

§ 2.99 Application to register as concurrent user.

* * * * *

(d) When concurrent registration is sought on the basis of a court determination of the rights of the parties to use the marks in commerce, the application shall be examined by the Examiner of Trademarks. If the applicant it entitled to registration subject only to the concurrent lawful use of a party to the court proceeding, the Examiner of Trademarks may publish or allow the application, provided the court decree specifies the rights of the parties.

2. Section 2.104 is revised to read as follows:

§ 2.104 Contents of opposition.

The opposition must set forth a short and plain statement showing how the opposer would be damaged by the registration of the opposed mark and state the grounds for opposition. A duplicate copy of the opposition including exhibits shall be filed.

3. Section 2.112 is revised to read as follows:

§ 2.112 Petition for cancellation.

The petition to cancel, which must be verified, or include a declaration in accordance with § 2.20, must set forth a short and plain statement showing how the petitioner is or will be damaged by the registration, state the grounds for cancellation, and indicate the respondent party to whom notice shall be sent. A duplicate copy of the petition, including exhibits, shall be filed with the petition. Applications to cancel different registrations owned by the same party may be joined in one petition when appropriate, but the fee for each application to cancel a registration must accompany the petition.

4. Section 2.117 is redesignated as § 2.116 and paragraph (a) is revised. As amended, § 2.116 reads as follows:

§ 2.116 Federal Rules of Civil Procedure.

(a) Except as otherwise provided, and wherever applicable and appropriate, procedure and practice in inter partes proceedings shall be governed by the Federal Rules of Civil Procedure.

* * * * *

5. A new § 2.117 is added and reads as follows:

§ 2.117 Suspension of proceedings.

Whenever it shall come to the attention of the Trademark Trial and Appeal Board that parties to a pending case are engaged in a civil action which may be dispositive of the case, proceedings before the Board may be suspended until termination of the civil action.

6. Section 2.119 is amended as follows: Paragraph (a) is revised, paragraph (b) is redesignated as paragraph (c), and a new paragraph (b) is added. As amended, § 2.119 reads as follows:

§ 2.119 Service of papers.

(a) Every paper filed in the Patent Office in inter partes cases, including notice of appeal, must be served upon the other parties except the notice of interference (§ 2.93), the notice of opposition (§ 2.105), the petition for cancellation (§ 2.113), and the notice of a concurrent use proceeding (§ 2.99), which are mailed by the Patent Office. Proof of such service must be made before the paper will be considered by the Office. A statement signed by the attorney or agent, attached to or appearing on the original paper when filed, clearly stating the date and manner in which service was made will be accepted as prima facie proof of service.

(b) Service of papers must be on the attorney or agent of the party if there be such or on the party if there is no attorney or agent, and may be made in either of the following ways: (1) By delivering a copy of the paper to the person served; (2) by leaving a copy at the usual place of business of the person served, with someone in his employment; (3) when the person served has no usual place of business, by leaving a copy at his residence, with a member of his family over 14 years of age and of discretion; (4) transmission by first-class mail, which may also be certified or registered. Whenever it shall be satisfactorily shown to the Commissioner that none of the above modes of obtaining service or serving the paper is practicable, service may be by notice published in the Official Gazette.

(c) When service is made by mail, the date of mailing will be considered the date of service. Whenever a party is required to take some action within a prescribed period after the service of a paper upon him by another party and the paper is served by mail, 5 days shall be added to the prescribed period.

7. Section 2.120 is revised to read as follows:

§ 2.120 Discovery procedure.

The provisions of the Federal Rules of Civil Procedure relating to discovery shall apply in inter partes trademark cases except as otherwise provided in this section. The trademark Trial and Appeal Board will specify the closing date for the taking of discovery.

(a) *Depositions for discovery*—(1) *Procedure.* The deposition of a person shall be taken in the Federal judical district where he resides or is regularly employed. The responsibility for securing the attendance of a proposed deponent, other than a party or anyone who at the time set for the taking of the deposition was an officer, director, or managing agent of a party, or a person designated under Rule 30(b)(6) or 31(a) of the Federal Rules of Civil Procedure to testify on behalf of a party, rests wholly with the interested party. See 35 U.S.C. 24.

(2) *Discovery of foreign party.* The discovery deposition of a party or an officer, director, or managing agent of a party, or a person designated under Rule 30(b)(6) or 31(a) of the Federal Rules of Procedure to testify on behalf of a party, domiciled in a foreign country may be taken in the manner prescribed by § 2.124.

(3) *Use of discovery depositions.* A discovery deposition shall not be considered as part of the record in the case unless the party offering the deposition, or any part thereof, files the same before the close of his testimony period (testimony-in-chief or rebutal as appropriate) and also files a notice of reliance thereon. A discovery deposition should not be filed in the Patent Office in the absence of a notice of reliance. Objections, including any made during the examination, will be considered only if made or renewed at the hearing.

(b) *Use of admission or answer to interrogatory.* No admission or answer to an interrogatory shall be considered as part of the record in the case unless the party propounding the request for admission or interrogatory files, before the close of his testimony period (testimony-in-chief or rebuttal, as appropriate), a copy of the admission and the request therefor and/or a copy of the interrogatory and its answer and also files a notice of reliance thereon.

(c) *Failure to make discovery: Sanctions.* If any party fails or refuses to answer any proper question in taking discovery depositions or fails or refuses to answer any proper question propounded by interrogatories or fails or refuses to comply with a request to produce and permit the inspection and copying of designated things, the party seeking discovery may apply to the Trademark Trial and Appeal Board for an order compelling discovery. If a party or an officer, director, or managing agent of a party, or a person designated under Rule 30(b)(6) or 31(a) of the Federal Rules of Civil Procedure to testify on behalf of a party, fails to obey an order to provide or permit discovery, the Trademark Trial and Appeal Board may strike out all or any part of any pleading of that party, dismiss the action or proceeding, or deny any part thereof, enter judgment as by default against that party or take any such other action as may be deemed appropriate.

8. In § 2.122, paragraph (b) is revised and new paragraphs (c) and (d) are added. As amended, those paragraphs of § 2.122 read as follows:

§ 2.122 Matters in evidence.

* * * * *

(b) A registration of the opposer or petitioner pleaded in an opposition or petition to cancel will be received in evidence and made part of the record if two copies showing status and title of the printed registration or an order for such copies accompany the opposition or petition.

(c) Printed publications, such as books and periodicals, available to the general public in libraries or of general circulation, and official records, if competent evidence and pertinent to the issue, may be introduced in evidence by filing in the Patent Office a notice to that effect during the period for the taking of the testimony of the party (during the period for taking of testimony-in-chief if such matters are not in rebuttal), specifying the record or the printed publication, the page or pages to be used, indicating generally its relevance, and accompanied by the record or authenticated copy or the printed publication or a copy. When a copy of an official record of the Patent Office is filed, it need not be a certified copy. The notice and copy of the record or publication must be served on each of the other parties.

(d) Upon motion duly made and granted, testimony taken in another proceeding, or testimony taken in a suit between the same parties or those in interest, may be used in a proceeding, so far as relevant and material, subject, however, to the right of any contesting party to recall or demand the recall of witnesses whose testimony has been taken, and to take other testimony in rebuttal of the testimony.

9. Section 2.123 is revised to read as follows:

§ 2.123 Trial testimony in inter partes cases.

(a) Manner of taking testimony: Testimony of witnesses in inter partes cases may be taken (1) by depositions upon oral examination as provided by this section, or (2) by depositions upon written questions in accordance with the requirements of this section and § 2.124.

(b) Stipulations: If the parties so stipulate in writing, depositions may be taken before any person authorized to administer oaths, at any place, upon any notice, and in any manner, and when so taken may be used like other depositions. By agreement of the parties, the testimony of any witness or witnesses of any party, may be submitted in the form of an affidavit by such witness or witnesses. The parties may stipulate what a particular witness would testify to if called, or the facts in the case of any party may be stipulated.

(c) Notice of examination of witnesses: Before the depositions of witnesses shall be taken by a party, due notice in writing shall be given to the opposing party or parties, as provided in § 2.119(b), of the time when and place where the depositions will be taken, of the cause or matter in which they are to be used, and the name and address of each witness to be examined; if the name of a witness is not known, a general description sufficient to identify him or the particular class or group to which he belongs, together with a satisfactory explanation, may be given instead. Neither party shall take depositions in more than one place at the same time, nor so nearly at the same time that reasonable opportunity for travel from one place of examination to the other is not available.

(d) Persons before whom depositions may be taken: Depositions may be taken before persons designated by Rule 28 of the Federal Rules of Civil Procedure.

(e) Examination of witnesses:

(1) Each witness before testifying shall be duly sworn according to law by the officer before whom his deposition is to be taken.

(2) The deposition shall be taken in answer to questions, with the questions and answers recorded in their regular order by the officer, or by some other person (who shall be subject to the provisions of Rule 28 of the Federal Rules of Civil Procedure) in the presence of the officer except when his presence is waived on the record by agreement of the parties. The testimony shall be taken stenographically and transcribed, unless the parties present agree otherwise. In the absence of all opposing parties and their attorneys or agents, depositions may be taken in longhand, typewriting, or stenographically.

(3) The opposing party shall have full opportunity to cross-examine the witnesses. If the opposing party shall attend the examination of witnesses not named in the notice, and shall either cross-examine such witnesses or fail to object to their examination, he shall be deemed to have waived his right to object to such examination for want of notice.

(4) All objections made at the time of the examination to the qualifications of the officer taking the deposition, or to the manner of taking it, or to the evidence presented, or to the conduct of any party, and any other objection to the proceedings, shall be noted by the officer upon the deposition. Evidence objected to shall be taken subject to the objections.

(5) When the deposition has been transcribed, the deposition shall be carefully read over by the witness or by the officer to him, and shall then be signed by the witness in the presence of any officer authorized to administer oaths unless the reading and the signature be waived on the record by agreement of all parties.

(f) Certification and filing by officer. The officer shall annex to the deposition his certificate showing:

(1) Due administration of the oath by the officer to the witness before the commencement of his deposition;

(2) The name of the person by whom the deposition was taken down, and whether, if not taken down by the officer, it was taken down in his presence;

(3) The presence or absence of the adverse party;

(4) The place, day, and hour of commencing and taking the deposition;

(5) The fact that the officer was not disqualified as specified in Rule 28 of the Federal Rules of Civil Procedure.

If any of the foregoing requirements are waived, the certificate shall so state. The officer shall sign the certificate and affix thereto his seal of office, if he has such a seal. Unless waived on the record by agreement, he shall then, without delay, securely seal in an envelope all the evidence, notices, and paper exhibits, inscribe upon the envelope a certificate

V 37 • 75 APR 18 72 XUM

giving the number and title of the case, the name of each witness, and the date of sealing, address the package, and forward the same to the Commissioner of Patents. If the weight or bulk of an exhibit shall exclude it from the envelope, it shall, unless waived on the record by agreement of all parties, be authenticated by the officer and transmitted in a separate package marked and addressed as provided in this section.

(g) Form of deposition:

(1) The pages of each deposition must be numbered consecutively, and the name of the witness plainly and conspicuously written at the top of each page. The deposition may be written on legal-size or letter-size paper, with a wide margin on the left hand side of the page, and with the writing on one side only of the sheet. The questions propounded to each witness must be consecutively numbered and each question must be followed by its answer.

(2) Exhibits must be numbered or lettered consecutively and each must be marked with the number and title of the case and the name of the party offering the exhibit. Entry and consideration may be refused to improperly marked exhibits.

(h) Depositions must be filed. All depositions which are taken must be duly filed in the Patent Office. On refusal to file, the Office at its discretion will not further hear or consider the contestant with whom the refusal lies; and the Office may, at its discretion, receive and consider a copy of the withheld deposition, attested by such evidence as is procurable.

(i) Inspection of depositions: After the depositions are filed in the Office, they may be inspected by any party to the case, but they cannot be withdrawn for the purpose of printing. They may be printed by someone specially designated by the Office for that purpose, under proper restrictions.

(j) Effect of errors and irregularities in depositions: Notice will not be taken of merely formal or technical objections which shall not appear to have wrought a substantial injury to the party raising them; and in case of such injury it must be made to appear that, as soon the party became aware of the ground of objection, he gave notice thereof. Rule 32(d) (1), (2), and (3) (a) and (b) of the Federal Rules of Civil Procedure shall apply to errors and irregularities in depositions.

(k) Objections to admissibility: Subject to the provisions of paragraph (j) of this section, objection may be made to receiving in evidence any deposition or part thereof, or any other evidence, for any reason which would require the exclusion of the evidence according to the established rules of evidence, which will be applied strictly by the Office.

(l) Evidence not considered: Evidence not obtained and filed in compliance with these sections will not be considered.

10. In § 2.124, paragraphs (a) and (b) are revised and a new paragraph (d) is added. As amended, § 2.124 reads as follows:

§ 2.124 Testimony by depositions upon written questions.

(a) A party may take the testimony of a witness by written questions to be propounded by an officer before whom depositions may be taken. See Rule 28 of the Federal Rules of Civil Procedure. The questions shall be served upon the other party within 10 days after the opening date set for taking the testimony of the party submitting the questions, together with a notice stating the name and address of the person who is to answer them and the name or descriptive title and address of the officer before whom the deposition is to be taken. Within 10 days thereafter, a party so served may serve cross questions upon the party proposing to take the deposition. Within 5 days thereafter, the latter may serve redirect questions upon a party who has served cross questions. Within 3 days after being served with redirect questions a party may serve recross questions upon the party proposing to take the depositions. Written objections to questions may be served on the party propounding the questions, and in response thereto substitute questions may be served, within 3 days.

(b) A copy of the notice and copies of all questions served shall be delivered by the party taking the testimony to the officer designated in the notice, who shall proceed to take the testimony of the witness in response to the questions and to prepare each answer immediately preceded by its corresponding question, then certify, and file the deposition, attaching thereto the copy of the notice and the questions received by him. Such depositions are subject to the same rulings for filing and serving copies as other depositions.

* * * * *

(d) Testimony in foreign countries shall be taken only by depositions upon written questions unless the parties stipulate otherwise in writing. Rule 28(b) of the Federal Rules of Civil Procedure shall apply to the taking of testimony in foreign countries.

§ 2.124a [Revoked]

11. Section 2.124a is revoked.

12. Section 2.125 is revised to read as follows:

§ 2.125 Copies of testimony.

(a) One copy of the transcript of testimony (taken in accordance with § 2.123 (e) through (h) or § 2.124), together with copies of documentary exhibits, shall be served on each adverse party within 30 days after completion of the taking of such testimony. The certified transcript and exhibits and one copy of the transcript shall be filed in the Patent Office as promptly as possible.

(b) Each transcript and the copies thereof shall comply with § 2.123(g) as to arrangement, indexing and form.

13. In § 2.127, paragraphs (a) and (b) are revised. As amended, § 2.127 reads as follows:

§ 2.127 Motions.

(a) Motions shall be made in writing and shall contain a full statement of the grounds therefor. Any brief or memorandum in support of a motion shall accompany or be embodied in the motion. Briefs in opposition to a motion shall be filed within 15 days from the date of service of the motion unless another time is specified by the Trademark Trial and Appeal Board or the time is extended on request. Where a party fails to file a brief in opposition to a motion, the Trademark Trial and Appeal Board may treat the motion as conceded. Oral hearings will not be held on motions except on order of the Trademark Trial and Appeal Board.

(b) Any petition for reconsideration or modification of a decision, if it is not appealable, must be filed within 10 days after the decision or, if the decision is appealable, within the time specified in § 2.129(c). Any brief in opposition shall be filed within 15 days after service of the petition.

* * * * *

14. In § 2.128, paragraph (b) is revised. As amended, § 2.128 reads as follows:

§ 2.128 Final hearings and briefs.

(b) Briefs shall be submitted in typewritten or printed form, double spaced on letter or legal size paper. Without leave of the Trademark Trial and Appeal Board, no brief shall contain more than 50 pages of argument and, in case of the reply brief, the entire brief shall not exceed 25 pages. Each brief shall contain an alphabetical index of cases therein.

* * * * *

15. In § 2.129, paragraph (c) is revised. As amended, § 2.129 reads as follows:

§ 2.129 Oral argument.

* * * * *

(c) Any petition for rehearing, reconsideration, or modification of a decision must be filed within 30 days from the date thereof. Any brief in opposition shall be filed within 15 days after service of the petition.

Effective date. This revision shall be applicable to all proceedings instituted on or after July 1, 1972.

Date: April 5, 1972.

ROBERT GOTTSCHALK,
Commissioner of Patents.

Approved: April 11, 1972.

JAMES H. WAKELIN, JR.,
Assistant Secretary for Science and Technology.

Title 41—PUBLIC CONTRACTS AND PROPERTY MANAGEMENT

Chapter 5A—Federal Supply Service, General Services Administration

PART 5A-1—GENERAL

Price Stabilization

The table of contents of Part 5A-1 is amended to add the following new entry:

Sec.
5A-1.321-8 Maximum permissible escalation in wage and price standards.

Subpart 5A-1.3—General Policies

1. Section 5A-1.321 is amended as follows:

§ 5A-1.321 Stabilization of prices, rents, wages, and salaries.

* * * * *

(c) Executive Order 11640, dated January 26, 1972, supersedes the prior orders described in (a) and (b), above, and provides for the confirmation and ratification of all orders, regulations, circulars, or other directives issued and all other actions taken pursuant to the prior orders, as if issued under Executive Order 11640.

(d) This section prescribes procedures for carrying out the purpose of the Executive Order and shall apply to all procurements of the Federal Supply Service.

2. Section 5A-1.321-1 is revised as follows:

§ 5A-1.321-1 Solicitations (IFB/RFP).

(a) The following price certification shall be included in all solicitations (invitations for bids and requests for proposals) and resulting contracts, excluding small purchases under $2,500 (see § 5A-1.321-1(b)).

PRICE CERTIFICATION

(a) By submission of this bid (offer), bidder (offeror) certifies that he is in compliance and will continue to comply with the requirements of Executive Order 11640, January 26, 1972, for the duration thereof and further certifies that the prices bid (offered) herein conform to the requirements of Executive Order 11640, January 26, 1972, or shall be reduced accordingly at the time of any billings that are made during the effective period of the Executive order.

(b) Prior to the payment of invoices under this contract, the Contractor shall place on or attach to each invoice submitted the following certification:

"I hereby certify that amounts invoiced herein do not exceed the lower of (i) the contract price, or (ii) maximum levels established in accordance with Executive Order 11640, January 26, 1972."

(c) The Contractor agrees to insert the substance of this clause, including this paragraph (c), in all subcontracts for supplies or services issued under this contract.

(b) The following price certification shall be included in all solicitations involving small purchases under $2,500 and in all purchase orders issued pursuant to small purchase procedures (Subpart 5A-8.6). When the solicitation is made by telephone, the offeror shall be advised of the above mandatory requirements to be included in any resulting contract or purchase order and that failure to accept will result in rejection of the offer (for purchases made with imprest funds see § 5A-1.321-6).

PRICE CERTIFICATION (SMALL PURCHASES)

(a) By submission of this offer, offeror certifies that he is in compliance and will continue to comply with the requirements of Executive Order 11640, January 26, 1972, for the duration thereof.

(b) Prior to payment of invoices under this contract, Contractor must place on or attach to each invoice submitted the following certification:

"I hereby certify that amounts invoiced herein do not exceed the lower of (i) the contract price, or (ii) maximum levels established in accordance with Executive Order 11640, January 26, 1972."

(c) Payments will not be made on invoices unless certification, as prescribed above, has been completed.

3. Section 5A-1.321-4 is revised as follows:

§ 5A-1.321-4 Violations.

Reported and suspected violations of Executive Order 11640, January 26, 1972, which are brought to the attention of contracting personnel, shall be reported through channels to the Commissioner, FSS.

4. Section 5A-1.321-6 is revised as follows:

§ 5A-1.321-6 Imprest funds.

Individuals authorized to place imprest fund orders shall not place such orders with concerns which are in known violation of Executive Order 11640, January 26, 1972. Further, such individuals shall report violations in accordance with § 5A-1.321-4.

5. Section 5A-1.321-8 is added as follows:

§ 5A-1.321-8 Maximum permissible escalation in wage and price standards.

(a) Contracting officers shall provide for an appropriate notice to be included with all solicitations or contract awards which exceed $2,500 to insure that contractors are familiar with the guidelines established by the Pay Board and the Price Commission regarding maximum escalation permitted in wage rates and in price increases, as follows:

NOTICE OF MAXIMUM PERMISSIBLE ESCALATION IN WAGE AND PRICE STANDARDS

Bidders are advised of standards established under Executive Orders 11615, 11627, and 11640 setting maximum permissible percentages of escalation in wage rates and price increases. Such standards call for wage rate increases of no more than 5.5 percent per annum unless specific exceptions have been granted by the Pay Board. The price standard established by the Price Commission has the objective of holding economywide price increases to 2.5 percent per annum (3 percent per annum in the case of small business firms). To achieve this target, firms are allowed to increase prices to reflect allowable costs incurred since the last price increase or since January 1, 1971, whichever was later, and such costs as firms are continuing to incur, adjusted to reflect productivity gains. These price increases may not result in profit margins on sales which exceed the firm's profit margins for the highest 2 of the last 3 fiscal years ending before August 15, 1971. Average productivity gains are estimated to be 3 percent or higher for the economy annually for 1972 and 1973.

(b) In the evaluation of cost or pricing data, submitted in support of the pricing of contracts, contracting officers shall not recognize any amounts for annual aggregate pay increases in excess of 5.5 percent unless the prospective contractor can demonstrate that such increases have been allowed by the Pay Board. Lesser amounts should be negotiated to the extent practicable.

(Sec. 205(c), 63 Stat. 390; 40 U.S.C. 486(c); 41 CFR 5-1.101(c))

Effective date. These regulations are effective upon publication in the FEDERAL REGISTER (4-18-72).

Dated: April 3, 1972.

M. S. MEEKER,
Commissioner,
Federal Supply Service.

Title 47—TELECOMMUNICATION

Chapter I—Federal Communications Commission

[Docket No. 16979; FCC 72-288]

PART 0—COMMISSION ORGANIZATION

PART 64—MISCELLANEOUS RULES RELATING TO COMMON CARRIERS

Interdependence of Computer and Communication Services and Facilities

Memorandum opinion and order. In the matter of regulatory and policy problems presented by the interdependence of computer and communication services and facilities, Docket No. 16979.

1. We have before us petitions for reconsideration of our final decision and order herein (36 F.R. 5345), released March 18, 1971, 28 FCC 2d 267, together with numerous pleadings in response thereto.

2. Petitions for reconsideration were filed on various dates in April 1971, by the Western Union Telegraph Co.; International Telephone & Telegraph Co.; Bunker Ramo Corp.; Continental Telephone Co.; RCA Global Communications, Inc., First National Bank, San Angelo, Tex.; West Side National Bank, San Angelo, Tex.; Texas State Bank, San Angelo, Tex.; Wabash Data Services, Inc., Wabash, Ind.; Ligonier Telephone Co., Inc., Ligonier, Ind.; Florida Analytical Services, Winter Park, Fla.; the First National Bank of Pennsylvania, Erie, Pa.; Housing Service Center, Erie, Pa.; Columbia Service Bureau, Inc., Columbia, Mo.; and J. K. Hoover, Inc., Professional Data Services, Cedar Rapids, Iowa.

V 37-75 APR 18 72 XUM

3. We also have before us various oppositions and responses to the aforementioned petitions for reconsideration and other supplementary pleadings which were filed in April and May, 1971, by Bunker Ramo Corp.; Business Equipment Manufacturers' Association; Computer Time-Sharing Services Section (CTSS) of the Association of Data Processing Service Organizations, Inc. (ADAPSO); the Western Union Telegraph Co.; International Telephone & Telegraph Co.; Mankato Citizens Telephone Co., Mankato, Minn.; the New Ulm Rural Telephone Co., New Ulm, Minn.; the Blue Earth Valley Telephone Co., Blue Earth, Minn.; the Eckles Telephone Co., Blue Earth, Minn.; Computoservice, Inc., Mankato, Minn.; and GTE Data Services, Inc.[1]

QUESTIONS PRESENTED

4. The principal questions raised by the petitions for reconsideration may be stated as follows:

a. Did the Commission err in deciding not to impose a complete bar on communications common carriers engaging directly or indirectly in data processing services?

b. Assuming that the Commission was correct in permitting communications common carriers to engage in data processing services through separate entities, were the safeguards imposed thereon to prevent anticompetitive, discriminatory, and cross-subsidization practices, too rigid or not rigid enough?

c. Does the Commission have sufficient jurisdiction and statutory authority to take the action it has taken?

CONTENTIONS OF PETITIONERS

5. In its petition the Bunker Ramo Corp. (Bunker Ramo) contends that we have not set forth specifically our rationale for permitting carriers entry into data processing services and that the enforcement of the safeguards we have imposed will generate an unforeseen regulatory burden on the Commission.

6. The Western Union Telegraph Co. (WU) contends that the safeguards we have imposed are to rigid and unfair to the carriers, referring particularly to the requirement that a carrier may not purchase data processing services from an affiliate that also wants to sell to others, the restrictions on the use of a carrier's name or symbol in the data processing company's promotional activities or enterprises, and to the requirements that carriers submit information to the Commission concerning proposed hybrid data processing and hybrid communications offerings of itself and its affiliated companies.

7. International Telephone & Telegraph Co. (ITT) contends that it will lose a valuable property right and goodwill attached thereto if it cannot use "ITT" in the name of both its communications subsidiary (i.e. ITT World Communications, Inc.) and its separate data processing division (ITT Data Services).

8. RCA Global Communications, Inc. (RCA), urges us to clarify or amend our decision so that (a) a carrier may directly (without using separate corporate entities) furnish data processing services, on a cost-sharing basis, to its carrier affiliates "and to other communications entities" in connection with intercarrier arrangements and traffic, (b) a computer system or systems utilized by a carrier for communications purposes (e.g. message switching) may also be used for "in-house" purposes that are unrelated to furnishing of communications services, and (c) a carrier's parent corporation such as RCA Corp., which employs computers for its own internal operations, may continue to make available to others, during off-peak hours, spare capacity from these computers.

9. Continental Telephone Corp. (Continental), is a holding company. It contends that all but eight of the 86 operating telephone companies owned by Continental are "connecting carriers" as defined in section 2(b)(2) of the Act and that these carriers are therefore not subject to the Commission's jurisdiction; that "local" data processing does not involve the use of communications facilities and is thus not subject to our jurisdiction; that "remote access" data processing by the use of communications facilities located physically within the same State is intrastate in nature and thus not subject to Commission jurisdiction under section 2(b)(1) of the Act; and that "remote access" data processing by the use of communications facilities that cross State lines is performed, in the case of Continental companies, only through physical connection with unaffiliated carriers and thus such activity is not subject to the Commission's jurisdiction under section 2(b)(2) of the Act. Furthermore, Continental contends that the Commission's attempt to regulate it, as the parent corporation, is improper since it is not an operating telephone company and the Act authorizes the Commission to regulate only common carriers. Moreover, Continental argues that the Commission does not have primary jurisdiction in antitrust matters and thus cannot adopt regulations for the purpose of preserving competition; that the record in this proceeding is devoid of any present or prospective abuses by telephone companies furnishing data processing services; and that any form of cross-subsidization or anticompetitive action by telephone companies would be prevented by State regulatory commissions in the States where the Continental companies operate.

10. Continental further contends that the rules we have adopted will seriously injure the Continental companies in that they will not be able to create a data processing affiliate that can provide service to both the operating telephone companies of Continental and to the nontelephone, noncommunications subsidiaries of Continental (e.g., the manufacturing affiliate); they will not be able to create a data processing affiliate that can provide service both to the general public and to the affiliated operating telephone companies; they will not be able to obtain all economies of scale flowing from the sharing by affiliates of the same computer facilities, operating personnel, officers, and records; they will have to make reports and submit information to the Commission that will not be required of unregulated data processing services; they will not be able to lease their communications computers during off-peak hours; they will not be able to make full use of the valuable property right in the words or symbols contained in the names of the operating telephone companies; and they will not be able to promote the sales or activities of the data processing affiliate. Continental urges us to vacate and annul our decision in its entirety and adopt a case-by-case approach for the reason that "if, and when, any particular carrier subject to the Commission's jurisdiction engages in any wrongful activity, the Commission or one of its sister agencies can act under its existing authority."

11. The remaining petitions for reconsideration were submitted by banks, data service bureaus, and other customers who presently use or propose to use the data processing services pro- (GTEDS). These petitioners contend that our decision and rules deprive them of the opportunity to obtain "local" data processing services that are essential to their businesses because GTEDS, a carrier-related data processor, would not be permitted to provide data processing services to them and its carrier affiliates. The contention is made that a shift by these petitioners to new or alternative data processing services would be costly, inefficient and a hardship on petitioners. Accordingly, they urge us to reconsider that part of our decision that prevents a carrier-related data processor from providing "local" data processing services to both the general public and carrier affiliates.

RESPONSES TO PETITIONS FOR RECONSIDERATION

12. Following the receipt of the above-described petitions for reconsideration, oppositions were submitted by the Computer Time-Sharing Services Section of the Association of Data Processing Service Organizations, Inc. (ADAPSO), Business Equipment Manufacturers Association (BEMA), and Bunker Ramo.

13. ADAPSO, which filed no petition for reconsideration, opposes the petitions of ITT and Western Union and contends that the relief requested by these carriers would lead to deterioration in communications service, cross-subsidization, and unfair competitive practices. Bunker Ramo objects to the petitions of Western Union, ITT, and Continental and reiterates its earlier position that there should be total preclusion of carrier participation, directly or indirectly, in data processing services.

14. BEMA opposes the petitions of ITT and Western Union on the grounds that these petitions merely restate earlier arguments and contentions that were carefully considered and rejected by the Commission and that there is therefore no basis for reconsideration, citing our decision in "WWIZ, Inc.," 3 RR 316 (1964), among others. BEMA also contends that Western Union should not be heard to complain that carrier-related data processors would be required to submit certain reports to the Commission that would not be required of other data processors. BEMA asserts that Western Union is the holder of a monopoly franchise which gives Western Union and other carriers a competitive leverage not enjoyed by noncarrier affiliated data processing companies and should expect to be required to submit such reports.

15. In addition to the aforementioned oppositions addressed specifically to the petitions for reconsideration, a number of other pleadings were submitted. ITT filed a reply to the opposition of ADAPSO and repeated ITT's contention that it should be permitted to continue to use "ITT" in the names of both its communications and data companies. Western Union filed a general response to earlier pleadings which it does not specifically identify. In its further pleading, Western Union restates its earlier arguments that the safeguards we imposed for carriers and carrier-related data processors are too rigid. In addition, Western Union contends, for the first time, that the Commission lacks power to impose any restraints whatsoever on the conduct of a carrier's noncommunications business unless there is a showing of actual or potential abuse; that such a showing is lacking in the record of this proceeding; and that the Commission lacks power to regulate transactions between carriers and their noncarrier affiliates. The company requests oral argument before the Commission on the jurisdictional contentions made by it. Bunker Ramo also filed another pleading by way of reply to the aforementioned general response of Western Union in which Bunker Ramo makes certain contentions about a pending formal complaint that it has filed against Western Union alleging, inter alia, certain discriminatory actions by the carrier and requesting monetary damages. This complaint is currently in hearing status in Docket No. 19206.

16. GTEDS filed a statement in support of the petitions for reconsideration that were filed by banks and others who are currently using or propose to use the "local" data processing services of GTEDS. Although the pleading does not identify the intercorporate relationship of GTEDS to telephone carriers, we take official notice that it is a data processing affiliate of the General Telephone System, the largest non-Bell telephone system in the United States. GTEDS asserts that its data centers are generally located where no other reasonable source of data processing services is available to the petitioners; that such petitioners will be faced with the decision of returning to manual methods, using in-house systems, or converting their operations and rewriting programs to fit the equipment of another supplier, if one is available; that some service bureaus leasing block time from GTEDS may be forced out of business; that the allocation of costs of computers or computer system between communications usage, on the one hand, and "local" data processing usage, on the other hand, would be fairly simple and the potential for cross-subsidization and other improprieties would be negligible; and that GTEDS or its affiliate carriers ought to be able to provide data processing services to unaffiliated telephone companies. GTEDS filed no petition for reconsideration. Nevertheless, it urges us to modify our decision to at least allow carriers or carrier-related affiliates to provide "local" data processing to both the public and carrier affiliates, and to allow carriers or carrier-related affiliates to furnish all kinds of data processing services to both nonaffiliated telephone companies and carrier affiliates.

17. The Mankato Citizens Telephone Co., New Ulm Rural Telephone Co., Blue Earth Valley Telephone Co., Eckles Telephone Co., and Computoservice, Inc. filed a joint pleading in which they assert that they have formed a data processing service company, named Computoservice, Inc. (CSI), which provides data processing service to small telephone companies and to other businesses as well. These petitioners specifically oppose the petition for reconsideration filed by Bunker Ramo. Although this joint petition does not object to any part of our decision or rules, it is assumed that the companies object to our decision to the extent that it would bar their carrier-related data processing affiliate (Computoservice, Inc.) from providing data processing services to both the affiliated carriers and the public.

DISCUSSION

18. We discuss first the contention of Bunker Ramo that our decision does not set forth our rationale for concluding that communications common carriers should be permitted to engage in data processing.

19. We believe that Bunker Ramo's objection stems primarily from its apparent failure to recognize that our earlier tentative decision, with modifications, was adopted as a part of our final decision and that the two documents must be read together. In our tentative decision, we started off with the proposition that "In this country we rely upon the 'free enterprise' system with the maximum possible latitude for individual initiative to enter into any given enterprise and compete for available business" (paragraph 19); that "the offering of data processing services is essentially competitive" (paragraph 20); and that "the market for these services will continue to burgeon and flourish best in the existing competitive environment" (paragraph 22). We further found that, except with respect to the Bell System, there is no provision of law that prohibits or bars a carrier from engaging in any nonregulated service and that many carriers do, in fact, provide such services (paragraphs 24, 27). We alluded to the SRI study that set forth the possible benefits from permitting carriers to enter into data processing (paragraph 31) and we concluded that "the additional competitive services provided by carrier participation in data processing can and should, with the specific safeguards, promote innovation, efficiency, economy, and diversity with resulting new and improved services at lower prices to the users of data processing" (paragraph 33).

20. In paragraph 11 of our final decision, we specifically reaffirmed our tentative decision in the foregoing respects and concluded that there was no basis for us to adopt an outright prohibition against carriers providing data processing services directly or indirectly.

We stated that it would be an extreme sanction that would be contrary to our established policy of generally permitting carriers to engage in nonregulated business, subject to safeguard; and that we expected that the "competition afforded by carriers in the provision of computer services could and would provide benefits in such matters as new and improved services and lower prices." Finally, we concluded that "we cannot find the necessary social, economic, or policy considerations which would require or even justify an outright prohibition against the furnishing of data processing services by common carriers."

21. Bunker Ramo argues further that total preclusion of carriers from data processing is the best practical alternative for the Commission to follow to achieve the objective of preventing cross-subsidization, discrimination, and anti-competitive practices by carriers. The reasons given are that, in order to make the safeguards work, the Commission must maintain a staff and related resource adequate to monitor the activities of the carriers and their data affiliates to assure that they abide by the safeguard rules and that they do not in fact engage in such improper practices; that the Commission does not now have and isn't likely to have the resources necessary to do the job adequately; and that total preclusion of the carriers from data processing would remove the necessity for any safeguard rules or for the enforcement thereof. Thus, for example, it is contended that a carrier could deny service to such competitors or extend other forms of preferential treatment to the carrier's affiliate and, although such actions would be unlawful, the remedies under the Act for such unlawful actions are allegedly inadequate. We gave careful consideration to this argument in our final decision, and stated, inter alia, that we expect the carriers to live up to the spirit as well as the letter of their obligations and that we would take prompt action should we find our confidence in this regard misplaced (paragraphs 21–22).

[1] Additional pleadings pending before us have also been considered herein to the extent relevant and material but will be disposed of by separate order in due course. They are Comsat's petition for clarification and waiver, filed July 9, 1971; CTED's request for official notice filed Sept. 24, 1971, and oppositions thereto filed by Bunker Ramo Corp. and CTSS; and GT&E Corp.'s request for interpretation and contingent request for reconsideration, filed Oct. 19, 1971.

V 37-75
APR 18 72
XUM

Contrary to Bunker Ramo's assertion, we are convinced that the various provisions in the Act for forfeitures, sanctions, penalties, and other remedies are quite adequate to assure that the carriers will conform to the requirements of the Act in providing communications service to the public. Accordingly, we reject the contentions that the safeguards we are imposing should be made more rigid. Our conclusion is that these safeguards are adequate and that they will afford reasonable assurance for the immediately foreseeable future that the provision of data processing services by carriers will neither adversely affect the statutory obligation of such carriers to provide adequate communications service under terms and conditions that are just and reasonable and free of undue discrimination or preference, nor impair effective competition in the sale of data processing services. Moreover, we make it clear in our final decision that we shall be prepared to make an changes in our rules and take such action as may be necessary or desirable if we find that the safeguards are not achieving the aforesaid public interest objectives.

22. In view of the foregoing, it appears to us that Bunker Ramo's argument, in substance and effect, is that it should be sheltered by the Commission from any competition whatsoever from carrier-related data processing rivals. We believe that Bunker Ramo is urging an untenable position that would be clearly anticompetitive and contrary to the public interest, particularly in view of the numerous safeguards we are imposing to protect companies like Bunker Ramo from any substantial danger of improper competitive actions by common carriers.

23. As heretofore stated, parties other than Bunker Ramo that submitted petitions for reconsideration, contend that the specific safeguards we have imposed, are, in one or more respects, too stringent. These parties are Western Union, ITT, RCA, Continental, and the aforementioned customers of GTEDS. We have summarized all of these various contentions in preceding paragraphs 6–10 hereof. Numerous comments were also filed in opposition to or in support of these contentions and these are also summarized in preceding paragraphs 16–17 hereof. Most of these objections and comments thereon are addressed to the merits of the specific safeguards that we proposed in our tentative decision, and as to which all interested parties had ample opportunity to submit comments thereon and on which oral argument was held en banc before the Commission. Thus, insofar as the petitions herein are directed to the safeguards proposed in our tentative decision, we are of the view that they are repetitious and that the parties have offered nothing new in the way of factual matter or other consideration to warrant additional or further discussion by the Commission. We carefully considered all of these contentions and gave our reasons for adopting the aforementioned safeguards in our tentative and final decisions. Accordingly, reconsideration thereof will be denied. "WWIZ, Inc." 3 RR 2d 316 (1964). However, there are certain contentions made by the petitions for reconsideration that warrant further discussion by us and these relate to the actions we took in our final decision to extend the safeguards we originally proposed in our tentative decision.

24. In our Tentative Decision we proposed to prohibit a carrier from engaging in the sale or promotion of data processing activities of its data processing affiliate (paragraph 36; § 64.702 (b)(3)). We considered this to be an essential ingredient of our regulatory scheme of "maximum separation of activities which are subject to regulation from nonregulated activities involving data processing" (paragraph 35). In our Final Decision we agreed with the reasoning of several parties that this particular restriction should be made more effective by making it clear that it would be impermissible for a data affiliate to use in its name any of the carrier's name or symbol (see paragraph 18). In their petitions for reconsideration, Western Union, ITT, and Continental object to this particular expansion of our earlier proposed rule. However, none of these parties raise any objections to the basic requirement, proposed in our Tentative Decision, that a carrier shall not engage in the sale or promotion of the services of its data affiliate. We find this to be somewhat inconsistent. We think it clear that the use of a carrier's name or symbol in the name of a data affiliate could negate the objectives of our basic rule and would result in the carrier indirectly promoting the services of its data affiliates. The arguments made by the carriers bear this out because they stress the great value and goodwill in the carrier's name or symbol which will be lost to and not available to the data affiliate under our rule. We are of the opinion that we should adhere to our expanded requirement for the reasons stated above and in our Final Decision (see paragraph 18). We shall therefore reject the requests that we reconsider and delete this requirement.

25. As we made clear in our Tentative Decision, the objectives of our "maximum separation" safeguard rules are to assure that we, as well as State regulatory agencies, could discharge our regulatory responsibilities with respect to maintaining adequate and efficient communications services at reasonable and nondiscriminatory rates and practices, and that foreseeable anticompetitive carrier practices could be prevented without the necessity of taking corrective measures that might otherwise be called for (paragraphs 35–37). Accordingly, we gave careful consideration to the contentions of several parties commenting on our Tentative Decision that we could not achieve these objectives unless we made it clear that carrier-related data affiliates should not provide data processing services both to their related carriers and to others. We agreed with these contentions in our Final Decision as a logical and necessary extension of our "maximum separation" safeguards and adopted § 64.702(c)(5) which would prohibit such transactions (paragraphs 19 and 20).

26. Western Union, Continental, and GTEDS' customers request our reconsideration of the aforementioned safeguard rule prohibiting carriers from obtaining data processing services from data affiliates and providing service to others. ITT and RCA raise no objection thereto. Western Union asserts that our action in this regard imposes on a carrier's data affiliate a competitively inferior status; that unregulated companies and regulated utilities other than communications carriers, may purchase at will from their data affiliates; and that a larger market is made available to unrelated data processing companies to the unfair competitive disadvantage of carrier-related data companies. Continental states that the rule would not affect their present operation but that their operating telephone companies should have an option in the future, if desirable, to purchase data processing from their affiliated data processing company (Continental Data Services Corp.) which sells data processing service to the public. At present, the Continental telephone companies obtain all of their "in-house" data processing services from another data processing affiliate (Continental Telephone Service Corp.), which does not sell data processing service to the public. Continental contends that there is no reason why its carriers should not be able, if they wish, to buy data processing services from the same affiliate that also sells to the public. It makes essentially the same argument as Western Union and relies upon the dissenting statement of the three Commissioners. The customers of GTEDS (supported by a subsequent pleading filed by GTEDS) assert that they will not be able to obtain "local" data processing service from GTEDS "so long as GTEDS continues to provide data processing services to its telephone affiliate." They state that it will be difficult and costly for them to shift to other data processing services. Thus, both GTEDS and their customers object to the extension of our safeguard rules that prevent a carrier from purchasing data processing services from a data affiliate that also sells to others. Finally, as heretofore stated, the four non-Bell System telephone companies (Mankato Citizens Telephone Co. et al.) who have formed Computoservice, Inc., indicate by their pleading herein that they wish to continue to be able, through their data affiliate, to provide data processing service to both the owner companies and to the public.

27. All of the aforementioned contentions advanced by Western Union, Continental, GTEDS, customers of GTEDS, and Mankato, et al. in opposition to § 64.702(5) were carefully considered by the Commission before it took action. The essence of all of these arguments was clearly articulated in the opinion of the three Commissioners dissenting from our final decision. Nothing new has been added by petitioners to warrant any

change in our conclusion that adoption of this expanded requirement is a natural, logical, and necessary amplification of our rules if we are effectively to implement "maximum separation." Moreover, the pleadings that have been submitted by GTEDS and its customers lend added support to the correctness of our action in adopting § 64.702(5) for reasons which we shall state.

28. One of our concerns in adopting our "maximum separation" is that there be no adverse effect of carrier entry on competition in the data processing market. Both GTEDS and its customers contend that currently there are no other "reasonable" alternative data processing sources for customers of GTEDS to turn to if GTEDS is required to comply with our rule by limiting its service exclusively to the operating telephone companies of the General Telephone System. If these statements are correct, serious and substantial questions are raised as to whether the General Telephone System may not have already achieved a dominant position in the data processing markets or submarkets now being served by GTEDS with adverse consequences on the competitiveness of such markets.

29. As heretofore stated the General Telephone System is the largest telephone system in the United States, outside of the Bell System. The parent corporation, General Telephone & Electronics Corp. (GTE) is a holding company which owns and controls a number of telephone, manufacturing, research, directory, and service companies with operations in 39 States and 18 foreign countries. GTEDS is a wholly owned subsidiary of GTE. At the end of 1970, GTE had total assets of $7.7 billion, including net property, plant and equipment of $6.1 billion. Gross telephone plant (before deduction of depreciation reserve of $1.2 billion) amounted to $7 billion. Gross investment in manufacturing facilities totalled $702 million before accumulated depreciation of $337 million. The telephone operations of GTE produced revenues in 1970 totaling $1.7 billion and net income of $166 million. Manufacturing operations reported sales of $1.7 billion and net income of $70 million. Consolidated revenues and sales of GTE amounted to $3.4 billion with consolidated income of $205 million. In the United States, accordingly to "Forbes" (May 15, 1971), GTE ranked 23d in terms of assets at the end of 1970, for the year 1970, 26th in terms of sales and revenues and 18th in terms of net income.

30. The nationwide computer system of GTEDS consists of large-scale computers located at approximately 13 regional centers throughout the United States. Typical of these installations is the one at San Angelo, Tex. In its pleading, GTEDS describes the situation at San Angelo as follows:

> Specifically, the GTEDS data center in San Angelo, Tex., is the only sizeable EDP operation in a 100-mile radius. There are only two (2) service bureaus in that area and they operate with a 1401 and a small scale 360/20 computer; and one of the banks in San Angelo has a small Burroughs 350. GTEDS presently has IBM 360/50 and 360/40 computers at the San Angelo location. These computers are much larger than the three above mentioned and therefore have the capability of running larger, more sophisticated, and more complicated programs. Most of the applications run by GTEDS on these computers could not be run on the smaller computers above mentioned. The market potential for EDP services in the San Angelo area indicates that very few if any service bureaus would invest the capital required to acquire and operate this equipment which is necessary to service the needs of the community.

31. From the above-quoted statements by GTEDS it would appear reasonable to conclude that the principal factor that militates against the existence of comparable alternative competitive sources in the San Angelo area is the fact that GTEDS, which was formed for the purpose of serving the operating telephone companies of the General Telephone System, now provides service to the public thereby making it difficult if not impossible for alternative sources to exist. We note from GTEDS' statement that there might indeed be a "few" service bureaus that would be willing to make the investment and supply the data processing services needed by the public if GTEDS' services were not offered to the public. Accordingly, rather than supporting arguments against our rule, we believe that the information submitted by GTEDS and its customers does just the opposite and strongly supports our action in adopting § 64.702(5). If in fact, GTEDS or its parent company has serious concerns about the availability of computer services to the customers now served by GTEDS, there is nothing in our decision to prevent the parent company from providing such services through an affiliate which does not serve the telephone carriers of the General Telephone System.

32. The responsive pleading filed jointly by the four non-Bell System telephone companies owning Computoservice, Inc. (CSI), is directed primarily to urging us to deny Bunker Ramo's petition for reconsideration. This we have done. However, the pleading also expresses concern over the effect of our decision on the future operations of CSI. It appears that CSI would not be able, under our rules, to continue to provide service to both the public and to all of the four telephone company owners. This is because at least one of the owners (the Mankato Co.) has revenues that exceed $1 million a year and thus would not be exempt under § 65.702(b). To the extent that the other owners of CSI are exempt under § 65.702(b), they will be permitted to purchase data processing service from CSI even though CSI also sells to others. Thus, the only change in CSI's operation that would appear required under our rules, assuming CSI elects to serve others, would be for CSI to discontinue furnishing data processing service to Mankato and any other owner that is not exempt. CSI alternatively could devote all of its operations to its owners. We do not believe that the changes that may be required in CSI's operations constitute sufficient grounds to warrant our reconsideration of our decision in this respect.

32a. As indicated above, we are of the view that, if data processing affiliates serve both their related communications companies and nonrelated companies, they would be in a peculiarly advantageous structural position to absorb the markets now served by other data processing companies. With an assured market furnished by a carrier affiliate (sales of data processing services would be expenses to the communications carrier and passed on to the communications user), it is reasonable to expect that the data processing affiliate would gain a competitive advantage over its nonaffiliated rivals and the risk would be that the data processing market would gravitate to communications data processing affiliates and eventually be "captured" by them. This is what has already happened in some degree in the areas served by GTEDS and we are concerned that this tendency would increase as computers and communications became more and more interdependent. Accordingly, we reject the contentions of petitioners in this respect.

33. Western Union objects to the requirement that carriers or carrier-related data companies must file with us reports of any proposed "hybrid" service 90 days before engaging therein (§ 64.702 (e) and (b)). These reports must include a complete description of the proposed service. One of the purposes of these rules is to assist the Commission in developing on an ad hoc basis the guidelines that will be helpful to industry and interested parties in determining the specific factual situations under which hybrid services would fall into either the category of hybrid communications (regulated) or hybrid data services (unregulated) (see paragraphs 33–36 of final decision). Western Union contends that competitors of carriers will be able to see these reports well in advance of the inauguration of the service and learn of the business plans and purposes of the carriers whereas noncarriers will not be required to make similar disclosures. Western Union's objection to public disclosure of these reports at the time they are submitted is well taken. However, our existing rules provide ample means whereby any needed protection to the carriers and carrier-related companies may be provided in any case where a showing can be made that premature public disclosure of such reports would be inappropriate (see § 0.459). Accordingly, we will give consideration to any requests made, at the time any of these reports are submitted, for confidential treatment and will decide such requests on their individual merits. However, it should be understood that our policy will be to make public all of these reports (and any Commission ruling thereon) within a reasonable period after they are submitted so that industry may have the benefit of the guidelines developed from the regulatory treatment accorded to the specific factual situations

V 37 75 A PR 18 72 XUM

covered in these reports. For the foregoing reasons, we shall reject Western Union's request that we reconsider and amend § 64.702 (e) and (f).

34. RCA's petition for reconsideration asks modification of our rules to permit a carrier itself to provide data processing services on a cost-sharing basis directly to its common carrier affiliates. No change is required for this purpose as the rules permit this to be done. However, RCA goes further and asks that a carrier itself be permitted to provide such services directly to both its common carrier affiliates "and to other communications entities in connection with intercarrier arrangements and traffic." RCA does not state what companies are intended in the somewhat broad term "other communications entities" nor does it otherwise provide any factual support for this proposal. We shall therefore reject it as an unjustified deviation from our general rule that a carrier not otherwise exempt may provide data processing services to others only through separate corporations in accordance with our "maximum separation" principle.

35. RCA also asks that we make it clear that a carrier may use its own "in-house" computer or computer systems not only for purposes incidental to the provision of public communication services but for any purpose incidental to any permissible nonregulated undertaking of the carrier. We think it clear that our rules do not prohibit such usage. Carriers are permitted to engage in certain nonregulated activities (e.g. Western Union's flower and time services). Paragraph 20 of our final decision states that a carrier's in-house computer system may be used to accommodate a carrier's particular needs. The language in paragraph 15 of our final decision to which RCA refers, was not intended to limit the use of a carrier's "in-house" computers to the regulated activities of the carrier. Similarly our rules would permit RCA's parent corporation, for example, to provide off-peak capacity from its in-house computers to persons other than an affiliated carrier. RCA's requests for clarification are granted to the extent indicated above.

36. Finally, we turn to the jurisdictional arguments made by Continental and Western Union. We summarize the contentions of these parties in preceding paragraphs 9 and 15. None of the other parties firing pleadings with us have questioned our power to take the action we have taken herein.

37. In our tentative and final decisions we dealt at some length with the various jurisdictional questions that had been raised by the parties (see e.g. tentative decision paragraphs 14, 17–19, 27a–29; final decision paragraphs 4–9, 23, 28, 30). Neither Continental nor Western Union present any new factual or legal arguments that have not been considered by us and discussed in our tentative and final decision. Ordinarily we would be disposed to engage in no further elaboration with respect thereto. However, some additional comments should be made with respect to certain aspects of these contentions.

38. Continental, for example, continues to rely heavily on its allegation that all but eight of its 86 operating telephone companies are classified as section 2(b)(2) "connecting carriers" and that, for this alleged reason, we have no jurisdiction over such carriers. We discussed this argument in our final decision (see paragraph 23 of final decision), but Continental continues to dispute our holding that we have jurisdiction over any carrier that is in fact a section 2(b)(2) carrier. However, Continental, in quoting 2(b)(2) of the Act in its petition omits language therein that section 2(b)(2) companies are fully subject without exemption to section 301 of the Act thereby ignoring the requirement that any 2(b)(2) carrier that is licensed by us to operate radio facilities may do so only if it meets the public interest requirements imposed by the Act and the rules and regulations which we promulgate in the public interest. Continental also omits that portion of section 2(b)(2) that states that "connecting carriers" are subject generally to the requirements of sections 201–205 of the Act including inter alia that these carriers shall not engage in any practice for and in connection with its interstate communications services that is unjust or unreasonable or unduly discriminatory or preferential. Continental also overlooks the statutory provisions that make section 2(b)(2) carriers subject to our direct antitrust jurisdiction, insofar as sections 2, 3, and 7 of the Clayton Act are concerned (47 U.S.C. 602(d)) and that only this Commission can grant antitrust immunity to 2(b)(2) and other carriers involved in mergers and acquisitions (47 U.S.C. 221(a)).

39. Western Union's arguments on jurisdiction are not entirely clear. First, it states that the Commission does indeed have broad powers. However, it states that "what is contended by the carriers is that the exercise of such powers to prohibit carrier procurement of affiliate-supplied data processing and the shared use of common corporate names is an abuse of discretion." It appears to argue that we abused our discretion by not utilizing other measures open to us. We disagree. By the preceding paragraphs hereof and in our prior decisions we have set forth our carefully considered reasons for our action in these regards in lieu of the alternative courses of action recommended by Western Union. The company argues additionally that we have no statutory authority to impose the restrictions we have imposed. We also disagree with this. At the risk of repetition, we reassert that our statutory authority is broad and imposes heavy responsibilities upon us, inter alia, to insure (a) that common carriers, presently and in the future, provide adequate communications service, at just and reasonable and nondiscriminatory rates and that they employ practices, and classifications and regulations that are just, reasonable and nondiscriminatory, sections 47 U.S.C., 151, 201–202, 211, 213–215, 218–220; (b) that they operate all radio facilities in accordance with the public interest requirements of the Act, and the rules and regulations thereunder, section 47 U.S.C. 301 et seq.; and (c) that they comply with sections 2, 3, and 7 of the Clayton Act, 47 U.S.C. 602(d). Further, we have the statutory duty to consider and evaluate all relevant factors with respect to the foregoing, including, but not limited thereto, national policies relating to competition, monopolies or combinations, contracts or agreement in restraint of trade 47 U.S.C. 221(a), 313, 602(d); and sections 2, 3, and 7 of the Clayton Act.

40. For the reasons stated above and in our decisions we shall deny the petitions for reconsideration and shall make no modifications at this time in our rules. In this connection we affirm the interpretation of our rules by the Chief, Common Carrier Bureau, in a letter to GTE dated March 23, 1971, from the Chief, Common Carrier Bureau, copy of which is appended hereto.[2]

CONCLUSION

41. *Accordingly, it is ordered,* That the aforementioned petitions for reconsideration are denied and our final decision is affirmed.

Adopted: March 28, 1972.

Released: March 30, 1972.

FEDERAL COMMUNICATIONS COMMISSION,[3]

[SEAL] BEN F. WAPLE,
Secretary.

[FR Doc.72-5832 Filed 4-17-72;8:51 am]

[2] Letter filed as part of the original document.

Title 50—WILDLIFE AND FISHERIES

Chapter I—Bureau of Sport Fisheries and Wildlife, Fish and Wildlife Service, Department of the Interior

PART 32—HUNTING

PART 33—SPORT FISHING

Upper Mississippi River Wild Life and Fish Refuge, Ill., and Certain Other States

The following special regulations are issued and are effective on date of publication in the FEDERAL REGISTER (4-18-72).

§ 32.12 Special regulations; migratory game birds; for individual wildlife refuge areas.

ILLINOIS, IOWA, MINNESOTA, AND WISCONSIN

UPPER MISSISSIPPI RIVER WILD LIFE AND FISH REFUGE

The public hunting of migratory game birds on the Upper Mississippi River Wild Life and Fish Refuge, Illinois, Iowa, Minnesota, and Wisconsin, is permitted on the areas designated by signs as "open" to hunting. Hunting of migratory game birds is not permitted on the areas designated by signs as "closed" to hunting. The "open" areas comprising 153,000 acres are delineated on maps available at the refuge headquarters, Winona, Minn. 55987, and from the Regional Director, Bureau of Sport Fisheries and Wildlife, Federal Building, Fort Snelling, Twin Cities, Minn. 55111.

Hunting shall be subject to the following special conditions:

(1) Hunting of migratory game birds on designated "open" areas concurrent with applicable State and Federal seasons is permitted.

(2) The hunting of migratory game birds shall be in accordance with all applicable State regulations which are adopted herein and made a part of this regulation.

The provisions of this special regulation supplement the regulations which govern hunting on wildlife refuge areas generally which are set forth in Title 50, Code of Federal Regulations, Part 32, and are effective until June 30, 1973.

§ 32.22 Special regulations, upland game, for individual wildlife refuge areas.

ILLINOIS, IOWA, MINNESOTA, AND WISCONSIN

UPPER MISSISSIPPI RIVER WILD LIFE AND FISH REFUGE

The public hunting of upland game birds, upland game animals, and raccoon, groundhogs, foxes, and crows on the Upper Mississippi River Wild Life and Fish Refuge, Illinois, Iowa, Minnesota, and Wisconsin is permitted on the areas designated by signs as "open" to hunting. Restricted hunting of these species is also permitted on the areas designated by signs as "closed" to hunting; except that the Goose Island Closed Area in Pool 8 is closed at all times to hunting and the discharge of guns is prohibited thereon. The "open" areas comprising 153,000 acres, and the "closed" areas comprising 41,000 acres are delineated on maps available at the refuge headquarters, Winona, Minn. 55987, and from the Regional Director, Bureau of Sport Fisheries and Wildlife, Federal Building, Fort Snelling, Twin Cities, Minn. 55111.

Hunting shall be subject to the following special conditions:

(1) Hunting on designated "open" areas concurrent with applicable State seasons is permitted, but only during the period from the first day of the earliest fall State game bird or game animal season applicable to the geographic area concerned, until the end of the applicable State seasons, or until the next succeeding March 1, whichever occurs first.

(2) Except for the Goose Island Closed Area which is closed to hunting at all times, hunting on designated "closed" areas concurrent with applicable State seasons is permitted, but only during the period from the first day after the close of the last hunting season for ducks applicable to the geographic area concerned, until the end of the applicable State seasons, or until the next succeeding March 1, whichever occurs first.

(3) The hunting of upland game birds, upland game animals, and raccoon, groundhogs, fox and crows shall be in accordance with all applicable State regulations which are adopted herein and made a part of this regulation.

(4) Except with permission in writing obtained from the Refuge Manager, the discharge of guns of all types is prohibited on all lands and waters of the Upper Mississippi River Wild Life and Fish Refuge during the period from March 1 until the first day of the earliest fall State game bird or game animal season applicable to the geographic area concerned.

The provisions of this special regulation supplement the regulations which govern hunting on wildlife refuge areas generally which are set forth in Title 50, Code of Federal Regulations, Part 32, and are effective until June 30, 1973.

§ 32.32 Special regulations; big game; for individual wildlife refuge areas.

ILLINOIS, IOWA, MINNESOTA, AND WISCONSIN

UPPER MISSISSIPPI RIVER WILD LIFE AND FISH REFUGE

The public hunting of deer on the Upper Mississippi River Wild Life and Fish Refuge, Illinois, Iowa, Minnesota, and Wisconsin is permitted on the areas designated by signs as "open" to hunting. Restricted hunting of deer is also permitted on the areas designated by signs as "closed" to hunting, except that the Goose Island Closed Area in Pool 8 is closed to all hunting at all times. The "open" areas comprising 153,000 acres, and the "closed" areas comprising 41,000 acres are delineated on maps available at the refuge headquarters, Winona, Minn. 55987 and from the Regional Director, Bureau of Sport Fisheries and Wildlife, Federal Building, Fort Snelling, Twin Cities, Minn. 55111.

Hunting shall be subject to the following conditions:

(1) Bow and gun deer hunting on designated "open" areas is permitted concurrent with applicable State seasons.

(2) Except for the Goose Island Closed Area which is closed to hunting at all times, bow and gun deer hunting on designated "closed" areas concurrent with applicable State seasons is permitted, but only during the period from the first day after the close of the last hunting season for ducks applicable to the geographic area concerned, until the end of the applicable State seasons, or until the next succeeding March 1, whichever occurs first.

(3) The hunting of white-tailed deer shall be in accordance with all applicable State regulations which are adopted herein and made a part of this regulation.

The provisions of this special regulation supplement the regulations which govern hunting on wildlife refuge areas generally which are set forth in Title 50, Code of Federal Regulations, Part 32, and are effective until June 30, 1973.

§ 33.5 Special regulations; sport fishing; for individual wildlife refuge areas.

ILLINOIS, IOWA, MINNESOTA, AND WISCONSIN

UPPER MISSISSIPPI RIVER WILD LIFE AND FISH REFUGE

Sport fishing, commercial fishing, and the taking of frogs, turtles, crayfish, and clams on the Upper Mississippi River Wild Life and Fish Refuge, Illinois, Iowa, Minnesota, and Wisconsin, is permitted on all water areas of the refuge. The refuge water areas comprising 125,000 acres are delineated on maps available at the refuge headquarters, Winona, Minn. 55987, and from the office of the Regional Director, Bureau of Sport Fisheries and Wildlife, Federal Building, Fort Snelling, Twin Cities, Minn. 55111. All fishing is subject to the following conditions:

(1) Unless further restrictions are imposed by this regulation, all fish, frogs, turtles, crayfish, and clams shall be taken in accordance with all applicable State regulations and seasons which are adopted herein and made a part hereof.

(2) All sport and commercial fishing and all travel by boat or any other means across, through, or on the Spring Lake Closed Area of the Upper Mississippi River Wild Life and Fish Refuge in Carroll County, Ill. is prohibited from October 1 through December 20.

(3) All persons, including their helpers, exercising the privilege of commercial fishing on the Spring Lake Closed Area must possess a valid commercial fishing permit issued by the refuge Manager authorizing such commercial fishing, and must comply with all conditions as prescribed by the Refuge Manager which are set forth in the permit.

The provisions of this special regulation supplement the regulations which govern fishing on wildlife refuge areas generally which are set forth in Title 50, Code of Federal Regulations, Part 33 and are effective until June 30, 1973.

Dated: April 11, 1972.

CHARLES A. HUGHLETT,
Acting Regional Director.

[FR Doc.72-5853 Filed 4-17-72;8:51 am]

Title 6—ECONOMIC STABILIZATION

Chapter II—Pay Board

PART 201—STABILIZATION OF WAGES AND SALARIES

Computation of Annual Increase in Base Compensation

Title 6, Chapter II, Part 201, Code of Federal Regulations is amended by adding a new Subpart C thereto, relating to computation of annual increase in base compensation (including those fringe benefits described in section 203(g), Economic Stabilization Act of 1970, as amended, Public Law 92-210, 85 Stat.

V 37-75 APR 18 72 XUM

743) and by making miscellaneous changes of a clarifying or technical nature. Since such amendments, as set forth below, are essential to the expeditious implementation of the Economic Stabilization Act of 1970, as amended, and Executive Order No. 11640, as amended, the Board finds that the time for the submission of written comments by interested persons in accordance with usual rule making procedures is impracticable and that good cause exists for promulgating them in less than 30 days. However, written comments are solocited for consideration by the Pay Board. Such comments may be submitted by [15 days after date of publication] to: Chairman of the Pay Board, Attention: Office of General Counsel, 2000 M Street NW., Washington, DC 20508.

(Economic Stabilization Act of 1970, as amended (Public Law 91-379, 84 Stat. 799; Public Law 91-558, 84 Stat. 1468; Public Law 92-8, 85 Stat. 13; Public Law 92-15, 85 Stat. 38; Public Law 92-210, 85 Stat. 743); Executive Order No. 11640 (37 F.R. 1213, January 27, 1972), as amended; and Cost of Living Council Orders No. 3 (36 F.R. 20202, October 16, 1971) and No. 6 (37 F.R. 2727, February 4, 1972))

Effective date. These amendments are effective on and after November 14, 1971. However, if prior to April 18, 1972, a computation was made in good faith reliance upon and in accordance with the instructions contained on a Form PB-1 or PB-2, the computation made shall not be considered a violation of Pay Board regulations within the meaning of § 201.17; provided that any computations relating to those certain benefits specified in section 203(g) of the Economic Stabilization Act of 1970, as amended, made on or after March 1, 1972, comply with the Pay Board policy as published in PB-51 dated February 23, 1972, and incorporated in these regulations.

GEORGE H. BOLDT,
Chairman of the Pay Board.

PARAGRAPH 1. Section 201.1 is revised to read as follows:

§ 201.1 Purpose and scope.

The purpose of these regulations is to establish rules and standards to stabilize wages and salaries, as defined in § 201.3, in accordance with the provisions of Executive Order No. 11627 (36 F.R. 20139, October 16, 1971), as amended, and Executive Order No. 11640 (37 F.R. 1213, January 27, 1972), as amended. Moreover, the purpose of these regulations is to provide guidance and procedures for an orderly transition from the 90-day general freeze imposed by Executive Order No. 11615 (36 F.R. 15727, August 15, 1971), as amended. All persons are required by law to comply, and are expected to do so voluntarily, with the provisions of the Economic Stabilization Act of 1970, as amended, and all Executive Orders, regulations, circulars, and orders issued thereunder. These regulations shall be construed in a manner consistent with the policies of the Act, and every person subject to the provisions of these regulations shall be required to interpret and apply such provisions in good faith to carry out such policies. The policies governing pay adjustments, adopted by the Pay Board on November 8, 1971, are attached as an appendix to this part.

PAR. 2. Section 201.3 is amended by revising the language preceding the first definition, by revising the definitions of "person" and "tandem relationship," and by adding new definitions to be inserted alphabetically. These amended and added provisions read as follows:

§ 201.3 Definitions.

As used in this part, unless the context indicates otherwise, the term:

* * * * *

"Base date" means, with respect to an appropriate employee unit, the day prior to the first day of a control year.

"Base payroll period" means, with respect to an appropriate employee unit, the most recent payroll period which ends on or before the base date, or, if such payroll period is not representative because of seasonal variations or for other valid reasons, the most recent payroll period prior to the base date which, under all the facts and circumstances, fairly represents the base year. A payroll period may be a week, 2 weeks, month, or other accepted time period, in accordance with demonstrated practices.

"Base year" means, with respect to an appropriate employee unit, the 12-month period ending on the base date.

"Chargeable increases" means those increases or adjustments in the average straight-time hourly rate or average hourly benefit rate which are included in the amount used to determine whether the maximum permissible annual aggregate wage and salary increase has been exceeded with respect to an appropriate employee unit.

"Code" means the Internal Revenue Code of 1954, as amended.

"Control year" means, with respect to an appropriate employee unit, the period of time determined pursuant to § 201.53.

* * * * *

"Maximum permissible annual aggregate wage and salary increase" means, with respect to an appropriate employee unit during any control year, the limitation on increases in the base compensation rate. This limitation is the general wage and salary standard described in § 201.10 or, if appropriate, any exception thereto pursuant to § 201.11, including any decision of the Pay Board relating to such unit pursuant to paragraph (d) of such section.

* * * * *

"Person" includes any individual, estate, trust, sole proprietorship, partnership, association, company, joint venture, corporation, fiduciary, labor organization, State or local governmental unit or instrumentality of such governmental unit, or a charitable, educational, or other such institution; however, the term does not include a foreign or domestic corporation in a foreign country, or an organization that includes within its membership foreign governments or instrumentalities thereof, or a foreign government, or an instrumentality thereof, except to the extent that such instrumentality is doing business in the United States.

"Tandem relationship" means, for purposes of § 201.13(f), a well-established and consistently maintained practice whereby the precise timing, amount, and nature of general increases in wages and salaries of a given appropriate employee unit have so followed those of another such unit of employees of the same employer or of other employers within a commonly recognized industry (such as a Standard Industrial Classification two-digit category) that a general increase, in the normal operation of the practice, would have been put into effect and have been applicable to work performed on or before November 13, 1971, but for the operation of the freeze.

* * * * *

PAR. 3. Section 201.11 is amended by revising paragraph (a) (3) and (4), by adding new paragraph (a) (6) and (7), and by revising paragraphs (b) and (c). These amended and added provisions read as follows:

§ 201.11 Criteria for exceptions.

(a) *In general.* * * *

(3) *Catchup increases.* (i) If the aggregate percentage of wage and salary increases in the employment contract expiring prior to the new contract for which an exception is claimed is less than the sum of a percentage increase of 7 percent per year for each year of the prior contract, the difference between such aggregate and such sum shall be added to 5.5 percent to determine the maximum permissible annual aggregate wage and salary increase for the appropriate control year.

(ii) If, in the absence of an employment contract, the aggregate percentage of wage and salary increases in the preceding 3 years is less than the sum of a percentage increase of 7 percent per year for each of the 3 years, the difference between such aggregate and such sum shall be added to 5.5 percent to determine the maximum permissible annual aggregate wage and salary increase for the appropriate control year.

(iii) The exceptions provided in subdivisions (i) and (ii) of this subparagraph shall expire June 30, 1972. Such exceptions may be claimed only in regard to employment contracts entered into or pay practices established prior to July 1, 1972.

(iv) The maximum permissible annual aggregate wage and salary increase under subdivisions (i) and (ii) of this subparagraph shall not exceed 7 percent.

(4) *Cost of living allowance calculation.* (i) If a wage and salary increase in a new contract or pay practice is composed of two parts, wages and salaries other than cost of living adjustments and cost of living adjustments pursuant to and justified by a generally accepted escalator formula, the wage and salary part shall be calculated by the sum of the percentage increases method, and the cost of living part shall be calculated by multiplying each cost of living adjustment by a fraction, the numerator of which shall be the number of months within the appropriate control year such cost of living adjustment is in effect, and the denominator of which shall be the number of months in such control year. These two parts shall be added together to determine the aggregate wage and salary increase pursuant to this subparagraph.

(ii) The annual aggregate increase, calculated pursuant to the method in subdivision (i) of this subparagraph shall not exceed the general wage and salary standard.

(5) *Merit increases.* [Reserved]

(6) *Federal agency wage determinations.* In any case to which the provisions of § 201.57(f) (relating to exclusions from adjustment computations in the case of Federal agency wage determinations) apply, the Pay Board (or its delegate) may grant an exception to the general wage and salary standard in order to permit an increase for those employees in the same appropriate employee unit who work at the same site, plant, or location who have not received an increase pursuant to such section sufficient to maintain average historical wage and salary differentials among jobs, job classifications, or positions. For purposes of the preceding sentence, the average historical wage and salary differential shall be determined over the preceding 3 years and must be consistent with prior practice during such period. Such differential must have been in effect within the unit for at least 3 years. In the event that such unit has been in existence for less than 3 years or if the average historical wage and salary differential is not representative because of corrections made in such differentials to end inequities during the preceding 3 years, the Pay Board (or its delegate) may determine the average historical wage and salary differential by reference to the period of the unit's existence or by reference to the differential existing after any such corrections.

(7) *Tandem qualified benefit plans.* In any case to which the provisions of § 201.57(g) (relating to exclusions from adjustment computations in the case of certain employer contributions to qualified benefit plans) apply, the Pay Board (or its delegate) may (subject to the provisions of paragraph (c) of this section) grant an exception to the general wage and salary standard to a tandem-claiming appropriate employee unit, if the following conditions are met:

(i) The contract or pay practice covering the qualified benefit plan (see § 201.58) to which a tandem relationship is claimed became effective not more than 12 months prior to the effective date of the contract or pay practice providing for the increase in qualified benefits in the tandem-claiming unit,

(ii) The nature and levels of qualified benefits in the tandem-claiming unit have been generally equal or closely comparable to, and the timing of changes in benefits has been directly related to, those of another employee unit of the same employer, or of the employers within the same commonly recognized industry, local labor market area, or established unit or reference group of employees for determination of qualified benefits, and

(iii) The tandem relationship has been established as a past practice for 5 consecutive years or in the immediately preceding two collective bargaining agreements.

(b) *Overall limitation on exceptions.* Except as provided in paragraph (a) (4), (6), and (7) of this section, the maximum permissible annual aggregate wage and salary increase with respect to an appropriate employee unit, whether any or all of the above exceptions are applicable, shall not exceed 7 percent.

(c) *Procedures for exceptions.* Exceptions pursuant to subparagraphs (1), (2), (6), and (7) of paragraph (a) of this section shall require prior approval of the Pay Board (or its delegate). Exceptions pursuant to subparagraphs (3) and (4) of paragraph (a) of this section shall be self-executing for Catagories II and III wage and salary increases, but reports of all such wage and salary increases shall be made to the Pay Board (or its delegate). Category I wage and salary increases, including those pursuant to subparagraphs (3) and (4) of paragraph (a) of this section shall require prior approval of the Pay Board (or its delegate).

* * * * *

PAR. 4. Section 201.13 is amended by revising paragraph (f)(2) to read as follows:

§ 201.13 Scheduled increases in wages and salaries for services rendered on or after August 15, 1971, and before November 14, 1971.

* * * * *

(f) *Tandem relationships.* * * *

(2) (i) The prior employment contract of the unit to which a tandem relationship is claimed expired no more than 3 months before the expiration of the prior employment contract of the tandem-claiming unit; or

(ii) In the case of a pay practice, the effective date of the increase with respect to which a tandem relationship is claimed was consistent with past pay practice, no more than three months prior to the scheduled effective date of the increase of the tandem-claiming unit.

* * * * *

PAR. 5. Part 201 is amended by adding a new Subpart C immediately following Subpart B and before Subpart D of such part, to read as follows:

Subpart C—Computation Rules

Sec.
201.51 General.
201.52 Formula for computation of annual aggregate increase in the base compensation rate.
201.53 Determination of control year.
201.54 Base compensation rate.
201.55 Average straight-time hourly rate.
201.56 Average hourly benefit rate.
201.57 Exclusions from adjustment computations.
201.58 Qualified benefit plans.

AUTHORITY: The provisions of this Subpart C issued under Economic Stabilization Act of 1970, as amended (Public Law 91-379, 84 Stat. 799; Public Law 91-558, 84 Stat. 1468; Public Law 92-8, 85 Stat. 13; Public Law 92-15, 85 Stat. 38; Public Law 92-210, 85 Stat. 743); Executive Order No. 11640 (37 F.R. 1213, Jan. 27, 1972), as amended; and Cost of Living Council Orders No. 3 (36 F.R. 20202, Oct. 16, 1971) and No. 6 (37 F.R. 2727, Feb. 4, 1972).

§ 201.51 General.

(a) *Purpose.* The purpose of the provisions of this subpart is to set forth the methods of computation of pay adjustments which shall be used under the applicable provisions of this chapter with respect to the periods of time called "control years" for which such computations are made. The methods of computation described in this subpart shall be used, among other things, to examine the relationship of pay adjustments to the maximum permissible annual aggregate increase in the base compensation rate for an appropriate employee unit during any control year (§ 201.53). Every person who makes any computation pursuant to the provisions of this subpart shall be required to make such computation in good faith and in a manner consistent with the policies of the Act.

(b) *Scope.* The provisions of this subpart include the method of computing a base compensation rate (§ 201.54) consisting of an average straight-time hourly rate (§ 201.55) and an average hourly benefit rate (§ 201.56). Additional rules are provided to compute increases in such components of the base compensation rate. The objective of these computations is to determine a percentage relationship between the total of the increases (excluding those increases specified in § 201.57) in such components during a control year and the base compensation rate applicable for that control year. See § 201.11(a)(4) for the method of computing increases due to cost of living adjustments.

(c) *Limitation on wage and salary increases.* Except as otherwise provided in this title, an appropriate employee unit's aggregate percentage increase in the base compensation rate (as determined pursuant to § 201.52) for any control year may not exceed its maximum permissible annual aggregate wage and salary increase (as defined in § 201.3). However, the wage and salary increases of an individual employee in an appropriate employee unit may exceed such maximum so long as the aggregate increase in the base compensation rate for such unit as a whole does not exceed such maximum.

§ 201.52 Formula for computation of annual aggregate increase in the base compensation rate.

In any case in which a computation is required to determine the annual aggregate increase in the base compensation rate with respect to an appropriate employee unit for any control year (determined pursuant to § 201.53), such increase shall be stated as a percentage which is determined by dividing the sum of—

(a) The total adjustment during such control year in the average straight-time hourly rate (determined pursuant to paragraph (b) of § 201.55), plus

V 37 - 75 APR 18 72 XUM

(b) The total adjustment during such control year in the average hourly benefit rate (determined pursuant to paragraph (b) of § 201.56), by such unit's base compensation rate (determined pursuant to § 201.54) applicable to such control year. See § 201.57 for exclusions from adjustment computations.

§ 201.53 Determination of control year.

(a) *In general.* This section provides rules to determine the time period for computing the annual aggregate wage and salary increase for an appropriate employee unit. These rules preserve, as nearly as possible, both contractual and established pay relationships. In some instances, provision has been made for a first control year of less than 12 months. In this period of less than 12 months, the maximum permissible annual aggregate wage and salary increase for a full control year shall be allowed.

(b) *Pay practices*—(1) *First control year.* Except as provided in paragraph (c) (1) (ii) of this section, the first control year for an appropriate employee unit which was not covered by the terms of an employment contract in effect on November 13, 1971 shall be—

(i) The period from November 14, 1971 through November 13, 1972, or

(ii) If the unit was covered on November 13, 1971, by an established pay practice (not set by contract) whereby prospective wage and salary increases for the unit are determined for a period of 12 months or more beginning on a fixed date (other than November 14), at the election of the employer, the period of less than 12 months from November 14, 1971 through the day before the annual anniversary of such fixed date.

(2) *Succeeding control years.* Each succeeding control year shall be the 12-month period beginning on November 14, or, in the case of an established pay practice where the election described in subparagraph (1) (ii) of this paragraph is made, on an annual anniversary of the fixed date referred to in such subparagraph.

(c) *Employment contracts*—(1) *First control year*—(i) *General rule.* The first control year for an appropriate employee unit which was covered by the terms of an employment contract in effect on November 13, 1971, shall be the period of 12 months or less which begins on November 14, 1971 and ends—

(*a*) Where the expiration date of that contract is on or before November 13, 1972, on the expiration date of that contract;

(*b*) Where the expiration date of that contract is after November 13, 1972, on the annual anniversary of the expiration date of the prior succeeded contract, or, at the election of the parties, on the annual anniversary of the day prior to the first wage increase that was provided under the terms of the contract in effect on November 13, 1971; or

(*c*) Where the expiration date of that contract is after November 13, 1972 and there was no prior succeeded contract (e.g., the existing contract is the first contract between the parties), on the day prior to the annual anniversary of the effective date of the contract in effect on November 13, 1971 or, at the election of the parties, on the annual anniversary of the day prior to the first wage increase that was provided under the terms of the contract in effect on November 13, 1971.

(ii) *Special rule.* Where there was no contract in effect on November 13, 1971, but there was an established bargaining relationship between the parties on such date and the parties had a prior contract which had expired, the first control year shall end on the annual anniversary of the expiration date of the prior succeeded contract or, at the election of the parties, on the day before the effective date of the new contract.

(2) *Succeeding control years.* Each succeeding control year shall be the 12-month period ending on the annual anniversary of the date of the end of the first control year.

The term "expiration date" as used in this section refers to such date specified in the contract originally negotiated by the parties and not to a later extension or modification of such date.

(d) *Limitations.* (1) The base date for the first and succeeding control years established under the provisions of paragraph (b) or (c) of this section shall not thereafter be changed even though the appropriate employee unit goes from a pay practice status to an employment contract status or from an employment contract status to a pay practice status after November 13, 1971. Notwithstanding the preceding sentence, in any case in which a newly organized unit is employed by an employer who, himself or through an association, is bound by a master employment contract which provides that newly organized units of the same employer shall be subject to all the terms and conditions of the master contract, the control year of such newly organized unit may, at the election of the parties, be changed to conform to the control year typical for units covered by the master agreement.

(2) There shall be no retroactive payments of an increase in wages or salaries prior to a base date established under the provisions of the preceding subparagraph or paragraph (b) or (c) of this section unless allowable under new Pay Board regulations or orders.

(e) *Manner of election.* Any election described in this section shall be evidenced by filing such forms as may be prescribed by the Pay Board.

(f) *Tandem relationship.* An appropriate employee unit claiming a tandem relationship to another unit shall not conform its control year to the control year of such other unit solely on account of such tandem claim.

§ 201.54 Base compensation rate.

The base compensation rate applicable for any control year shall be an average rate of pay, stated in dollars and cents per hour, which is equal to the sum of the average straight-time hourly rate (determined pursuant to paragraph (a) of § 201.55) plus the average hourly benefit rate (determined pursuant to paragraph (a) of § 201.56).

§ 201.55 Average straight-time hourly rate.

(a) *General rule.* For purposes of § 201.54 the average straight-time hourly rate for an appropriate employee unit shall be the amount, stated in dollars and cents per hour, which is determined by dividing the total straight-time payroll expenditures for the base payroll period by the total man-hours paid for (including all paid leave hours) during such period. For purposes of this section, the term "total straight-time payroll expenditures" shall include payments for base payroll period wages and salaries made retroactively pursuant to §201.13 or § 201.15 or made retroactively pursuant to Pay Board decision under § 201.11(d) where such decision specifically allows the payment to be included in the base. Such term shall include payments for man-hours not worked at the straight-time rates applicable had the hours been worked (e.g., sick, vacation, and holiday leave, reporting and call-in pay, etc.) in addition to payments for man-hours actually worked. Such term shall exclude payments attributable to shift differentials, premiums for overtime, weekend, vacation, and holiday pay (but shall include the straight-time pay for such work), severance pay, bonuses, supplemental unemployment benefits, and any other direct or indirect benefits. For purposes of this paragraph, the term shall include straight-time payments which are excludable under § 201.57. All man-hours paid for shall be taken into account at the straight-time hourly rate, including the man-hours paid for of those employees in the unit who are not paid on an hourly rate basis. For purposes of this section "man-hours paid for" shall be the actual man-hours for which employees in the unit receive compensation during the payroll period in question. For those employees who are not on fixed hourly schedules, a reasonabl estimate shall be made as to the hours for which they receive compensation during the payroll period.

(b) *Adjustment in average straight-time hourly rate.* The total adjustment in the average straight-time hourly rate (referred to in paragraph (a) of § 201.52) for an appropriate employee unit is the amount of increase, if any, of such rate in effect during the last payroll period of the control year which follows the base date compared to such rate in effect during the base payroll period. (See § 201.57 for items excluded from adjustment computations and § 201.11(a)(4) for the method of computation in the case of cost of living adjustments.) Such total adjustment shall be—

(1) In the case of an adjustment computation made at or after the end of the control year in question relating to a wage and salary practice or employment contract, which includes merit adjustments pursuant to a merit plan, practice, or contract provision which existed on November 13, 1971, an amount, stated in dollars and cents per man-hour, which is equal to the excess, if any, of—

(i) The amount determined by dividing the projected total straight-time payroll expenditures which would be incurred for the last payroll period of the control year in question (computed by applying the pay rates which would be in effect during such last payroll period to the work force composition and years of service which existed during the base payroll period and by assuming, in the case of piece-rate or incentive systems, no change in output per worker) by the actual man-hours paid for during the base payroll period, over

(ii) The amount of such average straight-time hourly rate as determined with respect to the base payroll period (see paragraph (a) of this section).

(3) In the case of an adjustment computation for a situation referred to in subparagraph (1) of this paragraph which is made prior to the end of a control year, the following two computations shall be made:

(i) The computation as described in subparagraph (2) of this paragraph; and,

(ii) The computation as described in subparagraph (1) of this paragraph, but using in subdivision (i) of such subparagraph reasonable and supportable estimates for the total straight-time payroll expenditures expected to be incurred for the last payroll period of the control year and the reasonable and supportable estimate of the actual man-hours expected to be paid for during such last payroll period. Such estimates shall be made in good faith and shall be subject to documentation.

A compensating adjustment may be made to offset any increase in the wage and salary rate caused by changes in the composition of an appropriate employee unit with respect to average length of service or average skill levels.

(2) In the case of an adjustment computation relating to a wage and salary practice or employment contract, which does not include any merit adjustment pursuant to a plan, practice, or contract provision which existed on November 13, 1971, an amount, stated in dollars and cents per man-hour, which is equal to the excess, if any, of—

(i) The amount determined by dividing the projected total straight-time payroll expenditures which would be incurred for the last payroll period of the control year in question (computed by applying the pay rates which would be in effect during such last payroll period to the work force composition and years of service which existed during the base payroll period and by assuming, in the case of piece-rate or incentive systems, no change in output per worker) by the actual man-hours paid for during the base payroll period, over

(ii) The amount of such average straight-time hourly rate determined with respect to the base payroll period (see paragraph (a) of this section).

(3) In the case of an adjustment computation for a situation referred to in subparagraph (1) of this paragraph which is made prior to the end of a control year, the following two computations shall be made:

(i) The computation as described in subparagraph (2) of this paragraph; and,

(ii) The computation as described in subparagraph (1) of this paragraph, but using in subdivision (i) of such subparagraph reasonable and supportable estimates for the total straight-time payroll expenditures expected to be incurred for the last payroll period of the control year and the reasonable and supportable estimate of the actual man-hours expected to be paid for during such last payroll period. Such estimates shall be made in good faith and shall be subject to documentation.

§ 201.56 Average hourly benefit rate.

(a) *General rule.* For purposes of § 201.54, the average hourly benefit rate of an appropriate employee unit shall be an amount, stated in dollars and cents per hour, which is determined by dividing the total cost of benefits which would have been incurred with respect to the base year, computed by costing each benefit item at the rate in effect on the last day of such base year, by the total number of man-hours actually worked by employees in such unit (excluding paid leave hours) during such base year. For purposes of this section, the term "total cost of benefits" shall include payments made retroactively pursuant to § 201.13 or § 201.15 or made retroactively pursuant to Pay Board decision under § 201.11(d) where such decision specifically allows the payment to be included in the base, payments attributable to shift differentials, and premiums for overtime, weekend, vacation, and holiday work. The term shall also include other premium payments, and vacation, sick, holiday, and other paid leave (e.g., jury duty, funeral, voting, etc.) severance pay, bonuses, supplemental unemployment benefits, and other direct or indirect benefits (except incentive compensation as provided in Subpart D of this part). For purposes of this paragraph, the term shall include benefits which are excludable under § 201.57 (except for paragraph (d) of such section relating to certain employer contributions to Federal or State plans). For purposes of this section, "man-hours worked" shall be the aggregate man-hours actually worked by members of the unit during the base year. A reasonable estimate shall be made as to the hours actually worked during the base year for those employees who are not on fixed hourly schedules.

(b) *Adjustment in average hourly benefit rate.* The total adjustment in the average hourly benefit rate (referred to in paragraph (b) of § 201.52) for an appropriate employee unit is the amount of increase, if any, with respect to such rate in effect at the end of the control year in question as compared to the rate in effect at the end of the base year. (See § 201.57 for items excluded from adjustment computations. Further, amounts saved because of a decrease of benefit costs or because of elimination or reduction of benefit levels may be used to offset other increased benefit costs due to new or improved benefits.) Such total adjustment shall be an amount stated in dollars and cents per man-hour, which is equal to the excess, if any, of—

(1) The amount determined by dividing the total cost of benefits for the control year in question which would have been incurred assuming the same work force composition and years of service existed during the control year as that which existed during the base year, computed by costing each benefit item at the rate which would be in effect on the last day of such control year, including increases benefit costs resulting from increases in the average straight-time hourly rate during such control year, by the total number of man-hours worked by employees in the appropriate employee unit during the base year, over

(2) The amount of such average hourly benefit rate as determined with respect to the base year (see paragraph (a) of this section).

§ 201.57 Exclusions from adjustment computations.

For purposes of determining any adjustment pursuant to § 201.55(b) (relating to adjustment in the average straight-time hourly rate) or § 201.56(b) (relating to adjustment in the average hourly benefit rate), the following items or factors shall be excluded:

(a) *Promotion.* Increases due to promotion where the duties and responsibilities of an employee in the appropriate employee unit have materially changed from the duties and responsibilities of such employee in the job, job classification, or position previously held.

(b) *Longevity.* Longevity increases in an employment contract in effect on November 13, 1971, or in a pay practice previously set forth and in existence on such date. These longevity increases must be solely related to the employee's length of service and must operate without significant affirmative exercise of employer discretion or subjective evaluation of the employee's work performance. The only conditions which can attach to the increase are satisfactory work performance and length of service. If it is an established practice that once an individual's work performance for a certain length of time is determined to be satisfactory and the amount of the increase as determined in advance is not subject to any discretionary adjustment, the increase is due to longevity.

(c) *Automatic in-grade progression.* Progression increases in accordance with a step or series of steps for a given job classification (including increases pursuant to a progression schedule for newly hired employees which meets the requirements of this paragraph) contained in an employment contract in effect on November 14, 1971, or in a pay practice previously set forth and in existence on such date. These progression increases must be solely related to the employee's length of service in a particular job classification and must operate without significant affirmative exercise of employer discretion or subjective evaluation of the employee's work performance. The only conditions which may attach to the increase are satisfactory work performance and length of service in a particular job classification. If it is an established practice that once an individual's work performance for a certain length of time in a particular job classification is determined to be satisfactory and the amount of the resulting increase as determined in advance is not subject to any discretionary adjustment, the increase is due to automatic in-grade progression.

(d) *Employer contributions to certain Federal or State plans.* Employer contributions for—

(1) Any Federal public plans (e.g., social security, Railroad Retirement Act, Federal Insurance Contribution Act, Federal Unemployment Tax Act); or

(2) Any workman's compensation or unemployment insurance plan pursuant to State law whether the participation of the employer is optional or obligatory.

(e) *Fair Labor Standards Act.* Any increases required to be paid pursuant to the Fair Labor Standards Act of 1938, 52 Stat. 1060, as amended, or as a result of an enforcement action under such Act.

V 37-75 APR 18 72 XUM

(f) *Federal agency wage determinations.* That portion of any increase in wages and salaries required to be paid as a result of wage determinations made by any agency in the executive branch of the Federal Government pursuant to law for work (1) performed under contract with, or to be performed with financial assistance from, the United States or the District of Columbia, or any agency or instrumentality thereof, or (2) performed by aliens who are immigrants or who have been temporarily admitted to the United States pursuant to the Immigration and Nationality Act, 66 Stat. 166, as amended, which, with respect to an appropriate employee unit, would (except for the application of this paragraph) cause the total of wage and salary increases to exceed the maximum permissible annual aggregate wage and salary increase.

(g) *Certain employer contributions to qualified benefit plans.* Employer contributions to qualified benefit plans which are excluded contributions pursuant to § 201.58.

(h) *Pay adjustments to those individuals earning less than $1.90 per hour.* Any increase or portion thereof paid to employees earning less than $1.90 per hour to the extent that such increase or portion thereof does not cause an employee's wage to exceed $1.90 per hour.

(i) *Certain professional sports contests.* Amounts paid, either directly or indirectly, to the employees of a professional sports organization which are customarily paid from post-season playoff contests or for participation in all-star exhibitions.

(j) *Incentives.* [Reserved.]

(k) *New or revised job classifications.* [Reserved.]

(l) *Apprenticeship, training and learning programs.* [Reserved.]

In the case of exclusions claimed pursuant to paragraphs (e) and (f) of this section the prenotification and reporting rules of Part 202 of this chapter shall specifically apply. Thus, pay adjustments given involving these exclusions must be separately prenotified or reported, as appropriate for the pay adjustment category of the unit involved.

§ 201.58 Qualified benefit plans.

(a) *General rule.* The excluded contributions referred to in § 201.57(g) are those employer contributions to qualified benefit plans, which are described in paragraph (c) of this section.

(b) *Qualified benefit plan defined.* The term "qualified benefit plan" means—

(1) A pension, profit-sharing, or annuity and savings plan which meets the requirements of section 401(a), 403(b), or 404(a)(2) of the Code.

(2) A group insurance plan, or

(3) A disability and health plan.

(c) *Excluded contributions.* For purposes of this part, excluded contributions are increases in employer contributions (pursuant to qualified benefit plans) which are either—

(1) Necessary to maintain existing benefit levels under such plans (but not those required as the secondary effect of an increase in the average straight-time hourly rate), or

(2) Those other increased contributions which in the aggregate do not exceed the qualified benefits standard (as defined in paragraph (d) of this section for an appropriate employee unit.

For purposes of subparagraph (2) of this paragraph, the term "other increased contributions" includes increases in the average hourly benefit rate (determined pursuant to § 201.56) which are necessary to support new employer qualified benefit plans and benefit improvements in existing qualified plans except to the extent that the cost of such new or improved benefits are offset by cost savings attributable to favorable plan experience or to changes in the plan or plans; required as the secondary effect of an increase in the average straight-time hourly rate (see §§ 201.55 and 201.56); a result of pension funding actuarial assumptions or changes in amortization of past service liability inconsistent with those permitted by the Internal Revenue Service; a result of discretionary payments to qualified deferred profit-sharing plans not based on formula; or a result of a reduction in employee contributions.

(d) *Qualified benefits standard.* For purposes of paragraph (c)(2) of this section, the term "qualified benefits standard" means, with respect to an appropriate employee unit, an amount equal to the greater of—

(1) The sum of—

(i) 0.7 percent of such unit's base compensation rate (determined pursuant to § 201.54) with respect to the base payroll period, plus

(ii) The catchup percentage multiplied by the base compensation rate for the first control year. For purposes of this subdivision the "catchup percentage" is a percentage equal to the excess (if any) of 1.5 percent over the sum of the percentage increases in base compensation resulting from new or improved qualified benefit plans during the 3 years preceding such first control year (such sum of the percentage increases shall be calculated by using the base compensation rate in effect immediately prior to each of the qualified benefit adjustments during the prior 3-year period); or

(2) Five percent of such unit's base compensation rate (determined pursuant to § 201.54) for a base payroll period, but only to the extent that the employer's resulting total contributions to qualified benefit plans with respect to such unit do not exceed 10 percent of such base compensation rate.

For purposes of subparagraph (1) of this paragraph, the 0.7 percent referred to in subdivision (i) of such subparagraph may be used in future control years to the extent not utilized in a prior control year. For purposes of such subparagraph the 1.5 percent referred to in subdivision (ii) of such subparagraph may be credited only in the first control year of a new pay practice or new employment contract. To the extent the amount credited is not utilized in such first control year the excess may be utilized in the second control year, but not thereafter.

PAR. 6. The appendices following Part 201 are amended by deleting therefrom the following items:

Item (1) of Appendix B—Interpretative Decisions Adopted by the Pay Board.
Item (2) of Appendix C—Definitional Decisions Adopted by the Pay Board.
Items (1) and (2) of Appendix D—Procedural Decisions Adopted by the Pay Board.

[Pay Board Order No. 3]

PART 201—STABILIZATION OF WAGES AND SALARIES

Appendix B—Delegations of Authority

MISCELLANEOUS AMENDMENTS

The purpose of these amendments is to make certain miscellaneous and technical changes, some of which are required by reason of the reduction in the number of members of the Pay Board pursuant to Executive Order No. 11660 (37 F.R. 6175, March 25, 1972) which amended Executive Order No. 11640 (37 F.R. 1213, January 27, 1972). The amendments in Part 201 (6 CFR Part 201) relate both to the number of Board members required to challenge certain proposed retroactive payments and to the time period (which is extended from 14 to 28 days) within which such challenges may be made. The amendments in Title 6, Appendix B—Delegations of Authority relate to the number of Board members required to initiate a review of appeals from decisions of the Chairman with respect to certain requests for exception and with respect to certain proposed retroactive payments

The amendments set forth below are prescribed pursuant to the authority vested in the Pay Board by the Economic Stabilization Act of 1970, as amended (Public Law 91-379, 84 Stat. 799; Public Law 91-558, 84 Stat. 1468; Public Law 92-8, 85 Stat. 13; Public Law 92-15, 85 Stat. 38; Public Law 92-210, 85 Stat. 743), Executive Order No. 11627 (36 F.R. 20139, October 16, 1971, as amended), Executive Order No. 11640, (37 F.R. 1213, January 27, 1972, as amended), Executive Order No. 11660 (37 F.R. 6175, March 25, 1972), and Cost of Living Council Order No. 3 (36 F.R. 20202, October 16, 1971, as amended).

Because of the need for immediate implementation of the rule-making amendments to Part 201 contained herein, it is hereby found impractical to issue such amendments with notice and public procedure thereon under 5 U.S.C., section 553(b), or subject to the effective date limitation in 5 U.S.C., section 553(d).

Effective dates. The amendments with respect to the number of Board members required to initiate a review of appeals, and to make challenges in the case of certain proposed retroactive payments, shall be effective on and after March 25, 1972. The amendments extending the time period (from 14 to 28 days), within which a challenge may be made by a party at interest or members of the Board for prenotified retroactive payments, shall be effective on and after April 18, 1972.

GEORGE H. BOLDT,
Chairman of the Pay Board.

PARAGRAPH 1. Section 201.13 is amended by revising subdivisions (i) and (ii) of paragraph (b)(4) to read as follows:

§ 201.13 Scheduled increases in wages and salaries for services rendered on or after August 15, 1971, and before November 14, 1971.

* * * * * *

(b) *Certain conditions for retroactive payment; section 203(c)(2) of the Act.* * * *

(4) (i) The aggregate of such increases does not exceed seven percent (7%) and (a) in case of a Category II pay adjustment or a Category III pay adjustment (as defined in §§ 101.23 and 101.25 of this title) the employer certifies by letter to the appropriate district director of Internal Revenue within 20 days subsequent to payment that the requirements of this paragraph have been fulfilled or (b) in case of a Category I pay adjustment (as defined in § 101.21 of this title), the Board has received prenotification of such adjustment and a challenge to determine that the provisions of subparagraphs (1), (2), and (3) of this paragraph have been met or that the increase does not exceed seven percent (7%) has not been made by a party at interest or two or more members of the Board within 28 days of such prenotification or within 28 days of providing any additional proof requested by the Board, or

(ii) The aggregate of such increases does exceed seven percent (7%), and the Board has received prenotification of the proposed payment and there has not been a challenge by a party at interest or two or more members of the Board within 28 days of such prenotification, or within 28 days of providing any additional proof requested by the Board. In computing the 28-day period prescribed by this section, the rules provided for in § 205.5 of this chapter will apply.

For the purposes of determining the percentage of the aggregate increases under this paragraph, the base compensation shall be the average cost of wages, salaries, and benefits per man hour for the appropriate employee unit affected by the increases on the day before the wage and salary increase pursuant to this paragraph was scheduled to take effect.

* * * * *

PAR. 2. Section 201.15 is amended by revising paragraph (b)(1) to read as follows:

§ 201.15 Wage increases provided for prior to August 15, 1971, for which funds have been raised or provided.

* * * * *

(b) *Determinations—(1) By Category I employers.* Any person who desires to make payments of wage and salary increases described in paragraph (a) of this section may do so provided (i) he is an employer whose pay adjustments qualify as Category I pay adjustments (as defined in § 101.21 of this title), (ii) he believes the requirements of paragraph (a) of this section have been met, and (iii) he files a prenotification in the manner prescribed by the Pay Board of his intent to make such payment detailing the factual basis for qualification under paragraph (a) of this section. The payment of such an increase may begin 28 days after the prenotification is filed with the Board, or (if appropriate) 28 days after any additional proof requested by the Board has been furnished to the Board unless a challenge is made by a party at interest or two or more members of the Board. In computing the 28-day period prescribed by this section, the rules provided for in § 205.5 of this chapter will apply.

* * * * *

DELEGATIONS OF AUTHORITY

PAR. 3. Pay Board Order No. 3 (37 F.R. 3791, February 19, 1972), relating to delegation of authority to the Chairman of the Pay Board, is amended by revising the last sentence of paragraph c of section 4 to delete the word "seven" and add in its place the word "three," and by revising the last sentence of section 5 to delete the word "seven" and add in its place the word "three."

[FR Doc.72-5914 Filed 4-14-72;12:43 pm]

Chapter III—Price Commission

PART 300—PRICE STABILIZATION

PART 301—RENT STABILIZATION

Miscellaneous Amendments

The purpose of these amendments is to make several changes and additions of a perfecting and clarifying nature to Parts 300 and 301 of the Price Commission's regulations.

AMENDMENTS TO PART 300

Section 300.1(c), relating to the geographic applicability of Part 300 is amended to conform to § 101.1(e) of Title 6, CFR, which provides that, for the purposes of the Economic Stabilization Program, sales of goods and services by firms in the several States and the District of Columbia to firms in the Commonwealth of Puerto Rico are are covered activities.

Sections 300.13(b)(1)(ii) and 300.13a(c)(1) are each amended to make it clear that a retailer may post the base price of more items than the 40 items which accounted for the greatest dollar sales volume in a department.

Section 300.13a is also amended by adding two new paragraphs providing alternate methods of catalogue price posting requirements for supplemental catalogues and sale catalogues, under certain circumstances.

Section 300.18(b)(1) is amended by changing the term "total revenues" to read "total operating revenues" so as to exclude from consideration those revenues derived from other than operating sources during the base period.

Section 300.16(d)(4) is amended to make it clear that productivity gains may be taken into consideration, but that a specific determination is not required in every case.

Section 300.18(c)(1) is amended by changing the word "part" to "section," with respect to prices previously authorized by the provider of health services.

Section 300.18(c)(2) is amended to reflect the recent adoption of new procedures relating to application for exceptions, my changing the reference to § 300.511 to Subpart C of Part 305.

Section 300.18(d)(1) is amended by changing the date "November 13, 1971," to "November 8, 1971" to conform to the date of applicable administrative decisions relating to allowable wage increases.

Section 300.18(g) is amended by deletin gthe last sentence, containing a prohibition on increasing a price before price schedules are posted. This deletion does not constitute authority to raise prices without compliance with the section and paragraph (g). It was necessary, however, only during the initial days of the effectiveness of the regulation. The requirement of a schedule and posting of prices remains unchanged.

Section 300.31(a) is amended to make it clear that "average total capital" does not include investments, the income of which is included in nonoperating income, and that only "covered" activities (as defined in part II to the instructions to Form PC-50 in Appendix 1) are to be included in computations under the section.

Section 300.31(e) is amended to make it clear that the prenotification requirement is for Price Commission information. Firms covered by the section are not required to wait for Price Commission action on the prenotification.

Section 300.52(c) is amended to state that its reporting requirements (for Tier II firms) do not apply to providers of health services.

A new § 300.125 is added to provide a procedure for the reduction of price increases, made before November 14, 1971, based on prospective wage and salary increases that did not go into effect because of the freeze or because of the action of an agency administering a part of the Economic Stabilization Program.

Section 300.410(a) is amended to correct on error in the citation to the section of the regulations of the Cost of Living Council relating to custom products.

Section 300.410(b) is amended to apply to allowable costs as determined under the Economic Stabilization Program, and not just those determined under Price Commission regulations or decisions. Similarly, two new examples have been

V 37-75 APR 18 72 XUM

placed in paragraph (b) for clarity and to reflect the broader coverage.

Section 300.501 is amended to add a new paragraph (c) to include a positive statement that, upon proper request, a person who increases a price or applies for a price increase is required to specify the records that comply with paragraph (a) of that section and to justify that price increase or increased price, by positive action, and not merely to turn over the records pertaining thereto.

Section 300.511, relating to delegations of authority to perform functions under this part to District Directors of Internal Revenue, is revised to provide that the Price Commission will obtain the approval of the Secretary of the Treasury before making such a delegation and will note that approval in the preamble to the amendment making the delegation.

Paragraph (e) of Appendix 1 is amended to change the words "medical service" to "health service" to conform to other paragraphs of the appendix.

AMENDMENTS TO PART 301

Section 301.1(b), relating to exemptions of certain rentals of real property is amended to conform to § 101.33 of the regulations of the Cost of Living Council, governing real estate exemptions under the Price Stabilization Program. The reference in the introductory language of paragraph (b) of § 301.1 is amended to refer to the current section of the Cost of Living Council Regulations (§ 101.33(b)) governing exemptions of rental properties. Section 301.1(b)(1) is amended to conform to the requirement in § 101.33(b)(2)(iii) of the Cost of Living Council regulations that rehabilitated dwellings are exempt only if the cost of rehabilitation exceeds one-half of either the undepreciated cost or the fair market value of the dwelling preceding the rehabilitation.

Section 301.611, relating to delegations of authority to perform functions under this part to District Directors of Internal Revenue, is revised to provide that the Price Commission will obtain the approval of the Secretary of the Treasury before making such a delegation and will note that approval in the preamble to the amendment making the delegation.

Because the purpose of these amendments is to make clarifications and corrections, to set forth certain intragovernmental procedures, and to provide immediate guidance and information as to the price and rent stabilization rules in effect, it is hereby found that notice and public procedure thereon is impracticable and that good cause exists for making them effective less than 30 days after publication.

(Economic Stabilization Act of 1970, as amended, Public Law 91-379, 84 Stat. 799; Public Law 91-558, 84 Stat. 1468; Public Law 92-8, 85 Stat. 13; Public Law 92-15, 85 Stat. 38; Economic Stabilization Act Amendments of 1971, Public Law 92-210; Executive Order No. 11640, 37 F.R. 1213, Jan. 27, 1972; Cost of Living Council Order No. 4, 36 F.R. 20202, Oct. 16, 1971)

In consideration of the foregoing, Chapter III of Title 6 of the Code of Federal Regulations is amended as set forth below, effective April 17, 1972.

Issued in Washington, D.C., on April 13, 1972.

C. JACKSON GRAYSON, JR.,
Chairman, Price Commission.

A. Part 300 is amended as follows:

§ 300.1 [Amended]

1. Section 300.1(c) is amended by striking out the word "This" at the beginning thereof and inserting the words "Except for sales of goods and services by firms in the several States and the District of Columbia to firms in the Commonwealth of Puerto Rico, this" in place thereof.

2. Section 300.13(b)(1) and (2)(i) are amended to read as follows and (b)(2)(iii) is amended by inserting the words "or food product" immediately after the words "retail food".

* * * * *

§ 300.13 Retailers and wholesalers.

(b) *Posting requirements*—(1) *General.* Each retailer shall display prominently in its place of sale, base prices with respect to—

(i) All of its foods or food products, except those offered for sale for the first time after the list is posted; and

(ii) At least those 40 items in each department which had the highest dollar sales during its last fiscal year ending before January 1, 1972, or those items which accounted for at least 50 percent of its total dollar sales in each department during that fiscal year, whichever is less.

(2) *Posting guidelines*—(i) *Retail food or food product stores.* The base prices which a retail food or food products store is required to post under subparagraph (1) of this paragraph are considered to be displayed prominently if they are available for inspection at a convenient central location in the store, to which the public has access without having to obtain the permission or assistance of a store employee, and if a sign is prominently posted in each department clearly indicating the location of the central base price list.

* * * * *

§ 300.13a [Amended]

3. Section 300.13a(a) is amended by striking out the word "Each" and inserting the words "Except as provided in paragraphs (d) and (e) of this section, each" in place thereof.

4. Section 300.13a(c)(1) is amended by striking out the words "those 40 items" and inserting the words "at least those 40 items" in place thereof.

5. Section 300.13a is amended by adding the following new paragraphs at the end thereof:

(d) *Supplemental catalogues.* A retailer is not required to comply with paragraph (b) or (c) of this section for a supplemental edition of a general catalogue if—

(1) It is distributed to substantially the same customers as the general catalogue;

(2) It contains a substantial number of the items that appear in the general catalogue; and

(3) The general catalogue contains the base price information required by paragraph (b) or (c) of this section.

In place of the base price information required by paragraph (b) or (c) of this section the supplemental catalogue shall include a statement directing the user to the general catalogue for base price information and offer to furnish base price information in accordance with paragraph (b) or (c) of this section.

(e) *Sale catalogs.* A retailer is not required to comply with paragraph (b) or (c) of this section for a sale catalog (a catalog that is not a general or supplemental catalog or a catalog that contains most of the items sold by the retailer), if that sale catalog contains—

(1) A description of how the retailer's prices are controlled under the Price Stabilization Program; and

(2) A statement as to how information regarding the lawful base price for any item in the catalog may be obtained.

The retailer shall comply with paragraph (d) of § 300.13 with respect to each request for base price information that it receives pursuant to subparagraph (2) of this paragraph.

§ 300.16 [Amended]

6. Section 300.16(d)(4) is amended to read as follows:

(4) In computing the projected rate of return under subparagraph (3) (i) through (iv) of this paragraph, expected or obtainable productively gains may be taken into account, and labor and other cost increases which are in excess of those allowed by Price Commission policies may not be counted.

§ 300.18 [Amended]

7. Section 300.18(b)(1) is amended by striking out the words "total revenues" and inserting the words "total operating revenues" in place thereof.

8. Section 300.18(c)(1) is amended by striking out the word "part" and inserting the word "section" in place thereof.

9. Section 300.18(c)(2) is amended by striking out the reference to "§ 300.511" and inserting the reference "Subpart C of Part 305" in place thereof.

10. Section 300.18(d)(1) is amended by striking out the date "November 13, 1971" and inserting the date "November 8, 1971" in place thereof.

11. Section 300.18(g) is amended by deleting the last sentence thereof.

§ 300.31 [Amended]

12. The introductory language to the table is § 300.31(a) is amended to read as follows:

The capital turnover ratio is computed by dividing the net sales for the year by the average total capital (long-term debt plus owner's equity, less investments, the income of which is included in nonoperating income). For the purposes of this section, only "covered" activities (as defined in Part II of the instructions to Form PC-50 in Appendix 1) are included. The average total capital for any fiscal year is computed by adding the outstanding total capital at the beginning of that fiscal year to the outstanding total capital at the end of that fiscal year, and dividing by two:

13. Section 300.31(e) is amended by adding the following new sentence at the end thereof: "However, the prenotification shall consist only of making the necessary filing before increasing a price under this section, without the necessity of waiting for or obtaining Price Commission approval thereof."

§ 300.52 [Amended]

14. Section 300.52(c) is amended by inserting the words ", providers of health services covered by § 300.18 or § 300.19," immediately after the reference to "§ 300.16a".

15. The following new section is added at the end of Subpart A:

§ 300.125 Reduction of price increases based on wage and salary increases which did not go into effect.

If before November 14, 1971, a person increased a price on a product or service in anticipation of a scheduled increase in wages and salaries for services to be rendered by employees on or after that date, and either all or a part of that wage and salary increase was not put into effect—

(a) Because of the freeze in effect after August 15, 1971, and before November 14, 1971; or

(b) Because of any action or regulation after November 13, 1971, of an agency administering a part of the Economic Stabilization Program;

The person shall, before May 8, 1972, reduce the price of that product or service by an amount equal to the amount it was so increased but was not actually reflected in the scheduled increase in wages and salaries which was put into effect; except to the extent that the person has authority under this part to increase the price of that product or service but has failed to exercise it.

§ 300.410 [Amended]

16. The definition of "Custom product" in § 300.410(a) is amended by striking out the reference to "§ 101.34(c)(2) of this title" and inserting the reference "§ 101.34(c)(1) of this title" in place thereof.

17. The last sentence of § 300.410(b) is amended by striking out the words "under Price Commission regulations or decisions" and inserting the words "under regulations or decisions issued pursuant to the Economic Stabilization Program" in place thereof.

18. Section 300.410(b) is amended by striking out the Example and inserting the following new examples in place thereof:

EXAMPLE 1. Labor costs to be incurred in the making of a custom product were estimated to be $2 million. However, $200,000 of this estimated cost was found to be nonallowable under Price Commission regulations or decisions (or by other action of an agency administering a part of the Economic Stabilization Program). Therefore, the highest amount of allowable costs for labor that may be included in determining the base price chargeable for the product is $1,800,000.

EXAMPLE 2. Labor costs to be incurred in the construction of an office building were estimated to be $2 million. Because of the action of an agency administering a part of the Economic Stabilization Program, $100,000 of this estimated cost was found to be nonallowable because it exceeded wage rates approved under a contract subject to the Program. Pursuant to another action of an agency administering a part of the Economic Stabilization Program, negotiated and approved changes in work rules resulted in an increase in labor costs of $50,000. Therefore, the highest amount of allowable costs for labor that may be included in determining the base price chargeable for the construction is $1,950,000.

19. Section 300.501 is amended by inserting the following new paragraph after paragraph (b):

§ 300.501 Records.

* * * * *

(c) *Justification.* Upon the request of an officer or employee of the Internal Revenue Service or the Price Commission, each person who applies for a price increase or increases a price, under this part, shall—

(1) Specify the records that comply with paragraph (a) of this section; and

(2) Justify that price increase or increased price.

20. Section 300.511 is revised to read as follows:

§ 300.511 Delegations to Internal Revenue Service.

Whenever the Price Commission states in this part that a function is to be performed by the appropriate District Director of Internal Revenue, the approval of the regulation by the Secretary of the Treasury constitutes a redelegation of that function from the Secretary through the Commissions of Internal Revenue to the District Director. The approval will be indicated in the preamble to the regulation stating the purpose of the amendment.

21. Paragraph (e) of Appendix 1 is amended by striking out the words "medical service" and inserting the words "health service" in place thereof.

B. Part 301 is amended as follows:

§ 301.1 [Amended]

1. Section 301.1(b) is amended by striking out the reference, in the introductory clause, to "§ 101.32(g)(2) of this title" and inserting the reference to "§ 101.33(b) of this title" in place thereof; and by revising subparagraph (3) to read as follows:

(3) Rehabilitated dwellings offered for rent in the newly rehabilitated condition for the first time after August 15, 1971, if the cost of rehabilitation exceeds one-half of either the undepreciated cost or the fair market value of the dwelling preceding the rehabilitation.

2. By revising § 301.611 to read as follows:

§ 301.611 Delegations to Internal Revenue Service.

Whenever the Price Commission states in this part that a function is to be performed by the appropriate District Director of Internal Revenue, the aproval of the regulation b ythe Secretary of the Treasury constitutes a redelegation of that function from the Secretary through the Commissioner of Internal Revenue to the District Director. The approval will be indicated in the preamble to the regulation stating the purpose of the amendment.

[FR Doc.72-5964 Filed 4-14-72;4:51 pm]

PART 305—PROCEDURAL REGULATIONS

The purpose of this amendment is to make multiple changes and additions of a perfecting and clarifying nature in Part 305 of the Commission's regulations.

Section 305.3 is revised to permit a person to name anyone he wishes to represent him before the Commission.

Section 305.21 is revised to make it clear that a person found by the Internal Revenue Service to be in violation of the Economic Stabilization Act of 1970, as amended, or the regulations of the Commission may not file an appeal to the Commission.

Sections 305.26(c) and 305.36(e) are added to make it clear that, although generally a record on reconsideration is composed of the evidence considered initially, the Commission on its own motion may consider additional evidence which it considers relevant and which in its opinion the party did not have a reasonable opportunity to present previously.

Section 305.41 is added to specify what the record will be composed of when a formal hearing is held. Sections 305.32 and 305.71 are revised to make clear that reconsideration is available only to a person whose initial request was denied in whole or in part, by the Commission.

Other minor changes of an editorial or clarifying nature have been made.

Because this amendment relates to procedural matters only, notice and public procedure thereon is not necessary and it may be made effective less than 30 days after publication.

In consideration of the foregoing, Part 305 of Title 6 of the Code of Federal Regulations is amended as set forth below, effective April 17, 1972.

Issued in Washington, D.C., on April 13, 1972.

AUTHORITY: The provisions of this Part 305 issued under Economic Stabilization Act of 1970, as amended, Public Law 91-379, 84 Stat. 799; Public Law 91-558, 84 Stat. 1468; Public Law 92-8, 85 Stat. 13; Public Law 92-15, 85 Stat. 38; Economic Stabilization Act Amendments of 1971, Public Law 92-210; Executive Order No. 11640, 37 F.R. 1213, Jan. 27, 1972; Cost of Living Council Order No. 4, 36 F.R. 20202, Oct. 16, 1971.

Subpart A—General

§ 305.1 Purpose and scope.

(a) This part establishes procedures for—

(1) Appealing from adverse actions by the Internal Revenue Service;

(2) Initial action on requests for exception and reconsideration of denials of such requests in whole or in part;

(3) Formal hearings on price or rent increases or proposed price or rent increases;

(4) Public comments on or objections to Price Commission regulations and rulings;

(5) Appointment of Hearing Officers; and,

(6) Obtaining reconsideration of initial decisions made by the Price Commission on matters other than exceptions.

(b) This part applies to any person aggrieved by a denial of a requested action by IRS or the Commission made on and after the effective date of this part.

(c) When any small business enterprise within the meaning of section 214(a) of the Economic Stabilization Act Amendments of 1971 files a request, application or appeal under the provisions of this part, it will be accorded expedited handling by affording it priority on the dockets maintained by the Commission for the orderly conduct of its business.

§ 305.2 Definitions.

For the purpose of this part—

"Act" means the Economic Stabilization Act of 1970, as amended.

"Adverse action" means an action by the Commission or IRS denying a requested action in whole or in part or an interpretation issued by IRS or ruling issued by the Chief Counsel's office for IRS which is contrary to the position asserted by the person seeking the interpretation or ruling.

"Commission" means the Price Commission established pursuant to Executive order or its delegate.

"District Director" means the district director of the IRS.

"Exception" means an order issued by the Commission to an individual firm waiving the specific requirements of a rule, regulation, or order issued pursuant to the Act.

"Hearing Officer" means a person appointed by the Commission to conduct a hearing.

"IRS" means the Internal Revenue Service.

"Person aggrieved" means a person who increased or seeks to increase a price or rent or a person who is required to pay an increase in rent.

"Price adjustment" means a change in the unit price or a decrease in the quality or quantity without a proportionate change in the unit price of substantially the same property or services.

"Price Commission Ruling" means a Price Commission ruling as defined in § 401.2 of this title.

"Regulation" means a regulation issued by the Commission which appears in Chapter III of Title 6, Code of Federal Regulations.

§ 305.3 Representation.

Any action which by this part is required of or permitted to be taken by a person, unless otherwise directed by the Commission, may be taken on his behalf by any person whom the person has designated to represent him.

§ 305.4 Filing of documents.

A document required to be filed with the Commission under this part is considered filed if it has been received at the Commission offices, 2000 M Street NW., Washington, DC 20508. Documents received after regular business hours are deemed filed on the next regular business day.

§ 305.5 Computation of time.

Except as otherwise provided by law, in computing a period of time prescribed or allowed by this part for the doing of any act, the day of the act, event, or default on which the designed period of time begins to run shall not be counted.

(a) If the last day of the period falls on a Saturday, Sunday, or Federal legal holiday, the period shall be extended to the next day which is not a Saturday, Sunday, or Federal legal holiday.

(b) If the period prescribed or allowed is 7 days or less, an intervening Saturday, Sunday, or Federal legal holiday shall not be counted.

§ 305.6 Service.

(a) All documents required to be served under this part shall be served personally or by registered or certified mail on the person specified in the regulations in this part.

(b) Whenever a person is represented by a duly authorized representative, service on the representative shall constitute service on the person.

(c) A certificate of service shall be filed for each document served.

§ 305.7 Extensions of time.

When an action is required to be taken within a prescribed time, an extension of time will be granted only upon good cause shown and only where the application is made before the expiration of the time prescribed.

§ 305.8 Subpenas; witness fees.

The Chairman of the Commission or a Hearing Officer may issue subpenas on written application of a party to the proceedings or on his own motion.

(a) A subpena may require the attendance of witnesses or the production of relevant papers, books, and documents in the possession or under the control of the person served or both.

(b) A subpena may be served by any person who is not a party and is not less than 18 years of age.

(c) The original subpena bearing a certificate of service shall be filed with the Commission.

(d) A witness subpenaed by any party shall be paid the same fees and mileage as are paid to witnesses in District Courts of the United States. The witness fees and mileage shall be paid by the party at whose instance the subpena was issued.

§ 305.9 Consolidations.

Upon its own initiative or upon the motion of a party, the Commission, the Chairman of the Commission or the Hearing Officer may consolidate two or more appeals or requests for exception which involve substantially the same parties or issues which are closely related, if it or he finds that such consolidation will expedite the proceedings.

Subpart B—Appeals From Adverse Actions

§ 305.20 Purpose and scope.

This subpart establishes the rules of the Commission governing the conduct of its administrative review proceedings.

(a) The Commission has jurisdiction to consider and decide appeals from adverse actions by IRS.

(b) The Commission may review all relevant questions of law and fact.

(c) Review will be limited to the evidence in the record before the IRS or the Chief Counsel's office for IRS at the time the adverse action was taken, except as otherwise directed by the Commission.

§ 305.21 Who may appeal.

Any person aggrieved by an action by IRS issued pursuant to Part 401 of this title other than a person found by IRS to be in violation of the Act or Regulations, may file an appeal with the Commission.

§ 305.22 Where to file appeal.

An appeal shall be filed with the Price Commission, 2000 M Street NW., Washington, DC 20508, and a copy of the appeal shall be sent to the IRS official who issued the adverse action appealed from.

§ 305.23 When to file appeal.

An appeal must be filed within 30 days of service by IRS of the adverse action upon which the appeal is based. Appellant must have exhausted his administrative remedies within IRS before filing an appeal.

§ 305.24 Contents of appeal.

(a) An appeal must include the following—

(1) The name and address of the appellant;

(2) A clear designation of the document as an appeal to the Commission;

(3) A copy of the adverse action appealed from;

(4) A concise statement of the facts and contentions; and

(5) A statement of the grounds for appeal and the relief requested.

(b) Appeals may be accompanied by briefs.

(c) Envelopes containing appeals should be clearly marked "Appeal."

§ 305.25 Screening of appeals.

The Commission will determined whether the appeal contains a prima facie showing that the adverse action was erroneous in law or in fact.

(a) When the Commission determines that the appeal is not timely the Commission may summarily reject the appeal.

(b) When the Commission determines that the appellant has failed to make a prima facie showing with regard to the requirements specified in this section, the Commission may summarily reject the appeal, notifying the applicant of its action and advise him that he has exhausted his administrative remedies. He then may seek judicial review under the Act.

(c) When the Commission determines that the appeal is timely and that appellant has established a prima facie showing of an erroneous determination, it will proceed in accordance with the provisions of §§ 305.26 through 305.28.

§ 305.26 Obtaining record.

(a) Upon receipt of a copy of an appeal, the office which took the adverse action which is the subject of the appeal will forward to the Commission its entire record in the matter.

(b) This record, together with the appeal and briefs, if any, and any statement submitted by IRS will constitute the record on appeal.

(c) The Commission on its own motion may consider any additional evidence that it deems relevant and which in its opinion the party did not have a reasonable opportunity to present below.

§ 305.27 Hearing.

(a) If the Commission in its discretion deems that a hearing is advisable, it will direct that a hearing be held before a Hearing Officer, or where the Commission deems it appropriate, before the Commission in the first instance.

(b) When a hearing has been directed in accordance with paragraph (a) of this section, it will be conducted not less than 10 days after written notice has been served on the appellant, at such time and place as the Commission may direct.

(c) When a hearing is conducted in accordance with this section, the appellant may present oral argument and submit such additional documentary evidence as the Hearing Officer allows.

(d) When administratively feasible, within 10 days after the close of the hearing, the Hearing Officer will submit to the Commission a report and any recommendation he deems appropriate with respect to the appellant's request for relief.

§ 305.28 Decision by Commission.

When administratively feasible, within 30 days of receipt of an appeal or within 30 days of receipt of a Hearing Officer's report when a hearing has been directed—

(a) The Commission will issue a decision in writing directed to the appellant setting forth the facts, conclusions of law, its decision, the basis therefor, and an appropriate order.

(b) A copy of the decision and order will be served upon each party to the proceedings.

(c) When the decision denies the relief requested, in whole or in part, a party may seek judicial review under the Act.

Subpart C—Requests for Exceptions

§ 305.30 Purpose and scope.

(a) Except for those filed by prenotification firms (as defined in § 300.5 of this chapter) which shall be filed directly with the Price Commission, requests for exceptions are initiated pursuant to Subpart D of Part 401 of this title.

(b) This subpart establishes the rules of practice of the Commission governing initial actions on requests for exceptions and the reconsideration of denials of such requests, in whole or in part.

(c) The Commission will not consider that an applicant has exhausted his administrative remedies until he has filed a request for reconsideration under §§ 305.32 to 305.35 and final action thereon has been taken by the Commission under § 305.38.

§ 305.31 Initial action on request for exception.

After considering the record, the Commission will issue a decision in writing and an appropriate order:

(a) When the Commission grants an exception it will serve upon the applicant a copy of its decision and order.

(b) When the Commission refuses to grant an exception in whole or in part, it will serve upon the applicant a copy of its written decision setting forth the facts, conclusions of law, its decision, the basis therefor, and an appropriate order.

§ 305.32 Who may request reconsideration.

A person whose request for exception was denied in whole or in part may request reconsideration.

§ 305.33 Where to file.

A request for reconsideration shall be filed with the Price Commission, 2000 M Street NW., Washington, DC 20508.

§ 305.34 When to file.

A request for reconsideration must be filed within 30 days of service of the decision refusing to grant the exception, in whole or in part.

§ 305.35 Contents of request.

A request for reconsideration shall—

(a) Be in writing and signed by the appellant;

(b) Be designated clearly as a request for reconsideration;

(c) Contain a concise statement of the grounds for reconsideration and the requested relief;

(d) Be accompanied by briefs, if any; and

(e) Be marked on the outside of the envelope — "Reconsideration — Exception."

§ 305.36 Review by Commission.

(a) The Commission will reconsider its decision and order denying an exception in whole or in part if a request for reconsideration—

(1) Is made by the person whose request for exception was denied in whole or in part;

(2) Is timely; and

(3) Makes a prima facie showing that the Commission's initial action was erroneous in fact or in law.

(b) The Commission may summarily reject a request for reconsideration which is not timely or which was filed by a person other than the one whose request for exception was denied in whole or in part.

(c) The Commission may summarily reject a request for reconsideration which fails to make a prima facie showing that the Commission's initial action was erroneous in fact or in law, in which case it will notify the applicant of its action. Such applicant may seek judicial review under the Act.

(d) When a petition for reconsideration meets the requirements set forth in paragraph (a), the Commission will proceed in accordance with §§ 305.37 through 305.38.

(e) The Commission on its own motion may consider any additional evidence that it deems relevant and which in its opinion the party did not have a reasonable opportunity to present previously.

V 37-75 APR 18 72 XUM

§ 305.37 Hearing.

(a) If the Commission in its discretion deems that a hearing is advisable, it will, within 10 days of receiving the request for reconsideration, direct that a hearing be held before a Hearing Officer, or where the Commission deems it appropriate, before the Commission in the first instance.

(b) When a hearing has been directed in accordance with paragraph (a) of this section, it will be conducted not less than 10 days after written notice has been served on the appellant, at such time and place as the Commission may direct.

(c) When a hearing is conducted in accordance with this section, the appellant may present oral argument and submit such additional documentary evidence as the Hearing Officer allows.

(d) Within 10 days after the close of the hearing, the Hearing Officer will submit to the Commission a report and any recommendation he deems appropriate with respect to the appellant's request for reconsideration.

§ 305.38 Decision by Commission.

When administratively feasible, within 30 days of receipt of a request for reconsideration, or within 30 days of a Hearing Officer's report, when a hearing has been directed, the Commission will issue a decision.

(a) When the decision grants the requested relief, a copy of the decision and order will be served upon the party to the proceedings.

(b) When the decision denies the requested relief in whole or in part, the Commission will set forth the facts, conclusions of law, its decision, the basis therefor, and an appropriate order. The party thereafter may seek judicial review under the Act.

Subpart D—Formal Hearings

§ 305.40 Purpose and scope.

(a) To the maximum extent possible, the Commission will conduct formal hearings for the purpose of hearing arguments or acquiring information bearing on a price or rent increase or proposed price or rent increase where such increase or proposed increase has or may have a significantly large impact upon the national economy.

(b) Normally, a formal hearing held pursuant to this section will be open to the public, but a private formal hearing may be held to receive information considered confidential under section 205 of the Act.

(c) Normally, a hearing held pursuant to this section will be held before a Hearing Officer and conducted as described in §§ 305.60 through 305.62. In extraordinary cases, however, the Commission itself may hold a hearing.

§ 305.41 Record.

(a) The record of formal hearings will consist of minutes made at the hearing, a summary account of the proceedings of such hearing, and all documents and exhibits submitted during the course of the hearing, and if ordered by the Commission a stenographic transcript of the proceedings.

(b) The Commission will determine whether a stenographic transcript of the hearing is to be made.

(c) A copy of the transcript of a hearing, if one is made, may be obtained by any interested person upon payment of the fee fixed therefor by the transcriber, unless the hearing is considered by the Commission to involve confidential information. If the hearing involves confidential information a copy of the transcript can be obtained only by a party to the proceeding.

Subpart E—Public Comments on or Objections to Price Commission Regulations and Rulings

§ 304.50 Purpose and scope.

(a) The provisions of 5 U.S.C. 553 will be followed for the issuance of all regulations or amendments to regulations by the Commission, to the extent such provisions apply.

(b) In addition, the Commission will accept from interested persons written comments on or written objections to its regulations or its published rulings at any time. If in the opinion of the Commission such comments or objections warrant a proceeding similar to a rule making proceeding as provided by 5 U.S.C. 553, the Commission will conduct such a proceeding pursuant to notice published in the FEDERAL REGISTER.

§ 305.51 Who may file.

Any interested person may file a comment on or objection to a regulation or published ruling at any time.

§ 305.52 Where to file.

A written comment or objection shall be filed with the Price Commission, 2000 M Street NW., Washington, DC 20508.

Subpart F—Hearing Officers

§ 305.60 Appointment of Hearing Officer.

When a hearing is directed, it will be presided over by a Hearing Officer appointed by the Commission unless the Commission decides to conduct the hearing itself. If the Commission conducts a hearing itself, it shall have all the powers of a Hearing Officer set forth hereunder.

§ 305.61 Notice of appointment of Hearing Officer.

All parties entitled to notice will be notified of the appointment of the Hearing Officer and, thereafter, all motions, applications and other papers and documents shall be filed with the Hearing Officer.

§ 305.62 Powers and duties of the Hearing Officer.

(a) A Hearing Officer will have the powers in addition to any other specified in this part:

(1) To hold prehearing conferences;

(2) To administer oaths and affirmations;

(3) To examine or cross-examine witnesses;

(4) To issue subpenas authorized by the Act and to take or cause depositions to be taken;

(5) To rule upon offers of proof and receive evidence;

(6) To regulate the course and conduct of the hearing, including—

(i) Continuing the hearing from day to day or adjourning it to a later date or different place by announcement thereof at the hearing or by other appropriate notice;

(ii) Take official notice of any material fact not appearing in evidence in the record;

(iii) Excluding from the hearing persons who engage in misconduct; and,

(iv) Striking all related testimony of a witness who refuses to answer questions ruled to be proper;

(7) To hold conferences, before or during the hearing, for the settlement or simplification of issues;

(8) To rule on motions and to dispose of procedural requests or similar matters;

(9) Where appropriate, to make a report and recommendation to the Commission; and

(10) To render decisions.

(b) The Hearing Officer will conduct the hearing and make final disposition of the matter before him as expeditiously as possible.

(c) The Hearing Officer's authority will terminate:

(1) Upon the filing of an appeal from his decision or upon the expiration of the period within which an appeal to the Commission from his decision may be filed; or

(2) Upon transmission to the Commission of his report and recommendation with the record of the hearing conducted in behalf of the Commission.

Subpart G—Review of Initial Commission Decisions on Matters Other Than Exceptions

§ 305.70 Purpose and scope.

(a) Requests for obtaining initial decisions by the Commission other than for exceptions are initiated pursuant to Part 300 of this chapter.

(b) This subpart establishes the rules of the Commission governing reconsideration of denials of such requests, in whole or in part.

(c) Commission will not consider that an applicant has exhausted his administrative remedies until he has filed a request for reconsideration under §§ 305.71–305.74 and final action thereon has been taken by the Commission under § 305.38.

§ 305.71 Who may request reconsideration.

A person whose request for initial action by the Commission (other than request for exception) was denied in whole or in part may request reconsideration.

§ 305.72 Where to file.

A request for reconsideration shall be filed with the Price Commission, 2000 M Street NW., Washington, DC 20508.

§ 305.73 When to file.

A request for reconsideration must be filed within 30 days of service of the initial decision by the Commission.

§ 305.74 Contents of request.

A request for reconsideration shall—

(a) Be in writing and signed by the appellant;

(b) Be designated clearly as a request for reconsideration;

(c) Contain a concise statement of the grounds for reconsideration and the requested relief;

(d) Be accompanied by briefs, if any;

(e) Be marked on the envelope "Reconsideration—Other."

§ 305.75 Review by Commission.

(a) The Commission will reconsider its initial decision denying an initial action (other than request for exception) in whole or in part, if the request for reconsideration—

(1) Is made by the person whose original request was denied in whole or in part;

(2) Is timely; and

(3) Makes a prima facie showing that the Commission's initial action was erroneous in fact or in law.

(b) The Commission may summarily reject a request for reconsideration which is not timely or which is filed by a person other than the person whose original request was denied in whole or in part.

(c) The Commission may summarily reject a request for reconsideration which fails to make a prima facie showing that the Commission's initial action was erroneous in fact or in law, in which case it will notify the applicant of its action and advise him that he has exhausted his administrative remedies. Such applicant may seek judicial review under the Act.

(d) When a petition for reconsideration meets all three requirements set forth in paragraph (a) of this section the Commission will proceed in accordance with the provisions of §§ 305.37 and 305.38.

Proposed Rule Making

DEPARTMENT OF AGRICULTURE

Agricultural Marketing Service [1]

[7 CFR Part 953]

IRISH POTATOES GROWN IN SOUTHEASTERN STATES

Proposed Expenses and Rate of Assessment

Consideration is being given to the approval of the expenses and rate of assessment, hereinafter set forth, which were unanimously recommended by the Southeastern Potato Committee established pursuant to Marketing Agreement No. 104 and Order No. 953, both as amended (7 CFR Part 953). This marketing order program regulates the handling of Irish potatoes grown in certain designated counties of Virginia and North Carolina effective under the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601 et seq.).

All persons who desire to submit written data, views, or arguments in connection with these proposals shall file the same, in four copies, with the Hearing Clerk, Room 112–A, U.S. Department of Agriculture, Washington, D.C. 20250, not later than the seventh day after the publication of this notice in the FEDERAL REGISTER. All written submissions made pursuant to this notice will be made available for public inspection at the office of the Hearing Clerk during regular business hours (7 CFR 1.27(b)). The proposals are as follows:

§ 953.209 Expenses and rate of assessment.

(a) The expenses the Secretary finds may be necessary to be incurred by the Southeastern Potato Committee, established pursuant to Marketing Agreement No. 104, as amended and this part, to enable such committee to carry out its functions pursuant to provisions of the aforesaid amended marketing agreement and order, during the fiscal period ending March 31, 1973, will amount to $11,125.

(b) The rate of assessment to be paid by each handler in accordance with the amended Marketing Agreement and this part shall be one-fourth of one cent ($0.0025) per hundredweight of potatoes handled by him as the first handler thereof during the said fiscal period: *Provided*, That potatoes for canning, freezing, and "other processing" as defined in the February 15, 1972, amendment to the act (Public Law 92–233) shall be exempt.

(c) Unexpended income in excess of expenses for the fiscal period may be carried over as a reserve.

(d) Terms used in this section shall have the same meaning as when used in the said amended marketing agreement and this part.

Dated: April 13, 1972.

PAUL A. NICHOLSON,
Acting Director, Fruit and Vegetable Division, Agricultural Marketing Service.

[7 CFR Part 966]

TOMATOES GROWN IN FLORIDA

Notice of Extension of Time for Filing Exceptions to Recommended Decision on Proposed Amendment of Marketing Agreement and Order

Pursuant to the Agricultural Marketing Agreement Act of 1937, as amended (secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674), and the applicable rules of practice and procedure governing proceedings to formulate marketing agreements and marketing orders (7 CFR Part 900), notice is hereby given that the time fixed in the recommended decision, dated March 31, 1972 (37 F.R. 6857, April 5, 1972), with respect to the proposed amendment of Marketing Agreement No. 125 and Order No. 966, both as amended (7 CFR Part 966), regulating the handling of Florida tomatoes, for filing written exceptions to such decision is hereby extended 15 days, to and including May 5, 1972.

This extension is being granted to accommodate a request for additional time by the counsel for importers of Mexican tomatoes.

Dated: April 13, 1972.

JOHN C. BLUM,
Deputy Administrator, Regulatory Programs.

DEPARTMENT OF COMMERCE

Office of the Secretary

[15 CFR Part 7]

CHILDREN'S SLEEPWEAR

Proposed Sampling Plan

On August 14, 1971, there was published in the FEDERAL REGISTER (36 F.R. 15465) a notice of finding that an amendment to the Standard for the Flammability of Children's Sleepwear, DOC FF 3–71 (36 F.R. 14062), may be needed to provide for sampling plans to detect noncomplying fabrics and garments before they are placed on the market in order to provide increased protection to the public against unreasonable risk of the occurrence of fire leading to death or personal injury or significant property damage, and that confirmation of the need would require appropriate amendment of that Standard.

PROPOSED STATISTICAL SAMPLING PLAN

After review and analysis of the comments received, analysis of information developed through further research and consultations with an ad hoc subcommittee of the National Advisory Committee for the Flammable Fabrics Act, it is hereby found that an amendment of the Standard for the Flammability of Children's Sleepwear, DOC FF 3–71 (36 F.R. 14062) is needed to provide for a sampling plan under the standard.

It is preliminarily found that the plan which is set out in full at the end thereof as Appendix I is:

(a) Needed for young children's sleepwear to protect the public against unreasonable risk of the occurrence of fire leading to death, personal injury, or significant property damage;

(b) Reasonable, technologically practicable, and appropriate, and is stated in objective terms; and

(c) Limited to young children's sleepwear, and fabrics or related materials which are intended or promoted for use in children's sleepwear, and which have been determined to present the unreasonable risk specified in (a) above.

BASIS FOR PROPOSED STATISTICAL SAMPLING PLAN

The finding of need to amend the Standard for the Flammability of Children's Sleepwear to include a statistical sampling plan is based on the objective of giving maximum practicable assurance that the product which reaches the marketplace meets established flammability requirements. The test method which has been developed for this standard involves a destructive test, thus precluding the testing of all items covered under the standard. It is, therefore, essential to have some type of statistical sampling procedure. By providing as part of the testing procedure in the children s sleepwear standard a statistically based sampling plan for fabrics and garments, children can be given increased protection. This proposed sampling plan would also provide a framework for premarket testing, and thus assist greatly in detecting noncomplying fabrics and garments before they are placed on the market. The proposed plan, which is appended hereto, is based on well recognized statistical sampling procedures. The proposed plan would amend sections .1 and .4(b) of the Standard for the Flammability of Children's Sleepwear (DOC FF 3–71), by adding additional definitions to section .1 and by replacing section .4(b) in its entirety.

EFFECTIVE DATE OF PROPOSED AMENDMENT

The present children's sleepwear standard (DOC FF 3–71) becomes effective July 29, 1972, with a proviso temporarily requiring a permanent and conspicuous caution label for noncomplying goods manufactured during the 12-month period after the effective date of the standard. All goods manufactured 24 months after promulgation of the children's sleepwear standard (July 29, 1973) are required to comply. An amendment to a flammability standard issued under the Flammable Fabrics Act normally becomes effective 12 months from the date on which such amendment is promulgated unless the Secretary of Commerce finds that for good cause shown that an earlier or later date is in the public interest and publishes the reason for such finding. Thus, under the normal statutory requirements of the Flammable Fabrics Act this proposed amendment could not be effective at the same time and in the same manner as the children's sleepwear standard. However, as information received by this Department indicates that compliance with the children's sleepwear standard will be substantially accelerated by the sampling plan, the Secretary proposes to make this amendment effective at the same time and in the same manner as the children's sleepwear standard.

PARTICIPATION IN PROCEEDINGS

All interested persons are invited to submit written comments relative to the proposed sampling plan within 30 days after the date of publication of this notice in the FEDERAL REGISTER. Written comments should be submitted in at least four (4) copies to the Assistant Secretary for Science and Technology, Room 3862, U.S. Department of Commerce, Washington, D.C. 20230, and may include any data or other information pertinent to the subject.

INSPECTION OF RELEVANT DOCUMENTS

The written comments received pursuant to this notice and a background document will be available for public inspection at the Central Reference and Records Inspection Facility of the Department of Commerce, Room 7046, Main Commerce Building, 14th Street between E Street and Constitution Avenue NW., Washington, DC 20230.

Issued: April 13, 1972.

JAMES W. WAKELIN, Jr.,
Assistant Secretary for Science and Technology.

PROPOSED AMENDMENT TO CHILDREN'S SLEEPWEAR STANDARD

Section 0.1 is amended by adding the following definition:

.1 *Definitions.* • • •

• • • • •

(i) "Fabric piece" (piece) means a continuous, unseamed length of fabric, several of which make up a unit.

(j) "Fabric production unit" (unit) means any quantity of fabric up to 5,000 yards for normal sampling or 10,000 yards for reduced sampling which has a specific identity that remains unchanged throughout the unit.

(k) "Garment production unit" (unit) means any quantity of finished garments up to 500 dozen which have a specific identity that remains unchanged througout the unit except for size.

(l) "Sample" means five test specimens from the appropriate production unit.

(m) "Specimen" means an 8.9 x 25.4 cm. (3.5 x 10 in.) section of fabric. For garment testing the specimen will include a seam or trim.

Section 0.4(b) is revised to read as follows:

.4(b) *Specimens and sampling*—(1) *General.* The acceptance criteria of .3(b) shall be used in conjunction with the following fabric and garment sampling plan, or any other approved by the Department of Commerce that provides at least the equivalent level of fire safety to the consumer. Alternate sampling plans submitted for approval shall have operating characteristics such that the probability of unit acceptance at any percentage defective does not exceed the corresponding probability of unit acceptance of the following sampling plan in the region of the latter's operating characteristic curves that lies between 5 and 95 percent acceptance probability.

Different colors or different print patterns of the same fabric may be included in a single fabric or garment production unit, provided such colors or print patterns demonstrate char lengths and residual flame times that are not significantly different from each other.

For fabrics whose flammability characteristics are not dependent on chemical additives, the laundering requirement of .4(d)(4) is met on subsequent fabric production units if results of testing an initial fabric production unit demonstrate acceptability according to the criteria of .3(b) both before and after the appropriate laundering.

If the fabric has been shown to meet the laundering requirement .4(d)(4), the garments are not required to be laundered.

(2) *Fabric sampling.* A fabric production unit (unit) is either accepted or rejected in accordance with the following plan:

Normal sampling. Select one sample from the beginning of the first fabric piece (piece) in the unit and one sample from the end of the last piece in the unit. Test the two selected samples. If both samples meet all the acceptance criteria of .3(b), accept the unit. If either or both of the samples fail the 17.8 cm. (7.0 in.) average char length criterion, reject the unit. If two or more of the individual specimens, from the 10 selected specimens, fail the 25.4 cm. (10 in.) char length and/or the 10-second residual flame time criteria, reject the unit. If only one individual specimen, from the 10 selected specimens, fails the 25.4 cm. (10 in.) char length and/or the 10-second residual flame time criteria, select five additional specimens from the same end of the piece in which the failure occurred. If this additional sample passes all the acceptance criteria, accept the unit. If this additional sample fails any part of the acceptance criteria, reject the unit.

Reduced sampling. The level of sampling required for fabric acceptance may be reduced provided the preceding 15 units of the fabric have all been accepted using the normal sampling plan.

The reduced sampling plan shall be the same as for normal sampling except that the quantity of fabric in the unit may be increased to 10,000 yards.

Select and test two samples in the same manner as in normal sampling. Accept or reject the unit on the same basis as with normal sampling.

Reduced sampling shall be discontinued and normal sampling resumed if a unit is rejected.

Tightened sampling. The level of sampling required for acceptance shall be increased when a unit is rejected under the normal sampling plan. The tightened sampling shall be the same as normal sampling except that one additional sample shall be selected and cut from a middle piece in the unit. Neither the piece at the beginning nor the piece at the end of the unit shall be selected for the additional sample. Test the three selected samples. If all three selected samples meet all the acceptance criteria of .3(b), accept the unit. If one or more of the three selected samples fail the 17.8 cm. (7.0 in.) average char length criterion, reject the unit. If two or more of the individual specimens, from the 15 selected specimens, fail the 25.4 cm. (10 in.) char length and/or the 10-second residual flame time criteria, reject the unit. If only one individual specimen, of the 15 selected specimens, fails the 25.4 cm. (10 in.) char length and/or the 10-second residual flame time criteria, select five additional specimens from the same end of the same piece in which the failure occurred. If this additional sample passes all the acceptance criteria, accept the unit. If this additional sample fails any part of the acceptance criteria, reject the unit. Tightened sampling may be discontinued and normal sampling resumed after five consecutive units have all been accepted using tightened sampling. If tightened inspection remains in effect for 15 consecutive units, production must be discontinued until that part of the process or component which is causing failure has been identified and the quality of the end product has been improved.

Disposition of rejected units. The piece or pieces which have failed and resulted in the initial rejection of the unit may not be reinspected, used or promoted for use in children's sleepwear as defined in .1(a) except after reworking to improve the flammability characteristics and subsequent retesting in accordance with the procedures set forth in this subsection.

[1] Formerly Consumer and Marketing Service. Name changed to Agricultural Marketing Service effective Apr. 2, 1972, 37 F.R. 6327.

V 37 - 75 APR 18 72 XUM

The remainder of a rejected unit, after removing the piece or pieces the failure of which resulted in unit rejection, may be accepted if the following test plan is successfully concluded at all required locations. The required locations are those adjacent to each such failed piece. (Required locations exist on both sides of the "middle piece" tested in tightened sampling if failure of that piece resulted in unit rejection.) Failure of a piece shall be deemed to have resulted in unit rejection if unit rejection occurred and a sample or specimen from the piece failed any acceptance criterion of .3(b):

Select and cut a sample from each end of each adjoining piece beginning adjacent to the piece which failed. Test the two samples from the piece. If both samples meet all the acceptance criteria of .3(b), the piece is acceptable. If one or both of the two selected samples fail the 17.8 cm. (7.0 in.) average char length criterion, the piece is unacceptable. If two or more of the individual specimens, from the 10 selected specimens, fail the 25.4 cm. (10 in.) char length and/or the 10-second residual flame time criteria, the piece is unacceptable. If only one individual specimen, from the 10 selected specimens, fails the 25.4 cm. (10 in.) char length and/or the 10-second residual flame time criteria, select five additional specimens from the same end of the piece in which the failure occurred. If this additional sample passes all the acceptance criteria, the piece is acceptable. If this additional sample fails any part of the acceptance criteria, the piece is unacceptable.

Continue testing adjoining pieces until a piece has been found acceptable. Then continue testing adjoining pieces until three successive adjoining pieces, not including the first acceptable piece, have been found acceptable or until five such pieces not including the first acceptable piece, have been tested, whichever occurs sooner. Unless three successive adjoining pieces have been found acceptable among five such pieces, testing shall be stopped and the entire unit rejected without further testing.

The pieces of a unit rejected after retesting may not be reinspected, used or promoted for use in children's sleepwear as defined in .1(a) except after reworking to improve the flammability characteristics, and subsequent retesting in accordance with the procedures set forth in this subsection.

Records. Records of all unit sizes, test results, and the disposition of rejected pieces and units must be maintained by the manufacturer, in accordance with rules and regulations established by the Federal Trade Commission.

(3) *Garment sampling.* The garment sampling plan is made up of two parts: (1) Prototype testing, and (2) production testing. Prior to production, prototypes must be tested to assure that the design characteristics of the garment meet the acceptance criteria. Garment production units (units) are then accepted or rejected on an individual unit basis.

Prototype testing. Preproduction prototypes of a garment style or type shall be tested to assure that satisfactory garment specifications in terms of flammability are set up prior to production.

Seams. Make three samples (15 specimens) using the longest seam and three samples using each other seam, 10 inches or longer that is to be included in the garment. Test each set of three samples and accept or reject each seam design in accordance with the following plan:

If all three samples meet all the acceptance criteria of .3(b), accept the seam design. If one or more of the three samples fail the 17.8 cm. (7.0 in.) average char length criterion, reject the seam design. If three or more of the individual specimens from the 15 selected specimens fail the 25.4 cm. (10 in.) char length and/or the 10-second residual flame time criteria, reject the seam design. If only one of the individual specimens from the 15 selected specimens fail the 25.4 cm. (10 in.) char length and/or the 10-second residual flame time criteria, accept the seam design.

If two of the individual specimens, from the 15 selected specimens, fail the 25.4 cm. (10 in.) char length and/or the 10-second residual flame time criteria, select three more samples (15 specimens) and retest. If all three additional samples meet all the acceptance criteria of .3(b), accept the seam design. If one or more of the three additional samples fail the 17.8 cm. (7.0 in.) average char length criterion, reject the seam design. If two or more of the individual specimens, from the 15 selected specimens, fail the 25.4 cm. (10 in.) char length and/or the 10-second residual flame time criteria, reject the seam design. If only one of the individual specimens, from the 15 selected specimens, fails the 25.4 cm. (10 in.) char length and/or the 10-second residual flame time, accept the seam design.

Trim. Make three samples (15 specimens) from each type of trim to be included in the garment. Specimens shall be prepared by sewing or attaching the trim to the center of the vertical axis of an appropriate section of untrimmed fabric, beginning the sewing or attachment at the lower edge of each specimen. The sewing or attachment shall be made in the manner in which the trim is to be attached in the garment. Sewing or otherwise attaching the trim shall be done with thread or fastening material of the same composition and size to be used for this purpose in the garment and using the same stitching or seam type. The trim shall be sewn or fastened the entire length of the specimen. Test the sets of three samples. Accept or reject the type of trim and design on the same basis as seam design.

Production testing. A unit is either accepted or rejected according to the following plan:

From each unit select at random at least three garments and cut three samples (15 specimens) from the longest seam. Test the three selected samples. If all three samples meet all the acceptance criteria of .3(b), accept the unit. If one or more of the three samples fail the 17.8 cm. (7.0 in.) average char length criterion, reject the unit. If four or more of the individual specimens, from the 15 selected specimens, fail the 25.4 cm. (10 in.) char length and/or the 10-second residual flame time criteria, reject the unit. If three or less of the individual specimens, from the 15 selected specimens, fail the 25.4 cm. (10 in.) char length and/or the 10-second residual flame time criteria, accept the unit.

Disposition of rejected units. Rejected units shall not be reinspected, used or promoted for use in children's sleepwear as defined in .1(a) except after reworking to improve the flammability characteristics and subsequent retesting in accordance with the procedures set forth in this subsection.

Records. Records of all unit sizes, test results, and the disposition of rejected units must be maintained by the manufacturer, in accordance with rules and regulations established by the Federal Trade Commission.

DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

Food and Drug Administration

[21 CFR Parts 141, 141a, 141b, 148j]

NOVOBIOCIN

Buffer Used in Potency Assay and Storage Time of Stock Solution

Pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (sec. 507, 59 Stat. 463, as amended; 21 U.S.C. 357) and under authority delegated to the Commissioner of Food and Drugs (21 CFR 2.120), it is proposed that Parts 141, 141a, 141b, and 148j be revised as follows to provide changes in the buffer used in the potency assay of novobiocin and in the storage time of the standard stock solution:

1. It is proposed that Part 141 be amended in the table in § 141.110(b) by revising the entry for novobiocin to read as follows:

§ 141.110 Microbiological agar diffusion assay.

* * * * * *

(b) * * *

Antibiotic	Working standard stock solution: Drying conditions (method number as listed in § 141.501)	Working standard stock solution: Initial solvent	Working standard stock solution: Diluent (solution number as listed in § 141.102(a))	Working standard stock solution: Final concentration units or milligrams per milliliter	Working standard stock solution: Storage time under refrigeration	Standard response line concentrations: Diluent	Standard response line concentrations: Final concentrations, units or micrograms of activity per milliliter
* * *	* * *	* * *	* * *	* * *	* * *	* * *	* * *
Novobiocin	5	10,000 µg. per ml. in absolute ethyl alcohol.	3	1 mg.	5 days	6	0.200, 0.400, 0.800, 0.625, 0.781 µg.
* * *	* * *	* * *	* * *	* * *	* * *	* * *	* * *

2. It is proposed that Part 141a be amended:

a. In § 141a.21 by revising paragraphs (a)(2) and (c)(1) to read as follows:

§ 141a.21 Capsules penicillin and novobiocin.

(a) * * *

(2) *Novobiocin content.* Proceed as directed in § 141.110 of this chapter, preparing the sample for assay as follows: Place a representative number of capsules into a high-speed glass blender jar containing sufficient 0.1 *M* potassium phosphate buffer, pH 8.0 (solution 3), to give a stock solution of convenient concentration. Blend for 3 to 5 minutes. To an aliquot add sufficient penicillinase to inactivate the penicillin, further dilute with 10 percent potassium phosphate buffer, pH 6.0 (solution 6) to give a reference concentration of 0.5 microgram of novobiocin per milliliter (estimated) and allow to stand for one-half hour at 37° C. Its content of novobiocin is satisfactory if it contains not less than 85 percent of the number of milligrams per capsule that it is represented to contain.

* * * * *

(c) *Novobiocin used in making the capsules*—(1) *Potency.* Proceed as directed in § 141.110 of this chapter, preparing the sample for assay as follows: Dissolve an accurately weighed sample in sufficient 0.1 *M* potassium phosphate buffer, pH 8.0 (solution 3), to give a stock solution of convenient concentration. Further dilute an aliquot of the stock solution with 10 percent potassium phosphate buffer, pH 6.0 (solution 6), to the reference concentration of 0.5 microgram of novobiocin per milliliter (estimated).

* * * * * *

b. In § 141a.100 by revising paragraphs (b)(1) (iii) and (iv) to read as follows:

§ 141a.100 Potassium phenethicillin.

* * * * * *

(b) * * *

(1) * * *

(iii) *Standard curve.* Using the stock solution, further dilute with pH 7.8 to 8.0 buffer to get final concentrations of 0.064, 0.08, 0.1, 0.125, and 0.156 unit per milliliter, and proceed as described in § 141.110 (c) and (d) of this chapter.

(iv) *Assay.* Dissolve a weighing of the sample in sufficient pH 7.8 to 8.0 buffer to give a convenient stock solution. Further dilute with buffer to give an estimated concentration equivalent to 0.1 unit per milliliter of the L-α-phenoxyethyl, penicillin potassium standard and then proceed as described in § 141.110(c) of this chapter.

* * * * * *

§ 141a.108 [Amended]

c. In § 141a.108 *Procaine penicillin-novobiocin - polymyxin - dihydrostreptomycin in oil,* in the second sentence of paragraph (a)(2) by changing the words "1 percent potassium phosphate buffer, pH 6.0," to read "10 percent potassium phosphate buffer, pH 6.0 (solution 6)."

§ 141a.109 [Amended]

d. In § 141a.109 *Procaine penicillin G-novobiocin-neomycin-dihydrostreptomycin in oil,* in the third sentence of paragraph (a)(2)(i) by changing the words "1 percent potassium phosphate buffer, pH 6.0," to read "10 percent potassium phosphate buffer, pH 6.0 (solution 6)."

3. It is proposed that Part 141b be amended:

§ 141b.112 [Amended]

In § 141b.112 *Streptomycin-polymyxin-bacitracin tablets,* in the first sentence of paragraph (b)(1)(iv) by revising the reference "§ 141a.21(c)(1)(vii)" to read "§ 141.110 (b), (c), and (d)."

4. It is proposed that Part 148j be amended:

§ 148j.1 [Amended]

a. In § 148j.1 *Nonsterile sodium novobiocin,* in the second sentence of paragraph (b)(1) by changing the words "1 percent potassium phosphate buffer, pH 6.0 (solution 1)," to read "10 percent potassium phosphate buffer, pH 6.0 (solution 6),".

§ 148j.1a [Amended]

b. In § 148j.1a *Sterile sodium novobiocin,* in the second sentence of paragraph (b)(1) by changing the words "1 percent potassium phosphate buffer, pH 6.0 (solution 1)," to read "10 percent potassium phosphate buffer, pH 6.0 (solution 6),".

§ 148j.2 [Amended]

c. In § 148j.2 *Calcium novobiocin,* in the second sentence of paragraph (b)(1) by changing the words "1 percent potassium phosphate buffer, pH 6.0 (solution 1)," to read "10 percent potassium phosphate buffer, pH 6.0 (solution 6),".

§ 148j.3 [Amended]

d. In § 148j.3 *Sodium novobiocin tablets,* in the second sentence of paragraph (b)(1) by changing the words "1 percent potassium phosphate buffer, pH 6.0 (solution 1)," to read "10 percent potassium phosphate buffer, pH 6.0 (solution 6),".

§ 148j.5 [Amended]

e. In § 148j.5 *Calcium novobiocin oral suspension,* in the third sentence of paragraph (b)(1) by changing the words "1 percent potassium phosphate buffer, pH 6.0 (solution 1)," to read "10 percent potassium phosphate buffer, pH 6.0 (solution 6),".

§ 148j.6 [Amended]

f. In § 148j.6 *Sodium novobiocin for injection,* in the fourth sentence of paragraph (b)(1) by changing the words "1 percent potassium phosphate buffer, pH 6.0 (solution 1)," to read "10 percent potassium phosphate buffer, pH 6.0 (solution 6),".

§ 148j.7 [Amended]

g. In § 148j.7 *Sodium novobiocin capsules,* in the third sentence of paragraph (b)(1) by changing the words "1 percent potassium phosphate buffer, pH 6.0 (solution 1)," to read "10 percent potassium phosphate buffer, pH 6.0 (solution 6),".

Interested persons may, within 60 days after publication hereof in the FEDERAL REGISTER, file with the Hearing Clerk, Department of Health, Education, and Welfare, Room 6–88, 5600 Fishers Lane, Rockville, Md. 20852, written comments (preferably in quintuplicate) regarding this proposal. Comments may be accompanied by a memorandum or brief in support thereof. Received comments may be seen in the above office during working hours, Monday through Friday.

Dated: April 5, 1972.

[21 CFR Part 295]

HOUSEHOLD SUBSTANCES IN LIQUID FORM CONTAINING METHYL ALCOHOL (METHANOL)

Proposed Child Protection Packaging Standards

Through investigations by the Food and Drug Administration and from other available information, the Commissioner of Food and Drugs has determined that the accidental ingestion of household substances in liquid form containing 4 percent or more of methyl alcohol (methanol) has been a cause of serious personal injury and serious ill-

V 37 75 APR 18 72 XUM

ness to children under 5 years of age.

Methyl alcohol, also known as wood alcohol, is a constituent of a number of household substances including windshield washer antifreeze, automobile gasline antifreeze, certain paint thinners, paint and varnish removers, paint brush cleaners, and shellac solvents.

The unique toxicity of methyl alcohol and the resultant adverse effects following its ingestion have resulted in hundreds of deaths and numerous cases of blindness which are well known and thoroughly documented in medical literature. This substance is rapidly absorbed from the gastrointestinal tract and slowly eliminated from the body. The symptoms of methyl alcohol poisoning are visual disturbance ranging from mild blurring to total loss of light perception, nausea, vomiting, excruciating abdominal pain, shock, cyanosis, dyspnea, and coma. Death is usually due to respiratory failure or circulatory collapse and may be prompt or delayed a few days. The mortality rate from this type of poisoning is reported to be high. Permanent visual impairment or blindness is not uncommon following survival.

The action of methyl alcohol and its metabolites is reported to damage the gastrointestinal tract (particularly the stomach), the lungs, the kidneys, the liver, the pancreas, and most markedly the eyes. The high water content of the eye and the great solubility of methyl alcohol in water is reported to be the basis for the affinity of methyl alcohol for the eye. The toxic effects of methyl alcohol in humans are attributed to three factors: (a) Central nervous system depression, (b) a severe acidosis, and (c) a specific action of methyl alcohol metabolites on the retinal cells and optic nerve.

Data from the National Clearinghouse for Poison Control Centers on accidental ingestions of substances containing methyl alcohol by children under 5 years of age, for the 3-year period 1968–70, show 44 ingestions and three hospitalizations.

After review of the above information and upon consultation, pursuant to section 3, with the Technical Advisory Committee convened in accordance with section 6 of the Poison Prevention Packaging Act of 1970, the Commissioner finds that the nature of the hazard to children posed by liquid household substances containing 4 percent or more of methyl alcohol, by reason of their availability and packaging, is such that special packaging is necessary to protect children from serious personal injury or serious illness resulting from ingesting such substances.

On the basis of reports and data from industry and other relevant information, and pursuant to section 3(a)(2) of the act, the Commissioner finds that the special packaging proposed herein is:

1. Technically feasible because technology exists to produce special packaging conforming to these standards. At least 15 different special packages have been tested in accordance with § 295.10 *Testing procedure for special packaging* (21 CFR 295.10; 36 F.R. 22151, 37 F.R. 741) that meet or exceed the effectiveness specifications of § 295.3(b).

2. Practicable in that it is susceptible to modern mass production and assembly line techniques. Reported production data indicate a capability adequate to meet the needs of affected industries.

3. Appropriate since such special packaging is not detrimental to the integrity of the substance and will not interfere with its storage or use.

Accordingly, pursuant to provisions of the Poison Prevention Packaging Act of 1970 (secs. 2(4), 3, 5, 84 Stat. 1670–72; 15 U.S.C. 1471(4), 1472, 1474) and under authority delegated to him (21 CFR 2.120), the Commissioner proposes that a new subparagraph be added to § 295.2(a) as follows (§§ 295.2 and 295.3 were promulgated in the FEDERAL REGISTER of February 16, 1972; 37 F.R. 3427):

§ 295.2 Substances requiring "special packaging."

(a) *Substances.* The Commissioner of Food and Drugs has determined that the degree or nature of the hazard to children in the availability of the following substances, by reason of their packaging, is such that special packaging is required to protect children from serious personal injury or serious illness resulting from handling, using, or ingesting such substances, and that the special packaging herein required is technically feasible, practicable, and appropriate for these substances:

. . . . . .

(8) *Methyl alcohol (methanol).* Household substances in liquid form containing 4 percent or more by weight of methyl alcohol (methanol) shall be packaged in accordance with the provisions of § 295.3 (a) and (b).

. . . . . .

Interested persons may, within 60 days after publication hereof in the FEDERAL REGISTER, file with the Hearing Clerk, Department of Health, Education, and Welfare, Room 6–88, 5600 Fishers Lane, Rockville, Md. 20852, written comments (preferably in quintuplicate) regarding this proposal. Comments may be accompanied by a memorandum or brief in support thereof. Received comments may be seen in the above office during working hours, Monday through Friday.

Dated: April 13, 1972.

SAM D. FINE,
Associate Commissioner for Compliance.

Public Health Service

[42 CFR Part 53]

MEDICAL SERVICES FOR PERSONS UNABLE TO PAY: NONDISCRIMINATION

Proposed Standards for Determining Compliance

Notice is hereby given that the Administrator, Health Services and Mental Health Administration, with the approval of the Secretary of Health, Education, and Welfare, and subject to the approval of the Federal Hospital Council, proposes to revise § 53.111 of Title 42, CFR, entitled "Services for persons unable to pay."

The principal purpose of the revision is to establish more specific standards, guidelines, and procedures for determining compliance with, and enforcing, assurances to provide a reasonable volume of services to persons unable to pay therefor previously given by recipients of, or to be given by applicants for, assistance under Title VI of the Public Health Service Act as amended (42 U.S.C. 291 et seq.).

Interested persons are invited to submit written comments, suggestions, or objections regarding the proposed revision of 42 CFR Part 53, Subpart L, to the Health Care Facilities Service, Parklawn Building, 5600 Fishers Lane, Rockville, MD 20852, within 30 days after the date of publication of this notice in the FEDERAL REGISTER. Comments received will be available for public inspection at Room 9–05, Parklawn Building, between the hours of 8:30 a.m. and 5 p.m., Monday through Friday.

This proposed revision of Title 42 CFR 53.111 is issued under authority of section 603 of the Public Health Service Act as amended, 78 Stat. 451, 42 U.S.C. 291c.

It is therefore proposed to revise 42 CFR 53.111 to read as set forth below.

Dated: April 12, 1972.

VERNON E. WILSON,
Administrator, Health Services and Mental Health Administration.

Approved: April 15, 1972.

ELLIOT L. RICHARDSON,
Secretary.

§ 53.111 Services for persons unable to pay.

(a) *Applicability.* The provisions of this section apply to every applicant which heretofore has given or hereafter will give an assurance that it will make available a reasonable volume of services to persons unable to pay therefor.

(b) *Definitions.* As used in this section:

(1) The term "facility" includes hospitals, facilities for long-term care, outpatient facilities, rehabilitation facilities, and public health centers;

(2) The term "applicant" means an applicant for, or recipient of, a grant, a loan guarantee or a loan under the Act;

(3) "Fiscal year" means the fiscal year of the applicant;

(4) The term "operating costs" means the actual operating costs of the applicant for a fiscal year as determined in accordance with cost determination principles and requirements under Title XVIII of the Social Security Act (42 U.S.C. 1395): *Provided*, That such "operating costs" shall be determined for the applicant's entire facility and for all patients regardless of the source of payment for such care: *And provided further*, That in determining such operating costs there shall be deducted the amount of all actual or estimated reimbursements, as applicable, for services received or to be received pursuant to Title XVIII and XIX of the Social Security Act (42 U.S.C. 1395 and 1396);

(5) The term "net income" means the net income of the applicant determined in accordance with the applicant's usual accounting methods provided that such methods are consistently applied and are compatible with accounting principles generally accepted in hospital and related fields;

(6) The term "reasonable cost" means the cost of providing services to a specific patient determined in accordance with the cost determination principles and requirements under title XVIII of the Social Security Act (42 U.S.C. 1395) and Subpart D of the regulations thereunder (20 CFR 405, 401 et seq.);

(7) The term "uncompensated services" means services which are made available to persons unable to pay therefor without charge or at a charge which is less than the reasonable cost of such services. The level of such services is measured by the difference between the amount charged for such services and the reasonable cost thereof;

(8) "Reasonable volume of services to persons unable to pay therefor" means a level of uncompensated services which meets a need for such services in the area served by an applicant and which is within the financial ability of such applicant to provide.

(c) *Assurance.* Before an application under this part is recommended by a State agency to the Secretary for approval, the State agency shall obtain an assurance from the applicant that there will be made available in the facility or portion thereof to be constructed or modernized a reasonable volume of services to persons unable to pay therefor. The requirement of an assurance from an applicant shall be waived if the applicant demonstrates to the satisfaction of the State agency, subject to subsequent approval by the Secretary, that such a requirement is not feasible from a financial viewpoint.

(d) *Presumptive compliance guideline.* An applicant which, for a fiscal year, budgets for the support of, and makes available on request, uncompensated services at a level not less than the higher of 5 percent of operating costs or 25 percent of net income shall, subject to the provisions of paragraph (h) of this section, be deemed in presumptive compliance with its assurance.

(e) *Compliance reports.* (1) Each applicant shall, not later than 120 days after the end of a fiscal year, unless a longer period is approved by the State agency for good cause shown, file with the State agency a copy of its annual statement for such year as required by section 646 of the Act and § 53.128(q), which shall set forth its operating costs and the amount of uncompensated services provided in such year. The provision of a level of uncompensated services in such year which equals or exceeds the level established pursuant to paragraph (h) of this section for such year shall constitute compliance with the assurance. If the level of services provided was less than the level of uncompensated services established pursuant to paragraph (h) of this section, the applicant shall submit with such statement (i) a justification therefor, showing that the provision of such lower level of uncompensated services was reasonable under the circumstances and (ii) a description of the steps it proposes to take to assure the availability and utilization of the level of uncompensated services to be established for the current fiscal year, which shall include an affirmative action plan, utilizing available media of mass communication as well as other appropriate means, to bring to the attention of the public the availability of such uncompensated services and the conditions of eligibility therefor.

(2) Each applicant shall file with its annual statement a copy of that portion of its adopted budget for the current fiscal year relating to the support of uncompensated services in such year. Such budget for uncompensated services shall be based on the operating costs of the applicant for the preceding fiscal year and shall give due cognizance to probable increases in operating costs. If the budget statement does not conform to the presumptive compliance guidelines, the applicant shall submit with its statement (i) a justification therefor, showing that such lower level of uncompensated services is reasonable under the circumstances, and (ii) a plan to increase such uncompensated services to meet the presumptive compliance guideline or such other level of uncompensated services as may have been established or as it requests the State agency to establish in accordance with paragraph (h) of this section.

(3) The applicant shall also submit such additional reports related to compliance with its assurance as the State agency may reasonably require.

(f) *Qualifying services.* (1) In determining the amount of uncompensated services provided by an applicant, there shall be included only those services provided to an individual with respect to whom the applicant has made a formal written determination prior to the provision of such services that such individual is unable to pay therefor under the criteria established pursuant to paragraph (g) of this section except that such determination may be made after the provision of the services where (i) there has been a change in circumstances, e.g., the patient's financial condition has changed or the cost of the services provided is greater than anticipated, (ii) an emergency or an urgent need for services has precluded a determination of the patient's ability to pay therefor or (iii) the applicant has for other good cause been unable to complete its investigation and determination prior to the provision of the services: *Provided*, That a statement of such good cause be made a part of the applicant's written determination.

(2) There shall be excluded from the computation of uncompensated services:

(i) Any amount which the applicant has received, or is entitled to receive, from a third party insurer or under a governmental program; and

(ii) The reasonable cost of any services for which payment in whole or in part would be available under a governmental program (e.g., Medicare and Medicaid) in which the applicant, although eligible to do so, does not participate, but only to the extent of such otherwise available payment.

(g) *Persons unable to pay for services.* (1) The State agency shall set forth in its State plan, subject to approval by the Secretary, criteria for identifying persons unable to pay for services, which shall include persons who are otherwise self-supporting but unable to pay the full charge for needed services. Such criteria shall be based on the following or similar factors:

(i) The health and medical care insurance coverage, personal or family income, the size of the patient's family, and other financial obligations and resources of the patient or the family in relation to the reasonable cost of the services;

(ii) Generally recognized standards of need such as (a) the State standard for the medically needy as determined for the purposes of the Aid for Families with Dependent Children program; (b) the current Social Security Administration poverty income level; (c) the current Office of Economic Opportunity Income Poverty Guidelines applicable in the area; or

(iii) Any other equivalent measures which are found by the Secretary to provide a reasonable basis for determining an individual's ability to pay for medical and hospital services.

(2) A copy of such criteria shall be provided by the applicant, upon request, to any patient or former patient of the applicant and to any person seeking services from the applicant.

(3) The State agency shall provide a copy of such criteria to any person requesting it.

(h) *Level of uncompensated services.* (1) The State agency shall set forth in its State plan procedures for the determination for each applicant of the level of uncompensated services which constitutes a reasonable volume of services to persons unable to pay therefor.

(2) The State agency shall for the purpose of making such determination, review, and evaluate the annual statement, the budget and the related documents submitted by each aplicant pursuant to paragraph (e) of this section, by applying the following criteria:

(i) The financial status of the applicant, taking account of income from all sources, and its financial ability to provide uncompensated services;

(ii) The nature and quantity of services provided by the applicant;

(iii) The need within the applicant's service area for the provision, without charge or at charge which is less than reasonable cost, for services of the nature provided or to be provided by the applicant; and

(iv) The extent and nature of joint or cooperative programs with other facil-

V 37 75 APR 18 72 XUM

ities for the provision of uncompensated services, and the extent and nature of outreach services directed to the needs of underserved areas.

(3) In accordance with its findings made after such review and evaluation, the State agency shall, within 60 days after receipt of the annual statement and related documents required by paragraph (e) of this section, for each fiscal year of an applicant which begins following the expiration of 90 days after the effective date of this regulation:

(i) Establish a level of uncompensated services for each applicant which may be equal to or less than the presumptive compliance guideline: *Provided*, That if the State agency determines, in accordance with subparagraph (2) of this paragraph, that (*a*) there is a need in the area served by an applicant for a level of uncompensated services greater than the level proposed in the applicant's budget statement, and (*b*) the applicant is financially able to provide such greater level of uncompensated services, the State agency shall establish such greater level as the level applicable to the applicant; and

(ii) Accept or modify a plan submitted pursuant to paragraph (e) of this section.

(4) The State agency shall notify the applicant in writing of the level of uncompensated services which it has established for the applicant for the fiscal year. At the time of notifying the applicant, the State agency shall also publish as a public notice in a newspaper of general circulation within the community served by the applicant the rate that has been established, a statement that the documents upon which the agency based its determination are available for public inspection at a location and time prescribed, and that persons wishing to object to the rate can do so by writing to the State agency within 20 days after publication of the notice.

(5) The applicant or any person or persons residing or located within the service area of the applicant, or any organization on behalf of such person or persons, may submit to the State agency within 20 days of the publication and sending of the notice objections to the rate established by the State agency for the applicant. Such objections may be supported in writing by factual information and argument. The State agency may, if it believes that determination of the objections will be assisted by oral evidence or by oral argument, set a public hearing on the objections and shall give notice of such hearing to all interested parties and to the public. If no hearing is set, the State agency shall give public notice of the receipt of the objections and shall make the objections and their supporting documents available for public inspection and comment. The State agency shall rule promptly upon the objections in writing, stating its reasons for sustaining or overruling them, in whole or in part, and establishing finally the rate of uncompensated services either the same as, above, or below the rate previously established, as may best accord with all of the evidence on file with or heard by the State agency. Notice of the final determination shall be mailed to all parties who filed objections or who participated in the proceedings leading to the redetermination.

(6) Within 20 days of receipt of written notice of the final determination of a State agency after ruling on objections to the rate established by the State agency, the applicant or any other interested person or organization may submit to the Secretary a written request for review of the State agency determination. Such review shall be made upon the record of the State agency determination which shall be sustained if supported by substantial evidence and is not otherwise arbitrary or capricious. If the Secretary or his designee determines that the rate established by the State agency is unsupported by the evidence in the record or is otherwise arbitrary or capricious, the Secretary or his designee shall, upon the basis of the record or upon other evidence or information which is before him or which he may obtain, establish a level of uncompensated services which he determines, in accordance with the criteria set out in subparagraph (2) of this paragraph, is appropriate.

(7) The level of uncompensated services established for an applicant under this section for any fiscal year shall constitute a reasonable volume of services to persons unable to pay therefor with respect to such applicant for such fiscal year.

(i) *Evaluation and enforcement.* The State plan shall provide for evaluation and enforcement of the assurance in accordance with the following requirements:

(1) The State agency shall, (i) at least anually, perform evaluations of the services provided in each facility with respect to which Federal assistance has been provided under the Act, to determine whether such assurance is being complied with; and (ii) establish procedures for the investigation of complaints that such assurance is not being complied with.

(2) Evaluation pursuant to subparagraph (1) of this paragraph shall be based on the annual budget of each facility for uncompensated services and on financial statements of such facilities filed pursuant to section 646 of the Act and § 53.128(q), and on such other information, including reports of investigations and hearing decisions, as the State agency deems relevant and material.

(3) The State plan shall provide for adequate methods of enforcement of the assurance, including effective sanctions to be applied against any facility which fails to comply with such assurance. Such sanctions may include, but need not be limited to, license revocation, termination of State assistance, and court action.

(j) *Reports.* (1) The State agency shall, not less often than annually, report in writing to the Secretary its evaluation of each facility's compliance with the assurance, the disposition of each complaint received by the State agency, proposed remedial action with respect to each facility found by the State agency to be not in compliance with the assurance, and the status of such remedial action.

(2) In addition, the State agency shall promptly report to the Regional Attorney and Regional Health Director of the Department of Health, Education, and Welfare the institution of any legal action against a facility or the State agency involving compliance with the assurance.

DEPARTMENT OF TRANSPORTATION

Federal Aviation Administration

[14 CFR Part 71]

[Airspace Docket No. 72-CE-10]

TRANSITION AREA

Proposed Alteration

The Federal Aviation Administration is considering amending Part 71 of the Federal Aviation Regulations so as to alter the transition area at Dubuque, Iowa.

Interested persons may participate in the proposed rule making by submitting such written data, views, or arguments as they may desire. Communications should be submitted in triplicate to the Director, Central Region, Attention: Chief, Air Traffic Division, Federal Aviation Administration, Federal Building, 601 East 12th Street, Kansas City, MO 64106. All communications received within 45 days after publication of this notice in the FEDERAL REGISTER will be considered before action is taken on the proposed amendment. No public hearing is contemplated at this time, but arrangements for informal conferences with Federal Aviation Administration officials may be made by contacting the Regional Air Traffic Division Chief. Any data, views, or arguments presented during such conferences must also be submitted in writing in accordance with this notice in order to become part of the record for consideration. The proposal contained in this notice may be changed in the light of comments received.

A public docket will be available for examination by interested persons in the Office of the Regional Counsel, Federal Aviation Administration, Federal Building, 601 East 12th Street, Kansas City, MO 64106.

The VOR/DME approach to Runway 21 at the Clinton, Iowa, Municipal Airport overlies a small area of uncontrolled airspace. Consequently, the Dubuque, Iowa, transition area is being altered to include within it that airspace.

In consideration of the foregoing, the Federal Aviation Administration proposes to amend Part 71 of the Federal Aviation Regulations as hereinafter set forth:

In § 71.171 (37 F.R. 2143), the following transition area is amended to read:

DUBUQUE, IOWA

That airspace extending upward from 700 feet above the surface within an 8½-mile radius of Dubuque Municipal Airport (latitude 42°24'10" N., longitude 90°42'32" W.); and within 4½ miles northeast and 9½ miles southwest of the Dubuque VORTAC 321° radial, extending from the VORTAC to 18½ miles northwest of the VORTAC; and that airspace extending upward from 1,200 feet above the surface bounded by a line beginning at latitude 42°05'00" N., longitude 91°00'00" W., thence west along latitude 42°05'00" N., to and north along longitude 92°15'00" W., to and counterclockwise along the arc of a 29-mile-radius circle centered on the Waterloo, Iowa, VORTAC, to and east along the south edge of V-100, to and clockwise along the arc of a 29-mile-radius circle centered on the Dubuque VORTAC, to and southeast along the southwest edge of V-218, to and south along longitude 89°55'00" W., to and southwest along the northwest edge of V-216, to 90°08'00" W., and south to the north edge of V-172, to and north along longitude 91°00'00" W., to the point of beginning, excluding the portion which overlies the State of Illinois.

This amendment is proposed under the authority of section 307(a) of the Federal Aviation Act of 1958 (49 U.S.C. 1348), and of section 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).

Issued in Kansas City, Mo., on March 24, 1972.

JOHN M. CYROCKI,
Director, Central Region.

[14 CFR Part 71]

[Airspace Docket No. 72-CE-11]

CONTROL ZONE AND TRANSITION AREA

Proposed Alteration

The Federal Aviation Administration is considering amending Part 71 of the Federal Aviation Regulations so as to alter the control zone and transition area at Jefferson City, Mo.

Interested persons may participate in the proposed rule making by submitting such written data, views, or arguments as they may desire. Communications should be submitted in triplicate to the Director, Central Region, Attention: Chief, Air Traffic Division, Federal Aviation Administration, Federal Building, 601 East 12th Street, Kansas City, Mo. 64106. All communications received within 45 days after publication of this notice in the FEDERAL REGISTER will be considered before action is taken on the proposed amendments. No public hearing is contemplated at this time, but arrangements for informal conferences with Federal Aviation Administration officials may be made by contacting the Regional Air Traffic Division Chief. Any data, views, or arguments presented during such conferences must also be submitted in writing in accordance with this notice in order to become part of the record for consideration. The proposals contained in this notice may be changed in the light of comments received.

A public docket will be available for examination by interested persons in the Office of the Regional Counsel, Federal Aviation Administration, Federal Building, 601 East 12th Street, Kansas City, MO 64106.

Since designation of controlled airspace at Jefferson City, Mo., new and revised approach procedures are being developed for the Jefferson City Memorial Airport. Accordingly, it is necessary to alter the Jefferson City control zone and transition area to adequately protect aircraft executing the new and revised approach procedures.

In consideration of the foregoing, the Federal Aviation Administration proposes to alter Part 71 of the Federal Aviation Regulations as hereinafter set forth:

1. In § 71.171 (37 F.R. 2056), the following control zone is amended to read:

JEFFERSON CITY, MO.

Within a 5-mile radius of the Jefferson City Memorial Airport (latitude 38°35'33" N., longitude 92°09'39" W.), and within 2 miles each side of the Jefferson City VOR 308° radial, extending from the 5-mile-radius zone to 8 miles northwest of the VOR, and within 2.5 miles each side of the 118° bearing from the Jefferson City RBN facility (latitude 38°33'20" N., longitude 92°04'40" W.) and 2.5 miles each side of the 124° bearing from the Jefferson City RBN, extending from the 5-mile-radius zone to 16 miles southeast of the VOR. This control zone shall be effective during the times established by Notice to Airmen and continuously published in the Airman's Information Manual.

2. In § 71.181 (37 F.R. 2143), the following transition area is amended to read:

JEFFERSON CITY, MO.

That airspace extending upward from 700 feet above the surface within an 8-mile radius of the Jefferson City Memorial Airport (latitude 38°35'33" N., longitude 92°09'39" W.) and within 3.5 miles either side of the 118° bearing from the Jefferson City RBN facility (latitude 38°33'20" N., longitude 92°-04'40" W.) and 3.5 miles each side of the 124° bearing from the Jefferson City RBN, extending from the 8-mile-radius zone to 17.5 miles southeast of the VOR.

These amendments are proposed under the authority of section 307(a) of the Federal Aviation Act of 1958 (49 U.S.C. 1348), and of section 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).

Issued in Kansas City, Mo., on March 23, 1972.

JOHN M. CYROCKI,
Director, Central Region.

[FR Doc.72-5811 Filed 4-17-72;8:46 am]

[14 CFR Part 71]

[Airspace Docket No. 72-SW-9]

TRANSITION AREA

Proposed Alteration

On February 18, 1972, a notice of proposed rule making was published in the FEDERAL REGISTER (37 F.R. 3645) stating the Federal Aviation Administration proposed to alter the Johnson City, Tex., 700-foot transition area.

Subsequent to publication of the notice of proposed rule making (Airspace Docket No. 72-SW-9), it was found that the Johnson City 700-foot transition area, as depicted on the latest issuance (January 6, 1972) of the San Antonio Sectional Aeronautical Chart, had been charted incorrectly. The portion of this sectional chart, which was provided as an attachment to Airspace Docket No. 72-SW-9, depicted the 700-foot Johnson City transition area as a 7-mile-radius area of the Johnson City Airport having a 4-mile southerly extension. This incorrect depiction was an apparent oversight since, on July 22, 1971, an amended Johnson City 700-foot transition area became effective. This amended Johnson City transition area (Airspace Docket No. 70-SW-57) described the transition area as an area extending upward from 700 feet above the surface within a 7-mile radius of the Johnson City Airport and within 4.5 miles west and 9.5 miles east of the 175° and 355° bearings from the Johnson City RBN extending from 18.5 miles south to 10 miles north of the RBN. Attachment No. 1 to the supplementary notice indicates the correct configuration of the current Johnson City transition area. Also indicated is the incorrect transition area which is currently depicted on the latest issuance of the San Antonio Sectional Chart.

In response to the initial Airspace Docket No. 72-SW-9, several written responses were received, all favorable; however, a review of the instrument approach procedures was made to determine if the significant increase in airspace was necessary to accommodate the approach procedure for Johnson City Airport and for the Shepherd Farm Airport.

It was found that only Category A aircraft (stall speed in a landing configuration less than 91 knots and aircraft weight less than 30,001 pounds) will utilize the Shepherd Farm Airport. This fact will permit the reduction of the procedure turn area from 10 miles to 5 miles and could therefore reduce the need for a 10.5-mile radius on the east as was indicated in the notice.

It was also found that the approach procedure for Johnson City Airport could be altered by using 4,000 feet rather than 3,000 as the procedure turn altitude. This would place the approaching aircraft within the 1,200-foot transition area. The southerly extension could therefore be reduced by 3.5 miles.

A 5-mile-radius area of the Shepherd Farm Airport would be added to the transition area. Although this would enlarge the transition area to the southwest, it would also obviate the need for an increase from a 7-mile radius to a 10.5-mile radius as was initially proposed. This change back to a 7-mile-radius area, while still affording airspace necessary to accommodate the two approach procedures, will permit a substantial reduction in the extent of controlled airspace as was previously proposed.

Attachment No. 2 of this supplementary notice indicates the extent of airspace initially proposed having a 10.5-mile radius (hatched lines) and also the reduced 700-foot transition area which is now being proposed for the Johnson City area.

V 37-75 APR 18 72 XUM

In consideration of the foregoing, it is the intent of this supplemental notice to amend Part 71 of the Federal Aviation Regulations as hereinafter set forth:

In § 71.181 (37 F.R. 2143), the Johnson City transition area is amended to read:

JOHNSON CITY, TEX.

That airspace extending upward from 700 feet above the surface within a 7-mile radius of Johnson City Airport (latitude 30°15'05'' N., longitude 98°37'21'' W.); within a 5-mile radius of Shepherd Farm Airport (latitude 30°12'30'' N., longitude 98°43'20'' W.) and within 2.5 miles each side of the 175° bearing from the Johnson City RBN (latitude 30°-12'32'' N., longitude 98°37'05'' W.) extending from the 7-mile-radius area to 8 miles south of the RBN.

Interested persons may submit such written data, views, or arguments as they may desire. Communications should be submitted in triplicate to Chief, Airspace and Procedures Branch, Southwest Region, Federal Aviation Administration, Post Office Box 1689, Fort Worth, TX 76101. All communications received within 30 days after publication of this notice in the FEDERAL REGISTER will be considered before action is taken on the proposed amendment. No public hearing is contemplated at this time, but arrangements for informal conferences with Federal Aviation Administration officials may be made by contacting the Chief, Airspace and Procedures Branch. Any data, views, or arguments presented during such conferences must also be submitted in writing in accordance with this notice in order to become part of the record for consideration. The proposal contained in this notice may be changed in the light of comments received.

The official docket will be available for examination by interested persons at the Office of the Regional Counsel, Southwest Region, Federal Aviation Administration, Forth Worth, Tex. An informal docket will also be available for examination at the Office of the Chief, Airspace and Procedures Branch.

This amendment is proposed under the authority of section 307(a) of the Federal Aviation Act of 1958 (49 U.S.C. 1348) and of section 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).

Issued in Fort Worth, Tex., on April 6, 1972.

R. V. REYNOLDS,
Acting Director, Southwest Region.

[FR Doc.72-5812 Filed 4-17-72;8:46 am]

[14 CFR Part 71]

[Airspace Docket No. 72-CE-6]

TRANSITION AREA

Proposed Alteration

The Federal Aviation Administration is considering amending Part 71 of the Federal Aviation Regulations so as to alter the transition area at Kirksville, Mo.

Interested persons may participate in the proposed rule making by submitting such written data, views, or arguments as they may desire. Communications should be submitted in triplicate to the Director, Central Region, Attention: Chief, Air Traffic Division, Federal Aviation Administration, Federal Building, 601 East 12th Street, Kansas City, MO 64106. All communications received within 45 days after publication of this notice in the FEDERAL REGISTER will be considered before action is taken on the proposed amendment. No public hearing is contemplated at this time, but arrangements for informal conferences with Federal Aviation Administration officials may be made by contacting the Regional Air Traffic Division Chief. Any data, views, or arguments presented during such conferences must also be submitted in writing in accordance with this notice in order to become part of the record for consideration. The proposal contained in this notice may be changed in the light of comments received.

A public docket will be available for examination by interested persons in the Office of the Regional Counsel, Federal Aviation Administration, Federal Building, 601 East 12th Street, Kansas City, MO 64106.

A VOR/DME instrument approach is being established for the Clarence Cannon Memorial Airport, Kirksville, Mo. Accordingly, it is necessary to alter the Kirksville, Mo., transition area in order to provide adequate airspace protection for aircraft executing these new instrument approaches.

In consideration of the foregoing, the Federal Aviation Administration proposes to amend Part 71 of the Federal Aviation Regulations as hereinafter set forth:

In § 71.181 (37 F.R. 2143), the following transition area is amended to read:

KIRKSVILLE, MO.

That airspace extending upward from 700 feet above the surface within a 6½-mile radius of Clarence Cannon Memorial Airport (latitude 40°05'45'' N., longitude 92°32'50'' W.); within 3 miles each side of the Kirksville VORTAC 316° radial, extending from the 6½-mile-radius area to 8 miles northwest of the VORTAC; and within 5 miles each side of the 360° bearing from Clarence Cannon Memorial Airport, extending from the 6½-mile-radius area to 11½ miles north of the airport; and that airspace extending upwards from 1,200 feet above the surface within a 21-mile radius of the Kirksville, Mo., VORTAC and 9.5 miles northeast and 4.5 miles southwest of the 135° radial of the Kirksville, Mo., VORTAC extending from 21 miles to 29 miles.

This amendment is proposed under the authority of section 307(a) of the Federal Aviation Act of 1958 (49 U.S.C. 1655(c)).

Issued in Kansas City, Mo., on March 24, 1972.

JOHN M. CYROCKI,
Director, Central Region.

[FR Doc.72-5809 Filed 4-17-72;8:46 am]

[14 CFR Part 71]

[Airspace Docket No. 72-WE-16]

CONTROL ZONE

Proposed Alteration

The Federal Aviation Administration is considering an amendment to Part 71 of the Federal Aviation Regulations that would alter the description of the Torrance, Calif., control zone.

Interested persons may participate in the proposed rule making by submitting such written data, views, or arguments as they may desire. Communications should be submitted in triplicate to the Chief, Airspace and Procedures Branch, Federal Aviation Administration, 5651 West Manchester Boulevard, Post Office Box 92007, Worldway Postal Center, Los Angeles, CA 90009. All communications received within 30 days after publication of this notice in the FEDERAL REGISTER will be considered before action is taken on the proposed amendment. No public hearing is contemplated at this time, but arrangements for informal conferences with Federal Aviation Administration officials may be made by contacting the Regional Air Traffic Division Chief. Any data, views, or arguments presented during such conferences must also be submitted in writing in accordance with this notice in order to become part of the record for consideration. The proposal contained in this notice may be changed in the light of comments received.

A public docket will be available for examination by interested persons in the office of the Regional Counsel, Federal Aviation Administration, 5651 West Manchester Blvd., Los Angeles, CA 90045.

On or about July 20, 1972, a localizer course to serve Runway 29R at Torrance Municipal Airport, Torrance, Calif., will be commissioned. The localizer will be alined 293° M (308° T) and an instrument approach procedure will be published coincidental with the commissioning date of the facility. In order to provide controlled airspace protection for aircraft executing the prescribed instrument approach procedure while operating below 1,000 feet above the surface, a small control zone extension will be required.

In consideration of the foregoing, the FAA proposes the following airspace action.

In § 71.171 (37 F.R. 2056) the description of the Torrance, Calif., control zone is amended to read as follows:

TORRANCE, CALIF.

Within a 3-mile radius of Torrance Municipal Airport (latitude 33°48'10'' N., longitude 118°20'20'' W.), within 2 miles each side of the Los Angeles VORTAC 150° radial, extending from the 3-mile-radius zone to 7 miles southeast of the VORTAC, and within 1 mile each side of the Torrance localizer course extending from the 3-mile-radius zone to 5 miles southeast of the lift-off end of Runway 11L. This control zone shall be effective during the specific dates and times established in advance by a Notice to Airmen. The effective date and time will thereafter be continuously published in the Airman's Information Manual.

This amendment is proposed under the authority of section 307(a) of the Federal Aviation Act of 1958, as amended (49 U.S.C. 1348(a)), and of section 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).

Issued in Los Angeles, Calif., on April 6, 1972.

ROBERT O. BLANCHARD,
Acting Director, Western Region.

[FR Doc.72-5813 Filed 4-17-72;8:46 am]

[14 CFR Parts 71, 73]

[Airspace Docket No. 71-AL-25]

RESTRICTED AREA AND CONTINENTAL CONTROL AREA

Proposed Designation and Alteration

The Federal Aviation Administration (FAA) is considering amendments to Parts 71 and 73 of the Federal Aviation Regulations that would designate a new joint-use restricted area near Blair Lakes, Alaska, and include it in the continental control area.

Interested persons may participate in the proposed rule making by submitting such written data, views, or arguments as they may desire. Communications should identify the airspace docket number and be submitted in triplicate to the Director, Alaskan Region, Attention: Chief, Air Traffic Division, Federal Aviation Administration, 632 Sixth Avenue, Anchorage, AK 99501. All communications received within 30 days after publication of this notice in the FEDERAL REGISTER will be considered before action is taken on the proposed amendments. The proposals contained in this notice may be changed in the light of comments received.

An official document will be available for examination by interested persons at the Federal Aviation Administration, Office of the General Counsel, Attention: Rules Docket, 800 Independence Avenue SW., Washington, DC 20591. An informal docket also will be available for examination at the office of the Regional Air Traffic Division Chief.

The Department of the Air Force has requested the designation of a joint-use restricted area near Blair Lakes, Alaska, extending from the surface to FL 220 north of an E/W line at latitude 64°20'00'' N., and 1,000 feet AGL to FL 220 south of this line. The purpose of the restricted area is to provide an area for tactical aircraft engaged in the delivery of air-to-ground training ordnance.

The shared use of Restricted Area R-2202 has been attempted and found unsuitable by the Air Force. This was due to U.S. Army priorities which have precluded the extensive range utilization required by the Alaskan Air Command.

In consideration of the foregoing, the Federal Aviation Administration proposes the airspace actions as hereinafter set forth.

1. The Blair Lakes, Alaska, restricted area would be designated as follows:

Boundaries.—Beginning at latitude 64°33'-00'' N., longitude 147°45'00'' W.; to latitude 64°04'00'' N., longitude 146°49'00'' W.; thence along the east bank of the Little Delta River to latitude 63°50'50'' N., longitude 146°47'30'' W.; to latitude 63°56'00'' N., longitude 147°02'00'' W.; to latitude 64°-25'00'' N., longitude 147°58'00'' W.; to latitude 64°29'32'' N., longitude 147°54'45'' W.; to point of beginning (see chart).

Time of designation.—0730 to 1730 local time Monday through Friday, other times by NOTAM issued at least 24 hours in advance.

Designated altitudes.—Within the boundaries of the proposed restricted area as follows:

A. North of an E/W line at latitude 64°-20'00'' N., surface to FL 220.

B. South of an E/W line at latitude 64°-20'00'' N., 1,000 feet AGL to FL 220.

Controlling agency.—Federal Aviation Administration, Elelson RAPCON.

Using agency.—Alaskan Air Command.

2. The description of the continental control area would be altered to include the Blair Lakes, Alaska, restricted area.

These amendments are proposed under the authority of section 307(a) of the Federal Aviation Act of 1958 (49 U.S.C. 1348(a)) and section 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).

Issued in Washington, D.C., on April 12, 1972.

H. B. HELSTROM,
Chief, Airspace and Air Traffic Rules Division.

[FR Doc.72-5808 Filed 4-17-72;8:46 am]

FEDERAL COMMUNICATIONS COMMISSION

[47 CFR Part 91]

[Docket No. 13930; FCC 72-312]

BUSINESS RADIO SERVICE

Availability of Certain "Tertiary" Channels

Order. In the matter of amendment of § 91.554(a) of Part 91 (formerly § 11.554 (a) of Part 11), Subpart L, of the Commission's rules governing the Business Radio Service whereby certain "tertiary" channels in the 151-155 MHz band will be made available on a regular basis, Docket No. 13930.

1. On its own initiative, the Commission issued a notice of proposed rule making on February 6, 1961, asking for comments relative to making 13 new "tertiary" or 15 kHz channels available in the 150 MHz band in the Business Radio Service. The notice was published in the FEDERAL REGISTER on February 10, 1961 (FCC 61-132; 26 F.R. 1191).

2. Since the Commission issued its proposal in this proceeding, rules have been adopted in Docket No. 17703 (FCC 71-606; 36 F.R. 12102) concerning the use of tertiary frequencies in the 150-162 MHz band under Parts 89, 91, and 93 of the rules. In the proceeding, the Commission concluded that operation in the 150 MHz band with 15 kHz spacing is possible if the stations on the adjacent channels are geographically separated. Rules adopted in the proceeding made tertiary frequencies available in radio services with frequency coordination. A minimum geographical separation of 10 miles between base stations was required for Part 91.

3. The basis for the final rules in Docket No. 17703 is relevant to disposal of the Commission's proposal in this proceeding. While several parties filing comments in Docket No. 13930 did favor adoption of our proposed rules without change, the comments generally indicated that implementation of 15 kHz tertiary channels on a same area basis requires suitable geographical separation. Under the Commission's proposal there was no requirement for frequency coordination or any arrangement to maintain geographical separation between base stations operating on 15 kHz adjacencies.

4. We have decided to withdraw our proposals in this proceeding for several reasons. Our action in Docket No. 17703 established the need for geographical separation of stations operating on frequencies separated by 15 kHz and specified minimum distances in the interest of controlling interference. We have concluded that in an uncoordinated and highly shared radio service, such as the Business Radio Service at 150 MHz, the geographical spacing needed to permit use of 15 kHz spaced assignments with equipment standards based on 30 kHz spacing, would be extremely difficult to maintain. The frequency records of the Commission are not, at this time, intended to provide the current data that would be needed for case-by-case review of applications for 15 kHz assignments. Further, allocation of the proposed tertiary frequencies with a geographical spacing limitation would be of questionable usefulness. The great number of existing stations in urban areas on adjacent frequencies would be expected in most cases to preclude the availability of the tertiary frequencies in the areas where they are most needed.

5. In view of the considerations and limitations related above and pursuant to the authority contained in section 4(i) and 303 of the Communications Act of 1934, as amended: *It is ordered*, That the proposal made by the Commission in Docket No. 13930 is withdrawn and the proceeding in the docket is hereby terminated.

Adopted: April 5, 1972.

Released: April 11, 1972.

FEDERAL COMMUNICATIONS COMMISSION,[1]
[SEAL] BEN F. WAPLE,
Secretary.

V 37-75 APR 18 72 XUM

FEDERAL POWER COMMISSION

[18 CFR Ch. I]

[Docket No. R-438]

DEVELOPMENT OF FULLY AUTOMATED COMPUTER REGULATORY INFORMATION SYSTEM

Notice of Proposed Rule Making

APRIL 13, 1972.

The Federal Power Commission hereby gives notice pursuant to the provisions of the Administrative Procedure Act, 5 U.S.C. 553, that the Commission will undertake a series of rule making actions in the above entitled matter for the purpose of developing a fully automated computer regulatory information system. The fully automated information system will be prescribed in aid of the Commission's duties and responsibilities arising inter alia under the provisions of the Federal Power Act, 16 U.S.C. 791a et seq., and the Natural Gas Act, 15 U.S.C. 717 et seq.

The actions proposed to be taken will be phased. Generally speaking, the various Federal Power Commission reporting procedures and report forms will be adapted to computer regulatory format with accounting and other data gathering requirements to follow. Transitional periods will be used wherein existing and proposed computer reporting techniques will be observed, and thereafter, existing processes would be eliminated.

This notice is intended to initiate this overall change. The following portions of this notice describe the new reporting arrangement, the computer concepts involved, the reasons for the proposed change, the anticipated results and uses thereof. Attached appendix A lists the various existing Federal Power Commission "Approved Forms" which will be affected.[1] However, it should be noted that before any existing form or data reporting requirement is changed, the Commission proposes to give appropriate further public notice. This notice is intended to solicit comments upon the overall arrangement and thereby to provide a basis for further implementing actions. Accordingly, the Commission now advises that it proposes to:

1. Establish and operate a centralized electronic information data bank of all Federal Power Commission regulatory and administrative information.
2. Restructure the current methods of reporting data to the Commission by using Electronic Data Processing (EDP) technology.
3. Develop the Commission's regulatory computer applications (programs) utilizing the centralized data bank.
4. Apply to Commission operations the latest technology of computers, terminals, and data communications.
5. Issue Agency EDP standards related to respondent's submission of data.

[1] See 18 CFR 3.142, 3.170. Appendix A is filed as part of the original document.

The system will permit the Commission and its staff access to process data via terminals or other devices for the express purpose of regulation as provided in the Federal Power Act, 16 U.S.C. 791a, the Natural Gas Act, 15 U.S.C. 717 et seq., the National Environmental Policy Act of 1969, 42 U.S.C. 4321, and all other applicable laws and requirements.

Outline of the general plan. The major features of the fully automated computer regulatory information system plan include the following. The Commission proposes establishing and operating a centralized, electronic information data bank of all Federal Power Commission regulatory and administrative information. The Commission, having concluded that a central electronic data bank will best serve its needs, presently envisions that the bank will contain six major data files. These are:

1. *Corporate and economic information file.* This file will include, but not be limited to, data concerning balance sheet entries, summaries of utility plant and accumulated depreciation, income statements, retained earnings, source and application of funds, principal officers and points of contact, and corporate structure. In addition, this file will be structured to contain general economic and industry data which affects the regulated industries.

2. *Electric operating information file.* This file will consist of data concerning electric generating plant details, electric sales and purchases, high voltage transmission, and substation capabilities and costs, projected facility construction, existing as well as proposed pooling relationships, and related technical data.

3. *The gas operating information file.* This section of the data bank will include details on producer and transmission natural gas plant facilities, sales, purchases, contracts, reservoirs, reserves, underground storage, and other technical considerations of significance.

4. *Environmental information file.* This file will include data on current and proposed operations relating to fuel, air and water quality, plant-related recreational facilities, existing as well as projected operations of the electric power and natural gas industries with regard to the implementation of environmental requirements.

5. *The legal information data file.* This file will contain information relating to cases and dockets stemming from Commission activities, e.g., proposed projects, certification, rates, licensing, and status of current cases.

6. *Internal administrative information file.* This file will consist of data required within the Commission to support its own operations and will include data concerning personnel, payroll, projects status, and other miscellaneous data.

The establishment of this central data bank will include the conversion of existing data at the Commission so that all data can be accessed by a computer software system (data management system). The objectives of the central electronic data bank design will be:

1. To further eliminate duplication in information now collected;
2. To provide the speed of access which is required by public interest priorities and available through full computer technology;
3. To facilitate further evaluation and analysis of all data;
4. To facilitate reduction of the quantity of existing manual files; and
5. To accommodate the development of new regulatory techniques.

In developing regulatory computer applications utilizing the centralized data bank, the staff of the Commission will utilize one central information system and unified data files for the development of computer applications. Early planning of new staff projects and assignments will include the use of this central information system for implementation of the tasks. All regulatory activities will be evaluated under a continuing management program to allow computer processing of data and information retrieval. The resulting computer applications will be integrated into the general EDP management plan of the Commission.

In applying the latest technology of computers, terminals and data communications to Commission operations, the Commission plans to install the necessary terminals and communication devices in each of its organizational entities to facilitate the use of the central data bank. The installation of this equipment will be in accordance with the Commission's EDP management plan and under the direction of the Commission's EDP unit. The EDP unit will be the focal point of new computer applications within the Commission as well as maintaining state-of-the-art knowledge of computers, terminals, communications, and software as applicable to regulatory functions.

The Commission contemplates the issuance of FPC agency EDP standards. It is proposed that this will be in accordance with the requirements of Public Law 89-306 and Office of Management and Budget (OMB) Circular No. A-86, and other Federal standards. The Commission intends to issue references to Federal EDP standards and to promulgate FPC agency standards consisting of data elements and codes for respondent use when submitting data to the Commission.

Transitional arrangements. This program is to prepare for specific implementation of this plan and give all affected persons an opportunity to develop a course of action designed to comply with such action. The Commission directs attention to Appendix A hereto and the listed "Approved Forms" under the Federal Power and Natural Gas Acts. It is contemplated that a parallel reporting procedure will be used during transitional periods. The first format will continue to be as defined in the existing rules and regulations of the Commission, the second will be in electronic data processing compatible format based on data elements and as shown below under General Background, or as

defined in rulemakings currently under consideration by the Commission. Detailed formats with reporting schedules will also be proposed and made available through additional rulemaking actions.

It is anticipated that the parallel reporting mentioned above will not exceed 2 years. It is further anticipated that the Commission will issue proposed rulemakings with EDP formats and reporting schedules within 6 months of the issuance of this proposed rulemaking.

In restructuring the current methods of reporting data to the Commission by using EDP technology, the Commission contemplates the ultimate elimination of all existing "hard-copy" public use forms with appropriate exception when EDP submission is impractical. Reporting of public use form information will be replaced by the submission of individual data elements within a general data element and code scheme which will be compatible with EDP media and data communications technology. It is anticipated that this major systems revision will have as a result the reduction of the total number of data items currently transmitted to the Commission by the respondents. This proposed rulemaking does not affect any other rules or rulemakings regarding the submission of data in EDP format.

In recognizing that those utilities reporting data to the Commission also report similar data to State or other governmental agencies, the Commission will coordinate this plan with the appropriate State and other governmental agencies.

Although the public use forms will no longer be maintained in the Office of Public Information, the same data will be available on high speed microfilm readers located in OPI. It is envisioned that this will have the effect of making specific information available rapidly. Hard copy printout will also be available.

General background. Important developments in the electric and gas industry, coupled with the technological advances in the state-of-the-art of computers and communications since the installation in 1964 of the Commission's computer facility, support the need for the rule now being proposed.

In 1962, the Commission established a data processing program to meet pressing needs related to area rate regulation, natural gas reserves, costs, electric power and natural gas publications. From the beginning, this program emphasized support of regulatory activities (in contrast to internal administrative procedures) and it is planned to continue this fundamental policy as delineated in this proposed rulemaking.

During the intervening years, the Commission has expanded its computer program to accommodate a large increase in the volume of data, changes in regulatory requirements and data interchange with other governmental agencies. Simultaneously, there has been a technological revolution in the general use of computers and communications by electric power and natural gas companies, as well as Government agencies.

In general, the two industries have been making greater and more extensive use of electronic data processing. The utility industry, in particular, has been one of the more sophisticated users of electronic data processing. Some of the more common processing programs include: Automated customer service centers, load studies, tower design, automatic load dispatching, microwave communications, mathematical and financial company models, and work scheduling.

The availability of solid-state hardware and improved software combined with the initiative of utility companies has extended the use of Electronic Data Processing into sales analysis, demand forecasting, stores inventory, engineering and production control. In addition, in recent years utilities have placed great emphasis on new areas of computer application such as: Resource optimization, transformer loading programs, and power plant control.

Computers have been used by the Commission on a project-by-project and case-by-case approach to support substantial regulatory areas, such as natural gas reserves, electric power studies, pipeline design, rate analysis, etc. These initial efforts were directed at replacing and supplementing, in part, existing manual processes at the Commission.

In addition to a significant growth of the existing systems, there have been extensive new technological developments in the computer field including data management systems, operating systems, information retrieval, engineering and simulation software. The Commission, being fully aware of these developments, recognizes that they must be applied to regulatory activities in the public interest.

Another significant innovation in regulation has been a shift from annual or short-range studies to more comprehensive trend studies embracing many years of past data and projections of future events.

Concomitant with the technological computer revolution, the Commission recognizes that new national priorities relating to energy resources are coming to the foreground necessitating the collection of large amounts of new data. Regulatory responsiveness in these new areas has become a major concern. For example, natural gas supply reserves require extensive reservoir data; electric power system reliability has become increasingly important and requires future projection of generating capacity; and environmental considerations continue to have a significant role in proceedings before the Commission.

The increased consumption of energy throughout the Nation and the dependence of consumers on an uninterrupted flow of electric power and natural gas demand that the Commission have rapid access to all relevant data. The Commission has concluded that it must have at its disposal the most advanced computer system practicable in order to discharge its duties and responsibilities.

The data which is essential for the Commission's activities originate from several sources. These include, but are not limited to, numerous public use forms, thousands of filings and applications annually from industry, response to specific Commission orders and data received from other Federal agencies or governmental bodies. As a consequence, the volume of data collected and processed each year is extremely large, resulting in millions of data items processed by the staff. Much of this information is operating information about the utilities (i.e., statistical and technical information). Segments of these data will continue to be interchanged or made available to other Federal agencies and interested parties in computer media for their own use.

This program, as contemplated by the Commission, provides a common data base and a new data element and data code concept. The concept evolved, is a standard data vocabulary with each data word, called a "data element," having a single unique definition and abbreviation; a homogeneous list of subunits or values called "data items"; logical coding structures or codes; and "use identifiers" for reference purposes.

This Data Element and Code standardization program provides the basis for the centralized data bank prescribed herein. The following illustrations examine more specifically what the components of the standard data vocabulary mean:

"Data items" are defined as "the smallest meaningful pieces or subunits or information appearing in a reporting or data system and which cannot be further subdivided and retain significant meaning." Examples are "red," "Texas," "311-10-2771," "male."

A "data element" is a unit of information or data class composed of a logical grouping of homogeneous pieces or subunits of information such that:

1. Each unit has a meaning in terms of "what it is" different from any other unit of information.
2. The individual subunits (data items) in such groupings are mutually exclusive.
3. In most cases, the data items of each group are exclusive to that unit of information.

When two like data items are grouped together, such as "New York," "Akron," and a group heading put over them that describes what the group of data items are, in this case "city," a logical grouping of homogeneous pieces or subunits of information or a "data element" has been established. Another example is the group of like data items, "Australia, Brazil, and France," grouped under "country."

A "data code" is a letter, a number, or a combination of alphanumeric characters, used to represent data items in facilitating machine processing.

A "data use identifier" (DUI) is the name given to a descriptive modification of a basic data element, reflecting a specific use of or reference to it, within a data system. A DUI may be the name of a field on a card or tape or column on a report form or format. It is the

V 37-75 APR 18 72 XUM

name given to the data element within the system design.

"Data chains" are any combination of two or more data elements or date use identifiers.

Exhibit 1 is an example of data elements with numeric values and Exhibit 2 shows the relationship of the unique data element to its origin. Specifically, in Exhibit 2 the column headings have the following meanings:

Form ID: The identification of the FPC form number in which the data element is to be found.

Category: Identification of the broad classification of subject matters with which the data element is associated.
- A—Accounting.
- T—Technical.
- E—Environmental.
- G—General.

Size: The physical size of the data element, i.e., the maximum number of characters to be allocated, e.g., 012—12 spaces will be used to represent the data element.

Type: Type of data to be shown in association with the data element.
- A—alphabetic.
- N—numeric.
- AN—alphanumeric.

Class: Classification of data associated with the elements to facilitate processing.
- N—nonvariable.
- V—variable.
- S—subtotal.
- T—total.
- C—computable.

Account No.: The Uniform System of Accounts identifier associated with the data element.

In summary, the Commission finds that the time is appropriate to promulgate the aforesaid outline of the plan for the automation of regulatory and administrative information used by the Commission. The policies herein established will guide the staff of the Commission and the regulated utilities concerning the objectives and level of automation.

Any interested party may submit to the Federal Power Commission, Washington, D.C. 20426, not later than May 16, 1972, data, views, comments, or suggestions, in writing, concerning all or part of the subject matter and actions proposed herein. An original and 14 conformed copies should be filed with the Secretary of the Commission. Written submittals will be placed in the Commission's public files and will be available for public inspection at the Commission's Office of Public Information, Washington, D.C. 20426, during regular business hours. Submittals to the Commission should indicate the name, title, mailing address, and telephone number of the person to whom communications concerning the proposal should be addressed, and whether the person filing them requests a conference with the staff of the Federal Power Commission to discuss the proposed amendments. The staff, in its discretion, may grant or deny requests for conference. The Commission will consider all such written submittals and any conference submissions before taking further action on the matters herein proposed.

The Secretary shall cause prompt publication of this notice to be made in the FEDERAL REGISTER.

By direction of the Commission.

KENNETH F. PLUMB,
Secretary.

[FR Doc.72-5806 Filed 4-14-72;8:49 am]

[18 CFR Part 154]

[Docket No. R-312]

PRICE LEVELS BELOW WHICH REFUNDS WILL NOT BE ORDERED, INDEPENDENT PRODUCERS

Order Terminating Proposed Rulemaking Proceeding

APRIL 10, 1972.

The Commission has under consideration here a proposal to amend § 154.102 of its regulations under the Natural Gas Act to provide a "floor" for refund obligations of independent producers, whose increased rates are being collected subject to refund in rate proceedings under section 4(e) of the Natural Gas Act, by setting price levels below which refunds would not be ordered in the various pricing areas other than the Permian Basin Area. The proposed rule was intended as an interim measure applicable only to the period prior to the determination of just and reasonable rates in each area.

The notice of proposed rule making was issued on December 14, 1966 (31 F.R. 16279, December 20, 1966). In response to such notice, comments were received from a number of interested parties.

In light of the area just and reasonable rate determinations made by us in the Appalachian and Illinois Basin Areas, the Hugoton-Anadarko Area, the Texas Gulf Coast Area, the Southern Louisiana Area, and the Other Southwest Area, the proposal in Docket No. R-312, for the most part, is moot. We, therefore, believe it appropriate to terminate Docket No. R-312.

The Commission finds:

(1) The termination of the proposed rule making in Docket No. R-312 is appropriate and necessary for carrying out the provisions of the Natural Gas Act.

(2) For the reasons stated above, the notice, public procedure and effective date provisions of 5 U.S.C. section 553 do not apply.

The Commission, acting pursuant to the provisions of the Natural Gas Act, as amended, particularly section 16 (52 Stat. 830; 15 U.S.C. 717o), orders:

(A) Effective upon the issuance of this order, the proposed rule making in Docket No. R-312 is terminated.

(B) The Secretary shall cause prompt publication of this order to be made in the FEDERAL REGISTER.

By the Commission.

[SEAL] KENNETH F. PLUMB,
Secretary.

V 37-75 APR 18 72 XUM

Notices

DEPARTMENT OF THE TREASURY

Fiscal Service

[Dept. Circ. 570, 1971 Rev., Supp. No. 17]

QUEEN INSURANCE COMPANY OF AMERICA AND ROYAL GLOBE INSURANCE COMPANY

Termination as Surety on Federal Bonds and Acceptable Surety on Federal Bonds

Queen Insurance Company of America, New York, N.Y., which holds a certificate of authority as acceptable surety on Federal bonds (36 F.R. 12957, July 9, 1971), under sections 6 to 13 of the United States Code merged into Royal Globe Insurance Co., an Illinois corporation, effective December 31, 1971. The latter company is the surviving corporation. Confirmation of this action has been received and filed in the Treasury. Accordingly, the certificate of authority held by Queen Insurance Company of America is hereby terminated, effective December 31, 1971.

The surviving corporation has assumed the assets and liabilities of the merged corporation and has been issued a certificate of authority as an acceptable surety on Federal bonds, effective January 1, 1972 with an underwriting limitation of $5,608,000 as follows:

Name of company, location of principal executive office, and State in which incorporated:

Royal Globe Insurance Company
New York, New York
Illinois

In view of the foregoing, no action need be taken by bond-approving officers by reason of the merger of Queen Insurance Company of America with respect to any bond or other obligation in favor of the United States, or in which the United States has an interest, direct or indirect, issued prior to January 1, 1972, by Queen Insurance Company of America pursuant to its certificate of authority issued by the Treasury.

Certificates of authority expire on June 30 each year, unless sooner revoked, and new certificates are issued on July 1 so long as the companies remain qualified (31 CFR Part 223). A list of qualified companies is published annually as of July 1 in Department Circular 570, with details as to underwriting limitations, areas in which licensed to transact fidelity and surety business and other information. Copies of the circular, when issued, may be obtained from the Treasury Department, Bureau of Accounts, Audit Staff, Washington, D.C. 20226.

Dated: April 13, 1972.

[SEAL] JOHN K. CARLOCK,
Fiscal Assistant Secretary.

TYPE 14 TOBACCO IN GEORGIA AND FLORIDA

Extension of Closing Date for Filing of Applications for 1972 Crop Year

Pursuant to the authority contained in § 401.103 of Title 7 of the Code of Federal Regulations, the time for filing applications for tobacco crop insurance for the 1972 crop year on type 14 tobacco in all counties in Georgia and Florida where such insurance is otherwise authorized to be offered is hereby extended until the close of business on April 14, 1972. Such applications received during this period will be accepted only after it is determined that no adverse selectivity will result.

MOCAMBIQUE INDUSTRIAL S.A.R.L.

Order Terminating Indefinite Denial Order

In the matter of Mocambique Industrial S.A.R.L., Beria, Mozambique, respondent, File: 23(69)-14.

On November 17, 1969 (34 F.R. 18770), an order was entered against the above respondent denying it for an indefinite period, all privileges of participating in transactions involving commodities or technical data exported or to be exported from the United States. This order was issued in accordance with § 388.15 of the Export Control Regulations because respondent failed to answer interrogatories without showing good cause for such failure.

The respondent has now furnished essential information in answer to the interrogatories. Pursuant to said § 388.15 the amobe mentioned indefinite denial order of November 17, 1969, is hereby terminated.

Dated: April 11, 1972.

RAUER H. MEYER,
Director, Office of Export Control.

Office of Import Programs

FEDERAL BUREAU OF INVESTIGATION ET AL.

Notice of Consolidated Decision on Applications for Duty-Free Entry of Scientific Articles

The following is a consolidated decision on applications for duty-free entry of scientific articles pursuant to section 6(c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Public Law 89-651, 80 Stat. 897) and the regulations issued thereunder as amended (37 F.R. 3892 et seq.).

A copy of the record pertaining to each of the applications in this consolidated decision is available for public review during ordinary business hours of the Department of Commerce, at the Special Import Programs Division, Office of Import Programs, Department of Commerce, Washington, D.C.

Decision: Applications denied. Applicants have failed to establish that instruments or apparatus of equivalent scientific value to the foreign articles, for such purposes as the foreign articles are intended to be used, are not being manufactured in the United States.

Reasons: Section 701.8 of the regulations provides in pertinent part:

The applicant shall on or before the 20th day following the date of such notice, inform the Deputy Assistant Secretary whether it intends to resubmit another application for the same article for the same intended purposes to which the denied application relates. The applicant shall then resubmit the new application on or before the 90th day following the date of the notice of denial without prejudice to resubmission, unless an extension of time is granted by the Deputy Assistant Secretary in writing prior to the expiration of the 90-day period. * * * If the applicant fails, within the applicable time periods specified above, to either (a) inform the Deputy Assistant Secretary whether it intends to resubmit another application for the same article to which the denial without prejudice to resubmission relates, or (b) resubmit the new application, the prior denial without prejudice to resubmission shall have the effect of a final decision by the Deputy Assistant Secretary on the application within the context of § 701.11.

The meaning of the subsection is that should an applicant either fail to notify the Deputy Assistant Secretary of its intent to resubmit another application for the same article to which the denial without prejudice relates within the 20-day period, or fails to resubmit a new application within the 90-day period, the prior denial without prejudice to resubmission will have the effect of a final denial of the application.

None of the applicants to which this consolidated decision relates has satisfied the requirements set forth above, therefore, the prior denials without prejudice have the effect of a final decision denying their respective applications.

Section 701.8 further provides:

* * * the Deputy Assistant Secretary shall transmit a summary of the prior denial without prejudice to resubmission to the FEDERAL REGISTER for publication, to the Commissioner of Customs, and to the applicant.

Each of the prior denials without prejudice to resubmission to which this consolidated decision relates was based on the failure of the respective applicants to submit the required documentation, including a completely executed application form, in sufficient detail to allow the issue of "scientific equivalency" to be determined by the Deputy Assistant Secretary.

ATOMIC ENERGY COMMISSION

[Docket No. 50-346]

TOLEDO EDISON CO. AND CLEVELAND ELECTRIC ILLUMINATING CO.

Memorandum and Order and Notice of Hearing on Suspension of Construction Activity at Davis-Besse Nuclear Power Station

On April 7, 1972, the U.S. Court of Appeals for the District of Columbia Circuit rendered a decision remanding the record of a determination, made by the Director of Regulation in the above proceeding under 10 CFR Part 50, Appendix D, section E, for a hearing and further consideration. "Coalition for Safe Nuclear Power et al. v. U.S.A.E.C.," No. 71-1396. Noting that the utilities would commit substantial financial resources in proceeding with construction during the period pending completion of the review under the National Environmental Policy Act of 1969 (NEPA), the court stated that the Commission should consider certain additional matters in the context of balancing environmental harm and economic cost of abandonment. In this regard, the court stated:

> On remand, the Commission should consider in detail whether this additional irretrievable commitment of substantial resources might affect the eventual decision reached on the N.E.P.A. review. The degree to which this expenditure might affect the outcome of the final N.E.P.A. process should be a paramount consideration in the decision on suspension reached after the hearings on remand.

Accordingly, we hereby order a hearing before an Atomic Safety and Licensing Board (Licensing Board) named below, on the question whether the activities under the construction permit No. CPPR-80 for the Davis-Besse facility should be suspended pending completion of final NEPA review. We treat the submission of the Coalition for Safe Nuclear Power and Living in a Finer Environment to the Court of Appeals, together with the court's action thereon, as constituting a request for a hearing. The time and place for the hearing shall be published in the FEDERAL REGISTER by the Licensing Board. The matters to be considered in this hearing shall be the factors specified in 10 CFR Part 50, Appendix D, section E.2, together with the considerations specified in the court's remand.

The remand requires return of the record to the court on or before June 6, 1972. Hence, we direct that all matters be concluded with utmost expedition. For these purposes, the proceeding shall be conducted under the following requirements:

1. The hearing will be held before a Licensing Board composed of the following members: Dr. John Lyman, Dr. Emmeth A. Luebke, and Jerome Garfinkel, Esq., Chairman. Pursuant to 10 CFR 2.785(a)(1), the Commission hereby delegates to the Atomic Safety and Licensing Appeal Board (Appeal Board) the authority and the review function which would otherwise be exercised and performed by the Commission. The Appeal Board shall be composed of the following members: the chairman, the vice chairman, and Dr. Lawrence Quarles.

2. An answer shall be filed by the licensees within three (3) days of the date of publication of this notice following 10 CFR 2.705 to the extent appropriate. A reply to an answer may be filed within three (3) days after it is served.

3. The Licensing Board shall render its initial decision on or before May 19, 1972. In order to meet this schedule, the Licensing Board shall conduct the hearing as soon as possible.

4. The Licensing Board's initial decision shall constitute the final decision of the Commission unless exceptions are filed within five (5) days after its date of issuance or unless, within the same time period, the Appeal Board or Commission directs that the record be certified to it for final decision.

Insofar as this notice and the requirements specified herein reflect shortening of time periods otherwise prescribed in 10 CFR Part 2, we find good cause for such action under 10 CFR 2.711 and 10 CFR Part 50, Appendix D, section E.4(c). We further note that the authority of 10 CFR 2.711 also extends to the Licensing Board.

For purposes of this proceeding on the question whether activities under the construction permit should be suspended pending completion of the ongoing NEPA review, the parties shall be the licensees, the Regulatory Staff, and the Coalition for Safe Nuclear Power, and Living in a Finer Environment.

The Licensing Board shall render a de novo decision based upon the criteria in 10 CFR Part 50, Appendix D, section E.2, together with the above considerations specified in the court's remand. The burden of proof shall be upon the licensees.

Papers required to be filed in this proceeding may be filed by mail or telegram addressed to the Secretary of the Commission, U.S. Atomic Energy Commission, Washington, D.C. 20545, Attention: Chief, Public Proceedings Branch, or may be filed by delivery to the Commission's Public Document Room, 1717 H Street NW., Washington, DC.

Pending further order of the Board, parties are required to file, pursuant to the provisions of 10 CFR 2.708 of the Commission's rules of practice, an original and twenty (20) conformed copies of each such paper with the Commission.

A copy of the Director of Regulation's determination, and the accompanying staff discussion and findings, are available for inspection by members of the public in the Commission's Public Document Room, 1717 H Street NW., Washington, DC. Copies of those documents are also available at the Ida Rupp Public Library, Port Clinton, Ohio, between the hours of 10 a.m. and 8 p.m., Monday through Saturday.

Commissioner Johnson did not participate in this matter.

Dated at Germantown, Md., this 12th day of April 1972.

UNITED STATES ATOMIC ENERGY COMMISSION,
F. T. HOBBS,
Acting Secretary of the Commission.

[FR Doc.72-5797 Filed 4-17-72;8:47 am]

CIVIL AERONAUTICS BOARD

[Docket No. 24236; Order 72-4-51]

ALLEGHENY AIRLINES, INC.

Order Denying Application for an Order To Show Cause and Temporary Suspension, and Setting Application for Hearing

Adopted by the Civil Aeronautics Board at its office in Washington, D.C., on the 12th day of April 1972.

Allegheny Airlines, Inc. (Allegheny), has filed an application (Docket 24236) to (1) delete Marion, Ind., from its certificate of public convenience and necessity for route 97, and (2) redesignate Muncie-Anderson-New Castle, Ind., a point on segment 9, as Muncie-Marion-Anderson-New Castle, Ind. In addition, Allegheny has filed (1) a motion seeking issuance of an order to show cause why its certificate should not be amended as requested; (2) an application to suspend service temporarily at Marion, Ind., if necessary, until the Board acts upon its application in Docket 24236.[1]

In support of its application in Docket 24236, Allegheny alleges, inter alia, that Marion has not generated sufficient passenger traffic to warrant the continuation of air service;[2] Allegheny has tried unsuccessfully to find another air taxi to provide service; Marion is not isolated as there are four other airports serving the area;[3] a reinstitution of certificated service to Marion would generate a subsidy need increase of approximately $120,408 or $36 per passenger; and it would be economically wasteful to require Allegheny to reinstitute service at Marion on April 1, 1972, pending the disposition of its deletion application.

An answer in opposition to Allegheny's application has been filed by the city of Marion (Marion), which controverts the allegations of Allegheny and requests that a hearing be held to include the additional issue of whether Muncie, Anderson, and Kokomo should be served through the Marion Airport.

Upon consideration of the pleadings and all the relevant facts, we have decided to deny Allegheny's requests for a show cause order, temporary suspension, and to set for hearing Allegheny's application to delete Marion and redesignate Muncie-Anderson-New Castle as Muncie-Marion-Anderson-New Castle. The community opposes Allegheny's application and we believe that under all the circumstances it is appropriate to consider on an evidentiary record the conflicting contentions of the parties. We note that there is no other air taxi serving Marion and that should Allegheny's application be granted, Marion will be without air service for the first time since 1952.[4]

We will deny Marion's request that the hearing include the issue of whether Anderson, Muncie, and Kokomo should be served through the Marion Airport. The city has failed to submit any supporting data which suggests that the overall public interest would best be served by a transfer of service from the Muncie and Kokomo Airports to the airport at Marion.

Accordingly, it is ordered, That:

1. The motion of Allegheny Airlines, Inc., for an order to show cause, be and it hereby is denied;

2. The application of Allegheny Airlines, Inc., for a temporary suspension, be and it hereby is denied;

3. The application of Allegheny Airlines, Inc., be and it hereby is set for hearing at a time and place to be hereafter designated; and[5]

4. This order shall be served on the city of Marion; Airport Manager, Marion Airport; State of Indiana; the Indiana Aeronautics Commission; Allegheny Airlines, Inc.; and the Postmaster General.

This order shall be published in the FEDERAL REGISTER.

By the Civil Aeronautics Board.

[SEAL] HARRY J. ZINK,
Secretary.

[FR Doc.72-5856 Filed 4-17-72;8:51 am]

[1] By Order 69-11-8, dated Nov. 4, 1969, the Board temporarily suspended Allegheny's service at Marion, Ind., for a period of 5 years on the condition that a replacement air taxi operator provide at least two daily round trips between Marion and Chicago. Air Wisconsin, the air taxi presently providing the replacement service, has expressed its intention to cease its operations at Marion on Apr. 1, 1972.

[2] In 1970, Marion averaged 5.6 passengers per day each way and in 1971, 3.6 passengers each way or 1.8 each departure.

[3] In mileage and driving times from Marion the airports are as follows: Muncie is 35 miles and 45 minutes driving time, Kokomo is 23 miles and 28 minutes' driving time, Fort Wayne is 50 miles and 1 hour's driving time, Indianapolis is 66 miles and 1 hour and 19 minutes' driving time.

[4] 16 C.A.B. 886.

[5] The hearing shall determine whether the public convenience and necessity require that the certificate of Allegheny for route 97 should be altered, amended, or modified so as to (1) delete Marion, Ind. and/or (2) redesignate Muncie-Anderson-New Castle, Ind., as Muncie-Marion-Anderson-New Castle, Ind., to be served through the Muncie Airport.

[Docket No. 20291; Order 72-4-50]

INTERNATIONAL AIR TRANSPORT ASSOCIATION

Order Setting Matter for Oral Argument

Adopted by the Civil Aeronautics Board at its office in Washington, D.C., on the 11th day of April 1972.

By Order 72-1-7, January 4, 1972, the Board deferred action on certain amendments to section XII of the Provisions for the Regulation and Conduct of IATA Traffic Conferences (Agreement CAB 1175-A29) resulting from action of the IATA Executive Committee at its 82d meeting held in Honolulu, Hawaii, on November 19, 1971. Concurrently, the Board requested comments from U.S. member carriers of IATA and invited comments thereon from any interested persons.[1]

The proposed amendments provide that, whenever unanimity among Traffic Conference members is not attainable as to the ratification of rates, fares or related intercarrier agreements, partial or bilateral agreements may be effected subject to IATA Traffic Conference and compliance machinery. Heretofore, only those agreements which met the unanimity rule were subject to the Traffic Conference provisions. Furthermore, under existing IATA rules, the Provisions for the Regulation and Conduct of the Traffic Conferences may be amended by action of the IATA Executive Committee. Additionally, an explanatory memorandum submitted as an attachment to the amendments states that such action will not deprive anyone of present voting rights in the Traffic Conferences, nor will any member be asked or be expected to be bound to any partial agreement without his consent. The memorandum further specifies that emphasis still will be upon unanimity for Conference action but where that unanimity is not attainable and carriers otherwise would have to resort to bilateral agreements as the only alternative to chaos and confusion, the IATA Traffic Conference and Compliance machinery would be made available to formalize and enforce such partial agreements. Such procedure could be invoked only upon approval by the Director General of IATA.

Comments in response to the Board's order have been received from several U.S. member carriers of IATA,[2] Seaboard World Airlines, Inc., a non-IATA carrier, the National Air Carrier Association (NACA) on behalf of its members, and the Aviation Consumer Action Project (ACAP).

Five U.S. member carriers of IATA support the amendments to section XII[3] and four oppose them.[4]

Those carriers favoring the amendments to section XII submit, in summary, that (1) past Traffic Conferences have had limited success because the veto of one carrier has frequently prevented the industry from reaching an agreement on items that a great majority of carriers believed were in the best interests of the public; (2) such past, prolonged inability to achieve unanimity has been a frustrating and costly exercise for IATA member carriers; (3) the instant amendments would not weaken individual carrier rights nor could such changes jeopardize or deprive any one carrier of its present voting rights; and (4) no carrier would be bound by an agreement without his consent and that IATA Compliance and Enforcement machinery would only be used with respect to participating carriers.

Those carriers in opposition to the amendments to section XII state, in pertinent part, that (1) the amendments were adopted by the Executive Committee which has minority U.S. carrier representation; (2) the Executive Committee bypassed IATA membership which precluded member comments or votes; (3) the instant amendments destroy the unanimity rule which has been a keystone of IATA since its inception; and (4) IATA's submission contemplates rate and fare discussions and agreements among groups of carriers independent of IATA meetings; and that U.S. carriers would be precluded from such meetings by antitrust laws or, alternatively, they would be besieging the Board with requests for authority to participate in such discussions. Additionally, the carriers suggest that procedures should be made clear that such discussions and agreements by less than the full membership of a Conference would only occur in the course of regular IATA meetings. The carriers further remark that the unanimity rule has not led to inflated fare levels but has had the effect of reducing fares; the proposed amendments, according to the carriers, seem clearly designed to raise fares.

The carriers in opposition have also indicated that such majority actions might be adopted as government-decreed rates by the governments of one or more carrier parties to the agreement, which governments might, in turn, require nonparticipating carriers to abide by the agreement whether or not approved by the Board or in the public interest. Moreover, according to such carriers, majority carriers to an agreement might be

[1] The full text of the resolution was attached to Order 72-1-7.

[2] American Airlines, Inc., Braniff International Airways, Inc., Delta Air Lines, Inc., Eastern Air Lines, Inc., the Flying Tiger Line, Inc., National Airlines, Inc., Northwest Airlines, Inc., Pan American World Airways, Inc., Trans World Airlines, Inc., and United Air Lines, Inc.

[3] American Airlines, Inc., Eastern Air Lines, Inc., National Airlines, Inc., Pan American World Airways, Inc., and Trans World Airlines, Inc.

[4] Braniff International Airways, Inc., Delta Air Lines, Inc., the Flying Tiger Line Inc., and Northwest Airlines, Inc.

V 37 75 APR 18 72 XUM

precluded from joint routings/rates with carriers not party to the partial agreement if such majority carrier action were subject to Enforcement and Breaches Commission action. The carriers further state that such signatories to majority agreements could also apply economic pressure to minority carriers by excluding them from agreed-fare service combinations, thereby forcing them to join such agreements.

Seaboard World Airlines, Inc., proposed procedural safeguards for the processing and disposition of such agreements as may be submitted before the Board, i.e., prior Board approval of discussions, the monitoring of such discussions, service of the resultant agreement on all affected air carriers, and opportunity for public comment on and government approval of such agreements before their implementation.

NACA, on behalf of its members, asserts that nonagreeing carriers could be forced to join majority agreements by virtue of the actions of foreign government adopting such agreements and that the proposed amendment might deprive the Board of some of the limited influence it now possesses in areas of fares which may be considered unreasonable by U.S.-flag carriers and the Board itself. It has recommended that the Board should institute a hearing since information presented is insufficient to determine if the proposed amendments are adverse to the public interest.

ACAP has indicated its disapproval of the amendments to section XII and considers them adverse to the public interest. Furthermore, it states that the amendments will (1) reduce the effectiveness of the Board's regulation of IATA matters; (2) cause the Board to be faced with majority agreements U.S. carriers may be unwilling to accept; and (3) curtail freedom of individual airlines to take independent action. Moreover, according to ACAP, the unanimity rule has been a proven safeguard against fare increases by majority action. ACAP suggests that an investigation be instituted to explore possible changes of those rules.

On the basis of this record, we view the proposed amendments as raising issues of considerable significance, requiring further examination which we shall accomplish through the holding of oral argument.[5] Thus, questions have been raised whether the proposed changes would have a significant impact on the level of fares; whether they affect the Board's ability to pass effectively on IATA matters; and whether the instant proposal was appropriately effected through Executive Committee action rather than by the full membership. In addition, the present record lacks the necessary specifics on the extent to which Traffic Conference proceedings have been protracted because of the inability of the membership to arrive at unanimous accord; to what extent any resulting agreements will be considered "IATA agreements" for all purposes; whether the implementation of these limited agreements will require any further amendment of the Traffic Conference provisions; and what antitrust implications inhere in the proposal.

Accordingly, it is ordered, That:

1. CAB Agreement 1175–A29 be set for oral argument before the Board on June 1, 1972, in Room 1027, Universal Building, 1825 Connecticut Avenue NW., Washington, DC; and

2. All parties of record in this proceeding who desire to participate in such oral argument shall submit a request to the Chief Examiner in writing no later than 19 days prior to such oral argument; such notification may be accompanied by a memorandum of argument not to exceed twenty pages in length, which shall be served on each person named on page 2, paragraph 1, supra. The request shall indicate the time allotment desired. The parties will be notified at a later date as to the time to be allotted them.[6]

By the Civil Aeronautics Board.

[SEAL] HARRY J. ZINK,
Secretary.

[FR Doc.72-5857 Filed 4-17-72;8:51 am]

[5] It should be noted that the comments of interested persons were received before the enactment of Public Law 92-259, which substantially enhances the Board's jurisdiction over rates in foreign air transportation.

[6] The time the Board can devote to oral argument is necessarily limited, and joint presentations are encouraged for organizations or persons sharing a common position.

This order shall be published in the FEDERAL REGISTER.

FARM CREDIT ADMINISTRATION

[Farm Credit Administration Order 750]

DIRECTOR OF OPERATIONS AND FINANCE SERVICE

Authority Regarding Certain Functions

FEBRUARY 14, 1972.

Authority of the Director of Operations and Finance Service to approve mergers, consolidations, and amendments of charters, certificates of district to be served, and bylaws of Federal land bank associations and production credit associations.

Whereas, the Governor of the Farm Credit Administration is authorized by the Farm Credit Act of 1971 (Sections 1.13, 2.10, 5.18; 85 Stat. 587, 597, 621) to issue and amend or modify Federal charters and the bylaws of institutions of the Farm Credit System, approve mergers and consolidations of Federal land bank associations and of production credit associations, and consolidations or divisions of the territories they serve; and approve consolidations of boards of directors and of management agreements; and

Whereas, the Governor is authorized by said Act (Section 5.13; 85 Stat. 620) to exercise and perform his powers through such other officers and employees of the Farm Credit Administration as he shall designate;

Now, therefore, *It is hereby ordered,* Effective on the day and date above written, that the Director of Operations and Finance Service be and he hereby is authorized and empowered, with respect to Federal land bank associations and production credit associations, to (1) amend or modify charters; (2) amend or modify bylaws; (3) approve agreements of merger or consolidation; (4) approve consolidations or divisions of territories they serve; (5) approve consolidations of boards of directors; (6) approve management agreements.

E. A. JAENKE,
Governor,
Farm Credit Administration.

[Farm Credit Administration Order 751]

DEPUTY GOVERNOR AND DIRECTOR, CREDIT SERVICE, ET AL.

Authority To Act as Governor

APRIL 12, 1972.

Authority of officers of the Farm Credit Administration to act as Governor in the event that the Governor is absent or not able to perform the duties of his office for any other reason (revocation of FCA Order No. 744).

1. In the event that the Governor of the Farm Credit Administration is absent or is not able to perform the duties of his office for any other reason, the officer of the Farm Credit Administration who is the highest on the following list and who is available to act is hereby authorized to exercise and perform all functions, powers, authority, and duties pertaining to the office of Governor of the Farm Credit Administration:

(1) Deputy Governor and Director, Credit Service;
(2) Deputy Governor and Director, Operations and Finance Service;
(3) General Counsel;
(4) Chief Examiner;
(5) Director, Accounting, Budget and Data Management Division;
(6) Any other officer of the Farm Credit Administration designated by the Governor.

2. This order shall be effective on the above written date, and supersedes Farm Credit Administration Order No. 744, dated February 16, 1971 (36 F.R. 3282).

E. A. JAENKE,
Governor,
Farm Credit Administration.

[Farm Credit Administration Order 752]

ASSISTANT DIRECTOR, FIELD SERVICE, ET AL.

Order of Precedence To Act as Deputy Governor and Director of Credit Service

APRIL 12, 1972.

Authority of the Deputy Governor and Director of Credit Service and order of precedence of certain officers to act as Deputy Governor and Director of Credit Service [revocation of FCA Orders Nos. 748, 739, 733].

1. The Deputy Governor and Director of Credit Service shall, subject to the jurisdiction and control of the Governor of the Farm Credit Administration, execute and perform all power, authority, and duties relative to supervision of the credit function of the institutions of the Farm Credit System and to all matters incidental thereto, and to administration of all provisions of law pertinent to such supervision.

2. In the event the Deputy Governor and Director of Credit Service, Farm Credit Administration, is absent or is not able to perform the duties of his office for any other reason, the officer who is highest on the following list and who is available to act is hereby authorized to exercise and perform all functions, powers, authority, and duties pertaining to the office of Deputy Governor and Director of Credit Service:

(1) Assistant Director, Field Service;
(2) Assistant Director, Credit Supervision;
(3) Assistant to the Director.

3. This order shall be effective on the above written date and revokes Farm Credit Administration Orders No. 748, dated January 1, 1972 (37 F.R. 238); No. 739, dated November 12, 1970 (35 F.R. 17753); and No. 733, dated December 11, 1969 (34 F.R. 19830).

E. A. JAENKE,
Governor,
Farm Credit Administration.

[Farm Credit Administration Order 753]

ASSISTANT DIRECTOR OF OPERATIONS ET AL.

Order of Precedence To Act as Deputy Governor and Director of Operations and Finance Service

APRIL 12, 1972.

Authority of the Deputy Governor and Director of Operations and Finance Service and order of precedence of certain officers to act as Deputy Governor and Director of Operations and Finance Service.

1. The Deputy Governor and Director of Operations and Finance Service shall, subject to the jurisdiction and control of the Governor of the Farm Credit Administration, execute and perform all power, authority, and duties relative to supervision of the operations and finance function of the institutions of the Farm Credit System and to all matters incidental thereto, and to administration of all provisions of law pertinent to such supervision.

2. In the event the Deputy Governor and Director of Operations and Finance Service, Farm Credit Administration, is absent or is not able to perform the duties of his office for any other reason, the officer who is highest on the following list and who is available to act is hereby authorized to exercise and perform all functions, powers, authority, and duties pertaining to the office of Deputy Governor and Director of Operations and Finance Service:

(1) Assistant Director of Operations;
(2) Assistant Director of Finance;
(3) Assistant to the Director of Operations and Finance Service.

3. This order shall be effective on the above written date.

E. A. JAENKE,
Governor,
Farm Credit Administration.

[Farm Credit Administration Order 754]

SECRETARY TO THE GOVERNOR ET AL.

Authorization Regarding Documents and Official Records

Authorization of the Secretary to the Governor, Legal Clerical Assistant and Secretary to the General Counsel, and Secretary, to authenticate documents, certify official records, and affix seal.

1. Helen E. McWilliams, Secretary to the Governor, D. Elizabeth Frew, Legal Clerical Assistant and Secretary to the General Counsel, and Dorothy P. Smith, Secretary, severally and not jointly, are authorized and empowered:

(a) To execute and issue under the seal of the Farm Credit Administration, statements (1) authenticating copies of, or excerpts from, official records and files of the Farm Credit Administration; (2) certifying, on the basis of the records of the Farm Credit Administration, the effective periods of regulations, orders, instructions, and regulatory announcements; and (3) certifying, on the basis of the records of the Farm Credit Administration, the appointment, qualification, and continuance in office of any officer or employee of the Farm Credit Administration, or any conservator or receiver acting under the supervision or direction of the Farm Credit Administration.

(b) To sign official documents and to affix the seal of the Farm Credit Administration thereon for the purpose of attesting the signatures of officials of the Farm Credit Administration.

2. The provisions of this order shall be effective April 12, 1972, and on that date shall supersede Farm Credit Administration Order No. 731, dated November 17, 1969, 34 F.R. 18829.

E. A. JAENKE,
Governor,
Farm Credit Administration.

[FR Doc.72-5839 Filed 4-17-72;8:48 am]

FEDERAL COMMUNICATIONS COMMISSION

[Dockets Nos. 19485, 19486; FCC 72-335]

BLOOMSBURG STATE COLLEGE AND SUSQUEHANNA UNIVERSITY OF THE EVANGELICAL LUTHERAN CHURCH

Order Designating Applications for Consolidated Hearing on Stated Issues

In regard to applications of: Bloomsburg State College, Bloomsburg, Pa., requests: Channel 205; 840 watts; 75 feet; Docket No. 19485, File No. BPED–993; the Susquehanna University of the Evangelical Lutheran Church, noncommercial educational FM station WQSU, Selinsgrove, Pa., has: Channel 218; 10 watts, requests: Channel 205; 5.6 kw. (H); 5.6 kw. (V); 620 feet; Docket No. 19486, File No. BPED–1088; for construction permits.

1. The Commission has for consideration the above-captioned applications which are mutually exclusive in that operation by the applicants as proposed would result in interference involving infringement of 1 mv/m contours. Therefore, a comparative hearing is required.

2. It appears that there will be a significant disparity in the areas and populations served by the applicants. Consequently, it will be necessary to determine pursuant to section 307(b) of the Communications Act of 1934, as amended, which of the proposals would better provide fair, efficient, and equitable distribution of radio service. Inasmuch as this proceeding involves competing applicants for noncommercial educational facilities, the standard 307(b) issue shall be modified in accordance with our prior action in New York University, 10 RR 2d 215 (1967). Such a determination requires that we consider the areas and populations to be served by the applicants, as well as the number of other aural educational services available in the proposed service area of both applicants.

3. In connection with the Notice of Inquiry in Docket No. 14185, 5 FCC 2d 587 (1966), which looks toward the establishment of a nationwide table of assignments for educational FM stations, the Department of Education of the Commonwealth of Pennsylvania has submitted a proposed plan, which is presently under consideration (RM–1504), for the assignment of educational FM channels in the State. Although the proposal of Bloomsburg State College is in compli-

V 37 75 APR 18 72 XUM

ance with the Pennsylvania plan,[1] the proposal of the Susquehanna University of the Evangelical Lutheran Church (Susquehanna University) is not. Accordingly, in the event that it is determined that the Susquehanna University application should be granted, any such grant will be conditioned, as set forth below, on the outcome of the proceedings in RM–1504.

4. Bloomsburg State College has submitted a proposed program schedule which indicates daily operation Monday through Friday for a total of 35 hours per week. Susquehanna University's program schedule indicates that it has been operating Monday through Sunday for up to 70 hours per week. This apparent significant difference in the proposed hours of operation between the applicants is one factor to be considered under issue 3 below.

5. Both applicants are qualified to construct and operate as proposed. However, because of their mutual exclusivity, they must be designated for hearing in a consolidated proceeding.

6. *Accordingly, It is ordered,* That the applications are designated for hearing in a consolidated proceeding pursuant to section 309(e) of the Communications Act of 1934, as amended, at a time and place to be specified in a subsequent order, on the following issues:

(1) To determine the areas and populations which would receive FM service of 1 mv/m or greater intensity from the respective proposals.

(2) To determine the number of other aural educational services available (primary for AM, 1 mv/m or better for FM) in the proposed service area of both applicants, and the areas and populations served thereby.

(3) To determine the extent to which each of the proposed operations will be integrated into the overall educational operation and objectives of the respective applicants; or whether other factors in the record demonstrate that one applicant will provide a superior FM educational broadcast service.

(4) To determine, in light of the evidence adduced pursuant to the foregoing issues, which of the proposals would better serve the public interest, and, therefore, which application should be granted.

7. *It is further ordered,* That, in the event of a grant of the application of Susquehanna University, the construction permit shall contain the following condition:

The grant of this application is without prejudice to whatever further action may be warranted in connection with the outcome of the proceedings in RM–1504, pertaining to the establishment of a table of assignments for educational FM stations in Pennsylvania.

8. *It is further ordered,* That to avail themselves of the opportunity to be heard, the applicants, pursuant to § 1.221 (c) of the Commission's rules, in person or by attorney, shall within twenty (20) days of the mailing of this order, file with the Commission, in triplicate, a written appearance stating an intention to appear on the date fixed for the hearing and present evidence on the issues specified in this order.

9. *It is further ordered,* That the applicants herein shall, pursuant to section 311(a)(2) of the Communications Act of 1934, as amended, and § 1.594 of the Commission's rules, give notice of the hearing within the time and in the manner specified in such rule, and shall advise the Commission of the publication of such notice as required by § 1.594 (g) of the rules.

Adopted: April 5, 1972.

Released: April 11, 1972.

FEDERAL COMMUNICATIONS COMMISSION,[2]

[SEAL] BEN F. WAPLE, *Secretary.*

[FR Doc.72-5834 Filed 4-17-72;8:48 am]

[1] Although the site specified in the Pennsylvania plan for a Bloomsburg station is about 4.5 miles from the site, specified by the applicant, the engineering consultants retained by the Department of Education have indicated that this discrepancy in site coordinates will not "affect aspects of the * * * plan." Report submitted by Ocko Associates, December 2, 1970.

[2] Commissioner Robert E. Lee absent.

FEDERAL POWER COMMISSION

[Docket No. CP72-242]

DELHI GAS PIPELINE CORP.

Notice of Application

APRIL 14, 1972.

Take notice that on April 10, 1972, Delhi Gas Pipeline Corp. (applicant), Fidelity Union Tower Building, Dallas, Tex. 75201, filed in Docket No. CP72–242 an application pursuant to section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the sale for resale and delivery of natural gas in interstate commerce to Texas Eastern Transmission Corp. (Texas Eastern) at two points in Wharton County, Tex., all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Applicant states that it commenced the sale of gas to Texas Eastern on April 6, 1972, within the contemplation of § 2.68 of the Commission's general policy and interpretations (18 CFR 2.68) and that it proposes to continue said sale for 1 year from the end of the 60-day emergency period within the contemplation of § 2.70 of the Commission's general policy and interpretations (18 CFR 2.70). Applicant proposes to sell up to 6,000 Mcf of gas per day at 35 cents per Mcf at 14.65 p.s.i.a.

It appears reasonable and consistent with the public interest in this case to prescribe a period shorter than 15 days for the filing of protests and petitions to intervene. Therefore, any person desiring to be heard or to make any protest with reference to said application should on or before May 25, 1972, file with he Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for applicant to appear or be represented at the hearing.

KENNETH F. PLUMB, *Secretary.*

[FR Doc.72-5921 Filed 4-17-72;8:52 am]

[Docket No. CP72-232]

KANSAS-NEBRASKA NATURAL GAS CO., INC.

Notice of Application

APRIL 10, 1972.

Take notice that on March 24, 1972, Kansas-Nebraska Natural Gas Co., Inc. (applicant), 300 North St. Joseph Avenue, Hastings, NE 68901, filed in Docket No. CP70–239 an application pursuant to section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing applicant to construct and operate certain facilities and to provide natural gas service to Midwest Distilling Co., Inc. (Midwest), all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Applicant seeks authorization to provide natural gas to Midwest, a producer of grain ethyl alcohol, wheat starch, vital wheat gluten, and animal feed supplements, at a plant Midwest plans to construct adjacent to applicant's transmission pipeline at McCook, Red Willow County, Nebr. Midwest estimates that its annual gas requirements will be approximately 1,000,000 Mcf once full operation is achieved. The maximum daily requirement is estimated to be 3,100 Mcf. Applicant states that the location of Midwest's plant in the McCook area will benefit the economy of southwest Nebraska and northwest Kansas by providing a degree of diversification in the immediate area and by augmenting the marketing of grain crops in the Kansas and Nebraska areas. Applicant proposes to supply Midwest's fuel requirements on an interruptible basis and states that delivery of gas to Midwest's plant will be subject to the curtailment during peak system operation. Applicant states that the service proposed will not affect service to any of its firm customers or the capacity of applicant's system.

Applicant asserts that the facilities it proposes to construct include only a tap and those metering and regulating facilities required to accomplish the sale of gas. Total cost of the proposed facilities is estimated to be $20,000, which will be financed out of cash generated by operations.

Any person desiring to be heard or to make any protest with reference to said application should on or before May 2, 1972, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10) and the regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for applicant to appear or be represented at the hearing.

KENNETH F. PLUMB, *Secretary.*

[FR Doc.72-5798 Filed 4-17-72;8:45 am]

[Docket No. CI72-301, etc.]

NORTHERN MICHIGAN EXPLORATION CO. ET AL.

Order Setting Date for Formal Hearing, Prescribing Procedures, Permitting Interventions and Consolidating Proceedings

APRIL 10, 1972.

On November 4, 1971, Northern Michigan Exploration Co. (Northern Michigan) filed in Docket No. CP72–121[1] an application pursuant to section 7 of the Natural Gas Act for a certificate of public convenience and necessity authorizing the sale of natural gas purchased in the Southern Louisiana area to Trunkline Gas Co. (Trunkline) and Consumers Power Co. (Consumers). Northern Michigan proposes to sell 25 percent of the gas it will purchase in the South Gibson Field, Terrebonne Parish, La., to Trunkline. Northern Michigan proposes to sell the remainder of the gas it will purchase in the South Gibson Field together with all the gas it will purchase in the Cherokee Field, Terrebonne and St. Mary Parishes, La., as well as any other gas which Northern Michigan may become entitled to purchase in the Southern Louisiana area, all up to a maximum of 60,000 Mcf per day, to its parent company, Consumers. On November 9, 1971, Trunkline filed in Docket No. CP72–128 its application pursuant to section 7 of the Act for a certificate of public convenience and necessity authorizing the construction and operation of facilities[2] for the purchase of the aforementioned gas from Northern Michigan and for the transportation to Consumers Power the volumes of gas delivered by Northern Michigan to Trunkline up to a maximum daily volume of 62,500 Mcf per day. Additionally, on November 4, 1971, Michigan Gas Storage Co. (Michigan Gas) filed in Docket No. CP72–122 its application pursuant to section 7 of the Act for a certificate of public convenience and necessity authorizing the operation of existing facilities for the transportation of an additional volume of up to 60,000 Mcf per day for Consumers.[3]

Petitions requesting leave to intervene in Docket No. CI72–301 were timely filed by the following petitioners:

Central Illinois Light Co.
Trunkline Gas Co.
Panhandle Eastern Pipe Line Co.
Northern Illinois Gas Co.
Mississippi River Transmission Corp.

Petitions requesting leave to intervene in Docket No. CP72–128 were timely filed by the following petitioners:

Central Illinois Light Co.
Illinois Power Co.
Laclede Gas Co.
Northern Illinois Gas Co.
Mississippi River Transmission Corp.
Consumers Power Co.
Michigan Gas Utilities Co.
Northern Michigan Exploration Co.

Petitions requesting leave to intervene in Docket No. CP72–122 were timely filed by the following petitioners:

Central Illinois Light Co.
Trunkline Gas Co.
Panhandle Eastern Pipe Line Co.

The Michigan Public Service Commission filed a timely notice of intervention in Dockets Nos. CI72–301, CP72–128, and CP72–122. On January 19, 1972, the City of Indianapolis, and on January 3, the cities of Fulton and Macon, Mo., and the Illinois Municipal Utilities Association filed motions to be granted permission to file a late petition to intervene in Dockets Nos. CI72–301, CP72–128, and CP72–122. No opposition to the granting of the late petitions to intervene has been filed.

Central Illinois Light Co., the city of Indianapolis, the cities of Fulton and Macon, Mo., and the Illinois Municipal Utilities Association request that these dockets be consolidated and set for formal hearing. These petitioners state that it is not clear from Trunkline's application in Docket No. CP72–128 that it is in the public interest that substantial capacity on the Trunkline system should be used on a long-term basis to transport gas for Consumers. Central Illinois Light Co. also points out that it is not clear that it is in the public interest for a customer of Trunkline to buy gas in the field in competition with Trunkline and arrange for that gas to be transported by it. Accordingly, we shall set the proceedings pending at Dockets Nos. CI72–301, CP72–128, and CP72–122 for formal hearing. We grant the motions to consolidate these proceedings since they are plainly interdependent.

We also note that Northern Michigan states in its application in Docket No. CI72–301 that the sale of its production to Consumers will be covered by the small producer certificate issued to Northern Michigan in Docket No. CS71–1138.[4] The Commission has previously determined in Order No. 308, 34 FPC 1202, that a company affiliated with a pipeline company is not eligible for a small producer certificate. Northen Michigan, a wholly owned subsidiary of Consumers Power Co., was organized in 1967. Consumers Power is also the parent company of Michigan Gas Storage Co., an interstate pipeline company. Therefore, the issuance of a small producer certificate to Northern Michigan in Docket No. CS71–1138 will be reconsidered during the consolidated proceedings.

[1] A new docket number, i.e. CI72–301, has been assigned to this proceeding.

[2] Specifically, Trunkline proposes the construction of 2.8 miles of 12-inch gathering line within the South Gibson and Cherokee Fields and 25.9 miles of 20-inch pipeline to a point on its main line at the inlet of the Calumet Gasoline Plant near Patterson, La.

[3] Michigan Gas presently has authorization, issued February 1, 1971, in Docket No. CP71–145, to transport 700,000 Mcf per day of firm natural gas and up to 50,000 Mcf per day of best-efforts gas, purchased by Consumers from Trunkline.

[4] Northern Michigan owns a 25 percent working interest in the aforementioned Cherokee Field.

V 37 • 75 APR 18 72 XUM

The Commission finds:

(1) It is necessary and appropriate in carrying out the provisions of the Natural Gs Act that a public hearing be held on the issues presented by the applications filed in Dockets Nos. CI72–301, CP72–128, and CP72–122.

(2) Good cause exists to accept the petitions to intervene filed late by the city of Indianapolis, the cities of Fulton and Macon, Mo., and the Illinois Municipal Utilities Association.

(3) It is desirable to allow all petitioners who have so requested to intervene in these proceedings in order that they may establish the facts and law from which the nature and validity of their alleged rights and interests may be determined and show what further action may be appropriate under the circumstances in the administration of the Natural Gas Act.

(4) Good cause exists to consolidate the proceedings pending at Dockets Nos. CI72–301, CP72–128, and CP72–122.

The Commission orders:

(A) The above-named petitioners are permitted to intervene in the proceedings consolidated by ordering paragraph (B) below subject to the rules and regulations of the Commission: *Provided, however,* That the participation of such interveners shall be limited to matters affecting rights and interests expressly asserted in the petition to intervene: *And provided, further,* That the admission of such interveners shall not be construed as recognition by the Commission that they or any of them might be aggrieved because of any order or orders entered in these consolidated proceedings.

(B) The motions to consolidate the proceedings pending at Dockets Nos. CI 72–301, CP72–128, and CP72–122 are granted.

(C) Pursuant to the authority of the Natural Gas Act, particularly sections 7 and 15 thereof, the Commission's rules of practice and procedure, and the regulations under the Natural Gas Act (18 CFR Ch. I), a public hearing on the issues presented by the applications filed in the proceedings consolidated by ordering paragraph (B) above will be held in a hearing room of the Federal Power Commission, 441 G Street NW., Washington, DC 20426, commencing at 10 a.m. on June 6, 1972. Each applicant shall file with the Commission and serve on all interveners, the Commission Staff and the Presiding Examiner its proposed direct presentation in support of its application, including the prepared testimony of witnesses and exhibits, on or before May 5, 1972.

(D) A Presiding Examiner to be designated by the Chief Examiner for that purpose (see Delegation of Authority, 18 CFR 3.5(d)), shall preside at the hearing in these consolidated proceedings and prescribe relevant procedural matters not herein provided.

By the Commission.

[SEAL] KENNETH F. PLUMB, *Secretary.*

[FR Doc.72–5799 Filed 4–17–72;8:45 am]

FEDERAL RESERVE SYSTEM

AFFILIATED BANKSHARES OF COLORADO, INC.

Proposed Retention of Insurance Professionals, Inc.

Affiliated Bankshares of Colorado, Inc., Boulder, Colo., has applied, pursuant to section 4(c)(8) of the Bank Holding Company Act (12 U.S.C. 1843(c)(8)) and section 225.4(b)(2) of the Board's Regulation Y, for permission to retain voting shares of Insurance Professionals, Inc., Loveland, Colorado. Notice of the application was initially published in the following newspapers:

Boulder Daily Camera, Boulder, Colo., January 21, 1972.
Colorado Springs Gazette-Telegraph, Colorado Springs, Colo., January 18, 1972.
The Daily Journal, Denver, Colo., January 18, 1972.
The Greeley Daily Tribune and the Greeley Reporter, Greeley, Colo., January 22, 1972.
Loveland Daily Reporter-Herald, Loveland, Colo., January 21, 1972.
Reno Evening Gazette, Reno, Nev., February 2, 1972.
Las Vegas Review Journal, Las Vegas, Nev., February 5, 1972.

Subsequently, the notice was revised and republished in the following newspapers only:

Boulder Daily Camera, Boulder, Colo., February 25, 1972.
Colorado Springs Gazette-Telegraph, Colorado Springs, Colo., February 24, 1972.
The Daily Journal, Denver, Colo., February 25, 1972.
The Greeley Daily Tribune and the Greeley Republican, Greeley, Colo., February 25, 1972.
Loveland Daily Reporter-Herald, Loveland, Colo., February 25, 1972.

Applicant states that the proposed subsidiary would engage in insurance agency activities pursuant to section 225.4(a)(9). Applicant proposes to retain voting shares of Insurance Professionals, Inc., and thereby to engage in the following activities:

To act as insurance agent or broker in offices at which applicant or its subsidiaries are otherwise engaged in business or in offices adjacent thereto with respect to the following types of insurance:

1. Property, casualty, liability, and fidelity insurance for applicant and its subsidiaries;
2. Health, accident and group term life insurance on employees of applicant or its subsidiaries;
3. Credit life and disability insurance related to the extension of credit by applicant's subsidiaries;
4. Property and casualty insurance on real or personal property that is pledged or mortgaged to secure the extension of any credit by applicant's subsidiaries; and
5. Other types of insurance which applicant's subsidiaries find is necessary when acting in a fiduciary capacity.

Interested persons may express their views on the question whether consummation of the proposal can "reasonably be expected to produce benefits to the public, such as greater convenience, increased competition, or gains in efficiency, that outweight possible adverse effects such as undue concentration of resources, decreased or unfair competition, conflicts of interests, or unsound banking practices." Any request for a hearing on this question should be accompanied by a statement summarizing the evidence the person requesting the hearing proposes to submit or to elicit at the hearing and a statement of the reasons why this matter should not be resolved without a hearing.

The application may be inspected at the offices of the Board of Governors or at the Federal Reserve Bank of Kansas City.

Any views or requests for hearing should be submitted in writing and received by the Secretary, Board of Governors of the Federal Reserve System, Washington, D.C. 20551, not later than May 8, 1972.

Board of Governors of the Federal Reserve System, April 11, 1972.

AMERICAN GENERAL INSURANCE CO.

Order Dismissing Applications for Acquisition of Banks

American General Insurance Co., Houston, Tex. (Applicant), has applied for the Board's approval under section 3(a)(3) of the Bank Holding Company Act (12 U.S.C. 1842(a)(3)) to acquire indirectly (through Applicant's subsidiary, Texas Commerce Bancshares, Inc., Houston, Tex.) shares of each of six banks as listed below:

1. 100 percent of the voting shares (less directors' qualifying shares) of the successor by merger to the American National Bank of Beaumont, Tex.
2. 37 percent of the voting shares of Beaumont State Bank, Beaumont, Tex.
3. 100 percent of the voting shares (less directors' qualifying shares) of the successor by merger to MacGregor Park National Bank of Houston, Houston, Tex.
4. 100 percent of the voting shares (less directors' qualifying shares) of the successor by merger to Reagan State Bank of Houston, Houston, Tex.
5. 100 percent of the voting shares (less directors' qualifying shares) of the successor by merger to Airline Bank, Houston, Tex.
6. 100 percent of the voting shares (less directors' qualifying shares) of the successor by merger to North Freeway Bank, Houston, Tex.

On the basis of the facts of record, including the following actions and commitments by American General:

1. Exchange of all voting shares presently held of Texas Commerce for a new class of shares which, while held by American General, is nonvoting;
2. A written commitment stating that when American General disposes of such nonvoting shares, it will do so only at a public offering underwritten by investment bankers and under an agreement that no purchaser either directly or indirectly may acquire at the sale shares aggregating more than 2 percent of the then outstanding common stock of Texas Commerce;
3. A written commitment that no director, officer or policymaking employee of American General does or will serve in a similar capacity with Texas Commerce or any of its subsidiaries and American General will abstain from exercising any influence or control over Texas Commerce or any of its subsidiaries;
4. A wirtten commitment that no director, officer or policymaking employee of American General, or a person owing 25 percent or more of the shares of American General, or any combination of such persons, does or will own or control, directly or indirectly, 25 percent or more of the voting shares of Texas Commerce or any of its subsidiaries;
5. A written commitment by American General for divestiture of all nonvoting shares of Texas Commerce by January 1, 1981; the Board finds that Applicant has effected a divestiture of its ownership and control of the voting shares of Texas Commerce Bancshares, Inc., Houston, Tex., and has ceased to be a bank holding company for the purposes of the Bank Holding Company Act of 1956, as amended. Accordingly, the company's applications to acquire shares of the aforementioned banks are hereby dismissed as moot.

The Board's findings and action herein are subject to amendment, revocation, or nullification by the Board should it conclude that American General exercises control or a controlling influence over Texas Commerce or any of its subsidiaries.

By order of the Board of Governors,[1] April 11, 1972.

TYNAN SMITH, *Secretary of the Board.*

FIRST NATIONAL STATE BANCORPORATION

Acquisition of Bank

First National State Bancorporation, Newark, N.J., has applied for the Board's approval under section 3(a)(3) of the Bank Holding Company Act (12 U.S.C. 1842(a)(3)) to acquire 100 percent of the voting shares (less directors' qualifying shares) of First National State Bank of Central Jersey, Trenton, N.J., the successor by merger to the Security National Bank of Trenton, Trenton, N.J. The factors that are considered in acting on the application are set forth in section 3(c) of the Act (12 U.S.C. 1842(c)).

The application may be inspected at the office of the Board of Governors or at the Federal Reserve Bank of New York. Any person wishing to comment on the application should submit his views in writing to the Secretary, Board of Governors of the Federal Reserve System, Washington, D.C. 20551, to be received not later than May 1, 1972.

Board of Governors of the Federal Reserve System, April 11, 1972.

[FR Doc.72–5841 Filed 4–17–72;8:48 am]

FIRST FINANCIAL CORPORATION

Order Denying Acquisition of Bank

First Financial Corp, Tampa, Fla., a bank holding company within the meaning of the Bank Holding Company Act, has applied for the Board's approval under section 3(a)(3) of the Act (12 U.S.C. 1842(a)(3)) to acquire 80 percent or more of the voting shares of Union Trust National Bank of St. Petersburg, St. Petersburg, Fla. (Bank).

Notice of receipt of the application has been given in accordance with section 3(b) of the Act, and the time for filing comments and views has expired. The Board has considered the application and all comments received in the light of the factors set forth in section 3(c) of the Act (12 U.S.C. 1842(c)) and finds that:

Applicant has nine banks with aggregate deposits of $427 million, and is the seventh largest banking organization in Florida, controlling 2.9 percent of commercial bank deposits in the State.[1] Acquisition of Bank ($151 million in deposits) by applicant would increase its percentage share of deposits by 1 percent and would make it the sixth largest banking organization in the State. Consummation of the transaction would not result in a significant increase in concentration of banking resources in the State of Florida.

Applicant's lead bank and two other banking subsidiaries are located in the Tampa market. That market is a highly concentrated one with the three leading banking organizations located there having about 68 percent of market deposits. Applicant is the leading organization in the Tampa market with some 31 percent of deposits and is the dominant organization in the Tampa area.

Bank is located in St. Petersburg, which is located across Tampa Bay from Tampa. The St. Petersburg market, though not at highly concentrated as Tampa, still is relatively concentrated with the top four organizations having over 58 percent of market deposits. Bank is the second largest institution in St. Petersburg with 17 percent of market deposits and is only slightly smaller than the leading bank in the market.

Though Tampa and St. Petersburg are adjacent to one another and are part of the Tampa-St. Petersburg Standard Metropolitan Statistical Area, they essentially represent separate banking markets. For this reason there is little competition between applicant and Bank, and consummation of this transaction would not have a substantial adverse effect on actual competition.

However, applicant's acquisition of Bank would have substantially adverse effects on potential competition between applicant and Bank. As stated earlier, applicant is the largest organization in the adjacent Tampa market and, because of its size and orientation, is one of the most likely potential entrants into the St. Petersburg market. St. Petersburg is an attractive market for entry since the deposits per bank in St. Petersburg are considerably higher than the State average and growth prospects of the city are favorable. Thus, applicant has the capability and incentive to enter the St. Petersburg market, a market which would support the de novo establishment of a new bank. Applicant, however, is not limited to de novo entry into the St. Petersburg market; there are numerous independent banking organizations located there, the acquisition of which would not pose the competitive problems raised by applicant's proposed acquisition of Bank and would have a procompetitive effect. In such circumstances, the elimination of a likely entrant into a concentrated market by the acquisition of a leading firm in the market should be discouraged.[2] The Board concludes, therefore, that consummation of the proposed transaction would foreclose significant potential competition between applicant and Bank.

Bank is one of only two institutions remaining in Florida with deposits of over $100 million, which are not lead banks in bank holding company organizations. It, therefore, appears particularly appropriate that the Board keep alive the opportunity for the formation of new holding companies which can serve to provide additional competition for existing holding companies in Florida.

Denial of the proposed transaction would also preserve Bank as a means of entry into the Tampa-St. Petersburg SMSA by a banking organization of appropriate size from a geographic area removed from west-central Florida, which would have a beneficial effect on competition there. This consideration was recognized by the Board in its denial statement of the application of Barnett Banks to acquire Bank (1969 Federal Reserve Bulletin 615). The Board stressed in that case that the acquisition of Bank by one of the State's largest banking organizations could lead to domination of banking in the State by existing holding companies and perpetuate existing concentration in the Tampa-St. Petersburg area by increasing barriers to new entry into St. Petersburg. For similar reasons, the Board concludes that consideration of the competitive factors in the present application weighs against approval.

[1] Banking data are as of June 30, 1971, and reflect all holding company formations and acquisitions approved by the Board through Feb. 29, 1972.

[2] This position is in accordance with an earlier decision of the Board denying the application of applicant to acquire Bank of Clearwater, Clearwater, Fla., also located in the Tampa-St. Petersburg Standard Metropolitan Statistical Area (1970 Federal Reserve Bulletin 654).

V 37 75 APR 18 72 XUM

Considerations relating to the financial condition, managerial resources, and prospects of applicant, its subsidiary banks, and Bank are satisfactory though Bank has management succession problems. However, Bank is large enough to attract needed management on its own. Additionally, although applicant at present has adequate managerial resources to provide for its own needs, there is some question that it would be able to provide additional management depth for Bank without straining its own managerial resources. For these reasons, the banking factors do not provide weight for approval of the application.

Applicant proposes to improve and expand the lending capabilities and drive-in facilities of Bank. Although these proposed benefits are favorable, Bank is capable of providing such improvements by itself. Accordingly, these considerations, while consistent with approval of the application, do not outweigh the anticompetitive effects of the proposal. It is the Board's judgment that consummation of the proposed acquisition would not be in the public interest and the application should be denied.

On the basis of the record, the application is denied for the reasons summarized above.

By order of the Board of Governors,[1]

[SEAL] TYNAN SMITH, *Secretary of the Board.*

NORTH SHORE CAPITAL CORPORATION

Formation of Bank Holding Company

North Shore Capital Corp., Chicago, Ill., has applied for the Board's approval under section 3(a)(1) of the Bank Holding Company Act (12 U.S.C. 1842(a)(1)) to become a bank holding company through acquisition of 50.1 percent or more of the voting shares of the North Shore National Bank of Chicago, Chicago, Ill. The factors that are considered in acting on the application are set forth in section 3(c) of the Act (12 U.S.C. 1842(c)).

The application may be inspected at the office of the Board of Governors or at the Federal Reserve Bank of Chicago. Any person wishing to comment on the application should submit his views in writing to the Secretary, Board of Governors of the Federal Reserve System, Washington, D.C. 20551, to be received not later than May 4, 1972.

SOUTHWEST BANCSHARES, INC.

Order Approving Acquisition of Bank

Southwest Bancshares, Inc., Houston, Tex., a bank holding company within the meaning of the Bank Holding Company Act, has applied for the Board's approval, under section 3(a)(3) of the Act (12 U.S.C. 1842(a)(3)), to acquire 100 percent of the voting shares (less directors' qualifying shares) of the successor by merger to Long Point National Bank of Houston, Houston, Tex. (Bank). The bank into which Long Point National Bank of Houston is to be merged has no significance except as a means of acquiring all of the shares of Bank. Accordingly, the proposed acquisition of shares of the successor organization is treated herein as the proposed acquisition of shares of Bank.

Notice of receipt of the application has been given in accordance with section 3(b) of the Act, and the time for filing comments and views has expired. The Board has considered the application and all comments received in light of the factors set forth in section 3(c) of the Act (12 U.S.C. 1842(c)) and finds that:

Applicant controls four banks with aggregate deposits of approximately $688 million, representing 2.6 percent of the total commercial bank deposits in Texas and is the fifth largest banking organization in the State. (All banking data are as of June 30, 1971, and reflect holding company formations and acquisitions approved by the Board through March 31, 1972.) Consummation of the proposed acquisition of Bank (deposits of approximately $29 million) would increase slightly applicant's percentage of total commercial bank deposits in the State but would not change its ranking.

Applicant is the third largest banking organization in the relevant market which is approximated by the Houston SMSA. Within the market, applicant has three banking subsidiaries including the area's third largest bank and holds minority stock interests ranging from 4.2 percent to 20.3 percent in each of five other banks (of which Bank is one). The combined deposits of all eight related banks ($798.3 million) represent 12.9 percent of total commercial bank deposits in the market. Bank, with less than 0.5 percent of deposits in the relevant market, ranks 38th in size among 145 banks there.

Bank, located in a suburban area of northwest Houston, was established in 1956 under the sponsorship of principals of applicant's lead bank. Ninety-five common stockholders of Bank and applicant hold 59.5 percent of Bank's shares. In 1956, these shareholders held 52.6 percent. Of the 59.5 percent, applicant itself owns 14.7 percent of Bank's shares and applicant's officers own another 8.3 percent. Based on these facts and other facts of record, disaffiliation in the foreseeable future appears to be no more than a remote possibility.

The service area of applicant's lead bank, primarily a wholesale bank, is the entire Houston SMSA, which overlaps the service area of Bank. However, on the facts of record, including the nature and extent of the existing affiliation between the banks and the differences between the banks in size and type of operation, there appears to be no meaningful competition between them. The competition that exists between Bank and any of applicant's other banking subsidiaries, or between Bank and any of the banks in which applicant has a minority interest, is not regarded as significant. It appears that consummation of the proposed acquisition would not eliminate any meaningful existing competition nor have an adverse effect on the structure of the Houston market where there are numerous banking alternatives available. Disaffiliation appears to be an unlikely prospect and, absent disaffiliation, the development of future competition between Bank and any of applicant's subsidiaries is considered unlikely. It is concluded that competitive considerations are consistent with approval.

The financial and managerial resources and future prospects of applicant, its subsidiaries, and Bank appear to be generally satisfactory and consistent with approval. Bank's service area has experienced considerable economic growth in recent years. Consummation of the proposal herein would enable Bank better to serve the credit requirements of large customers located in its service area. Also, applicant proposes to develop, for Bank, international, investment and trust, and industrial development services, and to make available to Bank the planning and personnel expertise of applicant's lead bank. Convenience and needs factors lend some weight in favor of approval. It is the Board's judgment that consummation of the proposed acquisition would be in the public interest and the application should be approved.

On the basis of the record, the application is approved for the reasons summarized above. The transaction shall not be consummated (a) before the 30th calendar day following the date of this order, or (b) later than 3 months after the date of this order, unless such period is extended for good cause by the Board, or by the Federal Reserve Bank of Dallas pursuant to delegated authority.

By order of the Board of Governors,[1]

April 11, 1972.

[SEAL] TYNAN SMITH, *Secretary of the Board.*

TEXAS COMMERCE BANCSHARES, INC.

Order Denying Approval for Acquisition of Bank

Texas Commerce Bancshares, Inc., Houston, Tex., a bank holding company within the meaning of the Bank Holding Company Act, has applied for the Board's approval, under section 3(a)(3) of the Act (12 U.S.C. 1842(a)(3)), to acquire 100 percent of the voting shares (less directors' qualifying shares) of the successor by merger to American National Bank of Beaumont, Beaumont, Tex.

Notice of receipt of the application has been given in accordance with section 3(a) of the Act, and the time for filing comments and views has expired. The Board has considered the application and all comments received in light of the factors set forth in section 3(c) of the Act (12 U.S.C. 1842(c)).

On the basis of the record, the application is denied for the reasons set forth in the Board's Statement [1] of this date.

By order of the Board of Governors,[2] April 11, 1972.

[SEAL] TYNAN SMITH, *Secretary of the Board.*

[FR Doc.72-5842 Filed 4-17-72;8:48 am]

TEXAS COMMERCE BANCSHARES, INC.

Order Approving Acquisition of Bank

Texas Commerce Bancshares, Inc., Houston, Tex., a bank holding company within the meaning of the Bank Holding Company Act, has applied for the Board's approval, under section 3(a)(3) of the Bank Holding Company Act (12 U.S.C. 1842(a)(3)), to acquire 37 percent of the voting shares of Beaumont State Bank, Beaumont, Tex.

Notice of receipt of the application has been given in accordance with section 3(b) of the Act, and the time for filing comments and views has expired. The Board has considered the application and all comments received in light of the factors set forth in section 3(c) of the Act (12 U.S.C. 1842(c)) and finds that:

Applicant, with 10 subsidiary banks holding aggregate deposits of $969.4 million, is the second largest banking organization in New Jersey with 6.2 percent of the commercial bank deposits in the State. (All banking data are as of June 30, 1971, unless otherwise indicated, and reflect holding company formations and acquisitions approved through February 29, 1972.) Consummation of the proposed acquisition of Bank ($4 million in deposits) would increase only slightly applicant's share of State-wide commercial bank deposits, and its present ranking would remain unchanged.

Bank is one of 20 banking institutions in the New Brunswick banking market,[1] the relevant market, where it ranks 18th in size with 0.3 percent of area deposits. Applicant's subsidiary office closest to Bank is located 8 miles northeast of Bank and serves a different banking market. Apparently no significant present competition exists between Bank and this office, or any of applicant's other offices. Moreover, the presence of geographical barriers, including the Garden State Parkway, would appear to limit the development of future competition between Bank and this office.

Two of applicant's subsidiaries have received approval to open branch offices outside of Madison Township, where Bank is domiciled, but within the New Brunswick banking market. Thus, it is possible for competition to develop in the future between Bank and these approved branches. In addition, applicant has the expertise and resources to establish a de novo bank within Madison Township, a relatively underbanked community. Consequently, consummation of the present proposal may foreclose potential competition between applicant's subsidiaries and Bank. However, Bank has failed to achieve the competitive posture expected of a 4-year-old bank, and its competitive potential appears limited. Other competitors may enter the New Brunswick market through the possible acquisition of one of the

[FR Doc.72-5844 Filed 4-17-72;8:48 am]

UNITED JERSEY BANKS

Order Approving Acquisition of Bank

United Jersey Banks, Hackensack, N.J., a bank holding company within the meaning of the Bank Holding Company Act, has applied for the Board's approval under section 3(a)(3) of the Act (12 U.S.C. 1842(a)(3)) to acquire 100 percent (less directors' qualifying shares) of the voting shares of Madison State Bank, Madison Township, N.J. (Bank).

Notice of receipt of the application has been given in accordance with section 3(b) of the Act, and the time for filing comments and views has expired. The Board has considered the application and all comments received in light of the factors set forth in section 3(c) of the Act (12 U.S.C. 1842(c)) and finds that:

Applicant, with 10 subsidiary banks holding aggregate deposits of $969.4 million, is the second largest banking organization in New Jersey with 6.2 percent of the commercial bank deposits in the State. (All banking data are as of June 30, 1971, unless otherwise indicated, and reflect holding company formations and acquisitions approved through February 29, 1972.) Consummation of the proposed acquisition of Bank ($4 million in deposits) would increase only slightly applicant's share of State-wide commercial bank deposits, and its present ranking would remain unchanged.

Bank is one of 20 banking institutions in the New Brunswick banking market,[1] the relevant market, where it ranks 18th in size with 0.3 percent of area deposits. Applicant's subsidiary office closest to Bank is located 8 miles northeast of Bank and serves a different banking market. Apparently no significant present competition exists between Bank and this office, or any of applicant's other offices. Moreover, the presence of geographical barriers, including the Garden State Parkway, would appear to limit the development of future competition between Bank and this office.

Two of applicant's subsidiaries have received approval to open branch offices outside of Madison Township, where Bank is domiciled, but within the New Brunswick banking market. Thus, it is possible for competition to develop in the future between Bank and these approved branches. In addition, applicant has the expertise and resources to establish a de novo bank within Madison Township, a relatively underbanked community. Consequently, consummation of the present proposal may foreclose potential competition between applicant's subsidiaries and Bank. However, Bank has failed to achieve the competitive posture expected of a 4-year-old bank, and its competitive potential appears limited. Other competitors may enter the New Brunswick market through the possible acquisition of one of the

V 37 • 75 APR 18 72 XUM

11 small-to-moderate size independent banks serving this market. The Board, therefore, concludes that consummation of the proposed acquisition would have only a slightly adverse effect on potential competition.

The financial condition and management of applicant and its subsidiaries are satisfactory and the prospects of each are favorable. However, the financial condition of Bank is unsatisfactory; it has yet to report a profit and its deposit growth is lagging. Affiliation with applicant should significantly strengthen the overall condition of Bank through the infusion of both management expertise and financial resources. Thus, considerations relating to the banking factors lend weight toward approval. Applicant further proposes to expand the range of Bank's services to include trust, investment, international banking, data processing, and other specialized services. Affiliation will also permit Bank to become more responsive to the credit needs of the community. At present, over one-half of Bank's loan portfolio represents loans purchased or Federal funds sold. Moreover, applicant intends to assist Bank in opening additional branch facilities. Thus, considerations relating to the convenience and needs of the community to be served lend weight toward approval. It is the Board's judgment that the slightly adverse effects on potential competition which would result from consummation of the proposal are more than outweighed by considerations relating to the convenience and needs of the community and banking factors, that consummation of the proposal would be in the public interest, and that the application should be approved.

On the basis of the record, the application is approved for the reasons summarized above. The transaction shall not be consummated (a) before the 30th calendar day following the date of this order, or (b) later than 3 months after the date of this order, unless such period is extended for good cause by the Board, or by the Federal Reserve Bank of New York pursuant to delegated authority.

By order of the Board of Governors,[2] April 11, 1972.

[SEAL] TYNAN SMITH,
Secretary of the Board.

SELECTIVE SERVICE SYSTEM

REGISTRANTS PROCESSING MANUAL

The Registrants Processing Manual is an internal manual of the Selective Service System. The material contained in chapters 613 and 655 is considered to be of sufficient interest to warrant publication in the FEDERAL REGISTER. Therefore chapters 613 and 655 are set forth in full as follows:

CHAPTER 613—REGISTRATION PROCEDURES AND CREATION OF THE REGISTRANT'S SELECTIVE SERVICE FILE

OUTLINE OF PROCEDURES

The registration procedures are briefly outlined below.

1. Identification of the registrant (section 613.2, page 613–2).
2. Preparation of the Registration Card (SSS Form 1) (section 613.4, page 613–3).
3. Issuance of Registration Questionnaire (SSS Form 100) (section 613.4, page 613–3).
4. Assignment of the Selective Service Number (Section 613.6, page 613–6).
5. Preparation and Issuance of the Registration Certificate (SSS Form 2) (section 613.7, page 613–9).
6. Administrative assignment to Class 1–H (section 613.8, page 613–9).
7. Preparation and issuance of the Notice of Classification (SSS Form 110) (section 613.9, page 613–10).
8. Preparation of the Registrant File Folder (SSS Form 101) (section 613.10, page 613–10).
9. Prepare the List of Registrants (SSS Form 3) (section 613.17, page 613–15).
10. Complete administrative entries required by above actions (section 613.11, page 613–10).

SEC. 613.1 *Place and time of registration.* Any person required to be registered will present himself for and submit to registration at any designated place of registration, at the office of any local board during the usual business hours, or at a consulate office within the period which begins 30 days prior to the 18th anniversary of the day of his birth and terminates 30 days after the 18th anniversary of the day of his birth. An alien who is required to register must report for and submit to registration if he has reached age 18 and has not reached age 26, except that an alien medical specialist is required to report for and submit to registration if he has not reached age 35.

SEC. 613.2 *Identification of the registrant.* When a young man presents himself for and submits to registration at his own local board, any other local board of Selective Service, or before any duly appointed uncompensated registrar, it shall be the responsibility of the registrar to verify the prospective registrant's identity through examination of the registrant's birth certificate, Social Security account number card, driver's license, school or college activity card, credit cards, or other means of identification that he may have in his possession. A person who presents himself for registration after the lottery drawing applicable to him has been held, shall be required to present satisfactory evidence as to his date of birth. For registrations accomplished by a consular official outside the continental United States, the State of Alaska, the State of Hawaii, Puerto Rico, the Virgin Islands, Guam or the Canal Zone, the registrant shall be required to provide identification by means of a U.S. passport or birth certificate.

SEC. 613.3 *Registration of persons separated from the Armed Forces.* Any person not previously registered who (1) is separated from the Armed Forces of the United States after having served honorably on active duty, other than active duty for training, for not less than 6 months, or (2) has served as a commissioned officer in the National Oceanic and Atmospheric Administration or the Public Health Service for not less than 24 months, shall not be required to be registered. A registrant who has been discharged from active military service with less than 6 months' service or who is discharged after having served on active duty under conditions other than honorable for 6 or more months is required to register after discharge, providing he has not previously registered.

SEC. 613.4 *Preparation of the Registration Card (SSS Form 1).* 1. Upon the establishment of eligibility to register, the face of the Registration Card (SSS Form 1) shall be completed. The registrar will prepare the registration card or provide such assistance as the registrant requires in order for him to prepare it. It shall be typewritten or clearly printed in ink. The registrant will sign in the space provided on the reverse side. The registrar will verify the statements of the registrant, and sign in the space provided. This will constitute his registration.

2. When a man has completed the SSS Form 1 at his own local board and it would be more efficient to do so, the SSS Form 2 should be completed and issued to the registrant, he should be assigned his SSN, administratively assigned to Class 1–H and issued an SSS Form 110 at the time of registration. The SSS Form 100 will either be completed at time of registration or issued or mailed to the registrant to be returned within 10 days.

3. When a man has completed the SSS Form 1 at his own local board, and it is more efficient for the local board to delay completion of the SSS Forms 2 and 110, the registrant will be advised that these forms will be completed and mailed to him within 10 working days. In the event the SSS Form 100 is not completed at the time of registration, it shall be issued or mailed to the registrant, who is required to return it within 10 days.

4. When registration is accomplished at a place other than the registrant's local board of jurisdiction, only the completion of the SSS Form 1 (except for the SSN) is required. If possible, the SSS Form 100 may be completed and signed at that time. The registrant shall be advised that his SSS Form 1 will be forwarded to his local board of jurisdiction, which will mail him the SSS Forms 2 and 110, as well as the SSS Form 100, if it was not completed at the time of registration.

5. When the registration has been accomplished at a place other than a local board, the registrar shall inform the registrant that the SSS Forms 2 and 110 will be mailed to him by his local board. At the close of business that day, the registrar shall forward the SSS Form 1 and any SSS Form 100 which may have been completed to the local board which appointed the registrar. If the registrar is in a foreign country, the registrar shall delivery the completed SSS Form 1 to the chief registrar of the embassy or consulate office which appointed him, for transmission to the Director of Selective Service.

6. When the registration has been accomplished at a local board other than the registrant's local board of jurisdiction, at the close of business that day, the registrar shall forward the SSS Form 1 to the local board having jurisdiction over the registrant's place of residence, if known. Otherwise, it shall be forwarded to the State Director of Selective Service concerned, for transmittal to the proper local board.

SEC. 613.5 *Review and certification.* 1. After completion of the SSS Form 1 by the registrant, the registrar shall review the Registration Card for completeness and accuracy of discriptive information. The registrant must then sign the completed Registration Card in the presence of the registrar, except that if the registrant is unable or refuses to sign the Registration Card or to make a mark instead of a signature, the registrar shall sign the registrant's name and indicate that he has done so by signing his own name, followed by the word "Registrar" beneath the name of the registrant. The act of the registrar in so doing shall have the same force and effect as if the registrant had signed the Registration Card and such registrant shall thereby be registered. Upon completion of the review of the Registration Card, the registrar will then certify to the registration and enter the date of registration on the form.

2. The registrar shall require the registrant to give a sufficient address to establish the proper location of his place of residence and a mailing address for forwarding of notices. The registrant shall determine what place he desires to give as his residence when he does not reside in the same place all the time. The registrant must give a place of residence within the continental United States, the State of Alaska, the State of Hawaii, Puerto Rico, the Virgin Islands, Guam, or the Canal Zone, if he presents himself for registration in any of those places. If a registrant presents himself for registration outside of the continental United States, the State of Alaska, the State of Hawaii, Puerto Rico, the Virgin Islands, Guam, or the Canal Zone, he should, if possible, give a place of residence within one of the above listed places, but in any case must give a place of residence when registering.

SEC. 613.6 *Local board of jurisdiction.* 1. The local board having jurisdiction over the "Place of Residence" entered on the Registration Card shall always have jurisdiction over the registrant, unless otherwise directed by the Director of Selective Service. Whenever two or more local boards have jurisdiction within the same county or corresponding political subdivision, and the offices of such local boards are located at the same site, registrants whose place of residence is within that county or corresponding political subdivision shall be assigned among the local boards in the manner as prescribed by the State Director of Selective Service. When registration was accomplished outside the continental United States, the State of Alaska, the State of Hawaii, Puerto Rico, the Virgin Islands, Guam, or the Canal Zone and the registrant listed his place of residence outside of these places, Local Board No. 100 (Foreign), Washington, D.C., shall have jurisdiction over the registrant.

2. Upon receipt of the Registration Card, the local board will verify that the assignment to that local board is appropriate. If it is determined that the local board does not have jurisdiction over the registrant, the Registration Card shall be forwarded to the state director for transmittal to the proper local board of jurisdiction.

SEC. 613.7 *Assignment of selective service number.* 1. Utilizing the Classification Record (SSS Form 102) as a register, the local board of jurisdiction will assign a selective service number to each registrant by entering his name and date of birth in columns numbered 2 and 3 of the Classification Record, alongside the next unassigned selective service number in Column No. 1, and place that number in the appropriate block on the Registration Card. This number will consist of the following elements:

a. The first element of the selective service number representing the numerical position of the State in which the registrant is registered as shown on the following list of States, territories, and possessions:

1. Alabama.
2. Arizona.
3. Arkansas.
4. California.
5. Colorado.
6. Connecticut.
7. Delaware.
8. Florida.
9. Georgia.
10. Idaho.
11. Illinois.
12. Indiana.
13. Iowa.
14. Kansas.
15. Kentucky.
16. Louisiana.
17. Maine.
18. Maryland.
19. Massachusetts.
20. Michigan.
21. Minnesota.
22. Mississippi.
23. Missouri.
24. Montana.
25. Nebraska.
26. Nevada.
27. New Hampshire.
28. New Jersey.
29. New Mexico.
30. New York.
31. North Carolina.
32. North Dakota.
33. Ohio.
34. Oklahoma.
35. Oregon.
36. Pennsylvania.
37. Rhode Island.
38. South Carolina.
39. South Dakota.
40. Tennessee.
41. Texas.
42. Utah.
43. Vermont.
44. Virginia.
45. Washington.
46. West Virginia.
47. Wisconsin.
48. Wyoming.
49. District of Columbia.
50. New York City.
51. Alaska.
52. Hawaii.
53. Puerto Rico.
54. Virgin Islands.
55. Guam.
56. Canal Zone.

b. The second element of the selective service number shall be the number of the registrant's local board within the State. Each State Director of Selective Service shall assign each local board within his State a specific identifying number in numerical sequence beginning with the numeral 1.

c. The third element of the selective service number shall be the last two digits of the year in which the registrant was born. For example, if a registrant was born in 1954, the third element of his selective service number would be the number 54.

d. The fourth element of the selective service number shall be the number assigned to the registrant by his local board among the other registrants of the local board having the same year of birth. Every local board shall assign each of the registrants who were born in the same year a specific identifying number in numerical sequence beginning with the numeral 1. A separate series of identification numbers on separate pages shall be assigned to registrants by a method most convenient to the person assigning them, provided that each time a number is assigned the next number in sequence for a given year of birth is used.

2. Where four blocks are provided on any form for the entry of the selective service number, the first element of the selective service number shall be entered in the left block and the remaining three elements of such number entered consecutively from left to right in the remaining three blocks. For example, the selective service number to be given to a registrant in Alabama (1), registered with Alabama Local Board No. 24 (24), born in the year 1954 (54) and being number 206 among the registrants of his local board who were born in 1954, would be entered in the four blocks as follows:

1	24	54	206

Where four blocks are not provided for the entry of the selective service number, each of the four elements of the number, written from left to right, shall be separated by a hyphen. For example, the selective service number of the registrant mentioned in the paragraph above would be written without the blocks as follows: 1-24-54-206.

SEC. 613.8 *Preparation and issuance or mailing of Registration Certificate (SSS Form 2).* When registration is accomplished at the local board of jurisdiction, the Registration Certificate (SSS Form 2) may either: (1) Be prepared and copy 2 issued to the registrant at the time of his registration; or (2) be prepared and copy 2 mailed to the registrant within 10 working days of the date of registration. When registration is accomplished at other than the local board of jurisdiction, the local board of jurisdiction will prepare the Registration Certificate and mail copy 2 to the registrant within 10 working days of receipt of the Registration Card.

SEC. 613.9 *Administrative assignment to Class 1–H.* Compensated personnel at the registrant's local board of jurisdiction are authorized and directed to administratively assign each new registrant to Class 1–H. After this initial classification, further classifying can be accomplished only by board action of the appropriate local board, appeal board, or the National Selective Service Appeal Board.

SEC. 613.10 *Preparation and issuance or mailing of the Notice of Classification (SSS Form 110).* When the registration is accomplished at the local board of

[1] Includes Middlesex County except the municipalities of Plainsboro, Cranbury, Middlesex, and Dunellen, plus Franklin Township in Somerset County.

[2] Voting for this action: Chairman Burns and Governors Robertson, Daane, Brimmer, and Sheehan. Absent and not voting: Governors Mitchell and Maisel.

V 37 I 75 APR 18 72 XUM

jurisdiction, a Notice of Classification (SSS Form 110) may either: (1) Be prepared and copy 2 issued to the registrant at the time of his registration; or (2) be prepared and copy 2 mailed to the registrant within 10 working days of the date of registration. When registration is accomplished at other than the local board of jurisdiction, the local board of jurisdiction will prepare the SSS Form 110 and mail copy 2 to the registrant within 10 working days of receipt of the Registration Card. A 1–H letter will accompany this initial SSS Form 110.

SEC. 613.11 *Creation of a registrant's file.* Following registration, a Registrant File Folder (SSS Form 101) will be prepared. The original of the Registration Card (SSS Form 1) shall be placed in the registrant's file folder, and the duplicate shall be used as an alphabetical locator card. The Registration Questionnaire (SSS Form 100), when received, will be placed in the SSS Form 101.

SEC. 613.12 *Administrative entries required.* 1. After registration, compensated personnel of the local board of jurisdiction will make the following entries on forms:

a. SSS Form 102: 1–H class and date assigned will be entered in the appropriate column.

b. SSS Form 101: The following entries will be made on page 2:

(1) "Registered" (the date of registration shown on SSS Form 1 will be entered in the date column).

(2) "SSS Form 2 issued/mailed" (the date of issuance or mailing of the Registration Certificate will be entered in the date column).

(3) "Administratively assigned to 1–H and SSS Form 110 issued/mailed" (the date of issuance or mailing of the Notice of Classification will be entered in the date column).

(4) "1–H letter issued/mailed" (use appropriate word) (the date of issuance or mailing of the 1–H letter will be entered in the date column).

(5) "SSS Form 100 issued/mailed" (if the SSS Form 100 is issued or mailed, use appropriate word, and enter date in date column).

2. A Registrant File Folder (SSS Form 101) will be used for establishment of a registrant's file. If a Registrant File Folder is not available, a Cover Sheet will be used. In that case, staple SSS Form 100–S to the inside of page 2 to be utilized for notation of "actions." Upon receipt of the new SSS Form 101, the information contained on the SSS Form 100–S shall be used to establish a new file so that registrants who have been registered since January 1, 1972, will all have a Registrant File Folder.

3. At the option of the local board, the Tally Sheet (SSS Form 4) may be used as a temporary work sheet of registrants' names and selective service numbers, prior to entries being made in the SSS Form 102. The use of the Tally Sheet is not mandatory.

SEC. 613.13 *Beginning and end of year registrations.* 1. A man who presents himself for registration and who attained the age of 18 during a previous year shall be assigned a selective service number from the Classification Record (SSS Form 102) appropriate for his year of birth whether or not he is a late registrant. His name should be entered in the SSS Form 102 for that previous year alongside the next unassigned selective service number.

2. A man who presents himself for registration and who will attain the age of 18 in the next calendar year shall be assigned a selective service number by placing his name on an advance page of the Classification Record (SSS Form 102) prepared for the following year.

3. In cases of either 1 or 2 above, the registrant's file folder shall be filed according to the appropriate year of birth group.

SEC. 613.14 *Early and late registrations.* 1. A young man who presents himself for and submits to registration more than 30 days prior to attaining the 18th anniversary of his date of birth will not be registered unless he completes Application for Voluntary Induction (SSS Form 254).

2. A late registrant will be registered in the same manner as any other registrant, and will be assigned a selective service number from the SSS Form 102 appropriate to his year of birth. He will be requested to submit a signed statement setting forth the reason for his failure to register at the proper time.

SEC. 613.15 *Registration procedures for inmates of institutions.* 1. An inmate of an asylum, jail, penitentiary, reformatory, or similar institution, who is required to be registered on the day he leaves such institution shall be registered in the manner prescribed in this chapter. The superintendent or warden of any such institution or any person designated by the superintendent or warden shall be appointed registrar in accord with paragraph 5 of chapter 612.

2. When the Registration Card (SSS Form 1) is being filled out, the superintendent, warden, or other designated person, acting in his capacity as registrar, shall be certain that no reference is made on the Registration Card to indicate that the inmate was registered in an institution or by an official of an institution. If the inmate does not have a permanent place of residence or an address where he intends to be or where he can be located, the address of the local board in whose area the institution is located shall be entered in item 2 of the Registration Card (SSS Form 1). Under no circumstances shall the address of the institution be given as the place of residence or as the mailing address of the inmate who is being registered.

3. The superintendent, warden, or other appointed person acting as registrar shall then explain to the registrant his obligations under the Military Selective Service Act, particularly the requirement to keep his local board advised of his current mailing address.

SEC. 613.16 *Cancellation of registration.* Whenever it is determined that a registration is to be canceled in that the registrant is deceased, he has been transferred to another local board of jurisdiction, his registration was fictitious or erroneous, or represents a duplication of registration at one or more local boards, the local board will accomplish the following action to cancel the registration:

a. If possible, request the registrant to return the Registration Certificate, SSS Form 2, and Notice of Classification, SSS Form 110, and upon receipt mark these forms "Canceled" or "Canceled—Transferred to L.B. No. ------ (If known), State of ----------." Indicate the date of cancellation and place these in his file.

b. If the registration is canceled (except for transfers to another local board), write "Canceled—----------" (date) across the top margin of the SSS Forms 1, 100, 101, and other forms in the registrant's file as appropriate. Line out the registrant's name on the SSS Form 3, and send a supplemental Form 3 reflecting the cancellation to the State director. Line out the registrant's name on the SSS Form 102 and enter "Canceled" in the remarks column.

c. When the registrant is to be transferred to another local board indicate "Transferred to L.B. No. ------ (If known), State of ----------" in the remarks column on the SSS Form 102.

d. At the next scheduled local board meeting, the cancellation will be reported in the Minutes of Local Board Meeting—Continuation Sheet, SSS Form 112–A.

e. A Notice of Classification, SSS Form 110, will be initiated recording the new classification as "CANC" in accordance with the form's procedural directive. Copy 1 shall be sent to the Data Processing Center, and the remaining copies shall be destroyed.

f. The registrant's file shall be destroyed in accordance with current administrative procedures, unless the registrant is transferred to another local board, in which case his file will be forwarded to the State director for transmittal to the State director or local board to which the registrant is to be transferred.

SEC. 613.17 *Person registered more than once.* 1. If a registrant has registered more than once and has given different places of residence in item 2 of his Registration Card (SSS Form 1), each local board to which the registrant is assigned shall have jurisdiction over the registrant until proper jurisdiction is established.

2. When duplicate registration between local boards is discovered, the place of residence indicated at the first registration, if true, will determine the local board of jurisdiction.

3. When two or more local boards of a State cannot agree on the proper assignment of a registrant, the State director will resolve the matter of jurisdiction. When local boards in different States are involved, the State directors concerned will resolve the matter by mutual agreement. When resolved, the local board which relinquishes jurisdiction will cancel the registration in accordance with section 613.15 of this chapter.

SEC. 613.18 *Preparation of the List of Registrants (SSS Form 3).* Each local board will prepare a List of Registrants (SSS Form 3) in duplicate for each month, listing consecutively by selective service number all registrants assigned during that month. The preparation of this form may be continued throughout the month. The original copy will be forwarded to State headquarters not later than the 10th of the following month.

SEC. 613.19 *Change in date of birth.* Should a registrant furnish documentation establishing a new date of birth, prior to the day before the lottery is conducted to establish his random sequence number, it will be entered on the Classification Record (SSS Form 102) and corrected on page 1 and entered on page 2 of the Registrant File Folder (SSS Form 101), and the verifying evidence placed in the file folder. Should a registrant furnish documentation establishing a new date of birth later than the day before the lottery is conducted to establish his random sequence number, the verifying evidence shall be placed in his file folder and an entry made on page 2 of the file folder, but his date of birth shown on the SSS Form 102 and page 1 of the SSS Form 101 will not be changed.

CHAPTER 655—PROCESSING OF REGISTRANTS RESIDING IN FOREIGN COUNTRIES

1. *Purpose.* The purpose of this chapter of the Registrant Processing Manual is to establish procedures for the selective service processing of registrants residing in foreign countries.

2. *Registration.* Registration in foreign countries is accomplished by diplomatic and consular officials of the Department of State and by registrars appointed by those officers in the same manner as registrations accomplished within the United States. Each male citizen of the United States shall accomplish registration by reporting to the nearest U.S. consular office or designated registrar within the period which begins 30 days prior to the 18th anniversary of the day of his birth, and which ends 30 days after the 18th anniversary of the day of his birth, unless he has been registered by or will register with a local board within the continental United States, the State of Alaska, the State of Hawaii, Puerto Rico, the Virgin Islands, Guam, or the Canal Zone within the prescribed period.

3. *Place of residence.* The registrant may determine what place he desires to give as his residence when he is not located in the same place all of the time. If a registrant presents himself for registration outside of the continental United States, the State of Alaska, the State of Hawaii, Puerto Rico, the Virgin Islands, Guam, or the Canal Zone, he should, if possible, give a place of residence within one of those places, but in any case must give a place of residence. If the place of residence is outside the continental United States, the State of Alaska, the State of Hawaii, Puerto Rico, the Virgin Islands, Guam, or the Canal Zone, Local Board No. 100 (Foreign), Washington, D.C., shall have jurisdiction over the registrant.

4. *Transmittal of forms and communications.* All forms and communications to be transmitted to registrants in foreign countries shall be mailed in regular franked government envelopes stamped "Air Mail". No other supplementary postage is required.

5. *Local board processing of foreign registrations.* a. All registrations initiated by diplomatic or consular officials in foreign countries will be completed by the local board of jurisdiction upon receipt of the Registration Questionnaire (SSS Form 100). Assignment of selective service number, classification, preparation and mailing of Certificate of Registration (SSS Form 2) and Notice of Classification (SSS Form 110), completion of administrative entries, and creation of a registrant's file folder will be accomplished in accordance with current directives.

b. Upon entry into the continental United States, the State of Alaska, the State of Hawaii, Puerto Rico, the Virgin Islands, Guam, or the Canal Zone and establishing residence in any of these places, registrants assigned to Local Board No. 100 (Foreign) must notify that board of the address of their new place of residence. Except in cases where a registrant has a personal appearance or appeal pending, or is under an order to report for induction or alternate service, he will be transferred to the local board having jurisdiction over his new place of residence and his former registration with Local Board No. 100 (Foreign) will be canceled in accordance with current directives.

c. Registrants assigned to local boards other than Local Board No. 100 (Foreign) will not be transferred.

6. *Processing of transferred registrants.* Registrants transferred to the jurisdiction of a new local board will be processed in the same manner as a late registrant. Upon receipt of records of a transferred registrant, the new local board need not reopen and reclassify as a matter of routine.

7. *Registrant processing.* All registrants who registered in foreign countries shall be assigned random sequence numbers, classified, placed in selection groups, and processed for Armed Forces examination, induction or alternate service in lieu of induction in the same manner as registrants who registered within the continental United States, the State of Alaska, the State of Hawaii, Puerto Rico, the Virgin Islands, Guam, or the Canal Zone. The above instruction applies whether or not registrants may have subsequently entered into or established residence in any of these places, or whether they continue to reside in foreign countries, and regardless of whether they are assigned to District of Columbia Local Board No. 100 (Foreign) or any other local board.

However, all regular registrants in the group described in the above paragraph who were born in 1950 or prior years who were in Class 1–A, 1–A–O, or 1–O on December 31, 1970, shall be assigned to the second or lower priority selection group.

Registrants under the age of 35 years in the categories of physicians, dentists, and allied medical specialists will be processed in accordance with current directives to meet the needs of special calls from the Department of Defense when so required.

8. *Examination of registrants in Canada and Mexico.* Registrants residing in Canada and Mexico selected for examination will be processed as follows:

a. *Local board action.* Local boards will forward the following to registrants and place a copy of each in his Registrant File Folder:

(1) An Order to Report for Armed Forces Examination (SSS Form 223) establishing "Place of Reporting" as the address of the local board, and "Date" at least 30 days after issuance.

(2) A "Transmittal Letter for Examination of Registrants Residing in Canada or Mexico," reading as per enclosed sample.

Any medical information or doctor's statements in the registrant's file folder will not be forwarded to the Armed Forces Examining and Entrance Station (AFEES) in advance of the original date of scheduled examination. This information will be forwarded to the Transfer Board upon receipt of notification that a new SSS Form 223 has been issued in accordance with paragraph 8d of this section.

b. *Action by registrant.* Registrants desiring to transfer examination shall submit a request for transfer of Armed Forces examination together with the Order to Report for Armed Forces Examination (SSS Form 223) to the State Director of Selective Service of that State proximate to the area of Canada or Mexico in which they reside. A table indicating the addresses of these State directors is listed in the "Transmittal Letter for Registrants Residing in Canada or Mexico."

c. *Action by State director.* Upon receipt of the letter from the registrant requesting transfer of Armed Forces examination, the appropriate State director shall select a local board of transfer and forward the request for transfer and the Order to Report for Armed Forces Examination (SSS Form 223) to that local board.

d. *Action by transfer board.* This board shall initiate a new Order to Report for Armed Forces Examination (SSS Form 223), establishing the place of reporting, date, and the time in accordance with a regularly scheduled examination date of that local board. A copy of this order will be transmitted directly to the local board to which the registrant is assigned.

e. *Final action by transfer board.* When the registrant's medical records and results of examination are received from AFEES, the transfer board will forward them to the State director in whose jurisdiction the registrant is assigned, for transmittal to the local board to which the registrant is assigned.

V 37-75 APR 18 72 XUM

9. *Examination of registrants residing outside the United States except those in Canada and Mexico.* Registrants residing outside the United States, except those in Canada and Mexico, selected for Armed Forces examination will be processed as follows:

a. *Local board action.* Local boards will prepare the following and forward them to the registrant and place a copy of each in his Registrant File Folder:

(1) An Order to Report for Armed Forces Examination (SSS Form 223), establishing "Place of Reporting" as the address of the local board, and "Date" at least 30 days after issuance;

(2) A "Transmittal Letter for Examination of Overseas Registrants" reading per enclosed sample.

b. *Action by registrant.* Registrants desiring to be examined overseas are required to submit a written request for accomplishment of Armed Forces examination overseas to the Commander of the Army Area in which they reside.

Army Area Commander	*A.P.O. Address*
Pacific Area:	
Commander in Chief, U.S. Army, Pacific, Fort Shafter, Hawaii.	A.P.O. 96558, San Francisco, CA.
European Area:	
Commander in Chief, U.S. Army, Europe, Heidelberg, Germany.	A.P.O. 09403, New York, NY.
Caribbean Area:	
Commander in Chief, U.S. Army Forces, Southern Command, Fort Amador, Canal Zone.	A.P.O. 09834, New York, NY.

Instructions for submitting this request are contained in the "Transmittal Letter for Examination of Overseas Registrants," attached as part of this section.

c. *Processing by the U.S. Army.* The Army area commander in whose area of jurisdiction the registrant is located shall accomplish the following:

(1) Upon receipt of letter from the registrant requesting Armed Forces examination, the examination shall be scheduled and the registrant advised of the place, time and date to report for Armed Forces examination, and a copy of the communication shall be forwarded to the registrant's local board.

(2) Perform Armed Forces examination and other processing requirements in accordance with the applicable provisions of AR 601–270.

d. *Final action by local board.* Upon receipt of Statement of Acceptability (DD Form 62) the local board will forward the duplicate copy to the registrant and retain the original copy in his Registrant File Folder.

10. *Delivery for induction of registrants residing in Canada and Mexico.* Registrants selected for induction will be issued an Order to Report for Induction (SSS Form 252) giving "place of reporting as the address of the local board and "date" at least 30 days after issuance.

Assisting local boards proximate to the U.S. borders with Canada and Mexico shall provide transportation to registrants residing in Canada or Mexico from the assisting local board to the AFEES servicing its area and advise the AFEES commander of the expected time of the registrant's arrival at his AFEES. No delivery lists or other administration will be required of assisting local boards. Registrants in Class 1–O selected for processing to alternate service in lieu of induction will be processed in accordance with current directives.

11. *Delivery for induction of certain categories of registrants residing overseas.* The following categories of Selective Service registrants who have been selected for induction are entitled to receive transportation to the continental United States, Puerto Rico or Hawaii via military airlift to permit them to present themselves and submit to induction into the Armed Forces:

Registrants assigned to Local Board No. 100 (foreign) who reside outside the continental United States, the State of Alaska, the State of Hawaii, Puerto Rico, the Virgin Islands, Guam, the Canal Zone, Canada, and Mexico.

Registrants assigned to any other local board who registered outside the continental United States, the State of Alaska, the State of Hawaii, Puerto Rico, the Virgin Islands, Guam, or the Canal Zone and who have not subsequently entered into and established residence in any of these places and do not reside in Canada or Mexico.

These registrants will be processed as follows:

a. *Local board action.* Local boards shall prepare an Order to Report for Induction (SSS Form 252) in five copies, establishing "place of reporting" as the address of the local board, and "date" at least 30 days after issuance, a Record of Induction (DD Form 47) in five copies, and a Transmittal Letter for Delivery for Induction of Overseas Registrants in two copies. All copies of both SSS Form 252 and DD Form 47 shall be coded:

CIC:
S61230090000001

The above code identifying the Selective Service System is to be typed on the SSS Form 252 in the blank space immediately above the block provided for the local board stamp, and is to be typed on DD Form 47 in the "remarks" block (item 17.c.). Two-line code entries are required. The top line shall read CIC:. (NOTE.—All letters must be capitalized, followed by a colon; "CIC" is the abbreviation for Customer Identification Code.) The bottom line shall read S61230090000001. These documents will be distributed as follows:

(1) The original and one copy of SSS Form 252 and one copy of the transmittal letter will be sent to the registrant.

(2) Two copies of SSS Form 252 and one copy of transmittal letter will be retained in the registrant's file.

(3) Upon receipt of notification from an overseas Army area commander that he has approved the request of a registrant residing outside the continental United States, the State of Alaska, the State of Hawaii, Puerto Rico, the Virgin Islands, Guam, or the Canal Zone, to be delivered from an overseas point for induction, the local board shall prepare and/or forward to the Army area commander forms in number of copies as follows:

(a) Original and three copies of Record of Induction (DD Form 47);

(b) Original and one copy of the Report of Medical Examination (SF 88);

(c) Two copies of Report of Medical History (SF 93) with any X-ray film made at the time of Armed Forces physical examination, any waiver of disqualification, any order terminating civil custody, and any other such information concerning qualifications of the registrant for service in the Armed Forces.

In cases where the originals of the items mentioned in (b) and (c) are at the AFEES which examined the registrant, the local board shall request these items from the AFEES, so they may be forwarded to the overseas Army area commander by the local board.

(4) One copy of the Order to Report for Induction (SSS Form 252) and one copy of the Record of Induction (DD Form 47) will be forwarded to National Headquarters, Attention: ACFB.

b. *Processing by the U.S. Army area commander.* The Army area commander in whose jurisdiction the registrant resides shall complete the following:

(1) Upon receipt of letter from registrant requesting delivery for induction from overseas area, schedule such delivery by establishing time, date, and collection point for delivery processing.

(2) Authorize transportation of registrant from U.S. military airbase closest to his place of overseas residence to collection point if required.

(3) Advise registrant of the name and location of the military airbase and flight information for his transportation to the collection point and furnish him necessary travel authorization.

(4) When a registrant is to report to the collection point directly, advise him of time, date, and place of reporting for processing at collection point.

(5) Forward copy of the communication described in (3) or (4) to registrant's local board.

(6) Perform processing at collection point to determine registrant's acceptability for delivery for induction.

(7) Release registrants found not acceptable for induction into the Armed Forces during processing at the collection point. Registrants who were delivered to the collection point shall be authorized return air transportation when requested by the registrant.

(8) Provide registrants with necessary travel orders or MAC transportation requests for transportation to the United States and advise them of particular flight arrangements.

(9) Release physical examination and induction records to registrants for hand transmittal to local board and Armed Forces examining and entrance station

upon return to the continental United States.

c. *Delivery of registrants.* Registrants returning to the continental United States or Puerto Rico shall be required to report to local board aligned with port of aerial embarkation for transportation to the Armed Forces examining and entrance station handling inductions in their areas as follows:

ALIGNMENT CHART

Army area commander	Port of aerial embarkation	Local board and address	Location of AFEES
Europe	McGuire AFB, N. J.	No. 29: Carroll Bldg., 428 East State St., Trenton, NJ.	Philadelphia, Pa.
Caribbean	Charleston AFB, S.C.	No. 10: Federal Bldg., Room 333, Charleston, S.C.	Fort Jackson, S.C.
Pacific	McChord AFB, Wash.	No. 12: Hawthorne Bldg., 813 South K St., Tacoma, WA.	Seattle, Wash.
	Travis AFB, Calif.	No. 27: 422 Main St., Suisun, CA	Oakland, Calif.
	Morton AFB, Calif.	No. 130: 547 North Sierra Way, San Bernardino, CA.	Los Angeles, Calif.
Caribbean [1]	Ramey AFB, P. R.	No. 3: N. Acevedo St., Aguadilla, P.R.	San Juan, P.R.

[1] The Caribbean Army Area Commander may elect to forward certain overseas registrants to the AFEES in Puerto Rico to be processed for induction in lieu of delivering them to the continental United States when transportation arrangements so permit. In these cases, registrants will be so advised at the collection point and instructed to report to the aligned local board for delivery to AFEES accordingly.

The Pacific Army area commander has established procedures whereby registrants being delivered to Hickam Air Force Base or Honolulu International Airport in Hawaii, are to be instructed to report to the Army air traffic coordinating offices upon arrival, for transportation to the AFEES at Fort De Russy, Hawaii, for induction in lieu of reporting to a local board of Selective Service.

The registrant shall be responsible for providing his own housing, meals and transportation expenses incurred during the time between his departure from his place of residence overseas and his arrival at the overseas military air base to which he is ordered to report for delivery or processing, as well as during the time between his arrival in the United States and his reporting to the alined local board. The registrant must also pay for his housing, meals, and incidental expenses during his overseas travel and processing.

d. *Processing by alined local boards.* Alined local boards shall process overseas registrants reporting for induction as follows:

(1) Registrants shall be scheduled for special forwarding to Armed Forces examining and entrance stations handling inductions for each local area;

(2) Transportation by commercial or other expeditious means shall be provided;

(3) Registrants are to be given appropriate instructions regarding travel schedule and location of Armed Forces examining and entrance station;

(4) The commander of the Armed Forces examining and entrance station will be advised by the local board of expected time of registrant's arrival at his station.

12. *Induction of registrants residing overseas who have been selected for military service.* Registrants shall be processed by the Armed Forces examining and entrance stations for induction and disposition of records accomplished in accordance with AR 601–270.

13. *Ordering of registrants residing overseas to report for alternate service in lieu of induction.* Overseas registrants in Class 1–O selected for alternate service in lieu of induction may apply to their State director and request overseas work assignments. He shall provide guidance in the form of advice on approved employers having such work assignments available. Processing of registrants for assignments to alternate service shall be accomplished in accordance with current directives.

14. *Registrants residing overseas not inducted at Armed Forces examining and entrance stations.* Overseas registrants who fail to qualify for induction into the Armed Forces may either elect to be released from Armed Forces examining and entrance stations or request air transportation back to initial place of reporting for delivery or collection point established by the Army commander of the area of jurisdiction. In either case, the AFEES commander will return the registrant's records to his local board.

When the registrant elects to be returned overseas, the AFEES commander will prepare military travel authorization for return from the port of aerial embarkation to the overseas point at which registrant reported to the Army area commander for delivery for induction. AFEES commanders are requested to enter on all copies of military travel authorization in block 7, the rejection code as follows:

CIC:
S61240090000001

The registrant being returned shall report to the port of aerial embarkation and present military travel authorization in order to obtain return transportation overseas. The registrant shall be responsible for providing his own housing, meals and transportation expenses incurred during the time between his return to the local board from AFEES and departure of his overseas flight from the aerial port of embarkation in the United States, as well as during the time between his return to the military air base overseas at which he was originally ordered to report for delivery or processing and his arrival at his place of residence overseas. The registrant must also pay for his housing, meals, and incidental expenses during his overseas travel and processing.

Overseas registrants who fail to report for or submit to induction will be processed in accordance with AR 601–270. No further housing, feeding or return transportation to any place shall be provided.

15. *Special departure and entrance procedures.* Overseas registrants will be processed through Immigration and Customs offices at aerial ports of embarkation overseas and in the United States in accordance with Immigration and Naturalization Service and Customs Agency procedures.

SAMPLE LETTER FOR EXAMINATION OF REGISTRANTS RESIDING IN CANADA AND MEXICO

Dear _____,

You have been selected to take an Armed Forces examination to determine your acceptability for induction into the Armed Forces of the United States. The enclosed Order to Report for Armed Forces Examination (SSS Form 223) is the official notification issued by the Selective Service System. In lieu of reporting to this local board, you may be examined at an Armed Forces examining and entrance station in the United States closest to the area of Canada or Mexico in which you reside by doing the following:

CONTACT THE STATE DIRECTOR OF SELECTIVE SERVICE

Select from the following list of States the State Director of Selective Service whose State borders that part of Canada or Mexico in which you reside:

Canada

Maine:	State Director, Selective Service System, Federal Building, 40 Western Avenue, Augusta, ME 04330.
New York:	State Director, Selective Service System, Federal Building, 441 Broadway, Albany, NY 12207.
Michigan:	State Director, Selective Service System, Post Office Box 626, Lansing, MI 48903.
Minnesota:	State Director, Selective Service System, Room 1509, Post Office and Custom House, St. Paul, MN 55101.
North Dakota:	State Director, Selective Service System, Post Office Box 1417, Bismark, ND 58501.
Montana:	State Director, Selective Service System, Post Office Box 1183, Helena, MT 59601.
Washington:	State Director, Selective Service System, Post Office Box 5247, Tacoma, WA 98405.

Mexico

California:	State Director, Selective Service System, 801 I Street, Sacramento, CA 95814.
Arizona:	State Director, Selective Service System, Room 202, Post Office Building, 522 North Central Avenue, Phoenix, AZ 85004.
New Mexico:	State Director, Selective Service System, Post Office Box 5175, Sante Fe, NM 87501.
Texas:	State Director, Selective Service System, 209 West Ninth Street, Austin, TX 78701.

Write the State director immediately requesting that your Armed Forces examina-

V 37-75 APR 18 72 XUM

tion be accomplished by the Armed Forces examining and entrance station which handles the examinations for local boards in his State. You should include the following information in your letter:

a. Your full name.
b. Your Selective Service number.
c. Your present address.

d. The town or city within the United States nearest the Canadian or Mexican border in which a local board of Selective Service is located, if known to you. You may also wish to indicate a city which is most easily accessible by public means of transportation from the area of Canada or Mexico in which you reside.

YOUR EXAMINATION

The State director of Selective Service will advise you of the local board at which you are to report for transportation to the examining station and establish a new reporting date and time.

It is your responsibility to present yourself for examination at the time and place designated. Be sure to bring the Order to Report for Armed Forces Examination (SSS Form 223), to which this is attached, with you, and read all instructions carefully. You must pay all expenses going to and returning from the local board or AFEES. The Armed Forces examination is usually accomplished in one day; however, you should be prepared to be held over for special examination or tests for a period of up to 3 days if such is required to determine your acceptability or nonacceptability.

NOTIFICATION OF RESULTS OF YOUR EXAMINATION

You may be advised informally of the results of your Armed Forces examination when you take it at the military installation. However, the official notification will be sent to you by local board with which you are registered on a Statement of Acceptability (DD Form 62), which will indicate "Found Fully Acceptable" or "Found Not Acceptable" * * * "For Induction Under Current Standards".

If you are found "Fully Acceptable", you may be selected for induction into the Armed Forces of the United States when your lottery number is reached by your local board in filling calls for young men for military service.

If you are found "Not Acceptable" you may be subject to reexamination at a later date if the reason for your nonacceptability is considered of a temporary or minor nature.

SPECIAL INSTRUCTIONS

If you fail to report for the scheduled Armed Forces examination, or to contact the State Director of Selective Service nearest the area in which you reside regarding your examination, it is a serious violation of the Selective Service law, and you may be scheduled for induction into the Armed Forces in normal sequence without such examination.

By direction of the local board

SAMPLE TRANSMITTAL LETTER FOR EXAMINATION OF OVERSEAS REGISTRANT

Dear ----------,

You have been selected to take an Armed Forces examination to determine your acceptability for induction into the Armed Forces of the United States. The enclosed Order to Report for Armed Forces Examination (SSS Form 223) is the official notification issued by the Selective Service System. In lieu of reporting to this local board, you may be examined at an overseas examining facility of the U.S. Armed Forces by doing the following:

CONTACT THE ARMY COMMANDER OF YOUR OVERSEAS AREA

Select from the following list the closest Army area commander:

Army area commander	*APO address*
Pacific Area.—Commander in Chief, U.S. Army, Pacific, Fort Shafter, Hawaii.	APO 96558 San Francisco, CA.
European Area.—Commander in Chief, U.S. Army, Europe, Heidelberg, Germany.	APO 09403 New York, NY.
Caribbean Area.—Commander in Chief, U.S. Army Forces, Southern Command, Fort Amador, Canal Zone.	APO 09834 New York, NY.

Write this Army commander immediately requesting that your Armed Forces examination be accomplished at a U.S. military installation overseas. You should include the following information in your letter:

a. Your full name.
b. Your Selective Service number.
c. Your present address.

YOUR EXAMINATION

The Army commander will send you a new reporting date and place of examination. It is your responsibility to present yourself for examination at the time and place designated. Be sure to bring the enclosed prepared papers with you and read instructions on the Order to Report for Armed Forces Examination (SSS Form 223) carefully. You must pay all expenses going to, while at, and returning from the examining facility. The Armed Forces examination is usually accomplished in 1 day, however, you should be prepared to be held over for special examination or tests for a period of up to 3 days if such is required to determine your acceptability or nonacceptability.

NOTIFICATION OF RESULTS OF YOUR EXAMINATION

You may be advised informally of the results of your Armed Forces examination when you take it at the military installation. However, the official notification will be sent to you by the local board with which you are registered on a "Statement of Acceptability", DD Form 62, which will indicate "Found Fully Acceptable" or "Found Not Fully Acceptable" * * * "For Induction Under Current Standards".

If you are found "Fully Acceptable," you may be selected for induction into the Armed Forces of the United States when your lottery number is reached by your local board in filling calls for young men for military service.

If you are found "Not Acceptable" you may be subject to reexamination at a later date if the reason for your nonacceptability is considered of a temporary or minor nature.

SPECIAL INSTRUCTIONS

If you fail to report for the scheduled Armed Forces examination, or to contact the Army commander of your overseas area regarding being examined overseas, it is a serious violation of the Selective Service law, and you may be scheduled for induction into the Armed Forces in normal sequence without such examination.

By direction of the local board

SAMPLE TRANSMITTAL LETTER FOR DELIVERY FOR INDUCTION OF OVERSEAS REGISTRANT

Dear ----------,

You have been selected for induction into the Armed Forces of the United States.

Instead of reporting to this local board for delivery to the Armed Forces examining and entrance station handling inductions for this area as indicated in the Order to Report for Induction (SSS Form 252) to which this is is attached, you may request transportation from certain U.S. military airbases overseas to the United States for this induction. Upon your arrival in the United States, you are required to report to the local board of the Selective Service System aligned with the aerial port of embarkation at which you landed in the United States. That local board will provide transportation to an Armed Forces examining and entrance station where you will be inducted. If you wish to request transportation to the United States for induction, you must do the following:

CONTACT THE ARMY AREA COMMANDER

Select from the following list the closest Army area commander:

Army area commander	*APO address*
Pacific Area.—Commander in Chief, U.S. Army, Pacific, Fort Shafter, Hawaii.	APO 96558 San Francisco, Calif.
European Area.—Commander in Chief, U.S. Army, Europe, Heidelberg, Germany.	APO 09403 New York, N.Y.
Caribbean Area.—Commander in Chief, U.S. Army Forces, Southern Command, Fort Amador, Canal Zone.	APO 09834 New York, N.Y.

You must immediately write to the appropriate Army area commander, enclosing a copy of your Order to Report for Induction (SSS Form 252), to which this letter is attached, requesting that he arrange for your delivery for induction. Be sure to include in your letter the following information:

a. Your full name.
b. Your Selective Service number.
c. Your present address.

ACTION BY ARMY AREA COMMANDER

The Army area commander may advise you to report to a U.S. airbase closest to your place of overseas residence for transportation to the collection point where you will be processed before being returned to the continental United States for induction. He will forward military travel authorization which will serve as your airline ticket and advise you of the time, date and place to report for your flight, and the name of the MAC base and its location. The Army area commander may, on the other hand, advise you to report directly to the collection point at which you will be processed.

GOING TO THE OVERSEAS DELIVERY POINT

It is your responsibility to make your own transportation arrangements from your place of overseas residence to the military air base specified and to present yourself on the proper date at the time and place specified by the Army area commander. You are restricted to 66 pounds of total baggage including suitcases, briefcases and other hand luggage. You must pay for your own travel going to this military airbase. You must also pay for your housing, meals and incidental expenses during your overseas travel and processing. If you are not accepted for delivery as the result of overseas processing, you may be released if you reported directly to the collection point for processing or returned to the military airbase to which you originally reported for delivery. You should be prepared to pay for the return expenses to your overseas residence.

YOUR DELIVERY, PROCESSING OVERSEAS

You will be processed as follows:

a. Medical records from your Armed Forces physical examinaion will be reviewed and you will receive preliminary processing to determine your acceptability for military service.

b. You will be issued a MAC transportation request or travel order which will serve as your ticket for transportation via military airlift to the United States. You should have DD Form 47 available to show at all points of travel in order to assure continuous movement by MAC.

c. Since you will be requested to pass through customs and immigration stations both overseas and in the United States, be sure to accomplish the following:

(1) Bring your U.S. Passport or other proof of citizenship and immunization or vaccination records.

(2) Observe the various customs and agricultural regulations relative to transporting alcoholic beverages, drugs, plants, fruit and vegetables of a restricted nature, animals, and other items restricted from import.

d. The Army area commander's representative will provide information relative to your return flight and place your medical papers and induction record in your hands for delivery to the local board in the United States to which you must report. For overseas registrants being returned from the Pacific and Caribbean areas, the Army area commander may decide to provide transportation to Puerto Rico or Hawaii instead of the continental United States. In these cases, his representative will instruct you to report to the Armed Forces examining and entrance station in San Juan, P.R., or Honolulu, Hawaii, for induction rather than reporting to a Selective Service local board.

UPON ARRIVAL IN THE UNITED STATES

You are required to report to the local board of the Selective Service System alined with the port of aerial embarkation in the United States per the attached schedule. After processing through customs and immigration offices at the military installation, it is your responsibility to arrange and pay for your transportation to the local board office designated.

YOUR DELIVERY FOR INDUCTION

The executive secretary of the local board of Selective Service will provide a travel authorization or bus ticket for your transportation to the Armed Forces examining and entrance station servicing that area and give you instructions on reporting to the commander of the AFEES. She will advise you of the schedule for your arrival at the AFEES and advise the commander to expect you.

YOUR INDUCTION

You will be inducted into the Armed Forces under procedures which are under the control of the Department of the Army. After induction, you will be transported to an Army reception center for basic military training.

IF YOU ARE NOT ACCEPTED

If you are not accepted for induction into the Armed Forces you may (1) elect to be released from your order to report for induction at the AFEES upon your execution of a written waiver of your right to return transportation overseas, at which point you are free to leave the AFEES, or (2) request to be returned to the overseas military airbase to which you were instructed to report for delivery or processing by the overseas Army area commander in which case the following would take place:

a. The AFEES commander will provide (1) a bus ticket or travel authorization for your return from the AFEES to the local board to which you reported, and (2) a MAC transportation request or travel order for your return flight overseas to the point from which you departed for the United States and to the point of departure to the United States and travel to the military airbase to which you originally reported for delivery or processing. You should make certain that the commander of the AFEES rejecting you enters the correct code for rejection:

CIC:
S61240090000001
on the military travel authorization.

b. You must make your own arrangements for travel from the local board to the port of aerial embarkation in the United States and from the military airbase to which you originally reported for delivery or processing overseas to your place of residence, and pay for meals, housing, transportation and incidental expenses involved.

SPECIAL INSTRUCTIONS

1. If you fail to comply with the Order to Report for Induction (SSS Form 252) and this set of allied instructions, or fail to submit to induction for which you are ordered, such actions are in violation of the Selective Service law, and punishable by fine and/or imprisonment.

2. Overseas registrants arriving in the United States shall be required to report to the local board aligned with the port of aerial embarkation for transportation to the Armed Forces examining and entrance station handling inductions for their area as follows:

ALIGNMENT CHART

Army area commander	Port of aerial Embarkation	Local board and address	Location of AFEES
Europe	McGuire AFB, N.J.	No. 29: Carroll Bldg., 428 East State St., Trenton, NJ	Philadelphia, Pa.
Caribbean	Charleston AFB, S.C.	No. 10: Federal Bldg., Room 333, Charleston, S.C.	Fort Jackson, S.C.
Pacific	McChord AFB, Wash.	No. 12: Hawthorne Bldg., 813 South K St., Tacoma, WA.	Seattle, Wash.
	Travis AFB, Calif.	No. 27: 422 Mail St., Suisun, CA.	Oakland, Calif.
	Norton AFB, Calif.	No. 130: 547 North Sierra Way, San Bernardino, CA.	Los Angeles, Calif.
Caribbean[1]	Ramey AFB, P.R.	No. 3: M. Acevedo St., Aguadilla, P.R.	San Juan, P.R.

[1] The Caribbean Army Area Commander may elect to forward certain overseas registrants to the AFEES in Puerto Rico to be processed for induction in lieu of delivering them to the continental United States when transportation arrangements so permit. In these cases, registrants will be so advised at the collection point and instructed to report to the aligned local board for delivery to AFEES accordingly.

The Pacific Army area commander has established procedures whereby registrants being delivered to Hickam Air Force Base or Honolulu International Airport in Hawaii, are to be instructed to report to the Army air traffic coordinating offices upon arrival, for transportation to the AFEES at Fort De Russy, Hawaii, for induction in lieu of reporting to a local board of Selective Service.

By direction of the local board

CURTIS W. TARR,
Director.

MOTOR CARRIER TEMPORARY AUTHORITY APPLICATIONS

APRIL 12, 1972.

The following are notices of filing of applications [1] for temporary authority under section 210a(a) of the Interstate Commerce Act provided for under the new rules of Ex Parte No. MC–67 (49 CFR Part 1131), published in the FEDERAL REGISTER, issue of April 27, 1965, effective July 1, 1965. These rules provide that protests to the granting of an application must be filed with the field official named in the FEDERAL REGISTER publication, within 15 calendar days after the date of notice of the filing of the application is published in the FEDERAL REGISTER. One copy of such protests must be served on the applicant, or its authorized representative, if any, and the protests must certify that such service has been made. The protests must be specific as to the service which such protestant can and will offer, and must consist of a signed original and six copies.

A copy of the application is on file, and can be examined at the Office of the Secretary, Interstate Commerce Commission, Washington, D.C., and also in field office to which protests are to be transmitted.

[1] Except as otherwise specifically noted, each applicant (on applications filed after Mar. 27, 1972) states that there will be no significant effect on the quality of the human environment resulting from approval of its application.

MOTOR CARRIERS OF PROPERTY

No. MC 3252 (Sub-No. 79 TA), filed March 29, 1972. Applicant: MERRILL TRANSPORT CO., 1037 Forest Avenue, Portland, ME 04103. Applicant's representative: Francis E. [Notice 48]

MOTOR CARRIER TRANSFER PROCEEDINGS

Synopses of orders entered pursuant to section 212(b) of the Interstate Commerce Act, and rules and regulations prescribed thereunder (49 CFR Part 1132), appear below:

As provided in the Commission's special rules of practice any interested person may file a petition seeking reconsideration of the following numbered proceedings within 20 days from the date of publication of this notice.

Pursuant to section 17(8) of the Interstate Commerce Act, the filing of such a petition will postpone the effective date of the order in that proceeding pending its disposition. The matters relied upon by petitioners must be specified in their petitions with particularity.

No. MC-FC-73496. By order of April 11, 1972, the Motor Carrier Board, on reconsideration, approved the transfer to A & J Trucking Corp., Forest City, Mo., of the operating rights in certificate No. MC-117124 issued August 1, 1958, to Silas R. Kincaid, doing business as R. & K., Pine Bluff, Ark., authorizing the transportation of sand, gravel, dirt, and rock, broken or crushed, in dump vehicles, between points in North Dakota, South Dakota, Iowa, Nebraska, Kansas, and Missouri. Tom B. Kretsinger, 450 Professional Building, Kansas City, Mo. 64106, attorney for applicants.

No. MC-FC-73570. By order of April 11, 1972, the Motor Carrier Board approved the transfer to Noble Graham Transport, Inc., Brimley, Mich., of the operating rights in certificates Nos. MC-107162 (Sub-No. 1), MC-107162 (Sub-No. 11), MC-107162 (Sub-No. 13), MC-107162 (Sub-No. 14), MC-107162 (Sub-No. 15), MC-107162 (Sub-No. 16), MC-107162 (Sub-No. 17), MC-107162 (Sub-No. 19), MC-107162 (Sub-No. 20), MC-107162 (Sub-No. 23), and MC-107162 (Sub-No. 26) issued May 11, 1962, August 8, 1963, March 1, 1965, January 26, 1965, November 2, 1966, May 24, 1965, October 4, 1966, April 17, 1968, April 14, 1970, April 13, 1970, and June 7, 1971, respectively to Noble Graham, Brimley, Mich., authorizing the transportation of various commodities from and to specified points and areas in Alabama, Arkansas, Georgia, Illinois, Indiana, Iowa, Kansas, Kentucky, Michigan, Minnesota, Missouri, Nebraska, North Carolina, North Dakota, Ohio, South Carolina, South Dakota, Tennessee, Wisconsin, and Wyoming. John D. Varda, 121 South Pinckney Street, Madison, WI 53703, attorney for applicants.

No. MC-FC-73595. By order of April 11, 1972, the Motor Carrier Board approved the transfer to Sidney Lobb, Bonnieville, Ky., of the operating rights in permit No. MC-133463 (Sub-No. 1) issued June 15, 1970, to James T. Hodges, Sonora, Ky., authorizing the transportation of dairy products (except in bulk), supplies, and materials used in the production of dairy products (except in bulk), when moving in mixed loads with dairy products, between the plantsite and storage facilities of Breakstone Sugar Creek Foods Division of Kraftco Corp., at Indianapolis, Ind., and Louisville, Ky., on the one hand, and, on the other, points in Indiana, points in Kentucky, points in that part of Illinois on and south of U.S. Highway 36, points in that part of Tennessee on and west of U.S. Highway 231, points in that part of Alabama on and north of U.S. Highway 278, points in that part of Ohio on and south of U.S. Highway 40, and points in that part of West Virginia on and west of U.S. Highway 220. LaVern Martens, 450 East Illinois Street, Chicago, IL 60611, registered practitioner for applicants.

No. MC-FC-73597. By order of April 11, 1972, the Motor Carrier Board approved the transfer to Friederich Truck Service, Inc., O'Fallon, Ill., of the operating rights as set forth in certificates Nos. MC-75798, MC-75798 (Sub-No. 1), and MC-75798 (Sub-No. 2), issued May 20, 1949, March 21, 1950, and October 10, 1950, to Forrest J. Van Winkle, doing business as Van Winkle Truck Service, Mascoutah, Ill., authorizing the transportation of: General commodities, with the usual exceptions, and livestock and agricultural commodities, between specified points in Illinois and Missouri. Delmar O. Koebel, 107 West St. Louis, Lebanon, IL 62254, attorney for applicants.

No. MC-FC-73634. By order of April 11, 1972, the Motor Carrier Board approved the transfer to Joe H. Fitzgerald and Dudley H. Fitzgerald, doing business as Joe H. Fitzgerald & Son, Cynthiana, Ky., of the operating rights as set forth in certificates Nos. MC-116091, MC-116091 (Sub-No. 1), MC-116091 (Sub-No. 3), and MC-116091 (Sub-No. 5), issued December 16, 1957, October 6, 1959, March 21, 1963, and May 22, 1970, in the name of Stanley Lemons and Claude Lemons, doing business as Lemons Brothers, Cynthiana, Ky., authorizing the transportation of: Salt, fertilizer, animal and poultry feed, empty containers or other articles used in transporting animal and poultry feed, and meats, meat products, and meat byproducts, and articles distributed by meat packinghouses, from, to, or between points and places in Florida, Georgia, Indiana, Kentucky, Ohio, Tennessee, and West Virginia. Robert H. Kinker, Box 464, Frankfort, KY 40601, attorney for applicants.

No. MC-FC-73645. By order of April 11, 1972, the Motor Carrier Board approved the transfer to Leo O'Laughlin, Inc., Shelbina, Mo., of certificate No. MC-123804 issued March 20, 1962, to Leo O'Laughlin, Shelbina, Mo., authorizing the transportation of: Road construction materials and building supplies, in bulk, in dump vehicles, between specified points in counties in Missouri, Iowa, and Illinois. Thomas P. Rose, attorney, Post Office Box 205, Jefferson City, MO 65101.

No. MC-FC-73646. By order of April 12, 1972, the Motor Carrier Board approved the transfer to Ashton Trucking Co., Monte Vista, Colo., of permits Nos. MC-128788 (Sub-No. 1) and MC-128788 (Sub-No. 3), issued February 15, 1968, and March 25, 1969, respectively, to Tom McKee and Killian Mauz, doing business as McKee Trucking Co., Golden, Colo., authorizing the transportation of: Such commodities as are manufactured, processed, or sold by persons engaged in the milling of flour, and incidentally in the sale and distribution of feed, seed, grains, and beans, from the sites of the Colorado Milling & Elevator Co. at or near Denver, Colo., to points in New Mexico, and to Phoenix and Tucson, Ariz., and El Paso, Tex.; and mill feeds, in bulk, from the plantsites of the Colorado Milling & Elevator Co. at or near Denver, Colo., to Quinby, Kans. Dual operations authorized. Leslie R. Kehl, 420 Denver Club Building, Denver, Colo. 80202, attorney for applicants.

PLANT VARIETY PROTECTION

Notice of Proposed Rule Making

V 37 75 APR 18 72 XUM

DEPARTMENT OF AGRICULTURE

Agricultural Marketing Service [1]

[7 CFR Part 180]

PLANT VARIETY PROTECTION

Notice of Proposed Rule Making

Notice is hereby given in accordance with the administrative procedure provisions in 5 U.S.C. 553, that pursuant to the provisions of the Plant Variety Protection Act (84 Stat. 1542), the Agricultural Marketing Service proposes to issue regulations and rules of practice (7 CFR Part 180) for the administration of said Act.

Statement of considerations. The Plant Variety Protection Act (84 Stat. 1542) was signed into law on December 24, 1970. The Act provides for the formation of a Plant Variety Protection Office and for the promulgation of regulations for administration of the Act. The Act also makes appropriate the issuance of rules of practice governing proceedings arising under the Act.

The proposed regulations and rules of practice, to be included in new Subchapter H of Chapter I, Title 7, Code of Federal Regulations, are as follows:

SUBCHAPTER H—PLANT VARIETY PROTECTION

PART 180—REGULATIONS AND RULES OF PRACTICE UNDER THE PLANT VARIETY PROTECTION ACT

DEFINITIONS

Sec.
180.1 Meaning of words.

ADMINISTRATION

180.2 Plant Variety Protection Board.

THE APPLICATION

180.5 General requirements.
180.6 Application for certificate.
180.7 Statement of applicant.
180.8 Specimen requirements.
180.9 Drawings and photographs.
180.10 Parts of application to be filed together.
180.11 Application accepted and filed when received.
180.12 Number and filing date of application.
180.13 When the owner is deceased or legally incapacitated.
180.14 Joint applicants.
180.15 Assigned novel varieties and certificates.
180.16 Amendment by applicant.
180.17 Papers of completed applications to be retained.
180.18 Applications handled in confidence.
180.19 Publication of pending applications.
180.20 Abandonment for failure to respond within time limit.
180.21 Extension of time for reply.
180.22 Revival of application abandoned for failure to reply.
180.23 Voluntary withdrawal and abandonment of application.
180.24 Assignee.

EXAMINATIONS: ALLOWANCES; DENIALS

Sec.
180.100 Examination of applications.
180.101 Notice of allowance.
180.102 Amendments after allowance.
180.103 Issuance of certificate.
180.104 Application or certificate abandoned.
180.105 Denial of application.
180.106 Reply by applicant; request for reconsideration.
180.107 Reconsideration and final action.
180.108 Amendments after final action.

CORRECTION OF ERRORS IN CERTIFICATE

180.120 Corrected certificate—office mistake.
180.121 Corrected certificate—applicant's mistake.

ASSIGNMENTS AND RECORDING

180.130 Recording of assignments.
180.131 Conditional assignments.
180.132 Assignment records open to public inspection.

MARKING OR LABELING PROVISIONS

180.140 After filing.
180.141 After issuance.
180.142 For testing or increase.
180.143 Certified seed only.
180.144 Additional marking or labeling.

ATTORNEYS AND AGENTS

180.150 Right to be represented.
180.151 Authorization.
180.152 Revocation of authorization; withdrawal.
180.153 Persons recognized.
180.154 Government employees.
180.155 Signature.
180.156 Addresses.
180.157 Professional conduct.
180.158 Advertising.

FEES AND CHARGES

180.175 Fees and charges.
180.176 Fees payable in advance.
180.177 Method of payment.
180.178 Refunds.
180.179 Copies and certified copies.

AVAILABILITY OF OFFICE RECORDS
PROTEST PROCEEDINGS

180.190 When records are available.

180.200 Protests to the grant of a certificate.
180.201 Protest proceedings.

PRIORITY CONTEST

180.205 Definition, when declared.
180.206 Preparation for priority contest between applicants.
180.207 Preparation of priority papers and declaration of priority contest.
180.208 Burden of proof.
180.209 Preliminary statement on novel variety developed in the United States.
180.210 Preliminary statement on novel variety developed in a foreign country.
180.211 Statements sealed before filing.
180.212 Correction of statement on motion.
180.213 Failure to file statements.
180.214 Access to preliminary statements.
180.215 Dissolution at the request of commissioner.
180.216 Concession, abandonment.
180.217 Affidavits and exhibits.
180.218 Matters considered in determining priority.
180.219 Recommendation by commissioner.
180.220 Decision by commissioner.
180.221 Status of claims of defeated applicant.
180.222 Second priority contest.

APPEAL TO THE SECRETARY

Sec.
180.300 Petition to the secretary.
180.301 Commissioner's answer.
180.302 Decision by the secretary.
180.303 Action following decision.

GENERAL PROCEDURES IN PRIORITY AND PROTEST PROCEEDINGS

180.400 Extensions of time.
180.401 Miscellaneous provisions.
180.402 Service of papers.
180.403 Manner of service.

REVIEW OF DECISIONS BY COURTS

180.500 Appeal to U.S. courts.

CEASE AND DESIST PROCEEDINGS

180.600 Rules of practice.

PUBLIC USE DECLARATION

180.700 Public interest in wide usage.

PUBLICATION

180.800 Publication of public variety descriptions.

DEFINITIONS

§ 180.1 Meaning of words.

(a) *Construction of words.* Words used in the singular form in this part shall be deemed to import the plural, and vice versa, as the case may be.

(b) *Definitions.* The definitions of terms contained in the Act shall apply to such terms when used in this part. In addition, for the purposes of this part, the following terms shall be construed, respectively, to have the following meanings:

(1) "Abandoned application" means an application which has not been pursued to completion within the time allowed by the Office or has been voluntarily abandoned.

(2) "Act" means the Plant Variety Protection Act (7 U.S.C. 2321 et seq.).

(3) "Administrator" means the Administrator of the Agricultural Marketing Service of the U.S. Department of Agriculture or any other officer or employee of the Department of Agriculture to whom authority has heretofore been delegated or to whom authority may hereafter be delegated, to act in his stead.

(4) "Applicant" means the person who applied for a certificate of plant variety protection.

(5) "Application" means an application for plant variety protection under the Act.

(6) "Assignee" means a person to whom an owner assigns his rights in whole or in part.

(7) "Board" means the Plant Variety Protection Board appointed by the Secretary.

(8) "Certificate" means a certificate of plant variety protection issued under the Act by the Office.

(9) "Certified seed" means seed which: (i) Has been determined by an official seed certifying agency to conform to standards of genetic purity and identity as to variety approved by the Secretary; and (ii) bears an official label issued for such seed by a seed certifying agency certifying that the seed is of a specified class and a specified variety.

[1] Formerly Consumer and Marketing Service. Name changed to Agricultural Marketing Service effective Apr. 2, 1972, 37 F.R. 6327.

(10) "Commissioner" means the Examiner in Chief of the Office.

(11) "Decision and order" includes the Administrator's findings of fact; conclusions with respect to all material issues of fact and law as well as the reasons or basis therefor; and order.

(12) "Examiner" means an employee of the Plant Variety Protection Office who determines whether a certificate is entitled to be issued. The term shall, in all cases, include the Commissioner.

(13) "Foreign application" means an application for plant variety protection filed in a foreign country.

(14) "Hearing Clerk" means the Hearing Clerk, U.S. Department of Agriculture, Washington, D.C.

(15) "Hearing Officer" means an examiner of the Office of Hearing Examiners, U.S. Department of Agriculture, or other officer or employee of the Department of Agriculture, duly assigned to preside at a hearing held pursuant to the rules of this part.

(16) "Hybrid" shall be defined as set forth in the regulations under the Federal Seed Act (§ 201.2(y) of this chapter).

(17) "Office" or "Plant Variety Protection Office" means the Plant Variety Protection Office, Grain Division, Agricultural Marketing Service, U.S. Department of Agriculture.

(18) "Official Journal" means the "Official Journal of the Plant Variety Protection Office."

(19) "Owner" means a breeder who developed or discovered a variety for which plant variety protection may be applied for under the Act or a person to whom the rights to such variety have been assigned or transferred.

(20) "Person" means an individual, partnership, corporation, association, Government agency, or other business or governmental entity.

(21) "Secretary" means the Secretary of Agriculture of the United States or any other officer or employee of the U.S. Department of Agriculture to whom authority has heretofore been delegated or to whom authority may hereafter be delegated to act in his stead.

(22) "Seed certifying agency" shall be defined as set forth in the Federal Seed Act (53 Stat. 1275).

(23) "Sale for other than seed purposes" means the transfer of title to and possession of the seed by the owner thereof to a grower or other person for reproduction for the owner, for testing, or for experimental use, and not for commercial sale of the seed or the reproduced seed for planting purposes.

ADMINISTRATION

§ 180.2 Plant Variety Protection Board.

(a) The Plant Variety Protection Board shall consist of 14 members appointed for a 2-year term. The Board shall be constituted every 2 years and shall consist of individuals who are experts in various areas of varietal development. The membership of the Board shall include farmer representation and shall be drawn approximately equally from the private or seed industry sector and from the sector of Government or the public. No member shall be eligible to act on any matter involving any appeal or questions under section 44 of the Act in which he or his employer has a direct financial interest.

(b) The functions of the Board are to: (1) Advise the Secretary concerning adoption of rules and regulations to facilitate the proper administration of the Act, (2) make advisory decisions on all appeals from the examiner or Commissioner, (3) advise the Secretary on the declaration of a protected variety open to use in the public interest, and (4) advise the Secretary on any other matters under the regulations in this part.

(c) The proceedings of the Board shall be conducted in accordance with Executive Order No. 11007 dated February 26, 1962, Administrative Regulations of the U.S. Department of Agriculture, Agricultural Marketing Service Instruction No. 109-1, and such additional operating procedures as are adopted by the members of the Board.

THE APPLICATION

§ 180.5 General requirements.

(a) Protection under this Act shall be limited to nationals of the United States, except where this limitation would violate a treaty, and except that nationals of a foreign State shall be entitled to so much of the protection afforded under this Act as is afforded by said foreign State to nationals of the United States for the same genus and species.

(b) Applications for certificates shall be made to the Plant Variety Protection Office. An application shall consist of:

(1) A completed application form, except that the section specifying that seed of the variety shall be sold by variety name only as a class of certified seed need not be completed at the time of application.

(2) A completed set of the exhibits as specified in the application form, unless the examiner waives submission of certain exhibits as unnecessary based on other claims and evidence presented in connection with the application.

(3) Language and legibility:

(i) Applications and exhibits must be in the English language and legibly written, typed, or printed.

(ii) Any interlineation, erasure, cancellation, or other alteration must be made in permanent ink before the application is signed and shall be clearly initialed and dated by the applicant to indicate knowledge of such fact at the time of signing.

(c) Application and exhibit forms shall be issued by the Commissioner after consultation with the Board. (Copies of the forms may be obtained from the Plant Variety Protection Office, Grain Division, Agricultural Marketing Service, U.S. Department of Agriculture, 6525 Belcrest Road, Hyattsville, MD 20782.)

§ 180.6 Application for certificate.

(a) An application for a plant variety protection certificate shall be signed by the applicant.

(b) The application shall state the full name, including the full first name and the middle initial or name, if any, and the capacity of the person executing it.

§ 180.7 Statement of applicant.

(a) The applicant, by signing a completed application, states by reference to section 42 of the Plant Variety Protection Act that (1) he believes himself, or his privies, to be the original and first breeder or discoverer of the variety for which he solicits a certificate; (2) he, or his privies, has sexually reproduced the variety; (3) he does not know and does not believe that the variety was ever a public variety before his, or his privies, date of determination; (4) he is a sole or joint owner of the variety; (5) the variety was not a public variety more than 1 year prior to the effective filing date of the application; (6) before the date of determination of the variety by the owner, or his privies, or more than 1 year before the effective filing date of the application, the variety was not effectively available to workers in this country and adequately described by a publication reasonably deemed a part of the public technical knowledge in this country, which description must include a disclosure of the principal characteristics by which the variety is distinguished; (7) he or his privies have not filed an application for the protection of the variety in a foreign country more than 4 years prior to the effective filing date of the application filed in the United States.

(b) If any application for protection on the same variety has been filed or granted in a foreign country, either by the applicant or his privies, the applicant shall state the names of the countries in which such application(s) were filed or protection granted and shall give the day, month, and year of filing and day, month, and year protection was granted, if any.

(c) When an applicant files an application, cross-references to other related applications may be made, when appropriate.

§ 180.8 Specimen requirements.

(a) The applicant may be required by the examiner to furnish representative specimens of the variety, or its flower, fruit, or seeds, in a quantity and at a specified stage of growth, as may be necessary to verify the statements in the application. Such specimens shall be packed and forwarded in conformity with instructions furnished by the examiner. If the applicant requests the examiner to inspect plants in the field before a final decision is made, all such inspection costs shall be borne by the applicant by payment of fees sufficient to reimburse the Office for all costs, including travel, per diem or subsistence, and salary.

(b) Plant specimens submitted in support of an application shall not be removed from the Office except by an employee of the Office or other person authorized by the Secretary.

APR 18 72 XUM

(c) Plant specimens submitted to the Office shall, except as provided below, and upon request, be returned to the applicant at his expense after the specimens have served their intended purpose. The Commissioner, upon a finding of good cause, may require that certain specimens be retained in the Office for indefinite periods of time. Specimens which are not returned or not retained as provided above shall be destroyed.

§ 180.9 Drawings and photographs.

(a) Drawings or photographs submitted with an application shall disclose the distinctive characteristics of the variety.

(b) Drawings or photographs shall be in color when color is a distinguishing characteristic of the variety and the color shall be described by use of Nickerson's or other recognized color chart.

(c) Drawings should be sent flat, or may be sent in a suitable mailing tube in accordance with instructions furnished by the Commissioner.

(d) Drawings or photographs submitted with an application shall be retained by the Office as part of the application file.

§ 180.10 Parts of application to be filed together.

All parts of an application, including exhibits, should be submitted to the Office together; otherwise, each part shall be accurately and clearly referenced to the application.

§ 180.11 Application accepted and filed when received.

(a) An application if materially complete when initially submitted shall be accepted and filed to await examination.

(b) If any part of an application is so incomplete, or so defective that it cannot be handled as a completed application for examination, as determined by the Commissioner, the applicant will be notified before the Office requests an examination fee. The application will be held a maximum of 6 months for completion. Applications not completed at the end of the prescribed period will be considered abandoned. The application fee in such cases will not be refunded.

§ 180.12 Number and filing date of application.

(a) Applications shall be numbered and dated in sequence in the order received in the Office. Applicants will be informed in writing as soon as practicable of the number and effective filing date of the application.

(b) An applicant may claim the benefit of the filing date of a prior foreign application in accordance with section 55 of the Act. A certified copy of the foreign application shall be filed upon request made by the examiner. If a foreign application is not in the English language, an English translation certified as accurate by a sworn or official translator shall be submitted with the application.

§ 180.13 When the owner is deceased or legally incapacitated.

In case of the death of the owner or if the owner is legally incapacitated, the legal representative (executor, administrator, or guardian) or heir or assignee of the deceased owner may sign as the applicant. If an applicant dies between the filing of his application and the granting of a certificate thereon, the certificate may be issued to the legal representative, heir, or assignee, upon proper intervention by him.

§ 180.14 Joint applicants.

(a) Joint owners shall file a joint application by signing as joint applicants.

(b) If an application for certificate is made by two or more persons as joint owners when they were not in fact joint owners, the application shall be amended prior to issuance of a certificate by filing a corrected application together with a written explanation signed by the original applicants. Such statement shall also be signed by the assignee, if any.

(c) If an application has been made by less than all the actual joint owners, the application shall be amended by filing a corrected application together with a written explanation signed by all of the joint owners. Such statement shall also be signed by the assignee, if any.

(d) If a joint owner refuses to join in a corrected application or cannot be found after diligent effort, the remaining owner may file an application on behalf of himself and the missing owner. Such application shall be accompanied by a written explanation and shall state the last known address of the missing owner. Notice of the filing of the application shall be forwarded by the Office to the missing owner at his last known address. If such notice is returned to the Office undelivered, or if the address of the missing owner is unknown, notice of the filing of the application shall be published once in the Official Journal. Prior to the issuance of the certificate, a missing owner may join in an application by filing a written explanation. A certificate obtained by one of two or more joint owners under this paragraph conveys the same rights and privileges as though all of the original owners had joined in the original application.

§ 180.15 Assigned novel varieties and certificates.

In case the whole or a part interest in a variety is assigned, the application shall be made by the owner or one of the persons identified in § 180.13. However, the certificate may be issued to the assignee or jointly to the owner and the assignee when a part interest in a variety is assigned.

§ 180.16 Amendment by applicant.

An application may be amended before or after the first examination and action by the Office, after the second or subsequent examination or reconsideration as specified in § 180.107, or when and as specifically required by the examiner. Such amendment may include a specification that seed of the variety be sold by variety name only as a class of certified seed, if not previously specified. Once such specification is made, no amendment to reverse such a specification will be permitted unless the variety has not been sold and labeled or publication made in any manner that the variety is to be sold by variety name only as a class of certified seed.

§ 180.17 Papers of completed application to be retained.

The papers submitted with a completed application shall be retained by the Office. After issuance of a certificate of protection the Office will furnish copies of the application and related papers to any person upon payment of the specified fee.

§ 180.18 Applications handled in confidence.

(a) Pending applications shall be handled in confidence. Except as provided below, no information may be given by the Office respecting the filing of an application, the pendency of any particular application, or the subject matter of any particular application, nor will access be given to, or copies furnished of, any pending application or papers relating thereto, without written authority of the applicant, or his assignee or attorney or agent. Exceptions to the above may be made by the Commissioner upon a finding that such action is necessary to the proper conduct of the affairs of the Office or as provided in section 57 of the Act and § 180.19.

(b) Abandoned applications shall not be open to public inspection, except that if an abandoned application is directly referred to in an issued certificate, and is available, it may be inspected or copies obtained by any person on written request, and with written authority received from the applicant. Abandoned applications shall not be returned.

(c) Decisions of the Commissioner on abandoned applications not otherwise open to public inspection (see paragraph (b) of this section) may be published or made available for publication at the Commissioner's discretion. When it is proposed to release such a decision, the applicant shall be notified directly or through the attorney or agent of record and a time not less than 30 days shall be set for presenting objections.

§ 180.19 Publication of pending applications.

Information relating to pending applications shall be published in the Official Journal periodically as determined by the Commissioner to be necessary in the public interest. With respect to each application, the Official Journal shall show the (a) application number and date of filing, (b) the name of the variety or temporary designation, (c) the name of the kind of seed. Additional information, such as (d) the name and address of the applicant, (e) a brief description of the novel features of the variety, and (f) whether the applicant specified that the variety is to be sold by variety name only as a class of certified seed together with a limitation in the number of generations, may be published upon request or approval received from the applicant at the time the application is filed or at any time before the notice of allowance of a certificate is issued.

§ 180.20 Abandonment for failure to respond within time limit.

(a) Except as otherwise provided in § 180.104, if an applicant fails to advance actively his application within 6 months after the date when the last request for action was mailed to him by the Office, or within such longer time as may be fixed by the Commissioner, the application shall be deemed abandoned.

(b) The submission of an amendment to the application, not responsive to the last request by the Office for action, and any proceedings relative thereto, shall not operate to save the application from abandonment.

(c) When the applicant makes a bona fide attempt to advance his application, and is in substantial compliance with the request for action, but has inadvertently failed to comply with some procedural requirement, opportunity to comply with the procedural requirement shall be given to the applicant before the application shall be deemed abandoned. The Commissioner may set a shortened period, not less than 30 days, to correct any deficiency in the application.

§ 180.21 Extension of time for reply.

The time for reply by an applicant to a request by the Office for certain action, shall be extended by the Commissioner only for good and sufficient cause, and for a specified reasonable time. A request for extension shall be filed on or before the specified time for reply. In no case shall the mere filing of a request for extension require the granting of an extension or stay the time for reply.

§ 180.22 Revival of application abandoned for failure to reply.

An application abandoned for failure on the part of the applicant to advance actively his application to its completion, in accordance with the regulations in this part, may be revived as a pending application upon a finding by the Commissioner that the failure was inadvertent or unavoidable and without fraudulent intent. A request to revive an abandoned application shall be accompanied by a written statement showing the cause of the failure to respond, a response to the last request for action, and by the specified fee.

§ 180.23 Voluntary withdrawal and abandonment of application.

(a) An application may be voluntarily withdrawn or abandoned by submitting to the Office a written request for withdrawal or abandonment signed by the applicant or his attorney or agent of record, if any, or the assignee of record, if any.

(b) An application which has been voluntarily abandoned may be revived within 3 months of such abandonment by the payment of the prescribed fee and a showing that the abandonment occurred without fraudulent intent.

(c) An original application which has been voluntarily withdrawn shall be returned to the applicant and may be reconsidered only by refiling and payment of a new application fee.

§ 180.24 Assignee.

The assignee of record of the entire interest in an application is entitled to advance actively or abandon the application to the exclusion of the applicant.

EXAMINATIONS, ALLOWANCES, AND DENIALS

§ 180.100 Examination of applications.

Examinations of applications shall include a review of all available documents, publications, or other material relating to varieties of the species involved in the application, except that if there are fundamental defects in the application, as determined by the examiner, the examination may be limited to an identification of such defects and notification to the applicant of needed corrective action. However, matters of form or procedure need not, but may, be raised by an examiner until a variety is found to be novel and entitled to protection.

§ 180.101 Notice of allowance.

(a) If, on examination, it shall appear that the applicant is entitled to a certificate, a notice of allowance shall be sent to him or his attorney or his agent of record, if any, calling for the payment of the prescribed fee, which fee shall be paid within 3 months from the date of the notice of allowance. Thereafter, a fee for delayed payment shall be made as required under § 180.175.

(b) Upon request by the Office, the applicant shall submit a reasonable quantity of the viable basic seed required to reproduce the novel variety, as determined by the Commissioner. Failure to deposit viable basic seed within 3 months of the date of request shall result in the application being considered abandoned.

§ 180.102 Amendments after allowance.

Amendments to the application after the notice of allowance is issued may be made, if the certificate has not been issued.

§ 180.103 Issuance of certificate.

(a) After the notice of allowance has been issued, the prescribed fee and sample of viable basic seed received by the Office, and the applicant has clearly specified whether or not the variety shall be sold by variety name only as a class of certified seed, the certificate shall be promptly issued. Once an election is made and a certificate issued specifying that seed of the variety shall be sold by variety name only as a class of certified seed no waiver of such rights shall be permitted by amendment of the certificate.

(b) The certificate shall be delivered or mailed to the owner or assignee of an interest therein or to the attorney or agent of record, if any.

§ 180.104 Application or certificate abandoned.

(a) Except as provided in paragraph (c) of this section, if the fee specified in the notice of allowance is not paid within 3 months from the date of the notice or request, the application shall be considered abandoned.

(b) Upon request by the Office, the owner shall replenish the viable basic seed of the novel variety. Upon request, the sample of seed which has been replaced shall be returned to the owner, otherwise it shall be destroyed. Failure to replenish viable basic seed within 3 months from the date of request shall result in the certificate being regarded as abandoned. No sooner than 1 year after the date of such request, notices of abandoned certificates shall be published in the Official Journal indicating that the variety has become open for use by the public and, if previously specified to be sold by variety name as "certified seed only," that such restriction no longer applies.

(c) If the allowance fee, the viable basic seed or the fee, if any, for delayed payment are submitted within 9 months of the final due date, it may be accepted by the Commissioner as though no abandonment had occurred.

(d) A certificate may be voluntarily abandoned by the applicant or his attorney or agent of record, if any, or the assignee of record, if any, by notifying the Commissioner in writing. Upon receipt of such notice, the Commissioner shall publish a notice in the Official Journal that the variety has become open for use by the public, and if previously specified to be sold by variety name as "certified seed only," that such restriction no longer applies.

§ 180.105 Denial of application.

(a) If the variety is found by the examiner to be not novel as claimed, the application shall be denied.

(b) In denying an application for want of novelty, the examiner shall cite the reasons the application was denied. When a reason involves the citation of certain material which is complex, the particular part of the material relied on shall be designated as nearly as practicable. The pertinence of each reason, if not obvious, shall be clearly explained.

(c) If prior domestic certificates are cited as a reason for denial, their numbers and dates and the names of the owners shall be stated. If prior foreign certificates or rights are cited, as a reason for denial, their nationality or country, numbers and dates, and the names of the owners shall be stated, and such other data shall be furnished as may be necessary to enable the applicant to identify the cited certificates or rights.

(d) If printed publications are cited as a reason for denial, the author (if any), title, date, pages or plates, and places of publication, or place where a copy can be found shall be given.

(e) When a denial is based on facts known to the examiner, and upon request

V 37 I 75 APR 18 72 XUM

by the applicant, the denial shall be supported by the affidavit of the examiner. Such affidavit shall be subject to contradiction or explanation by the affidavits of the applicant and other persons.

(f) Abandoned applications may not be cited as reasons for denial.

§ 180.106 Reply by applicant; request for reconsideration.

(a) After an adverse action by the Office, the applicant may respond to the denial and may request a reconsideration, with or without amendment of his application. Any amendment shall be responsive to the reason or reasons for denial specified by the examiner.

(b) To obtain a reconsideration the applicant shall submit a request for reconsideration in writing and shall specifically point out the alleged errors in the examiner's action. The applicant shall respond to each reason cited by the examiner as the basis for the adverse action. A request for reconsideration of a denial based on a faulty form or procedure may be held in abeyance by the Commissioner until the question of novelty is settled.

(c) An applicant's request for a reconsideration must be a bona fide attempt to advance the case to final action. A general allegation by the applicant that certain language which he cites in his application or amendment thereto establishes novelty without specifically explaining how the language distinguishes the alleged novel variety from the material cited by the examiner shall not be grounds for a reconsideration.

§ 180.107 Reconsideration and final action.

If, upon reconsideration, the application is denied by the Commissioner, the applicant shall be notified by the Commissioner of the reason or reasons for denial in the same manner as after the first examination. Any such denial shall be final unless appealed by the applicant to the Secretary within 60 days from the date of denial in accordance with §§ 180.300–180.303. If the denial is sustained by the Secretary on appeal, the denial shall be final subject to appeal to the courts as provided in § 180.500.

§ 180.108 Amendments after final action.

(a) After a final denial by the Commissioner, amendments to the application may be made to overcome the reason or reasons for denial. The acceptance or refusal of any such amendment by the Office and any proceedings relative thereto, shall not relieve the applicant from the time limit set for an appeal or an abandonment for failure to reply.

(b) No amendment of the application can be made in an appeal proceeding. After decision on appeal, amendments can only be made to carry into effect a recommendation under § 180.302(b).

CORRECTION OF ERRORS IN CERTIFICATE

§ 180.120 Corrected certificate—Office mistake.

When a certificate is incorrect because of a mistake in the Office, the Commissioner may issue a certificate of correction stating the fact and nature of such mistake, under seal, without charge, to be issued to the owner and recorded in the records of the Office, or the Commissioner may issue a corrected certificate without charge in lieu of and with like effect as a certificate of correction, in accordance with section 84 of the Act.

§ 180.121 Corrected certificate—applicant's mistake.

When a certificate is incorrect because of a minor mistake by the applicant, and the mistake is found by the Commissioner to have occurred in good faith and does not require a further examination, the Commissioner may, upon payment of the required fee, correct the certificate by issuing a certificate of correction stating the fact and nature of such mistake, under seal, to be issued to the owner and recorded in the records of the Office, in accordance with section 85 of the Act. If the mistake requires a reexamination, a correction of the certificate shall be dependent on the results of the reexamination.

ASSIGNMENTS AND RECORDING

§ 180.130 Recording of assignments.

(a) Any assignment of an application for a certificate, or of a certificate of plant variety protection, or of any interest in a variety, or any license or grant and conveyance of an exclusive right to use of the variety, may be submitted for recording in the Office in accordance with section 101 of the Act (7 U.S.C. 2531).

(b) No instrument shall be recorded which is not in the English language or which does not identify the certificate or application to which it relates.

(c) An instrument relating to title of a certificate shall identify the certificate by number and date, the name of the owner, and the name of the novel variety as stated in the certificate. An instrument relating to title of an application shall identify an application by number and date of filing, the name of the owner, and the name of the novel variety as stated in the application.

(d) If an assignment is executed concurrently with or subsequent to the filing of an application but before its number and filing date are ascertained, the assignment shall identify the application by the date of the application, the name of the owner, and the name of the novel variety.

§ 180.131 Conditional assignments.

Assignments recorded in the Office are regarded as absolute assignments for Office purposes until canceled in writing by both parties to the assignment or by a decree of a court of competent jurisdiction. The Office shall not determine whether conditions precedent to the assignment, such as the payment of money, have been fulfilled.

§ 180.132 Assignment records open to public inspection.

(a) Assignment records relating to original or amended certificates shall be open to public inspection and copies of any recorded document may be obtained upon payment of the prescribed fee.

(b) Assignment records relating to any pending or abandoned application shall not be available for inspection except to the extent that pending applications are published as provided in section 57 of the Act and § 180.19. Copies of assignment records and information on pending or abandoned applications shall be obtainable only upon written authority of the applicant or his assignee, or attorney or agent of record. An order for a copy of an assignment shall give the proper identification of the assignment.

MARKING OR LABELING PROVISIONS

§ 180.140 After filing.

Upon filing an application for protection of a novel variety and payment of the prescribed fee, the owner, or his designee, may label the variety or containers of the seed of the variety or plants produced from such seed, substantially as follows: "Unauthorized Propagation Prohibited—(Unauthorized Seed Multiplication Prohibited)—U.S. Variety Protection Applied For."

§ 180.141 After issuance.

Upon issuance of a certificate the owner of the novel variety or his designee may label the variety or containers of the seed of the variety or plants produced from such seed substantially as follows: "Unauthorized Propagation Prohibited—(Unauthorized Seed Multiplication Prohibited)—U.S. Protected Variety."

§ 180.142 For testing or increase.

An owner who contemplates filing an application and releases for testing or increase seed of the variety or other sexually reproducible plant material produced from seed of the variety, may label such plant material or containers of the seed or plants substantially as follows: "Unauthorized Propagation Prohibited—For Testing (or Increase) Only."

§ 180.143 Certified seed only.

(a) Upon filing an application, or amendment thereto, specifying seed of the variety is to be sold by variety name only as a class of certified seed, the owner, or his designee, may label containers of seed of the variety substantially as follows: "Unauthorized Propagation Prohibited—U.S. Variety Protection Applied for Specifying That Seed of This Variety Is To Be Sold By Variety Name Only as a Class of Certified Seed."

(b) An owner who has received a certificate specifying that a variety is to be sold by variety name only as a class of certified seed may label containers of the seed of the variety substantially as follows: "Unauthorized Propagation Prohibited—To Be Sold By Variety Name Only as a Class of Certified Seed—U.S. Protected Variety."

§ 180.144 Additional marking or labeling.

Additional clarifying information that is not false or misleading may be used by the owner in addition to the above markings or labeling.

ATTORNEYS AND AGENTS

§ 180.150 Right to be represented.

An applicant may actively advance an application or he may be represented by any attorney or agent authorized in writing by him.

§ 180.151 Authorization.

Only attorneys or agents specified by the applicant shall be allowed to inspect papers or take action of any kind on behalf of the applicant in any pending application or proceedings.

§ 180.152 Revocation of authorization; withdrawal.

An authorization of an attorney or agent may be revoked by an applicant at any time, and an attorney or agent may withdraw, upon application to the Commissioner. When the authorization is so revoked, or the attorney or agent has so withdrawn, the Office shall inform the interested parties and shall thereafter communicate directly with the applicant, or with such other attorney or agent as the applicant may appoint. An assignment will not of itself operate as a revocation of authorization previously given, but the assignee of the entire interest may revoke previous authorizations and be represented by an attorney or agent of his own selection.

§ 180.153 Persons recognized.

Unless specifically authorized as provided in § 180.151, no person shall be permitted to file or advance applications before the Office.

§ 180.154 Government employees.

Officers and employees of the United States who are disqualified by statute (18 U.S.C. 203 and 205) from practicing as attorneys or agents in proceedings or other matters before Government departments or agencies, shall not be eligible to represent applicants, except officers and employees whose official duties require the prepartion and prosecution of applications for certificates of variety protection.

§ 180.155 Signatures.

Every document filed by an attorney or agent representing an applicant or party to a proceeding in the Office shall bear the signature of such attorney or agent, except documents which are required to be signed by the applicant.

§ 180.156 Addresses.

Attorneys and agents practicing before the Plant Variety Protection Office shall notify the Office in writing of any change of address. The Office shall address letters to any such person at the last address received.

§ 180.157 Professional conduct.

Attorneys and agents appearing before the Office shall conform to the standards of ethical and professional conduct generally applicable to attorneys before the courts of the United States.

§ 180.158 Advertising.

(a) The use of advertising, circulars, letters, cards, and similar material to solicit plant variety protection business, directly or indirectly, is forbidden as unprofessional conduct, and any person engaging in such solicitation, or associated with or employed by others who so solicit, shall be refused recognition to practice before the Office or may be suspended, excluded, or disbarred from further practice before the Office.

(b) The use of simple professional letterheads, calling cards, or office signs, simple announcements necessitated by opening an office, change of association, or change of address, distributed to clients and friends and insertion of listings in common form (not display) in a classified telephone or city directory, and listings and professional cards with biographical data in standard professional directories shall not be considered a violation of this section.

FEES AND CHARGES

§ 180.175 Fee and charges.

The following fees and charges apply to the services and actions specified below:

(a) Filing application	$250
(b) Search or examination	250
(c) Allowance and issuance of certificates	250
(d) To revive an abandoned application	50
(e) Reproductions of records, drawings, certificates, exhibits, or printed material (copy per page of material)	1
(f) Authentication (each document)	1
(g) Correcting certificate	10
(h) Recording assignments	5
(i) Copies of 8 x 10 photographs in color	12
(j) Additional fee for reconsideration	25
(k) Additional fee for late issue	25
(l) Additional fee for late replenishment of seed	25
(m) Appeal to Secretary	50

(n) Field inspections by a representative of the Plant Variety Protection Office made at the request of the applicant shall be reimbursable in full (including travel, per diem or subsistence, and salary) in accordance with Standardized Government Travel Regulations.

(o) Any other services not covered above will be charged for at rates prescribed by the Commissioner, but in no event shall they exceed $20 per man-hour.

§ 180.176 Fees payable in advance.

Fees and charges shall be paid at the time of making application or at the time of submitting a request for any action by the Office for which a fee or charge is payable and established in this part.

§ 180.177 Method of payment.

Checks or money orders shall be made payable to the Treasurer of the United States. Remittances from foreign countries must be payable and immediately negotiable in the United States for the full amount of the prescribed fee. Money sent by mail to the Office shall be sent at the risk of the sender.

§ 180.178 Refunds.

Money paid by mistake or excess payments shall be refunded, but a mere change of plans after the payment of money, as when a party decides to withdraw an application or to withdraw an appeal, shall not entitle a party to a refund. Amounts of $1 or less shall not be refunded unless specifically demanded.

§ 180.179 Copies and certified copies.

(a) Upon request, copies of applications, certificates, or of any records, books, papers, drawings, or photographs in the custody of the Office and which are open to the public, will be furnished to persons entitled thereto, upon payment of the prescribed fee.

(b) Upon request, copies will be authenticated by imprint of the seal of the Office and certified by the official authorized by the Commissioner upon payment of the prescribed fee.

AVAILABILITY OF OFFICE RECORDS

§ 180.190 When open records are available.

Copies of records which are open to the public and in the custody of the Office may be examined in the Office during regular business hours upon approval by the Commissioner.

PROTEST PROCEEDINGS

§ 180.200 Protests to the grant of a certificate.

Opposition on the part of any person to the grant of a certificate shall be permitted while an application is pending and for a period not to exceed 5 years following the issuance of a certificate.

§ 180.201 Protest proceedings.

(a) Opposition shall be made by submitting in writing a petition for protest proceedings, which petition shall be supported by affidavits and shall show the reason or reasons for opposing the application or certificate. The petition and accompanying papers shall be filed in duplicate. If it appears to an examiner that a variety involved in a pending application or covered by a certificate may not be or may not have been entitled to protection under the Act, a protest proceeding may be permitted by the Commissioner.

(b) One copy of the petition and accompanying papers shall be served by the Office upon the applicant or owner, or his attorney or agent of record.

(c) An answer, by the applicant or owner of the certificate or his assignee, in response to the petition may be filed with the Commissioner within 60 days after service of the petition upon such person. If no answer is filed within said period, the Commissioner shall decide the

APR 18 72 XUM

matter on the basis of the allegations set forth in the petition.

(d) If the petition and answer raise any issue of fact needing proof, the Commissioner shall afford each of the parties a period of 60 days in which to file sworn statements or affidavits in support of their respective positions.

(e) As soon as practicable after the petition or the petition and answer are filed or after the expiration of any period for filing sworn statements or affidavits, the Commissioner shall issue his decision as to whether the protests had been upheld or denied. The Commissioner may, following the protest proceeding, cancel any certificate issued and may grant another certificate for the same novel variety to a person who proves to the satisfaction of the Commissioner, that he is the breeder or discoverer. The decision shall be served upon the parties in the manner provided in § 180.403.

PRIORITY CONTEST

§ 180.205 Definition; when declared.

A priority contest may be instituted by the Secretary, on his own motion, or upon the request of any person who has applied for protection on the same variety for which an adverse certificate has been issued, for the purpose of determining the question of priority between two or more parties claiming development or discovery of the same novel variety: *Provided, however,* That any person shall have forfeited his right to assert priority when an adverse certificate has been issued if he fails to make a request for the institution of a priority contest within 1 year of the publication in the Official Journal of issuance of the adverse certificate by the Secretary or if he fails to make the request within the period for taking action after refusal of his application on the basis of the adverse certificate.

§ 180.206 Preparation for priority contest between applicants.

(a) Before a priority contest will be handled by the Office, an examiner must determine that the same novel variety is involved in separate applications filed by two or more parties and apparently certifiable to each of the parties, subject to the determination of the question of priority.

(b) The fact that a certificate has been issued will not prevent a priority contest.

§ 180.207 Preparation of priority papers and declaration of priority contest.

(a) When a priority question is found to exist, the examiner shall forward the pertinent files to the Commissioner together with a written statement showing the reason for the contest.

(b) The Commissioner shall institute and declare the priority contest by forwarding a notice to each of the applicants involved. Each notice shall include the name and residence of each of the other applicants or those of his attorney or agent, if any, and of any assignee, and will identify the application of each opposing party by number and filing date, or in the case of a certificate, by the number and date of the certificate. The notice shall specify the basis of the priority contest. The notice shall specify a time, not to exceed 2 months, for filing preliminary statements.

(c) When a notice is returned to the Office undelivered, or when one of the parties resides abroad and his agent in the United States is unknown, notice may be given by publication once in the Official Journal.

§ 180.208 Burden of proof.

The parties to a priority contest will be presumed to have developed their varieties in the chronological order of the filing dates of their applications for certificates involved in the priority contest, and the burden of proof will rest upon the party who last filed an application.

§ 180.209 Preliminary statement on novel variety developed in the United States.

(a) Each party to the priority contest is required to file on or before a date fixed by the Office, a concise preliminary statement giving the facts and dates relating to the development of his alleged novel variety. The preliminary statement must be signed by the owner: *Provided, however,* That in appropriate circumstances, as when the owner is dead or legally incapacitated or a showing is made of inability to obtain a statement from the owner, the preliminary statement may be made by the assignee or by someone authorized or entitled to make the statement and having knowledge of the facts.

(b) Preliminary statements shall be filed with the Office in duplicate. A copy shall be forwarded to each opposing party by the Office as soon as practicable after both parties have filed their statements within the requisite period.

(c) In filing a preliminary statement each party must show the following information:

(1) The date upon which the first determination of the novel variety was made.

(2) The date upon which the first written description of the novel variety was made. If a written description of the novel variety has not been made prior to the filing date of the application, it must be so stated.

(3) The date of the first act or acts susceptible of proof (other than making a written description or disclosing the novel variety to another person), which, if proven, would establish determination of the novel variety, and a brief description of such act or acts. If there have been no such acts, it must be so stated.

(4) The date of the actual production of the novel variety. If the novel variety had not been actually produced before the filing date of the application, it must be so stated.

(d) When an allegation as to the first written description (paragraph (c)(2) of this section) is made, a copy of such written description shall be attached to the statement.

(e) If a party intends to rely solely on a prior application, domestic or foreign, and on no other evidence, the preliminary statement shall clearly identify such prior application. Copies of the cited application and related documents will be served by the Office to all interested parties to the contest. In the case of an application filed in a foreign country, translations shall be served upon all interested parties by the party relying on the application filed in the foreign country.

§ 180.210 Preliminary statement on novel variety developed in a foreign country.

When the novel variety was developed in a foreign country, the preliminary statement must show (a) the information specified in § 180.209(c) through (e) and (b) whether, and if so, when and under what circumstances the novel variety was introduced into the United States by or on behalf of the party.

§ 180.211 Statements sealed before filing.

The preliminary statement shall be submitted in a sealed envelope bearing the name of the party filing it and the number and title of the priority contest as shown on the notice issued by the Office. The envelope should be enclosed in an outer mailing envelope marked "To Be Opened by the Commissioner."

§ 180.212 Correction of statement on motion.

In case of material error arising through inadvertence or mistake, a preliminary statement may be corrected upon a satisfactory showing to the Commissioner that the correction is of material significance. Correction of the statement must be made as soon as practicable after the discovery of the error.

§ 180.213 Failure to file statements.

If any party to a priority contest fails to file a preliminary statement, he shall be restricted to his earliest effective filing date.

§ 180.214 Access to preliminary statements.

The preliminary statements shall be open to the inspection of any party after the date set for the filing of preliminary statements (§ 180.207(b)), but shall not be open to inspection prior to that time.

§ 180.215 Dissolution at the request of commissioner.

If during a priority contest, information is submitted or found which, in the opinion of the Commissioner, may render the variety ineligible for a certificate, the priority contest may be suspended by the Commissioner and referred to an examiner for consideration of the matter and the parties will be notified of the reason for the suspension. Arguments of the parties regarding the suspension will be considered if filed within 60 days of the notification. The suspension will then be continued, modified, or dismissed in accordance with the determination by the Commissioner.

§ 180.216 Concession; abandonment.

(a) An applicant or a certificate holder involved in a priority contest may, at any time, file a written concession of priority, or abandonment of the certificate, signed by the breeder, or by the assignee, if any. Upon the filing of such an instrument by any party, the decision shall be rendered against him by the Commissioner.

(b) A concession of priority may not be made by an assignee of a part interest.

§ 180.217 Affidavits and exhibits.

Affidavits and exhibits, including official records and any special matter contained in a printed publication, pertinent to the issue involved in the contest, may be introduced in evidence in a priority contest by any party to the contest. In the case of official records and printed publications, the party introducing the evidence shall specify the record or the printed publication, the page or pages thereof to be used, indicating generally its relevancy, and submit to the Commissioner the record or authenticated copy, or the printed publication or a copy. Copies of affidavits and exhibits, including any record or publication, shall be served by the Commissioner on each of the other interested parties.

§ 180.218 Matters considered in determining priority.

In determining priority, the Commissioner will consider only priority of development based on the evidence submitted. Questions of novelty generally will not be considered in the decision on priority. If he desires, the Commissioner may refer his proposed findings of fact, conclusions, and notice of priority to the Board for an advisory decision.

§ 180.219 Recommendation by Commissioner.

The Commissioner may, either before or concurrently with his decision on the question of priority, but independently of such decision, direct the attention of the examiner to any matter not relating to priority which may come to the Commissioner's attention, and which in his opinion establishes the fact that there has been irregularity which amounts to a bar to the grant of a certificate to either of the parties. The Commissioner may suspend the priority contest and remand the case to the examiner for further consideration of the matters to which attention has been directed.

§ 180.220 Decision by commissioner.

(a) When a priority contest is concluded on the basis of preliminary statements, or otherwise, proposed findings of fact, conclusions, and notice of priority shall be issued by the Commissioner to the interested parties giving them a specified period, not less than 30 days, to show cause why such proposed findings of fact, conclusions, and notice of priority should not be made final. Any response made during the specified period will be considered by the Commissioner. Additional affidavits or exhibits will not be considered unless accompanied by a showing of cause. Thereafter, final findings of fact, conclusions, and notice of priority shall be issued by the Commissioner.

(b) The decision shall be entered by the Commissioner against a party whose preliminary statement alleges a date of determination later than the filing date of the other party's application.

§ 180.221 Status of claims of defeated applicant.

Whenever a final notice of priority has been issued by the Commissioner in a priority proceeding and the time limit for an appeal from such decision has expired, the claim or claims constituting the issue of the priority stand finally disposed of without further action by the Commissioner.

§ 180.222 Second priority contest.

A second priority contest between the same parties shall not be entertained by the Commissioner for the same novel variety.

APPEAL TO THE SECRETARY

§ 180.300 Petition to the Secretary.

(a) Petition may be made to the Secretary from any final action of the Commissioner denying an application or refusing to allow a certificate to be issued or from any adverse decision of the Commissioner made under §§ 180.18(c), 180.107, 180.201(e), and 180.220.

(b) Any such petition shall contain a statement of the facts involved and the point or points to be reviewed and the actions requested.

(c) A petition to the Secretary shall be filed in duplicate and accompanied by the prescribed fee (see § 180.175).

(d) Upon request, an opportunity to present data, views, and arguments orally, in an informal manner or in a formal hearing, shall be given to interested persons. If a formal hearing is requested, the proceeding shall be conducted in accordance with §§ 50.28 and 50.30–50.33 (§§ 50.28, 50.30–50.33 of this chapter) of the rules of practice under the Agricultural Marketing Act of 1946, as amended (7 U.S.C. 1621, et seq.).

(e) Except as otherwise provided in the rules in this part, any such petition not filed within 60 days from the action complained of, shall be dismissed as untimely.

§ 180.301 Commissioner's answer.

(a) The Commissioner may, within such time as may be directed by the Secretary, furnish a written statement to the Secretary in answer to the appellant's petition, including such explanation of the reasons for his action as may be necessary and supplying a copy to the appellant.

(b) Within 20 days from the date of such answer, the appellant may file a reply statement directed only to such new points of argument as may be raised in the Commissioner's answer.

§ 180.302 Decision by the Secretary.

(a) The Secretary, after receiving the advice of the Board, may affirm or reverse the decision of the Commissioner in whole or in part.

(b) Should the decision of the Secretary include an explicit statement that a certificate be allowed based on an amended application, the applicant shall have the right to amend his application in conformity with such statement and such decision shall be binding on the Commissioner.

§ 180.303 Action following decision.

(a) Copies of the decision of the Secretary shall be served upon the appellant and the Commissioner in the manner provided in § 180.403.

(b) When an appeal petition is dismissed, or when the time for appeal to the courts pursuant to the Act has expired and no such appeal or civil action has been filed, proceedings in the appeal shall be considered terminated as of the dismissal or expiration date except in those cases in which the nature of the decision requires further action by the Commissioner. If the decision of the Secretary is appealed or a civil action has been filed pursuant to sections 71, 72, or 73 of the Act, the decision of the Secretary will be stayed pending the outcome of the court appeal or civil action.

GENERAL PROCEDURES IN PRIORITY OR PROTEST PROCEEDINGS

§ 180.400 Extensions of time.

Upon a showing of good cause, extensions of time not otherwise provided for may be granted by the Commissioner or, if an appeal has been filed, by the Secretary.

§ 180.401 Miscellaneous provisions.

(a) Petitions for reconsideration or modification of the decision of the Commissioner shall be filed within 20 days after the date of the decision.

(b) The Commissioner may consider on petition any matter involving abuse of discretion or the exercise of an examiner's authority, or such other matters as he may deem proper to consider. Any such petition, if not filed within 20 days from the decision complained of, may be dismissed as untimely.

§ 180.402 Service of papers.

(a) Every paper required to be served on opposing parties and filed in the Office in any proceeding must be served by the Secretary in the manner provided in § 180.403.

(b) The requirement in certain sections that a specified paper shall be served does not mean that supporting papers need not be served. Proof of such service upon other parties to the proceeding must be made before the supporting papers will be considered in a priority contest by the Commissioner.

§ 180.403 Manner of service.

Service of any paper under this part must be on the attorney or agent of the

APR 18 72 XUM

party if there be such or on the party if there is no attorney or agent, and may be made in either of the following ways:

(a) By mailing a copy of the paper to the person served by certified mail; the date of the return receipt will be regarded as the date of service.

(b) By leaving a copy at the usual place of business of the person served with someone in his employment;

(c) When the person served has no usual place of business, by leaving a copy at his home with a member of his family over 14 years of age and of discretion;

(d) Whenever it shall be found by the Commissioner that none of the above modes of serving the paper is practicable, service may be by notice published once in the Official Journal.

REVIEW OF DECISIONS BY COURT

§ 180.500 Appeal to U.S. courts.

Any applicant dissatisfied with the decision of the Secretary on appeal may appeal to the U.S. Court of Customs and Patent Appeals or the U.S. Courts of Appeals, or the U.S. District Court as set forth in sections 71, 72, and 73 of the Act. In such cases, the appellant shall give notice to the Secretary, state the reasons for appeal, and obtain a certified copy of the record. The certified copy of the record shall be forwarded to the Court by the Plant Variety Protection Office on order of and at the expense of the appellant.

CEASE AND DESIST PROCEEDINGS

§ 180.600 Rules of practice.

Any proceedings instituted under section 128 of the Act for false marking shall be conducted in accordance with §§ 202.10 through 202.29 of this chapter (rules of practice under the Federal Seed Act) (7 U.S.C. 1551 et seq.), except that all references in those rules and regulations to "Examiner" shall be construed to be "Hearing Officer" and not an "Examiner" as defined in the regulations under the Plant Variety Protection Act.

PUBLIC USE DECLARATION

§ 180.700 Public interest in wide usage.

(a) If the Secretary has reason to believe that a protected variety should be declared open to use by the public in accordance with section 44 of the Act, the Secretary shall give the owner of the variety appropriate notice and an opportunity to present his views orally or in writing, with regard to the necessity for such action to be taken in the public interest.

(b) Upon the expiration of the period for the presentation of views by the owner, as provided in paragraph (a) of this section, the Secretary shall refer the matter to the Plant Variety Protection Board for its advice, including advice on any limitations or rate of remuneration.

(c) Upon receiving the advice of the Plant Variety Protection Board, the Secretary shall advise the owner of the variety, the members of the Plant Variety Protection Board, and the public, by issuance of a press release, of any decision based on the provisions of section 44 of the Act to declare a variety open to use by the public. Any decision not to declare a variety open to use by the public will be transmitted only to the owner of the variety and the members of the Plant Variety Protection Board.

PUBLICATION

§ 180.800 Publication of public variety descriptions.

Voluntary submissions of varietal descriptions of "public varieties" will be accepted in accordance with instructions issued by the Office, for publication in the Official Journal. Such publication shall not constitute recognition that the variety is, in fact, novel.

Any person who wishes to submit written data, views, or arguments concerning this proposal may do so by filing them with the Hearing Clerk, U.S. Department of Agriculture, Washington, D.C. 20250, within 60 days after publication of this notice in the FEDERAL REGISTER.

All written submissions made pursuant to this notice will be made available for public inspection at the Office of the Hearing Clerk during regular business hours (7 CFR 1.27b)).

Done at Washington, D.C., on April 12, 1972.

JOHN C. BLUM,
Deputy Administrator,
Regulatory Programs.

Rules and Regulations

Title 7—AGRICULTURE

Chapter II—Food and Nutrition Service, Department of Agriculture

PART 271—PARTICIPATION OF STATE AGENCIES AND ELIGIBLE HOUSEHOLDS

Implementation

Section 271.1(s) of Title 7, Chapter II, Code of Federal Regulations, is amended to require State agencies to implement revised FSP notices specifying purchase requirements, coupon allotments, and household income eligibility standards on the date prescribed in such notices published in the FEDERAL REGISTER.

In view of the need for placing notice FSP No. 1972–1 into effect on July 1, 1972, it is hereby determined that it is impracticable and contrary to the public interest to give notice of proposed rule making with respect to this amendment.

Section 271.1(s)(1) is amended by revising subdivision (iv) to read as follows and by adding thereto a new subdivision (vii) to read as follows:

§ 271.1 General terms and conditions for State agencies.

* * * * *

(s) *Implementation.* (1) Each State agency shall:

* * * * *

(iv) Put into effect the coupon allotments, purchase requirements, and household income eligibility standards prescribed in notice FSP No. 1971–1, as amended, notice FSP No. 1971–2, as amended, and notice FSP No. 1971–3, as amended, not later than April 1, 1972.

* * * * *

(vii) Put into effect the purchase requirements, coupon, allotments, and household income eligibility standards contained in revised FSP notices issued subsequent to the notices specified in subdivision (iv) for all new applications and household recertifications on the respective effective date(s) prescribed in such revised notices, and for all other eligible households not later than 120 days after such date(s).

* * * * *

(78 Stat. 703, as amended; 7 U.S.C. 2011–2025)

Effective date. This amendment shall be effective on the date of its publication in the FEDERAL REGISTER (4–19–72).

RICHARD LYNG,
Assistant Secretary.

APRIL 13, 1972.

[FR Doc.72–5882 Filed 4–18–72;8:45 am]

Chapter VII—Agricultural Stabilization and Conservation Service (Agricultural Adjustment), Department of Agriculture

SUBCHAPTER B—FARM MARKETING QUOTAS AND ACREAGE ALLOTMENTS

[Amdt. 3]

PART 728—WHEAT

Subpart—Wheat Set-Aside Program for Crop Years 1971–73

1973 NATIONAL DOMESTIC WHEAT ALLOTMENT

On March 17, 1972, notice of proposed rule making regarding determinations with respect to the 1973 national domestic allotment for wheat was published in the FEDERAL REGISTER (37 F.R. 5625). Interested persons were invited to submit written data, views, and recommendations regarding the determinations. No comments were received in response to such notice.

A new § 728.5 is issued in accordance with the Agricultural Adjustment Act of 1938, as amended, to determine and proclaim the 1973 national domestic allotment for wheat.

Pursuant to section 379c(a)(1) of the Act, as amended, the Secretary is required to determine and proclaim a national domestic allotment for the 1972 and 1973 crops of wheat not later than April 15 of each calendar year for the crop harvested in the next succeeding calendar year. (Since April 15, 1972, falls on a Saturday, the final date for determining and proclaiming the 1973 domestic allotment is April 17, 1972.) The national domestic allotment for any crop of wheat shall be the number of acres which the Secretary determines on the basis of the estimated national yield will result in marketing certificates being issued to producers participating in the set-aside program in an amount equal to the amount of wheat which he estimates will be used for food products for consumption in the United States during the marketing year for the crop but not less than 535 million bushels. The determination in § 728.5 of the 1973 national domestic allotment for wheat is based on the estimated participation, acreage, yield, and usage set out therein.

The findings and determinations contained in § 728.5 have been made on the basis of the latest available statistics of the Federal Government as required by section 301(c) of the Act.

Part 728 is amended by adding a new § 728.5 to read as follows:

§ 728.5 1973 national domestic allotment for wheat.

Based on (a) an estimated national average yield of 31 bushels of wheat per acre and an estimated average yield on participating farms of 30.6 bushels per acre, (b) estimated producer participation in the 1973 wheat set-aside program of 95 percent, and (c) the use of 535 million bushels of wheat for food products for consumption in the United States during the marketing year beginning July 1, 1973, the 1973 national domestic allotment for wheat is determined to be 18.7 million acres, and a 1973 national domestic allotment of that amount is hereby proclaimed. The quantity of wheat estimated to be used for food products for consumption in the United States during the 1973 marketing year is 520 million bushels. Since this is less than the minimum quantity of 535 million bushels required under section 379c(a)(1) of the Agricultural Adjustment Act of 1938, as amended, to be used in determining the national domestic allotment, the quantity of 535 million bushels of wheat was used in the foregoing determination.

(Secs. 301, 375, 379c, 52 Stat. 38, as amended, 52 Stat. 66, as amended, 84 Stat. 1364; 7 U.S.C. 1301, 1375, 1379c)

Effective date. This amendment shall be effective upon filing with the Director, Office of the Federal Register.

Signed at Washington, D.C., on April 17, 1972.

J. PHIL CAMPBELL,
Under Secretary.

[FR Doc.72–6021 Filed 4–17–72;3:31 pm]

Chapter IX—Agricultural Marketing Service [1] (Marketing Agreements and Orders; Fruits, Vegetables, Nuts), Department of Agriculture

[Grapefruit Reg. 12, Amdt. 1]

PART 944—FRUITS; IMPORT REGULATIONS

Requirements

Pursuant to the provisions of section 8e of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674), the provisions of paragraph (a) of Grapefruit Regulation 12 (§ 944.108, 36

[1] Formerly Consumer and Marketing Service. Name changed to Agricultural Marketing Service effective April 2, 1972, 37 F.R. 6327.

V 37 76
APR 19 72
XUM

F.R. 20883) are hereby amended to read as follows:

§ 944.108 Grapefruit Regulation 12.

(a) On and after April 14, 1972, the importation into the United States of any grapefruit is prohibited unless such grapefruit is inspected and meets the following requirements:

(1) Seeded grapefruit shall grade at least U.S. No. 1 and be of a size not smaller than 3 15/16 inches in diameter except that a tolerance of 10 percent, by count, of seeded grapefruit smaller than such minimum size shall be permitted, which tolerance shall be applied in accordance with the provisions for the application of tolerances specified in the U.S. Standards for Florida Grapefruit;

(2) Seedless grapefruit shall grade at least Improved No. 2 ("Improved No. 2" shall mean grapefruit grading at least U.S. No. 2 and also meeting the requirements of the U.S. No. 1 grade as to shape (form) and color.); and

(3) Seedless grapefruit shall be not smaller than 3 7/16 inches in diameter, except that a tolerance of 10 percent, by count, of seedless grapefruit smaller than such minimum size shall be permitted which tolerance shall be applied in accordance with the provisions for the application of tolerances as specified in the U.S. Standards for Florida Grapefruit.

. . . . . .

It is hereby found that it is impracticable, unnecessary, and contrary to the public interest to give preliminary notice, engage in public rule making procedure, and postpone the effective time of this amendment beyond that hereinafter specified (5 U.S.C. 553) in that (a) the requirements of this amended import regulation are imposed pursuant to section 8e of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674), which makes such regulation mandatory; (b) such regulation imposes the same restrictions on imports of all grapefruit as the grade and size restrictions being made applicable to the shipment of all grapefruit grown in Florida under amended Grapefruit Regulation 71 (§ 905.535); (c) compliance with this amended import regulation will not require any special preparation which cannot be completed by the effective time hereof; and (d) this amendment relieves restrictions on the importation of grapefruit.

(Secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674)

Dated April 13, 1972, to become effective April 14, 1972.

PAUL A. NICHOLSON,
Acting Director, Fruit and Vegetable Division, Agricultural Marketing Service.

Title 9—ANIMALS AND ANIMAL PRODUCTS

Chapter I—Animal and Plant Health Inspection [1] Service, Department of Agriculture

SUBCHAPTER C—INTERSTATE TRANSPORTATION OF ANIMALS (INCLUDING POULTRY) AND ANIMAL PRODUCTS

[Docket No. 72–513]

PART 76—HOG CHOLERA AND OTHER COMMUNICABLE SWINE DISEASES

Areas Quarantined

Pursuant to provisions of the Act of May 29, 1884, as amended, the Act of February 2, 1903, as amended, the Act of March 3, 1905, as amended, the Act of September 6, 1961, and the Act of July 2, 1962 (21 U.S.C. 111–113, 114g, 115, 117, 120, 121, 123–126, 134b, 134f), Part 76, Title 9, Code of Federal Regulations, restricting the interstate movement of swine and certain products because of hog cholera and other communicable swine diseases, is hereby amended in the following respects:

1. In § 76.2, a new paragraph (e)(6) relating to the State of New Jersey is added to read:

(e) * * *

(6) *New Jersey.* That portion of Ocean County comprised of Lakewood Township.

2. In § 76.2, in paragraph (e)(3) relating to the State of North Carolina, subdivision (i) relating to Hoke County and subdivision (iv) relating to Moore County are deleted.

3. In § 76.2, the reference to the State of Ohio in paragraph (f) is deleted, and paragraph (g) is amended by adding thereto the name of the State of Ohio.

(Secs. 4–7, 23 Stat. 32, as amended; secs. 1 and 2, 32 Stat. 791–792, as amended; secs. 1–4, 33 Stat. 1264, 1265, as amended; sec. 1, 75 Stat. 481; secs. 3 and 11, 76 Stat. 130, 132; 21 U.S.C. 111–113, 114g, 115, 117, 120, 121, 123–126, 134b, 134f; 29 F.R. 6210, as amended; 37 F.R. 6327, 6505)

Effective date. The foregoing amendments shall become effective upon issuance.

The amendments quarantine a portion of Ocean County in New Jersey because of the existence of hog cholera. This action is deemed necessary to prevent further spread of the disease. The restrictions pertaining to the interstate movement of swine and swine products from or through quarantined areas as contained in 9 CFR Part 76, as amended, will apply to the quarantined area.

[1] The functions prescribed in Part 76 of Chapter I, 9 CFR, have been transferred from the Animal and Plant Health Service, U.S. Department of Agriculture, to the Animal and Plant Health Inspection Service of the Department (37 F.R. 6327, 6505).

The amendments exclude portions of Hoke and Moore Counties in North Carolina from the areas quarantined because of hog cholera. Therefore, the restrictions pertaining to the interstate movement of swine and swine products from or through quarantined areas as contained in 9 CFR Part 76, as amended, will not apply to the excluded areas, but will continue to apply to the quarantined areas described in § 76.2(e). Further, the restrictions pertaining to the interstate movement of swine and swine products from nonquarantined areas contained in said Part 76 will apply to the areas excluded from quarantine.

The amendments delete Ohio from the list of hog cholera eradication States in § 76.2(f), and add Ohio to the list of hog-cholera-free States in § 76.2(g). The special provisions pertaining to the interstate movement of swine and swine products from eradication and free States remain applicable to Ohio.

Insofar as the amendments impose certain further restrictions necessary to prevent the spread of hog cholera, they must be made effective immediately to accomplish their purpose in the public interest. Insofar as they relieve restrictions, they should be made effective promptly in order to be of maximum benefit to affected persons. It does not appear that public participation in this rule making proceeding would make additional relevant information available to this Department.

Accordingly, under the administrative procedure provisions in 5 U.S.C. 553, it is found upon good cause that notice and other public procedure with respect to the amendments are impracticable, unnecessary, and contrary to the public interest, and good cause is found for making them effective less than 30 days after publication in the FEDERAL REGISTER.

Done at Washington, D.C., this 14th day of April 1972.

G. H. WISE,
Acting Administrator, Animal and Plant Health Inspection Service.

Title 14—AERONAUTICS AND SPACE

Chapter I—Federal Aviation Administration, Department of Transportation

[Airspace Docket No. 72–SO–16]

PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

Alteration of Control Zone and Transition Area

On March 4, 1972, a notice of proposed rule making was published in the FEDERAL REGISTER (37 F.R. 4721), stating that the Federal Aviation Administration was considering an amendment to Part 71 of the Federal Aviation Regulations that would alter the Fayetteville, N.C., control zone and transition area.

Interested persons were afforded an opportunity to participate in the rule making through the submission of comments. All comments received were favorable except those submitted by the Air Transport Association of America (ATA). ATA objected on the basis that the instrument approach procedure to Johns Island Airport would interfere with the basic operation into Charleston AFB/Municipal Airport because simultaneous approaches could not be conducted. ATA recommended that the procedure be established from the south in lieu of from over Charleston VORTAC. A review of the proposal, in light of comments received, disclosed that the anticipated volume of IFR operations into Johns Island Airport is light and that an approach from the south is objectionable because, in addition to restricting the approach to DME equipped aircraft only (would exceed the criteria for VOR equipped aircraft only), it would require a large portion of the procedure to be conducted within Warning Area W–132. Since radar control will be exercised, we do not anticipate any appreciable delays to IFR operations at Charleston AFB/Municipal Airport.

In consideration of the foregoing, Part 71 of the Federal Aviation Regulations is amended, effective 0901 G.m.t., June 22, 1972, as hereinafter set forth.

In § 71.171 (37 F.R. 2056), the Fayetteville, N.C., control zone is amended to read:

FAYETTEVILLE, N.C.

Within a 5-mile radius of Fayetteville Municipal Airport (Grannis Field) (lat. 34°59'22" N., long. 78°52'52" W.); within 3 miles each side of Fayetteville VOR 015°, 060°, and 233° radials, extending from the 5-mile-radius zone to 8.5 miles north, east, and southwest of the VOR; excluding the portion within Simmons AAF control zone.

In § 71.181 (37 F.R. 2143), the Fayetteville, N.C., transition area is amended as follows:

"* * * (latitude 34°59'35" N., longitude 78°52'50" W.) * * *" is deleted and "* * * (latitude 34°59'22" N., longitude 78°52'52" W.) * * *" is substituted therefor.

(Sec. 307(a), Federal Aviation Act of 1958, 49 U.S.C. 1348(a); sec. 6(c), Department of Transportation Act, 49 U.S.C. 1655(c))

Issued in East Point, Ga., on April 10, 1972.

DUANE W. FREER,
Acting Director, Southern Region.

[FR Doc.72–5899 Filed 4–18–72;8:47 am]

[Airspace Docket No. 72–SO–17]

PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

Alteration of Transition Area

On March 4, 1972, a notice of proposed rule making was published in the FEDERAL REGISTER (37 F.R. 4722), stating that the Federal Aviation Administration was considering an amendment to Part 71 of the Federal Aviation Regulations that would alter the Charleston, S.C., transition area.

Interested persons were afforded an opportunity to participate in the rule making through the submission of comments. All comments received were favorable except those submitted by the Air Transport Association of America (ATA). ATA objected on the basis that the instrument approach procedure to Johns Island Airport would interfere with the basic operation into Charleston AFB/Municipal Airport because simultaneous approaches could not be conducted. ATA recommended that the procedure be established from the south in lieu of from over Charleston VORTAC. A review of the proposal, in light of comments received, disclosed that the anticipated volume of IFR operations into Johns Island Airport is light and that an approach from the south is objectionable because, in addition to restricting the approach to DME equipped aircraft only (would exceed the criteria for VOR equipped aircraft only), it would require a large portion of the procedure to be conducted within Warning Area W–132. Since radar control will be exercised, we do not anticipate any appreciable delays to IFR operations at Charleston AFB/Municipal Airport.

In consideration of the foregoing, Part 71 of the Federal Aviation Regulations is amended, effective 0901 G.m.t., June 22, 1972, as hereinafter set forth.

In § 71.181 (37 F.R. 2143), the Charleston, S.C., transition area is amended as follows:

"* * * northwest of the VORTAC * * *" is deleted and "* * * northwest of the VORTAC; within a 6.5-mile radius of Johns Island Airport (lat. 32°42'00" N., long. 80°00'00" W.) * * *" is substituted therefor.

(Sec. 307(a), Federal Aviation Act of 1958, 49 U.S.C. 1348(a); sec. 6(c), Department of Transportation Act, 49 U.S.C. 1655(c))

Issued in East Point, Ga., on April 11, 1972.

DUANE W. FREER,
Acting Director, Southern Region.

[FR Doc.72–5900 Filed 4–18–72;8:47 am]

[Airspace Docket No. 72–WE–17]

PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

Revocation of Control Zone and Alteration of Transition Area

The purpose of these amendments to Part 71 of the Federal Aviation Regulations is to revoke the Crows Landing, Calif., control zone and alter the description of the Crows Landing transition area.

The air traffic utilizing the Crows Landing ALF operates on an irregular weekly schedule. The effective hours of the control zone are part time and designated by NOTAM. Weather observations are taken by naval tower personnel and due to the irregular hours of activity the actual effective hours of the control zone cannot be accurately advertised and charted within the intent of the NOTAM, therefore the Department of the Navy has requested that the control zone be canceled. In order to provide controlled airspace above 700 feet above the surface for aircraft executing prescribed instrument procedures at Crows Landing ALF, additional 700-foot transition area is required to replace the control zone.

Since these amendments would be less restrictive than the currently designated airspace and would pose no additional burden on any person, notice and public procedure hereon is unnecessary.

In consideration of the foregoing in § 71.171 (37 F.R. 2056) the Crows Landing, Calif., control zone is revoked.

In § 71.181 (37 F.R. 2143) the description of the Crows Landing, Calif., transition area is amended to read as follows:

CROWS LANDING, CALIF.

That airspace extending upward from 700 feet above the surface within a 5-mile radius of Crows Landing ALF (latitude 37°24'35" N., longitude 121°06'40" W.), excluding the portion within a 1-mile radius of Patterson Field, Patterson, Calif. (latitude 37°28'05" N., longitude 121°10'06" W.), and that airspace extending upward from 1,200 feet above the surface bounded on the north by latitude 37°36'00" N., on the east by the west edge of V–109, on the southwest by the northeast edge of V–107 and on the west by longitude 121°31'00" W.

Effective date. These amendments shall be effective 0901 G.m.t., June 22, 1972.

(Sec. 307(a), Federal Aviation Act of 1958, as amended, 49 U.S.C. 1348(a); sec. 6(c), Department of Transportation Act, 49 U.S.C. 1655(c))

Issued in Los Angeles, Calif., on April 11, 1972.

ARVIN O. BASNIGHT,
Director, Western Region.

[FR Doc.72–5901 Filed 4–18–72;8:48 am]

[Airspace Docket No. 72–WA–21]

PART 75—ESTABLISHMENT OF JET ROUTES AND AREA HIGH ROUTES

Alteration of Area High Route

The purpose of this amendment to Part 75 of the Federal Aviation Regulations is to change the name of the "Carlos, Ohio" waypoint in route J882R, to "Dayton, Ohio."

The "Carlos, Ohio" waypoint is coincident with the location of the Dayton, Ohio VORTAC. Thus, "Carlos" should be changed to "Dayton" in conformance with agency fix-naming practices and to preclude potential misunderstandings by pilots.

Accordingly, action is taken herein to change the "Carlos, Ohio," waypoint to "Dayton, Ohio." Since this amendment is minor in nature and no substantive change in the regulations is effected, notice and public procedure thereon are unnecessary.

In consideration of the foregoing, Part 75 of the Federal Aviation Regulations is amended, effective 0901 G.m.t., May 25, 1972, as hereinafter set forth.

Section 75.400 (37 F.R. 2400) is amended as follows:

In J882R (Atlanta, Ga., to Detroit, Mich.), delete third waypoint information "Carlos, Ohio, 40°00'59" N., 84°23'49" W., Fort Wayne, Ind." and substitute "Dayton, Ohio 40°00'59" N., 84°23'49" W., Fort Wayne, Ind." therefor.

(Sec. 307(a), Federal Aviation Act of 1958, 49 U.S.C. 1348(a); sec. 6(c), Department of Transportation Act, 49 U.S.C. 1655(c))

Issued in Washington, D.C., on April 12, 1972.

H. B. HELSTROM,
Chief, Airspace and Air Traffic Rules Division.

V 37-76 APR 19 72 XUM

Title 17—COMMODITY AND SECURITIES EXCHANGES

Chapter II—Securities and Exchange Commission

[Releases IC–7113, IA–315]

PART 271—INTERPRETATIVE RELEASES RELATING TO THE INVESTMENT COMPANY ACT OF 1940 AND RULES AND REGULATIONS THEREUNDER

PART 276—INTERPRETATIVE RELEASES RELATING TO THE INVESTMENT ADVISERS ACT OF 1940 AND RULES AND REGULATIONS THEREUNDER

Factors To Be Considered in Connection With Investment Company Advisory Contracts Containing Incentive Arrangements

The Securities and Exchange Commission today called the attention of all registered investment companies, their officers and directors, and their investment advisers to certain factors which must be considered in connection with investment company incentive fee arrangements in view of the provisions of the Investment Company Amendments Act of 1970, Public Law 91–547 (1970 Act) (84 Stat. 1314).

Section 205 of the Advisers Act was amended by the 1970 Act in order to provide protection against performance fee arrangements which are unfair to investment companies (Sec. 25, 84 Stat. 1432, 1433). It prohibits all performance fees unless compensation under them increases and decreases proportionately with the investment performance of the company over a specified period in relation to the investment record of an appropriate index of securities prices or such other measure of investment performance as the Commission by rule, regulation, or order may specify. The point from which increases and decreases in incentive compensation are measured must be the fee which is paid or earned when the investment performance of the company is equivalent to that of the index or other measure of performance.

Section 15 (15 U.S.C. 80a–15) of the Investment Company Act (the Act) sets forth the requirements for approval of advisory contracts of registered investment companies. Section 15(c), as amended (Sec. 8, Public Law 91–547, 84 Stat. 1418), requires investment company directors to request and evaluate, and the investment adviser to furnish, such information as may reasonably be necessary to evaluate the terms of the advisory contract.[1]

Prior to the amendment of section 205 many investment company performance fee arrangements were unfair to investment companies. Many incentive fees did not decrease for poor performance, or if they did, decreases were disproportionate to the increases. In addition, in some cases, the index against which investment company performance was measured was inappropriate and prejudicial to investment companies.

The Commission has surveyed the performance fee arrangements of registered investment companies in effect as of January 3, 1972, in order to evaluate such arrangements in view of the requirements of amended section 205 of the Advisers Act and the fiduciary standards of the Investment Company Act. Of 999 management open-end and closed-end investment companies, 103 had performance fee arrangements on that date. The survey indicated that although many of the unfair features of previous performance fee arrangements have been eliminated, some performance fee arrangements still contain features which create bias against investment companies and do not conform to the provisions of section 205 of the Advisers Act or the fiduciary standards of the Investment Company Act. These features include selection of an inappropriate index, computation of investment company average net assets and performance over different intervals and failure to reflect the reinvestment of dividends paid from investment income in computing investment company investment performance and of all cash distributions in computing the investment record of the index.[2] As is explained below, these practices result in measuring investment company performance on a basis that is unfair to the investment company, and which does not relate to the investment record of the index.

The Commission is also concerned with incentive fee arrangements which permit significant fee adjustments based on random or insignificant differences rather than meaningful differences in the performance of the investment company and the index. This may occur, for example, where the maximum incentive fee or penalty is paid for the slightest performance difference or where significant performance fee adjustments are based on random or insignificant performance differences.

The fairness of the fulcrum fee. Any consideration of the fairness of a performance fee arrangement must start with the midpoint or "fulcrum fee" (the fee paid when the investment company's performance equals that of the index). The maximum and minimum incentive fee rates and all performance increments are measured from the fulcrum fee. Thus, the selection of a fair fulcrum fee is a critical prerequisite to a fair performance fee. This means that the same factors should be considered in arriving at a fair fulcrum fee as are taken into account in establishing the proper fee under advisory contracts which do not involve incentive compensation.[3]

Selection of an appropriate index. As indicated above, section 205 requires that the investment performance of the investment company be measured against the investment record of an appropriate index of securities prices. In determining whether an index is appropriate for a particular investment company, directors should consider factors such as the volatility, diversification of holdings, types of securities owned and objectives of the investment company. For example, for investment companies that invest in a broad range of common stocks, a broadly based market value weighted index of common stocks ordinarily would be an appropriate index,[4] but an index based upon a relatively few large "blue chip" stocks would not. For investment companies that invest exclusively in a particular type of security or industry, either a specialized index that adequately represents the performance of that type of security or a broadly based market value weighted index ordinarily would be considered appropriate.[5] Of course, if an investment company invests in a particular type of security an index which measures the performance of another particular type of security would not be appropriate.[6]

[1] The Commission has previously issued a release setting forth certain of its views with respect to the approval of advisory contracts under the 1970 Act (IC Release No. 6336, February 2, 1971 (36 F.R. 3867)) and another release setting forth certain views of its Division of Corporate Regulation respecting the fiduciary duties of directors under section 36(a) of the 1970 Act (IC Release No. 640, May 10, 1971 (36 F.R. 9627)).

[2] Reinvestment means treating amounts distributed by an investment company as invested in shares of the investment company at the record dates of the distributions and treating amounts distributed by the companies which comprise the index as invested in the securities which comprise the index as soon as possible after their ex-dividend or record dates, rather than at the end of the measurement period. Such treatment gives proper effect to dividends and distributions during the measurement period.

[3] The Report of the Committee on Interstate and Foreign Commerce of the House of Representatives on the 1970 Act states that "(T)he fiduciary duty with respect to management compensation contained in • • • new section 36(b) of the Act would apply to compensation received pursuant to a performance-related contract permitted by section 205 to the same extent as it does to other types of investment advisory contracts." H. Rep. 91–1382, p. 41 (91st Cong., 2d Sess., August 7, 1970). See also S. Rep. 91–184, p. 45 (91st Cong., 1st Sess., May 21, 1969).

[4] See the Institutional Investor Study, Vol. 2, H. Doc. 92–64, 92d Cong., 1st Sess. Pt. 2, March 10, 1971, p. 408.

[5] An index may be computed on a weighted or unweighted basis, but in no event should the index be weighted by fortuitous considerations such as the price per share. Certain averages which are weighted by price give greater weight to the stocks in the index having higher market prices: An effect of this is to give proportionately less weight to stocks after price appreciation leads to a stock split. These completely fortuitous considerations penalize growth and make such averages inappropriate, regardless of the type of securities held by the investment company, as a basis for comparison with investment company investment performance.

[6] Technical methods for specifying incentive fees based upon risk or volatility adjusted returns are now being explored by the staff and a number of industry and academic groups as well as commercial enterprises. However, the Commission has not, at this time, arrived at any conclusions with respect to these methods.

Variations in periods used for computing average asset values and performance. In computing compensation for incentive fee arrangements, variations in the time interval over which average asset value and investment performance are computed can make a significant difference. The larger the asset base, the greater the amount of compensation which will be added or deducted for performance and the more volatile performance compensation will be. For example, if average assets are based upon average daily assets over the last 3 months of a 36-month performance period (or the last month of an annual performance period), it is possible that, as a result of accumulated sales, there would be greater average assets than there would be if assets were averaged over the entire period. Thus, the amount of assets to which the performance fee rate would be applied would be greater. In effect, the use of the shorter period will have raised the "performance ante." Ironically, it will also cause the amount of compensation, which supposedly is paid for "performance", to be related significantly to the amount of sales.[7]

Section 205 of the Advisers Act requires that compensation be based on the asset value of the company averaged over a specified period and increasing and decreasing proportionately with the investment performance of the company over a specified period in relation to the investment record of an appropriate index of securities prices. The use of different periods for averaging assets and computing investment performance would be unfair to the investment company and would violate section 205.[8]

Length of period over which performance is computed. Although section 205 of the Advisers Act does not require that performance be measured over a period of any particular length, there is a fiduciary obligation to use an interval sufficiently long to provide a reasonable basis for indicating the adviser's performance. All 103 investment companies surveyed measured their performance over a period of at least 1 year. Use of at least a 1 year interval minimizes the possibility that payments will be based upon random or short term fluctuations.

Computation of performance over a "rolling period". Over 43 percent of the companies surveyed (45 companies) measured their performance on the basis of a rolling period, a moving average of the number of subperiods (i.e., months or quarters) included in the full period over which performance is measured. Section 205 of the Advisers Act does not specify that either a rolling period or a flat period be used. However, there are a number of advantages, both from the shareholders' and the adviser's point of view, in using a rolling average.

For example, since section 205 requires that performance be measured over a "specified period," in the absence of a specified fixed or rolling period, compensation cannot be precisely computed or paid until that period has expired and the investment company's performance for the entire period is known. In other words, interim payments based upon interim performance are not permissible under section 205.[9] Use of a rolling period for computation of a performance fee avoids the problem of interim payments. It permits payments based upon performance to be made more frequently than annually, since each payment would be based upon performance over the preceding 12 months or longer period adopted.

Rule 2a–4 under the Investment Company Act (17 CFR 270.2a–4), requires that investment company shares be sold at their approximate net asset value. To do this, amount reflecting the performance fee must be accrued on a daily basis. Use of a rolling period avoids accruing a performance fee on the basis of periods of substantially less than 1 year and smooths out accruals resulting from short term fluctuations in performance. For contracts computed on the basis of a period of 1 year or more, but without the use of a rolling period, accruals for the performance fee near the beginning of the period would be based upon periods of substantially less than a year. Under a rolling period contract, accruals for the performance fee can be computed on the basis of a period of at least 11 months or three quarters of a year (the time elapsed, depending upon the subperiods adopted, when the daily accrual in the current computation period commences) and thus the effects on accruals of short-term performance would be minimized and accruals would better reflect overall performance and the fee ultimately payable.

Performance fee transitional periods. A difficulty arises in connection with the "startup" or transitional period for performance fees when a performance fee is based upon a period for which investment results are already known or for which the adviser has already received compensation under the previous contract. To the extent that performance during the earlier period adds to the adviser's compensation, in essence he will be compensated twice for the same period and the same performance. Moreover, the investment company's positive performance during the period prior to adoption of the performance fee gives the adviser a "running start" on the index. If such an arrangement were permitted, the investment company would not have to outperform the index during the balance of the period covered by the performance fee in order that its adviser collect a performance fee. If the investment company merely maintained its relative performance for the balance of the specified period, the adviser nevertheless would collect a fee for "outperforming" the index. For example, if a 36-month rolling performance fee were adopted which included 18 months for which performance results were already known, and during which the performance of the investment company was greater than that of the index, the investment performance of the investment company could be the same as that of the index over the next 18 months but the adviser, nevertheless, would receive a performance fee for "outperforming" the index. Elementary fiduciary standards require that performance compensation be based only upon results obtained after such contracts take effect. In other words, a performance fee contract may be instituted on a prospective basis only.[10]

A transitional problem may also result if a contract containing an investment company performance fee arrangement is canceled before its expiration date and the same adviser is rehired under a straight percentage of assets contract. Assume, for example, that an investment company's performance over the first half of the period specified in its contract is significantly worse than the investment record of the index and that it appears unlikely that the adviser will earn any incentive fee, or even the fulcrum fee, over the full term of the contract. It may be to the adviser's advantage to attempt to renegotiate his contract and to substitute a contract without a performance fee, but at a fee higher than that which it could earn under the original contract. Such substitution would be unfair to the investment company. If an adviser could cancel a performance contract during a period for which a performance fee is to be computed and recontract on a percentage of assets basis, such contracts would once again amount to the kind of "one way street" that existed prior to the enactment of section 205. To prevent this, such a new contract should provide that the fee payable until the end of the performance fee computation period of the original contract shall be the lesser of the amount which would have been paid under the original contract or the amount payable under the new contract.

Similarly, cancellation of a "rolling" performance fee contract during a period of substandard performance could be unfair to the investment company if a percentage of assets or different performance fee contract with the same ad-

[7] On the other hand, if performance has been poor, the impact of declining asset values and decreased sales could be greatest at the end of the period. This would tend to lower the asset base for investment companies which have had poor performance.

[8] Similarly, if the period over which net asset values are averaged for computing the fulcrum fee differs from the period over which net asset values are averaged for computing the performance related portion of the fee, it could result in incentive payments having a disproportionate relationship to the fulcrum fee. The section 205 requirement that "compensation" be based upon the asset value of the company "averaged over a specified period" means that the same period must be used for computing average assets for the fulcrum fee and the performance fee segments of the adviser's compensation.

[9] Of course, if a fee schedule provides for the payment of a minimum fee regardless of performance, interim payments based solely on the minimum fee would be permissible.

[10] Of course, under any performance fee arrangement incentive compensation is based upon results achieved over an earlier period. However, those results have not been determined before the contract is adopted.

V 37 76
APR 19 72
XUM

viser were substituted. The appropriate method of "winding down" a rolling performance fee contract would be to give the investment company substantial advance notice, (i.e., not less than half of the fee computation period specified in the contract) of the adviser's intention to cancel the contract and to provide that the fee payable during such "winding down" period shall be the lesser of the amount which would have been due under the original contract or the fee payable under the new contract.

Computation of the "investment performance" of the investment company and the "investment record" of the index with respect to payment of dividends from investment income and distributions of realized capital gains. As indicated in the Institutional Investor Study, the best measure of the total benefits received by investment company shareholders during a specified period is one that reflects changes in net asset value of the company's shares with adjustments to compensate for the payment of any realized capital gains distributions and dividends from investment income during the evaluation period. This measure gives effect to all increments in value received by stockholders and has been widely used without any serious challenge to its propriety.[11]

Section 205 of the Advisers Act requires that compensation increase and decrease proportionately based upon investment performance of the investment company in relation to the investment record of the index, as distinguished from the index price. In 93 percent of investment companies with performance fee arrangements capital gains distributions were treated as reinvested in computing investment performance. Such reinvestment is necessary in order that investment company performance be computed on the same basis as the index, since capital gains are neither realized nor distributed with respect to the companies comprising the index. Unless investment company capital gains distributions are treated as reinvested in computing investment company investment performance, such performance would not relate to the investment record of the index.

Similarly, dividends paid from investment income on investment company shares and cash distributions on the securities which comprise the index are significant factors which cannot be overlooked in computing the "investment record" of the index and in relating investment company investment performance to that investment record. On the average, the dividends paid from investment income by investment companies with performance fee arrangements have been less than the cash dividends paid on the securities of the companies which comprise the indices used in performance comparisons. Thus, in many cases, ignoring dividends and any other cash distributions in relating investment company investment performance to the investment record of the index can give investment advisers a substantial advantage.

To correct this, the Commission, pursuant to its authority under sections 205 and 211 of the Advisers Act, has proposed rules defining the terms "investment performance" and "investment record" as they are used in section 205 of that Act[12] to make clear that such provision requires inclusion of dividends paid from investment income and realized capital gains distributions of the investment company and of cash distributions on the securities of companies which comprise the index.

Avoid basing significant fee adjustments upon random or insignificant differences. In structuring incentive fee arrangements it is important to build in a degree of confidence that any significant incentive payments (or penalties) are attributable to the adviser's skill, or lack of skill, rather than to random fluctuations. Most investment company incentive fee contracts have "step rates."[13] Generally, these contracts have recognized the principle that small performance differences should not result in significant fee adjustments by providing a "null zone" (an interval around the point at which the performance of the investment company equals the performance of the index in which no performance fee adjustment, up or down, is payable). Other performance fee contracts decrease the significance of the payments made for slight performance differences through the use of continuous fees.[14] Only four contracts failed to include either a null zone or a continuous fee.

Despite the recognition of the principle that significant fee adjustments should not be based upon small performance differences, the survey revealed several instances where the maximum fee adjustment (i.e., the amount added to the fulcrum fee which yields the largest total fee payable under the contract) could result from insignificant performance differences. Under a number of contracts the maximum fee adjustment resulted from any difference, no matter how slight, in performance between the fund and the index. Under other contracts performance differences were measured in terms of a percent of the investment performance of the index rather than in terms of percentage point differences. Using percent differences may result in a maximum fee adjustment for small absolute differences in performance.[15] Similarly, under a substantial number of contracts the maximum fee adjustment may result from a performance difference of less than 10 percentage points. Under other incentive fee arrangements, a significant portion of the maximum fee adjustment may also result from insignificant performance differences.

As a matter of elementary fairness the performance differences from which the maximum fee adjustment results should be set so as to preclude such maximum fee adjustment resulting from insignificant or random differences. Through a statistical analysis of the performance of the investment company relative to the performance of the index throughout the year, it is possible to determine whether or not the investment performance of the investment company differs significantly from the investment record of the index. Ideally, under any particular performance fee contract there should be at least a 90 percent probability that the maximum fee adjustment will not result from random fluctuations in performance.

Although the appropriate performance difference may vary from one investment company to another and from time to time, preliminary studies of the Division of Corporate Regulation indicate that as a "rule of thumb," the performance difference should be at least ± 10 percentage points in order to provide a 90 percent probability that the maximum fee adjustment will not result from random fluctuations or insignificant differences between the performance of the investment company and the index.[16]

Because of the preliminary nature of these studies, the Commission is not recommending, at this time, that any particular performance difference exist before the maximum fee adjustment may be made.[17] However, investment company directors should consider what a significant performance difference would be under the incentive fee contracts of the investment companies they serve, taking into account the company's size, volatility (i.e., how the investment company's performance has changed in relation to that of the index over long and short term periods), diversification and variability of performance differences. They should satisfy themselves that the maximum performance adjustment will be made only for performance differences that can reasonably be considered significant.

Of course, similar considerations are required for fee adjustments that are less than the maximum. In other words, meaningful fee adjustments may occur at levels which are less than the maximum and therefore, like maximum adjustments, they should be based upon significant performance differences.[18] This may be accomplished by the use of null zones of appropriate size or of a fee structure under which the effect of small performance differences is not proportionally greater than the effect of large performance differences.

By the Commission.

[SEAL] RONALD F. HUNT, *Secretary.*

APRIL 6, 1972.

[FR Doc.72-5936 Filed 4-18-72;8:50 am]

[11] Institutional Investor Study Report, Vol. 2, H. Doc. 92-64, 92d Cong., 1st Sess. Part 2, March 10, 1971, p. 409.

[12] See Investment Advisers Act Release No. 316 (37 F.R. ------).

[13] Under such contracts fee adjustments occur only after whole percentage point performance differences.

[14] Under contracts with continuous fees, payments increase or decrease with slight performance differences and fractional differences are usually prorated.

[15] The percent method may tend to be a misleading indicator of small differences. For example, if the index increased by 1 percent, an investment company whose net asset value increased by 3 percent would outperform the index by 200 percent. This may be confusing since persons may tend to associate a much larger difference with a 200 percent difference. On the other hand, when there are large changes in the index, measuring differences in percents may prevent a performance fee adjustment even where a performance difference, expressed in percentage points, is substantial.

[16] A somewhat lower performance difference may be significant for large, well-diversified, investment companies. For investment companies which are small or are not well diversified a significantly higher performance difference than ± 10 percentage points would be required. This "rule of thumb" is based upon a measuring period of one year and the "investment record" of the S&P 500 Stock Composite Index.

[17] The Division's studies applied standard statistical tests of significance to incentive fee contracts. The formula used by the Division will be made available to interested persons upon written request. The Commission would appreciate receiving comments with respects to it from interested persons, particularly those with technical expertise.

[18] The level of confidence that such lesser fee adjustments are based upon meaningful performance differences may be less than 90 percent.

Chapter I—Food and Drug Administration, Department of Health, Education, and Welfare

SUBCHAPTER C—DRUGS

PART 149d—NAFCILLIN

Recodification

Correction

In F.R. Doc. 72-3285 appearing at page 4907 in the issue of Tuesday, March 7, 1972, the following changes should be made:

1. In § 149d.1(b)(6) the 18th line should read "maximum at 280±3 nanometers (The ex-".

2. The third line of § 149d.2(b)(1)(ii) should read "however, the results obtained from".

3. The second word in the sixth line of § 149d.13(a)(1) is "sodium".

Title 24—HOUSING AND URBAN DEVELOPMENT

Chapter II—Office of Assistant Secretary for Housing Production and Mortgage Credit—Federal Housing Commissioner (Federal Housing Administration), Department of Housing and Urban Development

[Docket No. R-72-161]

PART 203—MUTUAL MORTGAGE INSURANCE AND HOME IMPROVEMENT LOANS

Contract Rights and Obligations

A proposal was issued on January 6, 1972 (37 F.R. 144) to amend Part 203 of the Department's regulations governing contract rights and obligations for mutual mortgage insurance and insured home improvement loans on one- to four-family dwellings. The present regulation requires that, when a mortgage is assigned, the title evidence be extended to include the assignment of the mortgage to the Commissioner. The amended regulation deletes this requirement. The amendment shall be effective upon publication in the interest of making the amended procedure available as soon as possible.

Interested persons were given an opportunity to participate in the rule making through the submission of comments. No objections were received. Accordingly, 24 CFR Part 203 is amended as follows:

1. In § 203.351, a new paragraph (a)(8) is added. This section as amended reads as follows:

§ 203.351 Application for insurance benefits and fiscal data.

• • • • • •

(a) • • •

(8) *Title evidence.* All title evidence held by the mortgagee. It need not be extended to include the recordation of the assignment. If a mortgagee's title policy is furnished, the Commissioner shall be a named insured under such policy.

• • • • • •

§ 203.352 [Revoked]

2. Section 203.352 *Title evidence upon assignment,* is revoked.

(Sec. 204(a)(1), 48 Stat. 1249, as amended; 12 U.S.C. 1710(a)(1))

Effective date. This amendment of Part 203 shall become effective upon publication in the FEDERAL REGISTER (4-19-72).

EUGENE A. GULLEDGE, *Assistant Secretary-Commissioner.*

Title 29—LABOR

Chapter I—National Labor Relations Board

PART 102—RULES AND REGULATIONS, SERIES 8

Service of Papers

Section 102.112 is amended to read as follows:

§ 102.112 Same; by parties: proof of service.

Service of papers by a party on other parties shall be made by registered mail, or by certified mail, or in any manner provided for the service of papers in a civil action by the law of the State in which the hearing is pending. Except for charges, petitions, exceptions, briefs, and other papers for which a time for both filing and response has been otherwise established, service on all parties shall be made in the same manner as that utilized in filing the paper with the Board, or in a more expeditious manner; however, when filing with the Board is accomplished by personal service the other parties shall be promptly notified of such action by telephone, followed by service of a copy by mail or telegraph. When service is made by registered mail, or by certified mail, the return post office receipt shall be proof of service. When service is made in any manner provided by the law of a State, proof of service shall be made in accordance with such law. Failure to comply with the requirements of this section relating to timeliness of service on other parties shall be a basis for either (a) a rejection of the document or (b) withholding or reconsidering any ruling on the subject matter raised by the document until after service has been made and the served party has had reasonable opportunity to respond.

This amendment is effective upon publication in the FEDERAL REGISTER (4-19-72).

GEORGE A. LEET, *Associate Executive Secretary, National Labor Relations Board.*

[FR Doc.72-5883 Filed 4-18-72;8:46 am]

Title 33—NAVIGATION AND NAVIGABLE WATERS

Chapter I—Coast Guard, Department of Transportation

[CGD 72-76N]

PART 92—ANCHORAGE AND NAVIGATION REGULATIONS; ST. MARYS RIVER, MICH.

Temporary Speed Limits for Vessels of 50 Gross Tons or Over

The purpose of these amendments to the anchorage and navigation regulations for the St. Marys River, Mich., is to establish temporary speed limits effective on April 19, 1972, and terminating on January 15, 1973, unless sooner amended, revoked, or extended.

The temporary speed limits are established to reduce damage to the coastal region. During the periods when the water level of the river is higher than the normal level, small boats and piers along the river have been damaged, acreage bordering the river has been destroyed by erosion, and unprotected structures have been undermined. The Coast Guard found that excessive water action during these periods of high water levels constitutes a hazard to persons and property along the shore and to small boats while underway. Some of the damage and the hazard results from the action of waves generated by passing vessels.

For the past 2 years, numerous complaints have been received by the Coast Guard and by a Member of Congress from the littoral proprietors. In order to reduce the damage and hazard to persons and property, the Coast Guard promulgated temporary speed limits in 1971 which terminated on December 15, 1971 (36 F.R. 7474 and 18526).

V 37-76 APR 19 72 XUM

On the basis of the foregoing, the Coast Guard again finds that an emergency exists and temporary reduced speed limits are necessary to protect lives and property during a presently existing high water level. Accordingly, it is hereby found that notice and public procedures thereon are contrary to public interest, and the reduced speed limits are made effective in less than 30 days.

In consideration of the foregoing § 92.49 of Title 33, Code of Federal Regulations is amended by adding temporary paragraphs (d)(1), (d)(2), (e), and (f) to read as follows:

§ 92.49 Speed limits for vessels of 50 gross tons or over.

. . . . . .

(d) . . .

(1) Between April 19, 1972, and January 16, 1973, speed limits in statute miles per hour over the ground are temporarily reduced from 10 to 9 between Everens Point and Johnson Point, from 12 to 9 between Johnson Point and Mirre Point, from 12 to 10, between Mirre Point and Middle Neebish Channel Light 50, from 15 to 10 between Nine-Mile Point and Six-Mile Point, from 12 to 8 upbound between Six-Mile Point and Mission Point, from 12 to 10 downbound between Mission Point and Six-Mile Point, and from 12 to 10 between West Neebish Channel Light 25 and Moon Island. Unless a direction of travel is indicated, each speed limit applies to both upbound and downbound vessels.

(2) Upbound and downbound vessels may pass vessels bound in the same direction between Nine-Mile Point and Six-Mile Point. The passing vessel must not exceed the temporarily reduced speed limit to 10 statute miles per hour over the ground.

(e) No upbound or downbound vessel may exceed a speed of 17 statute miles per hour over the ground between Detour Reef Light and Sweets Point Light.

(f) No upbound or downbound vessel may exceed a speed of 14 statute miles per hour over the ground between Round Island Light and Point Aux Frenes Lighted Buoy 24.

(Sec. 1–3, 29 Stat. 54–55, as amended, sec. 6(b)(1), 80 Stat. 937; 33 U.S.C. 474; 49 U.S.C. 1655(b)(1); 49 CFR 1.46(b))

Effective date. The temporary reduced speed limits shall become effective on April 19, 1972, and terminate on January 15, 1973.

Dated: April 13, 1972.

C. R. BENDER,
Admiral, U.S. Coast Guard
Commandant.

Title 46—SHIPPING

Chapter I—Coast Guard, Department of Transportation

SUBCHAPTER N—DANGEROUS CARGOES

[CGFR 71–154a]

PART 146—TRANSPORTATION OR STORAGE OF EXPLOSIVES OR OTHER DANGEROUS ARTICLES OR SUBSTANCES AND COMBUSTIBLE LIQUIDS ON BOARD CARGO VESSELS

Methylacetylene–Propadiene, Stabilized

This amendment to Title 46, Code of Federal Regulations, changes the shipping name for methylacetylene-15 to 20 percent propadiene mixture and authorizes its shipment in portable tanks and motor vehicle tank trucks on cargo vessels.

On Tuesday, November 30, 1971, a notice of proposed rule making was published on this matter. A public hearing was held on this proposal on January 18, 1972. Three written comments were received on this notice.

Two of the commentors noted the following differences between the notice and the amendment published by the Hazardous Materials Regulations Board on June 2, 1971:

(a) The shipping name was not in agreement,

(b) Tank cars were proposed to be deleted in this notice where they are not deleted by the Hazardous Materials Regulations Board amendment.

Point (a) is taken up in the Hazardous Materials Regulations Board amendment as to why the shipping name was changed and the Coast Guard agrees with the Board's reasons. Point (b) was an oversight and tank cars should not have been proposed to be deleted in this notice and will be included in this amendment. The third commentor proposed changes to the italicized words in the shipping name which are being deleted for reasons stated in the Board's document.

In consideration of the foregoing Part 146 of Title 46 of the Code of Federal Regulations is amended as follows:

1. In § 146.04–5 "List of explosives and other dangerous articles and combustible liquids" delete the words "Methylacetylene-15 to 20 percent propadiene mixture" and insert in place thereof the words "Methylacetylene-propadiene, stabilized."

2. In § 146.24–100 "Table G—Classification: Compressed Gases" in column 1 delete the words "Methylacetylene-15 to 20 percent propadiene mixture" and insert in place thereof the words "Methylacetylene-propadiene stabilized" and in column 4 for the same article insert directly following the words "Tank cars complying with DOT regulations (trailerships only)" the following:

Portable tanks (DOT–51) not over 20,000 pounds gross weight.
Motor vehicle tank trucks complying with DOT regulations (trailerships and trainships only).

(R.S. 4472, as amended; R.S. 4417a, as amended; sec. 1, 19 Stat. 252, 49 Stat. 1889, sec. 6(b)(1), 80 Stat. 937; 46 U.S.C. 170, 391a, 49 U.S.C. 1655(b)(1); 49 CFR 1.46(b))

This amendment shall become effective on July 24, 1972.

Dated: April 11, 1972.

T. R. SARGENT,
Vice Admiral, U.S. Coast Guard,
Acting Commandant.

[FR Doc.72–5151 Filed 4–18–72;8:45 am]

Chapter IV—Federal Maritime Commission

SUBCHAPTER B—REGULATIONS AFFECTING MARITIME CARRIERS AND RELATED ACTIVITIES

[Docket No. 72–11; General Order 5, Amdt. 6]

PART 511—REPORTS BY COMMON CARRIERS BY WATER IN THE DOMESTIC OFFSHORE TRADES

Uniform System of Accounts for Maritime Carriers

On March 14, 1972, the Federal Maritime Commission published in the FEDERAL REGISTER (37 F.R. 5303) a notice in which the adoption of the "Uniform System of Accounts for Maritime Carriers" was proposed.

The purpose of this amendment is to facilitate the preparation and analysis of the financial and operating form to which the Interstate Commerce Commission, the Maritime Administration, and the Federal Maritime Commission are joint parties. The composition of the accounts employed in the execution of this common form must conform to the "Uniform System of Accounts for Maritime Carriers" in order to provide for accurate and uniform reporting to the Federal Maritime Commission.

Written comments on the proposed amendment were invited and received. Two comments were received, both in favor of the amendment. One commentator, however, referred to Docket No. 67–57, a proposed rule making to revise the Reports of Rate Base and Income Account required by the Commission's General Order 11. This comment urged that preferential consideration not be given to this proceeding which would delay or prejudice the disposition of Docket No. 67–57. The adoption of the proposed amendment in the instant proceeding in no way delays, prejudices, or otherwise affects the proceeding in Docket No. 67–57.

Accordingly, pursuant to the authority of the Shipping Act, 1916 (46 U.S.C. 801, et seq.) and sections 3 and 4 of the Administrative Procedure Act (5 U.S.C. 552, 553), Title 46 CFR, Chapter IV, Part 511 is amended by adding the following sentence to § 511.5:

". . . For purposes of filing FMC–64 Reports only, the Uniform System of Accounts found in Part 282 of this title is prescribed."

This amendment, being only a procedural matter, shall become effective upon publication in the FEDERAL REGISTER (4–19–72).

By the Commission.

[SEAL] FRANCIS C. HURNEY,
Secretary.

[FR Doc.72–5911 Filed 4–18–72;8:49 am]

[Exemption Applications 12, 13, 14]

PART 531—PUBLICATION, POSTING, AND FILING OF FREIGHT RATES AND CHARGES IN THE DOMESTIC OFFSHORE TRADE

Exemptions

Applications for exemption from the Intercoastal Shipping Act, 1933 and the Shipping Act, 1916, and regulations applicable thereto, for miscellaneous cargoes, including liquid in bulk, transported between Seattle, Wash., on the one hand and on the other the Arctic Coast of Alaska between Beechey Point and Tigvariak Island (Prudhoe Bay), via the Gulf of Alaska, the Bering Sea, and the Arctic Ocean; and for miscellaneous cargoes, excepting liquid in bulk, transported between Houston, Tex., on the one hand and on the other the Arctic Coast of Alaska between Beechey Point and Tigvariak Island (Prudhoe Bay), via the Gulf of Alaska, the Bering Sea, and the Arctic Ocean, were filed in the FEDERAL REGISTER.

The effect of such exemption would be to permit movements by barge to the area involved with freedom from tariff filing requirements and regulation with respect to the reasonableness of rates.

The proposed operations are radically different from that usually associated with common carriage. No sailing schedules can be maintained because of the timing operations dictated by the ice conditions in Prudhoe Bay. Much of the operation will be in the nature of proprietary carriage since in most instances the full capacity of a given barge will be chartered by a single company. The specialized outfit of the vessels designated for certain cargoes will make it impractical for the carriers to provide uniform service for all shippers. Finally, special contracts as to the risk of loss and damage will be required due to the extraordinary hazards involved.

The conditions under which the operation is conducted make rate and tariff regulation an unnecessary and undue burden. However, as the building of the North Slope progresses there may be a demand for a fully diversified type of common carrier service which will require full regulatory surveillance by this Commission. In view of this, the exemption is limited to a 3-year period to expire December 31, 1974.

Any carriers indicating a desire to perform a service similar to that proposed by the applicants may file similar applications for exemption which will be expeditiously considered.

The exemption will not substantially impair effective regulation by the Federal Maritime Commission, be unjustly discriminatory or be detrimental to commerce. Therefore, pursuant to section 4 of the Administrative Procedure Act, 5 U.S.C. 533 and section 35 and 43 of the

V 37 76 APR 19 72 XUM

Shipping Act, 1916, 46 U.S.C. 833(a) and 841(a);

Part 531 of Title 46 CFR is amended as follows:

Section 531.26 is amended by revising paragraph (c) to read as follows:

§ 531.26 Exemptions.

• • • • •

(c) The provisions of the Intercoastal Shipping Act, 1933 and the Shipping Act, 1916, as amended, shall not apply to direct service by water between Seattle, Wash. and Prudhoe Bay, Alaska of miscellaneous cargoes including liquid in bulk provided by Foss Launch & Tug Co., Foss Alaska Line, Inc., Puget Sound Tug & Barge Co. and Alaska Barge & Transport, Inc. for a 3-year period ending December 31, 1974; nor to direct service by water between Houston, Tex. and Prudhoe Bay, Alaska of miscellaneous cargoes not including liquid in bulk provided by Puget Sound Tug & Barge Co. for a 3-year period ending December 31, 1974. Any exemption granted to a specific carrier is applicable only to the so specified carrier and may not be used by another carrier, either by merger, change of name or adoption by another carrier. These exemptions will be subject to the submission of the following information 30 days after each voyage begins:

(1) Each contract of carriage entered into between the carriers and the shippers, indicating the services provided by the carriers and the charges assessed;

(2) If not included in the contract furnished under subparagraph (1) of this paragraph, any contractual arrangements and charges therefor for other service to shippers, such as storage, warehousing, handling charges, or any other special services provided to the shippers in connection with the movement of this cargo;

(3) To the extent not included in subparagraphs (1) and (2) of this paragraph, any contractual arrangements for liability for loss or damage and responsibility for insurance coverage;

(4) An identification of all commodities carried, the tonnage for each commodity, and the names of shippers of each such commodity;

(5) An indication of the amount of barge space contracted to each such shipper, i.e., was he chartered the full reach of a barge or merely part capacity of a barge.

• • • • •

Effective date. The exemption granted herein shall become effective upon publication of this order in the FEDERAL REGISTER (4-19-72).

Dated: April 4, 1972.

By order of the Federal Maritime Commission.

FRANCIS C. HURNEY,
Secretary.

[FR Doc.72-5959 Filed 4-18-72;8:52 am]

Title 6—ECONOMIC STABILIZATION

Chapter II—Pay Board

PART 201—STABILIZATION OF WAGES AND SALARIES

Merit and Deferred Pay Increases

On March 22, 1972, a notice of proposed rule making was published in the FEDERAL REGISTER (37 F.R. 5833) to provide for the treatment of merit and deferred pay increases under the authority of the Economic Stabilization Act of 1970, as amended (Public Law 91-379, 84 Stat. 799; Public Law 91-558, 84 Stat. 1468; Public Law 92-8, 85 Stat. 13; Public Law 92-15, 85 Stat. 38; Public Law 92-210, 85 Stat. 743), Executive Order No. 11627 (36 F.R. 20139, October 16, 1971, as amended), Executive Order No. 11640 (37 F.R. 1213, January 27, 1972, as amended), Executive Order No. 11660 (37 F.R. 6175, March 25, 1972), and Cost of Living Council Order No. 3 (36 F.R. 20202, October 16, 1971, as amended). After consideration of all such relevant comments and suggestions that were submitted by interested persons, pertaining to the proposed rules, the amendment of the regulations as proposed is hereby adopted, as set forth below.

Effective date. These amendments shall be effective on and after April 19, 1972.

GEORGE H. BOLDT,
Chairman of the Pay Board.

PARAGRAPH 1. Section 201.11 is amended by adding a new subparagraph (5) to paragraph (a) and by revising paragraphs (b) and (c). These added and revised provisions read as follows:

§ 201.11 Criteria for exceptions.

(a) *In general.* • • •

(5) *Merit increases*—(i) *Exception for qualified merit plans contained in successor employment contracts or successor pay practices.* Wages and salary increases granted pursuant to a qualified merit plan (as defined in subdivision (ii) of this subparagraph), provided for in an employment contract or pay practice previously set forth which existed prior to November 14, 1971, and which is continued in a successor employment contract or successor pay practice effective after November 13, 1971, without any changes of terms or administrative practice shall (subject to the provisions of paragraphs (b) and (c) of this section) constitute an exception to the general wage and salary standard. For purposes of the preceding sentence, a change in the maximum or minimum terminal points of a pay rate range in a qualified merit plan shall not be deemed a change of terms if the ratio of such maximum to such minimum terminal point is not increased. For purposes of this subparagraph, a qualified merit plan provided for in a pay practice which meets all of the criteria set forth in the first sentence of this subdivision, except that such pay practice is not "previously set forth" within the meaning of § 201.14(b) because the aggregate amount to be expended cannot be documented as being finally and formally decided prior to November 14, 1971, shall be treated as a successor pay practice otherwise eligible for the exception provided in this subparagraph.

(ii) *Qualified merit plan defined.* For purposes of subdivision (i) of this subparagraph, the term "qualified merit plan" means a merit plan which, prior to November 14, 1971, was reduced to writing and communicated either to the management personnel responsible for implementing the plan or to the employees covered by the plan, and which written plan—

(*a*) Applies to particular jobs, job classifications, or positions with respect to which the duties and responsibilities of employees are specified,

(*b*) Specifies merit pay rate ranges with respect to such jobs, job classifications, or positions,

(*c*) Clearly defines policies and establishes practices (with respect to review of an employee's performance) for determining merit pay and the size and frequency of merit pay increases with respect to such jobs, job classifications, or positions, and

(*d*) Establishes a system of administrative control.

(iii) *Special rules.* With respect to an appropriate employee unit, wage and salary increases granted pursuant to a merit plan provided for in an employment contract existing prior to November 14, 1971, and continued in a successor employment contract effective prior to April 19, 1972 shall (notwithstanding the provisions of paragraphs (b) and (c) of this section) be excluded from the computation of aggregate wage and salary increases. Such merit plan may continue to operate according to the following rules: Any increases applied to a rate range under such merit pay plan shall be considered a general increase in wages and salaries under the regulations in this chapter. However, individual increases within the rate range under such plans shall not be considered a wage and salary increase under such regulations.

(b) *Overall limitation on exceptions.* Except as provided in paragraph (a) (4), (5) (iii), (6), and (7) of this section, the maximum permissible annual aggregate wage and salary increase with respect to an appropriate employee unit, whether any or all of the above exceptions are applicable, shall not exceed 7 percent.

(c) *Procedures for exceptions.* Exceptions pursuant to subparagraphs (1), (2), (6), and (7) of paragraph (a) of this section shall require prior approval of the Pay Board (or its delegate). Exceptions pursuant to subparagraphs (3), (4), and (5) of paragraph (a) of this section shall be self-executing for Category II and III wage and salary increases, but reports of all such wage and salary increases shall be made to the Pay Board (or its delegate). Category I wage and salary increases, including those pursuant to subparagraphs (3), (4), and (5) of paragraph (a) of this section shall require prior approval of the Pay Board (or its delegate).

• • • • •

PAR. 2. Section 201.14 is revised to read as follows:

§ 201.14 Wage and salary increases effective after November 13, 1971.

(a) *In general.* Employment contracts and pay practices previously set forth which existed prior to November 14, 1971, will be allowed to operate according to their terms. However, any such specific contract or pay practice, when challenged by a party at interest or by two or more members of the Pay Board, is subject to a review to determine whether any wage and salary increase granted pursuant to such contract or pay practice is unreasonably inconsistent with the criteria established by the Board. In the event of a challenge, these terms shall be allowed to remain in effect unless and until the Pay Board rules otherwise. Notwithstanding any other provision of this chapter a pay practice which does not by its own terms, or by applicable provisions of paragraph (c) of this section, expire earlier, will be deemed to expire on November 13, 1972.

(b) *"Previously set forth" defined.* Except as provided in Subpart D of this part, for purposes of this section, a pay practice shall be "previously set forth" only if it can be documented that prior to November 14, 1971, an adjustment to wages and salaries, or, in the case of a merit plan, the aggregate amount to be expended, was—

(1) Decided finally and formally in accordance with established procedures, and

(2) Communicated to the management personnel responsible for implementing the pay adjustment or to the employees affected.

For purposes of the preceding sentence, a formula for determining general adjustments to wages and salaries is not a pay practice previously set forth.

(c) *Merit plans.* A merit plan provided for in an employment contract or a pay practice, referred to in paragraph (a) of this section, will be allowed to operate according to its terms in accordance with such paragraph, until such contract or pay practice expires. For purposes of this section, a merit plan contained in a pay practice previously set forth, will be deemed to expire on the day before the effective date of any of the following changes or modifications to the merit plan—

(1) An increase or change in the rates or rate ranges from those in effect on November 13, 1971;

(2) An increase in the aggregate amount to be expended for merit increases above the aggregate amount as determined prior to November 14, 1971;

(3) A change in the job classifications to which the rates or rate ranges apply; or

(4) A change in the terms or conditions of the plan with respect to any job classification to which it applies, or a change in any policy for determining the size and frequency of merit pay adjustments or a change in any administrative controls.

Expiration of a pay practice under this paragraph shall not disqualify a pay practice from being a successor pay practice under § 201.11(a)(5)(i) if it otherwise qualifies under that section.

(d) *Board review.* For purposes of the review referred to in paragraph (a) of this section, the Pay Board will consider such factors as changes in productivity and the cost of living, on-going collective bargaining and pay practices, the equitable position of the employees involved, and such other factors as are necessary to foster economic growth and to prevent gross inequities, hardships, serious market disruptions, domestic shortages of raw material, localized shortages of labor, and windfall profits.

(e) *Notice requirement.* In addition to the provisions of Part 202 of this chapter, notice shall be given to the Pay Board at least 60 days prior to the scheduled date of any increase to be paid pursuant to an employment contract or pay practice referred to in this section when such increase would affect an appropriate employee unit of 1,000 or more employees and would cause the total of such increases to be in excess of seven percent (unless such increase has been otherwise prenotified or reported pursuant to Part 202 of this chapter). However, in the case of any increase scheduled to take effect before (90 days after date of publication in FEDERAL REGISTER), with respect to which a notice would be required pursuant to the preceding sentence, such notice shall instead be given to the Pay Board before (30 days after date of publication in FEDERAL REGISTER). For purposes of the notice requirement of this paragraph, a fair and reasonable estimate shall be used in determining whether wage and salary adjustments required pursuant to contract or pay practices which are contingent (such as cost-of-living adjustments) will cause the total of such increases to exceed 7 percent.

(f) *Notification instructions.* The notice required by paragraph (e) of this section shall be submitted on forms provided by the Pay Board. Such notice shall be accompanied by a full statement of facts prepared by a party at interest showing good cause as to why such increase is not unreasonably inconsistent with the standard, exceptions, or the review criteria referred to in paragraph (d) of this section.

PAR. 3. Appendix B following Part 201 is amended by deleting therefrom item (6), and by revising item (2) to read as follows:

Appendix B—Interpretive Decisions Adopted by the Pay Board

(2) *Agreements in the construction industry (Adopted November 12, 1971.)* Wage increases under existing or future agreements in the construction industry require prenotification and approval by the Construction Industry Stabilization Committee before they can be put into effect.

V 37 76 APR 19 72 XUM

Proposed Rule Making

DEPARTMENT OF THE TREASURY

Bureau of Customs

[19 CFR Part 153]

ANTIDUMPING ACT

Proposed Procedures

A notice was published in the FEDERAL REGISTER of April 13, 1971 (36 F.R. 7012), that the Treasury Department was reviewing its regulations (19 CFR Part 153) relating to procedures under the Antidumping Act, 1921, as amended (19 U.S.C. 160 et seq.). Interested persons were invited to submit suggestions for improving the regulations to the Commissioner of Customs not later than 60 days after the publication of the notice in the FEDERAL REGISTER. On June 15, 1971, the time for submissions was extended until June 30, 1971 (36 F.R. 11526).

After consideration of all of the suggestions received pursuant to the notice, it has been concluded that certain amendments to the regulations should be proposed.

The primary purpose of the proposed amendments is to insure that the Antidumping Act continues to be administered with a view to defending U.S. industry effectively against unfair international trade practices in the dumping area, while at the same time providing for complete fairness in the antidumping investigations. To this end, the proposed amendments call, among other things, for more expeditious processing of antidumping investigations.

Notice is hereby given that it is proposed to amend certain sections of Part 153 of the Customs Regulations (19 CFR Part 153), and to add certain other sections.

1. Sections 153.30 and 153.31 are proposed to be amended to establish limits on the time within which an Antidumping Proceeding Notice normally will be published subsequent to the receipt, in satisfactory form, of information alleging injurious sales at less than fair value and on the time within which a Withholding of Appraisement Notice, a Notice of Tentative Negative Determination, or a Notice of Tentative Discontinuance of Antidumping Investigation normally will be published following the publication of an Antidumping Proceeding Notice.

2. Section 153.8 is proposed to be amended by deleting the word "reasonably" wherever it appears before the words "direct relationship" in order to make it clear that only circumstances of sale which are directly related to the sales of the merchandise under consideration will be taken into account. Under the proposal, such items as bad debts and general advertising will no longer be allowed as differences in circumstances of sale.

3. Section 153.15 is proposed to be amended to provide for the reopening of discontinued antidumping investigations by the publication, forthwith, of a Withholding of Appraisement Notice when the Secretary, subsequent to the discontinuance, has reason to believe or suspect that merchandise which was the subject of the discontinued investigation, is being, or is likely to be, sold at less than fair value. Additionally, it is proposed to amend paragraph (a) of § 153.15, by deleting the word "changed" before the word "circumstances" so as to make clear that circumstances which were not known at the time of the initiation of the investigation may be taken into account.

4. Sections 153.33 and 153.37 are proposed to be amended to provide that all requests for an opportunity to make an oral presentation be accompanied by a statement outlining the issues which the person making the request wishes to discuss, and to provide, further, that if the request is granted, the Secretary or his delegate will advise the persons involved as to which issues are appropriate for discussion.

5. In addition, a number of other technical amendments are proposed.

Based on the foregoing, it is proposed that the following amendments be made to Part 153 of the Customs Regulations (19 CFR Part 153):

PART 153—ANTIDUMPING

Section 153.8 is amended by deleting the word "reasonably" before "direct relationship" in paragraphs (a) and (b). Section 153.8, as amended, will read as follows:

§ 153.8 Fair value; circumstances of sale.

(a) *General.* In comparing the purchase price or exporter's sales price, as the case may be, with the sales, or other criteria applicable, on which a determination of fair value is to be based, reasonable allowances will be made for bona fide differences in circumstances of sale if it is established to the satisfaction of the Secretary that the amount of any price differential is wholly or partly due to such differences. Differences in circumstances of sale for which such allowances will be made are limited, in general, to those circumstances which bear a direct relationship to the sales which are under consideration.

(b) *Examples.* Examples of differences in circumstances of sale for which reasonable allowances generally will be made are those involving differences in credit terms, guarantees, warranties, technical assistance, servicing, and assumption by a seller of a purchaser's advertising or other selling costs. Reasonable allowances will also generally be made for differences in commissions. Except in those instances where it is clearly established that the differences in circumstances of sale bear a direct relationship to the sales which are under consideration, allowances generally will not be made for differences in research and development costs, production costs, and advertising and other selling costs of a seller unless such costs are attributable to a later sale of merchandise by a purchaser: *Provided*, That reasonable allowances for selling expenses generally will be made in cases where a reasonable allowance is made for commissions in one of the markets under consideration and no commission is paid in the other market under consideration, the amount of such allowance being limited to the actual selling expense incurred in the one market or the total amount of the commission allowed in such other market, whichever is less.

(c) *Relation to market value.* In determining the amount of the reasonable allowances for any differences in circumstances of sale, the Secretary will be guided primarily by the effect of such differences upon the market value of the merchandise but, where appropriate, may also consider the cost of such differences to the seller, as contributing to an estimate of market value.

Section 153.13 is amended by adding a new sentence at the end thereof reading: "If there is not a clear preponderance of the merchandise sold at the same price and weighted averages of the prices of the merchandise sold are determined by the Secretary to be inappropriate, the Secretary may use any method for determining fair value which he deems appropriate." Section 153.13, as amended, will read as follows:

§ 153.13 Fair value; sales at varying prices.

Where the prices in the sales which are being examined for a determination of fair value vary (after allowances provided for in §§ 153.7, 153.8, and 153.9), determination of fair value will take into account the prices of a preponderance of the merchandise thus sold or weighted averages of the prices of the merchandise thus sold. Unless there is a clear preponderance of merchandise sold at the same price, weighted averages of the prices of the merchandise sold normally will be used. If there is not a clear preponderance of the merchandise sold at the same price and weighted averages of the prices of the merchandise sold are determined by the Secretary to be inappropriate, the Secretary may use any method for determining fair value which he deems appropriate.

Section 153.15 is amended by substituting *"Discontinuance of antidumping Investigation."* for *"Fair value; revision of prices or other changed circumstance."* in the main heading; by substituting *"Price assurances, termination of sales or other circumstances."* for *"Discontinuance of investigation."* in the heading of paragraph (a); by inserting the words "and assurances have been received to this effect" after "revision" in subparagraph (1) and after "resumed" in subparagraph (2), by deleting the word "changed" before "circumstances," and by substituting "Notice of Tentative Discontinuance of Antidumping Investigation" for "notice to this effect" in paragraph (a); by substituting *"Notice of Tentative Discontinuance of Antidumping Investigation."* for *"Notice."* in the heading of paragraph (b); by providing that the "Notice of Tentative Discontinuance of Antidumping Investigation" shall set forth a description of the merchandise involved, that interested persons shall be given an opportunity to present their views under a procedure similar to that set forth in § 153.33(b), by substituting "discontinuance" for "termination" in the first sentence and "discontinuing" for "terminating" in the second sentence, by adding the words "or assurances of termination of sales to the United States, and price revisions" after the phrase "price assurances" in the third sentence, and by substituting "will" for "shall" wherever the latter occurs in paragraph (b); by adding a new paragraph (c), relating to the form of a statement of assurances; by adding a new paragraph (d) providing for the publication of a "Discontinuance of Antidumping Investigation" notice in the FEDERAL REGISTER; by adding a new paragraph (e) to provide for final discontinuance after withholding of appraisement or notice of tentative negative determination; by adding a new paragraph (f) to provide for periodic reports by foreign exporters; and by adding a new paragraph (g), relating to the reopening of a discontinued investigation. Section 153.15, as amended, will read as follows:

§ 153.15 Discontinuance of antidumping investigation.

(a) *Price assurances, termination of sales or other circumstances.* Whenever the Secretary of the Treasury is satisfied during the course of an antidumping investigation that either:

(1) Price revisions have been made which eliminate the likelihood of sales at less than fair value and that there is no likelihood of resumption of the prices which prevailed before such revision, and assurances have been received to this effect; or

(2) Sales to the United States of the merchandise have terminated and will not be resumed, and assurances have been received to this effect;

or whenever the Secretary concludes that there are other circumstances on the basis of which it may no longer be appropriate to continue an antidumping investigation, the Secretary may publish a "Notice of Tentative Discontinuance of Antidumping Investigation" in the FEDERAL REGISTER.

(b) *Notice of tentative discontinuance of antidumping investigation.* The notice will set forth a description of the merchandise involved and state the facts relied upon by the Secretary in publishing the notice and that those facts are considered to be evidence warranting the discontinuance of the investigation. The notice will also state that interested persons shall be given the opportunity to present their views under a procedure similar to that set forth in § 153.33(b), and unless persuasive evidence or argument to the contrary is presented within such period as is specified in the notice the Secretary will publish a final notice discontinuing the investigation. The tentative acceptance of price assurances or assurances of termination of sales to the United States, and price revisions or the termination of sales to the United States will not prevent the Secretary from making a determination of sales at less than fair value in any case where he considers such action appropriate.

(c) *Statement concerning assurances.* Assurances provided for in paragraph (a) of this section shall be in substantially the following form:

I hereby certify that I am *(an officer) (attorney-in-fact)* of *(name of foreign manufacturer, producer, or exporter)* and am authorized, on behalf of *(name of foreign manufacturer, producer, or exporter)*, to give assurances that:

(Select the applicable provision.)

1. All future sales of *(commodity)* by *(name of foreign manufacturer, producer, or exporter)* for exportation to the United States shall be made at prices which are not less than fair value within the meaning of the Antidumping Act, 1921, as amended (19 U.S.C. 160 et seq.) and that *(name of manufacturer, producer, or exporter)* shall make a report to the Commissioner of Customs which shall contain or be accompanied by the information required by § 153.15(f), Customs Regulations (19 CFR 153.15(f)), for such period of time and at such intervals as the Secretary may deem appropriate; or

2. All sales of *(commodity)* by *(name of foreign manufacturer, producer, or exporter)* for exportation to the United States have terminated and shall not be resumed.

(Officer or attorney-in-fact)

(d) *Final discontinuance.* As soon as possible after the publication of a "Notice of Tentative Discontinuance of Antidumping Investigation" the Secretary will determine whether final discontinuance is warranted and, if he so determines, publish a "Discontinuance of Antidumping Investigation" notice in the FEDERAL REGISTER.

(e) *Final discontinuance after withholding of appraisement or notice of tentative negative determination.* The procedure specified in paragraphs (b) and (d) in this section will not apply if the decision to discontinue an antidumping investigation is made by the Secretary after a withholding of appraisement notice or notice of tentative negative determination has been published and interested parties have already been afforded an opportunity to present their views pursuant to the provisions of §§ 153.37 or 153.33(b). In lieu thereof, a "Discontinuance of Antidumping Investigation" notice will be published in the FEDERAL REGISTER. The notice will set forth a description of the merchandise involved and state the reasons upon which the discontinuance is based.

(f) *Periodic reports by foreign exporters.* Whenever an investigation has been discontinued by the Secretary on the basis of price assurances, the foreign manufacturer, producer, or exporter of the merchandise which was the subject of the discontinued investigation shall thereafter make a report to the Commissioner of Customs for such period of time and at such intervals as the Secretary may deem appropriate. The periodic reports to the Commissioner of Customs generally shall, as determined by the Secretary, contain or be accompanied by the following:

(1) Prices at, and the terms and conditions on which, the merchandise is being sold for export to the United States and in the applicable foreign market (or information regarding constructed value as set forth in section 206 of the Antidumping Act, 1921, as amended (19 U.S.C. 165));

(2) Published price lists, if any;

(3) Information regarding discounts, quantities involved on a per sale basis, shipping charges, packing costs, and other circumstances of sales in the two markets under consideration;

(4) Information regarding differences in cost of manufacture where similar merchandise is compared pursuant to § 153.9; and

(5) Such other information which the Secretary deems appropriate.

(g) *Reopening of discontinued investigation.* In the event that the Secretary determines, subsequent to the discontinuance of an investigation pursuant to paragraph (d) of this section, that there are reasonable grounds to believe or suspect that there are or are likely to be sales to the United States at less than fair value, he will reopen the investigation by publishing forthwith in the FEDERAL REGISTER a "Withholding of Appraisement Notice" with respect to the merchandise. If prior to the discontinuance of the investigation, importers and exporters concerned had requested a 6-month withholding of appraisement pursuant to § 153.34(b), when the investigation is reopened the Secretary may withhold appraisement for 6 months. If no such requests have been received, the Secretary may withhold appraisement pursuant to § 153.34(a). The withholding of appraisement may be made effective with respect to merchandise entered, or withdrawn from warehouse, for consumption not more than 90 days before the date of publication. Whenever an investigation is reopened, interested persons will be given the opportunity to present their views pursuant to § 153.37.

A new § 153.17, relating to fair value determinations in exporter's sales price situations involving merchandise not resold in the same condition as imported, is added to read as follows:

V 37-76 APR 19 72 XUM

§ 153.17 **Fair value; merchandise not resold in the same condition as imported.**

If exporter's sales price (as defined in section 204 of the Antidumping Act, 1921 (19 U.S.C. 163)), is applicable and the imported merchandise is not resold to an unrelated U.S. purchaser in the condition in which it was imported, the Secretary may use such reasonable basis as he deems appropriate to determine exporter's sales price.

A new § 153.18, relating to fair value comparison, which would provide for a comparison between purchase price or exporter's sales price and the applicable home market price or price to third countries at the same level of trade, is added to read as follows:

§ 153.18 **Fair value; level of trade.**

The comparison of the purchase price or exporter's sales price (as defined in sections 203 and 204, respectively, of the Antidumping Act, 1921, as amended (19 U.S.C. 162, 163)), as the case may be, with the applicable price in the home market of the country of exportation (or, as the case may be, price to third country markets) will generally be made at the same level of trade. However, if the Secretary finds that the sales of the merchandise to the United States or in the applicable foreign market are insufficient in number to permit an adequate comparison, the comparison will be made at the nearest comparable level of trade and appropriate adjustments shall be made for differences affecting price comparability.

Section 153.23 is amended by adding to subparagraph (3) of paragraph (c) the following: "(v) Disclose the names of particular persons from whom confidential information was obtained, if nondisclosure of the names has been requested." So that the subparagraph, as amended, reads as follows:

§ 153.23 **Availability of information in antidumping proceedings.**

* * * * *

(c) * * *

(3) *Information ordinarily regarded as confidential.* Information will ordinarily be regarded as confidential if its disclosure would:

(i) Disclose business or trade secrets;

(ii) Disclose production costs;

(iii) Disclose distribution costs, except to the extent that such costs are accepted as justifying allowances for quantity or differences in circumstances of sale;

(iv) Disclose the names of particular customers or the price or prices at which particular sales were made; or

(v) Disclose the names of particular persons from whom confidential information was obtained, if nondisclosure of the names has been requested (5 U.S.C. 552).

Section 153.30 is amended by inserting "(a) Publication of Antidumping Proceeding Notice." before the first sentence of the section; by substituting "Secretary" for "Commissioner", by deleting the phrase ", with the approval of the Secretary,"; by substituting "to" for "which may", and by substituting "will" for "shall" in the first sentence of paragraph (a); redesignating present paragraphs (a), (b), (c), and (d), as subparagraphs, respectively, (2), (3), (4), and (5); by adding a new subparagraph (1), reading "(1) A description of the merchandise involved."; by substituting "proceeding" for "information" in redesignated subparagraph (2); and by adding a new paragraph (b). Section 153.30, as amended, will read as follows:

§ 153.30 **Antidumping proceeding notice.**

(a) *Publication of antidumping proceeding notice.* If the case has not been closed under § 153.29, the Secretary will publish a notice in the FEDERAL REGISTER that information in an acceptable form has been received pursuant to § 153.25 or § 153.26. This notice to be referred to as the "Antidumping Proceeding Notice," will specify—

(1) A description of the merchandise involved.

(2) Whether the proceeding relates to all shipments of the merchandise in question from an exporting country, or only to shipments by certain persons or firms; in the latter case, the names of such persons and firms will be specified.

(3) The date on which information in an acceptable form was received and that date shall be the date on which the question of dumping was raised or presented for purposes of §§ 201(b) and 202(a) of the Antidumping Act, 1921, as amended (19 U.S.C. 160(b) and 161(a)).

(4) The fact that there is some evidence on record concerning injury to or likelihood of injury to or prevention of establishment of an industry in the United States.

(5) A summary of the information received. If a person outside the Customs Service raised or presented the question of dumping, his name may be included in the notice unless a determination under § 153.23 requires that his name not be disclosed.

(b) *Time limit on publication.* Generally, antidumping proceeding notices issued pursuant to § 153.30 shall be published in the FEDERAL REGISTER within 30 days after the date that information was received pursuant to § 153.25 or § 153.26 in a form acceptable to the Commissioner.

* * * * *

Section 153.31 is amended by deleting present paragraph (b) and substituting a new paragraph (b) to read as follows:

§ 153.31 Full-scale investigation.

* * * * *

(b) *Pricing Information.* Ordinarily the Commissioner will require the foreign manufacturer, producer, or exporter to submit pricing information covering a period of at least 120 days prior to the date that information in a form acceptable to the Commissioner was received pursuant to §§ 153.25 or 153.26. The Commissioner may, however, require the submission of pricing information for such longer period as he deems necessary; and he may also require the submission of pricing information on a current basis during the course of the investigation.

Section 153.32 is amended by adding a new paragraph (c), relating to time limits on investigations, to read as follows:

§ 153.32 **Determination as to fact or likelihood of sales at less than fair value.**

* * * * *

(c) *Time limit on investigations.* Generally, within 6 months, or in more complicated investigations, within 9 months, after the date of the publication of an antidumping proceeding notice, the Secretary will publish in the FEDERAL REGISTER a "Withholding of Appraisement Notice" (§ 153.34), a "Notice of Tentative Negative Determination" (§ 153.33), or a "Notice of Tentative Discontinuance of Antidumping Investigation" (§ 153.15), as appropriate. However if the Secretary decides that the appropriate tentative decision cannot satisfactorily be made within the 9-month period, he will publish a notice of that fact in the FEDERAL REGISTER, together with the reasons therefor. The notice also will announce the length of additional time, usually not more than 3 months, within which the appropriate action will be taken.

Section 153.33 is amended by adding "a description of the merchanlise involved and" after "include" in paragraph (a); by adding a new sentence reading "All such requests shall be accompanied by a statement outlining the issues which the person wishes to discuss." after the first sentence in subparagraph (2) of paragraph (b); and by substituting the words "in regard to those issues which the Secretary or his delegate has determined to be appropriate for discussion" for "and to supply such further information or argument as may be of assistance in leading to a conclusion as to the accuracy of the information in question" in the penultimate sentence of subparagraph (2) of paragraph (b). Section 153.33, as amended, will read as follows:

§ 153.33 **Negative determination.**

(a) *Notice of tentative negative determination.* If it appears to the Secretary that on the basis of information before him a determination of sales at not less than fair value may be required, he will publish in the FEDERAL REGISTER a "Notice of Tentative Negative Determination," which will include a description of the merchandise involved and a statement of the reasons upon which the tentative determination is based.

(b) *Opportunity to present views.*—(1) *Written.* Interested persons may make such written submissions as they desire, within a period which will be specified in the notice, with respect to the contemplated action. Appropriate consideration will be given to any new or additional information or argument submitted.

(2) *Oral.* If any person believes that any information obtained by the Bureau of Customs in the course of the antidumping proceeding is inaccurate or that for any other reason the tentative determination is in error, he may request in writing that the Secretary of the Treasury afford him an opportunity to present his views in this regard. All such requests shall be accompanied by a statement outlining the issues which the person wishes to discuss. Upon receipt of such a request, the Secretary will notify the person who supplied any information, the accuracy of which is questioned and such other person or persons, if any, as he in his discretion may deem to be appropriate. If the Secretary is satisfied that the circumstances so warrant, an opportunity will be afforded by the Secretary or his delegate for all such persons to appear, through their counsel or in person, accompanied by counsel if they so desire, to make known, their respective points of view in regard to those issues which the Secretary or his delegate has determined to be appropriate for discussion. The Secretary or his delegate may at any time invite any person or persons to supply him orally with information or argument.

(c) *Final determination.* As soon as possible thereafter, the Secretary will make a final determination and publish his determination in the FEDERAL REGISTER.

(d) *Negative determination after issuance of a withholding of appraisement notice.* The procedure specified in paragraphs (a), (b), and (c) of this section will not apply if the decision to issue a negative determination is made by the Secretary after a withholding of appraisement notice has been issued and thereafter he has afforded interested parties an opportunity to be heard pursuant to the provisions of § 153.37. In lieu thereof a final negative determination will be published setting forth the statement of reasons.

Section 153.34 is amended by substituting "Secretary" for "Commissioner" and by deleting the phrase ", with the approval of the Secretary," wherever either occurs in paragraphs (a) and (b); by redesignating subparagraphs (1) and (2) of paragraph (a) as (2) and (3), respectively, and adding a new subparagraph (1) reading "(1) a description of the merchandise involved;"; by substituting the phrase "withholding of appraisement notice" for "investigation" in redesignated subparagraph (2) of paragraph (a); by deleting the words "by the importer and the exporter" in new subparagraph (3) of paragraph (a); by deleting the phrase "from importers and exporters concerned" in paragraph (b); by substituting "the Secretary's" for "his" and "each" for "the" preceding "district director of Customs" in paragraph (c); and by deleting paragraph (d). Section 153.34, as amended, will read as follows:

§ 153.34 **Withholding of appraisement.**

(a) *Three-month period.* If the Secretary determines during the course of his investigations that there are reasonable grounds to believe or suspect that any merchandise is being, or is likely to be, sold at less than its foreign market value (or, in the absence of such value, then its constructed value) under the Antidumping Act, and if there is evidence on record concerning injury or likelihood of injury to or prevention of establishment of an industry of the United States, he shall publish notice of these facts in the FEDERAL REGISTER in a "Withholding of Appraisement Notice" indicating:

(1) A description of the merchandise involved;

(2) That the belief or suspicion relates only to certain shippers or producers, if this is the case and that the withholding of appraisement notice is limited to the transactions of such shippers or producers; and

(3) The expiration date of the notice (which shall be no more than 3 months from the date of publication of the notice in the FEDERAL REGISTER, unless a longer period of withholding of appraisement has been requested pursuant to paragraph (b) of this section and has been approved by the Secretary). This withholding of appraisement notice will be issued concurrently with the Secretary's determination pursuant to § 153.3, unless appraisement is being withheld pursuant to paragraph (b) of this section.

(b) *Six-month period.* At any time prior to the issuance of the withholding of appraisement notice referred to in paragraph (a) of this section, importers and exporters concerned may request that the period of withholding of appraisement extend for a period longer than months, but in no case longer than 6 months. Upon receipt of such a request than 3 months, but in no case longer than the Secretary will decide whether appraisement should be withheld for a period longer than 3 months. If the Secretary decides that a period of withholding of appraisement longer than 3 months is justified, he will publish a withholding of appraisement notice upon the same basis and containing information of the same type as is required by paragraph (a) of this section, except that the expiration date of the notice may be 6 months from the date of publication of the notice in the FEDERAL REGISTER.

(c) *Advice to District Directors of Customs.* The Commissioner shall advise all district directors of Customs of the Secretary's action. Upon receipt of such advice each district director of Customs shall proceed to withhold appraisement in accordance with the pertinent provisions of § 153.48.

Section 153.35 is amended by deleting the word "adequate" in paragraph (a) and by adding the word "involved" at the end of that paragraph; and by substituting "exporter or exporters or producer or producers, if the determination covers shipments by less than all of the exporters or producers" for "suppliers, or suppliers, if practicable" in paragraph (c). Section 153.35, as amended, will read as follows:

§ 153.35 **Affirmative determination; general.**

If it appears to the Secretary on the basis of the information before him that a determination of sales at less than fair value is required, unless the withholding of appraisement notice was issued pursuant to § 153.34(b), he will publish in the FEDERAL REGISTER his determination of sales at less than fair value. This determination will include:

(a) A description of the merchandise involved;

(b) The name of each country of exportation;

(c) The name of the exporter or exporters or producer or producers, if the determination covers shipments by less than all of the exporters or producers;

(d) The date of the receipt of the information in an acceptable form;

(e) Whether the appropriate basis of comparison is purchase price or exporter's sales price; and

(f) A statement of reasons upon which the determination is based.

Section 153.37 is amended by substituting "Withholding of Appraisement Notice" for "Affirmative Determination" in the heading; by adding a new sentence following the first sentence to read: "All such requests shall be accompanied by a statement outlining the issues which the person wishes to discuss."; by substituting "in regard to those issues which the Secretary or his delegate has determined to be appropriate for discussion" for "and to supply such further information or argument as may be of assistance in consideration of the matter" in the third from last sentence; and by substituting "will" for "shall" in the next to last sentence. Section 153.37, as amended, will read as follows:

§ 153.37 **Withholding of appraisement notice; opportunity to present views.**

As soon as possible after the publication of the withholding of appraisement notice if any person believes that for any reason the withholding action is in error, he may request that the Secretary of the Treasury afford him an opportunity to present his views in this regard. All such requests shall be accompanied by a statement outlining the issues which the person wishes to discuss. Upon receipt of such a request the Secretary will notify each person who supplied any information, relied upon in connection with the withholding action, and such other person or persons, if any, as he may deem to be appropriate. If the Secretary is satisfied that the circumstances so warrant, an opportunity will be afforded by the Secretary or his delegate for all interested persons to appear, through their counsel or in person, accompanied by counsel if they so desire, to make known their respective points of view in regard to those issues which the Secretary or his delegate has determined to be appropriate for discussion. Unless for unusual reasons it is clearly impracticable, such meeting will be held within 3 weeks of the date of the publication of the notice of withholding, unless such notice was issued pursuant to § 153.34(b), when

V 37-76
APR 19 72
XUM

it will be held within 5 weeks of such publication. Reasonable notice of the meeting will be given.

Section 153.39 is amended by inserting "set forth a description of the merchandise involved and" after "which notice will" in the first sentence and by substituting "will" for "shall" in the last sentence. Section 153.39, as amended, will read as follows:

§ 153.39 Revocation of determination of sales at less than fair value; determination of sales at not less than fair value.

If the Secretary is persuaded from information submitted or arguments received that his determination of sales at less than fair value was in error, and if the Tariff Commission has not yet issued a determination relating to injury, he will publish a notice of "Revocation of Determination of Sales at Less Than Fair Value; Determination of Sales at Not Less Than Fair Value," or, if appropriate, a notice of "Modification of Determination of Sales at Less Than Fair Value," which notice will set forth a description of the merchandise involved and state the reasons upon which it was based. He will notify the Tariff Commission of his action.

Section 153.41 is amended by substituting a new paragraph (c), with the heading "Notice of Tentative Determination to Modify or Revoke Dumping Finding," for the present paragraph (c) and by adding a new paragraph (d). Paragraphs (c) and (d) of § 153.41, as amended, will read as follows:

§ 153.41 Modification or revocation of finding.

* * * * *

(c) *Notice of tentative determination to modify or revoke dumping finding.* If it appears to the Secretary that a modification or revocation of an existing dumping finding may be appropriate, he will publish in the FEDERAL REGISTER a "Notice of Tentative Determination to Modify or Revoke Dumping Finding," which will include a description of the merchandise involved and a statement of the reasons upon which the tentative determination is based. The notice will also state that interested parties will be given the opportunity to present their views under a procedure similar to that set forth in § 153.33(b), and unless persuasive evidence or argument to the contrary is presented within such period as is specified in the notice the Secretary shall publish a final determination to modify or revoke dumping finding.

(d) *Final determination.* As soon as possible after publication of a "Notice of Tentative Determination to Modify or Revoke Dumping Finding," the Secretary will make a final determination and will publish his determination in the FEDERAL REGISTER.

Section 153.48 is amended by substituting "Secretary's" for "Commissioner's" in the first sentence of paragraph (a). Paragraph (a) of § 153.48, as amended, will read as follows:

§ 153.48 Action by the district director of Customs.

(a) *Appraisement withheld; notice to importer.* Upon receipt of advice from the Commissioner of Customs pursuant to § 153.34, the district director of Customs shall withhold appraisement as to such merchandise entered, or withdrawn from warehouse, for consumption, after the date of publication of the "Withholding of Appraisement Notice," unless the Secretary's withholding of appraisement notice specifies a different effective date. Each district director of Customs shall notify the importer, consignee, or agent immediately of each lot of merchandise with respect to which appraisement is so withheld. Such notice shall indicate: (1) The rate of duty of the merchandise under the applicable item of the Tariff Schedules of the United States if known; and (2) the estimated margin of the special dumping duty that could be assessed. Upon advice of a finding made in accordance with § 153.40, the district director of Customs shall give immediate notice thereof to the importer when any shipment subject thereto is imported after the date of finding and information is not on hand for completion of appraisement of such shipment.

§§ 153.49, 153.50, 153.51 [Deleted]

Sections 153.49, 153.50, and 153.51 are deleted. Sections 153.52 through 153.59 are renumbered, consecutively, §§ 153.49 through 153.56, and the reference in renumbered § 153.50 (presently § 153.53) to § 153.54 is amended to read § 153.51. Renumbered § 153.50, as amended, will read as follows:

§ 153.50 Release of merchandise; bond.

When the district director of Customs in accordance with § 153.34(c) has received a notice of withheld appraisement or when he has been advised of a finding provided for in § 153.40, and so long as such notice or finding is in effect, he shall withhold release of any merchandise of a class or kind covered by such notice or finding which is then in his custody or is thereafter imported, unless an appropriate bond is filed or is on file, as specified hereafter in § 153.51, or unless the merchandise covered by a specified entry will be appraised without regard to the Antidumping Act 1921, as amended.

Renumbered section 153.51 (presently § 153.54) is amended by deleting "and the importer or his agent has filed a certificate on Form 3 (§ 153.49)" and substituting "and the resale price in the United States is unknown" in the first sentence of paragraph (b) thereof. Paragraph (b) of renumbered § 153.51, as amended, will read as follows:

§ 153.51 Type of bond required.

* * * * *

(b) *Bond on Customs Form 7591.* If the merchandise is of a class or kind covered by a finding provided for in § 153.40 and the resale price in the United States is unknown, the bond required by section 208 of the Antidumping Act, 1921 (19 U.S.C. 167), shall be on Customs Form 7591. In such case, a separate bond shall be required for each entry or withdrawal, and such bond shall be in addition to any other bond required by law or regulation. The record of sales required under the condition of the bond of Customs Form 7591 shall identify the entry covering the merchandise and show the name and address of each purchaser, each selling price, and the date of each sale. The face amount of such bond shall be equal to the estimated value of the merchandise covered by the finding.

Renumbered § 153.56 (presently § 153.59) is amended by inserting "where purchase price is less than foreign market value," before "the special dumping duty", and by inserting "or agreement to purchase" after "date of purchase" in the first sentence thereof; and by inserting "where exporter's sales price is less than foreign market value," after "section 207," in the second sentence thereof. Section 153.56, as amended, will read as follows:

§ 153.56 Method of computing dumping duty.

If it appears that the merchandise has been purchased by a person not the exporter within the meaning of section 207, Antidumping Act, 1921 (19 U.S.C. 166), where purchase price is less than foreign market value, the special dumping duty shall equal the difference between the purchase price and the foreign market value on the date of purchase, or agreement to purchase, or, if there is no foreign market value, between the purchase price and the constructed value, any foreign currency involved being converted into U.S. money as of the date of purchase or agreement to purchase. If it appears that the merchandise is imported by a person who is the exporter within the meaning of such section 207, where the exporter's sales price is less than foreign market value, the special dumping duty shall equal the difference between the exporter's sales price and the foreign market value on the date of exportation, or, if there is no foreign market value, between the exporter's sales price and the constructed value, any foreign currency involved being converted into U.S. money as of the date of exportation.

It is proposed that these amendments shall apply to all antidumping proceedings with respect to which neither a decision, final or tentative, nor a notice of withholding of appraisement has been published as of the date the amendments become effective.

(Secs. 201, 202, 203, 204, 205, 206, 207, 208, 209, 212, 213, 42 Stat. 11, as amended, 12, 13, as amended, 14, 15, as amended, 18, as amended; secs. 406, 407, 72 Stat. 585; sec. 486, 46 Stat. 725, as amended; 19 U.S.C. 160, 161, 162, 163, 164, 165, 166, 167, 168, 171, 172, 173, 1486)

Prior to final adoption of the proposed amendments, consideration will be given to all relevant data, views, or arguments which are summitted in writing to the Commissioner of Customs, Washington, D.C. 20226, not later than 60 days from the date of publication of this notice in the FEDERAL REGISTER. Written material or suggestions submitted will be available for public inspection in accordance with section 103(b) of the Customs regulations (19 CFR 103.3(b)) at the Bureau of Customs, Washington, D.C.

[SEAL] EDWIN F. RAINS,
Acting Commissioner of Customs.

Approved: April 16, 1972.

EUGENE T. ROSSIDES,
Assistant Secretary of the Treasury.

DEPARTMENT OF THE INTERIOR

Bureau of Indian Affairs

[25 CFR Part 221]

FLATHEAD IRRIGATION PROJECT

Proposed Operation and Maintenance Rates

APRIL 10, 1972.

This notice is published in exercise of authority delegated by the Secretary of the Interior to the Commissioner of Indian Affairs by 230 DM 2 (32 F.R. 13938), and by virtue of the authority delegated by the Commissioner of Indian Affairs to the Area Director (10 BIAM–3; 34 F.R. 637), and by authority delegated to the Project Engineer and to the Superintendent by the Area Director June 11, 1969, Release 10–2, 10 BIAM 7.0, sections 2.70–2.75.

Notice is hereby given that it is proposed to revise §§ 221.24, 221.26, and 221.28, Subchapter T, Chapter 1, of Title 25 of the Code of Federal Regulations. This revision is proposed pursuant to the authority contained in the Acts of August 1, 1914 (38 Stat. 583), May 18, 1916 (39 Stat. 142), and March 7, 1928 (45 Stat. 210).

The purpose of this amendment is to establish the lump sum assessments against the Flathead, Mission, and Jocko Valley Irrigation Districts within the Flathead Irrigation Project for the 1973 season.

Since this revision will change the basic rate of operation and maintenance charges of lands within an Irrigation District, public comment and expression are deemed advisable. Accordingly, interested persons may submit written comments, suggestions, or arguments with respect to the proposed amendment to the Project Engineer, Flathead Irrigation Project, St. Ignatius, Mon. 59865, within 30 days of the date of publication of this notice in the FEDERAL REGISTER.

Sections 221.24, 221.26, and 221.28 are amended to read as follows:

§ 221.24 Charges.

Pursuant to a contract executed by the Flathead Irrigation District, Flathead Indian Irrigation Project, Montana, on May 12, 1928, as supplemented and amended by later contracts dated February 27, 1929, March 28, 1934, August 26, 1936, and April 5, 1950, there is hereby fixed for the season of 1973 an assessment of $391,445.50 for the operation and maintenance of the irrigation system which serves that portion of the project within the confines and under the jurisdiction of the Flathead Irrigation District. This assessment involves an area of approximately 85,468.45 acres, which does not include any land held in trust for Indians and covers all proper general charges and project overhead.

§ 221.26 Charges.

Pursuant to a contract executed by the Mission Irrigation District, Flathead Indian Irrigation Project, Montana, on March 7, 1931, approved by the Secretary of the Interior on April 21, 1931, as supplemented and amended by later contracts dated June 2, 1934, June 6, 1936, and May 16, 1951, there is hereby fixed, for the season of 1973 an assessment of $69,589.16 for the operation and maintenance of the irrigation system which serves that portion of the project within the confines and under the jurisdiction of the Mission Irrigation District. This assessment involves an area of approximately 16,373.92 acres, which does not include any land held in trust for Indians and covers all proper general charges and project overhead.

§ 221.28 Charges.

Pursuant to a contract executed by the Jocko Valley Irrigation District, Flathead Indian Irrigation Project, Montana, on November 13, 1934, approved by the Secretary of the Interior on February 26, 1935, as supplemented and amended by later contracts dated August 26, 1936, April 18, 1950, and August 24, 1967, there is hereby fixed for the season of 1973 an assessment of $29,197.04 for the operation and maintenance of the irrigation system which serves that portion of the project within the confines and under the jurisdiction of the Jocko Valley Irrigation District. This assessment involves an area of approximately 7,525.01 acres, which does not include any lands held in trust for Indians and covers all proper general charges and project overhead.

GEORGE L. MOON,
Project Engineer.

DEPARTMENT OF TRANSPORTATION

Coast Guard

[33 CFR Part 67]

[CGD 72-74N]

GENERAL REQUIREMENTS FOR FOG SIGNALS

Proposed Loudness Levels and Testing Procedures

The Coast Guard is considering amending the Aids to Navigation regulations to revise the minimum loudness levels and establish testing procedures for fog signals on artificial islands and structures that are erected on or over the outer Continental Shelf or in U.S. waters for the purpose of exploring for, developing, removing, and transporting resources from the seabed and subsoil. This proposal also clarifies and makes other minor changes to Part 67 of Title 33 of the Code of Federal Regulations.

The requirements for fog signals in the present regulations are based on an assumed audible threshold of 55 phone loudness level on typical ships underway and on atmospheric attenuation data available in 1958. Since 1958, two significant improvements in technical information have been achieved.

First, actual background noise levels have been measured on large and small vessels underway so that a more accurate knowledge of audible thresholds is available, and second, more accurate and complete measurements have been made to describe the attenuation effect of foggy atmospheres on fog signals.

The regulations proposed in this notice are derived from standards recommended by the International Association of Lighthouse Authorities (IALA). The fog signal sound pressure level required for an "audible range" of 2 miles is that prescribed by IALA for a "usual range" of 2 miles. The sound pressure level required for an "audible range" of one-half mile is similarly derived except that the background noise level for smaller vessels is incorporated into the sound pressure level calculations.

To agree with IALA standards the proposed regulations would change the reference distance for sound pressure levels from 25 feet to 1 meter.

The existing regulations prescribe a minimum fog signal frequency of 100 Hertz. Although the existing sound pressure level curves extend only to 800 Hertz, no maximum frequency is explicitly stated in the existing regulations. The proposed regulations would require fog signals marking artificial islands and structures to have their maximum intensity in the 100 to 1,100 Hertz range to reduce annoyance and risk of hearing damage to nearby personnel and so that higher frequencies may later be utilized for buoy fog signals should such a distinction prove desirable.

The existing regulations require that fog signals be located not more than 100 feet above the water. The proposed regulations would extend this distance to 150 feet.

The proposed regulations would limit the size of fog signals to insure an adequate vertical sound pattern and to enable testing in anechoic chambers.

The Coast Guard considers that existing fog signals, the installation of which has been previously authorized, adequately protect maritime navigation so long as they are maintained in good operating condition, produce the minimum sound pressure level required by the present regulations, and are operated in accordance with the applicable regulations. Therefore the Coast Guard will not, at this time, apply the new testing

V 37-76 APR 19 72 XUM

and sound pressure level requirements to such signals. Under this proposal, after December 31, 1972, the Coast Guard would not authorize the installation of a new or replacement fog signal manufactured after December 31, 1972, unless it has been approved under the proposed regulations.

Interested persons are invited to submit written data, views, arguments, or comments regarding this proposal to the U.S. Coast Guard (CMC/82), 400 Seventh Street SW., Washington, DC 20590. Communications received on or before May 15, 1972, will be considered before final action is taken on this proposal. Copies of this proposal are available upon request to the address above, and will be available for examination at that office as well as the offices of the Coast Guard District Commanders.

Each communication received within the specified time period will be considered and evaluated before final action is taken on this proposal. Copies of written communications received will be available for examination in Room 8234, U.S. Coast Guard Headquarters, 400 Seventh Street SW., Washington, DC. The proposal contained in this document may be amended as a result of comments received.

In consideration of the foregoing, it is proposed that Part 67 of Title 33 of the Code of Federal Regulations be amended as follows:

1. By revising the title of Part 67 and the sections in Subpart 67.10 in the list of sections to read as follows:

PART 67—AIDS TO NAVIGATION ON ARTIFICIAL ISLANDS AND FIXED STRUCTURES

Subpart 67.10—General Requirements for Fog Signals

Sec.
67.10–1 Apparatus requirements.
67.10–5 Location requirements.
67.10–10 Operating requirements.
67.10–15 Approval of fog signals.
67.10–20 Fog signal tests.
67.10–25 Application for tests.
67.10–30 Withdrawal of approval.
67.10–35 Notice of approval and withdrawal of approval.
67.10–40 Fog signals authorized for use prior to January 1, 1973.

§ 67.01–25 [Revoked]

2. By revoking § 67.01–25.

3. By revising Subpart 67.10 to read as follows:

Subpart 67.10—General Requirements for Fog Signals

§ 67.10–1 Apparatus requirements.

The fog signal required by §§ 67.20–10, 67.25–10, and 67.30–10 must—

(a) Have its maximum intensity at a frequency between 100 and 1,100 Hertz;

(b) Sound a 2-second blast every 20 seconds (2-second sound, 18-second silence) unless otherwise authorized by the District Commander;

(c) Have the audible range required by § 67.20–10, 67.25–10, or 67.30–10;

(d) Have a height not exceeding 25 feet;

(e) Have a height not exceeding eight times the wavelength of the fundamental frequency;

(f) Be approved by the Coast Guard under § 67.10–15; and

(g) Be permanently marked with—

(1) The date of Coast Guard approval;

(2) The manufacturer;

(3) A model designation not previously used on any other apparatus;

(4) The approved audible range; and

(5) The power necessary to comply with the provisions of paragraph (c) of this section.

§ 67.10–5 Location requirements.

The fog signal required by §§ 67.20–10, 67.25–10, and 67.30–10 must—

(a) Be located on the structure so that the sound signal produced is audible over 360° in a horizontal plane at all ranges up to and including the required audible range; and

(b) Be located at least 10 feet but not more than 150 feet above mean high water.

§ 67.10–10 Operating requirements.

(a) Fog signals required by §§ 67.20–10, 67.25–10, and 67.30–10 shall be operated continuously, regardless of visibility, unless the fog signal is controlled—

(1) By an attendant on the structure;

(2) Remotely by an attendant on a nearby structure; or

(3) By a fog detection device capable of activating the fog signal when the visibility in any direction is reduced to the range at which fog signal operation is required by this part.

(b) During construction and until such time as a fog signal is installed and operating on a platform, the whistle of an attending vessel moored alongside the platform may be used to sound the signal required for the structure by this part.

§ 67.10–15 Approval of fog signals.

(a) The Coast Guard approves a fog signal if—

(1) It meets the requirements for fog signals in § 67.10–1 (a), (b), (c), (d), and (e) when tested under § 67.10–20; or

(2) It is similar to a fog signal which was tested and approved under the provisions of this section and the Coast Guard has approved all variations in design, construction, production, and manufacture from the fog signal tested.

(b) A fog signal that is an identical production model of a fog signal which has been approved under paragraph (a) of this section is a Coast Guard approved fog signal.

§ 67.10–20 Fog signal tests.

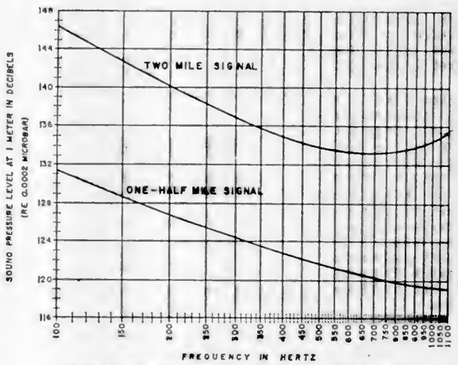
(a) Fog signal tests must—

(1) Be made by the applicant in the presence of a Coast Guard representative, who certifies the test if the procedures comply with the requirements of this section;

(2) Be made with Coast Guard supplied and calibrated sound level meters and power meters; and

(3) Be made in an anechoic chamber large enough to accommodate the entire fog signal, as if installed for actual use.

(b) The sound pressure level must be measured as a function of—



(1) Distance by using a sufficient number of points to allow a far-field extrapolation of the sound pressure level;

(2) Power at outputs up to and including the approximate power level necessary to comply with § 67.10–1(c);

(3) Horizontal angle at increments not greater than 30°; and

(4) Harmonic content to at least the third harmonic.

(c) In analyzing the test data to determine the minimum power necessary to produce the sound pressure level specified in Table A of this section the Coast Guard follows the procedures prescribed by the International Association of Lighthouse Authorities (IALA) in Supplement No. 3 to the IALA Bulletin of February 1969 for analysis of harmonic components and does not consider components above 1,100 Hertz as adding to the audible range.

FREQUENCY (Hz)	1/2 MILE (dB)	2 MILE (dB)
100	131.3	146.4
150	128.8	142.5
200	126.8	140.1
250	125.4	138.2
300	124.4	136.8
350	123.4	135.7
400	122.7	134.9
450	122.1	134.2
500	121.6	133.8
550	121.2	133.5
600	120.8	133.3
650	120.5	133.2
700	120.2	133.2
750	120.0	133.3
800	119.8	133.4
850	119.6	133.6
900	119.4	133.8
950	119.3	134.2
1000	119.2	134.5
1050	119.1	134.9
1100	119.0	135.4

TABLE A: REQUIRED SOUND PRESSURE LEVELS AT 1 METER FOR 1/2 AND 2 MILE FOG SIGNALS

§ 67.10–25 Application for tests.

A person requesting a Coast Guard representative at a test of a fog signal must—

(a) Direct a written request to U.S. Coast Guard (WAN), 400 Seventh Street SW., Washington, DC 20590, including:

(1) His name, address, and telephone number;

(2) A description of the fog signal;

(3) Audible range for which approval is requested;

(4) Location of the anechoic chamber; and

(5) Proposed test dates.

(b) Bear all the expenses of conducting the test conducted in accordance with § 67.10–20 including all expenses of the U.S. Government in sending a Coast Guard representative to the test.

§ 67.10–30 Withdrawal of approval.

The Coast Guard may withdraw approval of a fog signal if it fails to meet the requirements of § 67.10–1 (a), (b), and (c).

§ 67.10–35 Notice of approval and withdrawal of approval.

(a) The Coast Guard publishes a notice of the approval or withdrawal of approval of a fog signal in the Local Notice to Mariners.

(b) A listing of approved fog signals may be obtained from any District Commander.

§ 67.10–40 Fog signals authorized for use prior to January 1, 1973.

Any fog signal authorized for use by the Coast Guard and manufactured prior to January 1, 1973, is excepted from the requirements in this subpart, except §§ 67.10–1 (b) and (c), 67.10–5 and 67.10–10, if the fog signal has a minimum sound pressure level as specified in Table A of this subpart in effect on December 31, 1972, for the audible range required by § 67.20–10, § 67.25–10, or § 67.30–10.

4. By revising § 67.20–10 to read as follows:

§ 67.20–10 Fog signal.

(a) The owner of a class "A" structure shall—

(1) Install a fog signal with an audible range of at least 2 miles in accordance with Subpart 67.10 of this chapter, and,

(2) Operate the fog signal when the visibility in any direction is less than 5 miles.

(b) The District Commander may waive any requirements in paragraph (a) of this section if he finds that a structure is so close to other structures and so enveloped by the fog signals on other structures that it is not a hazard to navigation.

5. By revising § 67.25–10 to read as follows:

§ 67.25–10 Fog signal.

(a) The owner of a class "B" structure shall—

(1) Install a fog signal with an audible range of at least one-half mile in accordance with Subpart 67.10 of this part, except that the District Commander may—

(i) Prescribe a greater audible range, not to exceed 2 miles, under the provisions of paragraph (b) of this section; or

(ii) Exempt the structure from the requirements of this paragraph, under the provisions of paragraph (c) of this section;

(2) Operate the fog signal when the visibility in any direction is less than 3 miles, unless the District Commander establishes a greater or lesser distance of visibility, not to exceed 5 miles, under the provisions of paragraph (b) or (c) of this section.

(b) The owner of a class "B" structure shall install a fog signal with a greater audible range or operate it at times of greater visibility than required in paragraph (a) of this section if—

(1) The structure is erected on or adjacent to the edge of a—

(i) Navigable channel;

(ii) Fairway; or

(iii) Line of demarcation; and

(2) The District Commander decides a greater audible range or operation of the fog signal at times of greater visibility is necessary for the safety of marine commerce.

(c) The District Commander may waive or relax the provisions of paragraph (a) of this section, if he finds that a structure is—

(1) So close to other structures and so enveloped by the fog signals on other structures that it is not a hazard to navigation; or

(2) So located in a shoal area that it is not a hazard to navigation.

6. By revising § 67.30–10 to read as follows:

§ 67.30–10 Fog signals.

(a) The owner of a class "C" structure shall install a fog signal in accordance with Subpart 67.10 of this part if—

(1) The structure is erected on or adjacent to the edge of a—

(i) Navigable channel,

(ii) Fairway, or

(iii) Line of demarcation; and

(2) The District Commander decides it is necessary for the safety of marine commerce.

(b) Fog signals required by paragraph (a) of this section must have an audible range of at least one-half mile, unless the District Commander prescribes a greater audible range, not to exceed 2 miles.

(c) The owner of the structure shall operate the fog signal required by paragraph (a) of this section whenever the visibility in any direction is less than 3 miles, unless the District Commander establishes a greater or lesser distance of visibility, not to exceed 5 miles.

(d) Class "C" structures may have fog signals if—

(1) Authorized by the District Commander under the provisions of Subpart 66.01 of this subchapter; and

(2) The fog signal meets the requirements of § 67.10–1 (a) and (b).

(Sec. 1, 70 Stat. 226, sec. 4, 67 Stat. 462, sec. 6 (b)(1), 80 Stat. 938; 14 U.S.C. 85, 43 U.S.C. 1333, 49 U.S.C. 1655(b); 49 CFR 1.46(b))

Federal Aviation Administration

[14 CFR Part 39]

[Airworthiness Docket No. 72-SW-26]

MOONEY MODEL M20 SERIES AIRCRAFT

Proposed Airworthiness Directive

The Federal Aviation Administration is considering amending Part 39 of the Federal Aviation Regulations by adding an airworthiness directive applicable to Mooney Model M20 series airplanes. There have been failures of the flight control system and landing gear system on the Mooney M20 series airplanes due to inadequate lubrication which could result in loss of control or collapse of the landing gear. Since this condition is likely to exist or develop in other airplanes of the same type design, the proposed airworthiness directive would require lubrication at specified intervals and the addition of specific grease fittings on Mooney M20 series airplanes.

Interested persons are invited to participate in the making of the proposed rule by submitting such written data, views, or arguments as they may desire. Communications should identify the docket number and be submitted in triplicate to the Federal Aviation Administration, Regional Counsel, Post Office Box 1689, Fort Worth, TX 76101. All communications received within 30 days after publication of this notice will be considered by the Administrator before taking action upon the proposed rule. The proposals contained in this notice may be changed in light of the comments received. All comments will be available, both before and after the closing date for comments, at the office of the Regional Counsel, Southwest Region, Fort Worth, Tex., for examination by interested persons.

This amendment is proposed under the authority of sections 313(a), 601, and 603 of the Federal Aviation Act of 1958 (49 U.S.C. 1354(a), 1421, 1423) and of section 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).

In consideration of the foregoing, it is proposed to amend § 39.13 of the Federal Aviation Regulations by adding the following new airworthiness directive:

MOONEY. Applies to Mooney Models M20, M20A, M20B, M20C, M20D, M20E, M20F, and M20G airplanes.

Compliance required as indicated.

To prevent corrosion in the flight control and landing gear systems which may result in binding or seizure of the joints and loss of flight control or collapse of the landing gear, accomplish the following:

V 37-76 APR 19 72 XUM

(a) Within the next 25 hours' time in service after the effective date of this A.D. unless already accomplished within the last 25 hours' time in service and thereafter at intervals not to exceed 100 hours' time in service or at each annual inspection whichever comes first, lubricate all flight control system and landing gear system rod end bearings with a silicone spray lubricant.

(b) Within the next 50 hours' time in service after the effective date of this A.D. unless already accomplished, install grease fittings in the landing gear system in accordance with Mooney Service Bulletin No. M20–155 or an equivalent method approved by the Chief, Engineering and Manufacturing Branch, Southwest Region, FAA, Fort Worth, Tex.

NOTE: Mooney Service Bulletin No. M20–155 does not cover the Models M20 and M20A. Grease fittings are to be added to these models. Mooney Service Bulletin No. M20–155 may be used as a guide for installation of the fittings on the Models M20 and M20A.

Issued in Fort Worth, Tex., on April 6, 1972.

HENRY L. NEWMAN,
Director, Southwest Region.

DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

Public Health Service

[42 CFR Part 87]

GRANTS FOR RESEARCH AND DEMONSTRATIONS RELATING TO OCCUPATIONAL SAFETY AND HEALTH

Proposed Conditions and Procedures

Notice is hereby given that the Administrator, Health Services and Mental Health Administration, with the approval of the Secretary of Health, Education, and Welfare, proposes to amend Title 42, Code of Federal Regulations by adding a new Part 87, as set forth below, which sets forth the conditions and procedures for awarding grants for research and demonstration projects relating to occupational safety and health under section 20(a)(1) of the Occupational Safety and Health Act of 1970 (29 U.S.C. 669(a)(1)).

It is proposed that these regulations be effective on the date of their republication in the FEDERAL REGISTER. The Secretary has determined that the purposes of the Act will be achieved in a more effective and expeditious manner if grants under this part are limited to public and private nonprofit agencies and institutions.

Interested persons may submit comments concerning the proposed regulations to the National Institute for Occupational Safety and Health, Room 10A–05, Parklawn Building, 5600 Fishers Lane, Rockville, MD 20852. All relevant material received within 30 days after publication of this notice will be considered. All comments in response to this proposal will be available for public inspection during normal business hours at the foregoing address.

Dated: March 23, 1972.

VERNON E. WILSON,
Administrator, Health Services and Mental Health Administration.

Approved: April 12, 1972.

ELLIOT L. RICHARDSON,
Secretary.

Chapter I of Title 42 is amended by adding a new Part 87, to read as follows:

PART 87—GRANTS FOR RESEARCH AND DEMONSTRATIONS RELATING TO OCCUPATIONAL SAFETY AND HEALTH

Subpart A—Applicability and Definitions

Sec.
87.1 Applicability.
87.2 Definitions.

Subpart B—Eligibility, Award, and Termination

87.10 Nature and purpose of grant.
87.11 Eligibility.
87.12 Application for grant.
87.13 Evaluation and disposition of applications.
87.14 Grant awards.
87.15 Termination and withholding of payments.

Subpart C—Grant Conditions—Obligations of Grantee

87.20 Use of funds; changes in project and project period.
87.21 Principal investigators; project directors.
87.22 Inventions or discoveries.
87.23 Publications and copyright.
87.24 Records, reports, inspections.
87.25 Nondiscrimination.
87.26 Other conditions.

Subpart D—Grantee Accountability

87.30 Date of final accounting.
87.31 Accounting for grant award payments.
87.32 Accounting for equipment.
87.33 Accounting for grant related income.
87.34 Final settlement.

AUTHORITY: The provisions of this Part 87 issued under sec. 8(g), 84 Stat. 1600; 29 U.S.C. 657(g).

Subpart A—Applicability and Definitions

§ 87.1 Applicability.

The regulations of this part apply to grants awarded pursuant to section 20(a)(1) of the Occupational Safety and Health Act of 1970 for the support of research, experiments, demonstrations, and studies related to occupational safety and health.

§ 87.2 Definitions.

Any term defined in the Occupational Safety and Health Act of 1970 and not defined below shall have the meaning given it in the Act. As used in this part—

(a) "Act" means the Occupational Safety and Health Act of 1970.

(b) "Nonprofit agency or institution" means an agency, corporation, or association no part of the net earnings of which inures or may lawfully inure to the benefit of any shareholder or individual.

(c) "Principal investigator" for a research project or the "project director" for a demonstration project means a single individual designated by the grantee in the grant application and approved by the Secretary who is responsible for the scientific and technical direction of the project.

(d) "Project period" means the period of time, not exceeding 7 years in the case of a research project, or 5 years in the case of a demonstration project, which the Secretary finds is reasonably required to initiate and conduct a project meriting support by means of one or more grants within the scope of § 87.10, except that such period may be extended by the Secretary beyond 7 or 5 years respectively, solely to permit continuation or completion of the same approved project by use of funds previously awarded but remaining unencumbered by the grantee at the end of such years. The project period may include the time required for initial staffing and acquisition of facilities and for the preparation and publication of the results of the project. The approval and support of a research or demonstration project for the maximum project period shall not preclude additional support of that project beyond such period if such support of the continued project is requested, evaluated and approved on the same basis as a new or initial application in accordance with §§ 87.12 and 87.13.

(e) "Secretary" means the Secretary of Health, Education, and Welfare and any other officer or employee of the Department of Health, Education, and Welfare to whom the authority involved may be delegated.

Subpart B—Eligibility, Award, and Termination

§ 87.10 Nature and purpose of grant.

(a) A research project grant is the award by the Secretary of funds to an eligible institution or organization hereinafter called the "grantee," to assist in meeting the costs of conducting an identified activity or program hereinafter termed the "project" that is intended and designed to establish, discover, develop, elucidate, or confirm information or the underlying mechanisms relating to occupational safety or health, including studies of psychological factors involved, and relating to innovative methods, techniques, and approaches for dealing with occupational safety or health problems.

(b) A demonstration project grant is the award by the Secretary of funds to an eligible institution or organization hereinafter called the "grantee," to assist in meeting the costs of conducting an identified activity or program hereinafter termed the "project" that is intended and designed to demonstrate, either on a pilot or full-scale basis, the technical or economic feasibility or application of: (1) A new or improved occupational safety or occupational health procedure, method, technique, or system; or (2) an innovative method, technique, or approach for dealing with occupational safety or health problems.

§ 87.11 Eligibility.

(a) *Eligible applicants.* Any public or nonprofit private agency or institution is eligible to apply for a grant under this part, except Federal agencies or institutions not specifically authorized by law to receive such a grant.

(b) *Projects eligible for research grants.* Any project found by the Secretary to be a research project within the meaning of § 87.10(a) shall be eligible for a grant award. Eligible projects may consist of laboratory, clinical, population, field, statistical, basic, applied, or other types of investigations, studies or experiments, or combinations thereof, and may either be limited to one, or a particular aspect of a, problem or subject, or may consist of two or more related problems or subjects for concurrent or consecutive investigation and involving multiple disciplines, facilities, and resources.

(c) *Projects eligible for demonstration grants.* Any project found by the Secretary to be a demonstration project within the meaning of § 87.10(b) shall be eligible for a grant award. Eligible projects may consist of, but are not limited to, feasibility studies, design, operation, maintenance, evaluations of a new or improved procedure, method, technique, or system, and plans and specifications in connection therewith.

§ 87.12 Application for grant.

(a) An application for a grant under this part shall be submitted to the Secretary at such time and in such form and manner as the Secretary may prescribe.[1] Such application shall set forth the nature, duration, purpose, and plan of the research or demonstration project, the name and qualifications of the principal investigator or project director and the qualifications of the principal staff members to be responsible for the project, the total facilities and resources that will be available, a justification of the amount of grant funds requested, and such other pertinent information as the Secretary may require.

(b) The application shall be executed by an individual authorized to act for the applicant and to assume on behalf of the applicant the obligations imposed by the terms and conditions of any award, including the regulations of this part.

§ 87.13 Evaluation and disposition of applications.

(a) *Evaluation.* All applications filed in accordance with § 87.12 shall be evaluated by the Secretary through such officers and employees and such experts or consultants engaged for this purpose as he determines are specially qualified in the areas of research or demonstration involved in the project. The Secretary's evaluation shall take into account, among other pertinent factors, the scientific merit and significance of the project, the competency of the proposed staff in relation to the type of research or demonstration involved, the feasibility of the project, the likelihood of its producing meaningful results, the proposed project period, the adequacy of the applicant's resources available for the project and the amount of grant funds necessary for completion.

(b) *Disposition.* On the basis of his evaluation of an application pursuant to paragraph (a) of this section the Secretary shall (1) approve, (2) defer because of either lack of funds or a need for further evaluation, or (3) disapprove, support of the proposed project in whole or in part. With respect to approved projects, the Secretary shall determine the project period during which the project may be supported. Any deferral or disapproval of an application shall not preclude its reconsideration or a reapplication.

§ 87.14 Grant awards.

(a) General: Within the limits of funds available for such purpose, the Secretary shall award a grant to those applicants whose approved projects will in his judgment best promote the purposes of § 87.10 on the basis of his evaluation under § 87.13(a). The date specified by the Secretary as the beginning of the project period shall be no later than 9 months following the date of any initial or new award statement unless the Secretary finds that because of the nature of a project or the grantee's particular circumstances earlier assurance of grant support is required to initiate the project. All amounts awarded, whether provisional or otherwise, remain subject to accountability as provided under Subpart D of this part.

(b) The amount of any award shall be determined by the Secretary on the basis of his estimate of the sum necessary for all or a designated portion of direct project costs plus an additional amount for indirect costs, if any, which will be calculated by the Secretary either (1) on the basis of his estimate of the actual indirect costs reasonably related to the project, or (2) on the basis of a percentage of all, or a portion of, the estimated direct costs of the project when there are reasonable assurances that the use of such percentage will not exceed the approximate actual indirect costs. Such award may include an estimated provisional amount for indirect costs or for designated direct costs subject to upward (within the limits of available funds) as well as downward adjustments to actual costs when the amount properly expended by the grantee for provisional items has been determined by the Secretary: *Provided, however,* That no grant shall be made for an amount equal to the total cost as found necessary by the Secretary for the carrying out of the project. In determining the grantee's share of the project costs, (i) costs for which Federal grants from other sources have been or may be claimed or received, or (ii) costs used to match other Federal grants (except as may be otherwise provided by law), or (iii) costs to be met from the Federal share of grant related income (except as may be permitted by chapter 1–420 of the Department of Health, Education, and Welfare Grants Administration Manual[2]), may not be included.

(c) Except as may otherwise be provided by the regulations of this part, the identification of direct and indirect costs will be consistent with the generally accepted and established accounting practices that the grantee applies to its own activities and in conformance with the applicable principles set forth in chapters 1–76, 2–65, 2–66, and 5–60 of the Department of Health, Education, and Welfare Grants Administration Manual.

(d) All grant awards shall be in writing and shall set forth the amount of funds granted and the period for which support is recommended.

(e) Neither the approval of any project nor any grant award shall commit or obligate the United States in any way to make any additional, supplemental, continuation, or other award with respect to any approved project or portion thereof.

(f) Multiple, concurrent, initial awards: Whenever a project involves a number of different but related problems, activities or disciplines so as to require evaluation by different groups, or whenever support for a project could be more effectively administered by separate handling of separate aspects of the project, the Secretary may evaluate and approve two or more concurrent applications each dealing with one or more specified aspects of the project, and he may make two or more concurrent grant awards with respect to such a project.

(g) Supplemental and continuation awards: The Secretary may from time to time within the project period make additional grant awards with respect to any approved project continued without change except as provided in § 87.20 (b) and (c) where he finds, on the basis of such progress and accounting reports as he may require, either that (1) the amount of any prior award was less than the amount necessary to carry out the approved project within the period used for estimating the amount of such prior award (a supplemental grant), or (2) the progress made within the period with respect to which any prior awards were made justifies support for an additional, specified portion or the remainder of the project period (a continuation grant). The amount of any supplemental or continuation grant shall be determined as provided in paragraph (b) of this section.

(h) Payments: The Secretary shall from time to time make payments to a grantee of all or a portion of any grant award, either in advance or by way of reimbursement for expenses to be incurred or incurred in the project period, to the extent he determines such payments necessary to promote prompt initiation and advancement of the approved project. All such payments shall be recorded by the grantee in account-

XUM

ing records separate from all other fund accounts, including funds derived from other grant awards. Amounts paid shall be available for expenditure by the grantee in accordance with the regulations of this part throughout the project period subject to such limitations as the Secretary may prescribe.

§ 87.15 Termination and withholding of payments.

(a) *Discontinuance by agreement.* Whenever in the judgment of the Secretary and the grantee, continuation of an approved project would produce results of no value in furthering the purposes of § 87.10, grant support shall be terminated.

(b) *Termination by Secretary.* Whenever the Secretary finds that a grantee has failed in a material respect to comply with the regulations of this part or the terms of the grant, he may, after affording the grantee reasonable notice and an opportunity to present its views and evidence, withhold further payments and take such other action, including the termination of the grant, as he finds appropriate to carry out the purposes of the regulations of this part. The views and evidence of the grantee shall be (1) presented in writing unless the Secretary determines that an oral presentation is desirable, and (2) confined to matters relevant to whether the grantee has failed in a material respect to comply with the regulations of this part or the terms of the grant.

(c) *Termination by the grantee.* A grantee may at any time terminate or cancel its conduct of an approved project by notifying the Secretary in writing setting forth the reasons for such termination.

(d) *Accounting.* Upon any termination or transfer of a grant from a grantee under § 87.21, the grantee shall render an accounting pursuant to Subpart D of this part: *Provided, however,* That to the extent the termination is due in the judgment of the Secretary to no fault of the grantee, credit shall be allowed for the amount required to settle at minimum costs any noncancellable obligations properly incurred by the grantee prior to receipt of notice of termination.

Subpart C—Grant Conditions—Obligations of Grantee

§ 87.20 Use of funds; changes in project and project period.

(a) *Use of funds.* Any funds granted pursuant to § 87.14 shall be expended by the grantee solely for carrying out the approved project in accordance with the regulations of this part, and, except as otherwise may be provided in this part, the applicable cost principles set forth in the Department of Health, Education, and Welfare Grants Administration Manual. The grantee may not in whole or in part delegate or transfer this responsibility for the use of such funds to any other person.

(b) *Changes in project.* The permissible changes by the principal investigator or the project director in the approved project shall be limited to changes in methodology, approach, or other aspects of the project that would expedite achievement of the project's objectives, including changes that grow out of the approved project and serve the best scientific strategy. Whenever the grantee and the principal investigator or project director are uncertain as to whether a change complies with these provisions, the question shall be referred to the Secretary for a final determination. Other changes in the project may be made only with the prior approval of the Secretary.

(c) *Changes in project period.* The project period determined pursuant to § 87.13(b) may be extended by the Secretary, with or without additional grant support, for such an additional period as he determines may be required to complete, or fulfill the purposes of the approved project provided the total period as extended does not exceed 7 years, in the case of a research project or 5 years in the case of a demonstration project, except with respect to the grantee's unencumbered balances as provided in § 87.2(d).

§ 87.21 Principal investigators; project directors.

All grant awards shall be subject to the condition that the principal investigator or project director designated in the application as responsible for the conduct of the approved project shall continue responsible for the duration of the project period. Whenever any such investigator or director shall become unavailable for any reason to discharge this responsibility, the grant shall be terminated unless (a) the grantee replaces such investigator or director with another person found by the Secretary to be qualified to direct and conduct the approved project, or (b) the Secretary, upon application in accordance with the provisions of § 87.12, transfers the grant to any agency or institution eligible under § 87.11 for continuation of the currently supported project provided he finds that the change in the conduct of the project is consonant with the previous evaluation and approval of the project under § 87.13.

§ 87.22 Inventions or discoveries.

Any grant award pursuant to § 87.14 is subject to the regulations of the Department of Health, Education, and Welfare as set forth in 45 CFR Parts 6 and 8, as amended. Such regulations shall apply to any activity for which grant funds are in fact used whether within the scope of the project as approved or otherwise. Appropriate measures shall be taken by the grantee and by the Secretary to assure that no contracts, assignments, or other arrangements inconsistent with the grant obligation are continued or entered into and that all personnel involved in the supported activity are aware of and comply with such obligation. Laboratory notes, related technical data and information pertaining to inventions or discoveries shall be maintained for such periods, and filed with or otherwise made available to the Secretary or those he may designate at such times and in such manner, as he may determine necessary to carry out such Department regulations.

§ 87.23 Publications and copyright.

Except as may otherwise be provided under the terms and conditions of the award, the grantee may copyright without prior approval any publications, films, or similar materials developed or resulting from a research or demonstration project supported by a grant under this part, subject, however, to a royalty-free, nonexclusive license or right in the Government to reproduce, translate, publish, use, disseminate, and dispose of such materials and to authorize others to do so.

§ 87.24 Records, reports, inspections.

(a) *Records and reports.* Each grant award pursuant to § 87.14 shall be subject to the condition that the grantee shall maintain such progress and fiscal records, and file with the Secretary such progress and fiscal reports relating to the conduct and results of the approved project and the use of grant funds as the Secretary may prescribe. Such records shall be retained, as follows:

(1) Records may be destroyed 3 years after the end of the budget period if the grantee has been notified of the completion of the Federal audit by such time.

(2) If the grantee has not been so notified, such records shall be retained until the grantee is notified of the completion of the Federal audit or until 5 years following the end of the budget period, whichever comes first.

(3) In all cases where audit questions have arisen before the expiration of such 5-year period, records shall be retained until resolution of all such questions.

(b) *Inspection and audit.* Any application for a grant award filed pursuant to § 87.12 shall constitute the consent of the applicant to inspections at reasonable times by persons designated by the Secretary of the facilities, equipment and other resources of the applicant and to interviews with principal staff members to the extent such resources and personnel will be, or are, involved in the project. In addition, the acceptance of any grant award under § 87.14 shall constitute the consent of the grantee to inspections and fiscal audit by such persons of the supported activity and of progress and fiscal records relating to the approved project.

§ 87.25 Nondiscrimination.

Attention is called to the requirements of title VI of the Civil Rights Act of 1964 (78 Stat. 252, 42 U.S.C. 2000d et seq.) and in particular section 601 of such act which provides that no person in the United States shall, on account of race, color, or national origin be excluded from participation in, be denied the benefits of, or be subjected to discrimination under any program or activity receiving Federal financial assistance. Regulations implementing title VI have been issued by the Secretary of Health, Education, and Welfare with the approval of the President (45 CFR Part 80) and apply with respect to research or demonstration project grants awarded under this part.

§ 87.26 Other conditions.

The Secretary may with respect to any grant award or class of awards impose additional conditions prior to or at the time of any award when in his judgment such conditions are necessary to assure or protect advancement of the approved project or the conservation of grant funds.

Subpart D—Grantee Accountability

§ 87.30 Date of final accounting.

In addition to such other accounting as the Secretary may require, a grantee shall render, with respect to each approved project, a full accounting as provided herein, as of a termination date which shall be either (a) the end of the project period as determined pursuant to § 87.13(b) or its extension as provided in § 87.20 (c), or (b) the date of any termination of grant support as provided in § 87.15, whichever first occurs.

§ 87.31 Accounting for grant award payments.

With respect to each approved project the grantee shall account for the sum total of all amounts paid under § 87.14(h) by presenting or otherwise making available vouchers or any other evidence satisfactory to the Secretary of expenditures for direct and indirect costs meeting the requirements of § 87.14: *Provided, however,* That where the amount awarded for indirect cost was based on a predetermined fixed-percentage of estimated direct costs, the amount allowed for indirect costs shall be computed on the basis of such predetermined fixed-percentage rates applied to the total, or a selected element thereof, of the reimbursable direct costs incurred.

§ 87.32 Accounting for Equipment.

As used in this section the term "equipment" means an article of property procured or fabricated which is complete in itself, is of a durable nature, and has an expected service life of more than 1 year. Equipment on hand on the date of termination for which accounting is required in accordance with the procedures set forth in chapter 1–410–50 of the Department of Health, Education, and Welfare Grants Administration Manual shall be identified and reported by the grantee in accordance with such procedures, and, accounted for, or accountability waived, by one or a combination of the following methods, as determined by the Secretary:

(a) *Retention of equipment for other occupational safety and health projects.* Equipment may be used, without adjustment of accounts, on other grant supported projects (whether or not federally supported) within the scope of the Act, and no other accounting for such equipment shall be required; *Provided, however,* (1) That during such period of use no charge for depreciation, amortization or for other use of the equipment shall be made against any existing or future Federal grant or contract, and (2) if, within the period of its useful life, the equipment is transferred by sale or otherwise for use outside the scope of the Act, the Federal portion of the fair market value at the time of transfer shall be refunded to the Federal Government.

(b) *Sale or other disposition of equipment, crediting of proceeds or value.* The equipment may be sold by the grantee and the net proceeds of the sale credited to the grant account for project use, or they may be used or disposed or in any manner by the grantee by crediting to the grant account the Federal share of the fair market value on the termination date. To the extent equipment purchased from grant funds is used for credit or trade-in on the purchase of new equipment, the accounting obligation shall apply to the same extent to such new equipment.

(c) *Return or transfer of equipment.* The equipment may be returned to the Federal Government by the grantee or, in accordance with the provisions of chapter 1–410–50B of the Department of Health, Education, and Welfare Grants Administration Manual, may be transferred to another grantee for the purpose of continuing the project for which the equipment was purchased.

(d) *Waiver of equipment accountability.* Where the grantee is an organization within the terms of the Act of September 6, 1958 (72 Stat. 1793; Public Law 85–934), the obligation to account for the value of any equipment may be waived by the Secretary as provided by such Act.

§ 87.33 Accounting for grant related income.

(a) *Interest.* Pursuant to section 203 of the Intergovernmental Cooperation Act of 1968 (42 U.S.C. 4213), a State will not be held accountable for interest earned on grant funds, pending their disbursement for grant purposes. A State, as defined in section 102 of the Intergovernmental Cooperation Act, means any one of the several States, the District of Columbia, Puerto Rico, any territory or possession of the United States, or any agency or instrumentality of a State, but does not include the governments of the political subdivisions of the State. All grantees other than a State, as defined in this subsection, must return all interest earned on grant funds to the Federal Government.

(b) *Royalties.* Royalties earned from publications or similar material produced from a grant must first be used to reduce the Federal share of the grant to cover the costs of publishing or producing the materials. Royalties in excess of the costs of publishing or producing the materials shall be distributed as in paragraph (c) of this section.

(c) *Other income.* Other income earned by the grantee shall be disposed of in accordance with one of the alternatives specified in Chapter 1–420 of the Grants Administration Manual as determined by the Secretary in the grant award.

§ 87.34 Final settlement.

There shall be payable to the Federal Government as final settlement with respect to each approved project the total sum of:

(a) Any amount not accounted for pursuant to § 87.31;

(b) Any credits for material on hand as provided in § 87.32;

(c) Any credits for earned interest pursuant to § 87.33(a);

(d) Any other settlements required pursuant to § 87.33 (b) and (c).

Such total sum shall constitute a debt owed by the grantee to the Federal Government and shall be recovered from the grantee or its successors or assignees by set off or other action as provided by law.

SECURITIES AND EXCHANGE COMMISSION

[17 CFR Parts 230, 239, 240, 249]

[Release 34–9555; File 57–436]

NONMEMBER BROKER-DEALERS

Offering of Securities to the Public

The Securities and Exchange Commission has announced a proposal to adopt, pursuant to section 15(b)(10) of the Securities Exchange Act of 1934 (the "Act"), Rules 15b10–8 (17 CFR 240.-15b10–8) and 15b10–9 (17 CFR 240.-15b10–9) thereunder. Section 15(b)(10) of the Act authorizes the Commission to adopt rules for those registered broker-dealers who are not members of a registered national securities association [1] (nonmember broker-dealers) which are designed "• • • to promote just and equitable principles of trade, to promote safeguards against unreasonable profits or unreasonable rates of commissions or other charges, and in general to protect investors and the public interest and to remove impediments to and perfect the mechanism of a free and open market." Proposed Rule 15b10–8 would establish standards for nonmember broker-dealers who propose to make public offerings of their securities while proposed Rule 15b10–9 would set forth specific requirements for the underwriting or participation by such nonmembers in the distribution of their own securities or those of their affiliates.

The Commission for some time has had under consideration the adoption of appropriate regulations to govern: (1) Broker-dealers "going public"; and (2) their underwriting or participation in the distribution of their own or affiliate's securities. Indeed, it had been the concern with respect to the issues of lack of arm's length bargaining and the conflicts of interest in "self-underwritings" which led the NASD and the Commission in its administration of its SECO program in the last few years to generally prohibit distributions by broker-dealers of their own or affiliate's securities. After considerable experience with this policy

[1] The National Association of Securities Dealers, Inc. (NASD) is the only such association registered with the Commission under section 15A of the Act.

V 37-76
APR 19 72
XUM

and in view of the need of many broker-dealers to improve their capital resources, the Commission has concluded that it would be more appropriate to permit such distributions if safeguards are provided to protect the investing public.[3] The NASD has had frequent discussions with the Commission on this matter and has, for similar reasons, adopted basically comparable regulations with respect to such distributions by members of the Association. The details of these proposed regulations for nonmembers of the NASD are set forth below:

SUMMARY OF PROPOSED RULES

1. Under proposed Rule 15b10–8 the following general criteria would apply to all public offerings, whether or not self-underwritten, of securities of nonmember broker-dealers.

A. *Submission of financial statements.* Every nonmember broker-dealer would be required to file and disclose in the prospectus, offering circular, or other comparable document financial statements (i.e., balance sheet, profit and loss statement, or statement of income and expense, a statement of source and application of funds and statement of retained earnings) for the immediately preceding 3 years. In those situations where the nonmember broker-dealer issuer has not been in existence for 3 years the financial statements filed would have to cover the entire period of its existence. The most recent financial statements would also be required to be as of a date not more than 90 days prior to the filing of the registration statement and 6 months prior to the effective date of the offering. Finally, the financial statements for the last calendar or fiscal year, as the case may be, or less if the nonmember broker-dealer has not been in existence for 1 year, would be required to contain an independently audited and certified balance sheet. If there was an updated balance sheet covering a period in excess of 6 months subsequent to the last full calendar or fiscal year, it would also be required to be independently audited and certified.

B. *Sales by insiders.* The rule would provide that (except for the prohibition in Rule 15b10–9 on sales by associated persons and their immediate family), no more than 25 percent of the equity interest of the owners as of the filing of the registration statement could be offered as a part of the issue.[4]

All remaining securities held by the ownership group would be restricted, except in the case of a bona fide gift or transfer by operation of law as to sale or transfer for a period of at least 1 year after the termination of the offering. The rule would also provide that generally any associated person could not offer any of his securities as a part of the offering unless they were owned by him for a period of at least 1 year prior to the filing of the registration statement.[5] Generally, these provisions, as those relating to subsequent public offerings by nonmember broker-dealers (see paragraph C below), are designed to reduce the potential for manipulation and to minimize the possibility for issuance of "cheap stock" to insiders on the eve of a public offering. Exemptions from these requirements could be granted, however, in special circumstances where the purposes of the rule are not applicable (e.g. the sale by an estate or by a person whose financial circumstances taking into consideration all relevant factors require earlier sale).

C. *Subsequent public offering by a nonmember broker-dealer.* After the nonmember broker-dealer has made an initial public offering of its securities, it would be precluded from making another offering to the public of its securities for at least 1 year after the termination of the offering. This provision would not, however, prohibit subsequent offerings within 1 year made solely to employees to effectuate employee stock options, stock purchases, or other similar types of offerings.

D. *Net worth test.* This standard would preclude a nonmember from going to the public to obtain funds to finance its broker-dealer operations in excess of three times the broker-dealer's net worth (exclusive of subordinated borrowings), as reflected in the most recent independently audited and certified balance sheet. In determining the maximum dollar amount of the distribution secondary offerings by selling stockholders would not be included.

E. *Net capital standards.* Under this standard, as of the date the distribution has been completed, the offering terminated, and settlement effected, the nonmember's net capital ratio as computed pursuant to Rule 15c3–1 (17 CFR 240.15c3–1) under the Act could not exceed 10 to 1. Provision has been made in the rule to indicate that a nonmember would comply with this provision if it had obtained a specific exemption from the net capital rule pursuant to Rule 15c3–1 (b) (1) (17 CFR 240.15c3–1(b)(1)) or (3) (17 CFR 240.15c3–1(b)(3)) thereunder.[6] To insure that the 10 to 1 net capital ratio would be met the rule would require that all proceeds of the offering be placed in an escrow account. Additionally, notice of the termination and settlement of the offering along with a computation of its net capital ratio as of the settlement date would have to be immediately provided the Commission. If the required ratio was not achieved within 60 days of the effective date of the offering all monies received from the offering would be withdrawn. These provisions, as well as the net worth standard requiring a significant capital commitment by management in relation to that of the public, are designed to provide additional "suitability" protection to the investing public.

F. *Financial reporting.* Finally, the rule would require that after a nonmember has made a distribution to the public of an issue of its securities, it must send to each of its shareholders: (1) Quarterly, a statement of its operations; and (2) annually, independently audited and certified financial statements.[7] Additionally, the Commission has under consideration amendments to Form X–17A–10 (17 CFR 249.618) under Rule 17a–10 (17 CFR 240.17a–10) of the Act to require that all publicly held nonmember broker-dealers file part III of Form X–17A–10.[8]

2. Under proposed Rule 15b10–9 a nonmember broker or dealer would generally be permitted to underwrite or participate in the distribution of its own securities (subject to meeting the requirements in proposed Rule 15b10–8) or those of an affiliate[9] if it obtained two independent underwriters to certify to the fairness of the offering price. These firms would each have to participate in the preparation of the registration statement and be subject to standards of due diligence in their examination of the offering. Additionally, these firms would carry out the responsibilities of a usual underwriter in evaluating the terms of the offering and would thus serve to protect the investing public at least partially from the lack of arm's length bargaining present in such situations. Accordingly, the rule would provide that these underwriters must undertake to assume the full legal responsibilities and liabilities of an underwriter under the Securities Act of 1933.[10]

The rule provides, however, for exemptions from the two underwriter requirements in special circumstances where compliance with this standard is not feasible. It is contemplated that in all such situations, a suitable alternative plan[11] shall be submitted with the exemption request. Of course, if the nonmember or its associated persons recommended the purchase of such securities to its customers the firm would have to maintain in its records (pursuant to Commission Rule 15b10–6 (17 CFR 240.15b10–6) under the Act) any information it relied upon in determining that such a purchase was not unsuitable in light of the customer's investment needs and objectives.

As an additional safeguard a "seasoning" requirement has been included under which both the nonmember broker-dealer issuer (or affiliated nonmember broker-dealer underwriter) and the independent underwriters and a majority of the directors of their respective boards would have to have been in the investment banking or securities business for at least 5 years, Additionally, at least 3 of those 5 years would have to have resulted in operational profits for the nonmember issuer and independent underwriters.[12]

An exception to these standards has been provided so as to permit a nonmember broker-dealer to underwrite or participate in the distribution of its or an affiliate's securities without the pricing recommendations of two qualified independent underwriters if the offering is for a class of securities for which a "bona fide active independent market" exists. Here there would normally be less need for the independent pricing underwriters since the price at which the issue would be offered to the public would generally be reflective of the current market price for the issuer's securities. In such a situation, however, the nonmember would have to meet the seasoning and profitability requirements.

Another exception would permit a nonmember broker-dealer to participate in a distribution of its or an affiliate's securities which is the subject of a firm commitment underwriting without having to obtain an additional pricing underwriter. Since a firm commitment underwriter commits its own funds, if needed, there is a greater likelihood that the terms of the offering (e.g. the price) will be fair. Such participation could not, however, be in an amount exceeding 10 percent of the total dollar amount of the issue since a greater participation might endanger the independence of the underwriter. In addition, in order for the nonmember broker-dealer to so participate it would have to meet the seasoning and profitability requirements set forth above.[13]

Finally, if pursuant to the rule a nonmember participated in the distribution of its or an affiliated broker-dealer's securities for which there was no bona fide active independent market, the nonmember-issuer's associated persons and their immediate family[14] would not be permitted to sell in the offering any portion of their ownership interest. Exemptions from this provision may be granted but only in exceptional or unusual circumstances.

TEXT OF PROPOSED RULES

The Commission acting pursuant to the provisions of the Securities Exchange Act of 1934, and more particularly sections 15(b)(10) and 23(a) thereof propose to amend Part 240 of Title 17 of the Code of Federal Regulations by adopting §§ 240.15b10–8 and 240.15b10–9 as follows:

§ 240.15b10–8 Standards for public offering of the securities of nonmember broker-dealers.

(a) No nonmember broker or dealer shall make a public offering of an issue of its securities, whether or not exempt from the registration requirements of the Securities Act of 1933, unless the following conditions are met:

(1) *Financial statements.* The nonmember broker or dealer has filed therewith and disclosed in the prospectus, offering circular or other comparable document financial statements for the immediately preceding 3 years. If such nonmember broker or dealer has not been in existence for 3 years, financial statements for the entire period of its existence must be so filed and disclosed. In either situation the most recent financial statements must be as of a date not more than 90 days prior to the filing of the registration statement and not more than 6 months prior to the effective date of the offering. The financial statements for the last calendar or fiscal year, as the case may be, or less if the nonmember has not been in existence for 1 year, must contain an independently certified balance sheet. If there is an updated balance sheet covering a period in excess of 6 months subsequent to the last full calendar or fiscal year, such must also be independently audited and certified.

(2) *Sales by stockholder of the nonmember broker or dealer.* (i) In addition to the restrictions contained in paragraph (b) of § 240.15b10–9 relating to sales by associated persons and their immediate families, in any public offering of the securities of the nonmember broker or dealer where there is no bona fide active independent market for the class of securities being offered, no more than 25 percent of the equity interest of the stockholders thereof as of the date of the filing of the registration statement may be offered as part of the issue. The remaining equity interest held by such persons shall, except in the case of a bona fide gift or transfer by operation of law, be restricted as to sale or transfer for a period of at least 1 year after the termination of the offering.

(ii) In all other public offerings for a class of securities of a nonmember broker or dealer there shall be no limitation on the percentage of stockholders' equity which may be distributed: *Provided, however,* That those securities owned by associated persons of the nonmember broker or dealer, which are not made a part of the public offering and which require a registration statement to be filed and to become effective before being sold to the public shall, except in the case of a bona fide gift or transfer by operation of law, be restricted as to sale or transfer for a period of at least 3 months after the termination of the offering. In the case of a bona fide gift or transfer by operation of law the prohibitions on sale or transfer referred to in subparagraphs (2) (i) and (ii) of this paragraph shall apply to the donee or transferee and shall be measured as of the date of the termination of the offering.

(3) *Holding period required prior to sales by associated persons of the nonmember broker or dealer.* (i) A stockholder who is an associated person of a nonmember broker or dealer, may not offer any of his securities as part of an offering if they have not been owned by him for a period of at least 1 year prior to the filing of the registration statement unless (*a*) they were acquired during the referred to 1-year period as a result of the formation of a successor corporation to a preexisting sole proprietorship or partnership in respect to which he was either the sole proprietor or a partner prior to the previous 1-year period, or (*b*) they were acquired during the referred to 1-year period as a result of a bona fide stock dividend, stock split, recapitalization, merger, or some other like event.

(4) *Exemptions.* The Commission upon written request may, in exceptional and unusual circumstances (such as, but not necessarily limited to, a sale by an estate or by a person whose financial circumstances, taking into consideration all relevant factors, requires such), exempt a broker or dealer unconditionally or on specified terms from the provisions of

[3] The Commission has also had under consideration the promulgation of standards relating to the distribution by broker-dealers of tax-sheltered programs (e.g. oil and gas programs, limited partnership interests in real estate syndications, cattle programs, etc.). However, in view of current studies in this area by the NASD and the Commission's staff and the possibility of future congressional action in certain related areas the Commission has determined to defer proposing regulations on the subject of tax-sheltered offerings at this time.

[4] Where an active independent market existed (as defined in the rule) for the nonmember broker-dealer's securities, there would be no percentage limitation on the stockholders' equity interest which could be distributed. However, in such a situation shares not sold by such stockholders, if requiring a registration statement to be subsequently sold, could not be offered for at least 3 months after the termination of the offering.

[5] For this purpose, there would be no fungibility concept. Thus, if the person owned 2,000 shares, 1,000 of which had been purchased more than a year ago, the 1,000 shares could be sold on a "FIFO" basis.

[6] If the nonmember is exempt from Rule 15c3–1 by reason of subparagraph (b)(2) thereunder, the net capital ratio may be computed in accordance with the exchange's net capital rule to which the nonmember is subject. In such situations, however, the computation must either be made by the exchange or certified by it as being correct.

[7] It should be noted that the Commission has under consideration amendments to its rules under the Exchange Act to require all broker dealers to submit specified financial information to customers. See Securities Exchange Act Release No. 9404 (Dec. 3, 1971) and the FEDERAL REGISTER of Dec. 30, 1971, 36 F.R. 25236.

[8] Rule 17a–10 requires exchange members and broker-dealers to file annual income and expense reports with the Commission or with a registered self-regulatory organization which will transmit the reports to the Commission. Part III of that report is a long form financial statement generally required of New York Stock Exchange members and firms with gross securities income exceeding $1 million.

[9] An affiliate would be defined as a company: (1) Which controls, is controlled by, or is under common control with a nonmember broker-dealer; (2) which directly or indirectly owns, controls or holds with power to vote 10 percent or more of the outstanding voting securities of a nonmember broker-dealer or person associated therewith, directly or indirectly owns, controls or holds with power to vote 10 percent or more of the outstanding securities. The term affiliate would not include, however, an investment company registered pursuant to the provisions of the Investment Company Act of 1940, a real estate investment trust as defined in sec. 856 of the Internal Revenue Code, or a tax-sheltered program.

[10] The NASD has submitted to its membership an amendment to its rules to require that such an undertaking must be given by its members.

[11] Possibilities in this regard might be the use of experienced independent financial consulting firms or other financial experts to certify to the fairness of the offering price and to discharge the other responsibilities of an underwriter. In these situations it would, of course, be expected that the firms would agree to undertake responsibilities and liabilities under sec. 11 of the 1933 Act.

[12] The above seasoning and profitability requirements would not apply, however, to an affiliated non-broker-dealer issuer.

[13] It should be noted that the firm commitment underwriter would also have to meet these requirements.

[14] Immediate family is defined as a parent, mother- or father-in-law, husband or wife, brother or sister, brother- or sister-in-law, children or any relative to whose support such persons contribute directly or indirectly.

V 37-76 APR 19 72 XUM

subparagraphs (2) and (3) of this paragraph.

(5) *Subsequent public offerings by the nonmember broker or dealer.* After an initial offering has been made by a nonmember broker or dealer to the public of an issue of its securities, no other offering to the public can be made by that nonmember of its securities for a period of at least 1 year after the termination of the offering: *Provided, however,* That offerings made solely to employees during that period, such as employee stock option, stock purchase, or other similar type offerings, shall not be prohibited.

(6) *Net worth.* The total dollar amount of an offering by a nonmember broker or dealer of its securities (exclusive of those securities attributable to selling stockholders) shall be no greater than three times the net worth (exclusive of subordinated borrowings) of the nonmember as reflected in the most recent balance sheet as of a date not more than 90 days prior to the filing of the registration statement and 6 months prior to the date of the offering.

(7) *Net capital.* As of the date the distribution has been completed, the offering terminated, and settlement effected, the nonmember broker or dealer shall not have "aggregate indebtedness" in excess of 10 times his "net capital" as those terms are defined in § 240.15c3–1 unless it has obtained a specific exemption pursuant to § 240.15c3–1(b) (1) or (3): *Provided, however,* That if the nonmember is exempt from that section by reason of § 240.15c3–1(b)(2), the ratio of aggregate indebtedness to net capital (net capital ratio) may be computed under the rule of the national securities exchange to which the nonmember is subject. In such circumstances, however, the net capital ratio shall be computed by the national securities exchange or certified by it as being correct. Notice of the termination and settlement of the offering along with a computation of the net capital ratio as of the settlement date shall be immediately provided the Commission. In addition, all proceeds of any offering of a nonmember broker or dealer's securities shall be placed in an escrow account until, and shall not be paid over to or used by the nonmember unless, such 10 to 1 net capital ratio has been met. If these requirements have not been met within 60 days after the date of the offering, all monies received from sales of securities of the offering and held in the escrow account must be returned in full to the purchasers thereof and the offering withdrawn.

(8) *Subsequent disclosures by the nonmember broker or dealer.* After a nonmember has made a distribution to the public of an issue of its securities, it shall send to each of its record security holders: Quarterly, a summary statement of its operations; and, annually, independently audited and certified financial statements.

(b) Definitions: For the purpose of this section:

(1) The term "nonmember broker or dealer" shall mean any broker or dealer registered under section 15 of the Act, who is not a member of a national securities association registered with the Commission under section 15A of the Act.

(2) The term "associated person" shall mean any officer, director, or branch manager of a nonmember broker or dealer (or any person occupying a similar status or performing similar functions), or any person directly or indirectly controlling or controlled by such nonmember broker or dealer, and shall include any employee of such nonmember broker or dealer.

(3) The term "bona fide active independent market" shall mean a market in a class of securities of a company which:

(i) Is registered pursuant to the provisions of section 12(b) or section 12(g) of the Act; unless the company, or an industry of which such company is part, has been specifically exempted from the registration provisions of those sections of the Act;

(ii) Has a minimum trading volume for the immediately preceding 12 months of 100,000 shares;

(iii) Has outstanding 250,000 publicly-held shares of the class of securities being offered; and

(iv) In the case of over-the-counter securities, has had at least three bona fide independent market makers for a period of at least the immediately preceding 30 business days.

(4) The term "bona fide independent market maker" shall mean a market maker which:

(i) The nonmember broker or dealer reasonably believes continually maintains net capital as determined by § 240.15c3–1 of $50,000 or $5,000 for each security in which it makes a market, whichever is less, and stands ready, willing, and able to effect transactions in reasonable amounts, and at his quoted prices, with other brokers and dealers;

(ii) Regularly publishes bona fide competitive bid and offer quotations in a recognized interdealer quotation system;

(iii) Furnishes bona fide competitive bid and offer quotations to other brokers and dealers on request.

(5) The term "financial statements" shall mean a balance sheet, profit and loss statement, or statement of income and expense, a statement of source and application of funds, and a statement of retained earnings.

(6) The term "settlement date" shall mean the date on which the distribution of the net proceeds from an offering is made to the nonmember broker or dealer issuer and/or selling stockholder.

§ 240.15b10–9—Standards for the underwriting of participation by nonmember broker-dealers in the public distribution of their own or affiliate's securities.

(a) No nonmember broker or dealer may underwrite or otherwise participate in a public offering of its own securities or those of an affiliate unless:

(1) The price at which the issue is to be distributed to the public is no higher than that recommended jointly by two qualified independent underwriters who shall each also participate in the preparation of the registration statement and the prospectus, offering circular or other comparable document; shall each exercise the usual standards of due diligence in respect thereto; and shall each otherwise agree to undertake the full legal responsibilities and liabilities of an underwriter under the Securities Act of 1933. The two qualified independent underwriters shall also be represented by a legal counsel independent of the nonmember broker or dealer and/or affiliated issuer who shall review the information contained in the registration statement and the prospectus, offering circular, or other comparable document, and issue an opinion as to whether they conform to all requirements of the Federal securities laws and, in case of an intrastate offering, whether they conform to all of the requirements of the State having jurisdiction: *Provided, however,* That in unusual or special circumstances, where compliance with this subparagraph is not feasible, the Commission may exempt a nonmember broker or dealer, upon an appropriate written request which contains therein an acceptable alternative.

(2) The nonmember broker or dealer (or its predecessor if the nonmember is a newly formed corporation) or nonmember broker or dealer affiliate, as the case may be, has been actively engaged in the investment banking or securities business for at least 5 years immediately preceding the filing of the registration statement; the nonmember in at least 3 of the 5 years immediately preceding the filing of the registration statement has had a profit from its operations; and the majority of the board of directors holding office, or general partners if the nonmember is a partnership, as of the date of the filing of the registration statement and as of the date of the offering have been actively engaged in the investment banking or securities business for the 5-year period immediately preceding the filing of the registration statement. If the nonmember is a sole proprietorship, then the proprietor must have been actively engaged in the investment banking or securities business for the 5-year period immediately preceding the filing of the registration statement.

(3) In the distribution of the securities of an affiliated nonbroker or dealer issuer:

(i) The financial statements of the issuer conform in all respects with the provisions of § 240.15b10–8; and

(ii) The issuer represents that it will after the distribution to the public send to each of its security holders quarterly, a summary statement of its operations; and, annually, financial statements certified by an independent public accountant.

(b) If pursuant to the requirements of paragraphs (a) (1) and (2) of this section, a nonmember broker or dealer distributes its or an affiliated broker or dealer's securities then the nonmember-issuer's associated persons and their immediate families may not sell, as a part of the offering; any part of their ownership interest: *Provided, however,* That an unusual or special circumstances, upon an appropriate written request, the Commission may grant an exemption from this provision.

(c) Exceptions: (1) In cases where the provisions of paragraph (a)(1) of this section have not been complied with, a nonmember broker or dealer who meets the requirements of paragraph (a)(2) of this section, may nevertheless participate as a member of the selling group in the distribution of an issue of its own securities or an issue of an affiliate-issuer's securities if the distribution is the subject of a firm commitment underwriting, managed by an underwriter who is a qualified independent underwriter and such participation does not exceed 10 percent of the total dollar amount of the offering.

(2) In cases where the provisions of paragraph (a)(1) of this section have not been complied with, a nonmember broker or dealer who meets the requirements of paragraph (a)(2) of this section may nevertheless underwrite or participate in the distribution of an issue of its own securities or an issue of an affiliate-issuer's securities if the offering is for a class of securities for which a bona fide active independent market exists as of the date of the filing of the registration statement for the current offering and as of the effective date thereof.

(d) Definitions: For the purposes of this section:

(1) The term "nonmember broker or dealer" shall mean any broker or dealer registered under section 15 of the Act, who is not a member of a national securities association registered with the Commission under section 15A of the Act.

(2) The term "associated person" shall have the same meaning as in § 240.15b10–8.

(3) The term "affiliate" shall mean a company:

(i) Which controls, is controlled by, or is under common control with a nonmember;

(ii) Which directly or indirectly owns, controls, or holds with power to vote 10 percent or more of the outstanding voting securities of a nonmember; or

(iii) In which a nonmember, or a person associated with a nonmember directly or indirectly owns, controls, or holds with power to vote 10 percent or more of the outstanding securities: *Provided, however,* That the term "affiliate" shall not be deemed to include an investment company registered under the Investment Company Act of 1940, a real estate investment trust as defined in section 856 of the Internal Revenue Code or a tax sheltered program.

(4) The term "bona fide active independent market" shall have the same meaning as in § 240.15b10–8.

(5) The term "bona fide independent market maker" shall have the same meaning as in § 240.15b10–8.

(6) The term "financial statements" shall have the same meaning as in § 240.15b10–8.

(7) The term "qualified independent underwriter" shall mean a broker or dealer which:

(i) Has been actively engaged in the investment banking or securities business for at least 5 years immediately preceding the filing of the registration statement;

(ii) In at least 3 of the 5 years immediately preceding the filing of the registration statement has had a profit from its operations;

(iii) As of the date of the filing of the registration statement and as of the date of the offering:

(*a*) If a corporation has a majority on its board of directors of persons who have been actively engaged in the investment banking or securities business for the 5-year period immediately preceding the filing of the registration statement;

(*b*) If a partnership, the majority of its general partners has been actively engaged in the investment banking or securities business for the 5-year period immediately preceding the filing of the registration statement;

(*c*) If a sole proprietorship, the proprietor has been actively engaged in the investment banking or securities business for the 5-year period immediately preceding the filing of the registration statement.

(iv) Has actively engaged in the underwriting of public offerings of securities for at least the 5-year period immediately preceding the filing of the registration statement; and

(v) Is not an affiliate of the nonmember broker or dealer and/or affiliated issuer.

(8) The term "tax-sheltered program" shall mean a program in which flow-through tax benefits are a material factor regardless of the structure of the legal entity or vehicle for distribution including, but not limited to, oil and as programs, real estate syndications (except real estate investment trusts), citrus grove developments, cattle programs and all other programs of a similar nature, regardless of the industry represented by the program, or any combination thereof.

(9) The term "registration statement" shall mean a statement provided for in section 6 of the Securities Act of 1933 and includes any amendment thereto and any report, document, or memorandum filed as a part of such statement or incorporated therein by reference: *Provided, however,* That such term shall also include a notification on Form 1–A (§ 239.90 of this chapter) filed with the Commission pursuant to the provisions of § 230.255 of this chapter under the Securities Act of 1933 and, in the case of intrastate offering, any document, by whatever name known, initiating the registration or similar process for an issue of securities which is required to be filed by the laws or regulations of the State where the offering is to be made.

(10) The term "immediate family" shall mean parents, mother-in-law, father-in-law, husband or wife, brother or sister, brother-in-law or sister-in-law, children, or any relative to whose support such persons contribute directly or indirectly.

All interested persons are invited to submit their views and comments on the proposed rules. Written statements of views and comments should be submitted to the Securities and Exchange Commission, Washington, D.C. 20549, on or before June 5, 1972. All communications with respect to the proposed rules should refer to File No. S7–436 and all such communications will be available for public inspection.

(Sec. 15(b)(10), 48 Stat. 895, as amended 78 Stat. 565; sec. 8, 15 U.S.C. 78o.; sec. 23(a), 48 Stat. 901, as amended 49 Stat. 1379; sec. 8, 15 U.S.C. 78w)

By the Commission.

[Release IA–816]

"INVESTMENT PERFORMANCE" OF AN INVESTMENT COMPANY AND "INVESTMENT RECORD" OF AN APPROPRIATE INDEX OF SECURITIES PRICES

Proposed Definitions

Notice is hereby given that the Securities and Exchange Commission has under consideration the adoption of a rule under the Investment Advisers Act of 1940 (the "Act") (15 U.S.C. 80b–1 et seq.), as amended by the Investment Company Amendments Act of 1970 (the "1970 Act") (Public Law 91–547, 84 Stat. 1413). The proposed rule is designed to make clear that amended section 205 of the Act (15 U.S.C. 80b–5, 84 Stat. 1432, 1433), which became effective on December 14, 1971, requires that (a) realized capital gains distributions and dividends from investment income paid by investment companies, and (b) all cash distributions paid on the stocks of the companies which comprise the index of securities prices chosen to measure the relative performance of the investment company, shall be treated as reinvested in computing "investment performance" of the investment company and the "investment record" of the index. The rule would be adopted pursuant to the authority granted to the Commission under sections 205 and 211 of the Act (15 U.S.C. 80b–5, 80b–11).

Prior to the amendment of section 205 many investment company performance fee arrangements were unfair to investment companies. Many such fees did not decrease for poor performance; or, if they did, decreases were disproportionate to increases. The amendments to section 205 were designed to align, as nearly as possible, the interests of the adviser and the investment company by correcting imbalances in incentive fees arrangements. Thus, under the section, as amended, all performance fees are prohibited unless compensation under them increases and decreases proportionately with investment performance of the company over a specified period in relation to the investment record of an appropriate index of securities prices or such other measure of investment performance as the Commission by rule, regulation or order may specify. The point from

V 37-76 APR 19 72 XUM

which increases and decreases in compensation are measured must be the fee which is paid or earned when the investment performance of the company is equivalent to that of the index.

Section 211 of the Act gives the Commission authority to issue such rules and regulations as are necessary or appropriate to the exercise of the functions and powers conferred upon it under the Act.

For investment company "investment performance" to be comparable to the "investment record" of an index within the meaning of section 205 all increments, both in the performance of the investment company and of the index, must be taken into account. A survey of existing investment company performance fee arrangements indicates that while substantially all investment companies treat realized capital gains distributions as reinvested in computing their performance, most do not accord similar treatment to dividends paid out of their investment income and to cash dividends and distributions of the companies which comprise the index of securities prices. On the average, the dividends paid by the companies whose stocks comprise an index have exceeded the dividends from investment income paid by investment companies with incentive fee arrangements. This practice of not including dividends and distributions in measuring performance has resulted in an advantage to investment advisers and is unfair to investment companies and their stockholders.

The attached rule proposal makes clear that the "investment record" of the index differs from the index price. The rule would require that in computing the "investment performance" of the investment company and the "investment record" of the index, dividends paid by the investment company out of its investment income and all cash distributions of the companies whose stocks comprise the index shall be treated as reinvested. In computing the "investment-performance" of investment companies realized capital gains shall also be treated as reinvested.

Ideally, cash dividends and any other cash distributions on the securities of the companies which comprise the index should be treated as reinvested on their ex-dividend dates or record dates. Information with which to calculate such reinvestments in this manner may not be readily available for the companies which comprise the index. To assure that such dividends and distributions are accorded appropriate weight, the rule requires that the value, computed consistently with the index, of cash distributions made by companies whose securities comprise the index, shall be included in the "investment record" of the index and shall be treated as reinvested in the index at least as frequently as the end of each quarter following the payment of the dividend.[1] Investment company capital gains distributions and dividends may be treated as reinvested at the net asset value at the close of business on the record date for the payment of such distributions or dividends.

The text of the proposed rule is as follows:

Commission action: The Commission proposes to amend Part 275 of Chapter II of Title 17 of the Code of Federal Regulations by adding a new § 275.205–1 reading as follows:

§ 275.205–1 Definition of "investment performance" of an investment company and "investment record" of an appropriate index of securities prices.

(a) "Investment performance" of an investment company for any period shall mean the sum of:

(1) The change in its net asset value per share during such period; and

(2) The value of its cash distributions per share accumulated to the end of such period;

expressed as a percentage of its net asset value per share at the beginning of such period. For this purpose, distributions by an investment company of realized capital gains and of dividends paid from investment income shall be treated as reinvested at the net asset value per share in effect at the close of business on the record date for the payment of such distributions or dividends.

(b) "Investment record" of an appropriate index of securities prices for any period shall mean the sum of:

(1) The change in the level of the index during such period; and

(2) The value, computed consistently with the index, of cash distributions made by companies whose securities comprise the index accumulated to the end of such period;

expressed as a percentage of the index level at the beginning of such period. For this purpose cash distributions on the securities which comprise the index shall be treated as reinvested in the index at least as frequently as the end of each calendar quarter following the payment of the dividend.

[1] For example, the latest quarterly dividends of the companies whose stocks comprise the Standard & Poor's 500 Stock Composite Index, are published monthly under "Dividends per share, 12 months moving total adjusted to index" in Standard & Poor's Trade and Securities Statistics: Current Statistics. An illustration of the manner in which this index may be adjusted for 1971 by the use of this data is set forth as an exhibit to this release.

EXHIBIT I

METHOD OF COMPUTING THE INVESTMENT RECORD OF THE STANDARD & POOR'S 500 STOCK COMPOSITE INDEX FOR CALENDAR 1971

Quarter ending—	Index value [1]	Quarterly dividend yield-composite index	
		Annual percent [2]	Quarterly percent [2] (¼ of annual)
Dec. 1970	92.15		
Mar. 1971	100.31	3.10	0.78
June 1971	99.70	3.11	.78
Sept. 1971	98.34	3.14	.79
Dec. 1971	102.09	3.01	.75

Change in index value for 1971: 102.09−92.15=9.94

Accumulated value of dividends for 1971:

Quarter ending: March June Sept. Dec.

Percent yield=1.0078×1.0078×1.0079×1.0075−1.00 =.0314

[1] Source: Standard & Poor's Trade and Securities Statistics, January 1972, p. 33.

[2] *Id.* See Standard & Poor's Trade and Securities Statistics Security and Price Index Record—1970 Edition, p. 133, for explanation of quarterly dividend yield.

[2] Quarterly percentages have been rounded to two decimal places.

Aggregate value of dividends paid, assuming quarterly reinvestment and computed consistently with the index:

(Percent yield as computed above) × (ending index value) = Aggregate value dividends paid

For 1971:

$.0314 \times 102.09 = 3.21$

Investment record of Standard & Poor's 500 stock composite index assuming quarterly reinvestment dividends:

$$\text{Investment record} = \frac{9.94 + 3.21}{92.15} = 14.27 \text{ percent}$$

The same method can be extended to cases where an investment company's fiscal quarters do not coincide with the fiscal quarters of the S & P dividend record or to instances where a "rolling period" is used for performance comparisons as indicated by the following example of the calculation of the investment record of the Standard & Poor's 500 Stock Composite Index for the 12 months ended November 1971:

Index value Nov. 30, 1971	93.99
Index value Nov. 30, 1970	87.20
Change in index value	6.79

Quarter ending—	Dividend yield		Rate for each month of quarter (⅓ of annual)
	Annual rate	¼ of annual	
Dec. 1970	3.41	0.85	0.28
March 1971	3.10	.78	.26
June 1971	3.11	.78	.26
Sept. 1971	3.14	.79	.26
Dec. 1971	3.01	.75	.25

Accumulated value of dividends reinvested:

December	=1.0026
January–March	=1.0078
April–June	=1.0078
July–September	=1.0079
October–November	=1.0053 [4]

[4] The rate for October and November would be two-thirds of the yield for the quarter ended Sept. 30 (i.e. .667×.79=5269) since the yield for the quarter ended Dec. 31 would not be available as of Nov. 30.

Dividend yield:

$1.0028 \times 1.0078 \times 1.0078 \times 1.0079 \times 1.0053 - 1.00 = .0320$

Aggregate value of dividends paid computed consistently with the index:

$.0320 \times 93.99 = 3.01$

Investment record of the Standard & Poor's 500 Stock Composite Index for the 12 months ended November 30, 1971:

$$\frac{6.79 + 3.01}{87.20} = 11.24 \text{ percent}$$

(Secs. 205, 211, 54 Stat. 852, 74 Stat. 887, 15 U.S.C 80b–205, 80b–211; Sec. 25, 84 Stat. 1432, 1433, Public Law 91–547)

All interested persons are invited to submit their written views and comments on the proposed rule to Ronald F. Hunt, Secretary, Securities and Exchange Commission, Washington, D.C. 20549, on or before May 15, 1972. All communications to the Secretary in this regard should refer to File No. S7–437, and will be available for public inspection.

By the Commission.

[SEAL] RONALD F. HUNT, *Secretary.*

PAY BOARD

[6 CFR Part 201]

TREATMENT OF CERTAIN PRODUCTIVITY INCENTIVE PROGRAMS

Notice of Proposed Rule Making

Notice is hereby given that the regulations set forth below are proposed to be prescribed by the Chairman of the Pay Board. Since the rules set forth in Part 201 are essential to the expeditious implementation of the Economic Stabilization Act of 1970, as amended, the Board finds that the time for the submission of comments or suggestions by interested persons in accordance with usual rule making procedures is impracticable and that good cause exists for promulgating them in less than 30 days. Prior to the final adoption of such regulations, consideration will be given to any comments or suggestions pertaining thereto which are submitted in writing, preferably in quintuplicate to the Chairman of the Pay Board, Attention: Office of General Counsel, 2000 M Street NW., Washington, DC 20508, by April 29, 1972. Any written comments or suggestions not specifically designated as confidential may be inspected by any person upon written request.

The proposed regulations are to be issued pursuant to the authority vested in the Pay Board by the Economic Stabilization Act of 1970, as amended (Public Law 91–379, 84 Stat. 799; Public Law 91–558, 84 Stat. 1468; Public Law 92–8; 85 Stat. 13; Public Law 92–15, 85 Stat. 38; Public Law 92–210, 85 Stat. 743), Executive Order No. 11640 (37 F.R. 1213, January 27, 1972) as amended; and Cost of Living Council Order No. 3 (36 F.R. 20202, October 16, 1971) and No. 6 (37 F.R. 2727, February 4, 1972).

GEORGE H. BOLDT,
Chairman of the Pay Board.

In order to conform the regulations relating to the Stabilization of Wages and Salaries (6 CFR Part 201) to the Pay Board Policy decision of February 23, 1972, announced in News Release PB–50, such regulations are amended as follows:

PARAGRAPH 1. Section 201.57 is amended by adding a new paragraph (j) to read as follows:

§ 201.57 Exclusions from adjustment computations.

* * * * *

(j) *Certain productivity incentive programs.* Increases attributable to the operation of certain productivity incentive programs described in § 201.59.

* * * * *

PAR. 2. A new § 201.59 is added immediately after § 201.58 to read as follows:

§ 201.59 Productivity incentive programs.

(a) *Existing productivity incentive programs.* A productivity incentive program (as defined in paragraph (d) of this section) in existence, or prepared for installation and communicated to employees, prior to November 14, 1971, will be allowed to operate according to its terms. Thus, any increases attributable to the operation of such a program may be excluded from adjustment computations pursuant to § 201.57(j). This paragraph shall apply to productivity incentive programs on either a plant-wide or less than plant-wide basis. In the case of a substantial revision of such a program, the provisions of paragraph (b) or (c) of this section (whichever is applicable), shall apply.

(b) *New or revised productivity incentive programs on a plant-wide basis.* Increases attributable to the operation of a new or substantially revised existing plant-wide productivity incentive program (as defined in paragraph (d) of this section) may be excluded from adjustment computations pursuant to § 201.57 (j) if—

(1) Within 30 days of the installation of such a program, or revision thereof, the employer has filed with the Pay Board (or its delegate) a certification of such installation or revision which shall include a full description of the program and (if applicable) its revision, and

(2) Increases under such program, or revisions thereof, actually reflect and are directly related to increaes in productivity.

(c) *New or revised productivity incentive programs on less than a plant-wide basis.* If, on less than a plant-wide basis, the installation of a new productivity incentive program (as defined in paragraph (d) of this section) or the installation of changes to an existing productivity incentive program which would substantially revise the terms of such program, would cause the annual aggregate wage and salary increase of an appropriate employee unit to exceed the maximum permissible annual aggregate, increases attributable to the operation of such program may be excluded from adjustment computations pursuant to § 201.57(j); provided that increases under such program, or revisions thereof, actually reflect and are directly related to increases in productivity. Prior to the installation of such a program or the implementation of revisions thereto, the employer shall provide the Pay Board with a description of such program and shall certify to the Board that the program, or revisions thereto, will substantially meet criteria appropriate for such plans or practices. Among the factors which may be considered are that the plan or practice—

(1) Provides employees the expectation of a level of earnings above base rates which will vary in relationship to changes in productivity, but which will not result in increased unit labor costs for the employer;

(2) Is designed to provide earnings opportunities sufficient to motivate the participants;

(3) Contains standards of performance and provisions for revising such standards to reflect changes in equipment, methods, quality requirements and other factors related to the basis for standards development;

(4) Contains guarantees of wages and earnings for such contingencies as downtime for reasons beyond the control of participants and for nonstandard work; and

(5) Defines the employees included and their relationship to increased productivity.

(d) *Productivity incentive program defined.* For the purposes of this part, the term "productivity incentive program" means a plan or practice which establishes a formal system whereby, in accordance with predetermined formulas, wage and salary payments to an employee or a group of employees increase as the measured productivity of such employee or group increases; provided, that where a single plan or practice is plant-wide and includes all or substantially all of the employees in a plant or firm, payments may be based on the measured increase in productivity for such plant or firm as a whole.

(e) *Discontinuance.* If a productivity incentive program is discontinued and such action results in an increase in wages and salaries to the employees affected, the employer shall certify to the Pay Board within 30 days of discontinuance that such action was taken in good faith and not for the purpose of circumventing the intent of the economic stabilization program.

(f) *Variable compensation.* Notwithstanding any other provision of this section, any plan or practice providing for the payment or award of "incentive compensation" as defined in § 201.72(e) of this part shall be governed by subpart D of this part. Plans or practices described in § 201.77 which do not meet the defini-

V 37-76
APR 19 72
XUM

tion of productivity incentive programs (as defined in paragraph (d) of this section) are governed by subpart D of this part.

PAR. 3. Section 201.77(b) of this part is amended to read as follows and a new paragraph (c) is added:

§ 201.77 Sales, commission, and production incentive plans or practices.

* * * * *

(b) *Changes in method of calculating earnings.* Except as provided in §§ 201.57 (j) and 201.59 (with respect to certain productivity incentive programs), if any change in the method of calculating the earnings of any employee in a plan or practice unit under a plan or practice described in paragraph (a) of this section results in an increase in the aggregate amount of compensation of such plan or practice unit, the amount of such increase shall be deemed to be an increase in wages and salaries for the wage year earned with respect to the covered plan or practice unit. Such increase shall be apportioned to the appropriate employee units of the employees participating in the plan or practice unit. The amount of such increase which shall be apportioned to each such appropriate employee unit shall be determined as follows: The number of employees in an appropriate employee unit who are participating in such a plan or practice unit multiplied by a fraction, the numerator of which is the amount of the increase and the denominator of which is the number of employees in the plan or practice unit.

(c) *New productivity incentive plan or practice.* Notwithstanding the provisions of this section and the provisions of §§ 201.78 and 201.79, any plan or practice described in § 201.59 shall be governed by the provisions of that section and shall be subject to the certification requirements set forth therein.

§ 201.80 [Deleted]

PAR. 4. Section 201.80 is deleted.

HAND PALLET TRUCKS FROM FRANCE

Withholding of Appraisement Notice

Information was received on March 22, 1971, that hand pallet trucks from France were being sold at less than fair value within the meaning of the Antidumping Act, 1921, as amended (19 U.S.C. 160 et seq.) (referred to in this notice as "the Act"). This information was the subject of an "Antidumping Proceeding Notice," which was published in the FEDERAL REGISTER of May 11, 1971, on page 8700. The "Antidumping Proceeding Notice" indicated that there was evidence on record concerning injury to or likelihood of injury to or prevention of establishment of an industry in the United States.

Pursuant to section 201(b) of the Act (19 U.S.C. 160(b)) notice is hereby given that there are reasonable grounds to believe or suspect that the purchase price (section 203 of the Act; 19 U.S.C. 162) of hand pallet trucks from France is less, or likely to be less, than the foreign market value (section 205 of the Act; 19 U.S.C. 164).

Customs officers are being directed to withhold appraisement of hand pallet trucks from France in accordance with § 153.48, Customs Regulations (19 CFR 153.48).

In accordance with §§ 153.32(b) and 153.37, Customs Regulations (19 CFR 153.32(b), 153.37), interested parties may present written views or arguments, or request in writing that the Secretary of the Treasury afford an opportunity to present oral views.

Any request that the Secretary of the Treasury afford an opportunity to present oral views should be addressed to the Commissioner of Customs, 2100 K Street NW., Washington, DC 20226, in time to be received by his office not later than 7 days from the date of publication of this notice in the FEDERAL REGISTER.

Any written views or arguments should likewise be addressed to the Commissioner of Customs in time to be received by his office not later than 14 days from the date of publication of this notice in the FEDERAL REGISTER.

This notice, which is published pursuant to § 153.34(a), Customs Regulations, shall become effective upon publication in the FEDERAL REGISTER (4-19-72). It shall cease to be effective at the expiration of 3 months from the date of this publication, unless previously revoked.

[SEAL] LEONARD LEHMAN,
Acting Commissioner of Customs.

Approved: April 13, 1972.

EUGENE T. ROSSIDES,
Assistant Secretary of the Treasury.

[FR Doc.72-5905 Filed 4-18-72;8:48 am]

HAT BODIES OF FUR, NOT ON THE SKIN, FROM CZECHOSLAVAKIA

Withholding of Appraisement Notice

Information was received on June 24, 1970, that hat bodies of fur, not on the skin, from Czechoslovakia were being sold at less than fair value within the meaning of the Antidumping Act, 1921, as amended (19 U.S.C. 160 et seq.) referred to in this notice as "the Act"). This information was the subject of an "Antidumping Proceeding Notice" which was published in the FEDERAL REGISTER of August 6, 1971, on page 14483. The "Antidumping Proceeding Notice" indicated that there was evidence on record concerning injury to or likelihood of injury to or prevention of establishment of an industry in the United States.

Pursuant to section 201(b) of the Act (19 U.S.C. 160(b)), notice is hereby given that there are reasonable grounds to believe or suspect that the purchase price (sec. 203 of the Act; 19 U.S.C. 162) of hat bodies of fur, not on the skin, from Czechoslovakia is less, or is likely to be less, than the constructed value (sec. 206 of the Act; 19 U.S.C. 165).

Statement of reasons. The information currently before the Bureau tends to indicate that the probable basis of comparison for fair value purposes will be between purchase price and constructed value.

Purchase price will probably be based the ex-factory packed price.

Since the merchandise under consideration was produced in a controlled economy country, constructed value will probably be based on the home market price at which such or similar merchandise is sold by a noncontrolled economy country. The country chosen for this purpose will probably be Italy.

The home market price in Italy will probably be based on the f.o.b., delivered, packed price to wholesalers in the Italian market. Deductions will probably be made for discounts and inland freight. Adjustments will probably be made for differences in the merchandise compared and for commissions.

Using the above criteria, there are reasonable grounds to believe or suspect that purchase price will be lower than the constructed value.

Customs officers are being directed to withhold appraisement of hat bodies of fur, not on the skin, from Czechoslovakia in accordance with § 153.48, Customs Regulations (19 CFR 153.48).

In accordance with §§ 153.32(b) and 153.37, Customs Regulations (19 CFR 153.32(b), 153.37), interested parties may present written views or arguments, or request in writing that the Secretary of the Treasury afford an opportunity to present oral views.

Any requests that the Secretary of the Treasury afford an opportunity to present oral views should be addressed to the Commissioner of Customs, 2100 K Street NW., Washington, DC 20226, in time to be received by his office not later than 10 calendar days from the date of publication of this notice in the FEDERAL REGISTER.

Any written views or arguments should likewise be addressed to the Commissioner of Customs in time to be received by his office not later than 30 days from the date of publication of this notice in the FEDERAL REGISTER.

This notice, which is published pursuant to § 153.34(b), Customs Regulations, shall become effective upon publication in the FEDERAL REGISTER (4-19-72). It shall cease to be effective at the expiration of 6 months from the date of this publication, unless previously revoked.

[SEAL] G. R. DICKERSON,
Acting Commissioner of Customs.

Approved: April 13, 1972.

EUGENE T. ROSSIDES,
Assistant Secretary of the Treasury.

SULPHUR FROM CANADA

Amendment of Antidumping Proceeding Notice

An "Antidumping Proceeding Notice" was published in the FEDERAL REGISTER of February 24, 1972 (37 F.R. 3922, F.R. Doc. 72-2844), indicating a possibility that sulphur, including elemental sulphur and nonelemental sulphur, from Canada, is being, or is likely to be, sold at less than fair value within the meaning of the Antidumping Act, 1921, as amended (19 U.S.C. 160 et seq.).

The purpose of this amendment is to restrict the application of that notice to elemental sulphur from Canada.

Accordingly, the "Antidumping Proceeding Notice" referred to above is amended by inserting the word "ELEMENTAL" before the word "SULPHUR"

V 37-76 APR 19 72 XUM

in the caption and by substituting the words "elemental sulphur" for the words "sulphur, including elemental sulphur and nonelemental sulphur," in the first paragraph.

[SEAL] EDWIN F. RAINS,
Acting Commissioner of Customs.

Approved: April 13, 1972.

EUGENE T. ROSSIDES,
Assistant Secretary of the Treasury.

WELDED-WIRE MESH FROM BELGIUM

Withholding of Appraisement Notice

Information was received on November 23, 1970, that welded-wire mesh for concrete reinforcement from Belgium was being sold at less than fair value within the meaning of the Antidumping Act, 1921, as amended (19 U.S.C. 160 et seq.) (referred to in this notice as "the Act"). This information was the subject of an "Antidumping Proceeding Notice," which was published in the FEDERAL REGISTER of March 3, 1971, on page 4073. The "Antidumping Proceeding Notice" indicated that there was evidence on record concerning injury to or likelihood of injury to or prevention of establishment of an industry in the United States.

Pursuant to section 201(b) of the Act (19 U.S.C. 160(b)) notice is hereby given that there are reasonable grounds to believe or suspect that the purchase price (section 203 of the Act; 19 U.S.C. 162) of welded-wire mesh for concrete reinforcement from Belgium is less, or likely to be less, than the foreign market value (section 205 of the Act; 19 U.S.C. 164).

Customs officers are being directed to withhold appraisement of welded-wire mesh for concrete reinforcement from Belgium in accordance with § 153.48, Customs Regulations (19 U.S.C. 153.48).

In accordance with §§ 153.32(b) and 153.37, Customs Regulations (19 CFR 153.32(b), 153.37), interested parties may present written views or arguments, or request in writing that the Secretary of the Treasury afford an opportunity to present oral views.

Any requests that the Secretary of the Treasury afford an opportunity to present oral views should be addressed to the Commissioner of Customs, 2100 K Street NW., Washington, DC 20226, in time to be received by his office not later than 7 days from the date of publication of this notice in the FEDERAL REGISTER.

Any written views of arguments should likewise be addressed to the Commissioner of Customs in time to be received by his office not later than 14 days from the date of publication of this notice in the FEDERAL REGISTER.

This notice, which is published pursuant to § 153.34(a), Customs Regulations, shall become effective upon publication in the FEDERAL REGISTER (4-19-72). It shall cease to be effective at the expiration of 3 months from the date of this publication, unless previously revoked.

Internal Revenue Service

[Price Commission Ruling 1972-128]

PRINCIPAL PLACE AT ABODE OF A NONTRANSIT OCCUPANT

Price Commission Ruling

Facts. A lessor of Florida beach cottages proposes to increase the monthly rent for several of the cottages. The monthly rent for all of the cottages for the past several years has been $300 per month during the winter and $175 per month during the summer. Part 301 of the Economic Stabilization Regulations sets forth rules for determining the base rent of "residences or other real property" and provides for certain allowable adjustments to that base rent. Economic Stabilization Regulations, 6 CFR 301.2, 36 F.R. 25386 (December 30, 1971), defines a residence as a, "unit of housing normally occupied as a dwelling place," and states, "Whether property is used as a residence depends upon all the facts and circumstances in each case. For example, a seasonal or vacation dwelling * * * is included in the term residence if it is the principal place of abode of nontransient occupants."

Issue. Whether the lessor's cottages are seasonal or vacation dwellings. If so, whether any of those cottages is a "residence" thereby making the lessor subject to the rent regulations?

Ruling. All of the lessor's cottages are seasonal or vacation dwellings. Depending upon the facts, some cottages may be "residences" for purpose of the regulations.

A dwelling is a seasonal or vacation dwelling if, under all the facts and circumstances it is rented primarily for vacation purposes or its pattern of rental use or the rent charged is closely related to the seasons of the year. However, any particular cottage of the lessor is a "residence" for the purposes of the rent regulations only if it is the, "principal place of abode of nontransient occupants." Whether a cottage is the principal place of abode of nontransient occupants is determined on the basis of the following principles.

A person's place of abode which is his address of legal residency is always a "residence" for the purposes of § 301.2 of the regulations. With respect to that place of abode, whatever type of dwelling it might be, a person is a resident and not merely an occupant. Therefore, if any of the lessor's cottages are being rented by persons who make that place of abode the address of their legal residency, the lessor is subject to the rent regulations in Part 301.

With respect to all other places of abode which are not the address of legal residency of the person and which are seasonal or vacation dwellings, houseboats, hotel or motel-type housing units or mobile homes, a person is considered a nontransient occupant if his use of the housing unit is more than temporary. Price Commission Ruling 1972-43, 37 F.R. 3062 (February 11, 1972). Use is considered more than temporary if the tenant rents a housing unit by the month. Price Commission Ruling 1972-57, 37 F.R. 3453 (February 16, 1972).

Likewise, if the term of the rental agreement is for a time period of less than 1 month but a continuous right to possession by the lessee exceeds 1 month under a series of new agreements or renewals, then the use of the housing unit is also considered more than temporary. Such a housing unit is a residence. A hiatus in the right to possession made with the intent to change the status of a housing unit from what would be a residence into a temporary lodging is not considered to interrupt an otherwise continuous right of possession.

If a person has a right of possession of more than one place of abode, other than his address of legal residency, for more than a month at the same time, he is a nontransient occupant of all such housing units. However, only that housing unit in this group which is his "principal" place of abode is considered a residence for the purposes of the rent regulations. The housing unit which is the lessee's principal place of abode is that housing unit which he or his family physically occupy for the most days during the common period of possession.

Those housing units used for temporary occupancy, which do not fall under the rent regulations may be subject to the price regulations in part 300 of this chapter.

This ruling has been approved by the General Counsel of the Price Commission.

[Price Commission Ruling 1972-129]

STATUS OF HEALTH MAINTENANCE ORGANIZATIONS

Price Commission Ruling

Facts. A new Health Maintenance Organization consists of an organizational and management unit, a medical unit, and has contractual relations with a hospital to provide inpatient hospital care. It desires to adjust the rates in the contract with the hospital based on allowable costs under Economic Stabilization Regulations, 6 CFR 300.18, 36 F.R. 25384 (December 30, 1971), for institutional providers rather than under § 300.19 for noninstitutional providers of health services.

Issue. Are Health Maintenance Organizations classified as institutional or noninstitutional providers?

Ruling. The Price Commission has defined a Health Maintenance Organization as follows: "Health Maintenance Organization means a private or public organization: (a) Which provides either directly or indirectly through arrangements with others, reasonably comprehensive health services to individuals enrolled in such organizations on a per capita prepayment basis; and (b) in which the providers of health care share in the financial risk of the health plan." Whether or not the Health Maintenance Organization actually owns the hospital, it still is responsible for the care of its members and is required to lead its members through the medical care processes whether outpatient or inpatient. The same risk requirements apply to a Health Maintenance Organization whether it does nor does not own an inpatient hospital facility. Institutional providers of health services include hospitals and any other organizations which operate 24-hour inpatient health care facilities. Economic Stabilization Regulations, Appendix I, 6 CFR Part 300, 36 F.R. 25384 (December 30, 1971). Health Maintenance Organizations, for the purposes of the Commission's health services regulations, shall be considered institutional providers and subject to the provisions of § 300.18 of the regulations.

This ruling has been approved by the General Counsel of the Price Commission.

Dated: April 13, 1972.

[Price Commission Ruling 1972-130]

CONNECTION TO SEWER SYSTEM AS A CAPITAL IMPROVEMENT

Price Commission Ruling

Facts. Lessor L owned five residences on land recently annexed by City A. Subsequent to August 15, 1971, the city required the lessor to connect the residences to the local sanitation district's sewer system and to cease using septic tanks. To make the required connection L made the following expenditures:

Connection fees (paid the sanitation district)	$1,625.00
Excavation	1,204.37
New interior piping	2,226.32
Total	5,155.69

L wishes to increase rents as a result of these expenditures. The previous monthly rent was $135.

Issue 1. Whether any of these expenditures constitute costs of a capital improvement because the improvement made is subject to an allowance for depreciation under the Internal Revenue Code of 1954?

Issue 2. If so, how much may the monthly rent for these residences be increased under Economic Stabilization Regulations, 6 CFR 301.103, 36 F.R. 25386 (December 30, 1971)?

Ruling. All of the expenditures constitute the costs of a capital improvement and can be used to increase the monthly rent of the residences by $18 under § 301.103 of the regulations.

Issue 1. The improvement clearly meets the first three tests of the definition of a capital improvement in Economic Stabilization Regulations, 6 CFR 301.2, 36 F.R. 25386 (December 30, 1971). The use of that improvement will continue beyond a 12-month period after its completion. The improvement does benefit the residences. The benefit did commence, i.e. the improvement first became operational, after August 15, 1971. See Price Commission Ruling 1972-58, 37 F.R. 3454 (February 16, 1972).

A deduction for depreciation is allowed under the Internal Revenue Code of 1954 (The Code) for property held for the production of income. Section 167(a) of the Code. Because the allowance is for "exhaustion, wear, tear," and "obsolescence," the depreciable property must not have an indefinite useful life. The basis on which depreciation is allowed is the adjusted basis for determining the gain or loss from the sale of the property. Section 167(g) of the Code. This basis is the cost of the property, section 1012 of the Code, plus adjustments for expenditures, "property chargeable to capital account." Section 1016(a) of the Code. Expenditures "property chargeable to capital account," include the costs of improvements and betterments to the property; but no adjustment, i.e. increase in the basis, may be made for items allowable as a deduction in computing net or taxable income for the taxable year. Section 1.1016-2 of the regulations under the Code.

Capital expenditures are "properly chargeable to capital account." They may not be dedutced in computing net or taxable income for the taxable year. Section 263(a) of the Code. Capital expenditures include amounts paid out for new buildings or for any permanent improvements or betterments, the amounts being paid or incurred to add to the value, or substantially prolong the useful life of the property or to adapt that property to a new or different use. Section 1.263(b) of the regulations under the Code.

Costs incurred to provide sewer service to unimproved lots held for sale are capital expenditures. Henry v. United States, 362 F. 2d 640 (5th Cir. 1966). Provision of sewer service to the rental residences in this case is not distinguishable. The connection with the sewer system was made to substantially prolong the useful life of the residences because without this improvement, the residences' useful life as rental property probably would have ceased. Absent a connection to the sewer system the plumbing was legally not operable, and without plumbing it is unlikely that the residences could be rented. Furthermore, for this same reason, the improvement did add to the value of the property. By maintaining the rentable status of the property, the improvement increased the value for use in the taxpayer's business activity of renting this property to gain income. Hotel Sulgrave 21 TC 619 (1954).

It is true that the cost of incidental repairs which neither materially add to the value of the property nor appreciably prolong its life, but keep it in an ordinarily efficient operating condition, may be deducted as an expense, § 1.162-4 of the regulations under the Code. However, for the reasons stated previously the costs incurred in this case did materially add to the value of the property and did appreciably prolong its useful life.

Issue 2. All of the costs enumerated in the facts were necessary to make the improvement operational. Therefore all of these costs are considered the costs of a capital improvement and a rent increase under § 301.103 can be based on these costs.

Capital improvement costs which benefit only a particular residence shall be allocated to that residence. Capital improvement costs which benefit several residences in common shall be allocated equally to each residence unless the benefits are clearly distributed unequally or the costs are clearly incurred unequally.

There are no facts in this case indicating that the costs should be allocated unequally to the residences. Therefore, the amount of rent increase is limited to 1½ percent per month of the cost of the capital improvement allocated to each residence. That increase would be $6,155.69/5 a 1½ percent or $18 per month rounded in accordance with Economic Stabilization Regulations, 6 CFR 301.102 (b), 37 F.R. 25387 (December 30, 1971). The rent increase exceeds 10 percent of the monthly rent previously charged, but since the improvement is required by local law, the rent may be increased by that amount without IRS approval, § 301.103(a), (c) of the regulations.

This ruling has been approved by the General Counsel of the Price Commission.

V 37-76 APR 19 72 XUM

[Price Commission Ruling 1972–131]

[Cost of Living Council Ruling 1972–43]

DEFINITION OF U.S. TERRITORY

Price Commission and Cost of Living Council Ruling

Facts. Company A is primarily engaged in providing marine transportation to the offshore petroleum industry on a worldwide basis with principal operations in the Gulf of Mexico.

Specifically, Company A primarily moves offshore drillings rigs from one location to another and transports various supplies to the offshore drilling rigs. A charges its customers for the service of its tug boats on a per hour basis for short term operations and by the day or month on longer contracts.

In excess of 90 percent of Company A's operations are conducted in international waters (outside the 3-mile limit of the U.S. coast) or within the waters of foreign countries along the eastern shore of Central and South America. In many instances, these tugs may operate for days or months without entering U.S. waters.

Issue 1. Is the Company A subject to price controls?

2. Does the definition of the United States as stated in § 300.5 of the Price Commission Regulations include under certain circumstances the waters referred to above, and if so, is there a 3- or 2-mile limit?

Ruling. The activities of Company A will have to be divided in a minimum of three categories: First, the services it performs wholly within U.S. territory; second, services performed partially within the United States and partially without; third, services performed wholly outside the United States. By doing this we are faced with only one question: "What is to be considered the United States?"

U.S. territory extends to a point described by the Outer Continental Shelf Lands Act, 43 U.S.C.A. 1331 et seq., 67 Stat. 462 (August 7, 1953). This act covers areas outside the 3-mile seaward boundary (43 U.S.C.A. section 1301 et seq., 67 Stat. 29 (May 22, 1953)), which "* * * the subsoil and seabed * * * appertain to the United States and are subject to its jurisdiction, control, and power" (43 U.S.C.A. 1332(a)).

Further, section 1333(a) (43 U.S.C.A. 1333(a)) provides that the Constitution and laws of the United States extended to "* * * all artificial islands and fixed structures which may be erected thereon (the seabed) for the purpose of exploring for developing, removing, and transporting resources therefrom, to the same extent as if the Outer Continental Shelf were an area of exclusive Federal jurisdiction located within a State." This section is applicable only if a mineral lease was issued or maintained under this subchapter. Therefore, there is no geographical limit, such as the 3-mile boundary, on the jurisdiction and control of the United States.

Under the above act drilling platforms in waters beyond the 3-mile limit are considered under U.S. jurisdiction. As such, services involving these platforms are considered to be performed within the United States and the companies performing such services are subject to control. Services originating in the United States but to be completed within coastal waters of a foreign country (as recognized by the United States) are partially performed in the United States and are subject to controls. Service performed wholly outside the United States are exempt. Economic stabilization Regulation 300.1(c), 6 CFR 300.1(c), 36 F.R. 23974 (December 16, 1971). Specifically, moving a drilling platform from one position from, to, or within the Outer Continental Shelf Area is a service either partially or wholly performed within the United States.

This ruling has been approved by the General Counsel's of the Price Commission and the Cost of Living Council.

Dated: April 13, 1972.

[Price Commission Ruling 1972–132]

[Cost of Living Council Ruling 1972–44]

EXEMPTION—SINGLE-FAMILY DWELLING UNITS

Price Commission and Cost of Living Council Ruling

Facts. An owner L, of one single-family dwelling X, offers X for rent. Under the freeze regulations the rent was held at $150 per month. T leased X from L on October 1, 1971, under a yearly lease which called for $200 per month rent. However, under § 300.407(b) of the Economic Stabilization Regulations, L was prohibited from collecting more than $150 rent per month after November 13, 1971. 6 CFR 300.407(b), 36 F.R. 23974 (December 16, 1971). On February 3, 1972, X became exempt from the Economic Stabilization Regulations.

Issue. May L collect $200 rent per month from T after February 2, 1972?

Ruling. Yes. Section 101.34(a)(2)(iv) provides in part that single-family dwelling units which were rented for a term longer than month to month on January 19, 1972, are exempt: *Provided,* That the owner of such units and members of his family do not own or have an interest, directly or indirectly, in more than an aggregate of four such units. 6 CFR 101.34(a)(2)(iv), 37 F.R. 2678 (February 4, 1972). This exemption became effective when the amendment which added subsection (iv) to the regulation was filed with the FEDERAL REGISTER. The amendment was filed on February 3, 1972. 37 F.R. 2678 (February 4, 1972). Thus, on February 3, 1972 any provision of the Economic Stabilization Regulations which prevented the collection of the full amount of a rent specified in a valid lease between a lessor and lessee became ineffective in regard to the exempted rental property. Thus, L may collect $200 rent per month from T after February 2, 1972.

This ruling has been approved by the General Counsels of the Price Commission and Cost of Living Council.

Office of the Secretary

HAND PALLET TRUCKS FROM FRANCE

Determination of Sales at Less Than Fair Value

Information was received on March 22, 1971, that hand pallet trucks from France were being sold at less than fair value within the meaning of the Antidumping Act, 1921, as amended (19 U.S.C. 160 et seq.) (referred to in this notice as "the Act").

A "Withholding of Appraisement Notice" issued by the Commissioner of Customs is being published concurrently with this notice.

I hereby determine that for the reasons stated below, hand pallet trucks from France are being, or are likely to be, sold at less than fair value within the meaning of section 201(a) of the Act.

Statement of reasons on which this determination is based. The information currently before the Bureau indicates that the proper basis of comparison is between purchase price and home market price.

Purchase price was based on published price list prices, f.o.b. factory, less a discount. Appropriate adjustments were made for taxes not collected by reason of exportation.

Home market price was based on published price list prices. A deduction was made for transportation charges. Adjustments were made for differences in packing, discounts and selling expenses. Adjustments were also made for differences in the merchandise.

Comparisons between purchase price and home market price revealed that purchase price was lower than home market price.

The U.S. Tariff Commission is being advised of this determination.

This determination is published pursuant to section 201(c) of the Act (19 U.S.C. 160(c)).

[SEAL] EUGENE T. ROSSIDES,
Assistant Secretary
of the Treasury.

APRIL 13, 1972.

[FR Doc.72-5904 Filed 4-18-72;8:48 am]

WELDED-WIRE MESH FROM BELGIUM

Determination of Sales at Less Than Fair Value

Information was received on November 23, 1970, that welded-wire mesh for concrete reinforcement from Belgium was being sold at less than fair value within the meaning of the Antidumping Act, 1921, as amended (19 U.S.C. 160 et seq.) (referred to in this notice as "the Act").

A "Withholding of Appraisement Notice" issued by the Commissioner of Customs is being published concurrently with this notice.

I hereby determine that welded-wire mesh for concrete reinforcement from Belgium is being, or is likely to be, sold at less than fair value within the meaning of section 201(a) of the Act (19 U.S.C. 160(a)).

Statement of reasons. The information currently before the Bureau reveals that the proper basis of comparison for fair value purposes is between purchase price and the adjusted home market price of such or similar merchandise.

Purchase price was calculated by deducting from the f.o.b. port price for exportation to the United States the included inland freight charges and by adding internal taxes rebated or not collected by reason of exportation to the United States and export taxes.

Home market price was based on the weighted average delivered price of similar merchandise. Deductions were made for inland freight charges. Adjustments were made for internal taxes and differences in production costs, as appropriate.

Comparison between purchase price and the adjusted home market price revealed the adjusted home market price to be higher than purchase price.

The U.S. Tariff Commission is being advised of this determination.

This determination is published pursuant to section 201(c) of the Act (19 U.S.C. 160(c)).

[SEAL] EUGENE T. ROSSIDES,
Assistant Secretary
of the Treasury.

DEPARTMENT OF THE INTERIOR

National Park Service

PLATT NATIONAL PARK

Notice of Intention To Issue Concession Permit

Pursuant to the provisions of section 5 of the Act of October 9, 1965 (79 Stat. 969; 16 U.S.C. 20), public notice is hereby given that thirty (30) days after the date of publication of this notice, the Department of the Interior, through the Superintendent, Platt National Park proposes to issue a concession permit to Tribes of the Arbuckle Indian Arts and Crafts Association, Sulphur, Okla., authorizing it to sell genuine Indian handicraft to the public at Platt National Park for a period of eight (8) months from May 1, 1972 through December 31, 1972.

The foregoing concessioner has performed its obligations under an existing permit to the satisfaction of the National Park Service, and therefore, pursuant to the Act cited above, is entitled to be given preference in the issuance of a new permit. However, under the Act cited above, the Secretary is also required to consider and evaluate all proposals received as a result of this notice. Any proposal to be considered and evaluated must be submitted within thirty (30) days after the date of publication of this notice. Interested parties should contact the Superintendent, Platt National Park, Post Office Box 201, Sulphur, OK 73086, for information as to the requirements of the proposed permit.

Dated: March 21, 1972.

JOHN C. HIGGINS,
Superintendent of
Platt National Park.

YOSEMITE NATIONAL PARK

Notice of Intention To Extend Concession Contract

Pursuant to the provisions of section 5 of the Act of October 9, 1965 (79 Stat. 969; 16 U.S.C. 20), public notice is hereby given that thirty (30) days after the date of publication of this notice, the Department of the Interior, through the Director of the National Park Service, proposes to authorize David L. Vaughn, Jack W. Vaughn, and Sharon Martha Vaughn to continue to provide food, beverage, and merchandising services and facilities for the public at the El Portal Administrative Site, Yosemite National Park, for a period of seven (7) years from January 1, 1972, through December 31, 1978, pursuant to an amendment to the concession contract under which they also operate the El Portal Market in the El Portal Administrative Site, Yosemite National Park.

The foregoing concessioners have performed their obligations under the expired contract to the satisfaction of the National Park Service, and therefore, pursuant to the Act cited above, are entitled to be given preference in the renewal of the contract and in the negotiation of a new contract. However, under the Act cited above, the Secretary is also required to consider and evaluate all proposals received as a result of this notice. Any proposal to be considered and evaluated must be submitted within thirty (30) days after the publication date of this notice.

Interested parties should contact the Chief of Concessions Management, National Park Service, Washington, D.C. 20240, for information as to the requirements of the proposed contract.

Dated: April 7, 1972.

LAWRENCE C. HADLEY,
Assistant Director,
National Park Service.

[Order 5]

SUPERINTENDENTS ET AL., SOUTHEAST REGION

Delegation of Authority

SECTION 1. *Superintendents.* The National Park Service Superintendents of the Southeast Region, in the administration, operation, and development of the areas under their supervision, are authorized to exercise all of the authority now or hereafter delegated to the Director, Southeast Region, by the Director, National Park Service, except with respect to the following:

(a) Approval of master plans.

(b) Acceptance of an offer in settlement of a timber trespass unless (1) the trespass is an innocent one, (2) the damages therefrom do not exceed $5,000, and (3) payment of the full amount of the damages is offered.

(c) Sales of timber pursuant to the Federal Property and Administrative Services Act of 1949, and the Federal Property Management Regulations when the fair market value of the timber involved in any single transaction exceeds $1,000.

(d) Approval of programs for destruction and disposition of wild animals which are damaging the land or its vege-

V 37-76 APR 19 72 XUM

tative cover, and of permits to collect rare or endangered species.

(e) Acceptance of donations of personal property valued in excess of $10,000, and acceptance of donations of money in excess of $10,000.

(f) Authority to designate areas at which recreation fees will be charged as specified by sections 1, 2, and 3 of Executive Order 11200.

(g) Authority to select from the fees established by 43 CFR Part 18, the specific fees to be charged at the designated areas in accordance with section 5(a) of Executive Order 11200.

(h) Authority to execute, approve, and administer contracts and to issue purchase orders for equipment, supplies, and services as follows:

(1) Superintendents, Grade GS–12 and below—in excess of $2,000.

(2) Superintendents, Grade GS–13—in excess of $50,000.

(3) Superintendents, Grade GS–14—in excess of $100,000.

(4) Superintendents, Grade GS–15—in excess of $200,000.

The limitations in this paragraph (h) apply only to open market or nonmandatory sources of supply. Each office may continue to issue orders to GSA Centers and sources under established Federal Supply Schedules of Contracts in amounts exceeding $2,000.

(i) Authority with respect to the preservation of historical and archeological data (including relics and specimens) which might otherwise be lost as a result of the construction of a dam.

(j) Authority to approve land acquisition priorities.

(k) Authority to execute the land acquisition program, including contracting for acquisition of lands and related property, and options and offers to sell related thereto.

(l) Authority to issue revocable special use permits having a term of more than 10 years.

(m) Authority to hire, rent, or purchase personal property from employees.

SEC. 2. *Delegation*—(a) *Regional Chief, Office of Finance and Control.* The Regional Chief, Office of Finance and Control is authorized to exercise all the procurement and contracting authority now or hereafter vested in the Director, Southeast Region, except authority relating to land acquisition as hereinafter delegated to Regional Chief, Division of Lands.

(b) *Regional Chief, Division of Property Management and General Services.* The Regional Chief, Division of Property Management and General Services, is authorized to exercise all the procurement and contracting authority now or hereafter vested in the Director, Southeast Region, except authority relating to land acquisition as hereinafter delegated to Regional Chief, Division of Lands.

(c) *Procurement Agent.* The Procurement Agent may execute and approve orders not in excess of $2,000.

(d) *Chief Archeologist, Southeast Archeological Center.* The Chief Archeologist, Southeast Archeological Center may execute and approve orders not in excess of $2,000.

(e) *Director, Florida-Caribbean District.* The Director, Florida-Caribbean District may execute and approve orders not in excess of $2,000.

(f) *Regional Chief, Division of Lands.* The Regional Chief, Division of Lands is authorized to:

(1) Approve and accept offers to sell to or exchange with the United States, lands or interests in lands and to execute all necessary agreements and conveyances incident thereto.

(2) Accept deeds conveying to the United States, lands or interests in lands.

(3) Approve on behalf of the National Park Service offers of settlement in condemnation cases.

(g) The Land Acquisition Officers stationed at Everglades National Park and Gulf Islands National Seashore are authorized to exercise authority with respect to the following:

(1) Approval and acceptance of offers to sell to, or exchange with the United States, lands or interests in lands when the amount involved does not exceed $100,000.

(2) Acceptance of deeds conveying to the United States lands or interests in lands.

SEC. 3. *Redelegation.* The authority delegated in this Order No. 5 may not be redelegated, except that a Superintendent may, in writing, redelegate to any officer or employee the authority delegated to him by this order and may authorize written redelegation of such authority. Each redelegation shall be published in the FEDERAL REGISTER.

SEC. 4. *Revocation.* This order supersedes Southeast Office Order No. 4, dated April 28, 1966, and published in 31 F.R. 3135 (National Park Service Order No. 66 (36 F.R. 21218), dated November 4, 1971), as amended (37 F.R. 4001) dated February 25, 1972.

Dated: March 17, 1972.

DAVID D. THOMPSON, JR.,
Director, Southeast Region.

[Order No. 5]

SUPERINTENDENTS ET AL., SOUTHWEST REGION

Delegation of Authority

SECTION 1. *Superintendents.* The National Park Service Superintendents of the Southwest Region, in the administration, operation, and development of the areas under their supervision, are authorized to exercise all of the authority now or hereafter delegated to the Director, Southwest Region, by the Director, National Park Service, except with respect to the following:

(a) Approval of master plans.

(b) Acceptance of an offer in settlement of a timber trespass unless (1) the trespass is an innocent one, (2) the damages therefrom do not exceed $5,000, and (3) payment of the full amount of the damages is offered.

(c) Sales of timber pursuant to the Federal Property and Administrative Services Act of 1949, and the Federal Property Management Regulations when the fair market value of the timber involved in any single transaction exceeds $1,000.

(d) Approval of programs for destruction and disposition of wild animals which are damaging the land or its vegetative cover, and of permits to collect rare or endangered species.

(e) Acceptance of donations of personal property valued in excess of $10,000, and acceptance of donations of money in excess of $10,000.

(f) Authority to designate areas at which recreation fees will be charged as specified by sections 1, 2, and 3 of Executive Order 11200.

(g) Authority to select from the fees established by 43 CFR Part 18, the specific fees to be charged at the designated areas in accordance with section 5(a) of Executive Order 11200.

(h) Authority to execute, approve, and administer contracts and to issue purchase orders for equipment, supplies, and services as follows:

(1) Superintendents, Grade GS–12 and below— in excess of $2,000

(2) Superintendents, Grade GS–13— in excess of $50,000

(3) Superintendents, Grade GS–14— in excess of $100,000

(4) Superintendents, Grade GS–15— in excess of $200,000

The limitations in this paragraph (h) apply only to open market or nonmandatory sources of supply. Each office may continue to issue orders to GSA Centers and sources under established Federal Supply Schedules of Contracts in amounts exceeding $2,000.

(i) Authority with respect to the preservation of historical and archeological data (including relics and specimens) which might otherwise be lost as a result of the construction of a dam.

(j) Authority to approve land acquisition priorities.

(k) Authority to execute the land acquisition program, including contracting for acquisition of lands and related property, and options and offers to sell related thereto.

(l) Authority to issue revocable special use permits having a term of more than 10 years.

(m) Authority to hire, rent, or purchase personal property from employees.

SEC. 2. *Delegation.*—(a) *Regional Chief, Office of Finance and Control.* The Regional Chief, Office of Finance and Control is authorized to exercise all the procurement and contracting authority now or hereafter vested in the Director, Southwest Region, except authority to contract for acquisition of land and related property, and options and offers to sell related thereto.

(b) *Regional Chief, Division of Property Management and General Services.* The Regional Chief, Division of Property Management and General Services, is authorized to exercise all the procurement and contracting authority now or hereafter vested in the Director, Southwest Region, except authority to contract for acquisition of land and related property, and options and offers to sell related thereto.

(c) *Regional Procurement and Property Management Assistant.* The Regional Procurement and Property Management Assistant may execute and approve purchase orders not in excess of $2,000.

(d) *Chief, Land Acquisition Officer.* The Chief, Land Acquisition Officer, is authorized to execute the land acquisition program, including contracting for acquisition of lands and related property, and options and offers to sell related thereto.

SEC. 3. *Redelegation.* The authority delegated in this Order No. 5 may not be redelegated, except that a Superintendent may, in writing, redelegate to any officer or employee the authority delegated to him by this order and may authorize written redelegation of such authority. Each redelegation shall be published in the FEDERAL REGISTER.

SEC. 4. *Revocation.* This order supersedes Southwest Region Order No. 4, dated April 18, 1966, and published in 31 F.R. 8134 (National Park Service Order No. 66) (36 F.R. 21218) as amended (37 F.R. 4001 dated February 25, 1972).

Dated: March 22, 1972.

FRANK F. KOWSKI,
Director, Southwest Region.

GRAINS AND SIMILARLY HANDLED COMMODITIES

Notice of Extension of Warehouse-Storage Loans for 1970 and 1971 Crops

Pursuant to the provisions of § 1421.6 of the General Regulations Governing Price Support for the 1970 and Subsequent Crops of Grains and Similarly Handled Commodities, as amended, CCC hereby gives notice that, unless earlier demand for payment is made, the loan maturity dates for loans on 1971-crop grain sorghum and wheat and 1970-crop wheat are extended for an additional 1-year period from the current maturity dates for such loans, as provided below, with respect to producers who, prior to the current original maturity dates of loans secured by the 1971 crops of such commodities, or the current extended maturity date of loans secured by 1970-crop wheat, or such later date that may be authorized for good cause by the Deputy Administrator, State and County Operations, ASCS, notify in writing the county ASCS office through which they obtained such loans that they wish to have such maturity dates extended; loans with respect to which no requests for extension are received will mature on the current original and extended maturity dates of loans secured by the 1970 and 1971 crops of the commodities designated in this notice.

	From current maturity date	To extended maturity date
	1972	*1973*
Grain sorghum in the following counties in Texas and all counties in Texas south thereof: Austin, Bexar, Caldwell, Colorado, Comal, Galveston, Gonzales, Harris, Hays, Kinney, Lavaca, Medina, Uvalde, Val Verde, and Weller.	Apr. 30..	Apr. 30.
Grain sorghum in Oklahoma and all counties in Texas north of the counties with a maturity date of Apr. 30 listed above.	June 30..	June 30.
Grain sorghum in all other States....	July 31..	July 31.
Wheat in Idaho, Minnesota, Montana, North Dakota, Oregon, Washington, and Wyoming.	May 31..	May 31.
Wheat in all other States.....	Apr. 30..	Apr. 30.

The maturity date for crops of certain commodities will occur in the near future. It is determined to be impracticable and against the public interest to comply with the public participation provisions prescribed by 5 U.S.C. 553 (b) and (c). Therefore, this notice shall be effective upon publication in the FEDERAL REGISTER (4–19–72).

(Secs. 4, 5, 62 Stat. 1070, as amended; secs. 101, 401, 403, 405, 63 Stat. 1051, as amended; 15 U.S.C. 714 b and c; 7 U.S.C. 1421, 1423, 1425, 1441)

Signed at Washington, D.C. on April 11, 1972.

KENNETH E. FRICK,
Executive Vice President, Commodity Credit Corporation.

GRAINS AND SIMILARLY HANDLED COMMODITIES

Notice of Final Date for Redemption of Warehouse-Storage Loans Made Under 1970-Crop Commodity Loan Programs

Unless demand is made earlier by CCC, extended warehouse-storage loans secured by 1970-crop barley, oats, grain sorghum, and wheat are due and payable on the dates indicated.

Unless, on or before the final date for repayment specified below, such loans are repaid, title to the unredeemed collateral shall immediately vest in CCC, without a sale thereof, on the date next succeeding the final date for repayment specified below: *Provided*, That, CCC will not acquire title to any such commodity for which repayment has been mailed to the county ASCS office by letter postmarked (not patron postage meter date stamped) not later than the applicable maturity date indicated below. CCC shall have no obligation to pay for any market value which any unredeemed commodity may have in excess of the loan indebtedness; i.e., the unpaid amount of the note plus interest and charges. Nothing herein shall preclude making payment to a pro-

V 37-76

XUM

ducer of any amount by which the settlement value of a pledged commodity may exceed the principal amount of the loan. The settlement value as used herein is the loan value of the pledged commodity determined on the basis of the weight, grade, and other quality factors shown on the warehouse receipts or accompanying documents in accordance with the applicable loan rate provided in the program regulations. Notwithstanding the foregoing provisions, if the producer has made a fraudulent representation in obtaining the loan or in settlement or deliveries under the loan or has converted all or any part of the loan collateral, the producer shall remain personally liable for the amounts specified in the Warehouse Storage Note and Security Agreement and in the loan program regulations. Amounts due the producer will be paid by the appropriate county ASCS office.

	Maturity date	Final date of repayment
Barley:	*1973*	*1972*
In Alaska, Idaho, Minnesota, Montana, North Dakota, Oregon, South Dakota, Washington, Wisconsin, and Wyoming.	May 31	May 31.
In all other States	Apr. 30	May 1.
Grain Sorghum:		
In the following counties in Texas and all counties south thereof: Austin, Bexar, Caldwell, Colorado, Comal, Galveston, Gonzales, Harris, Hays, Kinney, Lavaca, Medina, Uvalde, Val Verde, and Waller.	do	Do.
In Oklahoma and in counties in Texas north of those with an April 30 maturity date listed above.	June 30	June 30.
In all States except Texas and Oklahoma.	July 31	July 31.
Oats:		
In Alaska, Idaho, Maine, Michigan, Minnesota, Montana, North Dakota, Oregon, South Dakota, Washington, Wisconsin, and Wyoming.	May 31	May 31.
In all other States	Apr. 30	May 1.
Wheat:[1]		
In Idaho, Minnesota, Montana, North Dakota, Oregon, Washton, and Wyoming.	May 31	May 31.
In all other States	Apr. 30	May 1.

[1] This notice does not apply to loans on wheat with respect to such producers, prior to the above maturity date, have given written notice to the county ASCS office through which they obtained such loans that they wish to have such maturity date extended.

(Secs. 4 and 5, 62 Stat. 1070, as amended; secs. 101, 105, 107, 301, 401, 405, 63 Stat. 1051, as amended; 15 U.S.C. 1421, 1425, 1441, 1447)

Effective upon publication in the FEDERAL REGISTER (4–19–72).

Signed at Washington, D.C., on April 11, 1972.

KENNETH E. FRICK,
Executive Vice President,
Commodity Credit Corporation.

Food and Nutrition Service

[FSP No. 1972–1]

FOOD STAMP PROGRAM

Maximum Monthly Allowable Income Standards and Basis of Coupon Issuance; 48 States and District of Columbia

Section 7(a) of the Food Stamp Act, as amended, requires that the value of the coupon allotment be adjusted annually to reflect changes in the prices of food published by the Bureau of Labor Statistics. Therefore, notice FSP No. 1971–1, which is a part of Subchapter C—Food Stamp Program, under Title 7, Chapter II, Code of Federal Regulations, is superseded, effective July 1, 1972, by this notice FSP No. 1972–1.

In view of the need for placing this notice into effect on July 1, 1972, it is hereby determined that it is impracticable and contrary to the public interest to give notice of proposed rule making with respect to this notice. Notice FSP No. 1972–1 reads as follows:

MAXIMUM MONTHLY ALLOWABLE INCOME STANDARDS AND BASIS OF COUPON ISSUANCE; 48 STATES AND DISTRICT OF COLUMBIA

As provided in § 271.3(b), households in which all members are included in the federally aided public assistance or general assistance grant shall be determined to be eligible to participate in the program while receiving such grants without regard to the income and resources of the household members.

The maximum allowable income standards for determining eligibility of all other applicant households, including those in which some members are recipients of federally aided public assistance or general assistance, in any State other than Alaska or Hawaii or in the District of Columbia, shall be the higher of:

(1) The maximum allowable monthly income standards for each household size which were in effect in such State or the District of Columbia prior to July 29, 1971, or

(2) The following maximum allowable monthly income standards:

Household size:	*Maximum Allowable Monthly Income Standards—48 States and District of Columbia*
1	$178
2	233
3	307
4	373
5	440
6	507
7	573
8	640
Each additional member	+53

"Income" as the term is used in the notice is as defined in paragraph (b) of § 271.3 of the Food Stamp Program Regulations.

Pursuant to section 7 (a) and (b) of the Food Stamp Act, as amended (7 U.S.C. 2016, Public Law 91–671), the face value of the monthly coupon allotment which State agencies are authorized to issue to any household certified as eligible to participate in the Program and the amount charged for the monthly coupon allotment in the 48 States and the District of Columbia are as follows:

MONTHLY COUPON ALLOTMENTS AND PURCHASE REQUIREMENTS—48 STATES AND DISTRICT OF COLUMBIA

Monthly net income	For a household of— 1 Person	2 Persons	3 Persons	4 Persons	5 Persons	6 Persons	7 Persons	8 Persons
	The monthly coupon allotment is—							
	$36	$64	$92	$112	$132	$152	$172	$192
	And the monthly purchase requirement is—

$370–$389.99					104	112	122	126
$390–$409.99						116	126	130
$410–$429.99						120	130	134
$430–$449.99							134	138
$450–$469.99							136	142
$470–$489.99							138	146
$490–$509.99								150
$510–$529.99								152
$530–$549.99								
$550–$569.99								
$570–$589.99								
$590–$609.99								
$610–$629.99								
$630–$649.99								

For issuance to households of more than eight persons use the following formula:

A. *Value of the total allotment.* For each person in excess of eight, add $16 to the monthly coupon allotment for an eight-person household.

B. *Purchase requirement.* 1. Use the purchase requirement shown for the eight-person household for households with income of $599.99 or less per month.

2. For households with monthly incomes of $600 or more, use the following formula: For each $30 worth of monthly income (or portion thereof) over $599.99, add $4 to the monthly purchase requirement shown for an eight-person household with an income of $599.99.

3. To obtain maximum monthly purchase requirements for households of more than eight persons, add $12 for each person over eight to the maximum purchase requirement shown for an eight-person household.

Effective date. The provisions of this notice shall become effective on July 1, 1972.

RICHARD LYNG,
Assistant Secretary.

INDIANA UNIVERSITY MEDICAL CENTER

Notice of Decision on Application for Duty-Free Entry of Scientific Article

The following is a decision on an application for duty-free entry of a scientific article pursuant to section 6(c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Public Law 89–651, 80 Stat. 897) and the regulations issued thereunder as amended (37 F.R. 3892 et seq.).

A copy of the record pertaining to this decision is available for public review during ordinary business hours of the Department of Commerce, at the Office of Import Programs, Department of Commerce, Washington, D.C.

Docket No. 72–00249–00–46040. Applicant: Indiana University Medical Center, 630 West New York Street, Indianapolis, IN 46202. Article: Anticontamination device. Manufacturer: Siemens AG, West Germany.

Intended use of article: The article is an accessory to be used with an existing Elmiskop I electron microscope used for research purposes.

Comments: No comments have been received with respect to this application.

Decision: Application approved. No instrument or apparatus of equivalent scientific value to the foreign article, for such purposes as this article is intended to be used, is being manufactured in the United States.

Reasons: The application relates to an accessory for an instrument that had been previously imported for the use of the applicant institution. The article is being furnished by the manufacturer which produced the instrument with which the article is intended to be used.

The Department of Commerce knows of no similar accessory being manufactured in the United States, which is interchangeable with or can be readily adapted to the instrument with which the foreign article is intended to be used.

EQUIPMENT, CONSTRUCTION, AND MATERIALS

Termination of Approval Notice

1. Certain laws and regulations (46 CFR Ch. I) require that various items of lifesaving, firefighting, and miscellaneous equipment, construction, and materials used on board vessels subject to Coast Guard inspection, on certain motorboats and other recreational vessels, and on the artificial islands and fixed

V 37-76 APR 19 72 XUM

structures on the Outer Continental Shelf be of types approved by the Commandant, U.S. Coast Guard. The purpose of this document is to notify all interested persons that certain approvals have been terminated as herein described during the period from August 31, 1971, to March 3, 1972 (List No. 7–72). These actions were taken in accordance with the procedures set forth in 46 CFR 2.75–1 to 2.75–50.

2. The statutory authority for equipment, construction, and material approvals is generally set forth in sections 367, 375, 390b, 416, 481, 489, 526p, and 1333 of title 46, United State Code, section 1333 of title 43, United States Code, and section 198 of title 50, United States Code. The Secretary of Transportation has delegated authority to the Commandant, U.S. Coast Guard with respect to these approvals (49 CFR 1.46(b)). The specifications prescribed by the Commandant, U.S. Coast Guard for certain types of equipment, construction, and materials are set forth in 46 CFR Parts 160 to 164.

3. Notwithstanding the termination of approval listed in this document, the equipment affected may be used as long as it remains in good and serviceable condition.

BUOYS, LIFE, RING, CORK, OR BALSA WOOD FOR MERCHANT VESSELS AND MOTORBOATS

The Tapatco, Inc., Post Office Box 49, Fairfield, CA 94533, no longer manufactures certain cork ring life buoys and Approval No. 160.009/32/0 was therefore terminated effective March 3, 1972.

LINE - THROWING APPLIANCE, IMPULSE-PROJECTED ROCKET TYPE (AND EQUIPMENT), FOR MERCHANT VESSELS

The Kilgora Corp., Toone, Tenn. 38381, Approval No. 160.040/1/5 expired and was terminated effective August 31, 1971.

BUOYS, LIFE, RING, UNICELLULAR PLASTIC

The Tapatco, Inc., Post Office Box 49, Fairfield, CA 94533, no longer manufactures certain unicellular plastic ring life buoys and Approvals Nos. 160.050/26/0, 160.050/27/0, and 160.050/28/0 were therefore terminated effective March 3, 1972.

BUOYANT VESTS, UNICELLULAR POLYETHYLENE FOAM, ADULT AND CHILD

NOTE: Approved for use on motorboats of classes A, 1, or 2 not carrying passengers for hire.

The Tapatco, Inc., Post Office Box 49, Fairfield, CA 94533, no longer manufactures certain unicellular polyethylene foam buoyant vests and Approvals Nos. 160.060/10/0, 160.060/11/0, and 160.060/12/0 were therefore terminated effective March 3, 1972.

Dated: April 10, 1972.

G. H. READ,

PORTION OF THE ELIZABETH RIVER, NORFOLK HARBOR, VA., CLOSED TO NAVIGATION DURING TRANSIT OF THE U.S.S. "INDEPENDENCE"

SECURITY ZONE

Under the present authority of section 1 of title II of the Espionage Act of June 15, 1917, 40 Stat. 220, as amended, 50 U.S.C. 191, and Executive Order 10173, as amended, I declare that from 0830R April 21, 1972, until 1030R April 21, 1972, the following area is a Security Zone and I order it be closed to any person or vessel due to transit of the U.S.S. *Independence*.

The waters of the Elizabeth River, Norfolk Harbor, Va., within the area between Elizabeth River Channel lighted horn buoy 1 LL 2939 at latitude 36°59'06" N. and the Norfolk and Portsmouth Beltline Railroad Bridge which crosses the Southern Branch of the Elizabeth River at latitude 36°48'41" N.

No person or vessel shall remain in or enter this security zone without permission of the Captain of the Port, 393–9611, Extension 220.

The Captain of the Port, Hampton Roads Area, shall enforce this order. In the enforcement of this order, the Captain of the Port may utilize, by appropriate agreement, personnel and facilities of any other Federal agency, or of any State or political subdivision thereof.

For violation of this order, section 2 of title II of the Espionage Act of June 15, 1917 (40 Stat. 220 as amended, 50 U.S.C. 192), provides:

If any owner, agent, master, officer, or person in charge, or any member of the crew of any such vessel fails to comply with any regulation or rule issued or order given under the provisions of this chapter, or obstructs or interferes with the exercise of any power conferred by this chapter, the vessel, together with her tackle, apparel, furniture, and equipment, shall be subject to seizure and forfeiture to the United States in the same manner as merchandise is forfeited for violation of the customs revenue laws; and the person guilty of such failure, obstruction, or interference shall be punished by imprisonment for not more than 10 years and may, in the discretion of the court, be fined not more than $10,000.

(a) If any other person knowingly fails to comply with any regulation or rule issued or order given under the provisions of this chapter, or knowingly obstructs or interferes with the exercise of any power conferred by this chapter, he shall be punished by imprisonment for not more than 10 years and may, at the discretion of the court, be fined not more than $10,000.

Dated: April 14, 1972.

J. M. AUSTIN,
Captain, U.S. Coast Guard, Acting Chief, Office of Marine Environment and Systems.

ATOMIC ENERGY COMMISSION

[Dockets Nos. 50–329A, 50–330A]

CONSUMERS POWER CO.

Notice of Antitrust Hearing on Application for Construction Permits

Pursuant to the Atomic Energy Act of 1954, as amended (the Act), and the regulations in Title 10, Code of Federal Regulations, Part 50, "Licensing of Production and Utilization Facilities," and Part 2, "Rules of Practice," notice is hereby given that a hearing will be held, at a time and place to be set in the future by an Atomic Safety and Licensing Board (Board) designated herein, to consider the antitrust aspects of the application filed under the Act by Consumers Power Co. (the applicant), for construction permits for two pressurized water nuclear power reactors, designated as the Midland Plant, Units 1 and 2 (the facilities), which are each designed to operate at approximately 2,452 megawatts (thermal). The proposed facilities are to be located on the applicant's site adjacent to the Tittabawasee River in Midland County, Mich.

The hearing will be conducted by an Atomic Safety and Licensing Board (Board) designated by the Atomic Energy Commission (Commission) consisting of Dr. Leonard W. Weiss, Hugh K. Clark, Esq., and Jerome Garfinkel, Esq., Chairman.

On September 4, 1971, the Commission published in the FEDERAL REGISTER a letter from the Attorney General dated June 28, 1971, advising the Commission that certain antitrust aspects of the application of Consumers Power Co. required a hearing. A notice published with the Attorney General's letter provided that, within 30 days, any person whose interest may be affected by the proceeding could file a petition for leave to intervene and request for an antitrust hearing. Petitions for leave to intervene were thereafter timely filed by the Wolverine Electric Cooperative, Inc., and jointly by the following: City of Traverse City, Mich., and the Traverse City Light and Power Department; City of Grand Haven, Mich., Board of Light and Power; City of Holland, Mich., Board of Public Works; City of Zeeland, Mich., and the Zeeland Board of Public Works; City of Coldwater, Mich., Board of Public Utilities; the Michigan Municipal Electric Association; and the Northern Michigan Electric Cooperative, Inc.

Answers to these petitions were filed by the applicant and the AEC regulatory staff.

The Commission has determined that the pending petitions should be ruled upon by the Board in regard to their respective requests for intervention.

A prehearing conference will be held by the Board, at a date and place to be set by it, to consider pertinent matters in accordance with the Commission's rules of practice (10 CFR Part 2). The date and place of the hearing will be set by the Board at or after the prehearing conference. Notices as to the dates and places of the prehearing conference and the hearing will be published in the FEDERAL REGISTER.

The issue to be considered at the hearing is whether the activities under the permits in question would create or maintain a situation inconsistent with the antitrust laws as specified in subsection 105a of the Act. In its initial decision, the Board will decide those matters relevant to that issue which are in controversy among the parties and make its findings on the issue.

A cardinal prehearing objective will be to establish, on as timely a basis as possible, a clear and particularized identification of those matters related to the issue in this proceeding which are in controversy. As a first step in this prehearing process, the Board shall obtain from the parties a detailed specification of the matters which they seek to have considered in the ensuing hearing.

In the event the Board finds that the activities under the permits would create or maintain a situation inconsistent with the antitrust laws, it will also consider, in determining whether construction permits should be issued, continued,[1] modified or conditioned, such other factors, including the need for power in the affected area, as the Board in its judgment deems necessary to protect the public interest. The Board's consideration in the latter regard shall be based on the record submissions by the parties relevant to that matter.

The application and the Attorney General's letter have been placed in the Commission's Public Document Room, 1717 H Street NW., Washington, DC. As they become available, the transcripts of the prehearing conference and of the hearing will also be placed in the Commission's Public Document Room, where they will be available for inspection by members of the public. Copies of all of the foregoing documents will also be available at the Grace Dow Memorial Library, 1710 West Street, Andrews Road, Midland, MI.

Any person who wishes to make an oral or written statement in this proceeding setting forth his position on the issues specified, but who has not filed a petition for leave to intervene, may request permission to make a limited appearance pursuant to the provisions of 10 CFR 2.715 of the Commission's rules of practice. Limited appearances will be permitted at the time of the hearing in the discretion of the Board, within such limits and on such conditions as may be fixed by the Board. Persons desiring to make a limited appearance are requested to inform the Secretary of the Commission, U.S. Atomic Energy Commission, Washington, D.C. 20545, not later than thirty (30) days from the date of publication of this notice in the FEDERAL REGISTER. A person permitted to make a limited appearance does not become a party, but may state his position and raise questions which he would like to have answered to the extent that the questions are within the scope of the hearing as specified hereinabove. A member of the public does not have the right to participate in the proceeding unless he has been granted the right to intervene as a party or the right of limited appearance.

In the event that the Board grants either or both pending petitions to intervene, persons permitted to intervene shall become parties to the proceeding, and shall have all the rights of the applicant and the regulatory staff to participate fully in the conduct of the hearing.

An answer to this notice, pursuant to the provisions of 10 CFR 2.705 of the Commission's rules of practice, must be filed by the applicant not later than twenty (20) days from the date of publication of this notice in the FEDERAL REGISTER.

Papers required to be filed in this proceeding may be filed by mail or telegram addressed to the Secretary of the Commission, U.S. Atomic Energy Commission, Washington, D.C. 20545, Attention: Chief, Public Proceedings Branch, 1717 H Street NW., Washington, DC. Pending further order of the Board, parties are required to file, pursuant to the provisions of 10 CFR 2.708 of the Commission's rules of practice, an original and 20 conformed copies of each such paper with the Commission.

With respect to this proceeding, the Commission has delegated to the Atomic Safety and Licensing Appeal Board the authority and the review function which would otherwise be exercised and performed by the Commission. The Commission has established the Appeal Board pursuant to 10 CFR 2.785 of the Commission's rules of practice, and has made the delegation pursuant to paragraph (a)(1) of that section. The Appeal Board for this proceeding will be composed of the Chairman and two members designated in a subsequent Commission notice (10 CFR 2.787).

Dated at Germantown, Md., this 11th day of April, 1972.

UNITED STATES ATOMIC ENERGY COMMISSION,
F. T. HOBBS,
Acting Secretary of the Commission.

[FR Doc.72–5942 Filed 4–18–72;8:51 am]

[1] The instant application is covered by section 105c(8) of the Act pursuant to which a construction permit may be issued for certain applications filed with the Commission prior to Dec. 19, 1970, subject to subsequent antitrust review under section 105c.

[Docket No. 50–406]

TUSKEGEE INSTITUTE

Notice of Receipt of Application for Construction Permit and Facility License

The Tuskegee Institute in Tuskegee, Ala., has filed an application dated March 14, 1972, pursuant to section 104.c of the Atomic Energy Act of 1954, as amended, for the necessary licenses to receive, construct, and operate the AGN-201 (Serial No. 102) nuclear reactor presently located at the Oklahoma State University in Stillwater, Okla., and to receive the fuel for the facility. The reactor will be constructed on Tuskegee's campus in Tuskegee, Ala., and is proposed for operation at a power level of 100 milliwatts for educational training and research.

A copy of the application is available for public inspection in the Atomic Energy Commission's Public Document Room at 1717 H Street NW., Washington, DC.

Dated at Bethesda, Md., this 10th day of April 1972.

For the Atomic Energy Commission.

DONALD J. SKOVHOLT,
Assistant Director for Reactor Operations, Division of Reactor Licensing.

[Docket No. 50–267]

PUBLIC SERVICE COMPANY OF COLORADO

Notice of Availability of Draft Environmental Statement

Pursuant to the National Environmental Policy Act of 1969 and the regulations of the Atomic Energy Commission ("the Commission") in 10 CFR Part 50, Appendix D, notice is hereby given that a Draft Environmental Statement related to the proposed issuance of an operating license to the Public Service Company of Colorado for the Fort St. Vrain Nuclear Generating Station located near Platteville in Weld County, Colo., has been prepared and has been made available for public inspection in the Commission's Public Document Room at 1717 H Street NW., Washington, DC, and in the Greeley Public Library, City Complex Building, Greeley, Colo. 80631. The Draft Environmental Statement is also being made available to the public at the Office of the Executive Director, Department of Local Affairs, Room 208, 1550 Lincoln Street, Denver, Colo. 80203.

Notices of the availability of the applicant's Environmental Report and Supplement No. 1 thereto were published in the FEDERAL REGISTER on June 22, 1971 (36 F.R. 11878) and on January 7, 1972 (37 F.R. 236), respectively.

Copies of the Commission's Draft Environmental Statement may be obtained upon request addressed to the U.S. Atomic Energy Commission, Washing-

V 37 7 76
APR 19 72
XUM

ton, D.C. 20545, Attention: Director, Division of Radiological and Environmental Protection.

Pursuant to Appendix D to 10 CFR Part 50, interested persons may, within seventy-five (75) days from the date of publication of this notice in the FEDERAL REGISTER, submit comments for the Commission's consideration on the Environmental Report, Supplement No. 1, the Draft Environmental Statement, and on the proposed issuance of an operating license for the Fort St. Vrain Nuclear Generating Station. In addition, interested persons may, within thirty (30) days from the date of publication of this notice in the FEDERAL REGISTER, submit comments for the Commission's consideration on the Environmental Report, Supplement No. 1, the Draft Environmental Statement, and on whether the construction permit authorizing construction of Fort St. Vrain Nuclear Generating Station should be continued, modified, terminated, or appropriately conditioned to protect environmental values.

Federal and State agencies are being provided with copies of the Draft Environmental Statement (local agencies may obtain these documents on request); and when comments of the Federal, State, and local officials are received, they will be made available for public inspection at the above-designated locations. Comments on the Draft Environmental Statement from interested members of the public should be addressed to the U.S. Atomic Energy Commission, Washington, D.C. 20545, Attention: Director, Division of Radiological and Environmental Protection.

Dated at Bethesda, Md., this 17th day of April 1972.

For the Atomic Energy Commission.

ROGER S. BOYD,
Assistant Director for Boiling Water Reactors, Division of Reactor Licensing.

CIVIL AERONAUTICS BOARD

[Docket No. 24402; Order 72-4-49]

EASTERN AIR LINES, INC.

Order of Investigation and Suspension Regarding Weekend Excursion Fares

Adopted by the Civil Aeronautics Board at its office in Washington, D.C., on the 11th day of April 1972.

By tariff revisions[1] marked to become effective April 14, 1972, Eastern Air Lines, Inc. (Eastern) proposes to extend its North to Florida weekend excursion fares to an additional 21 points, to permit travel on Saturday and Sunday (as well as Friday and Monday), and to provide discounts for youths 12 through 18 years of age. Eastern also proposes to establish somewhat similar weekend fares in approximately 200 markets not involving Florida points (which it calls "nonvacation" markets).[2]

The proposed North to Florida weekend excursion fares are essentially the same as existing weekend excursion fares applicable during the spring and fall from selected northeast points to Florida—common fared at $92.59 (plus tax),[3] and result in discounts ranging from 17 to 50 percent below regular round-trip coach fares, as compared to 17 to 40 percent for existing weekend excursion fares from northeast points to Florida. The additional fares are applicable only during the spring (April 14–July 3) and fall (September 1–December 18) seasons, whereas the existing fares from east coast points are also applicable during July and August at a slightly higher level. The proposed discount for accompanied children 12 to 18 years is 75 percent of the adult excursion fare (children 2–12 years would continue to pay 50 percent of the adult fare).

The nonvacation weekend excursion fares are proposed from Boston, New York, Philadelphia, Baltimore/Washington, Atlanta, and Chicago, on the one hand, to numerous other cities (except points in Florida) on the other. The proposed fares were constructed by taking 50 percent of the regular round-trip coach fare and adding $9.26 ($10 tax inclusive). The resulting discounts range from 21 percent in short-haul markets up to 47 percent in transcontinental markets, with the corresponding yields ranging from 13.8 to 3.2 cents per mile. The conditions of travel are the same as those which would apply to the North to Florida weekend fares. However, the nonvacation market fares would apply during the peak summer period at the same level as during the spring and fall periods, whereas the North to Florida fares are blacked out during the peak summer period from midwest points, and are approximately 10 percent higher from eastern U.S. points.

In justification of the proposed revisions in its North to Florida weekend tariff Eastern alleges that the fares were a great success during the fall of 1971. The carrier claims that during the 12 weekend periods the fares were in effect 24,010 passengers (or 2,000 per weekend) used the fares, and that based on a 60/40 percent generation/diversion ratio, this resulted in a revenue increase of $926,584 and a net contribution of $638,464.

Based on its experience in 1971, Eastern estimates that 45,700 adult passengers and 2,513 children passengers will be carried during the spring and fall periods of 1972. Assuming the same 60/40 generation/diversion ratio experienced in 1971, the proposed fares will allegedly produce revenues of $2.1 million and a net contribution of $1.5 million. The carrier also estimates that there will be an additional revenue increase of $500,000 and a net contribution of $350,000 from summer weekend fares in the northeast to Florida markets.

Braniff Airways, Inc. (Braniff), National Airlines, Inc. (National), and Northwest Airlines, Inc. (Northwest), have filed complaints requesting suspension and investigation.[4] All three complainants oppose the 25-percent discount (from the weekend fare) for children 12–18 years of age; Braniff and National oppose the expansion of applicable travel days to include Saturday and Sunday; and Braniff also opposes the expansion of the fares to additional markets and the common faring principle applied.

One or more of the complainants allege that the proposed 25-percent discount for children 12 through 18 years of age is a discount on a discount which produces uneconomic yields; challenge the reliability of Eastern's in-flight survey of its 1971 North to Florida passengers; and question the validity of applying the same generation/diversion ratio to the proposed fares since Eastern proposes to double the applicable travel days. Braniff alleges that on 3 of the 4 weekend days it experiences its highest load factor, and that if the fares are as successful as Eastern predicts regular-fare passengers will be displaced.

In answer to the complaints, Eastern alleges that the 1971 survey on which it relies was not an on-board survey as assumed by the complainants, but a telephone interview similar in structure to that conducted by Eastern in Phase 5 of the Domestic Passenger-Fare Investigation; that the addition of Saturday and Sunday as travel days will not significantly increase usage over that previously experienced because nearly any weekend round-trip traveler would have found Friday/Saturday and Sunday/Monday interchangeable travel days; and that if a Saturday morning traveler, for example, was going to be diverted to the fare he would already have been diverted by the availability of the fare on Friday evening.

In support of the nonvacation market weekend fares Eastern alleges that the proposal is an experiment to extend a proven, successful concept to a heretofore untapped source of incremental revenue. The carrier states that information from its survey indicates that a major component (55 percent) of weekend fare passengers travel for personal reasons, i.e., to visit with friends and relatives. The carrier contends that, inasmuch as its weekend fare program to Florida has been so successful, it can be assumed that the weekend fares in nonvacation markets will be generative as well. Eastern estimates that 30,334 adult and 1,682 children passengers will use the proposed fares, or approximately 2 percent of the round-trip coach traffic in applicable markets, and that assuming 55/45 generation/diversion ratio a net revenue increase of $638,506 and a net contribution of $267,826 will result.

American Airlines, Inc. (American), Braniff, Delta, Northwest, Trans World Airlines, Inc. (TWA),[5] and United Air Lines, Inc. (United), have filed complaints against the proposal requesting suspension and investigation.[6] In summary, one or more of the complainants allege that use of the North to Florida experience as a basis for projecting traffic generation in entirely different types of markets is not necessarily valid; that Eastern's estimate of the impact of the fares is unrealistic; that the proposal is inconsistent with Eastern's position in the passenger-fare investigation, particularly with respect to the favorable generation/diversion ratio and the fact that the fares would apply in many short haul markets; that the fares will require the addition of capacity or will result in the displacement of full fare traffic; and that the fares are unreasonably low, and not reasonably related to other discount fares now in effect. The complainants also allege that Eastern is a minimal participant in many of the markets, and that they will bear the risk of the experiment. Finally, the complainants allege that Eastern's traffic submission in Phase 6 indicates that it experiences its worst peaking problems at the major hubs on Fridays and Sundays, where it now proposes to implement the low fares.

Eastern has answered the complaints alleging that its estimate of traffic generation/diversion is rationally constructed from a reliable passenger survey and constitutes a reasonable marketing forecast; that the forecast usage of the fares is based on its actual experience under an identical fare concept, adjusted to reflect the different nature of the markets, and taking into consideration the greater discounts, and the short-haul markets involved; and that the suggestions that its survey is unreliable because a different generation level was found in the survey conducted by Eastern in Phase 5 of the fare investigation are misleading since the proposed fares are quite different from those surveyed in the investigation.

Eastern also contends that the deep discounts proposed are specifically related to the type of travel sought to be generated and result in reasonable fares; that the test of illegality is not availability on peak days but whether the generated traffic is likely to result in additional capacity requirements; and that its proposed fares will not affect capacity in any way. Finally, Eastern alleges that it will be bearing the risk in nearly every one of the markets involved.

Upon consideration of the tariff proposals, the complaints and answers thereto, and other relevant matters, the Board finds that the proposed "nonvacation" market weekend excursion fares and the proposed 25-percent discount from the adult weekend fare for children 12 through 18 years of age may be unjust, unreasonable, unjustly discriminatory, unduly preferential, unduly prejudicial, or otherwise unlawful, and should be investigated. The Board has also concluded that the fares should be suspended pending investigation. The Board finds that on the basis of the facts and information before us, the complaints do not set forth sufficient facts to warrant investigation of the other proposed revisions to the North to Florida weekend tariff and the requests therefor, and consequently the requests for suspension will be denied and the complaints dismissed.

With respect to the North to Florida weekend fares, we believe there may be merit to the proponent's contention that many weekend travelers would find Friday/Saturday and Sunday/Monday to be interchangeable travel days, and that most potential diversion of weekend travelers will probably occur with or without the Saturday/Sunday applicability. To the extent this is true, the extended application should tend to spread the newly generated travel over more flights and alleviate traffic peaking. The proposed expansion to the additional markets appears warranted in light of the successful results of these fares last fall. Regarding the proposed 25-percent discount for children 12 through 18, we believe there is a sufficient question of reasonableness of the fares which would result to warrant suspension pending investigation. Although the tariffs presently provide for a discount of 50 percent of the weekend fare for children 2 through 11, the proposal would expand the concept of discounts on already greatly discounted fares (up to 50 percent of the normal coach fare) to a potentially substantial number of passengers.

Turning to the fares in the nonvacation markets, our decision to suspend is based on the cumulative impact of a number of factors. First, over the years the carriers have frequently reiterated that Florida markets differ from other markets in a number of allegedly significant respects, and have used the unique nature of the market in justification for a number of special Florida fares. Nevertheless, Eastern now justifies its "nonvacation" fares substantially on the basis of its experience in the Florida market, although by characterizing the markets as nonvacation it would appear to recognize their different nature. It is true that Eastern made some adjustment in estimating the generative versus diversionary impact of the fares in the nonvacation markets. However, in our opinion, there is considerable doubt that the diversion factor in nonvacation markets will be as similar to Eastern's experience in the highly tourist Florida markets as the carrier assumes.

Additionally, the fares are proposed to apply during the summer months which constitute the peak season for at least some carriers who would be competitively affected by Eastern's proposal. While some of the particular markets involved may not be subject to the degree of traffic peaking as is experienced in a truly vacation oriented market, the summer period is generally acknowledged to be the industry's peak season (except in the Florida markets). Moreover, while the summer may be off-season from the standpoint of Eastern's domestic system as a whole, the carrier has not demonstrated that it is off-season in the particular markets involved in the proposal. In the absence of adequate load factor data from either the proponent or the complainants, the Board is unable to state with certainty that the fares would create pressure on capacity, were they permitted to become effective. By the same token, we are unable to reach a contrary conclusion.

The Board has previously questioned the soundness over the longer term of encouraging discount fare travel of the very low yield type here involved during peak seasons. Traffic peaking is an inherent problem in the domestic airline industry today, with or without the stimulus of discount fares. To the extent that a significant volume of discount fare traffic can be accommodated on peak demand services, a very real question may be raised as to the volume of capacity being offered. In any event, the carriers have a clear responsibility, which in our opinion has not been met here, to demonstrate that traffic generated by fares of the type here proposed will in fact be accommodated on existing frequencies, particularly considering the very low level of the fares, the extent to which the fares differ from the historical pattern of fares in the markets, and the possible substantial impact on competing carriers.

All of Eastern's major competitors strongly protest the proposal on the ground that each will stand to be exposed to substantial financial risk if the experiment is permitted to become effective. Although the potential risk to competing carriers does not appear as extreme as in the case of an earlier proposal which was suspended by the Board,[7] it nevertheless can be expected to be substantial, notwithstanding Eastern's allegations to the contrary. While we do not mean to place undue emphasis on market share, per se, we would be reluctant to subject the competing carriers to significant financial risk from a proposal we have found may be unreasonable.

Accordingly, pursuant to the Federal Aviation Act of 1958, and particularly sections 204(a), 403, 404, and 1002 thereof,

It is ordered, That:

1. An investigation be instituted to determine whether the fares and provisions described in Appendix A hereto,[8] and rules, regulations, or practices affecting such fares and provisions, are or will be unjust, unreasonable, unjustly discriminatory, unduly preferential, unduly prejudicial, or otherwise unlawful, and if found to be unlawful, to determine and

[1] Revisions to Eastern's Tariff CAB No. 373.

[2] Various carriers have filed defensive tariffs.

[3] The proposed fares for Minneapolis and Omaha are slightly higher.

[4] Delta Air Lines, Inc. (Delta), filed an answer in support of these complaints.

[5] TWA's complaint was limited to the application of the fares in selected transcontinental markets, all of which have been withdrawn.

[6] American also filed a complaint against a defensive tariff filed by Delta which Delta has answered, and Southern Airways, Inc. (Southern), filed an answer in support of the various complaints.

[7] Order 71-1-145, Jan. 29, 1971.

[8] Partial dissenting statement of Minetti and Murphy, members, and Appendix A filed as part of the original document.

FEDERAL REGISTER, VOL. 37, NO. 76—WEDNESDAY, APRIL 19, 1972

V 37-76 APR 19 72 XUM

prescribe the lawful fares and provisions, and rules, regulations, or practices affecting such fares and provisions;

2. Pending hearing and decision by the Board, the fares and provisions described in Appendix A hereto [4] are suspended and their use deferred to and including July 12, 1972, unless otherwise ordered by the Board, and that no changes be made therein during the period of suspension except by order or special permission of the Board;

3. Except to the extent granted herein, the complaints in Dockets 24294, 24295, 24296, 24299, 24302, 24304, 24307, and 24330 are hereby dismissed;

4. The proceeding ordered herein be assigned for hearing before an Examiner of the Board at a time and place hereafter to be designated; and

5. Copies of this order be filed in the aforesaid tariffs and be served upon American Airlines, Inc., Braniff Airways, Inc., Delta Air Lines, Inc., Eastern Air Lines, Inc., National Airlines, Inc., Northeast Airlines, Inc., Northwest Airlines, Inc., Southern Airways, Inc., Trans World Airlines, Inc., and United Air Lines, Inc., which are hereby made parties to this proceeding.

This order will be published in the FEDERAL REGISTER.

By the Civil Aeronautics Board.

[SEAL] HARRY J. ZINK, *Secretary.*

[FR Doc.72-5948 Filed 4-18-72;8:51 am]

[Docket No. 24409; Order 72-4-67]

EASTERN AIR LINES, INC., ET AL.

Order of Investigation and Suspension Regarding Advance Ticketing Rule

Adopted by the Civil Aeronautics Board at its office in Washington, D.C., on the 14th day of April 1972.

By tariff revisions [1] marked to become effective April 15, 1972, Eastern Air Lines, Inc. (Eastern), National Airlines, Inc. (National), and Northeast Airlines, Inc. (Northeast), have filed tariff revisions proposing to reestablish advance ticketing requirements in the northeast U.S.-Florida market for the 1972/1973 Christmas/New Year holiday season. The proposed rules require tickets to be purchased from 1 hour to 12 weeks in advance of departure depending on how far in advance reservations are made. The only justification in support of the filings is a statement that the proposed rule is the same as that approved last year.

No complaints have been filed.

Upon consideration of the tariff filings and other relevant matters the Board concludes that the proposed advance ticketing rule may be unjust or unreasonable, or unjustly discriminatory, or unduly preferential, or unduly prejudicial, or otherwise unlawful, and should be investigated. We further conclude that they should be suspended pending investigation.

We recognize that the proposed advance ticketing rule is the same as has been utilized for the past 2 years. Nevertheless, the carriers have made substantial improvements in their reservations systems, and have improved their ability to eliminate duplicate bookings.[2] The carriers have not made any showing as to the extent of protection bookings that may still exist, nor that there continues to be any necessity to have such stringent provisions as proposed—particularly the 8- and 12-week prepayment requirements. Finally, the Board has previously stated that it expects the carriers to continue to explore other means of resolving the peak-period reservation problem that would be less burdensome to persons who are not responsible for the problem, and there is no showing that any effort to do so has been made.

Accordingly, pursuant to the Federal Aviation Act of 1958, and particularly sections 204, 403, 404, and 1002 thereof,

It is ordered, That:

1. An investigation be instituted to determine whether the provisions of Rule 65 on Original Page 20–A of Airline Tariff Publishers, Inc., agent's SAB No. 142, and rules, regulations, or practices affecting such provisions, are or will be unjust, unreasonable, unjustly discriminatory, unduly preferential, unduly prejudicial, or otherwise unlawful, and if found to be unlawful, to determine and prescribe the lawful provisions, and rules, regulations, or practices affecting such provisions;

2. Pending hearing and decision by the Board, Rule 65 on Original Page 20–A of Airline Tariff Publishers, Inc., agent's CAB No. 142 is suspended and its use deferred to and including July 13, 1972, unless otherwise ordered by the Board, and that no changes be made therein during the period of suspension except by order or special permission of the Board;

3. The investigation ordered herein be assigned before an Examiner of the Board at a time and place hereafter to be designated; and

4. Copies of this order be filed with the aforesaid tariff and be served upon Eastern Air Lines, Inc., National Airlines, Inc., and Northeast Airlines, Inc., which are hereby made parties to this proceeding.

This order will be published in the FEDERAL REGISTER.

By the Civil Aeronautics Board.

[SEAL] HARRY J. ZINK, *Secretary.*

[FR Doc.72-5949 Filed 4-18-72;8:52 am]

[Docket No. 23333; Order 72-4-28]

INTERNATIONAL AIR TRANSPORT ASSOCIATION

Order Regarding Specific Commodity Rates

Issued under delegated authority April 7, 1972.

An agreement has been filed with the Board pursuant to section 412(a) of the Federal Aviation Act of 1958 (the Act) and Part 261 of the Board's Economic Regulations, between various air carriers, foreign air carriers, and other carriers, embodied in the resolutions of Traffic Conference 1 of the International Air Transport Association (IATA). The agreement, which has been assigned the above-designated CAB agreement number.

The agreement would extend through September 30, 1973, the effectiveness of the following resolutions, which govern certain Western Hemisphere cargo rates and related matters and which would otherwise expire on September 30, 1972:

Resolution 014b—Construction rule for cargo rates.
Resolution 014z—Computer constructed rates.
Resolution 045c—Involuntary change of routing of cargo from Chartered Aircraft to Scheduled Service.
Resolution 502—Low density cargo.
Resolution 507b—Use of surface transportation.
Resolution 521—Use of unit load devices.
Resolution 531—TC1 bulk unitization charges.
Resolution 551—TC1 general cargo rates.

Pursuant to authority duly delegated by the Board, in the Board's regulations, 14 CFR 385.14, it is not found, on a tentative basis, that Resolution 100 (Mail 891) 002x, which is incorporated in Agreement CAB 22970, is adverse to the public interest or in violation of the Act.

Accordingly, it is ordered, That:

Action on Agreement CAB 22970 be and hereby is deferred with a view toward eventual approval.

Persons entitled to petition the Board for review of this order pursuant to the Board's regulations, 14 CFR 385.50, may, within 10 days from the date of service of this order, file such petitions in support of or in opposition to our proposed action herein.

This order will be published in the FEDERAL REGISTER.

[SEAL] HARRY J. ZINK, *Secretary.*

[FR Doc.72-5950 Filed 4-18-72;8:51 am]

[Docket No. 24404; Order 72-4-53]

5 STAR AIR FREIGHT CORP.

Order of Investigation and Suspension

Adopted by the Civil Aeronautics Board at its office in Washington, D.C., on the 12th day of April 1972.

By tariff revisions filed March 14, and marked to become effective April 14, 1972, 5 Star Air Freight Corp. (5 Star), an air freight forwarder, proposes, inter alia, to increase its fees for collecting and remitting sums resulting from c.o.d. shipments. The forwarder's current fees are 1 cent per dollar subject to a minimum charge of $2 per c.o.d. collection, which applies to amounts collected of $200 or less. The proposed minimum is $2.50 for collecting $40 or less. For larger collections, the proposed fees would increase in accordance with a schedule based upon the amount to be collected, which vary by increments ranging from $2 to $50, a sample of which is presented below:

When the amount to be collected is—	The c.o.d. fee will be—	
	Under the current formula	Under the proposed table
$40 or less	$2.00	$2.50.
100	2.00	3.75.
200	2.00	6.00.
300	3.00	6.50.
500	5.00	7.50.
700	7.00	8.50.
950	9.50	9.75.
1,000 and over	1 cent per dollar or fraction thereof.	$10 per $1,000 or fraction thereof.

The proposed fees would range to as much as 200 percent above the currently applicable fees.

Upon consideration of all relevant factors, the Board finds that the fees proposed by 5 Star may be unjust, unreasonable, unjustly discriminatory, unduly preferential, unduly prejudicial, or otherwise unlawful, and should be investigated. The Board further concludes that the proposed rates should not be permitted to become effective pending investigation, and the tariff filing will be suspended.[1]

The forwarder's proposal would result in c.o.d. fees considerably above those in effect for most other freight forwarders, as well as all direct carriers. At present, most freight forwarders quote a minimum charge of $2 per collection, which applies variously to amounts up to and including $100 and $200. For above-minimum collections certain of these forwarders charge 1 cent per dollar (identical to 5 Star's current fees) and other forwarders charge according to designated fee schedules, higher than the above fees but lower than those proposed by 5 Star. All direct carriers have a minimum of $1 per collection and a fee of $0.50 per $100 or fraction thereof.

5 Star's justification of its higher fees is altogether inadequate. The forwarder does not present any factual support of its proposal, merely stating that it is intended "to increase c.o.d. to a reasonable and compensatory basis, and to clarify the c.o.d. rules," and to make the service competitive and nondiscriminatory. Neither does the forwarder make any showing that the current c.o.d. fees are unduly low and that the proposed rates would be reasonable.[2] Furthermore, the Board does not consider the fact that a carrier has domestic c.o.d. fees lower than international fees a significant factor justifying increasing the domestic level.

Accordingly, pursuant to the Federal Aviation Act of 1958, and particularly sections 204(a) and 1002 thereof,

It is ordered, That:

1. An investigation be instituted to determine whether the charges and provisions in Rule No. 105 on Second Revised Page 10 and Second Revised Page 11 of CAB No. 1 and Rule No. 80 on Second Revised Page 8 and Second Revised Page 9 of CAB No. 2 issued by 5 Star Air Freight Corp., and rules, regulations, or practices affecting such charges and provisions, are, or will be, unjust, unreasonable, unjustly discriminatory, unduly preferential, unduly prejudicial, or otherwise unlawful, and if found to be unlawful, to determine and prescribe the lawful charges and provisions and rules, regulations, or practices affecting such charges and provisions;

2. Pending hearing and decision by the Board, Rule No. 105 of Second Revised Page 10 and Second Revised Page 11 of CAB No. 1 and Rule No. 80 on Second Revised Page 8 and Second Revised Page 9 of CAB No. 2 issued by 5 Star Air Freight Corp., are suspended and their use deferred to and including July 12, 1972, unless otherwise ordered by the Board, and that no changes be made therein during the period of suspension except by order or special permission of the Board;

3. The proceeding herein, designated Docket 24404, be assigned for hearing before an Examiner of the Board at a time and place hereafter to be designated; and

4. A copy of this order shall be filed with the tariff and served upon 5 Star Air Freight Corp., which is hereby made a party to Docket 24404. This order shall be published in the FEDERAL REGISTER.

By the Civil Aeronautics Board.

FEDERAL MARITIME COMMISSION

CALIFORNIA ASSOCIATION OF PORT AUTHORITIES

Notice of Agreement Filed

Notice is hereby given that the following agreement has been filed with the Commission for approval pursuant to section 15 of the Shipping Act, 1916, as amended (39 Stat. 733, 75 Stat. 763, 46 U.S.C. 814).

Interested parties may inspect and obtain a copy of the agreement at the Washington office of the Federal Maritime Commission, 1405 I Street NW., Room 1015; or may inspect the agreement at the Field Offices located at New York, N.Y., New Orleans, La., and San Francisco, Calif. Comments on such agreements, including requests for hearing, may be submitted to the Secretary,

[1] Revisions to Airline Tariff Publishers, Inc., agent, Tariff CAB No. 142.

[2] Also, Eastern claims that its conditional reservation rule has proven to be successful in alleviating the no-show problem.

[4] Filed as part of the original document.

[1] The carrier also proposes to revise its rules for collecting c.o.d. fees, with respect to such matters as documentation and exclusion of service for such items as shipments moving under assembly and distribution service, shipments on which the total amount to be collected on delivery exceeds $50,000, etc. The revised rules are essentially the same as those of the direct carriers and do not appear, prima facie, unreasonable.

[2] See Order 70-6-26, June 3, 1970, and Order 69-9-50, September 9, 1969, in which the Board suspended increased c.o.d. charges proposed by Shulman Air Freight and Scott Air Freight, Inc., respectively, on the ground of lack of justification. See also Increased Valuation and C.O.D. Charges Proposed by Railway Express Agency, Inc., 27 C.A.B. 542 (1958), in which the Board, after investigation, held the proposed increases in c.o.d. and other charges unjust and unreasonable, chiefly on the ground that the Railway Express Agency had failed to sustain the burden of coming forward with evidence justifying the proposed increases.

V 37-76 APR 19 72 XUM

Federal Maritime Commission, Washington, D.C. 20573, within 20 days after publication of this notice in the FEDERAL REGISTER. Any person desiring a hearing on the proposed agreement shall provide a clear and concise statement of the matters upon which they desire to adduce evidence. An allegation of discrimination or unfairness shall be accompanied by a statement describing the discrimination or unfairness with particularity. If a violation of the Act or detriment to the commerce of the United States is alleged, the statement shall set forth with particularity the acts and circumstances said to constitute such violation or detriment to commerce.

A copy of any such statement should also be forwarded to the party filing the agreement (as indicated hereinafter) and the statement should indicate that this has been done.

Notice of agreement filed by:

Mr. C. R. Nickerson, Executive Secretary, California Association of Port Authorities, 9 First Street, San Francisco, CA 94105.

Agreement No. 7345–16, between the members of the California Association of Port Authorities, modifies the basic agreement which provides for the establishment and maintenance of just and reasonable rates, rules, and regulations at members' terminals at ports in the State of California. The modification provides for (1) the amending of Articles 10, 14, 16, 18, and 20 of the agreement to change the title of "Secretary" to "Executive Secretary"; (2) the addition of a new subparagraph (e) to Article 3 of the agreement to provide that all actions, including tariff changes, taken by the committee on Tariffs and Practices and by the Traffic Committee of Operating Members shall be in accordance with the agreement and with procedures adopted by the Committees, approved by the Association, and filed with the Commission; (3) the addition of a new subparagraph (e) to Article 18 of the agreement to provide that the two traffic committees shall conduct their business in regular or special meetings, or in meetings by telephone or by correspondence in accordance with procedures adopted by the committees, approved by the Association, and filed with the Commission; (4) the amending of Article 19 of the agreement to provide that a quorum of the two traffic committees shall consist of not less than two-thirds of the entire membership of the respective committees; and (5) the amending of Article 20 of the agreement to provide that the vote of a member of the Association shall be cast at a meeting of the Association or at a committee meeting by the accredited delegate or alternate representative or by the holder of a written proxy from such member.

Dated: April 12, 1972.

By order of the Federal Maritime Commission.

FEDERAL POWER COMMISSION

[Project 2570]

OHIO POWER CO.

Notice of Availability of Environmental Statement for Inspection

APRIL 14, 1972.

Notice is hereby given that on February 3, 1972, as required by § 2.81(b) of Commission regulations under Order 415–B (36 F.R. 22738, November 30, 1971) a draft environmental statement containing information comparable to an agency draft statement pursuant to section 7 of the Guidelines of the Council on Environmental Quality (36 F.R. 7724, April 23, 1971) was placed in the public files of the Federal Power Commission.

This statement deals with an application for license by Ohio Power Co. for unconstructed hydroelectric Racine Project No. 2570 filed pursuant to the Federal Power Act.

This statement is available for public inspection in the Commission's Office of Public Information, Room 2523, General Accounting Office, 441 G Street NW., Washington, DC. Copies will be available from the National Technical Information Service, Department of Commerce, Springfield, Va. 22151.

The project which would be located on the Ohio side of the U.S. Racine Locks and Dam in Meigs County, Ohio, and Mason County, W. Va., on the Ohio River and would consist of an intake canal; a concrete powerhouse section containing 2–20 mw generating units; a tailrace; a 3.5-mile long double circuit 69-kv. transmission line; recreational facilities consisting of an overlook area with parking facilities, comfort station, picnic area, and fishing pier; and appurtenant facilities.

[Dockets Nos. CP72-33 and RP70-42]

NATURAL GAS PIPELINE COMPANY OF AMERICA

Notice of Amended Application

APRIL 17, 1972.

Take notice that on April 10, 1972, Natural Gas Pipeline Company of America (applicant), 122 South Michigan Avenue, Chicago, IL 60603, filed in Docket No. CP72-33 an amended application for a certificate of public convenience and necessity authorizing a 40,000 Mcf per day increase of service under applicant's FPC Rate Schedule S–2 and a one time sale of 3 Bcf of natural gas to Northern Illinois Gas Co., all as more fully set forth in the application which is on file with the Commission and open to public inspection. The resale customers receiving the additional storage service will relinquish 6 Bcf to Natural, of which 3 Bcf will be resold to NI, and 3 Bcf injected into Natural's storage fields.

Specifically, applicant and Northern Illinois have entered into an agreement whereby Northern Illinois agreed to reduce its withdrawal quantity under applicant's FPC Rate Schedule S–1 by 100,000 Mcf per day in return for additional sales to Northern Illinois of 3 Bcf above its curtailed level for the period of April through October 1972. The effect of this agreement is to allow both applicant and Northern Illinois to continue to fully develop and maximize their storage facilities. Through prudent storage programing, applicant will be able to offer to all of its customers except Northern Illinois additional Rate Schedule S–2 storage service equivalent to one hundred (100) days of service at 40,000 Mcf per day, thereby allowing its customers to attach additional firm space heating loads to which service is presently being denied.

Applicant's original application herein was filed on August 9, 1971, and was noticed on August 23, 1971. This amended application results from a conference of all parties hereto.

Good cause has been shown for a shorter than normal notice period. Protests or petitions to intervene may be filed with the Federal Power Commission, Washington, D.C. 20426, in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) and the regulations under the Natural Gas Act (157.10) on or before April 28, 1972.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by Sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this application if no protest or petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a protest or petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

KENNETH F. PLUMB,
Secretary.

FEDERAL OPEN MARKET COMMITTEE

Continuing Authority Directive With Respect to Domestic Open Market Operations

In accordance with § 271.5 of its rules regarding availability of information, notice is given that at its meeting on January 11, 1972, the Committee ratified the action taken by the members on December 23, 1971, to suspend, until close of business on the day of the next meeting, the lower limit (specified in paragraph 1(c) of the continuing authority directive with respect to domestic open market operations) on interest rates on repurchase agreements arranged by the Federal Reserve Bank of New York with nonbank dealers. The suspended provision specified that such repurchase agreements were to be made "at rates not less than (1) the discount rate of the Federal Reserve Bank of New York at the time such agreement is entered into, or (2) the average issuing rate on the most recent issue of 3-month Treasury bills, whichever is lower." (See 37 F.R. 3392.)

By order of the Federal Open Market Committee, February 3, 1972.

MURRAY ALTMANN,
Assistant Secretary.

[FR Doc.72-5923 Filed 4-18-72;8:49 am]

FEDERAL OPEN MARKET COMMITTEE

Current Economic Policy Directive of January 11, 1972

In accordance with § 271.5 of its rules regarding availability of information, there is set forth below the Committee's Current Economic Policy Directive issued at its meeting held on January 11, 1972.[1]

The information reviewed at this meeting suggests that real output of goods and services increased more rapidly in the fourth quarter than it had in the third quarter, but the unemployment rate remained high. In recent weeks wage and price developments have reflected some increases that had been deferred under the 90-day freeze. The narrowly defined money stock, which had not grown on balance from August to November, rose somewhat in December, while both the broadly defined money stock and the bank credit proxy increased substantially. Market interest rates, particularly short-term rates, have declined in recent weeks. After international agreement was reached in December on new central exchange rates and on wider margins of permissible variation, market exchange rates for major foreign currencies against the dollar initially moved to levels a little above their new lower limits. The volume of capital reflows to the United States has been modest, however, and the underlying U.S. balance of payments remains in deficit. In light of the foregoing developments, it is the policy of the Federal Open Market Committee to foster financial conditions consistent with the aims of the new governmental program, including sustainable real economic growth and increased employment, abatement of inflationary pressures, and attainment of reasonable equilibrium in the country's balance of payments.

To implement this policy, while taking account of international developments and the forthcoming Treasury financing, the Committee seeks to promote the degree of ease in bank reserve and money market conditions essential to greater growth in monetary aggregates over the months ahead.

The Committee ratified the action taken by the members on December 20, 1971, adding the clause "while taking account of international developments" at the end of the final sentence of the current economic policy directive then in effect (see 37 F.R. 3393).

By order of the Federal Open Market Committee, February 3, 1972.

MURRAY ALTMANN,
Assistant Secretary.

NATIONAL FUEL GAS CO. ET AL.

Notice of Proposed Issue and Sale of Debentures at Competitive Bidding by Holding Company and Related Intrasystem Transactions

APRIL 13, 1972.

Notice is hereby given that National Fuel Gas Co., 30 Rockefeller Plaza, New York, NY 10020 (National), a registered holding company, three of its gas utility subsidiary companies, Iroquois Gas Corp. (Iroquois), United Natural Gas Co. (United), and Pennsylvania Gas Co. (Penn), and a nonutility subsidiary company of National, The Sylvania Corp. (Sylvania), have filed an application-declaration and an amendment thereto with this Commission pursuant to the Public Utility Holding Company Act of 1935 (Act), designating sections 6(a), 6(b), 7, 9(a), 10, 12(b), and 12(f) of the Act and Rules 43, 45, and 50 promulgated thereunder as applicable to the proposed transactions. All interested persons are referred to the application-declaration, which is summarized below, for a complete statement of the proposed transactions.

National proposes to issue and sell, subject to the competitive bidding requirements of Rule 50 promulgated under the Act, $23,500,000 principal amount of __ percent Debentures, series due May 1997. The interest rate of the debentures (which shall be a multiple of one-eighth of 1 percent) and the price, exclusive of accrued interest, to be paid to National (which shall be not less than 99 percent nor more than 102 percent of the principal amount thereof) will be determined by the competitive bidding. The debentures will be issued under an indenture dated as of August 15, 1968, between National and Manufacturers Hanover Trust Co. as Trustee, as heretofore supplemented and as to be further supplemented by a Fourth Supplemental Indenture dated as of May 15, 1972. The debentures may not be redeemed prior to May 15, 1977, if such redemption is for the purpose or in anticipation of their refunding through the use, directly or indirectly, of funds borrowed by the company at an effective interest cost of less than the effective interest cost of the debentures. The proposed debentures are subject to a sinking fund of $587,500 on June 15 of each year from 1977 to 1996, inclusive.

National purposes to use the net proceeds from the sale of its debentures to acquire for cash $23,500,000 principal amount of unsecured long-term promissory notes from Iroquois ($18,400,000), Penn ($1,500,000) and Sylvania ($3,600,000). Concurrently, two of the subsidiary companies will prepay $13,500,000 of their outstanding short-term notes payable to National maturing December 31, 1972, as follows: Iroquois, $11 million; and Sylvania, $2,500,000. National will use the proceeds of these subsidiaries' note prepayments to prepay $13,500,000 of its notes payable to The Chase Manhattan Bank (N.A.), maturing December 31, 1972. The long-term notes to be issued and sold to National will mature on May 15, 1997, and will bear interest, payable semiannually, at a rate per annum equal to the effective cost of money incurred by National on its proposed sale of debentures, rounded up or down to the nearest one-tenth of 1 percent. The net proceeds derived from the sale of these long-term notes, together with funds available from current operations, will be used by the respective subsidiary companies to make additions to utility plant, to prepay short-term notes to National aggregating $13,500,000, and to increase and replenish working capital. The total cost of the 1972 plant expansion programs are estimated at $14,380,000 by Iroquois, $3,585,000 by Penn and $867,000 by Sylvania.

Iroquois, Penn, Sylvania, and United propose to issue and sell from time to time to the banks named below short-term promissory notes up to $8 million aggregate amount for Iroquois, $4 million for Penn, $2 million for Sylvania, and $7 million for United. Each such note will be dated as of the date of issue, will mature not later than 9 months thereafter, will bear interest at the prime commercial rate in effect on the issue date, and will be prepayable at any time, in whole or in part, without penalty or premium. Such 9 months' notes will amount to the following percentages of the principal amount and par value of the respective four companies' other securities outstanding as of December 31, 1971: Iroquois, 5.3 percent; United, 13.2 percent; Penn, 14.9 percent; and Sylvania, 50 percent. The proceeds derived from the sale of such short-term notes to banks will be used by Iroquois, United, Penn, and Sylvania to finance the cost of gas purchased and stored underground for current inventory purposes, and it is stated that such borrowings are expected to be repaid early in 1973 as gas is withdrawn from storage and sold.

The banks from which each company proposes to borrow, and the maximum amount to be outstanding with each bank, are as follows:

By Iroquois:	
Marine Midland Bank-Western, Buffalo, N.Y.	$3,760,000
Manufacturers & Traders Trust Co., Buffalo, N.Y.	3,600,000

By Order dated December 31, 1968 (Holding Company Act Release No. 16237), the Commission authorized National to issue and sell from time to time up to December 31, 1969 its commercial paper in amounts aggregating up to a maximum of $4 million at any one time outstanding, at an effective cost not to exceed the cost of equivalent borrowings from commercial banks; and on July 17, 1969 (Holding Company Act Release No. 16429), this authorization was extended to December 31, 1972. The proceeds of these commercial paper sales were loaned to Iroquois at National's actual cost of securing the funds pursuant to an Agreement between National and Iroquois, dated August 28, 1968. National now requests that the said authorization to issue and sell its commercial paper be extended through December 31, 1974, and Iroquois proposes to amend the Agreement of August 28, 1968 so as to extend the maturity date of its related Note to National from December 31, 1972 to December 31, 1974. The proposed $4 million of commercial paper amounts to approximately 2 percent of the principal amount and par value of National's other outstanding securities at December 31, 1971.

National also proposes that the certificates of notification under Rule 24, relating to the short-term borrowings, be filed on a quarterly basis.

The estimated fees and expenses to be paid by National in connection with the proposed debentures are $69,000, including counsel fees of $12,250. The fees and expenses of independent counsel for the underwriters, which are to be paid by the successful bidder, are estimated at $15,500. The fees and expenses in connection with the proposed notes are estimated at $4,150 for National, $5,440 for Iroquois, and $210 for Penn.

It is stated that the proposed issue and sale of long-term notes by Iroquois are subject to the jurisdiction of the Public Service Commission of New York; that the proposed issue and sale of long-term notes by Penn are subject to the jurisdiction of the Pennsylvania Public Utility Commission; and that no other State commission and no Federal commission, other than this Commission, has jurisdiction over the proposed transactions.

Notice is further given that any interested person may, not later than May 4, 1972, request in writing that a hearing be held on such matter, stating the nature of his interest, the reasons for such request, and the issues of fact or law raised by the filing which he desires to controvert; or he may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request should be served personally or by mail (airmail if the person being served is located more than 500 miles from the point of mailing) upon the applicants-declarants at the above-stated address, and proof of service (by affidavit or, in case of an attorney-at-law, by certificate) should be filed with the request. At any time after said date, the application-declaration, as amended or as it may be further amended, may be granted and permitted to become effective as provided in Rule 23 of the General Rules and Regulations promulgated under the Act, or the Commission may grant exemption from such rules as provided in Rules 20(a) and 100 thereof or take such other action as it may deem appropriate. Persons who request a hearing or advice as to whether a hearing is ordered will receive notice of further developments in this matter, including the date of the hearing (if ordered) and any postponements thereof.

For the Commission, by the Division of Corporate Regulation, pursuant to delegated authority.

[SEAL] RONALD F. HUNT, *Secretary.*

OHIO EDISON CO.

Notice of and Order for Hearing Regarding Proposed Acquisition of Utility Assets from Village of Hiram, Ohio

APRIL 13, 1972.

On March 20, 1972, the Commission issued a notice (Holding Company Act Release No. 17503) of an application filed by Ohio Edison Company, 47 North Main Street, Akron, OH 44308 (Ohio Edison), a registered holding company and an electric utility company, pursuant to sections 9(a) and 10 of the Public Utility Holding Company Act of 1935 (Act), regarding a proposal of Ohio Edison to acquire from the Village of Hiram, Ohio (Hiram), the electric utility system owned and operated by Hiram. Ohio Edison bid $675,000, plus the cost of net plant additions after April 1, 1971, for the Hiram system, such bid price having been submitted and accepted pursuant to an advertisement inviting bids for the Hiram utility system. The notice gave any interested person an opportunity to file a request in writing for a hearing on the matter accompanied by a statement as to the nature of his interest, the reason for such request, and the issues of fact or law proposed to be controverted.

Certain citizens of Hiram have filed in the form of a motion to intervene, a timely petition in opposition to the acquisition by Ohio Edison. It appears to the Commission that it is appropriate in the public interest and in the interest of investors and consumers that a public hearing be held with respect to the proposed transactions and that the application should not be granted except pursuant to further order of the Commission:

It is ordered, That a hearing be held herein on May 23, 1972, at 10 a.m., at the offices of the Securities and Exchange Commission, 500 North Capitol Street NW., Washington, DC 20549. On such date the Hearing Room Clerk will advise as to the room in which the hearing will be held.

It is further ordered, That a Hearing Examiner, hereafter to be designated, shall preside at said hearing. The officer so designated is hereby authorized to exercise all powers granted to the Commission under section 18(c) of the Act and to a hearing officer under the Commission's rules of practice.

It is further ordered, That particular attention be directed in the hearing to the following matters, without prejudice, however, to the presentation of additional matters upon further examination:

(a) Whether the proposed acquisition by Ohio Edison of the electric utility system of Hiram meets the standards of section 10 of the Act, and particularly the requirements of sections 10(b)(1), 10(b)(2), and 10(c)(2).

(b) Whether the accounting entries to be made in connection with the proposed transactions are proper and in accord with sound accounting principles.

(c) Whether the fees, commissions and other expenses to be incurred are for necessary services and reasonable in amount.

(d) What terms or conditions, if any, the Commission's order should contain.

(e) Generally, whether the proposed transactions are in all respects compatible with the provisions and standards of the applicable sections of the Act and of the rules and regulations promulgated thereunder.

V 37-76 APR 19 72 XUM

It is further ordered, That particular attention be directed at said hearing to the foregoing matters and questions.

It is further ordered, That any person, other than the applicant or those persons heretofore having filed a petition to intervene, desiring to be heard in connection with this proceeding or proposing to intervene therein shall file with the Secretary of the Commission on or before May 19, 1972, a written request relative thereto as provided in Rule 9 of the Commission's rules of practice. A copy of such request should be served personally or by mail (airmail if the person being served is located more than 500 miles from the point of mailing) upon the applicant at the above-stated address, and proof of service (by affidavit or, in case of an attorney-at-law, by certificate) should be filed with the request. Persons filing an application to participate or be heard will receive notice of any adjournment of the hearing as well as other actions of the Commission involving the subject matter of these proceedings.

It is further ordered, That the Secretary of the Commission shall give notice of the aforesaid hearing by mailing copies of this order by certified mail to Ohio Edison, to those persons heretofore having filed a petition to intervene, the City Council of Hiram, the Public Utilities Commission of Ohio, the U.S. Department of Justice, and the Federal Power Commission; and that notice to all other interested persons shall be given by a general release of the Commission and by publication of this order in the FEDERAL REGISTER.

By the Commission.

[SEAL] RONALD F. HUNT, *Secretary.*

SMALL BUSINESS ADMINISTRATION

[MESBIC License Application 04/04-5104]

URBAN VENTURES, INC.

Notice of Application for a License as a Minority Enterprise Small Business Investment Company

An application for a license to operate as a minority enterprise small business investment company (MESBIC) under the provisions of the Small Business Investment Act of 1958, as amended (15 U.S.C. 661 et seq.), has been filed by Urban Ventures, Inc. (applicant), with the Small Business Administration (SBA) pursuant to § 107.102 of the SBA rules and regulations governing small business investment companies (13 CFR § 107.102 (1971)).

The officers and directors of the applicant are as follows:

William A. Wynn, Jr., 1261 Little River Drive, Miami, FL 33147, President, Director.
Edward I. H. Bennett, 2451 Brickell Avenue, Miami, FL 33129, Secretary-Treasurer.
Charles E. Clark, c/o Knight Foundation, 1 Herald Plaza, Miami, FL 33132, Director.
Maurice Ferre, c/o Maule Industries, 100 North Biscayne Boulevard, Miami, FL 33132, Director.
Roy A. Perry, c/o City National Bank of Miami, Post Office Box 3280, Miami, FL 33101, Director.
Julius W. Phoenix, c/o Haskins & Sells, 100 Biscayne Tower, Miami, FL 33132, Director.
Charles Potter c/o Burdine's, 22 East Flagler Street, Miami, FL 33131, Director.
Garth Reeves, c/o National Industrial Bank, 6013 Northwest Seventh Avenue, Miami, FL 33127, Director.
James A. Ryder, c/o Ryder Systems, Inc., 2701 South Bayshore Drive, Miami, FL 33133, Director.
Bernard Shumate, c/o First National Bank of Miami, 100 South Biscayne Boulevard, Miami, FL 33131, Director.
Howard J. Trinz, c/o General Development Corp., 1111 South Bayshore Drive, Miami, FL 33131, Director.
Leonard Usina, c/o Peoples Group of Banks, 9499 Northeast Second Avenue, Miami, FL 33138, Director.
S. H. Wills, c/o Stuyvesant Insurance Co., 1105 Hamilton Street, Allentown, PA 18104, Director.
Sonny Wright, c/o Universal Real Estate, 4600 Northwest Seventh Avenue, Miami, FL 33127, Director.

The applicant, a Florida corporation with its principal place of business located at 825 South Bayshore Drive, Miami, FL 33131, will begin operations with $152,500 of paid-in capital, consisting of 152,500 shares of common stock issued to the following stockholders:

Burdine's, 22 East Flagler Street, Miami, FL 33131.
City National Bank of Miami, Post Office Box 3280, Miami, FL 33101.
First National Bank of Miami, 100 South Biscayne Boulevard, Miami, FL 33131.
General Development Corp., 1111 South Bayshore Drive, Miami, FL 33131.
Haskins & Sells, 100 Biscayne Tower, Miami, FL 33132.
Knight Foundation, 1 Herald Plaza, Miami, FL 33132.
Miami Times, 6530 Northwest 15th Avenue, Miami, FL 33127.
Maule Industries, 100 North Biscayne Boulevard, Miami, FL 33132.
National Industrial Bank, 6013 Northwest Seventh Avenue, Miami, FL 33127.
Peoples Group of Banks, 9499 Northeast Second Avenue, Miami, FL 33138.
Ryder Systems, Inc., 2701 South Bayshore Drive, Miami, FL 33133.
Stuyvesant Insurance Co., 1105 Hamilton Street, Allentown, PA 18104.

None of the foregoing stockholders owns 10 percent or more of the outstanding stock.

Applicant will not concentrate its investments in any particular industry. According to the company's stated investment policy, its investments will be made solely in small business concerns which will contribute to a well-balanced national economy by facilitating ownership in such concerns by persons whose participation in the free enterprise system is hampered because of social or economic disadvantages.

Matters involved in SBA's consideration of the applicant include the general business reputation and character of the proposed owners and management, and the probability of successful operation of the applicant under their management, including adequate profitability and financial soundness, in accordance with the Small Business Investment Act and the SBA rules and regulations.

Any interested person may, not later than 15 days from the date of publication of this notice, submit to SBA, in writing, relevant comments on the proposed MESBIC. Any such communication should be addressed to the Associate Administrator for Investment, Small Business Administration, 1441 L Street NW., Washington, DC 20416.

Dated: April 17, 1972.

A. H. SINGER, *Associate Administrator for Investment.*

TARIFF COMMISSION

[337-L-49]

ELECTRONIC PIANOS

Extension of Time for Filing Written Views

On March 30, 1972, the U.S. Tariff Commission published notice of the receipt of a complaint under section 337 of the Tariff Act of 1930, filed by Wurlitzer Co., Chicago, Ill., alleging unfair methods of competition and unfair acts in the importation and sale of certain electronic pianos (37 F.R. 6797). Interested parties were given until May 1, 1972, to file written views pertinent to the subject matter of a preliminary inquiry into the allegations of the complaint. The Commission has extended the time for filing written views until the close of business on May 11, 1972.

Issued: April 14, 1972.

By order of the Commission:

[SEAL] KENNETH R. MASON, *Secretary.*

NOTICE OF FILING OF MOTOR CARRIER INTRASTATE APPLICATIONS

APRIL 14, 1972.

The following applications for motor common carrier authority to operate in intrastate commerce seek concurrent motor carrier authorization in interstate or foreign commerce within the limits of the intrastate authority sought, pursuant to section 206(a)(6) of the Interstate Commerce Act, as amended October 15, 1962. These applications are governed by § 1.245 of the Commission's rules of practice, published in the FEDERAL REGISTER, issue of April 11, 1963, page 3533, which provides, among other things, that protests and requests for information concerning the time and place of State Commission hearings or other proceedings, any subsequent changes therein, any other related matters shall be directed to the State Commission with which the application is filed and shall not be addressed to or filed with the Interstate Commerce Commission.

Montana docket number unknown, filed March 28, 1972. Applicant: THORM R. FORSETH, 2547 Burlington, Billings, MT 59102. Applicant's representative: Hugh Sweeney, 301 Mutual Benefit Life Building, 2720 Third Avenue North, Billings, MT. Certificate of public convenience and necessity sought to operate a service as follows: Transportation of *Passengers, baggage, express, and newspapers* in the same vehicle with passengers between Billings, Mont., and Helena, Mont., over Highway 3 to the junction of said Highway with U.S. Highway 12, 1 mile to the north of Lavina; thence over U.S. Highway 12 to Helena, Mont., and return over the same route, with service to and from all intermediate points. Both intrastate and interstate authority sought.

HEARING: Date, time, and place unknown. Requests for procedural information including the time for filing protests concerning this application should be addressed to the Public Service Commission of the State of Montana, 1227 11th Avenue, Helena, MT, and should not be directed to the Interstate Commerce Commission.

Tennessee Docket No. MC 4470 (Sub-No. 9), filed March 24, 1972. Applicant: POTTER FREIGHT LINES, INC., Post Office Box 428, Sparta, TN 38583. Applicant's representative: James Clarence Evans, 1800 Third National Bank Building, Nashville, Tenn. 37219. Certificate of public convenience and necessity sought to operate a freight service as follows: Transportation of *general commodities*, excluding used household goods and commodities in bulk, in intrastate commerce and coextensively in interstate commerce as follows: Route description: Between Chattanooga and Knoxville, Tenn., over the following described routes: (1) Via U.S. Highway 11, and (2) via Interstate Highway 75, using such access routes as may be convenient between those portions of Interstate Highway 75 which are completed and U.S. Highway 11. Restricted against picking up or delivering at any intermediate point, but with this authority to be used in conjunction with all of applicant's other authority, present or future, by joinder or tacking. Applicant seeks coextensive interstate authority. Both intrastate and interstate authority sought.

Hearing: August 16, 1972, 9:30 a.m., Commission's Courtroom, C-1-110 Cordell Hull Building, Nashville, Tenn. Requests for procedural information including the time for filing protests concerning this application should be addressed to the Tennessee Public Service Commission, Cordell Hull Building, Nashville, Tenn. 37219 and should not be directed to the Interstate Commerce Commission.

Virginia Docket No. CC-7122, filed March 31, 1972. Applicant: INTERCITY BUS LINES, INC., Roanoke, Va. Applicant's representative: Calvin F. Major, 200 West Grace Street, Richmond, VA 23220. Certificate of public convenience and necessity sought to operate a freight service as follows: Transportation of *general commodities*, between Roanoke and Clifton Forge, via Fincastle and Eagle Rock, Va. (Abbott Bus Lines, Inc., Roanoke, Va., seeks authority to transfer its certificate containing the above authority to Intercity Bus Lines, Inc., Roanoke, Va.) Both intrastate and interstate authority sought.

HEARING: June 14, 1972, 10 a.m., courtroom, State Corporation Commission, Richmond, Va. Requests for procedural information including the time for filing protests concerning this application should be addressed to the State Corporation Commission of Virginia, Commonwealth of Virginia, Box 1197, Richmond, VA 23209 and should not be addressed to the Interstate Commerce Commission.

By the Commission.

MOTOR CARRIER APPLICATIONS AND CERTAIN OTHER PROCEEDINGS

APRIL 14, 1972.

The following publications[1] are governed by the new § 1100.247 of the Com-

[1] Except as otherwise specifically noted, each applicant (on applications filed after Mar. 27, 1972) states that there will be no significant effect on the quality of the human environment resulting from approval of its application.

V 37-76 APR 19 72 XUM

mission's rules of practice, published in the FEDERAL REGISTER, issue of December 3, 1963, which became effective January 1, 1964.

The publications hereinafter set forth reflect the scope of the applications as filed by applicant, and may include descriptions, restrictions, or limitations which are not in a form acceptable to the Commission. Authority which ultimately may be granted as a result of the applications here noticed will not necessarily reflect the phraseology set forth in the application as filed, but also will eliminate any restrictions which are not acceptable to the Commission.

APPLICATIONS ASSIGNED FOR ORAL HEARING

WATER CARRIER

No. W-78 (Sub-No. 11), THE VALLEY LINE COMPANY EXTENSION—COASTWISE, filed April 7, 1972. Applicant: THE VALLEY LINE COMPANY, a corporation, 411 North Seventh Street, St. Louis, MO 63101. Applicant's representative: Harry C. Ames, Jr., 666 11th Street NW., Washington, DC 20001. By application filed April 7, 1972, applicant seeks revision of certificate (No. W-78), to cover the following proposed changes in service: Operation as a common carrier by water in interstate or foreign commerce by non-self-propelled vessels with the use of separate towing vessels and by towing vessels in the performance of towage in the transportation of *articles* exceeding 19 feet in height, 12 feet in width, 90 feet in length or 100 tons in weight, *component parts thereof, and related equipment*, between ports and points along the Atlantic Coast and tributary waterways, on the one hand, and, on the other, ports and points within Valley's existing authority and ports and points along the Gulf of Mexico and tributary waterways.

Prehearing conference: June 2, 1972, at the offices of the Interstate Commerce Commission, Washington, D.C.

MOTOR CARRIERS OF PROPERTY

No. MC 8989 (Sub-No. 216) (Republication), filed June 14, 1971, published in the FEDERAL REGISTER, issues of July 15, 1971, and September 16, 1971, and republished this issue. Applicant: HOWARD SOBER, INC., 2400 West St. Joseph Street, Lansing, MI 48904. Applicant's representative: Albert F. Beasley, 311 Investment Building, 1511 K Street NW., Washington, DC 20005. An order of the Commission, Operating Rights Board, dated January 24, 1972, and served March 13, 1972, finds, that the present and future public convenience and necessity require operation by applicant, in interstate or foreign commerce, as a common carrier by motor vehicle, over irregular routes, of automobiles, trucks, and buses as described in *Descriptions in Motor Carriers Certificates*, 61 M.C.C. 209 and 766, in initial movements, in truckaway service, (1) from the plantsites of the General Motors Corp. at Linden, N.J., and Wilmington, Del., to Lansing, Mich.; and (2) from the plantsites of the General Motors Corp. at Linden, N.J., and Wilmington, Del., to points in Illinois, Indiana, Michigan, Ohio, and Wisconsin, restricted in (2) above to the transportation of traffic moving through Lansing, Mich. That because it is possible that other parties, who have relied upon the notice of the application as published, may have an interest in and would be prejudiced by the lack of proper notice of the authority described in the findings in this order, a notice of the authority actually granted will be published in the FEDERAL REGISTER, issuance of a certificate in this proceeding will be withheld for a period of 30 days from the date of such publication, during which period any proper party in interest may file an appropriate petition for leave to intervene in this proceeding setting forth in detail the precise manner in which it has been so prejudiced.

No. MC 51018 (Sub-No. 8) (Republication), filed August 5, 1970, published in the FEDERAL REGISTER, issue of September 3, 1970, September 17, 1970, November 3, 1971, and republished this issue. Applicant: THE BESL TRANSFER COMPANY, a corporation, 5550 East Avenue, Cincinnati, OH 45232. Applicant's representative: A. Alvis Layne, 915 Pennsylvania Building, Washington, D.C. 20004. An order of the Commission, Division 1, acting as an Appellate Division, dated March 24, 1972, and served March 28, 1972, finds: That the present and future public convenience and necessity require operation by applicant, in interstate or foreign commerce, as a common carrier by motor vehicle, over irregular routes, (1) of commodities which, because of their size or weight require the use of special equipment, (2) of self-propelled articles, each weighing 15,000 pounds or more (restricted to commodities which are transported on trailers), and (3) of related machinery, tools, parts, and supplies moving in connection with the commodities described in (2), (a) between points in Hamilton County, Ohio, and points in that part of Ohio on and south of Interstate highway 70 and on and west of Interstate Highway 75, on the one hand, and, on the other, points in Ohio, points in Dearborn County, Ind., and points in that part of Kentucky within 10 miles of the southern limits of Cincinnati, Ohio, and (b) between points in Ohio within 25 miles of Cincinnati, points in that part of Ohio on and south of Interstate Highway 70 and on and west of Interstate Highway 75, and points in Indiana and Kentucky within 25 miles of Cincinnati, on the one hand, and, on the other, points in Illinois, Indiana, Kentucky, Michigan, Missouri, New York, Pennsylvania, and West Virginia, with the provision that applicant may join the authorities contained in (a) and (b) above to provide a through service. Because it is possible that other parties, who have relied upon the notice of the application as published, may have an interest in and would be prejudiced by the lack of proper notice of the authority described in the appendix to the order, a notice of the authority actually granted will be published in the FEDERAL REGISTER and issuance of a certificate in this proceeding will be withheld for a period of 30 days from the date of such publication, during which period any proper party in interest may file an appropriate petition seeking leave to intervene in this proceeding showing in specific detail the manner in which it has been materially adversely affected by the grant of this authority.

No. MC 117815 (Sub-No. 162) (Republication), filed June 18, 1970, published in the FEDERAL REGISTER, issue of July 9, 1970, and republished this issue. Applicant: PULLEY FREIGHT LINES, INC., 405 Southeast 20th Street, Des Moines, IA 50317. Applicant's representative: William L. Fairbank, 610 Hubbell Building, Des Moines, Iowa 50309. A report and order of the Commission, Division 1, acting as an Appellate Division, decided March 24, 1972, and served April 6, 1972, finds: That the present and future public convenience and necessity require operation by applicant, in interstate or foreign commerce, as a common carrier by motor vehicle, over irregular routes, of cleaning, buffing, and polishing compounds, pesticides, varnish, shaving cream, soap, household cleaning equipment and supplies, and industrial lubricating compounds, from the plantsites and storage facilities of S. C. Johnson & Son, Inc., at Racine and Waxdale, Wis., to Omaha, Nebr., Kansas City, Mo., and points in Iowa (except Clinton and Cedar Rapids, Iowa, and those points in Iowa in the Davenport, Iowa-Rock Island and Moline, Ill., commercial zone), restricted (1) against the transportation of commodities in bulk, and (2) to the transportation of traffic originating at the above-named plantsites and storage facilities and destined to the named destination points, and subject to the condition that to the extent such authority duplicates applicant's existing authority it shall not be construed as conferring more than a single operating right. Because it is possible that other parties, who have relied upon the notice of the application as published, may have an interest in and would be prejudiced by the lack of proper notice of the authority described in the findings in this order, a notice of the authority actually granted will be published in the FEDERAL REGISTER and issuance of a certificate in this proceeding will be withheld for a period of 30 days from the date of such publication, during which period any proper party in interest may file an appropriate petition for leave to intervene in this proceeding setting forth in detail the precise manner in which it has been so prejudiced.

No. MC 136007 (Republication), filed August 18, 1971, published in the FEDERAL REGISTER issue of October 7, 1971, and republished this issue. Applicant: EDWARD BORKOWSKI, doing business as BORKOWSKI TOWING, Post Office Box 868, 4010 Seventh Street, Winona, MN 55987. Applicant's representative: Andrew R. Clark, 1000 First National Bank Building, Minneapolis, Minn. 55987. An order of the Commission, operating rights board, dated March 10, 1972, and served April 5, 1972, finds, that the present and future public convenience and necessity require operation by applicant, in interstate or foreign commerce, as a common carrier by motor vehicle, over irregular routes, of wrecked, disabled, and repossessed motor vehicles and replacement vehicles therefor, between points in Fillmore, Houston, Olmstead, Wabasha, and Winona Counties, Minn., on the one hand, and, on the other, points in Illinois, Iowa, North Dakota, South Dakota, and Wisconsin, restricted to transportation of traffic either by use of wrecker equipment or in truck-away service. Since it is possible that other parties who have relied upon the notice in the FEDERAL REGISTER of the application as originally published may have an interest in and would be prejudiced by the lack of proper notice of the grant of authority without the requested limitation in the findings herein, a notice of the authority actually granted will be published in the FEDERAL REGISTER and issuance of the certificate in this proceeding will be withheld for a period of 30 days from the date of such publication, during which period any proper party in interest may file an appropriate petition for leave to intervene in the proceeding setting forth in detail the precise manner in which it has been prejudiced.

NOTICE OF FILING OF PETITIONS

No. MC 60186 (Sub-No. 26) (Correction) (Notice of Filing of Petition for Modification of Certificate), filed February 15, 1972, published in the FEDERAL REGISTER issue of March 15, 1972, and republished as corrected this issue. Petitioner: NELSON FREIGHTWAYS, INC., Rockville, Conn. 06066. Petitioner's representative: Vernon V. Baker, 1250 Connecticut Avenue NW., Washington, DC 20036. NOTE: The purpose of this republication is to show the correct number of the New York Highway set forth in previous publication incorrectly as New York Highway 122. The highway referred to should have read New York Highway 112. The rest of the notice remains as previously published.

No. MC 107299 (Notice of Filing of Petition for Modification of Authority), filed March 15, 1972. Petitioner: ROBERTS CARTAGE COMPANY, 3200 South Archer Avenue, Chicago, IL 60603. Petitioner's representative: Edward G. Bazelon, 39 South La Salle Street, Chicago, IL 60603. Petitioner states it is a motor common carrier of specialized commodities authorized to operate in interstate commerce pursuant to authority issued to it by the Interstate Commerce Commission in Docket No. MC 107299 on October 26, 1949. The specific authority which petitioner seeks to have modified by this petition presently reads as follows: "Irregular routes: *Store, restaurant, and bar fixtures and equipment*, uncrated, between Chicago, Ill., on the one hand, and, on the other, points in the United States. *Store fixtures*, from Chicago, Ill., to points in Illinois, Wisconsin, Minnesota, Iowa, Nebraska, Missouri, Indiana, Michigan, Ohio, Pennsylvania, New York, West Virginia, Tennessee, and Kentucky." By the instant petition, petitioner requests that the foregoing commodity descriptions be modified so as also to permit the transportation of store, restaurant, and bar fixtures and equipment when moving as displays or display materials to and from conventions, shows, expositions, and similar gatherings for exhibition purposes. NOTE: Petitioner has also stated that it has pending before the Commission in Docket No. 107299 (Sub-No. 8), an application seeking authority to transport exhibits, exhibit materials, displays and display materials, between Chicago, Ill., on the one hand, and, on the other, points in the United States; and that the modification sought in the instant petition either be granted on the basis of the evidence it has submitted herewith or, if the Commission deems an oral hearing to be necessary, that it be consolidated with its application in No. MC 107299 (Sub-No. 8). Petition states that the said application in MC 107299 (Sub-No. 8) is now set for hearing on May 15, 1972, in Chicago, Ill. Any interested person desiring to participate may file an original and six copies of his written representations, views, or argument in support of or against the petition within 30 days from the date of publication in the FEDERAL REGISTER.

No. MC 109637 (Sub-No. 288), (Notice of Filing of Petition to Extend Expiration Date of Certificate), filed March 22, 1972. Petitioner: SOUTHERN TANK LINES, INC., Lansdowne, Pa. Petitioner's representative: Harry C. Ames, Jr., and Gerald K. Gimmel, 666 11th Street, NW., Washington, DC 20001. Petitioner holds a certificate in No. MC 109637 (Sub-No. 288) to transport liquefied petroleum gas, in bulk, in tank vehicles, from Crossville, Ill., to Central City, Henderson, and Owensboro, Ky., to expire on June 9, 1971. By the instant petition, petitioner requests that the expiration date of its certificate be extended for 5 years to June 9, 1976, to permit the continuation of operations by it in service to the public. Any interested person desiring to participate may file an original and six copies of his written representations, views, or argument in support of or against the petition within 30 days from the date of publication in the FEDERAL REGISTER.

No. MC 116810 (Notice of Filing of Supplemental Petition for Alternate Gateway and Elimination of Gateways), filed February 16, 1972. Petitioner: BAIR TRANSPORT, INC., Riverside, N.J. Petitioner's representative: Kenneth R. Davis, 999 Union Street, Taylor, PA 18517. Petitioner states that it previously filed a petition to amend its general commodity operating authority by requesting alternate gateways or the elimination of gateways. Notice of petition was published in the FEDERAL REGISTER issue of August 4, 1971. The matter was set for handling under the modification procedure by Order of the Commission served September 21, 1971. Petitioner further states that publication in the FEDERAL REGISTER was disclosed to be faulty. The Commission's attention was drawn to the fact, after which order served September 21, 1971 was vacated and set aside. Petitioner states that by letter dated October 13, 1971, additional information was requested by the Commission. This is the purpose of the instant supplemental petition. Petitioner states that the petition, as originally submitted, requested amendment on three (3) counts. When published, notice of two (2) counts, No. 1 and No. 3 were made. That not published reads as follows: "Petitioner requests the elimination of the gateway of Bergen County, N.J., observing the New York, N.Y. Gateway only in connection with shipments moving between the Massachusetts and Connecticut territory described in paragraph 4 and points on Long Island, N.Y., within 150 miles of Newark, N.J., authorized in paragraph (2)." Petitioner states that its requests for amendment was only relative to that portion of its authority authorizing the transportation of general commodities (with certain exceptions) which are not pertinent here.

Petitioner further states that after modification, its authority will read as follows: *General commodities*, except those of unusual value, classes A and B explosives, livestock, household goods as defined by the Commission, films, silk, tobacco, new automobiles, commodities requiring tank trucks or refrigeration and those injurious or contaminating to other lading, between Delanco, N.J., on the one hand, and, on the other, points in that part of New Jersey and Maryland on and east of U.S. Highway 1; between Delanco, N.J., on the one hand, and, on the other, points in that part of Massachusetts on and east of U.S. Highway 5 and that part of Connecticut on and east of U.S. Highway 5 and those on U.S. Highway 1 between the Connecticut-New York State line and New Haven, Conn. Restriction: Service at Delanco, N.J., restricted to tacking of the above two paragraphs only. *General commodities*, except those of unusual value, classes A and B explosives, liquor, household goods as defined by the Commission, commodities in bulk, commodities requiring special equipment, and those injurious or contaminating to other lading, between New York, N.Y., on the one hand, and, on the other, points in that part of Massachusetts on and east of U.S. Highway 5, and that part of Connecticut on and east of U.S. Highway 5, and those on U.S. Highway 1 between the Connecticut-New York State line and New Haven, Conn., between New York, N.Y., on the one hand, and, on the other, points on Long Island, N.Y., within 150 miles of Newark, N.J.

Restriction: Service at New York, N.Y., restricted to tacking of the above two paragraphs only. General commodities, except those of unusual value, classes A and B explosives, livestock, household goods as defined by the Commission, films, silk, tobacco, new automobiles,

V 37 • 76 APR 19 72 XUM

commodities requiring tank trucks or refrigeration, and those injurious or contaminating to other lading, between Philadelphia, Pa., on the one hand, and, on the other, points in that part of Pennsylvania east of the Susquehanna River, north of U.S. Route 309; between Philadelphia, Pa., on the one hand, and, on the other, points in New Jersey and Maryland, on and east of U.S. Highway 1. Restriction: Service at Philadelphia, Pa., restricted to tacking of the above two paragraphs only. Any interested person desiring to participate may file an original and six copies of his written representations, views or argument in support or against the petition within 30 days from the date of publication in the FEDERAL REGISTER.

No. MC 116822 (Notice of Filing of Petition To Add an Additional Contracting Shipper), filed March 1, 1972. Petitioner: ROBERT KRINGEN, doing business as KRINGEN TRUCK LINE, Grand Forks, N. Dak. 58201. Petitioner's representative: E. J. Hanson, Box 1177, Grand Forks, ND 58201. Petitioner states that it holds authority in its Permit No. MC 116822, issued April 29, 1970, authorizing operations as a motor contract carrier in the transportation over irregular routes, of: *Manufactured dry fertilizer, in bulk or in bags, and insecticides*, from Grand Forks, N. Dak., to points in Kittson, Marshall, Polk, Norman, Clay, Roseau, Pennington, Red Lake, Mahnmen, Becker, Clearwater, Beltrami, Lake of the Woods, and Wilkin Counties, Minn., with no transportation for compensation on return except as otherwise authorized. Restrictions: The above-described operations are limited to a transportation service to be performed under a continuing contract, or contracts, with the following: Occidental Chemical Co., Grand Forks, N. Dak.; and Agsco Distributors, Inc., Grand Forks, N. Dak. Petitioner further states that there is located at Grand Forks, N. Dak., another fertilizer company by the name of Cominco American, Inc., which is engaged in the same type of business as are the above-referred to Occidental Chemical Co., and Agsco Distributors, Inc., and that Cominco American, Inc., is desirous of having made available to it, the contract authority which is now authorized to petitioner for the account of the other two above-said contracting shippers. By the instant petition, petitioner seeks to add the name of Cominco, Inc., as an additional contracting shipper on the same terms and conditions as Occidental Chemical Co., and Agsco Distributors, Inc. Any interested person desiring to participate may file an original and six copies of his written representations, views, or arguments, in support of, or against the petition within 30 days from the date of this publication in the FEDERAL REGISTER.

Nos. MC 117391 and MC 117391 (Sub-No. 8) (Notice of Filing of Petition for Modification of Permits by Changing Shipper Designations and Other Relief), filed March 22, 1972. Petitioner: E. L. REDDISH TRANSPORTATION, INC., Springdale, Ark. Petitioner's representative: A. Alvis Layne and Leo C. Franey, 915 Pennsylvania Building, Washington, D.C. 20004. Petitioner states that it presently holds authority over irregular routes, as a motor contract carrier under its lead Permit No. 117391 issued August 20, 1963, and Permit No. MC 117393 (Sub-No. 8), issued October 11, 1967, as follows: No. MC 117963, *Canned goods*, from Springdale, Lowell, and Fort Smith, Ark., and Westville, Okla., to points in Alabama, Arizona, Arkansas, California, Colorado, Florida, Georgia, Illinois (except Chicago), Indiana, Iowa, Kansas (except Wichita), Kentucky, Louisiana, Michigan, Minnesota, Mississippi, Missouri (except St. Louis, Kansas City, Springfield, and Joplin), Maryland, Nebraska, New Jersey, New Mexico, North Carolina, South Carolina, North Dakota, South Dakota, Ohio, Oklahoma (except Oklahoma City and Tulsa), Pennsylvania, Tennessee (except Memphis), Texas (except Dallas and Fort Worth), Virginia, West Virginia, and Wisconsin, with no transportation for compensation on return except as otherwise authorized; *Canned goods, and materials and supplies* used in manufacturing, labeling, packing, and transporting canned goods, from points in Alabama, Arizona, Arkansas, California, Colorado, Florida, Georgia, Illinois (except Chicago), Indiana, Iowa, Kansas, (except Wichita), Kentucky, Louisiana, Michigan, Minnesota, Mississippi, Missouri (except St. Louis, Kansas City, Springfield, and Joplin), Maryland, Nebraska, New Jersey, New Mexico, North Carolina, South Carolina, North Dakota, South Dakota, Ohio, Oklahoma (except Oklahoma City and Tulsa), Pennsylvania, Tennessee (except Memphis), and Texas (except Dallas and Fort Worth), to Springdale, Lowell, and Fort Smith, Ark., and Westville, Okla., with no transportation for compensation on return except as otherwise authorized; *Tin cans and lids*, from Chicago, Ill., to Springdale, Lowell, and Fort Smith, Ark., and Westville, Okla., with no transportation for compensation on return except as otherwise authorized; *Corrugated fiberboard boxes*, from Memphis, Tenn., to Springdale, Lowell, and Fort Smith, Ark., and Westville, Okla., with no transportation for compensation on return except as otherwise authorized. Restriction: The operations authorized hereinabove are limited to a transportation service to be performed, under a continuing contract, or contracts, with the following shippers: Steele Canning Co., of Springdale, Ark., Keystone Packing Co., of Fort Smith, Ark. (restricted to traffic moving from and to Fort Smith), Cain Canning Co., Inc., of Springdale, Ark. (restricted to traffic moving from and to Springdale); and No. MC 117391 (Sub-No. 8), *Canned goods*, from Springdale, Lowell, and Fort Smith, Ark., and Westville, Okla., to Chicago, Ill., Wichita, Kans., St. Louis, Kansas City, Springfield, and Joplin, Mo., Oklahoma City and Tulsa, Okla., Memphis, Tenn., and Dallas and Fort Worth, Tex., with no transportation for compensation on return except as otherwise authorized; from Haskell, Stigler, and Spiro, Okla., to points in Alabama, Arizona, Arkansas, California, Colorado, Florida, Georgia, Illinois, Indiana, Iowa, Kansas, Kentucky, Louisiana, Michigan, Minnesota, Mississippi, Missouri, Maryland, Nebraska, New Jersey, New Mexico, North Carolina, South Carolina, North Dakota, South Dakota, Ohio, Oklahoma, Pennsylvania, Tennessee, Texas, Virginia, West Virginia, and Wisconsin, with no transportation for compensation on return except as otherwise authorized; *Canned goods and materials and supplies* used in manufacturing, packing, labeling, and transporting canned goods, from points in Alabama, Arizona, Arkansas, California, Colorado, Florida, Georgia, Illinois, Indiana, Iowa, Kansas, Kentucky, Louisiana, Michigan, Minnesota, Mississippi, Missouri, Maryland, Nebraska, New Jersey, New Mexico, North Carolina, South Carolina, North Dakota, South Dakota, Ohio, Oklahoma, Pennsylvania, Tennessee, Texas, Virginia, West Virginia, and Wisconsin, to Springdale, Lowell, and Fort Smith, Ark., and Westville, Haskell, Stigler, and Apiro, Okla., with no transportation for compensation on return except as otherwise authorized. Restriction: The operations authorized under MC 117981 Sub 8 herein are limited to a transportation service to be performed, under a continuing contract, or contracts, with Steele Canning Co. of Springdale, Ark. Petitioner further states that Keystone Packing Co., of Fort Smith, Ark., and Cain Canning Co., Inc., of Springdale, Ark., are no longer in business, The Steele Canning Co. of Springdale, Ark., has recently been purchased by Pioneer Food Industries, Inc., and its name has been changed to Steele Canning Co., Inc. Petioner requests therefore that its lead permit and Sub 8 permit be changed to show that service is being rendered under contracts with Steele Canning Co., Inc., of Springdale, Ark. By the instant petition, petitioner seeks to modify its existing permits in three ways. The first modification would eliminate the names of the above-said shippers no longer in business, the second would change the name of a shipper which has recently been purchased by another company, and the third would authorize the transportation of agricultural commodities otherwise exempt under section 203(b)(6) of the Act but for the fact that they are to be moving at the same time and in the same vehicle presently authorized and regulated commodities transported by petitioner.

Upon modification, petitioner will be serving only one shipper. In order to meet the transportation needs of this shipper in a complete and satisfactory way, it is necessary for it to be authorized to transport exempt agricultural commodities. Since these commodities will be moving both as inbound and outbound traffic, each and every commodity description presently contained in its lead and Sub 8 permit must be changed to reflect the new service required by the shipper. Any interested person desiring to participate may file an original and six copies of his written representations, views, or argument in support of or against the petition within 30 days from the date of publication in the FEDERAL REGISTER.

No. MC 118803 and No. MC 118803 (Sub-No. 5) (Notice of Filing of Petition for Reconsideration and Modification of Permits), filed February 28, 1972. Petitioner: ATLANTIC TRUCK LINES, INC., Paterson, N.J. Petitioner's representative: Arthur H. Priest, 71-23 Austin Street, Forest Hills, NY. Petitioner states it holds authority as a motor contract carrier, over irregular routes, in its lead permit No. MC 118803 and MC 118803 Sub 5, both issued July 14, 1971, as follows: *"MC 118803, Roofing materials*, from Clark, N.J., Philadelphia, Pa., Charleston, S.C., Birmingham, Ala., and Shreveport, La., to points in Florida south and east of the Suwannee River; and *Sheet metal, sheet metal products, and sheet metal working tools* other than power; *air conditioning and heating ducts, pipes, elbows, fittings, vents, dampers, flues, grills, registers, insulating materials and adhesives; rain carrying gutters, downspouts, eaves, valleys, elbows and fittings and roof ventilators*, from the plantsite of L. Bieler & Sons, Inc., and National Elbow and Fitting Corp. located at Hauppauge, Suffolk County, Long Island City and Rochester, N.Y., Newark, N.J., Philadelphia, Lancaster, and Pittsburgh, Pa., Martins Ferry, Ohio, Chicago, Ill., Baltimore, Md., Atlanta, Ga., and Birmingham and Gadsden, Ala., to points in Florida south and east of the Suwannee River; and *Returned shipments* of the commodities specified above, from points in Florida south and east of the Suwannee River, to their respective origin points. Restriction: The operations authorized above are limited to a transportation service to be performed, under a continuing contract, or contracts, with the following shippers: Southern Metal Products, Inc., of Miami, Fla., Bieler National Industries, Inc., of Hauppauge, Suffolk County, N.Y. *Floor coverings*, from New York, N.Y., South Plainfield, N.J., Chicago, Ill., and Jackson, Miss., to points in Florida south and east of the Suwannee River; and *Returned shipments* of floor coverings, from points in Florida south and east of the Suwannee River, to New York, N.Y., South Plainfield, N.J., Chicago, Ill., and Jackson, Miss. Restriction: The operations authorized in the two paragraphs next above are limited to a transportation service to be performed, under a continuing contract, or contracts, with Southern Tile Supply Corp., of Miami, Fla.

Air conditioning and heating ducts, pipes, elbows, fittings, vents, dampers, flues, grills, registers, and rain carrying gutters, downspouts, eaves, valleys, elbows and fittings and roof ventilators, from the plantsite of L. Bieler & Sons, Inc., and National Elbow and Fitting Corp. located at Hauppauge, Suffolk County, and Long Island City, N.Y., and from the plantsite of Bieler International Corp., and Southern Diversified Industries, Inc., located at Hauppauge, Suffolk County, N.Y., to points in Massachusetts, Rhode Island, Connecticut, New York, Pennsylvania, Ohio, Delaware, Maryland, Virginia, North Carolina, Georgia, Alabama, and that part of New Jersey south of U.S. Highway 30; and *Returned shipments* of the commodities specified immediately above, from points in the destination States named above to the plantsite of L. Bieler & Sons, Inc., and National Elbow and Fitting Corp. located at Hauppauge, Suffolk County, and N.Y. Restriction: No authority is Long Island City, N.Y., and to the plantsite of Bieler International Corp., and Southern Diversified Industries, Inc., located at Hauppauge, Suffolk County, granted hereinabove to transport commodities in bulk, in tank vehicles. *Air conditioning and heating ducts, pipes, elbows, fittings, vents, dampers, grills, registers, rain carrying gutters, downspouts, eaves, valleys, elbows and fittings and roof ventilators*, from the plantsite of L. Bieler & Son, Inc., and National Elbow and Fitting Corp. located at Hauppauge, Suffolk County, and Long Island City, N.Y., and from the plantsite of Bieler International Corp., and Southern Diversified Industries, Inc., located at Hauppauge, Suffolk County, N.Y., to points in Kentucky, Tennessee, Iowa, Indiana, West Virginia, Illinois, South Carolina, New Hampshire, Maine, Michigan, Mississippi, Vermont, Wisconsin, points in Florida north and west of the Suwannee River, points in New Jersey north of U.S. Highway 30, and points in Audrain, Callaway, Crawford, Franklin, Gasconade, Jefferson, Lincoln, Monroe, Montgomery, Perry, Pike, Ralls, St. Charles, St. Francois, St. Louis, St. Louis City, Ste Genevieve, Warren, and Washington Counties, Mo.; and

Returned shipments of the commodities described immediately above, from the immediately above-described destination points, to the plantsite of L. Bieler & Sons, Inc., and National Elbow and Fitting Corp. located at Hauppauge, Suffolk County, and Long Island City, N.Y., and the plantsite of Bieler International Corp., and Southern Diversified Industries, Inc., located at Hauppauge, Suffolk County, N.Y. Restriction: The operations authorized under the four commodity descriptions next above are limited to a transportation service to be performed, under a continuing contract, or contracts, with the following shippers: L. Bieler & Sons, Inc., of Long Island City, N.Y., National Elbow and Fitting Corp. of Long Island City, N.Y.; Bieler International Corp., of Hauppauge, Suffolk County, N.Y.; Southern Diversified Industries, Inc., of Hauppauge, Suffolk County, N.Y.; and Bieler National Industries, Inc., of Hauppauge, Suffolk County, N.Y. *Air conditioning and heating ducts, pipes, elbows, fittings, vents, dampers, flues, grills, registers, rain carrying gutters, downspouts, eaves, valleys, elbows and fittings and roof ventilators*, from Hauppauge, Suffolk County, N.Y., and Long Island City, N.Y., to points in Arkansas, Kansas, Louisiana, Nebraska, Oklahoma, Texas, and Missouri (except points in Audrain, Callaway, Crawford, Franklin, Gasconade, Jefferson, Lincoln, Monroe, Montgomery, Perry, Pike, Ralls, St. Charles, St. Francois, St. Louis, St. Louis City, Ste. Genevieve, Warren, and Washington Counties), with no transportation for compensation on return except as otherwise authorized. Restriction: The operations authorized next above are limited to a transportation service to be performed, under a continuing contract, or contracts, with the following shippers: L. Bieler & Sons, Inc., of Hauppauge, Suffolk County, N.Y., and Long Island City, N.Y., National Elbow and Fitting Corp., of Hauppauge, Suffolk County, N.Y., and Long Island City, N.Y., Bieler International Corp., of Hauppauge, Suffolk County, N.Y., Southern Diversified Industries, Inc., of Hauppauge, Suffolk County, N.Y., and *No. MC 118803 (Sub-No. 5)*.

Manufactured sheet metal roofing components, roofing materials accessories, sheet metal working and roofing tools (other than power), and *related hand tools and working supplies* for use at construction sites, *metal manufactured ventilating, air conditioning and heating components and parts, metal sheets, coils, tubing, wire, bars, forgings, castings, and extrustions*, and *metal structural and ornamental building elements, accessories and materials, and related components*, from the plantsite of L. Bieler & Sons, Inc., National Elbow and Fitting Corp., Bieler International Corp. and Southern Diversified Industries, Inc., at Hauppauge (Suffolk County), N.Y., to points in the United States (except Alaska and Hawaii); and *Returned shipments* of the commodities specified above, and *materials and related products* for use in the manufacture, fabrication, distribution and sales of the commodities described above, from points in the United States (except Alaska and Hawaii), to the plantsite of L. Bieler & Sons, Inc., National Elbow and Fitting Corp., Bieler International Corp., and Southern Diversified Industries, Inc., at Hauppauge (Suffolk County), N.Y. Restriction: The service authorized in MC 118803 Sub-No. 5 hereinabove is subject to the following conditions: The operations authorized herein are restricted against the transportation of commodities in bulk. The operations authorized herein are limited to a transportation service to be performed, under a continuing contract, or contracts, with the following shippers: L. Bieler & Sons, Inc., of Hauppauge, N.Y.; National Elbow and Fitting Corp., of Hauppauge, N.Y.; Bieler International Corp., of Hauppauge, N.Y.; Southern Diversified Industries, Inc., of Hauppauge, N.Y.; and Bieler National Industries, Inc., of Hauppauge, Suffolk County, N.Y.

Petitioner states that by the instant petition it seeks to ADD the following contracting shipper: Sevojno-Bieler Trading Co., with offices at 45 Gilpin Avenue, Suffolk County, NY 11787. The basis for the reconsideration and, modification of the permits, supra, is the request made by L. Bieler & Sons, Inc., National Elbow and Fitting Corp., Bieler International Corp., Southern Diversified

V 37-76 APR 19 72 XUM

Industries, Inc., and Bieler National National Industries, Inc., all of Hauppauge, Suffolk County, N.Y., to include as contracting shipper their affiliate Sevojno-Bieler Trading Co., in accordance with the projected expansion of the products to be manufactured, sold, and shipped by the six named shippers. The Sevojno-Bieler Trading Co., is an affiliate of L. Bieler & Sons, Inc., National Elbow and Fitting Corp., Bieler International Corp., Southern Diversified Industries, Inc., and Bieler National Industries, Inc. Petitioner desires to perform and conduct motor carrier operations for Sevojno-Bieler Trading Co., from points in Alabama, Georgia, Illinois, Louisiana, Maryland, Mississippi, New Jersey, New York, Ohio, Pennsylvania, and South Carolina, to points in Florida south and east of the Suwannee River, also from Hauppauge, Suffolk County, N.Y., to points in the United States (except Alaska and Hawaii), transporting the considered commodities and serving the territory set forth in permits No. MC 118803 and Sub 5, at the earliest possible date. Petitioner states it is not seeking through this petition any additional commodities or territory. Petitioner is only seeking to add the one named shipper as a contracting shipper to its permits No. 118803 and Sub 5, otherwise the permits remain unchanged. Any interested person desiring to participate may file an original and six copies of his written representations, views or argument in support of or against the petition within 30 days from the date of publication in the FEDERAL REGISTER.

No. MC 123160 (Notice of Filing of Petition for Removal of Territorial Restriction in Certificate MC 123160), filed March 27, 1972. Petitioner: C. A. BUCK MOVING & STORAGE COMPANY, a corporation, 391 Foster Boulevard, Post Office Box 5066, San Mateo, CA. Petitioner states it is a common carrier of household goods and presently holds a certificate in No. MC 123160 issue June 13, 1961, authorizing operations over irregular routes, in the transportation of "Household goods, as defined by the Commission, between points in Contra Costa, San Francisco, Alameda, San Mateo, and Santa Clara Counties, Calif. Restrictions: The service authorized herein shall be restricted to points located in said counties which are situated on and within 5 miles of (1) that part of California Highway 17 which extends from Albany, Calif., to its intersection with U.S. Highway 101 Bypass near San Jose, Calif., and (2) that portion of U.S. Highway 101 which extends from San Francisco to Morgan Hill, Calif., including the terminal points named. Petitioner further states it has been operating under its certificate as restricted. However, it finds its inability to provide an efficient and complete service to the public is impeded because of the territorial restriction therein. Petitioner states its operations is further impeded by this restriction as its application in a given situation is often unclear. By the instant petition, Petitioner seeks removal of the said territorial restriction from its certificate. An interested person desiring to participate may file an original and six copies of his written representations, views, or argument in support of or against the petition within 30 days from the date of publication in the FEDERAL REGISTER.

No. MC 127769 (Sub-No. 3) (Notice of Filing of Petition to Modify Permit by Including an Additional Shipper), filed March 10, 1972. Petitioner: SAM L. PALMER, 415 West Seventh Street, Cheyenne, WY 82001. Petitioner states that he presently holds a permit in No. MC 127769 (Sub-No. 3) which authorizes petitioner to conduct the following described motor carrier operations: "Transportation of repossessed automobiles and trucks, in driveaway service, over irregular routes, (1) between points in Colorado, Kansas, Nebraska, New Mexico, South Dakota, and Wyoming, and (2) between points in the States named in (1) above, on the one hand, and, on the other, points in the United States, except Alaska and Hawaii. The operations described hereinabove are limited to a transportation service to be performed under a continuing contract, or contracts, with General Motors Acceptance Corp. (Denver, and Cheyenne, Wyo. branches), Cheyenne Credit Bureau and Globe Finance Co." Petitioner further states that subsequent to acquiring the above-described authority in MC 127769 (Sub-No. 3), Petitioner became associated with Allied Finance Adjusters Conference, and, on or about January 1, 1971, purchased a franchise with said company and now conducts a majority of his repossession activities in the name of Allied Service Bureau, of which he is the sole owner. Petitioner further states that following discussion of his for-hire transportation and repossession of motor vehicles it has been concluded that in order to avoid any possibility of illegal or conflicting operations that Petitioner should enter into a bilateral contract with his company, Allied Service Bureau. By the instant petition, Petitioner requests the Interstate Commerce Commission to enter and order authorizing and permitting the addition of contract with Allied Service Bureau and for such other, further or different relief as may be just and equitable in the premises. Any interested person desiring to participate may file an original and six copies of his written representations, views or argument in support of or against the petition within 30 days from the date of publication in the FEDERAL REGISTER.

No. MC 128217 (Notice of Filing of Petition To Add Additional Contracting Shipper), filed April 7, 1972. Petitioner: REINHARDT MAYER, doing business as MAYER TRUCK LINE, Jamestown, N. Dak. Petitioner's representative: Thomas J. Van Osdel, 502 First National Bank Building, Fargo, N. Dak. 58102. Petitioner holds a Permit in No. MC 128217 authorizing motor carrier operations as a contract carrier in interstate or foreign commerce, over irregular routes, transporting: Iron and steel articles, as described in Group III of Appendix V to the Report in *Descriptions in Motor Carrier Certificates*, 61 M.C.C. 209, from Broadview, Chicago, Chicago Heights, Granite City, and Sterling, Ill., and Duluth and Minneapolis, Minn., to points in Montana, limited to a transportation service that is performed under a continuing contract or contracts with LeFevre Sales, Inc., and Haybuster Manufacturing, Inc., both of Jamestown, N. Dak., and Joseph T. Ryerson & Sons, Inc., Chicago, Ill. By the instant petition, petitioner seeks to add Pacific Hide and Fur Depot, Great Falls, Mont., as an additional contracting shipper. Any interested person desiring to participate may file an original and six copies of his written representations, views, or argument in support of or against the petition within 30 days from the date of publication in the FEDERAL REGISTER.

APPLICATION FOR CERTIFICATES OF PERMITS WHICH ARE TO BE PROCESSED CONCURRENTLY WITH APPLICATIONS UNDER SECTION 5 GOVERNED BY SPECIAL RULE 240 TO THE EXTENT APPLICABLE.

No. MC 106051 (Sub-No. 46), filed March 29, 1972. Applicant: OLD COLONY TRANSPORTATION CO., INC., 676 Dartmouth Street, South Dartmouth, MA 02748. Applicant's representative: Francis E. Barrett, Jr., 10 Industrial Park Road, Hingham, MA 02043. Authority sought to operate as a *common carrier*, by motor vehicle, over regular and irregular routes, transporting: *General commodities* (except those of unusual value, classes A and B explosives, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment or handling). Regular routes: (1) Between Malone, N.Y., and Rouses Point, N.Y., over U.S. Highway 11, serving all intermediate points and the off-route point of Burke; (2) between Malone and Lake Placid, N.Y., from Malone over New York Highway 30 to junction of New York Highway 86, thence over New York Highway 86 to Lake Placid, and return over the same route, serving all intermediate points and the off-route points of Bloomingdale, Vermontville, and Gabriels; (3) between Malone and Piercefield, N.Y., from Malone over New York Highway 30 to junction New York Highway 3, thence over New York Highway 3 to Piercefield, and return over the same route, serving all intermediate points and the off-route point of Conifer; (4) between Malone and St. Regis Falls, N.Y., from Malone over U.S. Highway 11 to junction New York Highway 95, thence over New York Highway 95 and unnumbered highway passing through Dickinson and Dickinson Center to St. Regis Falls, and return over the same route, serving all intermediate points and the off-route point of South Bangor;

(5) between Malone and Plattsburg, N.Y., from Malone over U.S. Highway 11 to junction unnumbered highway, thence over said unnumbered highway via Bellmont Center to junction New York Highway 374, thence over New York Highway 374 to junction New York Highway 3, thence over New York Highway 3 to Plattsburg, and return over the same route, serving all intermediate points; (6) between Piercefield and Gouverneur, N.Y., from Piercefield over New York Highway 3 to junction New York Highway 58, thence over New York Highway 58 to Gouverneur, and return over the same route, serving all intermediate points and the off-route point of Newton Falls; (7) between Dickinson and Gouverneur, N.Y., from Dickinson over New York Highway 11B, thence over New York Highway 11 to Gouverneur, and return over the same route, serving all intermediate points and the off-route point of Parishville; (8) between Dickinson and Ogdensburg, N.Y., from Dickinson over New York Highway 11B to junction U.S. Highway 11, thence over U.S. Highway 11 to junction New York Highway 68, thence over New York Highway 68 to Ogdensburg, and return over the same route, serving all intermediate points; (9) between Ogdensburg and Gouverneur, N.Y., from Ogdensburg over New York Highway 87 to junction U.S. Highway 11, thence over U.S. Highway 11 to Gouverneur, and return over the same route, serving all intermediate points, and the off-route points of Hermon and Russell; (10) between Hogansburg and Ogdensburg, N.Y., over New York Highway 37, and return over the same route, serving all intermediate points; (11) between Moira and Ogdensburg, N.Y., from Moira over U.S. Highway 11 to junction New York Highway 68, thence over New York Highway 68 to Ogdensburg, and return over the same route, serving all intermediate points; (12) between Moira and Gouverneur, N.Y., over U.S. Highway 11, and return over the same route, serving all intermediate points; (13) between Winthrop and Massena, N.Y., over New York Highway 420, and return over the same route, serving all intermediate points;

(14) between Potsdam and Massena, N.Y., over New York Highway 56, and return over the same route, serving all intermediate points and the off-route points of Hanna Falls, Colton, and South Colton; (15) between Canton and junction New York Highways 37 and 345 over New York Highway 345, and return over the same route, serving all intermediate points and the off-route points of Chase Mills and Louisville; (16) between Syracuse and Ogdensburg, N.Y., from Syracuse over U.S. Highway 11 to junction New York Highway 37, thence over New York Highway 37 to Ogdensburg; also from Watertown over U.S. Highway 11 to junction New York Highway 68 and thence over New York Highway 68 to Ogdensburg; also from Watertown over U.S. Highway 11 to junction New York Highway 87, thence over New York Highway 87 to Ogdensburg, and return over the same route, serving all intermediate points and the off-route points of Potsdam, Madrid, Winthrop, and Hailesboro; and (17) between Ogdensburg and Malone, N.Y., from Ogdensburg over New York Highway 37 to Malone; also from Ogdensburg over New York Highway 68 to junction U.S. Highway 11, thence over U.S. Highway 11 to Malone, and return over the same route, serving only between Ogdensburg on the one hand, and, on the other, all intermediate points. Irregular routes: From Malone, N.Y., to points in Franklin and St. Lawrence Counties, N.Y. NOTE: This application is a matter directly related to MC-F-11503, published in the FEDERAL REGISTER issue of April 5, 1972. If a hearing is deemed necessary, applicant requests it be held at Washington, D.C., or Albany, N.Y.

APPLICATIONS UNDER SECTIONS 5 AND 210a(b)

The following applications are governed by the Interstate Commerce Commission's special rules governing notice of filing of applications by motor carriers of property or passengers under sections 5(a) and 210a(b) of the Interstate Commerce Act and certain other proceedings with respect thereto. (49 CFR 1.240.)

MOTOR CARRIERS OF PROPERTY

No. MC-F-11257 (Amendment) (WATKINS MOTOR LINES, INC.—Purchase (Portion)—ALTERMAN TRANSPORTATION LINES, INC.), published in the August 11, 1971, issue of the FEDERAL REGISTER. By petition filed April 3, 1972, BILL WATKINS, join in as party applicant in control of the application. Report and order of review board No. 5, dated February 17, 1972, and served March 9, 1972, denied the application. A petition of applicant was filed April 10, 1972, seeking reconsideration and for oral hearing and/or modified procedure.

No. MC-F-11508. Authority sought for purchase by LES JOHNSON CARTAGE, 611 South 28th Street, Milwaukee, WI 53246, of a portion of the operating of C W TRANSPORT, INC., 610 High Street, Wisconsin Rapids, WI 54494, and for acquisition by SCHWERMAN TRUCKING CO., also of Milwaukee, Wis. 53246, of control of such rights through the purchase. Applicants' attorneys: David Axelrod, 39 South La Salle Street, Chicago, IL 60603, and James R. Ziperski, 611 South 28th Street, Milwaukee, WI 53246. Operating rights sought to be transferred: *Petroleum products* in bulk, in tank trucks, as a *common carrier* over irregular routes, from Green Bay, Wis., to points in a defined area of Michigan, and return with *rejected shipments; petroleum and petroleum products* (except residual fuel oils), as described in appendix XIII to the report in Descriptions in Motor Carrier Certificates, 61 M.C.C. 209, in bulk, in tank vehicles, from Escanaba, Mich., and points within 15 miles thereof, to points in Wisconsin; *jet fuel*, in bulk, in tank vehicles, from the terminal facilities of the American Oil Co. at or near Elk Grove Village, Ill., to points in the Upper Peninsula of Michigan. Vendee is authorized to operate as a *common carrier* in Wisconsin, Michigan, Illinois, Indiana, Iowa, North Dakota, South Dakota, Minnesota, Missouri, Ohio, Kentucky, Kansas, and Nebraska. Application has not been filed for temporary authority under section 210a(b).

No. MC-F-11510. Authority sought for purchase by BOSS-LINCO LINES, INC., 1 West Genesee Street, Buffalo, NY 14240, of the operating rights and property of BITER FREIGHT SYSTEM, INC., 1800 North Olden Avenue, Trenton, NJ 08638, and for acquisition by NOVO CORPORATION, 733 Third Avenue, New York, NY 10017, of control of such rights and property through the purchase. Applicants' attorney: Albert Stark, 143 East State Drive, Trenton, NJ 08620. Operating rights sought to be transferred: *General commodities*, excepting among others, classes A and B explosives, household goods and commodities in bulk, as a *common carrier* over regular routes, between Hoboken, N.J., and Springfield, Mass., serving the intermediate points of a defined area of Connecticut and New York, N.Y.; and the off-route points of a defined area of New Jersey and Connecticut; *sulphur*, except in bulk, from Warners, N.J., to Stamford, Conn., serving no intermediate points and return with *empty sulphur containers; magnesia* and *whiting*, except such commodities in bulk, from Philadelphia, Pa., to Stamford, Conn., serving no intermediate points; and return with *empty magnesia and whiting containers; litharge*, except in bulk, from Trenton, N.J., to Stamford, Conn., serving no intermediate points; and return with *empty litharge containers; vegetable oil fibre*, solid or liquid, and *lead oleate and leather dressing*, except such commodities in bulk, from Stamford, Conn., to Philadelphia, Pa., and Providence, R.I., serving the intermediate and off-route points of Trenton, N.J., Yonkers, N.Y., Conshohocken, Pa., and Briston, Pawtucket, and Warren, R.I. restricted to delivery only; and return with *empty vegetable oil fibre, lead oleate, and leather dressing containers; wines and liquors*, except in bulk, and empty containers therefor, between Hartford, Conn., and Providence, R.I., serving the intermediate points of Putnam, Willimantic, and Danielson, Conn., between New Haven, Conn., and Boston, Mass., serving the intermediate points of Providence and Pawtucket, R.I., and the off-route point of Cranston, R.I., between East Hartford, Conn., and New London, Conn., serving the intermediate points of Glastonbury, Colchester, Norwich, and Yantic, Conn., and the off-route point of Amston, Conn.;

General commodities, with exceptions, over irregular routes: (A) Between Philadelphia, Pa., on the one hand, and, on the other, Lansdowne, Allentown, and Bethlehem, Pa., and points and places in a defined area of Pennsylvania, between Philadelphia, Lansdowne, Allentown, and Bethlehem, Pa., and points and places in the above-described area in Pennsylvania, on the one hand, and, on the other, points and places in a defined area of New Jersey, between Trenton, N.J., on the one hand, and, on the other, points in a defined area of New Jersey, between New York, N.Y., on the one hand, and, on the other, Philadelphia, Pa., and points and places in a defined area of New Jersey; (B) between

V 37-76 APR 19 72 XUM

New York, N.Y., and points and places in New Jersey within 30 miles of City Hall, New York, N.Y., on the one hand, and, on the other, points and places in Mercer, Hunterdon, and Warren Counties, N.J.; (C) between points in (B) on the one hand, and, on the other, points in (A), between East Port Chester, Conn., and Port Chester, N.Y., on the one hand, and, on the other, points in Connecticut and New York within 15 miles of Port Chester, N.Y.; *such commodities* as are dealt in by chain retail and mail order department stores, the business of which is the sale of general merchandise (except in bulk), between Danbury, Conn., on the one hand, and, on the other, points in a defined area of New York, restricted to the performance of retail delivery service; *vegetable oil fibre*, solid or liquid, and *lead oleate and leather dressing*, except such commodities in bulk, from Stamford, Conn., to Cherry Valley, Mass., and points in a defined area of Massachusetts, and return with *empty containers; castor, corn, soybean, rapeseed, chinawood, linseed, mustard seed, cottonseed, sunflower, tea seed, and rubber seed oils, in tank trucks*, from Jersey City, Guttenberg, and Bayway, N.J., to Stamford, Conn.;

Contractors' supplies (except in bulk), *and equipment, and heavy machinery*, between Stamford, Conn., and points in Connecticut within 15 miles of Stamford, on the one hand, and, on the other, points in Massachusetts, New Jersey, New York, and Rhode Island; *boats and materials* (except in bulk), used in the repair and construction of boats, between Stamford, Conn., and points in Connecticut within 15 miles of Stamford, on the one hand, and, on the other, Lake George, N.Y., points in New Jersey, and those in the New York, N.Y., commercial zone as defined by the Commission; *scrap metals*, between Stamford, Conn., and points in Connecticut within 15 miles of Stamford, on the one hand, and, on the other, points in Massachusetts and Rhode Island, those in Westchester County, N.Y., and those in the New York, N.Y., commercial zone as defined by the Commission; *such commodities* as are dealt in or sold by retail mail-order houses (except commodities in bulk, in tank vehicles), from points in Connecticut, to Norwalk, Conn.; and return with *repossessed shipments*. Vendee is authorized to operate as a *common carrier* in New Jersey, New York, Maryland, Pennsylvania, Delaware, Virginia, and the District of Columbia. Application has been filed for temporary authority under section 210a(b).

No. MC–F–11511. Authority sought for control and merger by MILLER TRANSFER & RIGGING CO., Post Office Box 6077, Akron, OH 44312, of the operating rights and property of NEW ENGLAND TRANSFER & RIGGING CO., Post Office Box 6118, and for acquisition by JACK A. RODGERS, 2155 Ridgewood Road, Akron, OH 44313, and JOHN J. BRUTVAN, 2366 Short Hills Drive, Akron, OH 44313, of control of such rights and property through the transaction. Applicants' attorneys: A. David Millner, and Edward F. Bowes, 744 Broad Street, Newark, NJ 07102. Operating rights sought to be controlled and merged: *Heavy machinery, equipment, and other articles* which by reason of size or weight require the use of special devices for handling, as a *common carrier* over irregular routes, between Pittsfield, Mass., and points within 25 miles thereof, on the one hand, and, on the other, points in Massachusetts, Rhode Island, Connecticut, and New York; *prefabricated buildings*, knocked down or in sections, and *fixtures and equipment* to be installed therein, when transported in connection with the movement of the building in which such fixtures and equipment are to be installed, from Nashua, N.H., to points in Maine, Vermont, Massachusetts, Rhode Island, Connecticut, New York, and New Jersey. MILLER TRANSFER & RIGGING CO. is authorized to operate as a *common carrier* in Pennsylvania, Ohio, New York, West Virginia, Maryland, Illinois, Indiana, New Jersey, Alabama, Minnesota, Oklahoma, California, Massachusetts, Connecticut, and the District of Columbia, and as a *contract carrier* in all of the States in the United States except Alaska and Hawaii. Application has not been filed for temporary authority under section 210a(b).

No. MC–F–11512. Authority sought for purchase by YELLOW FREIGHT SYSTEM, INC., 92d Street at State Line Road, Kansas City MO 64114, of a portion of the operating rights of EAZOR EXPRESS, INC., Eazor Square, Pittsburgh, PA 15201, and for acquisition by GEORGE E. POWELL, 801 West 64th Terrace, Kansas City, MO 64113, and GEORGE E. POWELL, Jr., 1040 West 57th Street, Kansas City, MO 64113, of control of such rights through the purchase. Applicants' attorney: Carl L. Steiner, 39 South La Salle Street, Chicago, IL 60603. Operating rights sought to be transferred: *General commodities*, excepting among others, classes A and B explosives, household goods and commodities in bulk, as a *common carrier* over regular routes, between Parkersburg, W. Va., and Cincinnati, Ohio, serving all intermediate points, and serving the off-route points of Covington, Ky., those in Hamilton, Ohio, and a defined area of West Virginia, with service to and from points in Roane, Tyler, and Wetzel Counties restricted to perishable commodities in any quantity, and other commodities in truckload lots, between Chillicothe and Cincinnati, Ohio, serving the intermediate points of Dayton and Reading, Ohio, between Mineral Wells, and Huntington, W. Va., serving all intermediate points, and serving the off-route points of Ravenswood, W. Va., and those within 5 miles of Huntington, between Wheeling and Parkersburg, W. Va., serving all intermediate points, between Marietta, Ohio, and Huntington, W. Va., serving all intermediate points, and serving the off-route points of Racine and Minersville, Ohio, Mason City, Hartford, and Point Pleasant, W. Va., and points in a defined area of West Virginia, over one alternate route for operating convenience only. Vendee is authorized to operate as a *common carrier* in Illinois, Kansas, Oklahoma, Texas, Missouri, Indiana, Kentucky, Michigan, Ohio, Minnesota, Iowa, Nebraska, Colorado, Arizona, California, New Mexico, Georgia, Tennessee, South Carolina, Wyoming, South Dakota, Utah, Wisconsin, Pennsylvania, Maryland, Virginia, Alabama, New Jersey, Arkansas, Delaware, New York, Massachusetts, and the District of Columbia. Application has not been filed for temporary authority under section 210a(b).

No. MC–F–11513. Authority sought for control by WEST NEBRASKA EXPRESS, INC., Post Office Box 952, Scottsbluff, NE 69361, of WILSON BROTHERS TRUCK LINE, INC., Post Office Box 636, Carthage, MO 64836, and for acquisition by CHESTER H. FLIESBACH, and CLARK N. WILLIAMS, both of Scottsbluff, Nebr. 69361, of control of WILSON BROTHERS TRUCK LINE, INC., through the acquisition by WEST NEBRASKA EXPRESS, INC. Applicants' attorney: Truman A. Stockton, Jr., the 1650 Grant Street Building, Denver, CO 80203. Operating rights sought to be controlled: *Numerous specified commodities*, as a *common carrier*, over irregular routes, from, to, and between specified points in the States of Kansas, Missouri, Oklahoma, Louisiana, Mississippi, Alabama, Nebraska, Iowa, South Dakota, Wyoming, Florida, Georgia, South Carolina, Texas, Wisconsin, Arkansas, North Dakota, Minnesota, North Carolina, Tennessee, Arizona, California, Colorado, Nevada, New Mexico, Utah, Montana, Illinois, Michigan, Indiana, and Kentucky, with certain restrictions, serving various intermediate and off-route points, as more specifically described in Docket No. MC–116544 and subnumbers thereunder. This notice does not purport to be a complete description of all of the operating rights of the carrier involved. The foregoing summary is believed to be sufficient for purposes of public notice regarding the nature and extent of this carrier's operating rights, without stating in full, the entirety, thereof. WEST NEBRASKA EXPRESS, INC., is authorized to operate as a *common carrier* in Nebraska, Colorado, Wyoming, Kansas, Iowa, Minnesota, Missouri, North Dakota, Wisconsin, South Dakota, Michigan, Indiana, Ohio, and Illinois. Application has been filed for temporary authority under section 210a(b).

By the Commission.

[SEAL] ROBERT L. OSWALD, *Secretary.*

ESPECIALLY HAZARDOUS CONDITIONS

Notice of Proposed Rule Making

The Coast Guard is considering issuing regulations establishing the criteria under which a Coast Guard Boarding Officer, when he observes a boat being used in an unsafe condition and in his judgment such use creates an especially hazardous condition, may direct the boat operator to take whatever immediate steps are necessary for the safety of those aboard, including returning to a mooring as authorized in section 13 of the Federal Boat Safety Act of 1971. Any interested person may submit written data, views, comments, suggestions, and arguments to the U.S. Coast Guard (CMC/82), Room 8234, 400 Seventh Street SW., Washington, DC 20590. All communications received within 45 days after the date of publication of this notice in the FEDERAL REGISTER will be considered before action is taken on the proposed regulations. Each person submitting comments should include his name and address, identify this notice [CGD 72-71], and give reasons and supporting data for his recommendations. All comments will be available for examination in Room 8234.

On May 17, 1972, at 9:30 a.m. a public hearing to receive the views of interested persons on the proposed regulations will be held in Room 8332, 400 Seventh Street SW., Washington, DC. Each person who wishes to make an oral statement is requested to notify the U.S. Coast Guard (CMC/82), Room 8234, 400 Seventh Street SW., Washington, DC 20590, before May 15, 1972, and indicate the amount of time required for initial statement. The hearing will be an informal hearing conducted by a designated representative of the U.S. Coast Guard. It will not be a judicial or evidentiary type hearing, so there will be no cross-examination of persons presenting statements. After all initial statements have been completed, those persons who wish to make rebuttal statements will be given an opportunity to do so in the same order in which they made their initial statements.

Section 13 of the Federal Boat Safety Act of 1971 defines an unsafe condition as a boat being used without sufficient lifesaving devices or firefighting devices, or being used in an overloaded or other unsafe condition as defined in regulations. The effect of these proposed rules would be to define the other unsafe conditions.

Coast Guard Boating Statistics, published in Coast Guard Publication CG-357, summarizes the major causes of boating accidents, property damage, injuries, and deaths. The Coast Guard considers the majority of these casualties preventable and proposes that casualty causes that can be shown to be significant contributors to deaths, injuries, or property damage, be listed in § 173.07 as unsafe conditions.

It is recognized that under certain circumstances some of these unsafe conditions may not be especially hazardous. For this reason, the judgment of the Boarding Officer that continued use of the boat creates an especially hazardous condition is a precondition for requiring that corrective steps be taken.

Section 173.07(a) makes improper display of navigation lights between sunset and sunrise an unsafe condition. The requirement that boats shall be equipped with navigation lights is presently contained in 46 CFR 25.05.

Section 173.07 (b), (c), (d), and (e) deals with the prevention of boat fires and explosions. Section 173.07 (b) and (c) concerns the leakage of fuel, which is one of the basic elements of a fire or explosion. Section 173.07 (d) and (e) refers to existing requirements from 46 CFR 25.40 and 46 CFR 25.35 respectively.

Section 173.05 requires operators to comply with the instructions of the Boarding Officer to correct or end the hazardous condition. Section 173.09 provides that operators who fail to comply with the Boarding Officer's directions are subject to the provisions and penalties of section 34 and 35(b) of the Federal Boat Safety Act of 1971. The Boarding Officer's authority to arrest is contained in Title 14 of the United States Code, section 89.

The Boating Safety Advisory Council has been consulted and its opinions and advice have been considered in the formulation of these proposed regulations. The transcript of the proceedings of the meeting of the Boating Safety Advisory Council at which these regulations were discussed is available for examination in Room 6240, U.S. Coast Guard Headquarters, Department of Transportation Headquarters Building, 400 - Seventh Street SW., Washington, DC 20590. The minutes of the meeting are available from the Executive Director, Boating Safety Advisory Council at this address.

These regulations are proposed under the authority of the Federal Boat Safety Act of 1971 (85 Stat. 213). The authority and responsibilities vested in the Secretary of the Department of Transportation by this Act were delegated to the Commandant of the Coast Guard on October 5, 1971 (36 F.R. 19593).

In consideration of the foregoing, the Coast Guard proposes to amend Chapter I of Title 33 of the Code of Federal Regulations by adding a new Part 173 to read as follows:

PART 173—CORRECTION OF ESPECIALLY HAZARDOUS CONDITIONS

Sec.

173.01 Purpose and applicability.
173.03 Definitions.
173.05 Action to correct an especially hazardous condition.
173.07 Other unsafe conditions.
173.09 Penalties.

AUTHORITY: The provisions of this Part 173 issued under the Act of August 10, 1971, Public Law 92-75, section 13, 85 Stat. 213, 49 CFR 1.46(o)(1) (36 F.R. 19593).

§ 173.01 Purpose and applicability.

This part prescribes rules to implement section 13 of the Federal Boat Safety Act of 1971 which governs the correction of especially hazardous conditions on boats using waters subject to the jurisdiction of the United States and on the high seas beyond the territorial seas for boats owned in the United States, except operators of—

(a) Foreign boats temporarily using waters subject to U.S. jurisdiction;

(b) Military or public boats of the United States, except recreational-type public boats;

(c) A boat whose owner is a State or subdivision thereof, which is used principally for governmental purposes and which is clearly identifiable as such;

(d) Ship's lifeboats.

§ 173.03 Definitions.

As used in this part:

(a) "Act" means the Federal Boat Safety Act of 1971 (85 Stat. 213).

(b) "Boat" means any vessel—

(1) Manufactured or used primarily for noncommercial use; or

(2) Leased, rented, or chartered to another for the latter's noncommercial use; or

(3) Engaged in the carrying of six or fewer passengers.

(c) "Coast Guard Boarding Officer" means a commissioned, warrant, or petty officer of the Coast Guard having authority to board any vessel under the Act of 4 August 1949, 63 Stat. 502, as amended (14 U.S.C. 89).

(d) "Operator" means the person who is in control or in charge of a boat while it is in use.

(e) "Use" means operate, navigate, or employ.

(f) "Vessel" includes every description of watercraft, other than a seaplane on the water, used or capable fo being used as a means of transportation on the water.

§ 173.05 Action to correct an especially hazardous condition.

An operator of a boat who is directed by a Coast Guard Boarding Officer to take immediate and reasonable steps necessary for the safety of those aboard the vessel, under section 13 of the Act, shall follow the direction of the Boarding Officer, which may include direction to—

(a) Correct the especially hazardous condition immediately;

(b) Proceed to a mooring, dock, or anchorage; or

(c) Suspend further use of the boat until the especially hazardous condition is corrected.

§ 173.07 Other unsafe conditions.

For the purpose of section 13 of the Act, "other unsafe condition" means a boat—

(a) Does not display the navigation lights prescribed by 46 CFR 25.05 between sunset and sunrise;

(b) Has fuel leakage from either the fuel system or engine;

(c) Has an accumulation of fuel in the bilges or a compartment other than a fuel tank;

(d) Does not meet the ventilation requirements for tanks and engine spaces prescribed by 46 CFR 25.40; or

(e) Does not meet the requirements for backfire flame control prescribed by 46 CFR 25.35.

§ 173.09 Penalties.

An operator of a boat who does not follow the directions of a Coast Guard Boarding Officer prescribed in § 173.05 is, in addition to any other penalty prescribed by law, subject to—

(a) The criminal penalties of section 34 of the Federal Boat Safety Act of 1971 which provides that "Any person who willfully violates section 12(c) of this Act or the regulations issued thereunder shall be fined not more than $1,000 for each violation or imprisoned not more than 1 year, or both," and

(b) The civil penalties of subsection 35(b) of the Federal Boat Safety Act of 1971 which provides "In addition to any other penalty prescribed by law any person who violates any other provision of this Act or the regulations issued thereunder shall be liable to a civil penalty of not more than $500 for each violation. If the violation involves the use of a vessel, the vessel, except as exempted by subsection 4(c) of this Act, shall be liable and may be proceeded against in the district court of any district in which the vessel may be found."

This proposal is made under the authority of the Federal Boat Safety Act of 1971 (Public Law 92-75, 85 Stat. 213 (Aug. 10, 1971)); 49 CFR 1.46(o)(1) (36 F.R. 19593).

Dated: April 12, 1972.

A. C. WAGNER,
Rear Admiral, U.S. Coast Guard, Chief, Office of Boating Safety.

[FR Doc.72-5829 Filed 4-18-72;8:45 am]

[46 CFR Parts 170, 171]

[CGD 72-54PH]

VESSEL NUMBERING AND CASUALTY AND ACCIDENT REPORTING

Notice of Proposed Rule Making

The Coast Guard is considering issuing new regulations on the numbering of vessels and reporting of vessel casualties under the Federal Boat Safety Act of 1971. The proposed regulations would establish a standard numbering system for vessels required to be numbered under the Act and a uniform vessel casualty and accident reporting system for vessels required to be numbered under the Act and for recreational vessels.

Interested persons are invited to submit written comments, suggestions, or objections regarding the proposed rule to the Commandant (CMC), Headquarters, U.S. Coast Guard, Washington, D.C. 20590. The comments should refer to this notice number CGD 72-54PH, and should give the reasons upon which any recommended changes are based, any specific wording recommended, and the name, address, and organization if any, of the commentator.

The Coast Guard will hold an informal hearing on May 17, 1972, at 9:30 a.m. in Conference Room 8332, Department of Transportation, Nassif Building, 400 Seventh Street SW., Washington, DC. Interested persons are invited to attend the hearing and present oral or written statements on this proposal.

All written comments received on or before May 31, 1972, will be considered before final action is taken on this proposal. The proposed rule may be changed in the light of comments received.

Copies of all written comments received will be available for examination in Room 8234, Department of Transportation, Nassif Building, 400 Seventh Street SW., Washington, DC, both before and after the closing date for the receipt of written comments.

On December 6, 1971, the Boating Safety Advisory Council, established under the authority of section 33 of the Federal Boat Safety Act of 1971, was consulted concerning the reasonableness and appropriateness of the proposed rule.

The proposed rule was provided to each State for review and comment. The Coast Guard considered the comments received in preparing the proposed rule which was brought before the Executive Committee of the Boating Safety Advisory Council on February 28, 1972, and the full Council on March 28, 1972. The Council advised that the rule should be published in the FEDERAL REGISTER as a notice of proposed rule making.

The need for the proposed rule is to establish a standard numbering system as prescribed by subsection 18(a) of the Federal Boat Safety Act. The proposed rules would replace rules in Subchapter S of Title 46 of the Code of Federal Regulations.

The proposed standard numbering system is based on present numbering regulations, which have been rewritten to bring them into conformity with the Federal Boat Safety Act of 1971. The Act expands jurisdiction to cover (1) waters subject to Federal jurisdiction; and (2) the "State" of American Samoa. The Act expands the applicability to require the numbering of any undocumented vessel equipped with propulsion machinery.

The effect of this proposed amendment would be to require numbers on all undocumented vessels equipped with propulsion machinery of any type, for example, canoes or sailboats with engines of less than 10 horsepower.

The proposed numbering rules would apply to undocumented vessels that are "equipped with propulsion machinery." This is a change from the Federal Boat Act of 1958. The language "equipped with propulsion machinery of any type" replaced previous language "propelled by machinery." This change in the law was made to obviate any questions concerning whether a boat not being operated at the moment by machinery comes within the numbering requirements of the Act.

Certain classes of vessels are exempted from the numbering requirements under the authority prescribed in subsection 19(a) of the Act.

Racing vessels are exempted from the requirement for numbering as they are under present numbering rules. These vessels are usually identified by the racing associations. The special construction or configuration and limited use of such vessels to organized and supervised racing events also justifies continuing the exemption of racing vessels.

Vessels used as yacht tenders are exempted from rules requiring application for a number, payment of a fee, and carriage of a certificate of number in those States where the Coast Guard is the numbering authority, if they display an identification number and meet certain other requirements.

Under this proposal, States with approved numbering systems and the Coast Guard in States without approved numbering systems would issue vessel numbers conforming to a prescribed format of alphabetic and numeric characters. The requirements for obtaining a certificate of number and for the information contained on an application and the certificate of number would be uniform. The information contained on an application for a number would be expanded to include the manufacturer's hull identification number, if assigned, and the type of vessel. The information would be included on a certificate of number.

Section 170.75 would change present § 171.15-11(a) to provide a uniform period of validity of not more than 60 days for any temporary certificate that is issued under a standard numbering system.

Section 170.29 would change requirements in present §§ 171.15-20 and 171.15-21 by adding a requirement for notice by an owner to the issuing authority when a vessel is stolen or recovered.

Present Part 173, under the authority of the Federal Boat Act of 1958, prescribes reports and statistical information required on boating accidents. The Federal Boat Safety Act of 1971 requires a uniform vessel casualty reporting system. The Federal Boat Safety Act of 1971 affects the casualty and accident reporting regulations as follows:

(a) The applicability is expanded to include recreational-type public vessels of the United States.

(b) Jurisdiction is expanded by the Act. In addition to jurisdiction on navigable waters of the United States, jurisdiction is expanded to cover all waters subject to Federal jurisdiction. This includes waters on land over which the United States has enforcement jurisdiction due to ownership or other proprietary interest, placing the waters under Federal jurisdiction.

The Federal Boat Safety Act of 1971 provides that the Secretary may issue regulations and standards for boats and associated equipment when determined to be necessary and contribute to boating safety. Statistics are required to establish the need for regulations and standards. The casualty reporting system prescribed in the proposed regulations is intended to be a source of information from which a determination may be made that a new standard or regulation is necessary.

Most of the information prescribed in the proposed regulations is presently required and was incorporated in the Coast

APR 19 72 XUM

Guard Boating Accident Report Form (CG–3865). Specifying this information in the regulations will achieve uniformity in State vessel casualty report forms and will provide authority to require reports to be filled in.

Vessel accidents or casualties that would be required to be reported by proposed § 170.55 are presently required to be reported by existing regulation 46 CFR 173.01–5, except reportable injuries which would be broadened to meet the needs of the States that desire that lesser injuries be reported.

Proposed § 170.55 would require a report when a person loses consciousness or receives medical attention or is disabled for more than 24 hours. Existing regulations require reports when a person is incapacitated for a period in excess of 72 hours.

A vessel subject to the reporting requirement in proposed § 170.55 is unchanged from existing regulation 46 CFR 173.01–5(c) which states in part—

A vessel subject to this subpart is considered to be involved in a "boating accident" whenever the occurrence results in damage by or to the vessel or its equipment, in injury or loss of life to any person, or in the disappearance of any person from on board under circumstances which indicate the possibility of death or injury.

Proposed § 170.53 would require immediate notification in casualties involving death to enable investigations to be conducted while witnesses, survivors, and vessels are at the scene.

Proposed § 170.57 would increase the present information requirements in § 173.01–10 on the written report so as to include a vessel's hull identification number to provide for specific identification of vessels involved in casualties.

Part 171 of the proposal is new and sets forth procedures not previously in the regulations for a State to follow to obtain approval of a numbering system. It also prescribes the requirements to be met by a State in obtaining approval of a numbering system and a vessel casualty reporting system. A State having an approved vessel casualty reporting system would be required to have a State agency to review vessel casualty reports for completeness and accuracy, to determine the cause or causes of casualties reported, and to provide written notification when problem areas in boating safety peculiar to a State are determined. Subpart D of Part 171 would require the State to forward a copy of each casualty or accident report to the Coast Guard. This requirement although not previously in the regulations reflects current practice.

These regulations are proposed under the authority of the Federal Boat Safety Act of 1971 (Public Law 92–75, 85 Stat. 213). The authority and responsibilities vested in the Secretary by this Act were delegated to the Commandant of the Coast Guard by the Secretary of Transportation on October 5, 1971 (36 F.R. 19593).

In consideration of the foregoing, it is proposed to revise Subchapter S, Title 46 of the Code of Federal Regulations to read as follows:

SUBCHAPTER S—VESSEL NUMBERING AND CASUALTY AND ACCIDENT REPORTING; NUMBERING AND CASUALTY REPORTING SYSTEMS

PART 170—VESSEL NUMBERING AND CASUALTY AND ACCIDENT REPORTING

Subpart A—General

Sec.
170.1 Purpose.
170.3 Definitions.

Subpart B—Numbering

170.11 Applicability.
170.13 Exemptions.
170.15 Vessel number required.
170.17 Reciprocity.
170.19 Other numbers prohibited.
170.21 Certificate of number required.
170.23 Inspection of certificate.
170.25 Location of certificate of number.
170.27 Numbers: Display; size; color.
170.29 Notification to issuing authority.
170.31 Surrender of certificate of number.
170.33 Removal of number.
170.35 Coast Guard validation sticker.

Subpart C—Casualty and Accident Reporting

170.51 Applicability.
170.53 Immediate notification of death or disappearance.
170.55 Report of casualty or accident.
170.57 Casualty or accident report.
170.59 Where to report.

Subpart D—Issue of Certificate of Number

170.71 Application for certificate of number.
170.73 Duplicate certificate of number.
170.75 Temporary certificate.
170.77 Validity of certificate of number.
170.79 Expiration of Coast Guard certificate of number.
170.81 Coast Guard forms for numbering and casualty reporting.
170.83 Availability of Coast Guard forms.
170.85 Coast Guard fees.

Appendix A—Issuing authorities and reporting authorities.

AUTHORITY: The provisions of this Part 170 issued under secs. 18 and 37 of the Federal Boat Safety Act of 1971, Public Law 92–75, 85 Stat. 213, 220, 227 (Aug. 10, 1971); 49 CFR 1.46(o)(1) (36 F.R. 19593).

Subpart A—General

§ 170.1 Purpose.

This part prescribes requirements for numbering vessels and for reporting casualties and accidents to implement sections 17, 18, and 37 of the Federal Boat Safety Act of 1971.

§ 170.3 Definitions.

As used in this part:

(a) "Act" means the Federal Boat Safety Act of 1971 (Public Law 92–75, 85 Stat. 213).

(b) "Issuing authority" means a State that has a numbering system approved by the Coast Guard or the Coast Guard where a numbering system has not been approved. Issuing authorities are listed in Appendix A of this part.

(c) "Operator" means the person who is in control or in charge of a vessel while it is in use.

(d) "Owner" means a person who claims lawful possession of a vessel by virtue of legal title or equitable interest therein which entitles him to such possession.

(e) "Person" means an individual, firm, partnership, corporation, company, association, joint-stock association, or governmental entity and includes a trustee, receiver, assignee, or similar representative of any of them.

(f) "Reporting authority" means a State that has a numbering system approved by the Coast Guard or the Coast Guard where a numbering system has not been approved. Reporting authorities are listed in Appendix A of this part.

(g) "State" means a State of the United States, the Commonwealth of Puerto Rico, the Virgin Islands, Guam, American Samoa, and the District of Columbia.

(h) "State of principal use" means the State on whose waters a vessel is used or to be used most during a calendar year.

(i) "Use" means operate, navigate, or employ.

Subpart B—Numbering

§ 170.11 Applicability.

This subpart applies to each vessel equipped with propulsion machinery of any type used on waters subject to the jurisdiction of the United States and on the high seas beyond the territorial seas for vessels owned in the United States except—

(a) Foreign vessels temporarily using waters subject to U.S. jurisdiction;

(b) Military or public vessels of the United States, except recreational-type public vessels;

(c) A vessel whose owner is a State or subdivision thereof, which is used principally for governmental purposes, and which is clearly identifiable as such;

(d) Ships' lifeboats;

(e) A vessel which has or is required to have a valid marine document as a vessel of the United States.

§ 170.13 Exemptions.

Where the Coast Guard issues numbers, the following classes of vessels are exempt, under section 19(a) of the Act, from the numbering provisions of the Act and this part:

(a) A vessel that is used exclusively for racing.

(b) A vessel equipped with propulsion machinery of less than 10 horsepower that—

(1) Is owned by the owner of a vessel for which a valid certificate of number has been issued;

(2) Displays the number of that numbered vessel followed by the suffix "1" in the manner prescribed in § 170.27; and

(3) Is used as a tender for direct transportation between that vessel and the shore and for no other purpose.

§ 170.15 Vessel number required.

(a) Except as provided in § 170.17, no person may use a vessel to which this part applies unless—

(1) It has a number issued on a certificate of number by the issuing authority in the State in which the vessel is principally used; and

(2) The number is displayed as described in § 170.27.

(b) This section does not apply to a vessel for which a valid temporary certificate has been issued to its owner by the issuing authority in the State in which the vessel is principally used.

§ 170.17 Reciprocity.

(a) Subsection 18(c) of the Act states:

When a vessel is actually numbered in the State of principal use, it shall be considered as in compliance with the numbering system requirements of any State in which it is temporarily used.

(b) Subsection 18(d) of the Act states:

When a vessel is removed to a new State of principal use, the issuing authority of that State shall recognize the validity of a number awarded by any other issuing authority for a priod of at least 60 days before requiring numbering in the new State.

§ 170.19 Other numbers prohibited.

No person may use a vessel to which this part applies that has any number that is not issued by an issuing authority for that vessel on its forward half.

§ 170.21 Certificate of number required.

(a) Except as provided in §§ 170.13 and 170.17, no person may use a vessel to which this part applies unless it has on board—

(1) A valid certificate of number or temporary certificate for that vessel issued by the issuing authority in the State in which the vessel is principally used; or

(2) For a vessel described in paragraph (b) of this section, a copy of the lease or rental agreement, signed by the owner or his authorized representative and by the person leasing or renting the vessel, that contains at least—

(i) The vessel number that appears on the certificate of number; and

(ii) The period of time for which the vessel is leased or rented.

(b) Section 20(a) of the Act states in part:

The certificate of number for vessels less than 26 feet in length and leased or rented to another for the latter's noncommercial use of less than 24 hours may be retained on shore by the vessel's owner or his representative at the place from which the vessel departs or returns to the possession of the owner or his representative.

§ 170.23 Inspection of certificate.

Each person using a vessel to which this part applies shall present the certificate or lease or rental agreement required by § 170.21 to any Federal, State, or local law enforcement officer for inspection at his request.

§ 170.25 Location of certificate of number.

No person may use a vessel to which this part applies unless the certificate or lease or rental agreement required by § 170.21 is carried on board in such a manner that it can be handed to a person authorized under § 170.23 to inspect it.

§ 170.27 Numbers: Display; size; color.

(a) Each number required by § 170.15 must—

(1) Be painted on or permanently attached to each side of the forward half of the vessel except as allowed by paragraph (b) or required by paragraph (c) of this section;

(2) Be in plain vertical block characters of not less than 3 inches in height;

(3) Contrast with the color of the background and be distinctly visible and legible;

(4) Have spaces or hyphens that are equal to the width of a letter other than "I" or a number other than "1" between the letter and number groupings (DC 5678 EF) (DC–5678–EF); and

(5) Read from left to right.

(b) When a vessel is used by a manufacturer or by a dealer for testing or demonstrating, the number may be painted on or attached to removable plates that are temporarily but firmly attached to each side of the forward half of the vessel, or be available to be shown upon demand.

(c) On vessels so configured that a number on the hull or superstructure would not be easily visible, the number must be painted on or attached to a backing plate that is attached to the forward half of the vessel so that the number is visible from each side of the vessel.

(d) Each number displayed on a tender exempted under § 170.13 must meet the requirements of paragraph (a) of this section and have a space or hyphen that is equal to the width of a letter other than "I" or a number other than "1" between the suffix and the number. (Examples: (DC 5678 EF 1) (DC–5678–EF–1)).

§ 170.29 Notification to issuing authority.

A person whose name appears as the owner of a vessel on a certificate of number shall, within 15 days, notify the issuing authority in a manner prescribed by the issuing authority of—

(a) Any change in his address;

(b) The theft or recovery of the vessel;

(c) The loss or destruction of a valid certificate of number;

(d) The transfer of all or part of his interest in the vessel; and

(e) The destruction or abandonment of the vessel.

§ 170.31 Surrender of certificate of number.

A person whose name appears as the owner of a vessel on a certificate of number shall surrender the certificate in a manner prescribed by the issuing authority within 15 days after it becomes invalid under paragraph (b), (c), or (d) of § 170.77.

§ 170.33 Removal of number.

The person whose name appears on a certificate of number as the owner of a vessel shall remove the number from the vessel when—

(a) The vessel is documented by the Coast Guard;

(b) The certificate of number is invalid under paragraph (c) of § 170.77; or

(c) The vessel is no longer principally used in the State where the certificate was issued.

§ 170.35 Coast Guard validation sticker.

No person may use a vessel except a vessel exempted by § 170.13 that has a number issued by the Coast Guard unless it has the validation stickers issued with the certificate of number displayed within 3 inches aft of the number and in line with the number.

Subpart C—Casualty and Accident Reporting

§ 170.51 Applicability.

(a) This subpart applies to each vessel used on waters subject to the jurisdiction of the United States and on the high seas beyond the territorial seas for vessels owned in the United States that—

(1) Is used by its operator for recreational purposes; or

(2) Is required to be numbered under this part.

(b) This subpart does not apply to a vessel required to have a certificate of inspection under this chapter.

§ 170.53 Immediate notification of death or disappearance.

(a) When, as a result of an occurrence that involves a vessel or its equipment, a person dies or disappears from a vessel, the operator shall, without delay, by the quickest means available, notify the nearest reporting authority listed in Appendix A of this part of—

(1) The date, time, and exact location of the occurrence;

(2) The name of each person who died or disappeared;

(3) The number and name of the vessel; and

(4) The names and addresses of the owner and operator.

(b) When the operator of a vessel cannot give the notice required by paragraph (a) of this section, each person on board the vessel shall notify the casualty reporting authority or determine that the notice has been given.

§ 170.55 Report of casualty or accident.

(a) The operator of a vessel shall submit the casualty or accident report prescribed in § 170.57 to the reporting authority prescribed in § 170.59 when, as a result of an occurrence that involves the vessel or its equipment—

(1) A person dies;

(2) A person loses consciousness or receives medical treatment or is disabled for more than 24 hours;

(3) Damage to the vessel and other property damage totals more than $100; or

(4) A person disappears from the vessel under circumstances that indicate death or injury.

(b) A report required by this section must be made—

(1) Within 48 hours of the occurrence if a person dies within 24 hours of the occurrence;

(2) Within 48 hours of the occurrence if a person loses consciousness or receives medical treatment or is disabled for more than 24 hours or disappears from a vessel; and

(3) Within 5 days of the occurrence or death if an earlier report is not required by this paragraph.

APR 19 72 XUM

(c) When the operator of a vessel cannot submit the casualty or accident report required by paragraph (a) of this section, the owner shall submit the casualty or accident report.

§ 170.57 Casualty or accident report.

Each report required by § 170.55 must be in writing, dated upon completion, and signed by the person who prepared it and must contain, if available, at least the following information about the casualty or accident:

(a) The numbers and names of each vessel involved.

(b) The name and address of each owner of each vessel involved.

(c) The name of the nearest city or town, the county, the State, and the body of water.

(d) The time and date of the casualty or accident occurred.

(e) The location on the water.

(f) The visibility, weather, and water conditions.

(g) The estimated air and water temperatures.

(h) The name, address, age or date of birth, telephone number, vessel operating experience, and boating safety training of the operator making the report.

(i) The name and address of each operator of each vessel involved.

(j) The number of persons on board or towed on skis by each vessel.

(k) The name, address, and date of birth of each person injured or killed.

(l) The cause of each death.

(m) Weather forecasts available to, and weather reports used by, the operator before and during the use of the vessel.

(n) The name and address of each owner of property involved.

(o) The availability and use of personal flotation devices.

(p) The type and amount of each fire extinguisher used.

(q) The nature and extent of each injury.

(r) A description of all property damage and vessel damage with an estimate of the cost of all repairs.

(s) A description of each equipment failure that caused or contributed to the cause of the casualty.

(t) A description of the vessel casualty or accident.

(u) The type of vessel operation (cruising, drifting, fishing, hunting, or other), and the type of accident (capsizing, sinking, fire, or explosion or other).

(v) The opinion of the person making the report as to the cause of the casualty.

(w) The make, model, type (open, cabin, house, or other), beam width at widest point, length, depth from transom to keel, horsepower, propulsion (outboard, inboard, inboard outdrive, sail, or other), fuel (gas, diesel, or other), construction (wood, steel, aluminum, plastic, fiberglass, or other), and year built (model year), of the reporting operator's vessel.

(x) The name, address, and telephone number of each witness.

(y) The manufacturer's hull identification number, if any, of the reporting operator's vessel.

(z) The name, address, and telephone number of the person submitting the report.

§ 170.59 Where to report.

A report required by § 170.55 must be submitted to—

(a) The reporting authority listed in Appendix A of this part where the vessel number was issued or, if the vessel has no number, where the vessel is principally used; or

(b) The reporting authority where the casualty or accident occurred, if it occurred outside the State where the vessel is numbered or principally used.

Subpart D—Issue of Certificate of Number

§ 170.71 Application for certificate of number.

Any person who is the owner of a vessel to which § 170.11 applies may apply for a certificate of number for that vessel by submitting to the issuing authority, listed in Appendix A of this part, where the vessel will principally be used—

(a) An application on a form and in a manner prescribed by the issuing authority; and

(b) The fee required by the issuing authority.

§ 170.73 Duplicate certificate of number.

If a certificate of number is lost or destroyed, the person whose name appears on the certificate as the owner may apply for a duplicate certificate by submitting to the issuing authority that issued the certificate—

(a) An application on a form or in a manner prescribed or the issuing authority; and

(b) The fee required by the issuing authority, if any.

§ 170.75 Temporary certificate.

A temporary certificate valid for not more than 60 days after it is issued may be issued by an issuing authority pending the issue of a certificate of number. A temporary certificate is not valid after the date that the owner receives the certificate of number from the issuing authority.

§ 170.77 Validity of certificate of number.

(a) Except as provided in paragraphs (b), (c), and (d) of this section, a certificate of number is valid until the date of expiration prescribed by the issuing authority.

(b) A certificate of number issued by an issuing authority is invalid after the date upon which—

(1) The vessel is documented or required to be documented under Part 67 of this chapter;

(2) The person whose name appears on the certificate of number as owner of the vessel transfers all of his ownership in the vessel; or

(3) The vessel is destroyed or abandoned.

(c) A certificate of number issued by an issuing authority is invalid if—

(1) The application for the certificate of number contains a false or fraudulent statement; or

(2) The fees for the issuance of the certificate of number are not paid.

(d) A certificate of number is invalid 60 days after the day on which the vessel is no longer principally used in the State where the certificate was issued.

§ 170.79 Expiration of Coast Guard certificate of number.

A certificate of number issued by the Coast Guard expires 3 years from the date it is issued.

§ 170.81 Coast Guard forms for numbering and casualty reporting.

(a) In a State where the Coast Guard is the issuing authority, the following Coast Guard forms must be used:

(1) Each application for a certificate of number or renewal must be made on two-part Form CG–3876 and 3876A, Application for Number and Temporary Certificate.

(2) Each notifiaction required by § 170.29(b) must be made on Form CG–2921, Notification of Change in Status of Vessel.

(3) Each notification required by § 170.29(a) must be made on Form CG–3920, Change of Address Notice.

(4) Each notification required by § 170.29(c) must be made in writing.

(5) Each application for a duplicate certificate of number must be made on two-part Form CG–3919 and CG–3919A, Application for Duplicate Certificate of Number and Temporary Duplicate Certificate.

(6) Each vessel casualty required to be reported by § 170.55 must be made on Form CG–3865.

(b) Each surrender of a certificate of number required by § 170.31 may be made in any form but must contain a written statement as to why the certificate is being surrendered.

§ 170.83 Availability of Coast Guard forms.

In a State where the Coast Guard is the issuing authority, forms required by § 170.81 are available at all manned Coast Guard shore units, except light and loran stations and, except for Form CG–3865, at all first- and second-class and some third- and fourth-class post offices.

§ 170.85 Coast Guard fees.

(a) In a State where the Coast Guard is the issuing authority the fees for numbering are—

(1) Original number and two validation stickers—$6;

(2) Renewal of number and two validation stickers—$6;

(3) Duplicate certificate of number—$1; and

(4) Replacement of lost or destroyed validation sticker—$0.25 each.

(b) Fees must be paid by check or money order made payable to the "U.S. Coast Guard," except when the application is made in person by the owner, the fee may be paid in cash.

APPENDIX A

ISSUING AUTHORITIES AND REPORTING AUTHORITIES

(a) The State is the issuing authority and reporting authority in:

State	State
Alabama—AL.	Nebraska—NB.
Arizona—AZ.	Nevada—NV.
Arkansas—AR.	New Jersey—NJ.
California—CF.	New Mexico—NM.
Colorado—CL.	New York—NY.
Connecticut—CT.	North Carolina—NC.
Delaware—DL.	North Dakota—ND.
Florida—FL.	Ohio—OH.
Georgia—GA.	Oklahoma—OK.
Hawaii—HA.	Oregon—OR.
Idaho—ID.	Pennsylvania—PA.
Illinois—IL.	Puerto Rico—PR.
Indiana—IN.	Rhode Island—RI.
Iowa—IA.	South Carolina—SC.
Kansas—KA.	South Dakota—SD.
Kentucky—KY.	Tennessee—TN.
Louisiana—LA.	Texas—TX.
Maine—ME.	Utah—UT.
Maryland—MD.	Vermont—VT.
Massachusetts—MS.	Virginia—VA.
Michigan—MC.	Virgin Islands—VI.
Minnesota—MN.	West Virginia—WV.
Mississippi—MI.	Wisconsin—WS.
Missouri—MO.	Wyoming—WY.
Montana—MT.	

(b) The Coast Guard is the issuing authority and reporting authority in:

State	State
Alaska—AK.	Guam—GM.
American Samoa—AS.	New Hampshire—NH
District of Columbia—DC.	Washington—WN.

(c) The abbreviations following the names of the States listed in paragraphs (a) and (b) are the two capital letters that must be used in the number format to denote the State of principal use as prescribed in § 171.29.

PART 171—STATE NUMBERING AND CASUALTY REPORTING SYSTEMS

Subpart A—General

Sec.
171.1 Applicability.
171.3 Definitions.
171.5 Requirements for approval.
171.7 Approval procedure.

Subpart B—Numbering System Requirements

171.11 Applicability of state numbering system.
171.13 Owner or operator requirements.
171.15 Validation stickers.
171.17 Contents of application for certificate of number.
171.19 Contents of a certificate of number.
171.21 Contents of temporary certificate.
171.23 Form of number.
171.25 Size of certificate of number.
171.27 Duration of certificate of number.
171.29 Temporary certificate of number.
171.31 Terms and conditions for numbering vessels.

Subpart C—Casualty Reporting System Requirements

171.101 Applicability of state casualty reporting system.
171.103 Administration.
171.105 Owner or operator casualty reporting requirements.
171.107 Contents of casualty or accident report.

Subpart D—State Reports

171.121 Forwarding of casualty or accident reports.
171.123 Annual report of numbered vessels.
171.125 Coast Guard address.

AUTHORITY: The provisions of this Part 171 issued under sec. 18 and 37 of the Federal Boat Safety Act of 1971, Public Law 92–75, 85 Stat. 213, 220, 227 (Aug. 10, 1971); 49 CFR 1.46(o)(1) (36 F.R. 19593).

Subpart A—General

§ 171.1 Applicability.

This part establishes a standard numbering system for vessels and a uniform vessel casualty reporting system for vessels by prescribing requirements applicable to the States for the approval of State numbering systems.

§ 171.3 Definitions.

As used in this part:

(a) "Act" means the Federal Boat Safety Act of 1971 Public Law 92–75, 85 Stat. 213.

(b) "Operator" means the person who is in control or in charge of a vessel while it is in use.

(c) "Owner" means a person who claims lawful possession of a vessel by virtue of legal title or equitable interest therein which entitles him to such possession.

(d) "Reporting authority" means a State where a numbering system has been approved by the Coast Guard or the Coast Guard where a numbering system has not been approved. Reporting authorities are listed in Appendix A of Part 170 of this chapter.

§ 171.5 Requirements for approval.

The Commandant approves a State numbering system if he finds, after examination of the information submitted by a State, that the State numbering system and vessel casualty reporting system meet the requirements in this part and the provisions of sections 18 through 24 and section 37 of the Act relating to numbering and casualty reporting.

§ 171.7 Approval procedure.

To obtain approval by the Commandant of a numbering system or of any revision to a numbering system, an authorized representative of the State must submit three copies of the State laws, regulations, forms, and policy statements, if any, that pertain to the numbering system or revision to U.S. Coast Guard (BL/62), 400 Seventh Street SW., Washington, DC 20590.

Subpart B—Numbering System Requirements

§ 171.11 Applicability of State number system.

(a) Except as allowed in paragraph (c) of this section, a State numbering system must require the numbering of vessels to which § 170.11 of this chapter applies.

(b) A State numbering system may require the numbering of any vessel subject to the jurisdiction of the State unless prohibited by the regulations in Part 170 of this chapter.

(c) A State numbering system may exempt from its numbering requirements any vessel or class of vessels to which § 170.13 of this chapter applies.

§ 171.13 Owner or operator requirements.

A State numbering system must contain the requirements applicable to an owner or a person operating a vessel that are prescribed in the following sections of Part 170 of this chapter:

(a) Paragraph (a) of § 170.15 Vessel number required.
(b) Section 170.19 Other numbers prohibited.
(c) Paragraph (a) of § 170.21 Certificate of number required.
(d) Section 170.23 Inspection of certificate.
(e) Section 170.25 Location of certificate of number.
(f) Section 170.29 Notification to issuing authority.
(g) Section 170.31 Surrender of certificate of number.
(h) Section 170.33 Removal of number.
(i) Section 170.71 Application for certificate of number.
(j) Section 170.73 Duplicate certificate of number.

§ 171.15 Validation stickers.

(a) If a State issues validation stickers, its numbering system must contain the requirements that stickers must be displayed aft of the number and the stickers must meet the requirements in paragraphs (b) and (c) of this section.

(b) Validation stickers must be approximately 3 inches square.

(c) The year in which each validation sticker expires must be indicated by the colors blue, international orange, green, and red, in rotation beginning with blue for stickers that expire in 1973.

§ 171.17 Contents of application for certificate of number.

(a) Each form for application for a certificate of number must contain the following information:

(1) Name of the owner.
(2) Address of the owner, including ZIP code.
(3) Date of birth of the owner.
(4) Citizenship of the owner.
(5) State in which vessel is or will be principally used.
(6) The number previously issued by an issuing authority for the vessel, if any.
(7) Whether the application is for a new number, renewal of a number, or transfer of ownership.
(8) Whether the vessel is used for pleasure, rent or lease, dealer or manufacturer demonstration, commercial passenger carrying, commercial fishing, or other commercial use.
(9) Make of vessel.
(10) Year vessel was manufactured.
(11) Manufacturer's hull identification number, if any.
(12) Overall length of vessel.
(13) Type of vessel (open, cabin, house, or other).
(14) Whether the hull is wood, steel, aluminum, fiberglass, plastic, or other.
(15) Whether the propulsion is inboard, outboard, inboard-outdrive, or sail and name of engine manufacturer if available.
(16) Whether the fuel is gasoline, diesel, or other.
(17) The signature of the owner.

APR 19 72 XUM

(b) An application made by a manufacturer or dealer for a number that is to be temporarily affixed to a vessel for demonstration or test purposes may omit items 9 through 16 of paragraph (a) of this section.

(c) An application made by a person who intends to lease or rent the vessel without propulsion machinery may omit items 15 and 16 of paragraph (a) of this section.

§ 171.19 Contents of a certificate of number.

(a) Except as allowed in paragraph (b) of this section, each certificate of number must contain the following information:

(1) Number issued to the vessel.
(2) Expiration date of the certificate.
(3) State of principal use.
(4) Name of the owner.
(5) Address of owner, including zip code.
(6) Whether the vessel is used for pleasure, rent or lease, dealer or manufacturer demonstration, commercial passenger carrying, commercial fishing or other commercial use.
(7) Manufacturer's hull identification number (if any).
(8) Make of vessel.
(9) Year vessel was manufactured.
(10) Overall length of vessel.
(11) Whether the vessel is an open boat, cabin cruiser, houseboat, or other type.
(12) Hull material.
(13) Whether the propulsion is inboard, outboard, inboard-outdrive, or sail.
(14) Whether the fuel is gasoline, diesel, or other.
(15) A quotation of the State regulations pertaining to change of ownership or address; documentation, loss, destruction, abandonment, theft, or recovery of vessel; carriage of the certificate of number on board when vessel is in use; rendering aid in a boat accident; and reporting of vessel casualties and accidents.

(b) A certificate of number issued to a vessel that has a manufacturer's hull identification number assigned, may omit items 8 through 14 of paragraph (a) of this section if the manufacturer's hull identification number is plainly marked on the certificate.

(c) A certificate of number issued to a manufacturer or dealer to be used on a vessel for test or demonstration purposes may omit items 7 through 14 of paragraph (a) of this section if the word "manufacturer" or "dealer" is plainly marked on the certificate.

(d) A certificate of number issued to a vessel that is to be rented or leased without propulsion machinery may omit items 13 and 14 of paragraph (a) of this section if the words "livery vessel" are plainly marked on the certificate.

§ 171.21 Contents of temporary certificate.

A temporary certificate issued pending the issuance of a certificate of number must contain the following information:

(a) Make of vessel.
(b) Length of vessel.
(c) Type of propulsion.
(d) State in which vessel is principally used.
(e) Name of owner.
(f) Address of owner, including zip code.
(g) Signature of owner.
(h) Date of issuance.
(i) Notice to the owner that the temporary certificate is invalid after 60 days from the date of issuance.

§ 171.23 Form of number.

(a) Each number must consist of two capital letters denoting the State of the issuing authority, as specified in Appendix A of Part 170 of this chapter, followed by—

(1) Not more than four numerals followed by not more than two capital letters (NH 1234 BD); or

(2) Not more than three numerals followed by not more than three capital letters (WN 567 EFG).

(b) A number suffix must not include the letters "I," "O," or "Q," which letters may be mistaken for numerals.

§ 171.25 Size of certificate of number.

Each certificate of number must be approximately 2½ by 3½ inches.

§ 171.27 Duration of certificate of number.

A certificate of number must not be valid for more than 3 years.

§ 171.29 Temporary certificate of number.

A State may issue a temporary certificate of number that is effective for not more than 60 days.

§ 171.31 Terms and conditions for vessel numbering.

A State numbering system may condition the issuance of a certificate of number on—

(a) Title to, or other proof of ownership of a vessel except a recreational-type public vessel of the United States; or

(b) The payment of State or local taxes, except for a recreational-type public vessel of the United States.

Subpart C—Casualty Reporting System Requirements

§ 171.101 Applicability of State casualty reporting system.

(a) A State casualty reporting system must require the reporting of vessel casualties and accidentc involving vessels to which § 170.51 of this chapter applies.

(b) The State casualty reporting system may require vessel casualty or accident reports resulting in property damage of less than $100.

§ 171.103 Administration.

The State casualty reporting system must be administered by a State agency that—

(a) Will provide for the reporting of all casualties and accidents prescribed by § 170.55 of this chapter.

(b) Receives reports of vessel casualties or accidents required by § 171.101;

(c) Reviews accident and casualty reports to assure accuracy and completeness of reporting;

(d) Determines the cause of casualties and accidents reported;

(e) Notifies the Coast Guard, in writing, when a problem area in boating safety peculiar to the State is determined, together with corrective measures instituted or recommended; and

(f) Reports on vessel numbering and vessel casualties and accidents as required in Subpart D of this part.

§ 171.105 Owner or operator casualty reporting requirements.

A State vessel casualty reporting system must contain the following requirements of Part 170 of this chapter applicable to an owner or a person operating a vessel:

(a) Section 170.55 Report of casualty or accident.
(b) Section 170.59 Where to report.
(c) Section 170.53 Immediate notification of death or disappearance.
(d) Section 170.57 Casualty or accident report.
(e) Section 170.61 Rendering of assistance in casualties.

§ 171.107 Contents of casualty or accident report form.

Each form for reporting a vessel casualty or accident must contain the information required in § 170.57 of this chapter.

Subpart D—State Reports

§ 171.121 Forwarding of casualty or accident reports.

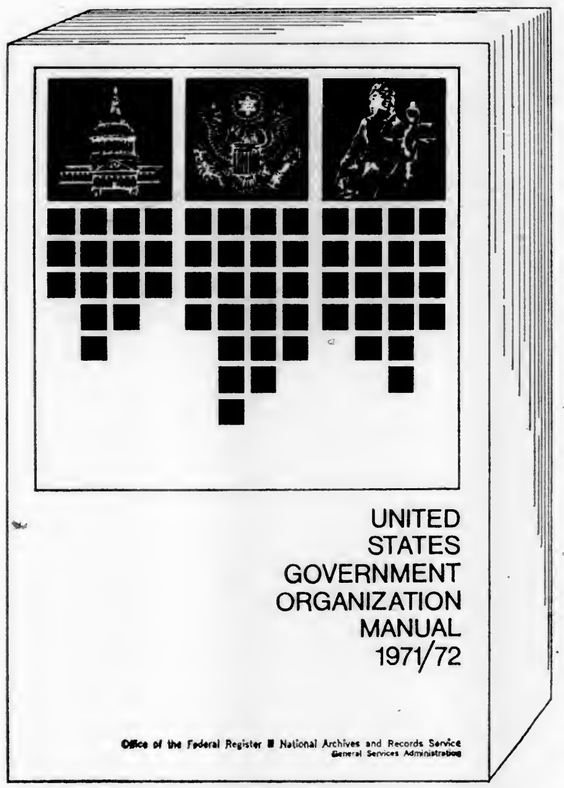
Within 30 days of the receipt of a casualty or accident report, each State that has an approved numbering system must forward a copy of that report to the Commander of the Coast Guard District in which the State Capitol is located, except that Ohio and Minnesota must forward reports to the Commander, Ninth Coast Guard District, and Vermont to the Commander, Third Coast Guard District.

§ 171.123 Annual report of numbered vessels.

Before March 1 of each year, each State that has an approved numbering system must prepare and submit Coast Guard Form CGHQ–3923, Report of Certificates of Number Issued to Boats, to the Coast Guard.

§ 171.125 Coast Guard address.

The report required by § 171.123 must be sent to U.S. Coast Guard (BD/62) 400 Seventh Street SW., Washington, DC 20590.



This proposal is made under the authority of sections 18 and 37 of the Federal Boat Safety Act of 1971, Public Law 92–75, 85 Stat. 213, 220, 227 (Aug. 10, 1971); 49 CFR 1.46(0)(1) (36 F.R. 19593).

Dated: April 9, 1972.

A. C. WAGNER,
Rear Admiral, U.S. Coast Guard,
Chief, Office of Boating Safety.

Office of the Federal Register ■ National Archives and Records Service
General Services Administration

Know your Government...

The Manual describes the creation and authority, organization, and functions of the agencies in the legislative, judicial, and executive branches.

Most agency statements include new "Sources of Information" listings which tell you what offices to contact for information on such matters as:

- Consumer activities
- Environmental programs
- Government contracts
- Employment
- Services to small businesses
- Availability of speakers and films for educational and civic groups

This handbook is an indispensable reference tool for teachers, students, librarians, researchers, businessmen, and lawyers who need current official information about the U.S. Government.

FEDERAL REGISTER
Area Code 202 Phone 962-8626

Published daily, Tuesday through Saturday (no publication on Sundays, Mondays, or on the day after an official Federal holiday), by the Office of the Federal Register, National Archives and Records Service, General Services Administration, Washington, D.C. 20408, pursuant to the authority contained in the Federal Register Act, approved July 26, 1935 (49 Stat. 500, as amended; 44 U.S.C., Ch. 15), under regulations prescribed by the Administrative Committee of the Federal Register, approved by the President (1 CFR Ch. I). Distribution is made only by the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

The FEDERAL REGISTER will be furnished by mail to subscribers, free of postage, for $2.50 per month or $25 per year, payable in advance. The charge for individual copies is 20 cents for each issue, or 20 cents for each group of pages as actually bound. Remit check or money order, made payable to the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

The regulatory material appearing herein is keyed to the CODE OF FEDERAL REGULATIONS, which is published, under 50 titles, pursuant to section 11 of the Federal Register Act, as amended (44 U.S.C. 1510). The CODE OF FEDERAL REGULATIONS is sold by the Superintendent of Documents. Prices of new books are listed in the first FEDERAL REGISTER issue of each month.

There are no restrictions on the republication of material appearing in the FEDERAL REGISTER or the CODE OF FEDERAL REGULATIONS.

Title 3—The President

EXECUTIVE ORDER 11667

Establishing the President's Advisory Committee on the Environmental Merit Awards Program

On October 31, 1971, I announced the establishment of the President's Environmental Merit Awards Program. The Administrator of the Environmental Protection Agency and the Commissioner of Education sent letters to high school principals inviting them to participate in this program by establishing local tripartite committees to supervise and direct local Environmental Merit Awards Programs, and to make awards to individual students or groups of students for significant environmental accomplishments by them. These committees were to be composed of students, faculty and interested members of the community.

Today, more than 2,500 high schools, including schools in each of the 50 States, are actively involved in this program.

In view of this encouraging response, I have concluded that I should establish a national committee to advise me of ways in which this program can be further expanded and enhanced and of other ways in which the environmental accomplishments of individuals and groups may be appropriately recognized.

NOW, THEREFORE, by virtue of the authority vested in me by the Constitution and laws of the United States, it is hereby ordered as follows:

SECTION 1. (a) There is hereby established the President's Advisory Committee on the Environmental Merit Awards Program. The Committee shall be composed of a Chairman, to be designated by the President, and such members as the President may, from time to time, appoint.

(b) The Committee shall advise the President and the Administrator of the Environmental Protection Agency on ways in which the Environmental Merit Awards Program can be expanded and enhanced. The Committee shall select individuals or groups of individuals who deserve special recognition for their local environmental accomplishments and confer appropriate Environmental Merit Awards upon them on behalf of the President. The Committee shall perform such other related functions as the President may, from time to time, specify.

SEC. 2. No member of the Committee shall receive compensation from the United States by reason of service as a member of the Committee but

V 37-77 APR 20 72 XUM

such members may be allowed such travel expenses, including per diem in lieu of subsistence, as may be authorized by law.

SEC. 3. The Environmental Protection Agency shall provide, to the extent permitted by law, administrative support for the Committee and the Environmental Merit Awards Program.

THE WHITE HOUSE,
April 19, 1972.

Title 7—AGRICULTURE

Chapter I—Agricultural Marketing Service (Standards, Inspections, Marketing Practices), Department of Agriculture

PART 29—TOBACCO

Subpart A—Policy Statement and Regulations Governing the Extension of Tobacco Inspection and Price Support Services to New Markets and to Additional Sales on Designated Markets

On February 15, 1972, notice of proposed rule making regarding revisions to Subpart A—Policy Statement and Regulations Governing the Extension of Tobacco Inspection and Price Support Services to New Markets and to Additional Sales on Designated Markets (7 CFR Part 29) was published in the FEDERAL REGISTER (37 F.R. 3362).

The aforesaid policy statement and regulations are concurrent and identical statements of agency policy and rules and regulations issued pursuant to the authority of the Tobacco Inspection Act (49 Stat. 731, 7 U.S.C. 511 et seq.) and the Commodity Credit Corporation Charter Act (62 Stat. 1070, as amended, 15 U.S.C. 714 et seq.) and the Agricultural Act of 1949, as amended (63 Stat. 1051; 7 U.S.C. 1421 et seq.).

Statement of considerations. The notice of proposed revisions included (1) advancing the closing dates for filing applications to March 15 for Flue-cured and July 15 for Burley; (2) that no oral hearing be held on an application which was denied the previous year, unless the review committee considers it to contain new and substantial evidence of such changed circumstances as would warrant oral hearing; (3) new language further defining and clarifying the time and manner of filing applications and the criteria to be considered in deciding applications; and (4) minor revisions of certain definitions.

Interested persons were given 30 days in which to submit written data, views, or arguments regarding the proposed revised regulations. No objections to the proposals were received. The proposed revisions provide a more convenient schedule for hearings and decisions on applications for tobacco inspection and price support services, and clarify these regulations in other respects. After consideration of all relevant facts, the Policy Statement and Regulations so proposed are hereby adopted without change and are set forth below.

Effective date. These regulations shall become effective 30 days following the date of publication in the FEDERAL REGISTER.

Done at Washington, D.C., this 12th day of April 1972.

RICHARD E. LYNG,
Assistant Secretary.

Subpart A—Policy Statement and Regulations Governing the Extension of Tobacco Inspection and Price Support Services to New Markets and to Additional Sales on Designated Markets.

Sec.
29.1 Definitions.
29.2 Policy statement.
29.3 Procedures for filing, hearing, and determination of applications.

AUTHORITY: The provisions of this Subpart A issued under sec. 14, 49 Stat 734, as amended; sec. 4, 62 Stat. 1070, as amended, 7 U.S.C. 511m, 15 U.S.C. 714b. Interpret or apply sec. 5, 62 Stat. 1072 secs. 101, 401, 403, 63 Stat. 1051, as amended, 1054 as amended, 15 U.S.C. 714c, 7 U.S.C. 1441, 1421, 1423.

Subpart A—Policy Statement and Regulations Governing the Extension of Tobacco Inspection and Price Support Services to New Markets and to Additional Sales on Designated Markets

§ 29.1 Definitions.

For purposes of this Subpart A, the following terms shall have the following meanings:

(a) "Additional sale" means an additional auction sale proposed to be conducted on a designated market.

(b) "Adequate set of buyers" means 5 or more buyers representing 5 or more companies or buying organizations which either will use the tobacco in the manufacture of tobacco products in this country or in foreign countries, or will pack and sell the tobacco later for use by manufacturers in this country or foreign countries, and who could reasonably be expected to purchase at least two-thirds of the total U.S. production of the kind of tobacco for which the additional services are requested.

(c) "Auction market" means a marketing center containing one or more warehouses where tobacco is delivered by producers thereof, or their agents, for sale by the auction process. There may be one or more auction sales on an auction market.

(d) "Bona fide auction sale" and "auction sale" mean the buying and selling of tobacco offered by producers by the auction process which customarily and usually consists of an adequate set of buyers; an auctioneer who takes each buyer's bid; a sales starter who makes the opening bid on each lot; and a ticket marker who records the applicable sales data on each lot.

(e) "Designated market" means an auction market designated by the Secretary under section 5 of the Tobacco Inspection Act.

(f) "Secretary" means the Secretary of Agriculture of the United States, or any officer or employee of the U.S. Department of Agriculture to whom authority has heretofore been delegated, or to whom authority may hereafter be delegated, to act in his stead.

(g) "New market" means an auction market, other than a designated market, at which inspection service under the tobacco Inspection Act was not provided on a regular basis during the preceding marketing season.

(h) "Hearing Clerk" means the Hearing Clerk of the U.S. Department of Agriculture, Washington, D.C. 20250.

(i) "Kind of tobacco" means any one of the following: Flue-cured, Burley, Fire-cured, Dark air-cured, Maryland or Virginia sun-cured.

V 37-77 APR 20 72 XUM

§ 29.2 Policy statement.

Inspection and price support services currently provided in auction marketing areas are adequate and the lack of these services is not a limiting factor to accelerated marketings or the extension of price support to producers. Consequently, the extension of inspection and price support services, without limitation, would not contribute to the effectuation of the purposes of either of these services. The additional cost incident to the unlimited extension of these services would be unjustifiable and excessive in relation to the total quantity of tobacco available for market. Accordingly, inspection and price support services shall be made available on new markets and additional sales only as hereinafter provided. Also, since these services shall be made available to new markets and additional sales only as herein provided, referenda incident to market designations shall not be conducted until auction markets seeking designation have qualified for inspection and price support services as herein provided.

(a) *Reasonable inspection and price support services.* The extension of tobacco inspection and price support services to new markets and additional sales will be conditioned upon the reasonableness of such services existing in the marketing area of the proposed new market or additional sale. Transactions in tobacco as conducted at auction markets customarily involve the sale of tobacco at a bona fide auction sale. Determination with respect to reasonableness, and consequently with respect to granting or denying additional services, will be based on evidence (1) that the proposed new market or additional sale will function as a bona fide auction sale, and (2) that additional services are justifiable in relation to other market data, including the volume of tobacco produced in the area surrounding the proposed new market or additional sale; the roads and road distances involved in moving tobacco to the proposed new market or additional sale in relation to other tobacco marketing centers; the relative availability or congestion of all facilities for redrying and packing tobacco handled or to be handled in the proposed new market or additional sale; the location of other auction markets on which tobacco produced in the marketing area of the proposed new market or additional sale may be marketed; the number of tobacco growers to be affected by the proposed new market or additional sale; the volume of tobacco likely to be sold in the proposed new market or additional sale; the relationship of sales in the proposed new market or additional sale to sales in other auction markets in the producing area for that kind of tobacco; and other economic factors affecting the marketing of tobacco, by growers, in the marketing area of the proposed new market or additional sale and in the producing area for that kind of tobacco, including limitations on sales imposed by any marketing agreement and/or order, or by any other means.

(b) *Order of priority.* If the Secretary finds that there are insufficient qualified tobacco inspectors available to service adequately all applicants otherwise found to be qualified for additional inspection service pursuant to this subpart for a kind of tobacco, those applicants found to be eligible for additional services on auction markets designated for free and mandatory inspection shall be given priority over applicants for additional inspection service on a fee basis on other auction markets. If it becomes necessary to determine which of several qualified applicants having an equal order of priority under the preceding sentence shall receive additional inspection and price support services, those auction sales or auction markets where the greatest number of growers needing such service may be served with the qualified inspectors shall have priority. If an application for an additional sale on a designated market is denied for lack of qualified inspectors, the Secretary, on application from such market, may temporarily suspend the requirement of inspection and certification on such market pursuant to section 5 of the Tobacco Inspection Act.

(c) *Price support services to be through warehouses.* Price support services on any auction market will be offered through tobacco auction warehouses operating in such market, and, notwithstanding any provision of this subpart, the offering of price support services through any auction warehouse located on any auction market will be conditioned upon a qualified, responsible warehouseman entering into an approved auction warehouse contract under the provisions of the applicable tobacco price support program, published at Part 1464 of this title.

§ 29.3 Procedures for filing, hearing, and determination of applications.

(a) *Time and place of filing.* Applications for the extension of tobacco inspection and price support services to new markets and to additional sales on designated markets shall be filed, in triplicate, with the Hearing Clerk not later than March 15 in the case of Flue-cured tobacco, December 1 in the case of Maryland tobacco, and July 15 in the case of Burley and all other kinds of tobacco. Applications should be addressed to the Hearing Clerk, U.S. Department of Agriculture, Washington, D.C. 20250. Applications which are not received by the Hearing Clerk on or before the foregoing cutoff date for the kind of tobacco shall be rejected as untimely filed. After denial of an application for additional inspection and price support services for a marketing season, no application from the same auction market or proposed new market shall be considered for the next consecutive marketing season, unless the application contains a statement by the applicant setting forth new facts that constitute evidence of such a substantial change in conditions since the previous hearing as the review committee as specified in paragraph (h) of this section deems would warrant such further hearing.

(b) *Form and content of application.* The application shall be in writing, shall set forth the grounds for the application and shall be signed by the applicant or applicants. If an applicant is a corporation, the application shall be executed by a responsible officer of such corporation. The application shall include a statement of the name, address and form of business organization of each party to the application and the location of the proposed new market or additional sale.

(c) *Hearings on applications.* Following the closing date for filing applications for each kind of tobacco, a hearing or hearings shall be held on the applications, if any, filed for additional inspection and price support services for the kind of tobacco in question. Such hearing or hearings shall be scheduled to begin within 50 days following the closing date for such applications. Notice of hearing shall be issued by the Secretary, filed with the Hearing Clerk, and published in the FEDERAL REGISTER, and a copy shall be mailed by the Hearing Clerk to each applicant. Such publication and mailing shall be not less than 5 days prior to the opening of the hearing.

(d) *Presiding officer.* The presiding officer at each such hearing shall be a Hearing Examiner of the Office of Hearing Examiners of the U.S. Department of Agriculture or such other employee of the Department of Agriculture as the Secretary may designate to act as presiding officer at such hearing. The presiding officer shall determine the order of procedure at the hearing, shall have power to administer oaths and affirmations, to rule on and admit evidence, and, following the opening of the hearing, to recess the hearing to such other times and places as he deems desirable or necessary.

(e) *Scope of hearing and burden of proof.* Each applicant shall have the burden of presenting evidence relative to the factors specified in § 29.2(a).

(f) *Record and evidence.* The proceedings at each such hearing shall be transcribed verbatim. All oral testimony shall be under oath or affirmation. All documentary exhibits shall be submitted in triplicate by the person offering the same. The presiding officer shall, insofar as possible, exclude testimony and exhibits which are irrelevant, immaterial, or not of the sort upon which responsible persons are accustomed to rely. Cross-examination shall be allowed only to the extent that the presiding officer in his discretion deems it desirable or necessary to develop the material facts.

(g) *Briefs.* If requested at the hearing, the presiding officer shall fix a time, not to exceed 20 days from the close of the hearing, within which interested persons may mail briefs to the Hearing Clerk.

(h) *Certification and referral.* As soon as practicable following the close of the hearing, the presiding officer shall certify the transcript of the proceedings at the hearing together with all exhibits and shall transmit the same to the Hearing Clerk for referral to a review committee comprised of the Administrator, Agricultural Marketing Service, the Administrator, Commodity Stabilization Service, and a representative of the Office of the Secretary to be designated by the Secretary.

(i) *Recommended action.* The review committee shall review and consider the applications, hearing record, including exhibits, and all other available information and data relating to applications for each kind of tobacco and shall submit a recommendation thereon to the Secretary.

(j) *Final decision.* The Secretary shall issue the decision on each application and such decision shall be final: *Provided,* That any determination that additional services will be provided may be reconsidered and may be vacated if it is subsequently found that any material fact upon which such determination was based was materially erroneous or false, or that the new market or additional sale in question is not functioning as a bona fide auction sale. Such decision shall be filed with the Hearing Clerk who shall mail a true copy thereof, by certified mail, to the applicant.

Chapter III—Animal and Plant Health Inspection Service, Department of Agriculture

PART 301—DOMESTIC QUARANTINE NOTICES

Subpart—Witchweed

REGULATED AREAS

Pursuant to the provisions of sections 8 and 9 of the Plant Quarantine Act of August 20, 1912, as amended, and section 106 of the Federal Plant Pest Act (7 U.S.C. 161, 162, 150ee), and § 301.80–2 of the Witchweed Quarantine regulations, 7 CFR 301.80–2, as amended, a supplemental regulation designating regulated areas, § 301.80–2a, is hereby amended as follows:

§ 301.80–2a Regulated areas; suppressive and generally infested areas.

The civil divisions and parts of civil divisions described below are designated as witchweed regulated areas within the meaning of the provisions of this subpart; and such regulated areas are hereby divided into generally infested areas or suppressive areas as indicated below:

NORTH CAROLINA

(1) *Generally infested area.*

Bladen County. The entire county.

Columbus County. That part of the county lying north and west of a line beginning at a point where Livingston Creek junctions with the Cape Fear River and extending south along said creek to its intersection with the Seaboard Air Line Railroad, thence west along said railroad to its intersection with State Secondary Road 1740, thence west and south along said road to its junction with U.S. Highways 74 and 76, thence west along said highways to their intersection with Bogue Swamp, thence south along said swamp to its junction with the Waccamaw River and continuing south along said river to its junction with White Marsh Swamp, thence north and northwest along said swamp to its junction with Cypress Creek, thence southwest along said creek to its intersection with State Highway 130, thence northwest along said highway to its junction with State Secondary Road 1166, thence southwest along said road to its junction with State Secondary Road 1157, thence southwest along said road to its junction with U.S. Highway 701, thence south and west along said highway to its intersection with State Secondary Road 1314, thence west along said road to its junction with State Secondary Road 1345, thence southwest along said road to its junction with the North Carolina-South Carolina State line.

Cumberland County. All of Cumberland County excluding the Fort Bragg Military Reservation, the area within the corporate limits of the city of Fayetteville and the unincorporated communities of East Fayetteville and Bonnie Doone.

Duplin County. That area bounded by a line beginning at a point where State Secondary Road 1104 intersects the Duplin-Sampson County line, thence extending north along said county line to its intersection with State Secondary Road 1337, thence northeast along said road to its junction with State Highway 50, thence northwest along said highway to its junction with State Secondary Road 1355, thence northeast along said road to its junction with State Secondary Road 1332, thence northeast along said road to its junction with State Secondary Road 1304, thence north along said road to its junction with State Highway 403, thence northeast along said highway to its junction with State Secondary Road 1368, thence south along said road to its junction with State Secondary Road 1367, thence southeast along said road to its junction with State Secondary Road 1365, thence northeast along said road to its junction with State Secondary Road 1004, thence southeast along said road to its junction with State Secondary Road 1503, thence northeast along said road to its intersection with State Secondary Road 1500, thence southeast along said road to its intersection with State Secondary Road 1507, thence north along said road to its junction with State Secondary Road 1526, thence northeast along said road to its junction with State Secondary Road 1519, thence southeast along said road to its intersection with State Secondary Road 1502, thence north along said road to its junction with the Duplin and Wayne County line, thence northeast along said county line to its junction with the Duplin and Lenoir County line, thence southeast along said county line to its intersection with State Secondary Road 1005, thence south along said road to its junction with State Secondary Road 1733, thence west along said road to its junction with State Secondary Road 1732, thence south along said road to its junction with State Secondary Road 1735, thence south along said road to its junction with State Secondary Road 1700, thence west along said road to its intersection with Cabin Creek, thence south along said creek to its junction with Limestone Creek, thence south along said creek to its intersection with State Highway 24, thence east along said highway to its junction with State Secondary Road 1962, said junction being 0.7 mile west of Beulaville, thence south along State Secondary Road 1962 to its junction with State Secondary Road 1724, thence southwest along said road to its junction with State Secondary Road 1800, thence northwest along said road to its junction with State Secondary Road 1961, thence west along said road to its intersection with the Northeast Cape Fear River, thence northwest along said river to its junction with Grove Creek, thence west along said creek to its junction with the Kenansville city limits, thence southwest along said city limits to its intersection with State Highway 11, thence south along said highway to its junction with State Secondary Road 1922, thence southwest along said road to its junction with State Secondary Road 1909, thence south along said road to its junction with State Secondary Road 1912, thence west along said road to its intersection with the Magnolia city limits, thence south, west, and north along said city limits to its intersection with State Secondary Road 1003, thence southwest along said road to its junction with State Secondary Road 1101, thence southeast along said road to its intersection with State Secondary Road 1102, thence southwest along said road to its junction with State Secondary Road 1126, thence west along said road to its intersection with State Secondary Road 1100, thence southeast along said road to its junction with State Highway 41, thence southwest along said highway to its intersection with the Duplin and Sampson County line, thence northwest and northeast along said county line to the point of beginning.

Harnett County. That area bounded by a line beginning at a point where the Harnett-Lee County line and State Secondary Road 1209 intersect and extending southeast along said road to its junction with State Highway 27, thence east along said highway to its junction with State Secondary Road 1117, thence south along said road to its junction with State Secondary Road 1128, thence east along said road to its junction with State Highway 210, thence northeast along said highway to its junction with State Secondary Road 2030, thence southeast along said road to its junction with State Secondary Road 2031, thence south along said road to its intersection with the Harnett-Cumberland County line, thence west along said county line to its junction with the Harnett-Moore County line, thence north along Hector Creek and State Secondary Road 1111 to its junction with State Secondary Road 1110, thence west along said road to its junction with State Secondary Road 1108, thence southwest along said road to its junction with State Secondary Road 1106, thence north along said road to its junction with State Highway 27, thence northeast along said road to its junction with State Secondary Road 1201, thence north along said road to its junction with Lee-Harnett County line, thence northeast along said county line to the point of beginning.

The Edwards, Charles, farm located on the north side of State Secondary Road 1128, and 0.9 mile southwest of the junction of said road with State Secondary Road 1130.

The Harrington, Luke, farm located on both sides of State Highway 27 and 0.4 mile west of the junction of said highway with State Secondary Road 1242.

The Harrington, Redin, farm located at the end of a dirt road and 0.8 mile north of the junction of said road with State Highway 27, and said junction being 1 mile west of the junction of said highway with State Secondary Road 1242.

The Jenkins, Cecil, farm located on both sides of State Secondary Road 1251 and 1 mile south of the junction of said road with State Secondary Road 1291.

The McLeod, Carl, farm located on both sides of State Highway 27 and 0.8 mile west of the junction of said highway and State Secondary Road 1242.

The Morgan, Robert, farm located on the south side of State Secondary Road 1291 and 0.4 mile east of the junction of said road with State Secondary Road 1251.

The Parker, E. O., farm located on the north side of State Secondary Road 2034 and 0.7 mile west of the junction of said road with U.S. Highway 401.

Hoke County. All of Hoke County lying south and west of the Fort Bragg Military Reservation.

Games Preserve Plot No. 16 located on the east side of King Road and 0.7 mile northwest of its junction with Plank Road lying

V 37-77 APR 20 72 XUM

within the Fort Bragg Military Reservation.

Johnston County. That area bounded by a line beginning at a point where State Secondary Road 1116 and State Highway 50 intersect and extending southeast along said highway to its intersection with the Johnston-Sampson County line, thence west along said county line to its intersection with State Highway 242, thence north along said highway to its intersection with State Secondary Road 1116, thence east along said road to the point of beginning.

Lenoir County. That area bounded by a line beginning at a point where State Secondary Road 1311 and State Secondary Road 1002 junction, and extending northeast along State Secondary Road 1311 to its junction with State Secondary Road 1309, thence north along said road to its junction with State Secondary Road 1324, thence southeast along said road to its junction with State Secondary Road 1331, thence north along said road to its junction with State Secondary Road 1332, thence east along said road to its junction with State Secondary Road 1333, thence north along said road to its junction with State Secondary Road 1330, thence east along said road to its junction with State Secondary Road 1336, thence southeast along said road to its junction with State Secondary Road 1324, thence southwest along said road to Whitelace Creek, thence east and south along said creek to State Secondary Road 1161, thence west along said road to its junction with State Highway 55, thence southwest along said road to Squirrel Creek, thence north and northwest along said creek to the Neuse River, thence west along said river to Dallys Creek, thence south and west along said creek to its intersection with State Highway 55, thence west along said highway to State Secondary Road 1002, thence north along said road to the point of beginning.

Pender County. That area bounded by a line beginning at a point where State Secondary Road 1104 intersects the Pender-Bladen County line, and extending northeast along said county line to its junction with Black River, thence east along said river to its junction with Colvines Creek, thence north and northwest along said creek to its intersection with State Secondary Road 1201, thence east along said road to its intersection with the Atlantic Coast Line Railroad, thence southeast along said railroad to its intersection with State Secondary Road 1125, thence northeast along said road to its intersection with Moores Creek, thence northeast and northwest along said creek to its intersection with State Secondary Road 1128, thence southwest along said road to its junction with State Secondary Road 1207, thence northwest along said road to its junction with State Secondary Road 1208, thence west along said road to its junction with State Secondary Road 1206, thence northeast along said road to its intersection with State Secondary Road 1207, thence northwest along said road to its junction with State Secondary Road 1209, thence east along said road to its intersection with U.S. Highway 421, thence southeast along said highway to its intersection with State Secondary Road 1113, thence southwest along said road to its intersection with the Atlantic Coast Line Railroad, thence northwest along said railroad to its intersection with State Highway 210, thence southwest along said highway to its junction with State Secondary Road 1103, thence southeast along said road to its junction with State Secondary Road 1104, thence southwest and northwest along said road to the point of beginning.

That area bounded by a line beginning at a point where State Secondary Road 1517, junctions with U.S. Highway 117, and extending northwest along said highway to its intersection with State Secondary Road 1412, thence east along said road to its junction with State Secondary Road 1411, thence southwest along said road to its intersection with Pike Creek, thence southeast along said creek to its junction with the Northeast Cape Fear River, thence south along said river to its intersection with State Highway 210, thence southwest along said highway to its junction with State Secondary Road 1518, thence southeast along said road to its junction with State Secondary Road 1517, thence west along said road to the point of beginning.

Robeson County. The entire county.

Sampson County. The entire county.

Scotland County. That area bounded by a line beginning at a point where U.S. Highway 15–401 intersects the North Carolina-South Carolina State line and extending northeast along said highway to its junction with U.S. Highways 15A–401A, thence north along said highway to its junction with U.S. Highway 501, thence north along said highway to its intersection with U.S. Highway 15–401, thence southwest along said highway to its intersection with State Secondary Road 1300, thence northwest along said road to its junction with State Secondary Road 1116, thence northwest along said road to its junction with State Secondary Road 1324, thence north along said road to its junction with State Secondary Road 1345, thence northwest along said road to its intersection with State Secondary Road 1341, thence northeast along said road to its junction with State Secondary Road 1328, thence north along said road to its intersection with the southern boundary of the Sandhills Game Management Area, thence east along said boundary to its intersection with U.S. Highway 15–501, thence north along said highway to its intersection with the Scotland-Hoke County line, thence southeast along said county line to the Scotland-Robeson County line, thence south and southwest along said county line to the North Carolina-South Carolina State line, thence northwest along said state line to the point of beginning, excluding the area within the corporate limits of the city of Laurinburg and the town of East Laurinburg.

The Bunch, Archie W., farm located at the intersection of State Secondary Roads 1323 and 1001.

The Butler, Luther, farm located on the south side of State Secondary Road 1154 and 0.2 mile east of the junction of said road with State Secondary Road 1155.

The Calhoun, L. E., farm located on the south side of State Highway 79 and 0.3 mile west of its junction with State Secondary Road 1118.

That area on the Camp Mackall Military Reservation (Fort Bragg Military Reservation) known as the Game Reserve Plot located on the west side of the Rhine-Luzon jump zone.

The King, J. Lloyd, farm located on the northwest side of State Secondary Road 1128 and 0.3 mile southwest of its junction with State Secondary Road 1101.

The Morgan, J. D., farm located on the east side of State Secondary Road 1346 and 0.5 mile north of the junction of said road with State Secondary Road 1343.

The Morgan, J. D., farm located on both sides of State Secondary Road 1345 and 0.1 mile northwest of its junction with State Secondary Road 1342.

The Newton, Peter F., farm located at the intersection of State Secondary Roads 1334, 1336, and 1345.

The Odoms, Hobson, farm located on both sides of State Secondary Road 1108 and 0.4 mile west of its junction with State Secondary Road 1100.

The Steele, J. D., farm located on both sides of State Secondary Road 1351 and 0.9 mile northwest of the junction of said road with State Secondary Road 1346.

Wayne County. That area bounded by a line beginning at a point where U.S. Highway 70 and the Wayne-Lenoir County line intersect and extending south along said county line to its junction with the Wayne-Duplin County line, thence southwest and west along said county line to its intersection with State Secondary Road 1937, thence north on said road to its intersection with Buck Swamp Creek, thence westward along said creek to its intersection with U.S. Highway 117, thence northward along said highway to its junction with State Secondary Road 1929, thence east along State Secondary Road 1929 to its intersection with State Secondary Road 1926, thence north along said road to its junction with 1918, thence northeastward along said road to its junction with State Secondary Road 1915, thence southeast and south along said road to its junction with State Secondary Road 1120, thence east along a line projected from a point at the junction of State Secondary Roads 1120 and 1915 to the junction of said line with a point located at the junction of Sleepy Creek and Neuse River, thence east along the Neuse River to its intersection with State Highway 111, thence north along said highway to its junction with U.S. Highway 70, thence southeast along said highway to the point of beginning.

That area bounded by a line beginning at a point where U.S. Highway 13 and State Secondary Road 1006 intersect, and extending south along said road to its junction with State Secondary Road 1108, thence west along said road to its junction with State Secondary Road 1109, thence west along said road to its junction with State Secondary Road 1105, thence south along said road to its intersection with the Wayne-Sampson County line, thence northwest along said county line to its intersection with State Secondary Road 1009, thence north along said road to its junction with State Secondary Road 1103, thence north along said road to its junction with State Secondary Road 1101, thence east along said road to its intersection with State Secondary Road 1105, thence north along said road to its intersection with U.S. Highway 13, thence east along said highway to the point of beginning.

(2) *Suppressive area.*

Brunswick County. The Babson, N. L., farm located on the west side of State Secondary Road 1321 and 0.4 mile south of its junction with State Highway 130.

The Frink, D. M., farm located on the north side of State Secondary Road 1145 at its junction with State Secondary Road 1147.

The Griffin, John, farm located on the west side of State Secondary Road 1304, and 1.3 miles northeast of junction of said road with U.S. Highway 17.

The Hughes, Luther H., farm located at the end of a farm road on the west side of State Highway 130, which farm road junctions with State Highway 130 at a point 1.1 miles south of the junction of State Highway 130 and State Secondary Road 1321.

The Inman, Frank D., farm located on the west side of State Secondary Road 1333 and 0.1 mile north of its junction with State Secondary Road 1328.

The Meares, Hobson, farm located on both sides of State Secondary Road 1165, and 2 miles south of the intersection of said road with U.S. Highway 17 at Thomasboro.

The Register, W. C., farm located on the south side of State Secondary Road 1147 and 0.3 mile east of the junction of said road and State Secondary Road 1143.

The Russ, John R., farm located on both sides of State Secondary Road 1308 and 1 mile west of the junction of said road with State Highway 904 at Longwood.

The Simmons, W. V., farm located on the west side of State Secondary Road 1333 and

on the north side of its junction with State Secondary Road 1328.

The Smith, B. Coda, farm located on the west side of a dirt road and 0.6 mile north of its junction with State Secondary Road 1322, said junction being 0.1 mile west of the junction of State Secondary Road 1322 and State Secondary Road 1321.

The Smith, Jessie O., farm located on the north side of State Highway 904 and its junction with State Secondary Road 1321.

The Smith, Newman, farm located on the south side of State Secondary Road 1322 at its junction with State Secondary Road 1321.

The Ward, N. G., farm located on the southwest side of State Secondary Road 1300, 0.5 mile west of the junction of said road with U.S. Highway 17.

Columbus County. The Hickman Bros., farm located on the south side of State Highway 904 at the junction of said road with State Secondary Road 1129.

The Long, Ernest H., farm located on the northeast side of State Secondary Road 1934, and 0.1 mile north of its junction with State Secondary Road 1935.

The Prince, J. Carl, farm located on both sides of State Secondary Road 1119 and 2.2 miles west of its junction with State Secondary Road 1103.

The Prince, Jennings L., farm located at the junction of State Secondary Road 1108 and State Secondary Road 1109.

The Squires, Alva O., farm located on the east side of State Highway 211 and 0.3 mile south of the intersection of said highway with State Secondary Road 1740.

The Suggs, Lacy, farm located at the end of a dirt road, 0.5 mile southeast of the junction of said road with State Secondary Road 1108, said junction being 0.7 mile northeast of the junction of State Secondary Road 1108 and State Secondary Road 1118.

The Watts, Gaddie, farm located on the southwest side of State Highway 904 at a point 136 yards southeast of the junction of said road with State Secondary Road 1127.

Duplin County. The Bostic, F. J., farm located on the west side of State Highway 50, at the junction of said highway and State Secondary Road 1730.

The Crow, T. C., farm located on the south side of State Secondary Road 1321 and 0.8 mile west of the junction of said road with State Secondary Road 1302.

The Faison, I. R., farm located on the east side of State Secondary Road 1301 and 1.4 miles north of its junction with State Secondary Road 1335.

The Green, Willie, farm located on both sides of State Secondary Road 1971, and 0.6 mile southwest of the junction of said road and State Highway 50.

The Jackson, Emmitt, farm located on the east side of State Secondary Road 1301 and 1.3 miles north of its junction with State Secondary Road 1335.

The Johnson, C. M., farm located on the southwest side of State Secondary Road 1139 and 0.6 mile northwest of the junction of said road with State Secondary Road 1133.

The Kalmar, J. N., farm located on the south side of State Highway 403 and 0.5 mile west of its junction with State Secondary Road 1304.

The Kennedy, Sidney J., farm located on the east side of State Secondary Road 1718 and 0.2 mile south of the junction of said road and State Highway 41.

The King, W. R., farm located on the east side of State Secondary Road 1302 and 0.1 mile south of the junction of said road and State Secondary Road 1308.

The Kissner, Henry, farm located on the southwest side of State Secondary Road 1139 and 0.7 mile northwest of its junction with State Secondary Road 1133.

The Precythe, Harold, farm located on the east side of U.S. Highway 117 and 0.1 mile south of the junction of said road and State Secondary Road 1354.

The Summerlin, Oliver, farm located on the south side of State Highway 403 and 0.1 mile east of the corporate limits of the town of Faison.

Harnett County. That area bounded by a line beginning at a point where Harnett-Lee County line and State Secondary Road 1201 intersect and extending south on said road to its junction with State Highway 27, thence west on said road 0.4 mile to its junction with State Secondary Road 1106, thence south on said road to its junction with State Secondary Road 1108, thence east on said road to its junction with State Secondary Road 1110, thence southeast on said road to its junction with State Secondary Road 1111, thence extending south along Hector Creek to its junction with the Moore-Cumberland-Harnett County line, thence northwest and northeast along the Moore-Harnett County line to its junction with the Moore-Lee-Harnett County line, thence northeast along the Harnett-Lee County line to the point of beginning.

The Blalock, Clarence J., farm located at the end of a dirt road and 0.4 mile northwest of the junction of said road with State Secondary Road 1540, said junction being 0.4 mile northeast of the junction of said secondary road with State Secondary Road 1542.

The Blalock, F. P., farm located on the northeast side of State Highway 55 and 0.3 mile northwest of the intersection of said highway with State Secondary Road 1006.

The Johnson, Sr., Jonah C., farm located at the junction of State Secondary Road 1553 and 1555. The farm lies in the northeast portion of this junction.

The Parrish, Eddie L., farm located on both sides of State Secondary Road 1532 and 0.1 mile west of the junction of said road with State Secondary Road 1547.

The Wagner, W. L., farm located on both sides of State Highway 55 and 0.2 mile northwest of the intersection of said highway and State Secondary Road 1006.

Johnston County. The Barefoot, Wade H., farm located on a farm road and 0.4 mile south of its junction with State Secondary Road 1144 and 0.4 mile west of the intersection of said road with State Secondary Road 1145.

The Beasley, Rufus P., farm located on the west side of State Secondary Road 1138, and 0.4 mile south of its junction with Secondary Road 1144.

The Blackman, Dewey, farm located on the south side of State Secondary Road 1146, and 0.4 mile east of the junction of said road with State Secondary Road 1145.

The Braswell, J. G., farm located on the east side of State Secondary Road 2519 and 0.4 mile north of the junction of State Secondary Roads 2519 and 2520.

The Davis, I. H., farm located on the southwest side of State Secondary Road 1197 and 0.1 mile southeast of the junction of said road with State Secondary Road 1198.

The Everett, Betty, farm located on the west side of State Secondary Road 2541 and 0.5 mile south of the junction of said road with State Secondary Road 1007.

The Everett, Betty, farm located on a farm road and 0.6 mile west of its junction with State Secondary Road 2541, said junction being 1.9 miles south of the junction of State Secondary Roads 2541 and 1007.

The Everett, Jaspar, farm located on a farm road and 0.5 mile west of its junction with State Secondary Road 2541, said junction being 1.9 miles south of the junction of State Secondary Roads 2541 and 1007.

The Hudson, Price, Estate farm located on a farm road and 0.4 mile north of its junction with State Secondary Road 1008, said junction being 0.8 mile northeast of the intersection of State Secondary Road 1008 with U.S. Highway 701.

The Johnson, Annie, farm located on the west side of State Secondary Road 1138 and 0.5 mile south of its junction with State Secondary Road 1144.

The Johnson, Wade, farm located on both sides of State Secondary Road 1144 and 0.2 mile west of the junction of said road with State Secondary Road 1138.

The Lee, Blanche, Maye, and Mildred, farm located on the south side of State Secondary Road 1144 and 0.8 mile west of the junction of said road with U.S. Highway 701.

The Martin, Emitt, farm located on the east side of State Secondary Road 2519 and 0.3 mile north of the junction of State Secondary Roads 2519 and 2520.

The McArthur, Margaret, farm located on a farm road and 1.4 miles north of its junction with State Secondary Road 1199 and 0.9 mile west of the junction of said road with State Secondary Road 1008.

The Oliver, Mrs. Beulah, farm located on the southeast side of the junction of State Secondary Road 2540 with State Secondary Road 2372.

The right-of-way of State Secondary Road 1144 beginning 1.4 miles west of its junction with U.S. 701 and extending west for one-fourth mile from this point.

Jones County. That area bounded by a line beginning at a point where State Secondary Road 1117 intersects the Jones-Onslow County line, and extending northwest along said road to its junction with State Secondary Road 1116, thence east and southeast along said road to its junction with State Secondary Road 1118, thence southwest along said road to its intersection with the Jones-Onslow County line, thence northwest and west along said county line to the point of beginning.

The Robinson, Charlie, farm located on the east side of a dirt road and 0.6 mile southeast of its intersection with State Primary Highway 34, said intersection being 0.9 mile northeast of State Secondary Highway 35 and State Primary Highway 34.

Dillon County. The entire county.

Florence County. That area bounded by a line beginning at a point where State Secondary Highway 925 and State Secondary Highway 24 junction and extending east and southeast along State Secondary Highway 24 to its junction with State Secondary Highway 13; thence along a line projected due east from said junction to its intersection with the Great Pee Dee River, thence south along said river to its junction with Barfield's Old Mill Creek, thence northwest and west along said creek to its intersection with State Secondary Highway 57, thence north along said highway to its junction with State Secondary Highway 893, thence west and southwest along State Secondary Highway 893 to its junction with State Secondary Highway 70, thence northwest along said highway to its junction with State Secondary Highway 897, thence southwest and south along said highway to its junction with State Primary Highway 51, thence west and northwest along said highway to its intersection with State Primary Highway 327, thence northwest and west along said highway to its junction with State Secondary Highway 552, thence north along said highway to is junction with State Secondary Highway 551, thence northwest along a dirt road to its junction with a second dirt road, said junction being 0.1 mile east of Goodland School, thence northeast along said second dirt road to its junction with State Secondary Highway 57, thence southeast along said highway to its intersection with the Seaboard Air Line Railroad, thence northwest along said railroad to its intersection with State Secondary Highway 13, thence east along said highway to its junction with State Secondary Highway 918, thence north and northeast along said highway to its junction with State Primary Highway 327, thence north along said highway to its intersection with U.S. Highway 76, thence west along said highway to its junction with State Secondary Highway 925, thence north along said highway to the point of beginning, excluding the area within the unincorporated limits of the town of Hyman.

That area bounded by a line beginning at a point where State Secondary Highway 794 and State Secondary Highway 72 junction and extending south along State Secondary Highway 72 to its intersection with State Secondary Highway 46, thence northeast along said highway to its intersection with State Secondary Highway 34, thence southeast along said highway to its junction with State Secondary Highway 360, thence northeast along said highway to its junction with a dirt road, said junction being 1.6 miles northeast of the junction of State Secondary Highwaya 34 and 360, thence southeast along said dirt road for a distance of 1.2 miles to its junction with a second dirt road, thence southwest along said dirt road to its junction with State Secondary Highway 34, thence south along said highway to its junction with U.S. Highway 378, thence west along said highway to its junction with State Secondary Highway 47, thence northwest and west along said highway to the corporate limits of the town of Scranton, thence north and west along the east and north perimeter of said corporate limits to its intersection with the Atlantic Coast Line Railroad, thence north along said railroad to the corporate limits of the town of Coward, thence north along the east perimeter of the town of Coward to its intersection with State Secondary Highway 794, thence northeast along said highway to the point of beginning.

That area bounded by a line beginning at a point where State Secondary Highway 66 and the Seaboard Air Line Railroad intersect and extending southeast along said railroad to its intersection with State Secondary Highway 57, thence south along said highway to its junction with U.S. Highway 378, thence west along said highway to its intersection with Deep Creek, thence southwest along said creek to its junctions with Lynches River, thence west along said river to its junction with Little Swamp, thence north along said swamp to its intersection with State Secondary Highway 66, thence east along said highway to the point of beginning.

The Alford, A. A., farm located on both sides of State Secondary Highway 164 and 0.1 mile south of its intersection with Cypress Branch.

The Carroway, Luther, farm located on both sides of State Primary Highway 51 and 0.1 mile northwest of the intersection of said highway and State Secondary Highway 46.

The Edwards, R. L., farm located on the east side of State Primary Highway 51 and 1.1 miles northwest of its junction with State Secondary Highway 86.

The Holliday, Henry, farm located on the west side of State Primary Highway 51 and 1.6 miles north of its intersection with State Secondary Highway 66.

The Lyde, Mamie, farm located on the east side of State Secondary Highway 72 and 0.5 mile south of its junction with State Secondary Highway 794.

The McPherson, R. F., farm located on the south side of State Secondary Highway 57 and 1.5 miles southeast of the intersection of said highway and State Primary Highway 51.

The Poston, Mrs. J. J., farm located on the west side of State Secondary Highway 164 and 0.8 mile northwest of its junction with State Secondary Highway 86.

Horry County, That area bounded by a line beginning at a point where State Secondary Highway 33 intersects the South Carolina-North Carolina State line and extending south along said highway to its intersection with State Secondary Highway 306, thence west along said highway to its intersection with State Secondary Highway 142, thence south along said highway to its junction with State Primary Highway 9, thence northwest along said highway to its intersection with State Secondary Highway 59, thence southwest and south along said highway to its junction with State Primary Highway 917, thence southwest along said highway to its intersection with State Secondary Highway 19, thence south and southeast along said Highway 19 to its intersection with U.S. Highway 701 at Allsbrook, thence northeast along said highway to its intersection with State Primary Highway 9, thence southeast and south along said highway to its intersection with the Waccamaw River, thence northeast along said river to its intersection with the South Carolina-North Carolina State line, thence southeast along said State line to its intersection with U.S. Highway 17, thence southwest along said highway to its junction with State Primary Highway 90, thence west along said highway to its intersection with a dirt road known as Telephone Road, said intersection being 1.3 miles west of Wampee, thence southwest and south along Telephona Road to its end, thence northwest along a projected line for 1.9 miles to its junction with Jones Big Swamp, thence northwest along said swamp to its junction with the Waccamaw River, thence west along said river to its intersection with Stanley Creek, thence north along said creek 1.6 miles, thence northwest along said creek 2.8 miles, thence north along a line projected from a point beginning at the end of the main run of said creek, and extending north to the junction of said line with State primary Highway 905, thence southwest along said highway to its junction with State Secondary Highway 19, thence north along said highway 2.4 miles to its junction with a dirt road, thence southwest along said road to its intersection with Maple Swamp, thence north along said swamp to its intersection with State Secondary Highway 65, thence southwest along said highway to its junction with U.S. Highway 701, thence south along said highway to its intersection with U.S. Highway 501, thence northwest along said highway to its intersection with State Secondary Highway 548, thence west along said highway to its junction with a dirt road, thence west along said dirt road to its junction with State Secondary Highway 78, thence north along said highway to its junction with State Secondary Highway 391, thence northeast along said highway to its junction with U.S. Highway 501, thence southeast along said highway to its junction with State Secondary Highway 591, thence north along said highway to its intersection with State Secondary Highway 97, thence east 0.2 mile to its intersection with a dirt road, thence north along said dirt road to its junction with State Primary Highway 319, thence northwest along said highway to its junction with State Secondary Highway 131, thence east and north along said highway to its intersection with Looeing Swamp, thence west and northwest along said swamp to its intersection with State Secondary Highway 45, thence southwest along said highway to its junction with State Highway 129, thence northwest along said highway to its junction with U.S. Highway 501, thence northwest along the latter highway to its intersection with Little Pee Dee River, thence northwest along said river to its junction with the Lumber River, thence northeast along said river to its intersection with the South Carolina-North Carolina State line, thence southeast along said State line to the point of beginning, excluding the area within the corporate limits of the towns of Conway and Loris.

The Alford, Alex, farm located on the south side of a dirt road and being 2 miles southwest and west of the junction of said dirt road and State Secondary Highway 99, said junction being 1.75 miles north of the junction of said highway and State Secondary Highway 97.

The Arnett, Henry and D. C., farm located on both sides of a dirt road and 2.5 miles east of its junction with State Secondary Highway 33, and said junction being 2.5 miles north of the junction of said highway and State Primary Highway 410.

The Atkinson, John A., farm located on the east side of a dirt road and being 1 mile north of the junction of said dirt road with U.S. Highway 378 and State Secondary Highway 63.

The Barnhill, Edgar, farm located on both sides of a dirt road and 0.4 mile east of its junction with State Primary Highway 90, said junction being 0.1 mile northeast of the junction of said highway and State Secondary Highway 377.

The Bowens, Willie, farm located at the end of a field road and 0.6 mile south of its junction with State Secondary Highway 319, said junction being 0.4 mile east of Aynor Post Office.

The Cooper, James E., farm located on the south side of a dirt road and 0.5 mile east of its junction with State Secondary Highway 78, said junction being 1.25 miles northwest of the junction of said highway and U.S. Highway 378.

The Edge, Nina L., farm located on the west side of a dirt road and 0.8 mile southeast of its junction with a second dirt road, said junction being 0.5 mile south of the junction of the second dirt road and State Primary Highway 90, said second junction being 0.8 mile southwest of the junction of said highway and State Secondary Highway 31.

The Fowler, Jennie Bell, farm located at the end of a farm road which junctions with a county road, said junction being 0.5 mile east of the Oakdale Baptist Church.

The Fowler, O. B., farm located on both sides of a dirt road and 0.1 mile north of the intersection of said dirt road and State Primary Highway 9, said intersection being at Gorstown.

The Frye, L. C., farm located on the south side of a dirt road and 1 mile west of the junction of State Secondary Highways 24 and 62, said junction being in the Dog Bluff community.

The Gore, Sumpter, farm located on both sides of a dirt road and 0.75 mile north of the intersection of said dirt road and State Primary Highway 9, said intersection being at Goretown.

The Graham, Bud Neals, farm located at the end of a dirt road and 0.6 mile east of its junction with a second dirt road said junction being 0.75 mile south of the junction of the second dirt road and State Secondary Highway 78, said second junction being 0.75 mile southeast of Juniper Bay Church.

The Holliday Brothers farm located on the south side of a dirt road and 0.8 mile west of its intersection with U.S. Highway 501, said intersection being 1.8 miles south of the junction of said highway and State Secondary Highway 129.

The Johnson, Mayberry, farm located on the south side of State Primary Highway 917 at its junction with State Secondary Highway 59.

The Johnson, Sam, farm located on the north side of a dirt road and 1 mile east of its junction with State Secondary Highway 78, said junction being 1.9 miles northwest of the junction of said highway and U.S. Highway 378.

The Jordan, Blease, farm located on the north side of a dirt road and 0.6 mile east of its junction with State Secondary Highway 78, said junction being 1.9 miles northwest of the junction of said highway and U.S. Highway 378.

The Lewis, Boyd, farm located on the north side of a dirt road and 0.75 mile west of the intersection of said dirt road and State Secondary Highway 24, said intersection being in the Dog Bluff community.

The Lewis, J. T., farm located on the south side of State Secondary Highway 100, and 1.9 miles west of the junction of said highway and U.S. Highway 501, said junction being at Aynor.

The Martin, Daniele E., farm located on the side of State Primary Highway 90 and 0.9 mile northeast of the junction of said highway and State Secondary Highway 377.

The Milligan, O. L., farm located on both sides of a dirt road and 0.1 mile southwest of its junction with the South Carolina-North Carolina State line, said junction being 1.6 miles northeast of a second junction with said dirt road and State Secondary Highway 420.

The Page, Cordie, farm located on the north side of State Secondary Highway 128 and 0.4 mile west of the junction of said highway and U.S. Highway 501, said junction being at Aynor.

The Page, Mattie C., farm located on the north side of a dirt road and 0.2 mile east of the junction of said dirt road and State Secondary Highway 129, said junction being 0.3 mile southeast of the intersection of said highway and State Secondary Highway 130.

The Reynolds, Dick, farm located on the south side of a dirt road and 0.4 mile west of its intersection with U.S. Highway 501, said intersection being 1.8 miles south of the junction of said highway and State Secondary Highway 129.

The Richardson, Talmage, farm located on the north side of a dirt road and 1 mile southwest of the junction of said dirt road and State Secondary Highway 99, said junction being 1.75 miles north of the junction of said highway and State Secondary Highway 97.

The Sarvis, Ida B., farm located on the northwest side of State Secondary Highway 109 and 1.5 miles northeast of its junction with State Secondary Highway 79.

The Sarvis, Ida B., farm located on the southwest side of a dirt road and 0.1 mile northwest of its junction with State Secondary Highway 109, said junction being 1.5 miles northeast of the junction of said highway and State Secondary Highway 79.

The Shelley, O. R., farm located on the east side of a dirt road and 0.8 mile northeast of the junction of said dirt road and State Secondary Highway 306, said junction being 1.1 miles west of the intersection of State Secondary Highway 306 and the South Carolina-North Carolina State line.

The Williamson, Vida, farm located on both sides of a dirt road and 0.4 mile from the junction of said dirt road and State Primary Highway 410, said junction being 0.7 mile northeast of the intersection of State Primary Highway 410 and State Secondary Highway 19.

Marion County. The entire county.

Marlboro County. That portion of the county lying south and east of U.S. Highway 15, excluding the area within the corporate limits of the towns of Bennettsville, McColl, and Tatum.

The Bass, Phillip, farm located on the west side of State Secondary Highway 257 and 0.5 mile northeast of its intersection with State Secondary Highway 165.

The Bowen, Gus, farm located on the south side of the junction of State Secondary Highways 22 and 43, said junction being 2.9 miles northwest of Tatum.

The Caulk, C. C., farm located on the north side of State Secondary Highway 283 and 0.3 mile east of the junction of said highway and State Primary Highway 38.

The Chavis, Dewey, farm located on the northwest side of State Secondary Highway 209 and 0.1 mile northeast of its intersection with State Primary Highway 9.

The Chavis, Graham Lee, farm located on the northwest side of State Secondary Highway 209 and 0.2 mile northeast of its intersection with State Primary Highway 9.

The Chavis, Homer, farm located in the north corner of the intersection of State Secondary Highway 209 with State Primary Highway 9.

The Conwell, Hossie, farm located on both sides of a dirt road and 1.3 miles northeast from the junction of said dirt road and State Secondary Highway 30, said junction being 0.5 mile northwest from the intersection of said State Secondary Highway 30 and State Secondary Highway 165.

The Croft, Lucille, farm located on the east side of State Primary Highway 79 and 0.3 mile south of its junction with State Secondary Highway 345.

The Fletcher, Oscar J., farm located on the southwest side of State Secondary Highway 28 and 0.6 mile northwest of the junction of said highway and U.S. Highway 15.

The Hamer, Lois P., farm located on both sides of a dirt road and 0.1 mile north of the junction of said dirt road and U.S. Highway 15, said junction being 0.1 mile northwest of the intersection of U.S. Highway 15 and State Secondary Highway 22 at Tatum.

The Joseph, James, farm located on the southeast side of State Secondary Highway 165 and 1.2 miles southwest of its intersection with State Secondary Highway 257.

The Ham, Ralph, farm located on the east side of a dirt road and 1.7 miles northwest of its junction with U.S. Highway 301, said junction being 0.7 mile northeast of the junction of said highway and State Secondary Highway 45.

The Hannah, Bert, farm located on the south side of a dirt road and 1 mile west of its junction with State Secondary Highway 633, said junction being 0.1 mile south of the junction of said highway and State Secondary Highway 58.

The Kelly, Boyd, estate farm located on the west side of State Secondary Highway 136 and 1.2 miles northwest of its intersection with State Secondary Highway 35.

The Langston, Jimmy, farm located on the west side of a dirt road and 0.7 mile west of its junction with State Secondary Highway 136, said junction being 1.4 miles north of the intersection of State Secondary Highways 136 and 35.

The Nowlin, Ed, farm located on the north side of a dirt road and 0.8 mile west of its junction with State Secondary Highway 136, said junction being 0.9 mile north of the intersection of State Secondary Highways 136 and 35.

The Rogers, F. B., farm located on the east side of State Secondary Highway 26 and 2.1 miles northeast of its intersection with Black Creek.

The Turner, V. A., farm located on the west side of State Secondary Highway 633 and 0.1 mile south of its junction with State Secondary Highway 58.

The Yarborough, S. L., farm located on both sides of State Secondary Highway 95 and 1.7 miles southeast of Sardis.

Marlboro County. The Bell, Nettie, farm located on the south side of the South Carolina-North Carolina State line and 0.4 mile east of its intersection with State Primary Highway 177.

The Holmes, T. H., farm located on the south side of the South Carolina-North Carolina State line and 0.5 mile east of its intersection with State Primary Highway 177.

The Strong, Marvin, farm located on the south side of the South Carolina-North Carolina State line and 1.3 miles east of its intersection with State Primary Highway 177.

(Secs. 8 and 9, 37 Stat. 318, sec. 106, 71 Stat. 33; 7 U.S.C. 161, 162, 150ee; 29 F.R. 16210, as amended; 7 CFR 301.80–2)

The Deputy Administrator of Plant Protection and Quarantine Programs has determined that witchweed infestations have been found or that there is reason to believe they exist in the civil divisions, parts of civil divisions, or premises in the quarantined States listed above, or that it is necessary to regulate such areas because of their proximity to witchweed infestations or their inseparability for quarantine enforcement purposes from witchweed infested localities. The Deputy Administrator has further determined that each of the quarantined States is enforcing a quarantine or regulation with restrictions on intrastate movement of the regulated articles substantially the same as the restrictions on interstate movement of such articles imposed by the quarantine and regulations in this subpart, and that designation of less than the entire State as a regulated area will otherwise be adequate to prevent the interstate spread of witchweed. Accordingly, such civil divisions, parts of civil divisions, and premises listed above are designated as witchweed regulated areas.

The purpose of this amendment is to delete from regulation the entire counties of Craven and Pitt, and one property each from Duplin, Jones, Lee, and Pender Counties in North Carolina, and the entire counties of Clarendon and Williamsburg in South Carolina. In addition, in North Carolina, Montgomery County is again regulated, and the regulated area extended in the previously regulated counties of Duplin, Harnett, Johnston, Lenoir, Moore, Onslow, Pender, and Richmond.

Therefore, under the administrative procedure provisions of 5 U.S.C. 553, it is found upon good cause that notice of rule making and other public procedure with respect to this amendment are impracticable and unnecessary, and contrary to the public interest, and good cause is found for making the amendment effective less than 30 days after publication in the FEDERAL REGISTER.

This amendment shall become effective upon publication in the FEDERAL REGISTER (4–20–72).

Done at Washington, D.C., this 13th day of April 1972.

LEO G. K. IVERSON,
Acting Deputy Administrator, Plant Protection and Quarantine Programs.

Chapter VII—Agricultural Stabilization and Conservation Service (Agricultural Adjustment), Department of Agriculture

SUBCHAPTER C—SPECIAL PROGRAMS

PART 775—FEED GRAINS

Subpart—Feed Grain Set-Aside Program for Crop Years 1972–73

On September 11, 1971, notice of proposed rule making regarding determinations with respect to the 1972 crop of feed grains was published in the FEDERAL REGISTER (36 F.R. 18322). Interested persons were invited to submit written data, views, and recommendations regarding the determinations within 30 days. The comments received have been duly considered.

This subpart, which is issued pursuant to the Agricultural Act of 1949, as amended by the Agricultural Act of 1970, Public Law 91–524, 84 Stat. 1358, supersedes for the crop years 1972–73 the regulations governing the Feed Grain Set-Aside Program for Crop Years 1971–73, 36 F.R. 12835, as amended. This subpart, which incorporates the provisions of the existing regulations with the following principal changes, sets forth the conditions under which feed grain producers may set aside cropland on their farms and earn payments:

1. A new Form ASCS–516 will be used beginning with the 1972 program.

2. Provisions are added under which producers may set aside cropland in addition to the required set-aside (25 percent of the total feed grain base) and earn additional set-aside payments. Barley is a feed grain for 1972.

3. The regulations in Part 796 prohibiting the making of payments to program participants who harvest or knowingly permit to be harvested for illegal use marihuana or other such drug-producing plants on any part of the lands owned or controlled by them are incorporated by reference.

Sec.

775.1 General.

775.23 Supervisory authority of State committee.
775.24 Delegation of authority.

AUTHORITY: The provisions of this subpart issued under sec. 105, 84 Stat. 1368, 7 U.S.C. 1441 note.

§ 775.1 General.

(a) The regulations in this subpart provide terms and conditions for the feed grain set-aside program for the 1972 and 1973 crops of feed grains, respectively, under which payments are made to producers who set aside acreage from the production of any such crop of corn, grain sorghums, and barley (herein called "feed grains") to approved conservation uses and, in addition, maintain the acreage of cropland on the farm devoted in preceding years to soil-conserving uses (herein called "conserving base"), except to the extent that they elect to devote the set-aside acreage to alternate crops in lieu of conservation uses.

(b) If the operator of the farm elects to participate in the program, payments shall be made available to the producers on such farm only if such producers set aside, in accordance with this subpart, an acreage on the farm equal to the sum of the required set-aside and any additional set-aside acreage stated on Form ASCS–516, Intention to Participate and Payment Application (herein called "Form 516").

(c) In accordance with section 101 of the Agricultural Act of 1970 and the regulations in Part 795 of this chapter, as amended, the total amount of payments which a person shall be entitled to receive annually under the program shall not exceed $55,000.

(d) The program is applicable throughout the United States except in Hawaii and Alaska.

§ 775.2 Definitions.

In the regulations in this subpart and in all instructions, forms, and documents in connection therewith, the words and phrases defined in this section shall have the meaning assigned to them herein unless the content or subject matter otherwise requires.

(a) The following words or phrases shall have the meanings assigned to them in Part 719 of this chapter, as amended: "Acquired farm", "agency," "base period", "combination", "county", "community committee", "county committee", "county office", "county executive director", "cropland", "Department", "Deputy Administrator", "displaced owner", "division", "farm", "operator", "person", "reconstitution", "representative of the county committee", "representative of the State committee", "Secretary", "State executive director", "State committee", and "subdivision".

(b) "Alternate crop" means any of the crops which may be produced on the acreage set aside from production under the conditions specified in § 775.15(g).

(c) "Barley acreage" means:

(1) Any acreage planted to barley, and any acreage of volunteer barley which will be harvested as grain, excluding:

(i) Any acreage of barley approved as a conservation use in Part 792 of this chapter, as amended;

(ii) Any acreage of barley destroyed by any means or used for other than grain not later than the certification date;

(iii) Any acreage of barley destroyed by natural causes after the certification date, upon written request by the operator for use as set-aside acreage.

V37-77 APR 20 72 XUM

(2) Any acreage devoted to a mixture of crops if the county committee determines that the predominant crop is barley and such acreage meets the requirements of subparagraph (1) of this paragraph as being barley acreage.

(d) "Certification date" means the certification date as set forth in Part 718 of this chapter, as amended.

(e) "Conserving base" means the acreage of cropland on the farm devoted in preceding years to soil-conserving uses as determined under Part 792 of this chapter, as amended.

(f) "Conservation Reserve Program" (herein called CRP) means the program authorized under the Soil Bank Act, as amended, Part 750 of this chapter, as amended.

(g) "Corn acreage" means:

(1) Any acreage planted to field corn or sterile high-sugar corn, excluding:

(i) Any acreage of corn approved as a conservation use in Part 792 of this chapter, as amended;

(ii) Any acreage of corn destroyed by any means or used for other than grain or silage not later than the certification date;

(iii) Any acreage of corn destroyed by natural causes after the certification date, upon written request by the operator for use as set-aside acreage.

(2) Any acreage devoted to a mixture of crops if the county committee determines that the predominant crop is corn and such acreage meets the requirements of subparagraph (1) of this paragraph as being corn acreage.

(h) "Cropland Adjustment Program" (herein called CAP) means the program authorized under Title VI of the Food and Agriculture Act of 1965, as amended, Part 751 of this chapter, as amended.

(i) "Cropland Conversion Program" (herein called CCP) means the program authorized under section 16(e) of the Soil Conservation and Domestic Allotment Act, as amended, Part 751 of this chapter, as amended.

(j) "Current year" means the calendar year in which the feed grain crop with respect to which payment may be made under this subpart would normally be harvested.

(k) "Feed grain acreage" means the sum of the corn, grain sorghum, and barley acreages on the farm.

(l) "Feed grain planted and considered planted acreage" means the sum of the corn, grain sorghum, and barely acreages as defined in paragraphs (c), (g), and (m) of this section and:

(1) Any acreage which the county committee determines was not planted to feed grains or failed because of drought, flood, or other natural disaster or condition beyond the control of the operator;

(2) Any acreage credited as feed grain acreage (except for new farms) under the provisions of Part 719 of this chapter, as amended, for producers who do not participate and earn a payment under the program;

(3) Any acreage planted and considered planted to wheat under Part 728 of this chapter, as amended, in excess of the allotment which is not credited to cotton (except acreage which the county committee determines was not planted to wheat because of drought, flood, or other natural disaster or condition beyond the control of the operator): *Provided*, That wheat in excess of the allotment shall not be considered as planted to feed grains for purposes of § 775.5(d)(4); and

(4) Any acreage planted to soybeans for harvest as beans which is not credited to wheat or cotton: *Provided*, That soybeans shall not be considered as planted to feed grains for purposes of § 775.5(d)(4).

(m) "Grain sorghum acreage" means:

(1) Any acreage planted to grain sorghums of a feed grain or dual purpose variety (including any cross which, at all stages of growth, has most of the characteristics of a feed grain or dual purpose variety) and any acreage of sweet sorghums used for silage (haylage is a form of silage), excluding:

(i) Any acreage of grain sorghums approved as a conservation use in Part 792 of this chapter, as amended;

(ii) Any acreage of grain sorghums destroyed by any means or used for other than grain or silage not later than the certification date;

(iii) Any acreage of grain sorghums destroyed by natural causes after the certification date, upon written request by the operator for use as set-aside acreage.

(2) Any acreage devoted to a mixture of crops if the county committee determines that the predominant crop is grain sorghums and such acreage meets the requirements of subparagraph (1) of this paragraph as being grain sorghum acreage.

(n) "Great Plains Conservation Program" means the program authorized under section 16(b) of the Soil Conservation and Domestic Allotment Act, as amended, Part 601 of this title, as amended.

(o) "Total feed grain base" means the sum of the feed grain bases established for corn, grain sorghums, and barley for the farm, except that each base shall be excluded that is diverted under CAP or CCP.

(p) "Wheat Set-Aside Program" means the program authorized under title IV of the Agricultural Act of 1970, Part 728 of this chapter, as amended.

(q) "Upland Cotton Set-Aside Program" means the program authorized under title VI of the Agricultural Act of 1970, Part 722 of this chapter, as amended.

§ 775.3 Administration.

(a) The program will be administered under the general supervision of the Administrator, Agricultural Stabilization and Conservation Service (ASCS), and shall be carried out in the field by Agricultural Stabilization and Conservation State and county committees (herein called "State and county committees") and ASCS commodity offices. Notices of base acreages and yields shall be mailed to producers. Applications for payments shall be approved by the county committee or by an authorized representative thereof.

(b) State and county committees, ASCS commodity offices, and representatives and employees thereof do not have authority to modify or waive any of the provisions of the regulations in this subpart, as amended or supplemented.

§ 775.4 Farm conserving base.

The regulations governing the establishment and maintenance of the farm conserving base, Part 792 of this chapter, as amended, shall be applicable to the program.

§ 775.5 Farm feed grain base.

(a) *How obtained.* Except as otherwise provided in this section, the base acreage for each of the commodities—corn, grain, sorghums, and barley—shall be the average of the 1959 and 1960 acreages of the commodity produced on the farm, based upon information available to the county committee, as adjusted by the county committee to correct for abnormal factors affecting production, and to give due consideration to tillage acreage, crop-rotation practices, types of soil, soil and water conservation measures, and topography. On farms with recognized history of irrigated and nonirrigated feed grain acreage in the base period for establishing yields, the base acreage for each applicable commodity shall be established separately for the irrigated acreage and for the nonirrigated acreage. Separate bases for irrigated acreage and for nonirrigated acreage shall not be established for farms where irrigation is used only in drier years. Commodity base acreages for farms determined as set forth in this paragraph shall be approved by a representative of the State committee.

(b) *Adjustment authorized by Administrator.* The Administrator, ASCS, may, upon request of the State committee, authorize the State committee to adjust any feed grain base for farms within the State to the extent necessary to establish fair and equitable feed grain bases within such State.

(c) *Farms with no 1959 and 1960 history.* A farm shall not qualify for payments under the program if there was no feed grain acreage on the farm in 1959 and 1960 unless (1) cropland on the farm was in the conservation reserve program or the great plains conservation program during one or both of the years 1959 and 1960 and either the conservation reserve program contract or the great plains conservation program contract is no longer in effect for all or part of such land, (2) one or more feed grains were grown in 1957 or 1958 and a feed grain base was established in accordance with § 775.212(c)(2) of the 1963 feed grain program regulations, or (3) a new farm base is established in accordance with paragraph (d) of this section.

(d) *New farm base.* (1) The county committee, with the approval of the State committee, shall determine a base (herein called "new farm base") for each eligible farm for which a feed grain base is requested in writing before March 1 of the current year. Each request shall be made by the farm operator or owner on Form MQ-25, Application for New Farm Allotment or Feed Grain Base, which shall contain statements as to location and identification of the farm, name and address of the farm operator, and other data necessary to enable the county committee to determine whether the conditions of eligibility prescribed by subparagraph (2) of this paragraph have been met.

(2) Eligibility for a new farm base shall be conditioned upon the following:

(i) The farm does not otherwise qualify for a feed grain base for any commodity.

(ii) Neither the operator nor the owner of the farm covered by the application owns or operates any other farm in the United States for which a feed grain base is established for the current year.

(iii) The type of soil and topography of the land on the farm for which a base is requested is suitable for the production of the commodity and the production of the commodity on the farm will not result in an undue erosion hazard under continuous production.

(iv) The operator has adequate equipment and other facilities readily available for the successful production of the crop on the farm.

(v) The operator expects to derive during the current year more than 50 percent of his income from the production of agricultural commodities or products from farming. Where the farm operator is a partnership, each partner must expect to derive during the current year more than 50 percent of his income from the production of agricultural commodities or products from farming. Where the farm operator is a corporation, it must have no major corporate purpose other than operation or ownership of such farm, and the officers and general manager of the corporation must expect to derive during the current year more than 50 percent of their income, including dividends and salaries, from the production of agricultural commodities or products from farming. In estimating the income of the farm operator from farming, no value shall be allowed for the estimated return from the production of the requested base. However, credit will be allowed for the estimated value of home gardens, livestock and livestock products, poultry, or other agricultural products produced for home consumption or other use on the farm. The provisions of this subdivision shall not be applicable if the county committee, with the approval of a representative of the State committee, determines that the income of the operator, from both farming and nonfarming sources, will not provide a reasonable standard of living for the operator and his family. In making such determination, the county committee shall consider such factors as size and type of farming operations, estimated net worth, estimated gross family farm income, estimated family off-farm income, number of dependents, and other factors affecting the operator's ability to provide a reasonable standard of living for himself and his family.

(vi) The applicant has at least 2 years' experience in the last 5 years producing the commodity for which a base is requested: *Provided*, That the number of years which may be used in determining whether the applicant has at least 2 years' experience may be increased from 5 years by the number of years in which the applicant could not grow the feed grain commodity because the applicant was in the armed services or the permitted acreage of nonconserving crops was zero on all farms in which the applicant had an interest.

(vii) In the case of a farm which includes land returned to agricultural production after being acquired by an agency having the right of eminent domain for which the total feed grain base was pooled pursuant to Part 719 of this chapter, as amended, at least 3 years have elapsed from the date the former owner was displaced from the acquired farm to the date the request for a new farm base is considered.

(viii) If a farm with a feed grain base is reconstituted and the division of the base, as designated by the farm owner, leaves a divided part of the farm with a zero base, such part shall not be eligible for a new farm base for 3 years following the year the division became effective.

(3) In establishing a new farm base, the county committee shall take into consideration the tillable acres, crop-rotation practices, type of soil, topography, and the farming system to be followed by the operator, including the equipment and other facilities available for the production of feed grain under such system, and shall limit the base to the feed grain acreage planned for the farm for the current year.

(4) Notwithstanding any other provision of this subpart, if the feed grain planted and considered planted acreage for the year a new farm base is established is less than 90 percent of the base, (i) the base for such year shall be reduced to the acreage planted and considered planted to feed grains and payments computed on the basis of such reduced base, and (ii) the total feed grain base for the succeeding year shall be limited to the acreage planted and considered planted to feed grains for the prior year. Bases by commodities for the succeeding year shall be established in proportion to the acreage devoted to each feed grain in the prior year.

(5) The total new farm bases approved in a State in the current year shall not exceed 1 percent of the total feed grain base acreage for all farms in the State. No part of that 1 percent shall be allocated to a farm to reflect new cropland brought into production after November 30, 1970.

(e) *Restrictive lease adjustment.* A feed grain base determined for any commodity under the preceding provisions of this section shall, for the current year only, be adjusted downward to the acreage permitted under a restrictive lease on land owned by the Federal Government. A feed grain base for any commodity as otherwise determined under the preceding provisions of this section shall remain subject to reduction as provided in paragraph (f) of this section.

(f) *Reduced bases.* Notwithstanding any other provision of this subpart—

(1) The feed grain base shall be reduced (i) to the extent requested in writing by the farm owner not later than the closing date for filing form 516, and (ii) to zero for farms permanently removed from agricultural production as determined by the county committee.

(2) If the current year's feed grain planted and considered planted acreage is less than 45 percent of the total feed grain base, the feed grain base for the succeeding year shall be reduced by the percentage by which the planted and considered planted acreage is less than one-half of the total feed grain base for the current year, but such reduction shall not exceed 20 percent of the total feed grain base. In making any such reduction, commodity bases shall be reduced proportionately. If the feed grain planted and considered planted acreage is zero for 3 consecutive years beginning in 1971, the total feed grain base shall be reduced to zero. However, no feed grain base shall be reduced or lost through failure to plant if all producers elect to limit the acres for payment at the minimum acre set-aside payment rates to the feed grain planted and considered planted acreage as provided in § 775.15(j).

(g) *National pool.* Base acreage eliminated from farms under the provisions of paragraph (f) of this section and acreage removed from the eminent domain pool pursuant to Part 719 of this chapter, as amended, shall be placed in a national pool for distribution and adjustments in accordance with instructions issued by the Deputy Administrator.

§ 775.6 County program yields.

County program yields for the current year are determined for each feed grain producing county in the United States, except for counties in Alaska and Hawaii. They are determined on the basis of the yields established for the county for the preceding crop with such adjustments as are determined necessary to provide fair and equitable yields. The county program yields for the current year are available for inspection in the county ASCS office.

§ 775.7 Farm yields and payment rates.

(a) *Farm yields.* The per acre farm yield for corn, grain sorghums, and barley shall be the county yield for the commodity, adjusted to reflect the farm productivity for the commodity and established in accordance with instruction issued by the Deputy Administrator.

(b) *Minimum set-aside payment rates.* (1) The minimum set-aside per bushel payment rates for the 1972 crops of corn, grain sorghums, and barley shall be 40 cents, 38 cents, and 32 cents, respectively. The payment rates for the 1973 crops will be announced by amendment to this subpart. (The rates provided herein shall be increased in the event they are determined to be less than the minimum rates required by section 105(b) of the Agricultural Act of 1949, as amended.)

V 37-77 APR 20 72 XUM

(2) The minimum acre payment rates for corn, grain sorghums, and barley shall be determined by multiplying the farm yield established for the commodity as provided in paragraph (a) of this section by the payment rates provided in subparagraph (1) of this paragraph.

(c) *Additional acre set-aside payment rates.* The 1972 additional acre set-aside payment rates shall be determined by multiplying the farm yield established for the commodity as provided in paragraph (a) of this section by 52 cents for corn, 49 cents for grain sorghums, and 42 cents for barley for acreage set aside under § 775.11(a), and by 80 cents for corn and 76 cents for grain sorghums for acreage set aside under § 775.11(b). Payment rates for 1973 will be announced by amendment to this subpart if payments for additional set-aside are authorized.

§ 775.8 Notice of base acreages, yields, and payment rates.

Each operator interested in the feed grain crop on a farm for which a feed grain base is established shall be notified in writing of the commodity base acreage, the established yield per acre for corn, grain sorghums, and barley, as applicable, the minimum acre set-aside payment rates, the additional acre set-aside payment rates, and the conserving base for the farm: *Provided*, That the notice shall not be mailed to any producer who has filed a written request that he not be furnished the notice but it shall be filed with the producer's request in the county office. The producer may withdraw his request at any time; however, during the period a request is in effect, the producer shall be considered as having been timely and correctly notified of the contents of the notice. Such notice will be on Form ASCS–516 (Notice), Notice of Allotment, Base Acreages, Yields, and Rates (herein called "Form 516 (Notice)").

§ 775.9 Reconstitution of farms.

Farms shall be reconstituted and feed grain bases established therefor in accordance with Part 719 of this chapter, as amended. Yields for farms which are reconstituted after yields are originally established shall be determined as follows:

(a) Combination: Multiply the commodity base by the yield for each parent farm, and divide the sum of the results for all parent farms by the sum of bases for the commodity on the parent farms.

(b) Division: Determine a yield in accordance with § 775.7. The weighted average yields for all the farms resulting from the division are limited to the yield for the parent farm, except for rounding.

(c) Any Form 516 filed for a farm before it is reconstituted shall be canceled and the farm operator notified of the cancellation. A corrected Form 516 may be prepared for the farm(s) as properly constituted even though this action is necessary after the final date for filing Form 516 as specified in § 775.12(c).

§ 775.10 Requirements for eligibility.

(a) *General.* A person is eligible for the program if he is a producer on a farm which meets the requirements of paragraph (b) of this section and he fulfills the requirements of paragraph (c) of this section.

(b) *Farm requirements.* (1) A Form 516 must be filed for the farm by the operator in accordance with § 775.12.

(2) For 1972, an acreage equal to 25 percent of the total feed grain base must be set aside from production and devoted to approved conservation uses: *Provided*, That a producer whose payments under the program are reduced because of the $55,000 payment limitation may request a downward adjustment in the set-aside requirement pursuant to the provisions in Part 795 of this chapter, as amended: *Provided further*, That if at least 55 per centum of the cropland acreage on an established summer fallow farm is devoted to a summer fallow use, no further acreage shall be required to be set aside on the farm.

(3) The acreage set aside from production as stated in Form 516 must be devoted to one or more approved conservation uses specified in Part 792 of this chapter, as amended, or to alternate crops and the operator must comply with the limitations on the use of such acreage also specified in such part.

(4) In addition to the acreage referred to in subparagraph (3) of this paragraph, an acreage equal to the conserving base established for the farm under Part 792 of this chapter, as amended, must be devoted to one or more of the conservation uses specified in such part. Acreage designated as diverted or set aside under any other Federal acreage reduction program shall not be counted toward maintaining the conserving base unless authorized in the regulations governing such program or Part 792 of this chapter, as amended.

(5) In the case of any farm participating in the CRP, CCP, or CAP, the acreage of feed grains and other nonconserving crops other than approved alternate crops on acreage set aside under this program, the wheat set-aside program, and the upland cotton set-aside program, plus the acreages set aside under such programs, shall not exceed the smallest number of acres of nonconserving crops permitted under the CRP, CCP, and CAP.

(6) Land owned by the Federal Government which has been leased subject to restrictions prohibiting the production of feed grains, or requiring the use of land for other purposes, or prohibiting the receipt of Federal payments for diversion or set aside of such acreage will not be eligible for participation in the program. Any other land owned by the Federal Government which is being occupied without a lease, permit, or other right of possession or land in a national wildlife refuge shall not be eligible for participation in the program.

(7) Producers on a farm acquired for future development for purposes other than agricultural production shall not be eligible for participation in the program, unless the county committee determines that the farm is actively engaged in the production of crops for harvest other than hay, sod, ornamentals, or timber.

(c) *Producer eligibility requirements.* (1) The producer must be a person who as landowner, landlord, tenant, or sharecropper shares in the corn, grain sorghums, or barley produced in the current year (or the proceeds therefrom) on a farm meeting the requirements of paragraph (b) of this section or would have shared in one or more of these commodities if feed grains had been produced on such farm in the current year.

(2) A minor will be eligible to participate in the program only if (i) the right of majority has been conferred on him by court proceedings; or (ii) a guardian has been appointed to manage his property and the applicable documents are signed by the guardian; or (iii) a bond is furnished under which a surety guarantees to protect the Commodity Credit Corporation from any loss incurred for which the minor would be liable had he been an adult. Notwithstanding the foregoing, payment may be made to a minor after December 31 of the current year upon a determination by the county committee that the minor has met the requirements of the program.

§ 775.11 Additional set-aside.

In addition to the acreage required to be set aside under § 775.10(b)(2), acreage may be set aside for 1972, on other than farms with new farm bases under either but not both of the options provided in paragraphs (a) and (b) of this section.

(a) In addition to the required set-aside, producers may set aside an acreage of cropland up to 10 percent of the corn and grain sorghum bases established for the farm and up to 20 percent of the barley base. Producers may also set aside an additional acreage of cropland equal to 5 percent or 10 percent of the sum of the corn and grain sorghum bases.

(b)(1) In addition to the required set-aside, producers may set aside an acreage of cropland equal to 5 percent of the corn and grain sorghum bases established for the farm and an additional acreage of cropland equal to 5 percent of the sum of the corn and grain sorghum bases. Producers electing to set aside acreage under this paragraph (b) must reduce the 1972 corn and grain sorghum acreage for the farm below the 1971 acreage for such commodities by an acreage equal to twice the amount of acreage set aside under this paragraph.

(2) For the purpose of this paragraph (b), the 1971 corn and grain sorghum acreage shall be the 1971 feed grain planted and considered planted acreage as defined in § 775.2(e) of the regulations governing the 1971 program, 36 F.R. 12835, not to exceed the larger of (i) 50 percent of the 1971 total feed grain base, or (ii) the 1971 corn and grain sorghum acreage as defined in § 775.2 (b) and (c) of the regulations governing the 1971 program, plus acreage which failed and was credited as corn or grain sorghum acreage. Notwithstanding the provisions of the foregoing sentence, when the 1971 feed grain planted and considered planted acreage is from 45 to 50 percent of the 1971 total feed grain base, the 1971 corn and grain sorghum acreage shall, for the purpose of this paragraph, be increased to 50 percent of the 1971 total feed grain base.

(3) For the purpose of this paragraph (b), the 1972 corn and grain sorghum acreage shall be the acreage defined in § 775.2 (g) and (m) plus any 1972 acreage of popcorn used for livestock feed except where such popcorn is (i) harvested primarily for human consumption and only the residue is pastured or harvested for livestock feed, or (ii) planted for human consumption but no ears are harvested for this purpose solely because of adverse weather conditions.

§ 775.12 Intention to participate in the program.

(a) *Who may file.* A Form 516 must be filed by the operator of an eligible farm if he wishes to participate in the program.

(b) *Where to file.* Form 516 shall be filed with the office of the county committee having jurisdiction over the county where the farm is located.

(c) *When to file.* Form 516 shall be filed within the period authorized by the Deputy Administrator. Notwithstanding the foregoing, the closing date may be extended by the county committee if the producers on the farm establish, to the satisfaction of the county committee, that they intended to participate in the program and the failure to file by such date was not due to the fault or negligence of the producers.

(d) *Withdrawal and revision.* The operator may, upon approval of the county committee, withdraw Form 516 by filing a written notice of withdrawal of the form with the county committee, except that the form may not be withdrawn after the operator certifies to program acreage on the farm which is found by measurement to be erroneous by an amount exceeding the tolerance, if any, authorized under provisions of Part 718 and Part 791 of this chapter, as amended. If Form 516 is withdrawn, the producers on the farm may, not later than the closing date, file a new Form 516. If the farm is reconstituted or if a revised feed grain base notice is issued for any reason, the operator shall have 15 days after the mailing date of such notice of reconstitution or revised feed grain base to file a new form 516.

§ 775.13 Designation, use, and care of set-aside acreage.
